Item 1. Reports to Stockholders

Semiannual Report

Delaware
Investments[®]
Closed-End
Municipal Bond
Funds

September 30, 2013

The figures in the semiannual report for Delaware Investments Closed-End Municipal Bond Funds represent past results, which are not a guarantee of future results. A rise or fall in interest rates can have a significant impact on bond prices. Funds that invest in bonds can lose their value as interest rates rise.

Variable rate security. The rate shown is the rate as of Sept. 30, 2013. Interest rates reset periodically.

§Pre-refunded bonds. Municipal bonds that are generally backed or secured by U.S. Treasury bonds. For pre-refunded bonds, the stated maturity is followed by the year in which the bond is pre-refunded. See Note 6 in Notes to financial statements.

^Zero coupon security. The rate shown is the yield at the time of purchase.

†Tax-exempt obligations that contain a floating or variable interest rate adjustment formula and an unconditional right of demand to receive payment of the unpaid principal balance plus accrued interest upon a short notice period (generally up to 30 days) prior to specified dates either from the issuer or by drawing on a bank letter of credit, a guarantee or insurance issued with respect to such instrument. The rate shown is the rate as of Sept. 30, 2013.

Schedules of investments

Delaware Investments® National Municipal Income Fund

Variable rate security. The rate shown is the rate as of Sept. 30, 2013. Interest rates reset periodically.

#Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At Sept. 30, 2013, the aggregate value of Rule 144A securities was \$137,074, which represented 0.23% of the Fund's net assets. See Note 6 in Notes to financial statements.

Step coupon bond. Indicates security that has a zero coupon that remains in effect until a predetermined date at which time the stated interest rate becomes effective.

^Zero coupon security. The rate shown is the yield at the time of purchase.

▣Tax-exempt obligations that contain a floating or variable interest rate adjustment formula and an unconditional right of demand to receive payment of the unpaid principal balance plus accrued interest upon a short notice period (generally up to 30 days) prior to specified dates either from the issuer or by drawing on a bank letter of credit, a guarantee or insurance issued with respect to such instrument. The rate shown is the rate as of Sept. 30, 2013.

¹ Ratios have been annualized and total return and portfolio turnover have not been annualized.

² Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

³ Ratios do not reflect the effect of dividend payments to preferred shareholders, if applicable.

⁴ Ratio reflects total net investment income less dividends paid to preferred shareholders, if applicable, divided by average net assets applicable to common shareholders.

⁵ In November 2011, the Fund issued a new series of 300 variable rate preferred shares, with a liquidation preference of \$100,000 per share.

⁶ Excluding any accumulated but unpaid dividends.

Delaware Investments® Closed-End Municipal Bond Funds

September 30, 2013 (Unaudited)

Delaware Investments Colorado Municipal Income Fund, Inc. (Colorado Municipal Fund) and Delaware Investments Minnesota Municipal Income Fund II, Inc. (Minnesota Municipal Fund II) are organized as Minnesota corporations and Delaware Investments National Municipal Income Fund (National Municipal Fund) is organized as a Massachusetts business trust (each referred to as a Fund and collectively as the Funds). Colorado Municipal Fund, Minnesota Municipal Fund II and National Municipal Fund are considered diversified closed-end management investment companies under the Investment Company Act of 1940, as amended. The Funds' shares trade on the New York Stock Exchange MKT, the successor to the American Stock Exchange.

The investment objective of each of the Colorado Municipal Fund and Minnesota Municipal Fund II is to provide current income exempt from federal income tax and from state personal income tax, if any, consistent with the preservation of capital. The investment objective of the National Municipal Fund is to provide current income exempt from federal income tax, consistent with the preservation of capital. Each of Colorado Municipal Fund and Minnesota Municipal Fund II seek to achieve its investment objective by investing substantially all of its net assets in investment grade, tax-exempt municipal obligations of its respective state at the time of investment. The National Municipal Fund seeks to achieve its investment objective by investing at least 80% of its net assets in securities the income from which is exempt from federal income tax.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principles (U.S. GAAP) and are consistently followed by the Funds.

