**(Address of principal executive office)**

Indicate by check mark whether the registrant files or will file annual reports under cover Form 20-F or Form 40-F.

Form 20-F

Form 40-F

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes

No

**Declaration of Commerciality of the Libra Northwest area,  
in the Pre-salt of Santos Basin**

Rio de Janeiro, November 30, 2017    Petróleo Brasileiro S.A.    Petrobras, as the Operator and acting on behalf of the Libra Consortium, announces that today it submitted the declaration of commerciality to the Brazil's National Petroleum, Natural Gas and Biofuels Agency (ANP) regarding the oil accumulation located in the northwestern portion of Libra block, in the Pre-salt of the Santos Basin.

It was also submitted to ANP the final report, part of the Discovery Evaluation Plan (DEP) of the 2-ANP-2A-RJS well, the discovery well of the Libra reservoir in 2010.

In the declaration sent to the regulatory agency, it was suggested that the new field should be named Mero, and the field's total recoverable volume is estimated at 3.3 billion barrels of oil.

The Mero field is located around 180 kilometers off the Rio de Janeiro coast, in ultra deep waters and has high quality carbonate reservoirs with expected high well productivity. During the exploratory and evaluation phase, eight wells were drilled in the DEP area, identifying reservoirs with good quality oil and high commercial value 29° API.

The first oil was produced with the Pioneiro de Libra FPSO, through an Extended Well Test (EWT), with the objective of evaluating the dynamic behavior and deepening the reservoir knowledge, aiming at optimizing the future field development, as disclosed to the market on November 27, 2017.

The consortium plans to continue the production development with 4 new production systems to be deployed in Mero field and will continue the exploratory phase of the remaining area of Libra, whose term was extended for another 27 months.

The Libra Consortium is led by Petrobras with a 40% interest in partnership with Shell (20%); Total (20%); CNPC (10%) and CNOOC Limited (10%). Pré-Sal Petróleo (PPSA) manages the Libra Production Sharing Contract.
