Section 16(a) Beneficial Ownership Reporting

Section 16(a) of the Securities and Exchange Act of 1934 requires the Company's Officers and Directors and persons who own more than ten percent (10%) of a registered class of the Company's equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC"). Such Officers, Directors, and stockholders are required by SEC regulations to furnish the Company with copies of all such reports that they file.

Based solely on a review of copies of reports filed with the SEC and of written representations by certain Officers and Directors, other than as previously disclosed in the Company's definitive proxy statement for the fiscal year ended June 30, 2006, all persons subject to the reporting requirements of Section 16(a) filed the required reports on a timely basis during the fiscal year ended June 30, 2007.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

Key objectives of the Company's executive compensation programs are as follows:

- attract, retain, and motivate highly talented individuals at all levels of the organization;
- ensure senior officers (senior vice presidents and above) act on behalf of shareholders through the use of equity-based rewards, mandatory deferrals of annual incentive awards in company shares, and individual shareholding requirements;
- provide compensation levels, consistent with our overall philosophy, that are intended to be fair (but not excessive) and competitive with similar sized companies in CACI's industry; and

- provide incentives and rewards for executives commensurate with their roles and responsibilities based on corporate performance.

To accomplish these objectives, the Company's executive compensation programs are based on the following guiding principles:

- base salaries for senior officers are reviewed annually based on changes in the market and individual responsibilities and are targeted at the 50th percentile of the competitive market;
- total compensation for each of the named executive officers ("NEOs") is chiefly contingent upon performance (i.e., is at risk), but is targeted at the 75th percentile of the competitive market predicated upon reaching aggressive targets;
- total compensation as measured for benchmarking purposes is comprised of base salary, an annual incentive award, and the annualized expected value of long-term equity incentive awards (including restricted stock, stock options, and Stock-Settled Stock Appreciation Rights ("SSARs"));
- quarterly and annual bonuses are formula-based and linked to performance against stated company and individual objectives;
- a Management Stock Purchase Plan ("MSPP") for senior officers that requires each executive to defer a portion of his or her annual incentive into Company stock and provides the opportunity to purchase additional Company stock;
- equity-based compensation provides incentives to maximize shareholder value;
- senior officers are required to maintain long-term stock ownership through ownership guidelines expressed as a multiple of salary;
- retirement programs have been designed to encourage executive officers to save for their retirement;
- severance and change-in-control benefits reflect industry practices;
- to the extent possible, compensation is structured so it is fully tax deductible to the Company; and
- senior officer perquisites and special benefits are limited, relative to competitive practice, and are primarily business-related.

We believe that the Company's executive compensation policies, plans and programs advance the objectives listed above and adhere to the necessary standards of corporate governance.

Governance of Compensation Programs

The Compensation Committee of the Board of Directors (the "Committee") has both a strategic and administrative role in managing the compensation structure of the Company with an emphasis on compensation of top management. Strategically, the Committee considers how the achievement of the overall goals and objectives of the Company can be aided through adoption of appropriate compensation philosophy and effective program elements. Administratively, the Committee reviews compensation paid, salary progressions, incentive compensation allocations, the awards of supplemental benefits and perquisites for key executives, and stock awards granted under all shareholder-approved plans.

The Committee has authority under its Charter to engage the services of outside advisors, experts and others to assist the Committee. In accordance with this authority, in fiscal year 2007 the Committee engaged Watson Wyatt & Company as an independent outside compensation consultant to advise the Committee on matters

pertaining to NEO compensation, director compensation, stock programs, legal and regulatory updates, and other general industry compensation practices. In particular, the compensation consultant was responsible for providing information on new laws and regulations pertaining to the Committee and performing independent assessments of recommendations brought before the Committee. The compensation consultant attended all meetings of the Committee in fiscal year 2007. The Company paid approximately \$37,000 to Watson Wyatt for these services in fiscal year 2007.

Benchmarking Compensation

Each year the Company commissions a benchmarking study of compensation levels for executive positions to help inform the Compensation Committee's decisions and monitor the Company's executive compensation programs. As in previous years, the benchmarking study for the year ended June 30, 2007 was conducted by an independent consultant, The Quinson Group.

The competitive market for NEO positions was measured by four distinct analyses:

- Hay Group Job Evaluation
- Peer Market Analysis (from proxy statements of peer companies)
- Technical Industry Market Survey Analysis
- Internal Comparisons

The Hay Group Job Evaluation measured the level and type of responsibilities for each NEO relative to a database of similarly situated executives in surveyed companies and established competitive compensation ranges on this basis. Peer Market Analysis compared NEO compensation to compensation data derived from the proxy statements of individually selected peer companies. Technical Industry Market Survey Analysis compared the NEOs to executives with similar responsibilities of similar company size and industry specificity to the comparison. Internal Comparisons enabled the Company to take into consideration the fairness of compensation based on internal reporting relationships and relative level of responsibility.

Comparisons were made to executive compensation levels at seven publicly traded companies. These companies were selected based on similarities to CACI in size (e.g., revenue and market capitalization; the trailing twelve month revenues for CACI were the third largest within the peer group of publicly traded companies at the time of the analysis), and industry and operational similarities. The selected companies were as follows:

| | |
|------------------------------|-----------------------------------|
| Axiom Corporation | Covansys Corporation |
| Level 3 Communications, Inc. | Mantech International Corporation |
| Perot Systems Corporation | SI International, Inc. |
| SRA International, Inc. | |

Based on the four separate analyses, CACI's mix of compensation elements is similar to those of the peer group companies. Further, base salary and total compensation for the Company's executive officers fall at the targeted benchmarks.

Analysis of the Company's Executive Compensation Programs

The following section provides details on each element of the Company's executive compensation programs. This section illustrates how each element accomplishes the established objectives and how these elements, in total, match the Company's stated compensation philosophy.

Base Salary Program

Consistent with the Company's stated intention of delivering compensation that is linked to corporate and individual performance, base salaries for the NEOs, which are not at risk to the executive, are targeted at the 50th percentile of the competitive market and are intended to constitute a small portion of total compensation (approximately 25%).

The Compensation Committee approved a 2% base salary increase for each NEO for fiscal year 2007. While benchmarking supported higher percentages, the increase was limited to match a corporate-wide 2% target for all employees.

Incentive Compensation Plan

In addition to base salary, the Company provides a quarterly and annual incentive compensation program. It is the Committee's intent to tie a significant portion of compensation to Company or business unit performance and to pre-established performance criteria and individual objectives.

Incentive bonus payouts are intended to provide total cash compensation at up to the 75th percentile of the competitive market when the Company achieves targeted (i.e., planned) levels of performance against established performance metrics. This philosophy enables CACI to compete for and retain top-level talent and, combined with midpoint base salaries, ensures a significant portion of compensation is at-risk to maintain a pay-for-performance mentality.

Target corporate performance metrics are established annually and approved by the Committee. These metrics provide annual targets for net after tax profitability, earnings per share, and revenue, among others, and are comprised of quarterly targets. Approved corporate targets flow down through the organization to the business unit level and beyond. It is the Committee's intention that these corporate targets place CACI in the 75th percentile of performance in the competitive market, which matches the targeted compensation level.

Minimum, or "Cut," threshold levels for each metric are also approved by the Committee, as are upper, or "Stretch," levels. Corresponding Cut and Stretch incentive compensation levels are also established. As it is not the intention of the Committee to incentivize minimum performance levels, Cut compensation levels are set below market midpoint levels. Stretch compensation levels are set at up to the 90th percentile of the market. For performance below minimum threshold levels, no bonus is awarded. For performance at or above Cut levels, bonus payouts are prorated between levels on a straight-line basis. Above Stretch levels, bonus payouts are calculated as a percentage of the NEO's respective metric performance; for example, in fiscal year 2007, Dr. London was entitled to receive 1.5% of the Company's net after tax profitability above the Stretch metric.

The ranges between Cut and Target levels of performance and between Target and Stretch levels are based upon multiple factors assessed by the Committee, including historical ranges and historical performance against Target, Cut, and Stretch metrics. For fiscal year 2007, Cut metrics were set 7.5% below Target metrics, and Stretch metrics were set 5.0% above Target metrics. These ranges were based upon an analysis of the previous six fiscal years, and were intended to provide a challenging upper range and a reasonable minimum threshold. Based upon fiscal year 2007 performance, in addition to prior year analysis, the Committee established Cut metrics 9.0% below Target metrics; the wider range reflected retention concerns at lower levels of the organizations (e.g., below NEO), with the goal being to set an achievable minimal level of performance. Stretch metrics were set 5.3% above Target metrics, in line with historical ranges.

Individual incentive programs are established annually for each NEO, with the performance metrics used intended to focus each executive upon the aspects of the business over which he or she has the most direct influence. The following fiscal year 2007 NEO performance metrics and target bonus levels were approved by the Compensation Committee:

| NEO (Fiscal Year 2007 Position) | Target Bonus | Metrics |
|--|-----------------|----------------------------------|
| Dr. J.P. London Chairman of the Board, President, and | \$ 1,736,400 | CACI Net After Tax Profitability |

| | | |
|---|---------------------------|---|
| Chief Executive Officer | | |
| Paul M. Cofoni President, U.S. Operations CACI, INC.-FEDERAL | \$ 1,012,800 | CACI Net After Tax Profitability, individual performance objectives |
| William M. Fairl Chief Operating Officer, U.S. Operations CACI, INC.-FEDERAL | \$ 668,600 | U.S. Operations Net After Tax Profitability, CACI Net After Tax Profitability, U.S. Operations Revenue, individual performance objectives |
| Thomas A. Mutryn Executive Vice President, Chief Financial Officer and Treasurer | \$ 400,000 ⁽¹⁾ | CACI Net After Tax Profitability, individual performance objectives |
| Gregory R. Bradford Chief Executive, CACI Limited, and President, U.K. Operations | \$ 335,500 | U.K. Net After Tax Profitability |

- (1) Mr. Mutryn is also eligible for acquisition bonuses based upon the trailing twelve month revenue and EBIT of acquired companies.