Security Valuation Debt securities are valued based upon valuations provided by an independent pricing service or broker and reviewed by management. To the extent current market prices are not available, the pricing service may take into account developments related to the specific security, as well as transactions in comparable securities. Valuations for fixed income securities utilize matrix systems, which reflect such factors as security prices, yields, maturities, and ratings, and are supplemented by dealer and exchange quotations. Generally, other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of each Fund's Board of Directors/Trustees (each a Board, or collectively, the Boards). In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures or suspension of trading in a security.

Federal Income Taxes No provision for federal income taxes has been made as each Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. The Funds evaluate tax positions taken or expected to be taken in the course of preparing each Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Management has analyzed each Fund's tax positions taken for all open federal income tax years (March 31, 2010–March 31, 2013), and has concluded that no provision for federal income tax is required in each Fund's financial statements.

Interest and Related Expenses Interest and related expenses include, but are not limited to, interest expense, remarketing fees, liquidity fees, and trustees' fees from the Funds' participation in inverse floater programs where a Fund has transferred its own bonds to a trust that issues floating rate securities with an aggregate principal amount equal to the principal of the transferred bonds. In conveyance of the bond, the Funds receive the inverse floating rate securities and cash from the trust. As a result of certain rights retained by the Funds, the transfer of the bond is not considered a sale, but rather a form of financing for accounting purposes whereby the cash received is recorded as a liability and interest expense is recorded based on the interest rate of the floating rate securities. Remarketing fees, liquidity fees, and trustees' expenses are recorded on the accrual basis. There were no interest and related expenses for the six months ended Sept. 30, 2013.

Use of Estimates The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the fair value of investments, the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

Other Expenses directly attributable to each Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Investments® Family of Funds are generally allocated among such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Interest income is recorded on the accrual basis. Discounts and premiums on debt securities are amortized to interest income over the lives of the respective securities using the effective interest method. Each Fund declares and pays dividends from net investment income monthly and distributions from net realized gain on investments, if any, annually. Each Fund may distribute more frequently, if necessary for tax purposes. Dividends and distributions, if any, are recorded on the ex-dividend date.

Each Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the six months ended Sept. 30, 2013.

Notes to financial statements

Delaware Investments[®] Closed-End Municipal Bond Funds

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its respective investment management agreement, each Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.40% which is calculated based on each Fund's adjusted average daily net assets.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides fund accounting and financial administration oversight services to each Fund. For these services, the Funds pay DSC fees based on the aggregate daily net assets of the Delaware Investments[®] Family of Funds at the following annual rate: 0.0050% of the first \$30 billion; 0.0045% of the next \$10 billion; 0.0040% of the next \$10 billion; and 0.0025% of aggregate average daily net assets in excess of \$50 billion. The fees payable to DSC under the service agreement described above are allocated among all funds in the Delaware Investments Family of Funds on a relative net asset value basis. For the six months ended Sept. 30, 2013, each Fund was charged for these services as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	\$2,442	\$5,875	\$2,270

As provided in the investment management agreement, each Fund bears the cost of certain legal services, including internal legal services provided to each Fund by DMC and/or its affiliates' employees. For the six months ended Sept. 30, 2013, each Fund was charged for internal legal services provided by DMC and/or its affiliates' employees as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	\$4,934	\$16,150	\$6,010

Directors /Trustees' fees include expenses accrued by each Fund for each Director /Trustee's retainer and meeting fees. Certain officers of DMC and DSC are officers and/or Directors/Trustees of the Trust. These officers and Directors/Trustees are paid no compensation by the Funds.

3. Investments

For the six months ended Sept. 30, 2013, each Fund made purchases and sales of investment securities other than short-term investments as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Purchases	\$10,882,366	\$17,325,401	\$19,386,844
Sales	10,421,799	17,128,223	19,911,727

At Sept. 30, 2013, the cost of investments for federal income tax purposes has been estimated since final tax characteristics cannot be determined until fiscal year end. At Sept. 30, 2013 the cost of investments and unrealized appreciation (depreciation) for each Fund were as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
Cost of investments	\$96,518,020	\$231,770,570	\$90,119,242
Aggregate unrealized appreciation	\$2,648,484	\$7,361,889	\$2,401,398
Aggregate unrealized depreciation	(2,650,183)	(6,463,217)	(2,539,113)
Net unrealized appreciation (depreciation)	\$ (1,699)	\$ 898,672	\$ (137,715)

