PLAYTEX PRODUCTS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The interim Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information. In preparing our interim financial statements, we make certain adjustments (consisting of normal recurring adjustments) considered necessary in our opinion for a fair presentation of our financial position and results of operations. The results of operations for the three and six month periods ended July 1, 2006 are not necessarily indicative of the results that you may expect for the full year.

Our results for the second quarter of 2006 and 2005 are for the 13 week periods ended July 1, 2006 and July 2, 2005. Our results for the first six months of 2006 are for the 26 week period ended July 1, 2006 and our results for the first six months of 2005 are for the 27 week period ended July 2, 2005. Our fiscal year end is on the last Saturday in December, nearest to December 31 and, as a result, a fifty-third week is added every five or six years. Our 2005 fiscal year was a fifty-three week year.

Our interim financial information and accompanying notes should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2005. Certain prior year amounts have been reclassified to conform to our current year presentation.

2. Impact of Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an Interpretation of Statement of Financial Accounting Standard (SFAS) No. 109 . FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact of adopting FIN 48 on the Consolidated Financial Statements.

3. Stock Based Compensation Plans

At July 1, 2006, the Company had stock based awards outstanding under two stock based compensation plans: The Playtex 2003 Stock Option Plan for Directors and Executives and Key Employees of Playtex Products, Inc. and The Stock Award Plan. The Company's shareholders approved both of these plans. Stock based awards under these plans consist of stock option awards and restricted stock awards. All awards contain vesting provisions based on continuous service; additionally, certain awards also have additional vesting requirements, which are based on achieving certain performance conditions. Equity issued from these plans may come from either authorized but unissued stock or from treasury stock. A detailed description of these plans and the associated stock based awards under these plans can be found in the Company's 2005 Annual Report on Form 10-K.

Prior to January 1, 2006, we accounted for stock based compensation in accordance with SFAS No. 123, Accounting for Stock Based Compensation, as amended by SFAS No. 148, Accounting for Stock Based Compensation Transition and Disclosure. As permitted by SFAS No. 123 and SFAS No. 148, we followed the intrinsic value approach of Accounting Principles Board Opinion (APB) No. 25 and FASB Interpretation No. 44, Accounting for Certain Transactions Involving Stock Based Compensation, an Interpretation of APB No. 25 issued for determining compensation expense related to the issuance of stock options. Accordingly, we did not record any compensation expense for our stock options that vested solely on continuous service since the exercise price was equal to the fair market value of our common stock on the grant date. However, in accordance with APB No. 25, in the second quarter of 2005, we recorded \$0.7 million of compensation expense related to the issuance of restricted stock, performance restricted stock and performance-based options.

On January 1, 2006, we adopted the provisions of SFAS No. 123 (revised 2004), Share Based Payment, which requires us to measure all employee stock based compensation awards using a fair value method and recognize such expense in our consolidated financial statements. In addition, SFAS No. 123 (R) requires additional accounting related to the income tax effects and additional disclosure regarding the cash flow effects resulting from stock based payment arrangements.

PLAYTEX PRODUCTS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3. Stock Based Compensation Plans (Continued)

We adopted SFAS No. 123 (R) using the modified prospective transition method in which compensation cost is recognized beginning January 1, 2006 for all stock based payments granted on or after that date and for all awards granted to employees prior to January 1, 2006 that remain unvested on that date. Under this transition method, compensation cost recognized in fiscal 2006 includes: (a) compensation cost for all stock based awards granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, as adjusted for an estimate of the number of awards that will be forfeited and (b) compensation cost for all stock based payments granted on or after January 1, 2006 based on the grant-date fair value estimated in accordance with the provisions of SFAS No. 123 (R). Previously, the Company had recognized the impact of forfeitures as they occurred. The grant-date fair value of the awards generally vests over the service period. Total stock compensation expense associated with both stock options and restricted stock awards recognized by the Company for the three and six months ended July 1, 2006 was \$1.9 million, or \$1.2 million net of taxes, and \$4.1 million, or \$2.6 million net of taxes, respectively. This expense is included in selling, general and administrative (SG&A) expenses.

In fiscal years prior to 2006, the attribution method used to determine compensation cost varied based on the type of stock based award. For performance based options with either a performance or market condition, and restricted stock with a performance condition, all of which vest based on continuous service and the Company's attainment of the performance or market condition, the Company used a straight line method of recognizing compensation cost over the service period when attainment of the performance or market condition was determined to be probable. For stock options and restricted stock awards that vested solely based on continuous service, the Company used the accelerated method of recognizing compensation costs (for pro forma disclosure purposes only) for awards with graded vesting. The accelerated method treated tranches of a grant as separate awards, amortizing the compensation costs over each vesting period within a grant. For example, for an award vesting ratably over a three-year period, the associated compensation expense was recognized as follows: 61% in the first year, 28% in the second year, and 11% in the third year. Beginning in fiscal 2006, as allowed by SFAS No. 123 (R), the Company elected to recognize compensation costs for all new awards using the straight line method, amortizing the expense ratably over the service period for the award, or one third per year for an award vesting ratably over approximately a three-year period.