The profitability measure is expressed on an after-tax basis due to the stability of this metric, and its use in the Company's planning and budgeting processes. Individual performance objectives for the NEOs may include, but are not limited to business retention, cash flow management, corporate development, cash collections, quality assurance, and cost control initiatives.

Performance against these objectives is measured and paid out on a quarterly and annual basis. Sixty percent of the overall award is attributable to attaining the annual performance goals. Forty percent is attributable to quarterly goals with a 10% weighting placed on each quarter ensuring focus upon short-term progress toward annual goals. Attainment of Target incentive compensation levels is intended to align with achievement of our budgeted financial results for each fiscal year. However, actual results may be higher or lower, and in fact were lower in fiscal year 2007. Performance relative to these metrics is delineated below on both a quarterly basis and for fiscal year 2007:

| Metric | Quarter 1 | Quarter 2 | Quarter 3 | Quarter 4 | Annual |
|---|----------------------|---------------------------------------|------------------------------------|------------------------------------|---------------------------------------|
| CACI Net After Tax Profitability | At Target Threshold | At Minimum Threshold | Below Minimum Threshold (no bonus) | Below Minimum Threshold (no bonus) | Below Minimum Threshold (no bonus) |
| U.S. Operations Net After Tax Profitability | At Target Threshold | Below Minimum Threshold (no bonus) | Below Minimum Threshold (no bonus) | Below Minimum Threshold (no bonus) | Below Minimum Threshold (no bonus) |
| U.S. Operations Revenue | At Target Threshold | Between Minimum and Target Thresholds | Below Minimum Threshold (no bonus) | At Target Threshold | Between Minimum and Target Thresholds |
| U.K. Net After Tax Profitability | At Stretch Threshold | At Stretch Threshold | Above Stretch | Above Stretch | Above Stretch |

Corporate performance metrics may be modified by the Committee during the fiscal year due to changes in business conditions (e.g., acquisitions, major corporate events, etc.). During fiscal year 2007, no modifications were made.

Long-Term Incentive Stock Plan

The 2006 Stock Incentive Plan is designed to promote the long-term growth and profitability of the Company by (i) providing directors and executives with incentives to improve stockholder value and to contribute to the growth and financial success of the Company; and (ii) enabling the Company to attract, retain and reward key executives.

Stockholder approval was sought and acquired as needed to satisfy one of the prerequisites for treatment of certain payments under the 2006 Stock Incentive Plan as "performance-based compensation" within the meaning of Internal Revenue Code ("IRC") section 162(m).

Senior officers of CACI received a grant of stock options and restricted stock under the plan in fiscal year 2007. The awards were determined by targeting a specific expected annualized value of long-term awards and denominating a portion in stock options and a portion in restricted stock according to a predetermined mix of each. Stock options comprised 65% of the grant date fair value of the total award and restricted stock comprised 35% of the grant date fair value of the total award.

The Committee approved all stock option grants, the number of which for each NEO is disclosed in column (j) of the Grant of Plan-Based Awards table. The grant date fair value is disclosed in column (l) of the Grant of Plan-Based Awards table.

All stock option grants are made with exercise prices that are equal to or greater than the fair market value of the Company's stock on the date of grant. The grant dates of the grants correspond to pre-determined meetings of the Committee during which the awards are approved. The Company does not grant incentive stock options, and therefore compensation realized from the exercise of stock options is intended to be fully tax-deductible by the Company.

The Committee approved all restricted stock grants, the number of which is disclosed in column (i) of the Grant of Plan-Based Awards table. The grant date fair value of these restricted stock grants is disclosed in column (l) of the Grant of Plan-Based Awards table.

The restricted stock awards are settled in shares of CACI stock. The plan rewards continued service with the Company and assists in the accumulation of significant equity stakes for participating executives.

All grants were made based on recommendations made by Dr. London, with the exception of Dr. London's grant (which was recommended by the Executive Vice President and Director of Business Operations, whose role includes responsibility for executive compensation), for evaluation and approval by the Committee. Grants were at the median of pre-established grant guidelines for each NEO that represent the competitive market for their positions and responsibilities.

In June 2007, the Committee approved two changes to the current grant practices for the fiscal year ending June 30, 2008: (i) changing the grants of stock options to grants of SSARs; and (ii) altering the mix of the awards to a slightly greater portion of SSARs to restricted stock than the previous mix of stock options to restricted stock.

Further, as part of the executive transition previously discussed, on June 20, 2007 the Committee approved a special one-time grant to Mr. Cofoni. The grant consists of 300,000 SSARs with a special vesting schedule: the

shares [cliff vest] (e.g., 100% vest) after five years, but vesting can be accelerated if the Company's stock price achieves and maintains the following levels for a 30-day period after one year (no part of this grant will vest within the first year, per the terms of the 2006 Stock Incentive Plan):

| Stock Price | Vested SSARs (upon achievement) | Vested SSARs (cumulative) |
|--------------------|--|--------------------------------------|
| \$ 60 | 40,000 | 40,000 |
| \$ 70 | 50,000 | 90,000 |
| \$ 80 | 60,000 | 150,000 |
| \$ 90 | 70,000 | 220,000 |
| \$ 100 | 80,000 | 300,000 |

15

As previously discussed, effective July 1, 2007, Mr. Fairl was promoted to the position of President, U.S. Operations, and Mr. Fuerst was promoted to the position of Chief Operating Officer, U.S. Operations. On July 2, 2007, the Committee approved special one-time grants to Mr. Fairl and Mr. Fuerst as part of the transition to their new roles. Each grant consists of 25,000 SSARs with the same accelerators contained in Mr. Cofoni's plan:

| Stock Price | Vested SSARs (upon achievement) | Vested SSARs (cumulative) |
|--------------------|--|--------------------------------------|
| \$ 60 | 3,333 | 3,333 |
| \$ 70 | 4,167 | 7,500 |
| \$ 80 | 5,000 | 12,500 |
| \$ 90 | 5,833 | 18,333 |
| \$ 100 | 6,667 | 25,000 |

Management Stock Purchase Plan

The MSPP is designed to promote the long-term growth and profitability of the Company by (i) providing executives with incentives to improve stockholder value and to contribute to the growth and financial success of the Company; and (ii) enabling the Company to attract, retain and reward key executives. The Board believes that the MSPP will serve these goals, encouraging executives to convert a higher percentage of their cash compensation into Company equity.

The MSPP provides for equity ownership in the Company by senior officers by (i) requiring the deferral of a portion of their annual bonuses in the Company's common stock; (ii) permitting such executives to use remaining annual bonus amounts to acquire additional shares of the common stock; and (iii) providing such executives with other economic incentives to use annual bonuses to acquire additional shares of the Company's common stock. All deferred shares are bought at a discount of up to 15%, as determined annually by the Committee, of fair market value. The Company may grant matching awards, in an amount not to exceed 25% of the participant's combined mandatory and elective deferrals and subject to such vesting or other restrictions and conditions as the Committee determines. The amount of the matching grant will be determined by the Committee no later than December 31 of the fiscal year in which the bonus is earned (or as otherwise specified in the MSPP for matching awards that qualify under IRC section 162(m)). During fiscal year 2007, the Committee approved a 5% discount with no matching. The fair market value of the Company's common stock is defined as the last reported price at which the common stock was traded on the date of the grant or, if no common stock is traded on that date, the price on the most recent date on which the Company's common stock was traded, in either case, as reflected on the applicable registered national securities exchange.

The awards fully vest after 36 months of continuous employment, or, if earlier, upon death, disability, or a [change in control] as defined in the MSPP (and in the case of matching awards, upon retirement on or after age 65).

With respect to each vested RSU, the Company issues to the participant one share of the Company's common stock at the earlier of (i) the end of the deferral period specified in the participant's subscription agreement, which may be, at the election of the participant, three or more years, (ii) the date of the participant's termination of employment due to retirement over the age of 65, death, or disability, or (iii) the date of the termination of the MSPP. The Company has reserved for issuance to participants under the MSPP an aggregate of 500,000 shares of common stock, which shares are to be purchased by the Company in the market on a periodic basis as required.

The MSPP is administered by the Committee. The MSPP may be amended or terminated by the Board at any time, subject to certain restrictions.

