***Petrobras Starts Production of P-77, the fourth platform of Búzios field, in the pre-salt of Santos Basin***

Rio de Janeiro, March 19, 2019 - Petróleo Brasileiro S.A. - Petrobras reports that it has started today the production of oil and natural gas of P-77, the fourth platform to be put into production in the Búzios field.

Búzios field, in the pre-salt of the Santos Basin, was discovered in 2010 and is the main field under the Transfer of Rights Agreement. The field started production in April 2018 and currently has 4 platforms in production.

In line with Petrobras Strategic Plan, P-77 is the third platform to be put into production in 2019, out of four platforms planned for production this year.

With a daily capacity to process up to 150,000 barrels of oil and compress up to 6 million cubic meters of natural gas, P-77 will contribute to the growth of Petrobras production in 2019.

The FPSO (floating unit for production, storage and offloading of oil and gas) is located approximately 200 km off the Rio de Janeiro state coast, at a water depth of 1,980 meters. The project provides for its interconnection to nine production wells and eight injection wells. Drainage of oil production shall be made through lifting vessels, while the production of gas shall be drained by the routes of the pre-salt gas pipelines.

**FORWARD-LOOKING STATEMENTS**

**This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are subject to risks and uncertainties. The forward-looking statements, which address the Company's expected business and financial performance, among other matters, contain words such as believe, expect, estimate, anticipate, optimistic, intend, plan, aim, will, may, should, could, would, likely, and similar expressions cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. There is no assurance that the expected events, trends or results will actually occur. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.**

**The Company's actual results could differ materially from those expressed or forecast in any forward-looking statements as a result of a variety of assumptions and factors. These factors include, but are not limited to, the following: (i) failure to comply with laws or regulations, including fraudulent activity, corruption, and bribery; (ii) the outcome of ongoing corruption investigations and any new facts or information that may arise in relation to the Lava Jato Operation ; (iii) the effectiveness of the Company's risk management policies and procedures, including operational risk; and (iv) litigation, such as class actions or proceedings brought by governmental and regulatory agencies. A description of other factors can be found in the Company's Annual Report on Form 20-F for the year ended December 31, 2017, and the Company's other filings with the U.S. Securities and Exchange Commission.**

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Date: March 19, 2019.