In order for options and restricted stock awards to be valued, a grant date must be determined. Those options and restricted stock for which a grant date has not been determined are considered non valued. Certain of our performance options and performance restricted stock awards vest annually over approximately a three year period. For these awards, the performance target for each vesting year is determined during the first quarter of that vesting year. The date that the performance target is set is considered the grant date under SFAS No. 123(R) and is the date the Company measures the fair value of those previously issued but non valued awards.

The Company estimated the fair value of equity awards granted during the six months ended July 1, 2006 on the date of grant using the Black Scholes option-pricing formula. The following weighted average assumptions were used to value the 2006 grants: expected life ranging from 5.1 years to 6.1 years; expected stock volatility of 38%; risk free interest rate range of 4.58% to 5.06%; and expected dividend yield of 0% during the expected term. The Company estimated the fair value of its option awards granted prior to January 1, 2006 using the Black Scholes option-pricing formula, with the exception of performance options that vested based on achievement of targets for the Company's stock price. These options were valued using a Monte Carlo Simulation valuation model. See the Company's 2005 Annual Report on Form 10-K for the Black Scholes weighted-average assumptions for grants made during the past three fiscal years.

PLAYTEX PRODUCTS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

3. Stock Based Compensation Plans (Continued)

The following table summarizes our stock option activity for the six months ended July 1, 2006:

	Number of Options (In 000 s)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (In 000 s)
Outstanding valued at December 31, 2005	5,374	\$ 9.08		
Granted	410	\$ 10.94		
Exercised	(96)	\$ 9.08		
Expired	(56)	\$ 13.05		
Forfeited	(135)	\$ 9.80		
Outstanding valued at July 1, 2006	5,497	\$ 9.16	6.7	\$ 10,485
Outstanding valued vested options and options expected to vest in the future at July 1, 2006	5,386	\$ 9.17	6.6	\$ 10,275
Outstanding non valued options expected to vest	267	\$ 10.94	9.3	
Outstanding expected to vest (valued and non valued)	5,653	\$ 9.26	6.7	\$ 10,275
Exercisable at July 1, 2006	3,369	\$ 10.00	6.0	\$ 4,653

The following table summarizes our restricted shares activity for the six months ended July 1, 2006:

	Shares (In 000 s)	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Life (In Years)
Outstanding valued at December 31, 2005	365	\$ 10.74	
Granted	491	\$ 10.70	
Vested	(350)	\$ 10.74	
Forfeited	(19)	\$ 10.53	
Outstanding valued at July 1, 2006	487	\$ 10.71	0.9
Outstanding valued and expected to vest in the future	476	\$ 10.70	
Outstanding non valued and expected to vest	518	N/A	1.7
Outstanding expected to vest (valued and non valued)	994	N/A	1.3

Total intrinsic value of options exercised during the six months ended July 1, 2006 amounted to \$0.2 million. As of July 1, 2006, there was approximately \$6.8 million of total unrecognized compensation costs related to our valued stock options and restricted shares that are expected to vest, which will be recognized over a weighted-average period of approximately 0.9 years.

Edgar Filing: PLAYTEX PRODUCTS INC - Form 10-Q

Prior to January 1, 2006, the Company had accounted for stock based compensation costs in accordance with APB No. 25, as permitted by SFAS No. 123. The following table illustrates the pro forma effect of stock-based compensation on net income and earnings per share as if we had applied the fair value recognition provisions of SFAS No. 123, as

PLAYTEX PRODUCTS, INC.

Earnings per share:		
As reported: basic and diluted	\$ 0.10	\$ 0.34
Pro forma: basic and diluted	\$ 0.10	\$ 0.34

4. Restructuring

In February 2005, we announced a Realignment Plan to improve focus on our core categories, reduce organizational complexity and obtain a more competitive cost structure. This is a continuation of our Operational Restructuring Plan that began in late 2003. Charges for the 2005 realignment totaled \$16.7 million, of which \$4.2 million in restructuring expenses and \$2.0 million of other related expenses (\$1.9 million in cost of goods and \$0.1 million in SG&A expenses) were recorded in 2005. The initial charges of \$10.1 million in restructuring expenses and \$0.4 million of other related expenses (in SG&A) were recorded in the fourth quarter of 2004 and related primarily to severance liabilities under our existing severance policy.

We expect the majority of the remaining restructuring liability at July 1, 2006 will be paid in cash during the remainder of 2006.

The following tables summarize the restructuring activities for the six months ended July 1, 2006 and July 2, 2005 (in thousands):

	Beginning Balance	Charged to Income	Adjustments and Changes to Estimates	Utilized, Net		Ending Balance
				Cash	Non-Cash

6. Treasury Stock

At July 1, 2006, treasury stock consists of 538,265 shares of common stock. In the second quarter 2006, we repurchased 500,000 shares of our common stock on the open market at a cost of \$5.8 million as part of our previously announced stock repurchase program. We are authorized to repurchase up to \$15 million of our common stock primarily for the purpose of mitigating the dilution impact on earnings per share as a result of our equity compensation plans. The remaining shares of treasury stock represent forfeited restricted stock. These forfeited shares may only be used to fund future grants of equity under The Stock Award Plan.

