- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

ITEM Unregistered Sales of Equity Securities  
3.02

From October 2, 2010 through October 8, 2010, the Company continued to retire its debt through the issuance of common stock. Upon the issuance of the common stock, the Company reduced the debt on its books in an amount equal to the total dollar amount of debt being retired. In addition, the Company also issued common stock to one or more individuals and/or entities for services provided to the Company.

From October 2, 2010 through October 8, 2010, a total of seven entities elected to convert a total of \$173,887 of commercial and other debt owed to them from the Company as a result of advances, loans and services provided to the Company, pursuant to each entity's respective Convertible Promissory Notes, into 144,179,805 shares of the Company's common stock. The Company relied on the exemption from registration relating to offerings that do not involve any public offering pursuant to Section 4(2) under the Securities Act of 1933 (the "Act") and/or Rule 506 of Regulation D promulgated under the Act. The Company believes that each entity is an "accredited investor" under Rule 501 under Regulation D and had adequate access to information about the Company through its relationship with the Company.

From October 2, 2010 through October 8, 2010, three entities and individuals were issued a total of 23,000,000 shares of the Company's common stock in consideration of services to the Company valued at \$58,100. The Company relied on the exemption from registration afforded pursuant to Section 4(2) under the Act due to the fact that the issuance of the shares did not involve a public offering of securities.

As of October 8, 2010, the total issued and outstanding shares were 371,966,565, including shares held in reserve in accordance with certain contractual obligations of the Company. The total shares held in street name, also known as the float, were 287,616,161 shares.

The Company's current plan is to retire a major portion of its debt, thereby eventually reducing the amount of shares that will need to be issued in connection with Company debt. As the Company continues to grow and revenues increase, the need to issue shares for services and other non-debt consideration should also decrease, thereby also reducing the numbers of shares to be issued for services and other consideration.

The Company is planning to seek stockholder approval to register the offer and sale of \$10,000,000 in common and preferred stock, with the proceeds being used to retire debt, further expand operations and to implement a stock repurchase program to reduce the number of shares in the market.

There can be no guarantee that the Company plans, including the retirement of debt through stock issuances and the planned offering and registration, will be successful and the failure to implement and execute such plans could have a material adverse impact on the Company and its stockholders, as the Company would need to continue to issue additional stock, thereby increasing, rather than decreasing, the number of shares issued and outstanding.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned hereunto duly authorized.