Edgar Filing: DELAWARE INVESTMENTS MINNESOTA MUNICIPAL INCOME FUND II, INC - Form N-CSRS

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Capital loss carryforwards remaining at March 31, 2013 will expire as follows:

Year of Expiration	Colorado	Minnesota	National
	Municipal	Municipal	Municipal
	Fund	Fund II	Fund
2018	\$	\$	\$407,888

On Dec. 22, 2010, the Regulated Investment Company Modernization Act of 2010 (Act) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes were generally effective for taxable years beginning after the date of enactment. Under the Act, the Funds are permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period.

However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

U.S. GAAP defines fair value as the price that each Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. A three-level hierarchy for fair value measurements has been established based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. Each Fund's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-level hierarchy of inputs is summarized below.

- Level 1 inputs are quoted prices in active markets for identical investments (e.g., equity securities, open-end investment companies, futures contracts, exchange-traded options contracts)
- Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs) (e.g., debt securities, government securities, swap contracts, foreign currency exchange contracts, foreign securities utilizing international fair value pricing, broker-quoted securities, fair valued securities)
- Level 3 inputs are significant unobservable inputs (including each Fund's own assumptions used to determine the fair value of investments) (e.g., broker-quoted securities, fair valued securities)

Level 3 investments are valued using significant unobservable inputs. Each Fund may also use an income-based valuation approach in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Valuations may also be based upon current market prices of securities that are comparable in coupon, rating, maturity and industry. The derived value of a Level 3 investment may not represent the value which is received upon disposition and this could impact the results of operations.

The following tables summarize the valuation of each Fund's investments by fair value hierarchy levels as of Sept. 30, 2013:

	Colorado Municipal Fund Level 2
Municipal Bonds	\$ 96,016,321
Short-Term Investments	250,000
Total	\$ 96,266,321

	Minnesota Municipal Fund II Level 2
Municipal Bonds	\$ 232,169,242
Short-Term Investments	500,000
Total	\$ 232,669,242

	National Municipal Fund Level 2
Municipal Bonds	\$ 88,996,438
Short-Term Investments	985,000
Total	\$ 89,981,438

During the six months ended Sept. 30, 2013, there were no transfers between Level 1 investments, Level 2 investments or Level 3 investments that had a material impact to each Fund. Each Fund's policy is to recognize transfers between levels at the beginning of the reporting period.

Notes to financial statements

Delaware Investments® Closed-End Municipal Bond Funds

4. Capital Stock

Pursuant to their articles of incorporation, Colorado Municipal Fund and Minnesota Municipal Fund II each have 200 million shares of \$0.01 par value common shares authorized. National Municipal Fund has been authorized to issue an unlimited amount of \$0.01 par value common shares. The Funds did not repurchase any shares under the Share Repurchase Program during the six months ended Sept. 30, 2013. Shares issuable under each Fund's dividend reinvestment plan are purchased by each Fund's transfer agent, Computershare, Inc., in the open market.

On Nov. 15, 2011, Delaware Investments Colorado Municipal Income Fund, Inc. (VCF) and Delaware Investments Minnesota Municipal Income Fund II, Inc. (VMM), issued \$30,000,000 and \$75,000,000, respectively, of Series 2016 Variable Rate MuniFund Term Preferred (VMTP) Shares, with \$100,000 liquidation value per share in a privately negotiated offering. On March 15, 2012, Delaware Investments National Municipal Income Fund (National Municipal Fund) issued \$30,000,000 Series 2017 VMTP Shares, with \$100,000 liquidation value per share in a privately negotiated offering. Proceeds from the issuance of VMTP Shares, net of offering expenses, were invested in accordance with each Fund's investment objective. The VMTP Shares were offered to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933.