7. Expenses Related to Retirement of Debt

In the second quarter of 2006, we repurchased on the open market, and subsequently canceled, \$19.5 million principal amount of our 9 ³/₈% Senior Subordinated Notes due 2011 (the 9 ³/₈% Notes) at a premium of \$0.9 million. In the first quarter of 2006, we repurchased on the open market, and subsequently canceled, \$49.0 million principal amount of our 8% Senior Secured Notes due 2011 (the 8% Notes,) (collectively, the Notes,) at a premium of \$3.7 million. As a result, in the second quarter of 2006 and in the first half of 2006, we wrote off \$0.3

Edgar Filing: PLAYTEX PRODUCTS INC - Form 10-Q

million and \$1.0 million, respectively, of unamortized deferred financing fees, representing the pro rata portion of the unamortized deferred financing fees associated with the repurchased Notes. In the second quarter of 2005, we repurchased \$39.8 million principal amount of our 8% Notes at a premium of \$3.1 million. In the first half of 2005, we repurchased \$81.1 million principal amount of our 8% Notes at a premium of \$7.1 million. As a result, in the second quarter of 2005 and in the first half of 2005, we wrote off \$0.8 million and \$1.5 million, respectively, of deferred financing fees related thereto.

(1) Net of tax effect of \$0.8 million at July 1, 2006 and \$0.6 million at December 31, 2005.

(2) Net of tax effect of \$2.9 million at July 1, 2006 and at December 31, 2005.

PLAYTEX PRODUCTS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

8. Income Taxes

In the second quarter of 2006, we recorded a tax provision of \$6.0 million. The first half of 2006 includes a \$0.4 million charge resulting from the reduction of excess deferred tax benefits determined as restricted shares vested. Exclusive of this charge, our effective tax rate was 36.6% for the first half of 2006. In the second quarter of 2005, we recorded a tax provision of \$4.1 million reflecting our 40.0% effective tax rate. The first half of 2005 included a \$4.1 million tax benefit to reflect the reduced tax rate associated with the special repatriation of undistributed earnings from our foreign subsidiaries under The American Jobs Creation Act of 2004. Exclusive of this benefit, our effective tax rate for the first half of 2005 was 39.9%.

9. Pension and Other Postretirement Benefits

The components of the net periodic pension expense for the three and six months ended July 1, 2006 and July 2, 2005 are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	July 1, 2006	July 2, 2005	July 1, 2006	July 2, 2005
Net Periodic Pension Expense				
Service cost benefits earned during the period	\$ 275	\$ 363	\$ 550	\$ 727
Interest cost on projected benefit obligation	861	814	1,721	1,622
Expected return on plan assets	(1,154)	(1,082)	(2,307)	(2,172)
Amortization of prior service cost	3	4	6	7
Recognized actuarial loss	104	102	208	140
Amortization of transition obligation	6	7	12	14
Net periodic pension expense	\$ 95	\$ 208	\$ 190	\$ 338

In determining the expected return on plan assets, the market related value of plan assets for the pension plan is equal to fair value.

The components of the net periodic postretirement benefit expense for the three and six month periods ended July 1, 2006 and July 2, 2005 are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	July 1, 2006	July 2, 2005	July 1, 2006	July 2, 2005
Net Periodic Postretirement Benefit Expense				
Service cost benefits earned during the period	\$ 165	\$ 189	\$ 330	\$ 378
Interest cost on accumulated benefit obligation	228	306	456	612
Amortization of prior service credit	(583)	(584)	(1,167)	(1,168)
Recognized actuarial loss	196	299	394	598
Net periodic postretirement benefit expense	\$ 6	\$ 210	\$ 13	\$ 420

10. Business Segments

We are organized in three core business segments and have grouped our divested brands as a fourth segment, as follows:

Feminine Care The Feminine Care segment includes the following:

Edgar Filing: PLAYTEX PRODUCTS INC - Form 10-Q

Plastic applicator tampons:
Playtex Gentle Glide,
Playtex Portables, and
Playtex Slimfits.

Cardboard applicator tampons:
Playtex Beyond.
Personal Cleansing Cloths.

PLAYTEX PRODUCTS, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

10. Business Segments (Continued)

Skin Care The Skin Care segment includes the following:

Banana Boat sun care products,
Wet Ones pre-moistened towelettes,

Playtex Gloves, and
Other skin care products.

Infant Care The Infant Care segment includes the following:

Playtex disposable feeding,
Playtex reusable hard bottles,
Playtex cups and mealtime products,
Playtex pacifiers,

Diaper Genie diaper disposal system,
Embrace breast pump, and
Hip Hammock child carrier.