16

The following NEO MSPP deferrals were made in fiscal year 2007; a 5% RSU purchase discount was applied to all deferrals:

| NEO (Fiscal Year 2007 Position) | Annual % Deferred | Annual Bonus Subject to MSPP | Annual Bonus Amount Deferred | RSUs Purchased |
|---|----------------------|---------------------------------------|---------------------------------------|-------------------|
| Dr. J.P. London Chairman of the Board, President, and Chief Executive Officer | N/A | \$ 0 | \$ 0 | 0 |
| Paul M. Cofoni President, U.S. Operations CACI, INC.-FEDERAL | N/A | \$ 0 | \$ 0 | 0 |
| William M. Fairl Chief Operating Officer, U.S. Operations CACI, INC.-FEDERAL | 20% | \$ 52,200 | \$ 10,440 | 216 |
| Thomas A. Mutryn Executive Vice President, Chief Financial Officer and Treasurer | N/A | \$ 0 | \$ 0 | 0 |
| Gregory R. Bradford Chief Executive, CACI Limited, and President, U.K. Operations | 20% | \$ 65,432 | \$ 13,085 | 270 |

Stock Ownership Guidelines

The Committee has adopted executive stock ownership guidelines for executives at the level of senior officers to focus those executives on the long-term growth in value of the Company. The Committee expects senior officers to own common stock equal to a multiple of base salary from as much as seven times for the President and CEO as well as the Chairman of the Board and Executive Chairman to lesser amounts for the other senior officers. During fiscal year 2007, the stock ownership guidelines were amended to set timing to reach required ownership level to eight years for all participants (previously this ranged from six to eight years, based on the senior officer's level). Shareholdings are measured annually to determine compliance with the plan. If at the annual measurement date the senior officer's ownership does not meet the measurement multiple set for that timeframe (guideline requirements are calculated each year for such purpose as a straight-line prorated amount to the final requirement and years to meet such requirement), the senior officer may have any bonus monies withheld to purchase shares until he/she meets the requirement.

The Committee reviewed the executive stock ownership guidelines during fiscal year 2007. The guidelines were found to have stricter requirements than those of the Company's competitors. In general, no changes were made to the base salary multiple as the Committee feels these guidelines meet the standards set forth by the Committee.

Benefits and Executive Perquisites

Executives are also permitted to participate in certain broad-based employee benefit plans on substantially the same terms as other employees who meet applicable eligibility criteria. For example, the Company makes matching contributions to the Company's voluntary 401(k) plan on behalf of the executive based on the amount of each executive's contributions to the 401(k) plan.

Executives at the level of vice president and above may elect to contribute up to 50% of their base salary and 100% of their bonuses and commissions on a pre-tax basis to the CACI Non-Qualified Executive Retirement Plan, which is administered by The Newport Group. The Company contributes 5% of all income over the Internal Revenue Service ("IRS") limit set forth in IRC Section 401(a)(17) to participants, and may make a supplemental discretionary contribution to a participant's account in any amount it elects. The portion of a participant's account attributable to elective deferrals, including investment returns, is fully vested at all times. The portion of a participant's account attributable to Company contributions and related earnings is fully vested after five years of service as an eligible employee.

Dr. London receives a \$25,000 allowance to be used for business or personal expenses, which is taxable as ordinary income. Effective July 1, 2007, Mr. Cofoni receives a similar \$25,000 allowance in connection with his position as President and Chief Executive Officer. Dr. London and all other NEOs also receive automobile allowances. In addition, NEOs are eligible to receive a one-time allowance of \$7,500 for the purposes of financial and estate planning. There is no time limit on when the service must be used.

The CACI International Inc Supplemental Executive Retirement Plan ("SERP") is only provided to Mr. Cofoni. The Company provides no other executive a SERP and does not anticipate providing another one in the future. This benefit was provided to Mr. Cofoni to partially offset the loss of his SERP benefit from his previous employer in order to acquire his services and is, therefore, consistent with the Company's philosophy of attracting and retaining critical talent.

All amounts related to perquisites for NEOs are disclosed in the column (i) of the Summary Compensation Table, along with details on their valuations.

Executive Transition and Top Management Team Compensation

Due to the transition in roles and responsibilities of the top management team at the end of fiscal year 2007, as discussed above, compensation was reevaluated and new compensation packages, effective July 1, 2007, were approved by the Committee. Each executive's relative level of responsibility in his new position was assessed during the evaluation process, and this assessment was factored into the final compensation determination. Dr. London and the Committee were also mindful that the new team of six executives (the five NEOs listed above and Mr. Fuerst) maintain a similar collective profile of responsibilities as the prior group of five executives, while better addressing the larger and more diverse scope of the Company's operations. While most executives ultimately received a higher level of compensation commensurate with their increased responsibilities, Dr. London's compensation was adjusted downward to reflect the new executive structure. Despite the inclusion of an additional executive, the aggregate value of target total compensation for the whole team in the upcoming year will be substantially similar in size (only 5% higher) to the previous team (assuming that the previous team had retained the same roles and were provided compensation increases similar to other executives in the same industry).

Employment and Severance Agreements

The Company has entered into agreements with all of the NEOs for the purpose of providing those executives with a degree of security that will increase the chances that they will remain with the Company; NEOs are the only employees of the Company that have such agreements. The Company believes that appropriate severance arrangements are necessary in order to attract and retain key executives. In addition, the Company pays limited amounts to NEOs if they are terminated under certain circumstances following a change in control. This program is intended to encourage retention in the face of an actual or rumored change in control. Furthermore, the program seeks to align NEO and shareholder interests by allowing NEOs to review corporate transactions that

are in the best interests of the Company's stockholders without concern over whether the transactions may impact the executive's employment.

The term of each agreement is one year with automatic one-year extensions thereafter (except for Mr. Cofoni's agreement which is three years with automatic one-year extensions thereafter). Per the terms of the agreements, each NEO's employment may be terminated by the Company without a separation payment of any kind in the event of death, disability, or for cause as determined by the Board. In the event of a termination for disability, the Company is generally required to provide 30 days notice (except that in Mr. Cofoni's case, he is also entitled to any incentive compensation earned but unpaid as of the date of termination for any fiscal year prior to the year in which such termination occurs). In the event of termination without cause by the Company or resignation for "good reason" by the NEO, as defined in the respective agreements, the Company will pay a severance payment equal to a specified number of months of the NEO's base salary. In the event of a termination without cause or resignation for "good reason" within one year of the effective date of a change of control, the agreements provide that the Company will pay a termination payment equal to a specified number of months of the NEO's base salary (except that in Dr. London's case, he is also entitled to such termination payment if he voluntarily terminates his employment for any reason or is terminated for disability within one year of a change in control). The agreements restrict each NEO's rights to compete with the Company or to offer employment to Company employees following termination. Additional information about the agreements is provided below.

The Committee reviewed the employment and severance agreements in fiscal year 2007. The current Company agreements were deemed to provide less protection than competitive practice for such agreements. Changes to revised Company plans approved by the Committee, which became effective July 1, 2007, provide for the inclusion of partial protection against IRC section 280G excise taxes in the event of termination after a change in control (a one-time payment of two-thirds of the excise tax to the executive up to a limit of \$500,000) for all NEOs, in addition to the specific changes listed below.

On August 17, 1995, the Company entered into an Employment Agreement with Dr. J. P. London, then the Chairman of the Board, President, and Chief Executive Officer of the Company. The agreement provided for a salary of not less than \$200,000 per year to be set by the Board, and participation in any bonus, incentive compensation, pension, profit-sharing, stock purchase, and stock option plan as well as annuity or group insurance, medical and other benefit plans maintained by the Company for its employees. The agreement also provided that the Company will reimburse business expenses incurred in the performance of Dr. London's duties. Under this agreement, Dr. London's severance payment equals 18 months of his current base salary. If a termination event occurs within one year following a change of control of the Company, Dr. London will receive a termination payment equal to 36 months of his current base salary.

On July 1, 2007, Dr. London entered into a revised Employment Agreement for his new role as Executive Chairman. In addition to the previous terms and the addition of partial protection against IRC section 280G excise taxes as discussed above, a payment of two times his average bonus payments for the five fiscal years immediately preceding the termination and a prorated portion of his bonus otherwise payable under the annual incentive program for the fiscal year of termination were added upon the occurrence of a termination event within one year following a change in control of the Company. Further, termination provisions for base salary were increased from the highest salary in the three years preceding termination to the highest salary in the five years preceding termination.⁽¹⁾ Dr. London has a nine month non-compete provision with the Company.

On September 9, 2005, the Company entered into a Severance Compensation Agreement with Paul M. Cofoni, then President, U.S. Operations, the terms of which are generally consistent with the description set forth above for Dr. London. On July 1, 2007, Mr. Cofoni entered into a new Employment Agreement for his new role as President and Chief Executive Officer. The agreement provides partial protection against IRC section 280G excise taxes as discussed above, a severance payment of 24 months of his highest base salary in the three years preceding termination, continued participation in the Company's health care coverage for a one year period, and any incentive compensation earned but unpaid as of the date of termination for any fiscal year prior to the year in which such termination occurs. If a termination event occurs within one year following a change in control of the Company, the agreement provides a severance payment of 36 months of his highest base salary in the three years preceding termination, continued participation in the Company's health care coverage for a one-year period, two times his average bonus payments for the five fiscal years immediately preceding the termination, and a prorated portion of his bonus otherwise payable under the annual incentive program for the fiscal year of termination. Mr. Cofoni has a two year non-compete provision with the Company.