Colorado Municipal Fund and Minnesota Municipal Fund II are obligated to redeem their VMTP Shares on Dec. 1, 2016, unless earlier redeemed or repurchased by the Fund. National Municipal Fund is obligated to redeem its VMTP Shares on April 1, 2017, unless earlier redeemed or repurchased by the Fund. VMTP Shares are subject to optional and mandatory redemption in certain circumstances. The VMTP Shares may be redeemed at the option of a Fund, subject to payment of a premium until Dec. 1, 2013 (with respect to Minnesota Municipal Fund II and Colorado Municipal Fund) and April 1, 2014 (with respect to National Municipal Fund), and at par thereafter. A Fund may be obligated to redeem certain of the VMTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The redemption price per share is equal to the sum of the liquidation value per share plus any accumulated but unpaid dividends. Dividends on the VMTP Shares are set weekly, subject to adjustments in certain circumstances. The weighted average dividend rates for the six months ended Sept. 30, 2013 were as follows:

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	1.3%	1.3%	1.3%

The Funds use leverage because their managers believe that, over time, leveraging may provide opportunities for additional income and total return for common shareholders. However, the use of leverage also can expose common shareholders to additional volatility. For example, as the prices of securities held by a Fund decline, the negative impact of these valuation changes on common share net asset value and common shareholder total return is magnified by the use of leverage; accordingly, the use of structural leverage may hurt a Fund's overall performance.

Leverage may also cause the Funds to incur certain costs. In the event that a Fund is unable to meet certain criteria (including, but not limited to, maintaining certain ratings with Fitch Ratings and Moody's Investors Service, funding dividend payments or funding redemptions), that Fund will pay additional fees with respect to the leverage.

5. Derivatives

U.S. GAAP requires disclosures that enable investors to understand: 1) how and why an entity uses derivatives; 2) how they are accounted for; and 3) how they affect an entity's results of operations and financial position.

Inverse Floaters Each Fund may participate in inverse floater programs where a Fund transfers its own bonds to a trust that issues floating rate securities and inverse floating rate securities (inverse floaters) with an aggregate principal amount equal to the principal of the transferred bonds. The inverse floaters received by the Funds are derivative tax-exempt obligations with floating or variable interest rates that move in the opposite direction of short-term interest rates, usually at an accelerated speed. Consequently, the market values of the inverse floaters will generally be more volatile than other tax-exempt investments. The Funds typically use inverse floaters to adjust the duration of their portfolio. Duration measures a portfolio's sensitivity to changes in interest rates. By holding inverse floaters with a different duration than the underlying bonds that a Fund transferred to the trust, the Fund seeks to adjust its portfolio's sensitivity to changes in interest rates. The Funds may also invest in inverse floaters to add additional income to the Funds or to adjust the Funds' exposure to a specific segment of the yield curve. At Sept. 30, 2013, and during the period then ended, the Funds held no investments in inverse floaters.

6. Geographic, Credit, and Market Risk

The Funds concentrate their investments in securities issued by municipalities. Because each of the Colorado Municipal Income Fund and the Minnesota Municipal Income Fund invest substantially all of its net assets in municipal obligations of its respective state at the time of investment, events in that state may have a significant impact on the performance and investments of the Colorado Municipal Income Fund and the Minnesota Municipal Fund. These events may include economic or political policy changes, tax base erosion, state constitutional limits on tax increases, budget deficits and other financial difficulties, changes in the credit ratings assigned to the state's municipal issuers, the effects of natural or human-made disasters, or other economic, legislative or political or social issues. Any downgrade to the credit rating of the securities issued by the U.S. government may result in a downgrade of securities issued by the states or U.S. territories. The National Municipal Fund will be subject to these risks as well but to a lesser extent because it invests at least 80% of its net assets in securities, the income from which is exempt from federal income tax and is not

limited to investing substantially all of its assets in municipal obligations of a single state. From time to time and consistent with its investment policies, the National Municipal Income Fund may invest a considerable portion of its assets in certain municipalities. As of Sept. 30, 2013, the National Municipal Income Fund has invested 15.08%, 14.39%, and 10.68% (each as a percentage of fixed income investments), respectively, in securities issued by the State of California, the State of New York, and the State of Arizona, respectively. These investments could make the National Municipal Income Fund more sensitive to economic conditions in those states than other more geographically diversified national municipal income funds.