Divested In late 2005, we completed the sale of our non-core brand assets. The divested brand assets included intellectual property, inventory, molds and equipment for the Baby Magic, Mr. Bubble, Ogilvie, Binaca, Dorothy Gray, Dentax, Tek, Tussy, Chubs and Better Off brands.

The results of our business segments for the three and six months ended July 1, 2006 and July 2, 2005 are as follows. Corporate includes general and administrative charges not allocated to the business segments as well as all restructuring charges, equity compensation charges and amortization of intangibles (in thousands):

	Three Months Ended			
	July 1, 2006		July 2, 2005	
	Net Sales	Operating Income	Net Sales	Operating Income
Feminine Care	\$ 53,931	\$ 17,533	\$ 57,977	\$ 16,352

11. Earnings Per Share

The following table explains how our basic and diluted Earnings Per Share (EPS) were calculated for the three and six months ended July 1, 2006 and July 2, 2005 (in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	July 1, 2006	July 2, 2005	July 1, 2006	July 2, 2005
Numerator:				
Net income	\$ 10,290	\$ 6,162	\$ 19,709	\$ 21,131
Denominator:				
Weighted average shares outstanding basic	62,637	61,561	62,659	61,403
Effect of Dilutive Securities:				
Dilutive effect of restricted stock	170	6	97	3
Dilutive effect of performance based stock options	139	106	175	53
Dilutive effect of time based stock options	532	552	583	388
Weighted average shares outstanding diluted	63,478	62,225	63,514	61,847
Earnings per share:				
Basic and diluted	\$ 0.16	\$ 0.10	\$ 0.31	\$ 0.34

The basic weighted average shares outstanding do not include non vested shares of restricted stock. The shares of restricted stock are included in our issued and outstanding shares but are considered contingent shares for purposes of GAAP and are therefore excluded from basic weighted average shares outstanding.

Basic EPS excludes all potentially dilutive securities. Basic EPS is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS includes all dilutive securities. Potentially dilutive securities include stock options and restricted stock granted to our employees and members of our Board of Directors. At July 1, 2006 and July 2, 2005, anti dilutive weighted average shares totaling 1.8 million shares and 3.6 million shares, respectively, were excluded from the diluted weighted average shares outstanding. Diluted EPS is computed by dividing net income, adjusted by the if-converted method for convertible securities, by the weighted average number of common shares outstanding for the period plus the number of additional common shares that would have been outstanding if the dilutive securities were issued. In the event the dilutive securities are anti dilutive on net income (*i.e.*, have the effect of increasing EPS), the impact of the dilutive securities is not included in the computation.

12. Commitments and Contingencies

In our opinion, there are no claims, commitments, guarantees or litigations pending to which we or any of our subsidiaries is a party which would have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Company.

13. Subsequent Event

In July 2006, we repurchased an additional \$26.0 million principal amount of our 9 ³/₈ % Notes on the open market, at a premium of \$1.2 million. We will write off \$0.3 million of unamortized deferred financing fees related thereto.

PLAYTEX PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the unaudited Consolidated Financial Statements and notes included in this report and the audited Consolidated Financial Statements and notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2005.

Forward Looking Statements

This document includes forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. The statements contained in this document that are not statements of historical fact may include forward looking statements that involve a number of risks and uncertainties. You should keep in mind that any forward looking statement made by us in this document, or elsewhere, speaks only as of the date on which we make it. Refer to Part I, Item 1A in our Annual Report on Form 10-K for the year ended December 31, 2005 for factors that may cause actual results to differ materially from our forward looking statements.

Critical Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States (GAAP) requires us to make estimates and assumptions. These estimates and assumptions affect:

- The reported amounts and timing of revenue and expenses,
- The reported amounts and classification of assets and liabilities, and
- The disclosure of contingent assets and liabilities.

Actual results could vary from our estimates and assumptions. These estimates and assumptions are based on historical results, assumptions that we make, as well as assumptions by third parties.

Key areas where assumptions and estimates are used include sun care returns, bad debt reserves, long lived assets, goodwill and indefinite lived intangible assets, promotional accruals, restructuring and related charges and pension and postretirement benefits. In addition, costs related to equity compensation require management to make certain estimates, including the probability about whether certain performance and market based targets, such as operating results and stock price, will be achieved. These performance and market based targets may be impacted by circumstances outside of the control of management. For a more in depth discussion of our critical accounting policies, refer to the Management's Discussion and Analysis in our Annual Report on Form 10-K for the year ended December 31, 2005.

Overview

Our results for the second quarter of 2006 and 2005 are for the 13 week periods ended July 1, 2006 and July 2, 2005. Our results for the first six months of 2006 are for the 26 week period ended July 1, 2006 and our results for the first six months of 2005 are for the 27 week period ended July 2, 2005. Our fiscal year end is on the last Saturday in December, nearest to December 31 and, as a result, a fifty-third week is added every five or six years. Our 2005 fiscal year was a fifty-three week year. We do not believe the extra week included in the first quarter of 2005 contributed materially to net sales or net income for the six months ended July 2, 2005.