On September 12, 2005, the Company entered into a Severance Compensation Agreement with William M. Fairl, then Chief Operating Officer, the terms of which are generally consistent with the severance-related terms of the employment agreement set forth above for Dr. London. On July 1, 2007, Mr. Fairl entered into a new Severance Compensation Agreement for his new role as President, U.S. Operations. The agreement provides partial protection against IRC section 280G excise taxes as discussed above, a severance payment of 12 months base salary, and continued participation in the Company's health care coverage for a six-month period. If a termination event occurs within one year following a change in control of the Company, the agreement provides a severance payment of 24 months of salary, continued participation in the Company's health care coverage for a six-month period, a payment of 1.5 times his average bonus payments for the five fiscal years immediately preceding the termination, and a prorated portion of his bonus otherwise payable under the annual incentive program for the fiscal year of termination. Mr. Fairl has a two year non-compete provision with the Company.

-
- (1) On December 20, 2001, the Company entered into a lifetime medical agreement with Dr. London that provides lifetime participation in the Company's executive medical plan to the extent permitted by law, with such participation in the executive medical plan on the same basis that existed just prior to any merger, consolidation, or change of control of the Company. This agreement also included Dr. London's spouse at the time of the agreement. This agreement was modified on July 1, 2007 to conform to his new title; no material changes were made to the agreement at that time.

On July 22, 1999, the Company entered into a Severance Compensation Agreement with Gregory R. Bradford, Chief Executive, CACI Limited, and President, U.K. Operations, the terms of which are generally consistent with the description set forth above for Dr. London. On July 1, 2007, Mr. Bradford entered into a revised Severance Compensation Agreement. The agreement provides a severance payment of 12 months base salary. If a termination event occurs within one year following a change of control of the Company, the agreement provides a severance payment equal to 24 months base salary and a prorated portion of his bonus otherwise payable under the annual incentive program for the fiscal year of termination. Further, this agreement provides partial protection against IRC section 280G excise taxes, as discussed above. Mr. Bradford has a two year non-compete provision with the Company.

As part of the executive transition discussed above, on October 1, 2007, Mr. Randall C. Fuerst entered into a Severance Compensation Agreement for his new role as Chief Operating Officer, U.S. Operations. The severance payment is equal to 12 months base salary and continued participation in the Company's health care coverage for a six-month period. If a termination event occurs within one year following a change of control of the Company, he will receive a termination payment equal to 18 months base salary, continued participation in the Company's health care coverage for a six-month period, one times his average bonus payments for the five fiscal years immediately preceding the termination, and a prorated portion of his bonus otherwise payable under the annual incentive program for the fiscal year of termination. Further, this agreement provides partial protection against IRC section 280G excise taxes, as discussed above. Mr. Fuerst has a two year non-compete provision with the Company.

On October 1, 2007, Mr. Thomas A. Mutryn entered into a Severance Compensation Agreement for his new role as Executive Vice President and Chief Financial Officer. The severance payment is equal to 12 months base salary, continued participation in the Company's health care coverage for a twelve-month period, and the one-year anniversary portion of any outstanding acquisition bonus. If a termination event occurs within one year following a change of control of the Company, he will receive a termination payment equal to 24 months base salary, continued participation in the Company's health care coverage for a twelve-month period, one times his average bonus payments for the five fiscal years immediately preceding the termination, a prorated portion of his bonus otherwise payable under the annual incentive program for the fiscal year of termination, and payment of the one-year anniversary portion of any outstanding acquisition bonus. Further, this agreement provides partial protection against IRC section 280G excise taxes, as discussed above. Mr. Mutryn has a two year non-compete provision with the Company.

The tables below reflect the amount of compensation payable to each NEO upon termination of employment under the foregoing severance agreements. The tables show the amount of compensation payable to each NEO upon termination without a change in control and upon termination following a change in control. The amounts shown assume, for illustrative purposes, that such termination was effective as of July 1, 2007 and thus includes amounts earned through such time, and are estimates of the amounts which would be paid to the NEOs upon termination. The actual amounts to be paid can be determined only at the time of the actual separation from the Company.

Based on the assumptions used in the preparation of this table, no IRC section 280G liabilities would be incurred and no IRC section 280G partial protection would have to be paid to any of the persons named in the table.

- (1) Assumes that the NEO resigned for □good reason□ or was terminated without cause per the respective agreement. As previously noted, employment may be terminated by the Company without a separation payment of any kind in the event of death, disability, or for cause. The Company generally is required to provide 30 days notice in the event of a termination for disability. In Mr. Cofoni's case, he is also entitled to any incentive compensation earned but unpaid as of the date of termination for any fiscal year prior to the year in which such termination occurs. Because Mr. Cofoni did not earn any fourth quarter or annual bonus in fiscal year 2007, he would not have received any such payment assuming a termination for disability on July 1, 2007.

- (2) Assumes that Dr. London is entitled to receive lifetime medical benefits as previously described, and that Messrs. Cofoni, Fairl, and Mutryn are entitled to receive continuation of health benefits following the date of separation for twelve or six months, as discussed above. For Dr. London, the table value represents the present value (using a discount rate of 5.74%) of continued current medical and dental insurance coverage less Dr. London's estimated portion of the cost, plus the amount required to cover all estimated applicable local, state and federal income and payroll taxes imposed with respect to such payments over Dr. London's expected life span (based upon IRS Life Expectancy Tables). For Messrs. Cofoni, Fairl and Mutryn, the table value represents the total values of continued current medical and dental insurance coverage over the duration of the coverage period, less the executive's current portion of the cost, plus the amount required to cover all estimated applicable local, state and federal income and payroll taxes imposed with respect to such payment..

- (3) Based on the difference between the market price per share of common stock as of June 29, 2007 less the applicable exercise price of the unvested portion of the equity award.
- (4) Executives are entitled to partial protection against IRC section 280G excise taxes only in the event of termination after a change of control.

- (1) Assumes that the NEO resigned for "good reason" or was terminated without cause, per the respective agreement, within one year of a change in control, except in Dr. London's case where he is also entitled to such termination payment if he voluntarily terminates his employment for any reason or is terminated for disability within one year of a change in control. The Company generally is required to provide 30 days notice in the event of a termination for disability. In Mr. Cofoni's case, he is also entitled to any incentive compensation earned but unpaid as of the date of termination for any fiscal year prior to the year in which such termination occurs. Because Mr. Cofoni did not earn any fourth quarter or annual bonus in fiscal year 2007, he would not have received any such payment assuming a termination for disability on July 1, 2007.

- (4) Executives are entitled to partial protection against IRC section 280G excise taxes in the event of termination after a change of control. Specifically, a one-time payment of two-thirds of the excise tax to the executive up to a limit of \$500,000 is provided. Based on the assumptions used in the preparation of this table, no IRC section 280G liabilities would be incurred and no IRC section 280G partial protection would have to be paid to any of the persons named in the table.

Impact of Regulatory Requirements

The Committee is regularly updated on changes in regulations effecting compensation and how they impact executive compensation. The Committee ensures that Company compensation plans meet such requirements. In fiscal year 2007, the decisions of the Committee were impacted by regulatory requirements in the following ways:

- IRC section 162(m) places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year with respect to each of its five most highly paid executive officers. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. Executive incentive compensation generally is performance based compensation meeting the IRC requirements, and, as such, is fully deductible. To maintain flexibility in compensating executive officers in a manner designed to promote Company goals, the Committee has not adopted a policy requirement for all compensation to be deductible.
- IRC section 409A: Company programs have been reviewed by tax counsel to ensure that either they are not considered deferred compensation under the 409A definitions, or they comply with the deferred compensation rules in IRC 409A. As a result, we do not anticipate executives to be subject to any tax penalties under IRC 409A.
- Statement of Financial Accounting Standards 123R: The Company adopted SFAS 123R beginning in fiscal year 2006. In determining option and restricted stock awards, the Committee considers the potential expense of those programs under SFAS 123R and the financial impact. The Committee concluded that the associated expense was appropriate, given competitive compensation practices in the industry, the Company's performance, and the motivational and retention effects of the awards.

Conclusions

The Company and its Compensation Committee regularly consider if the total compensation program meets the objectives established for it. The Company believes that its executive compensation programs are reasonable, appropriate, and in the best interests of shareholders for the following reasons:

- Competitive benchmarking indicates that executive compensation levels (both base salaries and total compensation) are administered consistent with the Company's total compensation philosophy.
- Total compensation is variable and predicated upon company performance, through a compensation mix that de-emphasizes base salary and executive perquisites and emphasizes performance-based pay, in the form of formula-based annual cash incentive awards and equity awards in the form of restricted stock, RSUs, SSARs, and/or stock options.
- Executive officers are required to align their economic interests with those of stockholders through the accumulation of a significant equity stake, facilitated by annual equity awards and stock options, annual incentive deferrals and significant stock ownership requirements.

- The Company's executive retention objectives are achieved at reasonable cost through the severance and change-in-control agreements, the SERP (for Mr. Cofoni), and time-based vesting schedules for stock option and restricted stock awards.

The following table summarizes the compensation of the NEOs for the fiscal year ended June 30, 2007. Annual compensation includes amounts awarded to, earned by, or paid to Dr. J. P. London and four other Executive Officers and former Executive Officer Stephen L. Waechter, including amounts deferred at an Executive Officer's election.