Each Fund may invest a percentage of assets in obligations of governments of U.S. territories, commonwealths and possessions such as Puerto Rico, the U.S. Virgin Islands or Guam. To the extent a Fund invests in such obligations, that Fund may be adversely affected by local political and economic conditions and developments within these U.S. territories, commonwealths and possessions. In the recent past, Puerto Rico has experienced volatile economic conditions. If the situation in Puerto Rico changes, the volatility, credit quality and performance of the Funds could be affected to the extent a Fund holds Puerto Rican securities.

Many municipalities insure repayment for their obligations. Although bond insurance may reduce the risk of loss due to default by an issuer, such bonds remain subject to the risk that market value may fluctuate for other reasons and there is no assurance that the insurance company will meet its obligations. A real or perceived decline in creditworthiness of a bond insurer can have an adverse impact on the value of insured bonds held in each Fund. At Sept. 30, 2013, the percentages of each Fund's net assets insured by insurers are listed below and these securities have been identified in the schedules of investments.

	Colorado Municipal Fund	Minnesota Municipal Fund II	National Municipal Fund
	39.51%	10.66%	2.86%

Each Fund invests a portion of their assets in high yield fixed income securities, which are securities rated BB or lower by Standard & Poor's (S&P) and/or Ba or lower by Moody's Investors Service (Moody's), or similarly rated by another nationally recognized statistical rating organization. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Funds may invest in advanced refunded bonds, escrow secured bonds or defeased bonds. Under current federal tax laws and regulations, state and local government borrowers are permitted to refinance outstanding bonds by issuing new bonds. The issuer refinances the outstanding debt to either reduce interest costs or to remove or alter restrictive covenants imposed by the bonds being refinanced. A refunding transaction where the municipal securities are being refunded within 90 days from the issuance of the refunding issue is known as a current refunding. Advance refunded bonds are bonds in which the refunded bond issue remains outstanding for more than 90 days following the issuance of the refunding issue. In an advance refunding, the issuer will use the proceeds of a new bond issue to purchase high-grade interest-bearing debt securities which are then deposited in an irrevocable escrow account held by an escrow agent to secure all future payments of principal and interest and bond premium of the advance refunded bond. Bonds are escrowed to maturity when the proceeds of the refunding issue are deposited in an escrow account for investment sufficient to pay all of the principal and interest on the original interest payment and maturity dates.

Bonds are considered pre-refunded when the refunding issue's proceeds are escrowed only until a permitted call date or dates on the refunded issue with the refunded issue being redeemed at the time, including any required premium. Bonds become defeased when the rights and interests of the bondholders and of their lien on the pledged revenues or other security under the terms of the bond contract are substituted with an alternative source of revenues (the escrow securities) sufficient to meet payments of principal and interest to maturity or to the first call dates. Escrowed secured bonds will often receive a rating of AAA from Moody's, S&P, and/or Fitch Ratings due to the strong credit quality of the escrow securities and the irrevocable nature of the escrow deposit agreement.

Each Fund invests in certain obligations that may have liquidity protection to ensure that the receipt of payments due on the underlying security is timely. Such protection may be provided through guarantees, insurance policies or letters of credit obtained by the issuer or sponsor from third parties, through various means of structuring the transaction or through a combination of such approaches. The Funds will not pay any additional fees for such credit support, although the existence of credit support may increase the price of a security.

Each Fund may invest up to 15% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair each Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Boards have delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of each Fund's limitation on investments in illiquid securities. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to each Fund's 15% limit on investments in illiquid securities. As of Sept. 30, 2013, no securities have been determined to be illiquid under the Funds' Liquidity Procedures. Rule 144A securities have been identified on the schedules of investments.

Notes to financial statements

Delaware Investments[®] Closed-End Municipal Bond Funds

7. Contractual Obligations

Each Fund enters into contracts in the normal course of business that contain a variety of indemnifications. Each Fund's maximum exposure under these arrangements is unknown. However, the Funds have not had prior claims or losses pursuant to these contracts. Management has reviewed each Fund's existing contracts and expects the risk of loss to be remote.

8. Subsequent Events

Management has determined that no material events or transactions occurred subsequent to Sept. 30, 2013 that would require recognition or disclosure in the Funds' financial statements.