Our results for the three and six months ended July 1, 2006 and July 2, 2005 were impacted by certain restructuring and related charges as well as other charges and gains that should be considered in reviewing the results as presented, including:

- Lower selling, general and administrative (SG&A) expenses of \$1.5 million and \$4.5 million in the three and six months ended July 2, 2005, respectively, as a result of income received from legal settlements;
- Restructuring and related expenses of \$2.2 million in the three months ended July 2, 2005, of which \$0.7 million was included in cost of sales, and restructuring and related expenses of \$3.4 million in the six months ended July 2, 2005, of which \$1.0 million was included in cost of sales and \$0.2 million was included in SG&A.

PLAYTEX PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Expenses related to the retirement of debt of \$1.2 million and \$5.6 million for the three and six months ended July 1, 2006, respectively, and \$3.8 million and \$8.6 million for the three and six months ended July 2, 2005, respectively; and

A tax benefit of \$4.1 million in the first half of 2005 related to the repatriation of cash from a foreign subsidiary.

The financial results for the first half 2005 include sales of \$28.6 million and operating income of \$5.1 million from certain non-core brands, which were divested in late 2005. Therefore, the net sales and operating income results are not fully comparable for the periods presented. Proceeds from the sale of these brands were used to repurchase debt, which also had an impact on the comparability of interest expense.

In the second quarter of 2006, we repurchased 500,000 shares of our stock on the open market as part of our recently announced stock repurchase program. These shares are reflected as treasury stock at July 1, 2006.

On January 1, 2006, we adopted the provisions of Statement of Financial Accounting Standard (SFAS) No. 123 (R), Share Based Payment, which requires us to measure all employee stock based compensation awards using a fair value method and recognize such expense in our consolidated financial statements. Non-cash equity compensation of \$4.1 million was recorded in the first half of 2006, as compared to \$0.7 million during the first half of 2005.

Results of Operations*Three Months Ended July 1, 2006 Compared To Three Months Ended July 2, 2005*

The following table sets forth our Consolidated Statements of Income, including net sales by major product segment, as well as our consolidated results of operations expressed as a percentage of net sales for the three months ended July 1, 2006 and July 2, 2005. The discussion should be read in conjunction with our Consolidated Financial Statements and accompanying notes in this Quarterly Report on Form 10-Q (in thousands):

	Three Months Ended			
	July 1, 2006		July 2, 2005	
	\$	%	\$	%
Net Sales:				
Feminine Care	\$ 53,931	29.9	\$ 57,977	32.8

PLAYTEX PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Net Sales Our consolidated net sales increased \$3.3 million, or 2%, to \$180.3 million in the second quarter of 2006. The second quarter of 2005 included \$13.2 million of net sales related to the divested brands. Exclusive of the divested brands, net sales were higher by \$16.5 million, or 10%, for the second quarter of 2006 versus the comparable period of 2005. This increase was due primarily to increased sales from our Skin Care segment, driven by a strong 2006 sun care season, along with growth in Infant Care.

Net sales of Feminine Care products decreased \$4.0 million, or 7%, to \$53.9 million in the second quarter of 2006 as compared to the similar quarter in 2005 due primarily to lower shipments of *Gentle Glide* and *Beyond* tampons. As previously announced, we have executed a price increase in *Gentle Glide* by reducing the number of tampons per box from 20/40 per box to 18/36 per box. We believe the transition to the new box count included a lower level of replenishment orders by retailers in the second quarter of 2006 to reduce their inventory of the larger box count product in anticipation of the shipment of the new box size.

Net sales of Skin Care products increased \$18.5 million, or 27%, to \$85.6 million for the second quarter of 2006. This increase was due primarily to higher shipments driven by a strong 2006 sun care season coupled with strong results for *Banana Boat* new products.

Net sales of Infant Care products increased \$2.1 million, or 5%, to \$40.8 million in the second quarter of 2006 due primarily to higher sales in infant feeding products, particularly hard bottles and cups.

Gross Profit Our consolidated gross profit increased \$4.9 million, or 5%, to \$97.4 million in the second quarter of 2006 due to higher net sales as compared to the same quarter in 2005. Exclusive of the divested brands, gross profit increased \$9.6 million in the second quarter of 2006 as compared to the second quarter of 2005. Gross margin for the second quarter of 2006 increased to 54.0%, up 170 basis points, from 52.3% for the second quarter in 2005. This increase in gross profit margin was due primarily to improved product mix resulting primarily from the divestiture of the non-core brands, which contributed 130 basis points of the increase. Further benefits of our restructuring and realignment efforts more than offset the approximately \$1.5 million in raw material price increases.