- (1) Amounts reported in the Salary column represent base salary earned in fiscal year 2007.
- (2) With the exception of fixed payments to reward Mr. Mutryn during his service as Acting Chief Financial Officer, the Company did not make non-performance based bonus payments to any of the NEOs in fiscal year 2007.
- (3) The amounts reported in the Stock Awards column and the Options/SSAR Awards column reflect the dollar amounts recognized for financial statement reporting purposes for the fiscal year ended June 30, 2007 in accordance with SFAS 123R, without regard to the possibility of forfeitures. Assumptions used in the calculations of these amounts are included in Note 21 to the Company's audited consolidated financial statements for the fiscal year ended June 30, 2007, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on August 29, 2007. These amounts reflect the Company's accounting expense for these awards and do not correspond to the actual value that will be recognized by the named executive officer.
- (4) Amounts reported in the Non-Equity Incentive Plan Compensation column represent incentive compensation earned in fiscal year 2007.
- (5) The value listed in the Change in Pension Value and Non-Qualified Deferred Compensation Earnings column represents the change in the present value of accumulated benefits from June 30, 2006 to June 30, 2007. The value is an actuarial estimate of the cost of pension benefits for the named executive officer and does not reflect a current cash cost to the Company or necessarily the pension benefit that the executive officer would receive.
- (6) As detailed further in the footnotes below, the values in this column may include (i) Chief Executive Officer annual perquisite allowance (□*CEO allowance*□); (ii) 5% Company contribution to non-qualified deferred compensation plan made on earnings in excess of the limit provided in IRC section 401(a)(17), which limit may be adjusted annually (□*NQDC Contribution*□); (iii) vacation accrual balance cashed out (□*Vacation Cash-out*□); (iv) automobile expenses, based on IRS Publication 15-B guidelines (□*Automobile Expenses*□); (v) reimbursement of expenses under an executive medical supplement plan (□*Executive Medical*□); (vi) premiums paid by the Company for a long term care insurance policy (□*LTC Premiums*□); (vii) 50% Company match of the first 6% of contributions by the executive officer under the Company's 401(k) plan (□*401(k) Match*□); and/or (viii) discount equal to the fair value of additional shares granted under the Company's Management Stock Purchase Plan by giving a 5% discount on the stock price at grant date (□*MSPP Discount*□), the number of

shares being derived by dividing the year-end deferred bonus by the discounted stock price.

Pursuant to paragraph 6 of Mr. Waechter's Severance Agreement dated September 1, 1999, severance payment equal to twelve months of base salary at the pre-tax rate at time of his departure was made on July 20, 2007 in the amount of \$312,720 and is included in the All Other Compensation column. (1) These amounts represent potential payouts under the 2007 incentive plan. Actual payouts earned are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

(2) As previously noted, Mr. Cofoni's 300,000 SSAR grant has a vesting schedule under which the shares "cliff vest" (i.e., 100% vest) after five years, but vesting can be accelerated if the Company's stock price achieves and maintains the specified levels for a 30-day period after one year (no part of this grant will vest within the first year, per the terms of the 2006 Stock Incentive Plan).

(3) The exercise price is the same as the closing price on the date of grant.

(4) Amounts represent the grant date fair value of the stock awards granted to the named executive officer during fiscal year 2007 determined pursuant to SFAS 123R. The SFAS 123R Grant Date values shown are also used for financial reporting purposes.

(5) In connection with Mr. Waechter's departure from the Company in January 2007, all of his unvested stock awards and unexercised stock

options were forfeited.

Committees and Meetings of the Board of Directors

It is the Company's policy to encourage all Directors to attend in person its Annual Meeting of Stockholders each year as well as participate in person or, if not possible, via teleconference where feasible, in all Board of Directors and Committee meetings. Nevertheless, the Company recognizes that this may not always be possible due to conflicting personal or professional commitments. The Board held thirteen meetings during fiscal year 2007, which ended June 30, 2007. All Directors attended the 2006 Annual Meeting of Stockholders held on November 16, 2006. Each Director attended at least seventy-five percent (75%) of the total number of meetings held by the Board and Committees of the Board on which he/she served.

The Board had a Compensation Committee, an Executive Committee, an Audit Committee, a Risk Management and Security Committee (a subcommittee of the Audit Committee), an Investor Relations Committee, a Corporate Governance and Nominating Committee, and a Strategic Assessment Committee during fiscal year 2007.

Compensation Committee

The Compensation Committee consists of Directors Derow, Leatherwood, McNamara, Revoile (Chairman) and Shelton, and included Directors Bayer and Welch until their November 2006 retirements from the Board. The Board has determined that all Compensation Committee members are independent in accordance with the NYSE's definition and the Company's independence criteria, which are discussed below. Committee members, including the Chairman, are appointed by and serve at the pleasure of the Board of Directors. Pursuant to its Charter, the Committee is composed of not fewer than three independent directors as defined in applicable regulations and stock exchange listing standards, in order to enhance the Committee's capability to provide independent governance on behalf of the stockholders and provide management with objective guidance and support in matters within the Committee's responsibility. In addition, it is the Board's intention that each Committee member shall be a non-employee director within the meaning of Rule 16b-3 issued by the SEC, and that at least two Committee members shall be outside directors within the meaning of IRC section 162(m), as amended. To the extent that a Committee member is not a non-employee director or outside director, as the case may be, the member does not participate in deliberations and the determination of awards subject to those regulations.

The Committee administers the Company's 2006 Stock Incentive Plan, the Management Stock Purchase Plan, the Director Stock Purchase Plan, and the Employee Stock Purchase Plan, and determines the benefits to be granted to key employees thereunder; determines CEO compensation; is responsible for determining and making recommendations to the Board regarding compensation and benefits to be paid to Executive Officers of the Company; and maintains oversight of the Company's Affirmative Action, and Small, Disadvantaged and Minority Subcontracting activities. The Committee met five times during fiscal year 2007. The Charter of the Compensation Committee is set forth on the Company's website at www.caci.com/about/corp_gov/comp.shtml, and a print copy of the Charter will be provided to any stockholder upon request. A report of the Compensation Committee regarding executive compensation appeared previously in this Proxy Statement.

30

Compensation Committee Interlocks and Insider Participation

During fiscal year 2007, the members of the Compensation Committee had no relationships with the Company other than their relationship as Directors, entitled to the receipt of standard compensation as Directors and members of certain Committees of the Board, and their relationship to the Company as stockholders. No person serving on the Compensation Committee or on the Board of Directors is an Executive Officer of another entity for which any of our Executive Officers serves on the board of directors or compensation committee.

Executive Committee

The Executive Committee consists of Directors Cofoni, Leatherwood, London, Phillips and Revoile, and included Director Bayer until his November 2006 retirement from the Board. Director London serves as the Committee Chairman. The Executive Committee is responsible for providing Board input and authorization

necessary in the interim between full Board meetings, and for identifying those items which merit consideration or action by the entire Board. The Executive Committee met five times during fiscal year 2007.

Audit Committee

The Audit Committee consists of Directors Anderson, Bannister, Derow, Leatherwood, McNamara, and Phillips. The Board has determined that all current Audit Committee members are independent in accordance with SEC and NYSE requirements. Director Leatherwood is the Committee Chairman and has served as such since November 20, 2003. The Board has determined that Director Leatherwood qualifies as an audit committee financial expert as that term is defined in Item 401(h) of Regulation S-K, and that he has accounting or related financial management expertise within the meaning of the listing standards of the NYSE, and that each member of the Audit Committee is financially literate within the meaning of the listing standards of the NYSE. The Audit Committee is responsible for overseeing and reviewing the Company's financial information that will be provided to stockholders and others, the system of internal controls established by management and the Board, and the annual audit conducted by the independent accountants. The Audit Committee met six times during fiscal year 2007. The Audit Committee Charter and Pre-Approval Policy are set forth on the Company's website at www.caci.com/about/corp_gov/audit.shtml, and a print copy of the Charter will be provided to any stockholder upon request. A report of the Audit Committee appears below in this Proxy Statement.

Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee consists of Directors Leatherwood, Phillips and Revoile, and Directors Bayer and Welch until their November 2006 retirement from the Board. The Board has determined that all current Corporate Governance and Nominating Committee members are independent in accordance with the NYSE's definition. Dr. Phillips serves as the Committee Chairman. The Corporate Governance and Nominating Committee is responsible for recommending to the Board the general criteria and qualifications for membership on the Board; identifying and selecting individuals to be nominated for election to the Board; recommending the number of Directors to be elected each year (within the bounds established by the Company's Bylaws); developing and recommending to the Board a set of general corporate governance principles; and periodically reviewing, evaluating, and proposing revisions thereto. The Board seeks members from diverse business and professional backgrounds with outstanding integrity, achievement and judgment and such other skills and experience as will enhance the Board's ability to serve the long-term interests of the stockholders. The Committee met five times during fiscal year 2007. The Charter of the Corporate Governance and Nominating Committee is set forth on the Company's website at www.caci.com/about/corp_gov/nominating.shtml, and a print copy of the Charter will be provided to any stockholder upon request.

Criteria for Determining Board and Committee Independence

The Board has affirmatively determined that eight of the eleven current Directors and seven of the ten Director Nominees are independent in accordance with the NYSE's definition and the Company's independence criteria described below. Because of Dr. London's service as Chairman of the Board and Executive Chairman of the Company and Mr. Cofoni's service as President and Chief Executive Officer, they are not independent as defined by the NYSE rules and the Company's independence criteria. Because Mr. Johnson received more than \$100,000 for consulting services provided to the Company during fiscal year 2006, he is not independent under the NYSE rules. Mr. Johnson's consulting agreement ended in September 2006.