Delaware Investments[®] Closed-End Municipal Bond Funds

Fund management

Joseph R. Baxter
Senior Vice President, Head of Municipal Bond
Department, Senior Portfolio Manager

Joseph R. Baxter is the head of the municipal bond department and is responsible for setting the department's investment strategy. He is also a co-portfolio manager of the firm's municipal bond funds and several client accounts. Before joining Delaware Investments in 1999 as head municipal bond trader, he held investment positions with First Union, most recently as a municipal portfolio manager with the Evergreen Funds. Baxter received a bachelor's degree in finance and marketing from La Salle University.

Stephen J. Czepiel
Senior Vice President, Senior Portfolio Manager

Stephen J. Czepiel is a member of the firm's municipal fixed income portfolio management team with primary responsibility for portfolio construction and strategic asset allocation. He is a co-portfolio manager of the firm's municipal bond funds and client accounts. He joined Delaware Investments in July 2004 as a senior bond trader. Previously, he was vice president at both Mesirow Financial and Loop Capital Markets. He began his career in the securities industry in 1982 as a municipal bond trader at Kidder Peabody and now has more than 20 years of experience in the municipal securities industry. Czepiel earned his bachelor's degree in finance and economics from Duquesne University.

Denise A. Franchetti, CFA
Vice President, Portfolio Manager, Senior Research Analyst

Denise A. Franchetti is a senior research analyst for the municipal bond department. Currently, she is responsible for following the airport, education, hotel, cogeneration, and cargo sectors for the group. In 2003, she was also named as portfolio manager on the tax-exempt closed-end funds in addition to her research duties. Prior to joining Delaware Investments in 1997 as a municipal bond analyst, she was a fixed income trader at Provident Mutual Life Insurance and an investment analyst at General Accident Insurance. Franchetti received her bachelor's degree and an MBA from La Salle University. She is a member of the Financial Analysts of Philadelphia.

Gregory A. Gizzi
Senior Vice President, Senior Portfolio Manager

Gregory A. Gizzi is a member of the firm's municipal fixed income portfolio management team. He is also a co-portfolio manager of the firm's municipal bond funds and several client accounts. Before joining Delaware Investments in January 2008 as head of municipal bond trading, he spent six years as a vice president at Lehman Brothers for the firm's tax-exempt institutional sales effort. Prior to that, he spent two years trading corporate bonds for UBS before joining Lehman Brothers in a sales capacity. Gizzi has more than 20 years of trading experience in the municipal securities industry, beginning at Kidder Peabody in 1984, where he started as a municipal bond trader and worked his way up to institutional block trading desk manager. He later worked in the same capacity at Dillon Read. Gizzi earned his bachelor's degree in economics from Harvard University.

Board Consideration of Delaware Investments Colorado Municipal Income Fund, Inc.; Delaware Investments National Municipal Income Fund; and Delaware Investments Minnesota Municipal Income Fund II, Inc.

At a meeting held on August 20-22, 2013 (the Annual Meeting), the Board of Directors (the Board), including a majority of disinterested or independent Directors, approved the renewal of the Investment Advisory Agreements for Delaware Investments Colorado Municipal Income Fund, Inc.; Delaware Investments National Municipal Income Fund; and Delaware Investments Minnesota Municipal Income Fund II, Inc. (each, a Fund and together, the Funds). In making its decision, the Board considered information furnished at regular quarterly Board meetings, including reports detailing Fund performance, investment strategies and expenses, as well as information prepared specifically in connection with the renewal of the investment advisory and sub-advisory contracts. Information furnished specifically in connection with the renewal of the Investment Advisory Agreements with Delaware Management Company (DMC) concerning, among other things, the nature, extent and quality of services provided to the Funds, the costs of such services to the Funds, economies of scale and the financial condition and profitability of Delaware Investments. In addition, in connection with the Annual Meeting, reports were provided to the Directors in May 2013 and included reports provided by Lipper, Inc., an independent statistical compilation organization (Lipper). The Lipper reports compared each Fund's investment performance and expenses with those of other comparable mutual funds. The Independent Directors reviewed and discussed the Lipper reports with independent legal counsel to the Independent Directors. The Board requested and received information regarding DMC's policy with respect to advisory fee levels and its breakpoint philosophy; the structure of portfolio manager compensation; the investment manager's profitability; comparative client fee information; and any constraints or limitations on the availability of securities for certain investment styles, which had in the past year inhibited, or which were likely in the future to inhibit, DMC's ability to invest fully in accordance with Fund policies.