Operating Income Our consolidated operating income increased \$1.5 million, or 5%, to \$31.9 million in the second quarter of 2006 compared to the second quarter 2005. This increase was driven primarily by higher gross profit, particularly in the Skin Care segment, partially offset by higher SG&A expenses of \$4.8 million. SG&A expenses for the second quarter of 2006 includes the negative impact of \$1.9 million of non-cash equity compensation, which was only \$0.7 million in the comparable quarter in 2005. In addition, the second quarter of 2005 included the positive impact of a \$1.5 million legal settlement. The remaining increase is due primarily to higher advertising and promotional investments in the second quarter of 2006, which is consistent with our previously disclosed strategy of higher investment in our businesses.

Interest Expense, Net Our consolidated interest expense, net decreased \$1.9 million to \$14.3 million in the second quarter of 2006 versus the comparable period of 2005. The decrease in interest expense, net is due to the impact of lower average debt balances as a result of our debt reduction initiative.

Expenses Related to Retirement of Debt In the second quarter of 2006, we repurchased on the open market, and subsequently canceled, \$19.5 million principal amount of our 9 ³/₈% Senior Subordinated Notes due 2011 (the 9 ³/₈% Notes) at a premium of \$0.9 million. In addition, we wrote off \$0.3 million of unamortized deferred financing fees, representing the pro-rata portion of the unamortized deferred financing fees associated with the repurchased 9 ³/₈% Notes. In the second quarter of 2005, we repurchased \$39.8 million principal amount of our 8% Senior Secured Notes due 2011 (the 8% Notes,) (collectively, the Notes,) at a premium of \$3.1 million and we wrote off \$0.8 million of deferred financing fees related thereto.

Provision for Income Taxes Our consolidated income tax expense was \$6.0 million for the second quarter of 2006, or 37% of pre-tax income, as compared to \$4.1 million, or 40% of pre-tax income, for the second quarter of 2005. The decline in the effective tax rate for second quarter of 2006 versus the comparable period is due primarily to the mix of domestic versus international earnings for the period.

PLAYTEX PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Six Months Ended July 1, 2006 Compared To Six Months Ended July 2, 2005

The following table sets forth our Consolidated Statements of Income, including net sales by major product segment, as well as our consolidated results of operations expressed as a percentage of net sales for the six months ended July 1, 2006 and July 2, 2005. The discussion should be read in conjunction with our Consolidated Financial Statements and accompanying notes in this Quarterly Report on Form 10-Q (in thousands):

	Six Months Ended			
	July 1, 2006		July 2, 2005	
	\$	%	\$	%
Net Sales:				
Feminine Care	\$ 108,189	30.4	\$ 111,995	30.8
Skin Care	162,151	45.5	137,667	37.8
Infant Care	85,974	24.1	85,455	23.5
	356,314	100.0	335,117	92.1
Divested			28,582	7.9
	356,314	100.0	363,699	100.0
Cost of sales	161,701	45.4	171,501	47.2
Gross profit	194,613	54.6	192,198	52.8
Operating expenses:				
Selling, general and administrative	126,800	35.6	117,796	32.4
Restructuring			2,208	0.6
Amortization of intangibles	1,288	0.3	1,217	0.3
Total operating expenses	128,088	35.9	121,221	33.3
Operating income	66,525	18.7	70,977	19.5
Interest expense, net	28,835	8.1	34,044	9.4
Expenses related to retirement of debt	5,569	1.6	8,592	2.3
Other expenses	68	0.0	21	0.0
Income before income taxes	32,053	9.0	28,320	7.8
Provision for income taxes	12,344	3.5	7,189	2.0
Net income	\$ 19,709	5.5	\$ 21,131	5.8

Net Sales Our consolidated net sales decreased \$7.4 million, or 2%, to \$356.3 million in 2006. This decrease was due to the impact of divested brands in late 2005 as net sales of the divested brands were \$28.6 million in the first half of 2005. Exclusive of the divested brands, net sales were higher by \$21.2 million, or 6%, for the first half of 2006 versus the comparable period of 2005.

Net sales of Feminine Care products decreased \$3.8 million, or 3%, to \$108.2 million in the first half of 2006 as compared to the similar period in 2005 due primarily to lower shipments of *Beyond* and *Gentle Glide* tampons. As noted previously, we are executing a price increase in *Gentle Glide* by reducing the number of tampons per box from 20/40 per box to 18/36 per box. The transition to the new box count included a lower level of replenishment orders by retailers in the second quarter of 2006 to reduce their inventory of the larger box count product in anticipation of the shipment of the new box size.

Edgar Filing: PLAYTEX PRODUCTS INC - Form 10-Q

Net sales of Skin Care products increased \$24.5 million, or 18%, to \$162.1 million in 2006 versus the comparable period in 2005. This increase was primarily from higher shipments of *Banana Boat* and *Wet Ones* hand and face wipes.

Net sales of Infant Care products grew slightly to \$86.0 million in 2006 due primarily to higher shipments of cups and hard bottles.