NYSE rules establish criteria for determining independence and allow the Company's Board of Directors to adopt additional criteria and apply those criteria to making an affirmative determination whether each Director is independent in accordance with the NYSE definition. The following criteria have been applied by the Board in making its affirmative determination of independence with respect to all current Directors:

- (1) No Material Relationship. The director must not have any material relationship with the Company or its subsidiaries (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company or its subsidiaries) apart from his/her service as a Director. In making this determination, the Board considers all relevant facts and circumstances, including

commercial, charitable, and familial relationships that exist, either directly or indirectly, between the Director and the Company.

- (2) Employment. The director must not be nor have been an employee of the Company or any of its subsidiaries at any time during the past three years. In addition, a member of the director's immediate family (including the director's spouse; parents; children; siblings; mothers-, fathers-, brothers-, sisters-, sons- and daughters-in-law; and anyone who shares the director's home, other than household employees) must not have been an executive officer of the Company or any of its subsidiaries in the prior three years.
- (3) Other Compensation. The director and all of his/her immediate family members must not have received, during any twelve month period within the last three years, more than \$100,000 in direct compensation from the Company or any of its subsidiaries, other than in the forms of director fees and committee fees, pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service).
- (4) Auditor Affiliation. (A) The director or an immediate family member cannot be a current partner of a firm that is the Company's internal or external auditor; (B) the director cannot be a current employee of such a firm; (C) the director cannot have an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or (D) the director or an immediate family member cannot have been within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the Company's audit within that time.
- (5) Interlocking Directorships. The director or an immediate family member cannot be, or have been within the last three years, employed as an executive officer of another company where any of the Company's present executive officers at the same time serves or served on that company's compensation committee.
- (6) Business Transactions. The director cannot be a current employee, and no immediate family member of the director can be a current executive officer, of a company that has made payments to, or received payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

Policies and Procedures for the Review and Approval of Transactions with Related Parties

The Company reviews all relationships and transactions in which the Company and its directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. The Company's legal staff is responsible for obtaining information through questionnaires and other appropriate procedures from the directors and executive officers with respect to related party transactions and then determining whether the Company or a related person has a direct or indirect material interest in the transaction. Transactions that are determined to be material to the Company or a related person are disclosed in the Company's proxy statement. In addition, the Audit Committee reviews and approves or ratifies any related-party transaction. The audit committee considers, among other matters, the nature, timing and duration of the transaction, the relationships of the parties to the transactions, whether the transactions are in the ordinary course of the Company's business, the dollar value of the transactions, and whether the transactions are in the interest of the Company.

Nominating Process

The Company's By-laws describe the procedure by which the Board, a Board Committee, or stockholder who is entitled to vote and meets the By-laws' advance notification requirements may recommend a candidate for nomination as a Director.(1) The Corporate Governance and Nominating Committee is tasked with, among other things, identifying and recommending prospective Director nominees.(2) It is the Committee's policy to consider similarly, irrespective of the source of the nomination, all Director nominee recommendations properly presented in accordance with the prescribed By-law requirements on the basis of the potential Director nominee's background and business experience. The criteria that the Committee uses in assessing potential Director nominees is set forth in the Corporate Governance and Nominating Committee's Charter, which is available at the Company's website www.caci.com/about/corp_gov/nominating.shtml.

Stockholder and Interested Party Communications with Directors

Stockholders and interested parties may communicate directly with the Company's Board of Directors or any Director or Committee member, including Audit Committee members, by sending correspondence to such individual c/o CACI International Inc, 1100 North Glebe Road, Arlington, Virginia 22201, Attn: Arnold D. Morse, Corporate Secretary. It is the Company's policy to forward directly to the Directors all such communications addressed to them and delivered to the Company at the above stated address.

(1) The Company's By-laws describe the information submission and advanced notification requirements for stockholder recommendations of Director nominees. The Company's By-laws, however, do not obligate the Company to include information about the candidate in the Company's proxy materials, nor do they require the Company to permit the stockholder to solicit proxies for the candidate using Company proxy materials. For the Company's 2008 Annual Meeting of Stockholders, stockholder notice of a potential Director nominee must be received by the Corporate Secretary at CACI International Inc, 1100 North Glebe Road, Arlington, Virginia 22201 by June 18, 2008. The By-laws are available by writing to the Secretary at the above-stated address or at the Company's website at www.caci.com/about/corp_gov/bylaws_3-07.pdf.

(2) From time to time the Company may utilize a third party to assist in identifying and qualifying potential Director nominees.

Executive Sessions

Pursuant to NYSE requirements, five executive sessions of non-management Directors were held during fiscal year 2007. The Chairman of the Corporate Governance and Nominating Committee acted as the presiding Director at all such meetings.

PROPOSAL 2: AMENDMENT OF THE 2002 EMPLOYEE STOCK PURCHASE PLAN

At the Annual Meeting, stockholders will be asked to approve an amendment to the CACI International Inc 2002 Employee Stock Purchase Plan (the "ESPP"). The amendment was adopted, subject to stockholder approval, by the Board of Directors on June 21, 2007.

As of June 30, 2007, a total of 26,520 shares of our common stock were available for additional purchases under the ESPP. If the stockholders approve the proposed amendment to the ESPP, the total number of shares available for issuance under the ESPP will increase from 500,000 shares to 750,000 shares.

The principal terms of the ESPP are summarized below. The following summary of the ESPP is qualified in its entirety by reference to the complete text of the ESPP which has been filed as an exhibit to this Proxy Statement

and is incorporated herein by reference. Terms not defined herein shall have the meanings set forth in the ESPP.

Summary Description of the ESPP

The purpose of the ESPP is to provide employees of the Company an opportunity to purchase Common Stock (the "Stock"). The ESPP is intended to provide additional incentives to employees to make a long-term investment in the Company by providing partial reimbursement for their purchase of Stock and by affording eligible employees the opportunity to purchase Stock with pre-tax dollars. The ESPP has been designed to permit eligible employees to purchase Stock, on a quarterly basis, through accumulated payroll deductions not exceeding: (i) twenty percent of eligible cash compensation, and (ii) \$25,000 of fair market value of the Stock for each calendar year. Eligible cash compensation includes the employee's base pay as of the Offering Commencement Date, as defined in the ESPP. The ESPP is intended to qualify under IRC Section 423 with respect to employee stock purchase plans. The maximum number of shares available for issuance and purchase under the ESPP is an aggregate of 750,000 shares of stock, which shares are to be purchased by the Company off the open market on a periodic basis as required.

To be eligible to participate in the ESPP, an employee must, among other things, be employed by the Company or one of its subsidiaries for a minimum of two months continuous service, while customarily working twenty or more hours each week. Excluded from participating are owners of five percent or more of the Stock, and highly compensated employees as defined in the ESPP (see Appendix A to this Proxy Statement).

At the commencement of each three-month offering period as defined in the ESPP, and subject to ESPP purchase limits, each participant has the option to acquire a number of shares based on the amount of his or her payroll deductions at a share price equal to ninety-five percent of the fair market value of the Stock on the last day of such offering period.

The ESPP is administered by the Compensation Committee of the Board of Directors of the Company (the "Committee"), at the expense of the Company. The Committee consists of not less than three members of the Board of Directors who are not officers of the Company or in the employ of the Company. The Committee is also responsible for questions involving the administration and interpretation of the ESPP. The ESPP may be amended or terminated by the Board at any time, subject to certain restrictions.

The Board believes that the ESPP provides the following benefits to the Company and its stockholders. By facilitating increases in employee stock ownership, it increases the stake that employees have in the Company and aligns the interests of a greater number of employees with the interests of the stockholders. Because the shares issued for the ESPP are purchased off the open market, the ESPP achieves these benefits without diluting the interests of the public stockholders and it creates another source of demand for the Company's stock. In addition, the availability of the ESPP is likely to aid the Company in its efforts to recruit and retain employees.

Federal Income Tax Information With Respect To the ESPP

The following is a brief summary of the principal federal income tax consequences under current federal income tax laws relating to purchase of stock under the ESPP. This summary is not intended to be exhaustive and, among other things, does not describe state, local or foreign income tax consequences.

Purchase Options granted pursuant to the ESPP are intended to qualify as options issued under an "employee stock purchase plan" within the meaning of IRC Section 423. Under IRC section 423, employees will not realize taxable income upon the grant of a purchase right under the ESPP or when they complete their purchase for cash and receive delivery of the Stock which they are eligible to purchase, provided such purchase occurs while they are employed or within three months after termination of employment. If no disposition of Stock acquired through the ESPP is made within two years after the date of its grant or within one year after the date of its acquisition, any gain or loss that may be realized on the ultimate sale will be treated as long term capital gain or loss. Upon a sale of the Stock by the employee prior to the expiration of the two-year and one-year periods referred to above, or the death of the employee while holding such Stock, the employee will recognize compensation taxable as ordinary income in an amount equal to the fair market value of the Stock on the last day of the offering period over the amount paid upon purchase of the Stock, or, if less, the excess of the Stock's value

over the original purchase price at the time of such disposition or death, as the case may be. The amount of ordinary income recognized by the employee will decrease the capital gain or increase the capital loss recognized by the employee on the sale of the Stock.

At the Annual Meeting, stockholders will vote in favor of, or opposition to, this proposal to amend the ESPP to increase the total number of shares available for issuance from 500,000 shares to 750,000 shares. If a quorum is present, the vote of the holders of a majority of the shares of Common Stock entitled to vote and present in person or represented by proxy at the Annual Meeting will be required to approve the ESPP.