In considering information relating to the approval of each Fund's advisory agreement, the Independent Directors received assistance and advice from and met separately with independent legal counsel to the Independent Directors. Although the Board gave attention to all information furnished, the following discussion identifies, under separate headings, the primary factors taken into account by the Board during its contract renewal considerations.

Nature, Extent and Quality of Service. The Board considered the services provided by Delaware Investments to each Fund and its shareholders. In reviewing the nature, extent and quality of services, the Board considered reports furnished to it throughout the year, which covered matters such as the relative performance of each Fund, compliance of portfolio managers with the investment policies, strategies and restrictions for each Fund, compliance by DMC (Management) personnel with the Code of Ethics adopted throughout the Delaware Investments Family of Funds complex and adherence to fair value pricing procedures as established by the Board. The Board was pleased with the current staffing of the Funds' investment advisor and the emphasis placed on research in the investment process. The Board recognized DMC's recent receipt of several industry distinctions. The Board gave favorable consideration to DMC's efforts to control expenditures while maintaining service levels committed to fund matters. The Board was satisfied with the nature, extent and quality of the overall services provided by Delaware Investments.

Investment Performance. The Board placed significant emphasis on the investment performance of each Fund in view of the importance of investment performance to shareholders. Although the Board gave appropriate consideration to performance reports and discussions with portfolio managers at Board meetings throughout the year, the Board gave particular weight to the Lipper reports furnished for the Annual Meeting. The Lipper reports prepared for each Fund showed the investment performance of its shares in comparison to a group of similar funds as selected by Lipper (the Performance Universe). A fund with the highest performance ranked first, and a fund with the lowest ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25%, the second quartile; the next 25%, the third quartile; and the lowest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for each Fund was shown for the past one-, three-, five- and ten-year periods, to the extent applicable, ended March 31, 2013. The Board's objective is that each Fund's performance for the periods considered be at or above the median of its Performance Universe. The following paragraphs summarize the performance results for each Fund and the Board's view of such performance.

Delaware Investments Colorado Municipal Income Fund, Inc. The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end other state municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one-year period was in the second quartile of its Performance Universe. The report further showed that the Fund's total return for the three-year period was in the third quartile of its Performance Universe and the Fund's total return for the five- and ten-year periods was in the fourth quartile of its Performance Universe. The Fund's performance results were not in line with the Board's objective. In evaluating the Fund's performance, the Board considered the improved one-year performance result and numerous investment and performance reports delivered by Management personnel to the Board's Investments Committee. The Board was satisfied that Management was taking action to improve Fund performance and meet the Board's performance objective.

Delaware Investments Minnesota Municipal Income Fund II, Inc. The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end other state municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one-year period was in the third quartile of its Performance Universe. The report further showed that the Fund's total return for the three-, five- and ten-year periods was in the fourth quartile of its Performance Universe. The Fund's performance results were not in line with the Board's objective. In evaluating the Fund's performance, the Board considered the numerous investment and performance reports delivered by Management personnel to the Board's Investments Committee. The Board was satisfied that Management was taking action to improve Fund performance and to meet the Board's performance objective.

Other Fund information (Unaudited)

Delaware Investments[®] Closed-End Municipal Bond Funds

Board Consideration of Delaware Investments Colorado Municipal Income Fund, Inc.; Delaware Investments National Municipal Income Fund; and Delaware Investments Minnesota Municipal Income Fund II, Inc. (continued)

Delaware Investments National Municipal Income Fund The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end general and insured municipal debt funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one-year period was in the second quartile of its Performance Universe. The report further showed that the Fund's total return for the three-, five- and ten-year periods was in the fourth quartile of its Performance Universe. The Fund's performance results were not in line with the Board's objective. In evaluating the Fund's performance, the Board considered the improved one-year performance result and numerous investment and performance reports delivered by Management personnel to the Board's Investments Committee. The Board was satisfied that Management was taking action to improve Fund performance and meet the Board's performance objective.