PLAYTEX PRODUCTS, INC.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Gross Profit Our consolidated gross profit increased \$2.4 million, or 1%, to \$194.6 million in the first half of 2006 due to improved gross margins. Exclusive of the divested brands, gross profit increased \$12.9 million in the first half of 2006 as compared to the first half of 2005. Gross margin for the first half of 2006 increased to 54.6%, up 180 basis points, from 52.8% for the first half of 2005. This increase in gross profit margin was due primarily to improved product mix resulting primarily from the divestiture of the non-core brands, which contributed 140 basis points of the increase. Further benefits of our restructuring and realignment efforts more than offset the approximately \$3.5 million in raw material price increases.

Operating Income Our consolidated operating income decreased \$4.4 million, or 6%, to \$66.5 million in the first half of 2006 driven by the impact of the divested brands, which accounted for \$5.1 million of operating income in the first half of 2005. SG&A expenses increased \$9.0 million in the first half of 2006, versus the first half of 2005, and includes the negative impact of \$4.1 million of non-cash equity compensation, which was only \$0.7 million in the first half of 2005. The first half of 2005 included the positive impact of \$4.5 million in legal settlements received. The remaining change in the year over year comparison was due primarily to the favorable impact of our restructuring efforts, offset by higher advertising and promotional investments during the first half of 2006.

Interest Expense, Net Our consolidated interest expense, net decreased \$5.2 million to \$28.8 million in the first half of 2006 versus the comparable period of 2005. The decrease in interest expense, net is due to the impact of lower average debt balances as a result of our debt reduction initiative.

Expenses Related to Retirement of Debt In the first half of 2006, we repurchased on the open market, and subsequently canceled, \$68.5 million principal amount of our Notes at a premium of \$4.6 million. In addition, we wrote off \$1.0 million of unamortized deferred financing fees, representing the pro-rata portion of the unamortized deferred financing fees associated with the repurchased Notes. In the first half of 2005, we repurchased \$81.1 million principal amount of our 8% Notes at a premium of \$7.1 million and we wrote off \$1.5 million of deferred financing fees related thereto.

Provision for Income Taxes Our consolidated income tax expense was \$12.3 million for the first half of 2006 and \$7.2 million for the first half of 2005. Included in tax expense for the first half of 2006 is a \$0.4 million charge resulting from the reduction of excess deferred tax benefits determined as restricted shares vested. The first half of 2005 includes a tax benefit of \$4.1 million related to the repatriation of cash from a foreign subsidiary under the American Jobs Creation Act of 2004. Exclusive of these items, our effective tax rate for the six months ended July 1, 2006 would have been 37% versus 40% for the comparable period in 2005. The decline in the effective tax rate for second half of 2006 versus the comparable period is due primarily to the mix of domestic versus international earnings for the period.

Liquidity and Capital Resources

Cash and Cash Equivalents

At July 1, 2006, we had \$23.6 million of cash and cash equivalents as compared to \$94.4 million at December 31, 2005. This decrease in cash was due primarily to the repurchase of \$68.5 million principal amount of our Notes on the open market, at a premium of \$4.6 million, and the repurchase of 500,000 shares of Company common stock for treasury at a cost of \$5.8 million under the previously announced common stock repurchase program.

In July 2006, we repurchased an additional \$26.0 million principal amount of our 9 ³/₈% Notes on the open market, at a premium of \$1.2 million.

Net cash used for investing activities	(11,748)	(9,284)
Net cash used for financing activities	(84,255)	(83,272)

Net Cash Provided by Operations Our net cash provided by operations was \$25.1 million for the six months ended July 1, 2006 as compared to \$23.9 million for the same period in 2005. The year over year increase in cash provided was due primarily to changes in working capital.

Net Cash Used for Investing Activities Our cash used for investing activities of \$11.7 million for the six months ended July 1, 2006 was comprised of capital expenditures in the normal course of business of \$8.9 million in the first half of 2006 as compared to \$3.5 million for the same period in 2005. Capital expenditures for fiscal 2006 are expected to be approximately \$14 million. In the first half of 2006, we also paid \$1.5 million for certain licensing agreements and \$1.3 million to our former CEO under a non compete agreement. In the first half of 2005, cash used for investing activities, in addition to capital expenditures, was comprised of \$4.7 million for the purchase of certain distribution rights associated with our *Banana Boat* product and \$1.3 million to our former CEO under the non compete agreement.

Net Cash Used for Financing Activities Our cash used for financing activities of \$84.2 million during the first half of 2006 was the result of the repurchase on the open market, and subsequent retirement, of \$68.5 million principal amount of our Notes plus related premium costs of \$4.6 million. In addition, we repaid \$6.3 million outstanding on the revolver. We also paid \$5.8 million to repurchase, on the open market, 500,000 shares of our common stock, which are now included in treasury stock. This was partially offset by \$0.9 million of net proceeds from the issuance of common stock under our equity award program. During the first half of 2005, we repurchased \$81.1 million of our 8% Notes at a premium of \$7.1 million, which was partially offset by \$4.9 million of net proceeds from the issuance of stock under our equity award program.