Equity Compensation Plan Information

The following table provides additional information as of June 30, 2007 regarding shares of the common stock of the Company authorized for issuance under its equity compensation plans.

The 2006 Plan was approved by the stockholders on November 16, 2006 and replaced the 1996 Stock Incentive Plan (the "1996 Plan"). Under the terms of the 2006 Plan, the Company may issue, among others, non-qualified stock options, restricted stock, RSUs and SSARs. The DSPP allows Directors to elect to receive RSUs at the market price of the Company's common stock on the date of the award in lieu of up to 50 percent of their annual retainer fees. The MSPP allows those senior executives with stock holding requirements a mechanism to receive RSUs in lieu of up to 30 percent of their annual bonus compensation. The ESPP allows eligible full-time employees to purchase shares of the Company's common stock at 95 percent of the fair market value of share of common stock on the last day of the quarter.

- (3) Represents the weighted average exercise price of the stock options and SSARs issued under the 1996/2006 Plan that were outstanding as of June 30, 2007. The weighted average exercise price above does not include the weighted average market prices of shares underlying RSUs issued under the DSPP, MSPP, ESPP, and the 1996/2006 Plan.

The Board recommends that stockholders vote FOR this proposal to approve the amendment to the ESPP allowing an additional 250,000 shares for issuance.

PROPOSAL 3: RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

Ernst & Young LLP currently serves as the Company's independent auditors, and that firm conducted the audit of the Company's accounts for fiscal year 2007. The Audit Committee has appointed Ernst & Young LLP to serve as independent auditors to conduct an audit of the Company's accounts for fiscal year 2008.

Selection of the Company's independent auditors is not required to be submitted to a vote of the shareholders of the Company for ratification. The Sarbanes-Oxley Act of 2002 requires the Audit Committee to be directly responsible for the appointment, compensation and oversight of the audit work of the independent auditors. However, the Board of Directors is submitting this matter to the stockholders as a matter of good corporate practice. If a quorum is present, the vote of the holders of a majority of the shares of stock and entitled to vote in person or by proxy at the Annual Meeting will be required to ratify such selection. Broker non-votes will not be considered entitled to vote for this purpose. If the stockholders fail to vote in favor of the selection, the Audit Committee will reconsider whether to retain Ernst & Young LLP, and may retain that firm or another without re-submitting the matter to the Company's stockholders. Even if stockholders vote in favor of the appointment, on an advisory basis, the Audit Committee may, in its discretion, direct the appointment of different independent auditors at any time during the year if it determines that such a change would be in the best interests of the Company and the stockholders.

Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting. They will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

The Board recommends that stockholders vote FOR ratification of Ernst & Young LLP as independent auditors.

INDEPENDENT AUDITOR FEES

Pre-Approval Policies and Procedures

The Audit Committee has adopted policies and procedures relating to the approval of all audit and non-audit services that are to be performed by the Company's independent auditors. All audit services were pre-approved by the Audit Committee.

From time to time, the Audit Committee may pre-approve specified types of services that are expected to be provided to the Company by its independent auditors during the next 12 months. Any such pre-approval is detailed as to the particular service or type of services to be provided and is also generally subject to a maximum dollar amount.

The Audit Committee has also delegated to the chairman of the Audit Committee the authority to approve any audit or non-audit services to be provided to the Company by its independent auditors. Any approval of services by a member of the Audit Committee pursuant to this delegated authority is reported on at the next meeting of the Audit Committee.

APPENDIX A

CACI INTERNATIONAL INC

2002 EMPLOYEE STOCK PURCHASE PLAN, AS AMENDED

A-1

**CACI INTERNATIONAL INC
2002 EMPLOYEE STOCK PURCHASE PLAN, AS AMENDED**

1. Purpose.

The CACI International Inc 2002 Employee Stock Purchase Plan (the "Plan"), as amended, is intended to provide a method whereby employees of CACI International Inc (the "Company") will have an opportunity to acquire an ownership interest (or increase an existing ownership interest) in the Company through the purchase of shares of the Common Stock of the Company. It is the intention of the Company that the Plan qualify as an "employee stock purchase plan" under Section 423 of the Internal Revenue Code of 1986, as amended (the "Code"). The provisions of the Plan shall, accordingly, be construed so as to extend and limit participation in a manner consistent with the requirements of that section of the Code.

2. Definitions.

(a) "Compensation" means, for the purpose of any Offering pursuant to this Plan, the total remuneration payable to an Employee by the Company as of the Offering Commencement Date (as hereinafter defined). Notwithstanding the forgoing, Compensation shall not include any deferred compensation payable to the Employee other than salary reduction contributions under a cash or deferred arrangement pursuant to Section 401(k) of the Code, salary reduction amounts under a cafeteria plan pursuant to Section 125 of the Code, and salary reduction amounts pursuant to a qualified transportation fringe benefit program pursuant to Section 132(f) of the Code.

(b) "Board" means the Board of Directors of the Company.

(c) "Committee" means the Compensation Committee of the Board.

(d) "Common Stock" means the common stock, \$.10 par value per share, of the Company.

(e) "Company" shall also include any Parent or Subsidiary of CACI International Inc designated by the Board, unless the context otherwise requires.

(f) "Employee" means any person who is customarily employed at least 20 hours per week and more than five months in a calendar year by the Company.

(g) *Parent* shall mean any present or future corporation which is or would constitute a *parent corporation* as that term is defined in Section 424 of the Code.

(h) *Subsidiary* shall mean any present or future corporation which is or would constitute a *subsidiary corporation* as that term is defined in Section 424 of the Code.

3. Eligibility.

(a) Participation in the Plan is completely voluntary. Participation in any one or more of the offerings under the Plan shall neither limit, nor require, participation in any other offering.

(b) Each employee shall be eligible to participate in the Plan on the first Offering Commencement Date, as hereafter defined, following the completion of two (2) full calendar months of continuous service with the Company. Notwithstanding the foregoing, no employee shall be granted an option under the Plan:

(i) if, immediately after the grant, such employee would own stock, and/or hold outstanding options to purchase stock, possessing 5% or more of the total combined voting power or value of all classes of stock of the Company or any Parent or Subsidiary; for purposes of this Paragraph the rules of Section 424(d) of the Code shall apply in determining stock ownership of any employee; or

(ii) if the grant permits the employee's rights to purchase stock under all Section 423 employee stock purchase plans of the Company and any Parent or Subsidiary to exceed \$25,000 of the fair market value of the stock (determined at the time such option is granted) for each calendar year in which such option is outstanding; for purposes of this Paragraph, the rules of Section 423(b)(8) of the Code shall apply; or

(iii) if the employee is a *highly compensated employee* within the meaning of Section 414(q) of the Code who earns at least \$200,000, as adjusted for cost of living increases in accordance with Section 401(a)(17)(B) of the Code.

A-2

4. Offering Dates.

The right to purchase stock hereunder shall be made available by a series of three-month offerings (the *Offering* or *Offerings*) to employees eligible in accordance with Paragraph 3 hereof. The Committee will, in its discretion, determine the applicable date of commencement (*Offering Commencement Date*) and termination date (*Offering Termination Date*) for each Offering. Participation in any one or more of the Offerings under the Plan shall neither limit, nor require, participation in any other Offering.

5. Participation.

Any eligible employee may become a participant by completing a payroll deduction authorization form provided by the Company and filing it with the office of the Plan Administrator 20 days prior to an applicable Offering Commencement Date, as determined by the Committee pursuant to Paragraph 4. A participant who obtains shares of Common Stock in one Offering will be deemed to have elected to participate in each subsequent Offering, provided such participant is eligible to participate during each such subsequent Offering and provided that such participant has not specifically elected not to participate in such subsequent Offering. Such participant will also be deemed to have authorized the same payroll deductions under Paragraph 6 hereof for each such subsequent Offering as in the immediately preceding Offering; provided however, that, during the enrollment period prior to each new Offering, the participant may elect to change such participant's payroll deductions by submitting a new payroll deduction authorization form.

6. Payroll Deductions.

(a) At the time a participant files his authorization for a payroll deduction, he shall elect to have deductions made from his pay on each payday during any Offering in which he is a participant at a specified percentage of his Compensation as determined on the applicable Offering Commencement Date; said percentage shall be in

increments of one percent up to a maximum percentage of twenty percent.

(b) Payroll deductions for a participant shall commence on the applicable Offering Commencement Date when his authorization for a payroll deduction becomes effective and subject to the last sentence of Paragraph 5 shall end on the Offering Termination Date of the Offering to which such authorization is applicable unless sooner terminated by the participant as provided in Paragraph 10.

(c) All payroll deductions made for a participant shall be credited to his account under the Plan. A participant may not make any separate cash payment into such account.

(d) A participant may withdraw from the Plan at any time during the applicable Offering period.

7. Granting of Option.

(a) Except as provided in clause (ii) of Paragraph 3(b), on the Offering Commencement Date of each Offering, a participating employee shall be deemed to have been granted an option to purchase a maximum number of shares of the Common Stock equal to two times an amount determined as follows: ninety-five percent (95%) of the market value per share of the Common Stock on the applicable Offering Commencement Date shall be divided into an amount equal to the percentage of the employee's Compensation which he has elected to have withheld (but no more than 20%) multiplied by the employee's Compensation over the Offering period. Such market value per share of the Common Stock shall be determined as provided in Paragraph 7(b).

