<b>Listing:</b>	We will apply to list the notes on the New York Stock Exchange
<b>Governing Law:</b>	New York law
<b>Definitions:</b>	Unless otherwise defined herein, all capitalized terms have the meaning set forth in the Preliminary Prospectus Supplement

***Description of Notes***

Interest will be payable on the Notes quarterly in arrear, on August 10, November 10, February 10 and May 10 in each year (each, an **interest payment date**), commencing on November 10, 2016, to the person in whose name such note is registered at the close of business on the business day immediately preceding the applicable date on which interest will be paid (or, if the Notes are held in definitive form, the 15<sup>th</sup> business day preceding the applicable date on which interest will be paid). The Notes will bear interest from (and including) August 10, 2016 to (but excluding) November 10, 2016, at a rate per annum equal to the initial interest rate and thereafter at an interest rate that will be reset as described below to a rate per annum equal to LIBOR (as defined below) plus 2.11% per annum. The initial interest rate will be equal to LIBOR plus 2.11% per annum as determined by the calculation agent as described below.

If any interest payment date, other than the maturity date, for the Notes would fall on a day that is not a business day, the interest payment date will be postponed to the next succeeding business day, except that if that business day falls in the next succeeding calendar month, the interest payment date will be the immediately preceding business day. If the maturity date for the Notes would fall on a day that is not a business day, the payment of interest and principal will be made on the next succeeding business day, and no interest will accrue after such maturity date. For the Notes, **business day** means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions in the City of New York or London, England are authorized or required by law, regulation or

executive order to close.

Each interest period on the notes will begin on, and include, an interest payment date and end on, but not include, the following interest payment date (each, an **interest period** ); provided that the first interest period will begin on August 10, 2016 and will end on, but not include the first interest payment date. The rate of interest on the Notes will be reset quarterly on August 10, November 10, February 10 and May 10 in each year, commencing on November 10, 2016 (each, an **interest reset date** ); provided that the interest rate in effect from (and including) August 10, 2016 to (but excluding) the first interest reset date will be the initial interest rate. If any interest reset date would fall on a day that is not a business day, the interest reset date will be postponed to the next succeeding business day, except that if that business day falls in the next succeeding calendar month, the interest reset date will be the immediately preceding business day.

The Issuer will appoint a calculation agent for the Notes on or prior to the issuance date of the Notes (the **calculation agent**). The calculation agent will determine the initial interest rate for the Notes by reference to LIBOR on the second London banking day preceding the issue date and the interest rate for each succeeding interest reset period by reference to LIBOR on the second London banking day preceding the applicable interest reset date (each an **interest determination date**). Promptly upon such determination, the calculation agent will notify the Issuer and the trustee (if the calculation agent is not the trustee) of the new interest rate. Upon the request of the holder of any Note, the calculation agent will provide the interest rate then in effect and, if determined, the interest rate that will become effective on the next interest reset date.

**London banking day** means any day on which dealings in U.S. dollars are transacted in the London interbank market.

**LIBOR** will be determined by the calculation agent in accordance with the following provisions:

(1) With respect to any interest determination date, LIBOR will be the rate (expressed as a percentage per annum) for deposits in U.S. dollars having a maturity of three months commencing on the related interest reset date that appears on Reuters Page LIBOR01 as of 11:00 a.m., London time, on that interest determination date. If no such rate appears, then LIBOR, in respect of that interest determination date, will be determined in accordance with the provisions described in (2) below.

(2) With respect to an interest determination date on which no rate appears on Reuters Page LIBOR01, the calculation agent will request the principal London offices of each of four major reference banks in the London interbank market (which may include affiliates of the underwriters), as selected and identified by the Issuer, to provide its offered quotation (expressed as a percentage per annum) for deposits in U.S. dollars for the period of three months, commencing on the related interest reset date, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that interest determination date and in a principal amount that is representative for a single transaction in U.S. dollars in that market at that time. If at least two quotations are provided, then LIBOR on that interest determination date will be the arithmetic mean of those quotations. If fewer than two quotations are provided, then LIBOR on the interest determination date will be the arithmetic mean of the rates quoted at approximately 11:00 a.m., in the City of New York, on the interest determination date by three major banks in The City of New York (which may include affiliates of the underwriters) selected and identified by the Issuer for loans in U.S. dollars to leading European banks, for a period of three months, commencing on the related interest reset date, and in a principal amount that is representative for a single transaction in U.S. dollars in that market at that time. If at least two such rates are so provided, LIBOR on the interest determination date will be the arithmetic mean of such rates. If fewer than two such rates are so provided, LIBOR on the interest determination date will be LIBOR in effect with respect to the immediately preceding interest determination date.

**Reuters Page LIBOR01** means the display that appears on Reuters Page LIBOR01 or any page as may replace such page on such service (or any successor service) for the purpose of displaying London interbank offered rates of major banks for U.S. dollars.

The day count fraction will be Actual/360.

All percentages resulting from any calculation of any interest rate for the Notes will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one-millionths of a percentage point rounded upward (e.g., 9.876545% (or .09876545) would be rounded to 9.87655% (or .0987655)), and all dollar amounts would be rounded to the nearest cent, with one-half cent being rounded upward.

All calculations made by the calculation agent for the purposes of calculating interest on the Notes shall be conclusive and binding on the holders of the Notes, the issuer and the trustee, absent manifest error.

**Additional considerations related to the Notes**

For any interest period, if 3-month USD LIBOR is negative, then it would reduce the interest rate payable for such interest period below the specified margin. Accordingly, holders may receive an interest rate on the Notes that is lower than the specified margin.

**The Issuer has filed a registration statement (including a prospectus dated May 2, 2014 (the Prospectus ) and the Preliminary Prospectus Supplement) with the U.S. Securities and Exchange Commission ( SEC ) for this offering. Before you invest, you should read the Prospectus and the Preliminary Prospectus Supplement for this offering in that registration statement, and other documents the Issuer has filed with the SEC for more complete information about the issuer and this offering.