Comparative Expenses. The Board considered expense comparison data for the Delaware Investments Family of Funds. Management provided the Board with information on pricing levels and fee structures for each Fund as of its most recently completed fiscal year. The Board also focused on the comparative analysis of effective management fees and total expense ratios of each Fund versus effective management fees and expense ratios of a group of similar closed-end funds as selected by Lipper (the Expense Group). In reviewing comparative costs, each Fund's contractual management fee and the actual management fee incurred by the Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) within the Expense Group, taking into account any applicable breakpoints and fee waivers. Each Fund's total expenses were also compared with those of its Expense Group. The Board considered fees paid to Delaware Investments for non-management services. The Board's objective is to limit each Fund's total expense ratio to be competitive with that of the Expense Group. The following paragraphs summarize the expense results for the Funds and the Board's view of such expenses.

Delaware Investments Colorado Municipal Income Fund, Inc. The expense comparisons for the Fund showed that its actual management fee and total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was extremely satisfied with the management fee and total expenses of the Fund in comparison to those of its Expense Group.

Delaware Investments Minnesota Municipal Income Fund II, Inc. The expense comparisons for the Fund showed that its actual management fee and total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was extremely satisfied with the management fee and total expenses of the Fund in comparison to those of its Expense Group.

Delaware Investments National Municipal Income Fund The expense comparisons for the Fund showed that its actual management fee was in the quartile with the lowest expenses of its Expense Group and its total expenses were in the quartile with the highest expenses of its Expense Group. The Board gave favorable consideration to the Fund's management fee, but noted that the Fund's total expenses were not in line with the Board's objective. In evaluating total expenses, the Board considered the limited number of funds in the Expense Group. The Board was satisfied with Management's efforts to improve the Fund's total expense ratio and to bring it in line with the Board's objective.

Management Profitability. The Board considered the level of profits, if any, realized by Delaware Investments in connection with the operation of the Funds. In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of Delaware Investments' business in providing management and other services to each of the individual funds and the Delaware Investments Family of Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of Delaware Investments, to a certain extent, reflects recent operational cost savings and efficiencies initiated by Delaware Investments. The Board considered Delaware Investments' efforts to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from recent industry-wide Securities and Exchange Commission initiatives. The Board also considered the extent to which Delaware Investments might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Investments Family of Funds and the benefits from allocation of fund brokerage to improve trading efficiencies. The Board found that the management fees were reasonable in light of the services rendered and the profitability of Delaware Investments.

Economies of Scale. As closed-end funds, the Funds do not issue shares on a continuous basis. Each Fund's assets increase only to the extent that the values of the underlying securities in the Fund increase. Accordingly, the Board determined that the Funds were not likely to experience significant economies of scale due to asset growth and, therefore, a fee schedule with breakpoints to pass the benefit of economies of scale on to shareholders was not likely to provide the intended effect.

About the organization

This semiannual report is for the information of Delaware Investments Closed-End Municipal Bond Funds shareholders. Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Funds may, from time to time, purchase shares of their common stock on the open market at market prices.

Each Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. Each Fund's Forms N-Q, as well as a description of the policies and procedures that each Fund uses to determine how to vote proxies (if any) relating to portfolio securities are available without charge (i) upon request, by calling 866 437-0252; and (ii) on the SEC's website at sec.gov. In addition, a description of the policies and procedures that the Fund uses to determine how to vote proxies (if any) relating to portfolio securities and each Fund's Schedule of Investments are available without charge on the Funds' website at delawareinvestments.com. Each Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C.; information on the operation of the Public Reference Room may be obtained by calling 800 SEC-0330.

Information (if any) regarding how each Fund voted proxies relating to portfolio securities during the most recently disclosed 12-month period ended June 30 is available without charge (i) through the Funds' website at delawareinvestments.com; and (ii) on the SEC's website at sec.gov.

Your reinvestment options

Each of the Funds offers an automatic dividend reinvestment program. If you would like to reinvest dividends, and shares are registered in your name, contact Computershare, Inc. at 866 437-0252. You will be asked to put your request in writing. If you have shares registered in street name, contact the broker/dealer holding the shares or your financial advisor. If you choose to receive your dividends in cash, you may now elect to receive them by ACH transfer. Contact Computershare at the number above for more information.