(b) The option price of the Common Stock purchased with payroll deductions made during each such Offering for a participant therein shall be ninety-five percent (95%) of the closing price per share on the Offering Termination Date as reported by a nationally recognized stock exchange, or, if the Common Stock is not listed on such an exchange, as reported by the Nasdaq National Market System or, if the Common Stock is not listed on the Nasdaq National Market System but is otherwise publicly traded over-the-counter, ninety-five percent (95%) of the mean of the bid and asked prices per share on the Offering Termination Date or, if the Common Stock is not traded over-the-counter, ninety-five percent (95%) of the fair market value on the Offering Termination Date as determined by the Committee.

A-3

8. Exercise of Option.

(a) Unless a participant gives written notice to the Plan Administrator as hereinafter provided, his option for the purchase of Common Stock with payroll deductions made during any Offering will be deemed to have been exercised automatically on the Offering Termination Date applicable to such Offering for the purchase of the number of full shares of Common Stock which the accumulated payroll deductions in his account at that time will purchase at the applicable option price (but not in excess of the number of shares for which options have been granted the employee pursuant to Paragraph 7(a)), and any excess in his account at that time, other than amounts representing fractional shares, will be returned to him.

(b) Fractional shares will not be issued under the Plan and any accumulated payroll deductions which would have been used to purchase fractional shares shall be automatically carried forward to the next Offering unless the participant elects, by written notice to the Plan Administrator, to have the excess cash returned to him.

9. Purchase and Delivery of Shares.

As promptly as possible after each Offering Termination Date the Company shall deliver to an established broker irrevocable instructions (i) to purchase on the open market, along with sufficient funds to do so, the appropriate number of shares of Common Stock exercised on said Offering Termination Date pursuant to Paragraph 8(a), and (ii) to deposit in an account established by the broker in each participant's name the number of shares purchased by each participant on said Offering Termination Date.

10. Withdrawal and Termination.

(a) Prior to the Offering Termination Date for an Offering, any participant may withdraw the payroll deductions credited to his account under the Plan for such Offering by giving written notice to the Plan Administrator. All of the participant's payroll deductions credited to such account will be paid to him promptly after receipt of notice of withdrawal, without interest, and no future payroll deductions will be made from his pay during such Offering. The Company will treat any attempt to borrow by a participant on the security of accumulated payroll deductions as an election to withdraw such deductions.

(b) A participant's election not to participate in, or withdrawal from, any Offering will not have any effect upon his eligibility to participate in any succeeding Offering or in any similar plan which may hereafter be adopted by the Company.

(c) Upon termination of the participant's employment for any reason, including retirement but excluding death, the payroll deductions credited to his account will be returned to him, or, in the case of his death, to the person or persons entitled thereto under Paragraph 14.

(d) Upon termination of the participant's employment because of death, his beneficiary (as defined in Paragraph 14) shall have the right to elect, by written notice given to the Plan Administrator prior to the expiration of a period of 90 days commencing with the date of the death of the participant, but not beyond the Offering Termination Date next following the date of death, either:

- (i) to withdraw all of the payroll deductions credited to the participant's account under the Plan; or
- (ii) to exercise the participant's option for the purchase of stock on the Offering Termination Date next following the date of the participant's death for the purchase of the number of full shares which the accumulated payroll deductions in the participant's account at the date of the participant's death will purchase at the applicable option price (subject to the limitation contained in Paragraph 7(a)), and any excess in such account will be returned to said beneficiary. In the event that no such written notice of election shall be duly received by the office of the Plan Administrator, the beneficiary shall automatically be deemed to have elected to withdraw the payroll deductions credited to the participant's account at the date of the participant's death and the same will be paid promptly to said beneficiary.

A-4

11. Interest.

No interest will be paid or allowed on any money paid into the Plan or credited to the account of any participating employee.

12. Stock.

(a) The maximum number of shares of Common Stock available for issuance and purchase by employees under the Plan, subject to adjustment upon changes in capitalization of the Company as provided in Paragraph 17, shall be 750,000 shares of Common Stock, par value \$.10 per share, of the Company. If the total number of shares for which options are exercised on any Offering Termination Date in accordance with Paragraph 8 exceeds the maximum number of shares available for the applicable Offering or under the Plan, the Company may either (i) make a pro rata allocation of the shares available for delivery and distribution in an equitable manner, and then return to each participant the balances of payroll deductions credited to such participant's account under the Plan or (ii) seek stockholder approval of an increase in the shares available for issuance under the Plan, hold the payroll deductions credited to the account of each participant under the Plan until such time as either the stockholders approve the increase, in which case the shares will be issued under the Plan, or the stockholders do not approve the increase, in which case, the Company would make the allocation set forth in the preceding clause.

(b) The participant will have no interest in stock covered by his option until such option has been exercised.

13. Administration.

The Committee shall administer the Plan. The interpretation and construction of any provision of the Plan and adoption of rules and regulations for administering the Plan shall be made by the Committee. Determinations made by the Committee with respect to any matter or provision contained in the Plan shall be final, conclusive and binding upon the Company and upon all participants, their heirs or legal representatives. Any rule or regulation adopted by the Committee shall remain in full force and effect unless and until altered, amended, or repealed by the Committee.

14. Designation of Beneficiary.

A participant shall file with the Plan Administrator a written designation of a beneficiary who is to receive any Common Stock and/or cash under the Plan. The participant may change such designation of beneficiary at any time by written notice. Upon the death of a participant and upon receipt by the Company of proof of the identity and existence at the participant's death of a beneficiary validly designated by him under the Plan, the Company shall deliver such Common Stock and/or cash to such beneficiary. In the event of the death of a participant and in the absence of a beneficiary validly designated under the Plan who is living at the time of such participant's death, the Company shall deliver such Common Stock and/or cash to the executor or administrator of the estate of the participant. No beneficiary shall prior to the death of the participant by whom he has been designated, acquire any interest in the Common Stock and/or cash credited to the participant under the Plan.

15. Transferability.

Neither payroll deductions credited to a participant's account nor any rights with regard to the exercise of an option or to receive Common Stock under the Plan may be assigned, transferred, pledged, or otherwise disposed of in any way by the participant other than by will or the laws of descent and distribution.

(a) Any such attempted assignment, transfer, pledge, or other disposition shall be without effect, except that the Company may treat such act as an election to withdraw funds in accordance with Paragraph 10.

16. Use of Funds.

The Company may use all payroll deductions received or held by the Company under this Plan for any corporate purpose, and the Company shall not be obligated to segregate such payroll deductions.

17. Effect of Changes of Common Stock.

If the Company shall subdivide or reclassify the Common Stock which has been or may be subject to options under this Plan, or shall declare thereon any dividend payable in shares of such Common Stock, or shall take any other action of a similar nature affecting such Common Stock, then the number and class of shares of Common Stock which may thereafter be subject to options under the Plan (in the aggregate and to any participant) shall be adjusted accordingly and in the case of each option outstanding at the time of any such action, the number and class of shares which may thereafter be purchased pursuant to such option and the option price per share shall be adjusted to such extent as may be determined by the Committee, with the approval of independent public accountants and counsel, to be necessary to preserve the rights of the holder of such option.

18. Amendment or Termination.

The Board may at any time terminate or amend the Plan. No such termination shall affect options previously granted, nor may an amendment make any change in any option theretofore granted which would adversely affect the rights of any participant holding options under the Plan without the consent of such participant.

19. Notices.

All notices or other communications by a participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received by the Plan Administrator.

20. Effect of Certain Transactions.

If the Company is a party to a reorganization or merger with one or more other corporations, whether or not the Company is the surviving or resulting corporation, or if the Company consolidates with or into one or more other corporations, or if the Company is liquidated or sells or otherwise disposes of substantially all of its assets to another corporation (each hereinafter referred to as a "Transaction"), in any such event while an Offering is in progress under Section 4 hereof, then: (i) after the effective date of such Transaction options shall remain outstanding and shall be exercisable in shares of common Stock, or, if applicable, shares of such stock or other securities, cash or property as the holders of shares of Common Stock received pursuant to the terms of such transaction; or (ii) the Board may accelerate the Offering Termination Date to a date coincident with or prior to the effective date of such Transaction.

21. Approval of Stockholders.

The Plan was previously approved by the stockholders of the Company. The amendment to the Plan to increase the shares of Common Stock available for issuance under the Plan from 500,000 to 750,000 is subject to the approval of the stockholders of the Company at their next annual meeting or at any special meeting of the stockholders for which one of the purposes shall be to act upon the Plan. If the stockholders do not approve the Increase, the amount of shares available under this Plan shall remain at 500,000. In such an event, the Company shall make a pro rata allocation of the shares available for delivery and distribution in accordance with Section 12(a) of the Plan.

22. Governmental and other Regulations.

The Plan, and the grant and exercise of the rights to purchase shares hereunder, and the Company's obligation to sell and deliver shares upon the exercise of rights to purchase shares, shall be subject to all applicable federal, state and foreign laws, rules and regulations, and to such approvals by any regulatory or governmental agency as may, in the opinion of counsel for the Company, be required. The Plan shall be governed by, and construed and enforced in accordance with, the provisions of Sections 421, 423 and 424 of the Code and the substantive laws of the State of Delaware. In the event of any inconsistency between such provisions of the Code and any such laws, such provisions of the Code shall govern to the extent necessary to preserve favorable federal income tax treatment afforded employee stock purchase plans under Section 423 of the Code.