Capital Resources

We intend to fund our operating cash, capital expenditures and debt service requirements through cash generated from operations and borrowings under our credit agreement through fiscal 2009. We may not generate sufficient cash from operations to make either the \$290.2 million scheduled principal payment on the 8% Notes or the \$294.5 million, which includes the impact of the July 2006 repurchases of \$26.0 million noted earlier, on the 9 ³/₈% Notes, both due in fiscal 2011. Accordingly, we may have to refinance our obligations, sell assets or raise equity capital to repay the principal amounts of these obligations. Historically, our cash from operations and refinancing activities have enabled us to meet all of our obligations. However, we cannot guarantee that our operating results will continue to be sufficient or that future borrowing facilities will be available for the payment or refinancing of our debt on economically attractive terms.

We may repurchase, on the open market or by a call provision as defined in the indentures, our 8% Notes or our 9 ³/₈% Notes as part of our efforts to reduce debt. The availability and price of the Notes are subject to market conditions including the interest rate environment and the market outlook for high-yield securities. Such market factors are not within our control and may impact our ability to execute our repurchase program. We may also continue to repurchase our common stock in the open market or in privately negotiated transactions under our previously announced stock repurchase program.

Recently Issued Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes, an Interpretation of SFAS No. 109 . FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken in a tax return. The Company must determine whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact of adopting FIN 48 on the Consolidated Financial Statements.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Item 3. Quantitative and Qualitative Disclosures about Market Risk

All of our indebtedness at July 1, 2006 is comprised of fixed rate notes. We have in the past and may in the future use financial instruments, such as derivatives, to manage the impact of interest rate changes on our debt and its effect on our income and cash flows. Our policies prohibit the use of derivative instruments for the sole purpose of trading for profit on price fluctuations, or to enter into contracts, which intentionally increase our underlying interest rate exposure. Our indebtedness at July 1, 2006 was comprised of \$290.2 million of 8% Notes and \$320.5 million of 9³/₈% Notes. As such, at July 1, 2006, a one percentage point change in our variable interest rate would not have a material impact on our consolidated interest expense.

For the six month period ended July 1, 2006, we derived approximately 8% of net sales in currencies other than the U.S. dollar, the vast majority of which was from our Canadian subsidiary. We conduct our international operations in a variety of countries and derive our sales in currencies including: the Euro, British pound, Canadian dollar and Australian dollar, as well as the U.S. dollar. Our results may be subject to volatility because of currency changes, inflation changes and changes in political and economic conditions in the countries in which we operate. We may periodically enter into hedging contracts to minimize the foreign exchange risk. The majority of our products are manufactured in the U.S., but we do source some equipment, finished goods, componentry and raw materials from overseas, the majority of which is denominated in U.S. dollars.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company's management carried out an evaluation, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act), as of the end of the latest fiscal quarter. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of July 1, 2006, the Company's disclosure controls and procedures were effective to ensure that material information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission rules and forms and that such information is accumulated and communicated to the Company's management, including the Company's principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal controls over financial reporting during the quarter ended July 1, 2006 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PLAYTEX PRODUCTS, INC.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

See Note 12 to our Unaudited Consolidated Financial Statements in this Quarterly Report on Form 10-Q for a discussion of commitments and contingencies.

Item 1A. Risk Factors

There have been no material changes in our risk factors since we last reported under Part I, Item 1A, in our Annual Report on Form 10-K for the year ended December 31, 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 20, 2006, the Company announced that its Board of Directors had authorized a one year stock buy back program to allow for the repurchase of up to a maximum of \$15 million of its Common Stock from time to time in open market or privately negotiated transactions. The following table summarizes the issuer purchases of equity securities (in thousands, except share and per share data):

	Total Number of Shares Purchased	Average Price Paid Per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
April 20, 2006 to April 29, 2006		\$		\$ 15,000
April 30, 2006 to June 3, 2006	500,000	11.60	500,000	\$ 9,202
June 4, 2006 to July 1, 2006				\$ 9,202
Total	500,000	\$ 11.60	500,000	\$ 9,202

(1) Average price paid per share includes cash paid for commissions.

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of Stockholders held on May 16, 2006, the following actions were taken:

Nine nominees were elected as Directors to hold office until the Annual Meeting of Stockholders in 2007 and until their successors are duly authorized and qualified.

Name	Votes For	Votes Withheld
Neil P. DeFeo	52,284,800	577,431
Herbert M. Baum	52,243,989	618,242
Michael R. Eisenson	52,566,527	295,704
Ronald B. Gordon	49,364,907	3,497,324
R. Jeffrey Harris	52,515,148	347,083
C. Ann Merrifield	52,740,623	121,608
Susan R. Nowakowski	52,645,823	216,408
Douglas D. Wheat	51,441,587	1,420,644
Nick White	52,515,091	347,140

The selection of the firm of KPMG LLP was ratified as our independent registered public accounting firm for fiscal 2006.
