Item 1. Report to Stockholders.

Management's Discussion of Trust Performance

Performance summary

This is the annual report for Invesco Pennsylvania Value Municipal Income Trust (the Trust) for the fiscal year ended February 28, 2014. The Trust's return can be calculated based on either the market price or the net asset value (NAV) of its shares. NAV per share is determined by dividing the value of the Trust's portfolio securities, cash and other assets, less all liabilities and preferred shares, by the total number of common shares outstanding. Market price reflects the supply and demand for Trust shares. As a result, the two returns can differ, as they did during the reporting period. The main driver of the Trust's return on an NAV basis was its exposure to the long end of the yield curve.

Performance

Total returns, 2/28/13 to 2/28/14

Trust at NAV	-4.51%
Trust at Market Value	-9.54
Barclays Pennsylvania Municipal Index*	0.51

Market Price Discount to NAV as of 2/28/14 -6.00

Source(s): Barclays via FactSet Research Systems Inc.

*Effective February 28, 2014, after the close of the fiscal year, the Trust will adopt a three-tier benchmark structure to compare its performance to broad market, style-specific and peer group market measures. The S&P Municipal Bond Index will represent the Trust's broad market benchmark instead of the Barclays Pennsylvania Municipal Index as the S&P Municipal Bond Index more closely reflects the performance of the broad US municipal bond market. The S&P Municipal Bond Pennsylvania 5+ Year Investment Grade Index and Lipper Closed End Pennsylvania Municipal Debt Funds Index will become the Trust's style-specific and peer group benchmarks, respectively.

The performance data quoted represent past performance and cannot guarantee comparable future results; current performance may be lower or higher. Investment return, NAV and common share market price will fluctuate so that you may have a gain or loss when you sell shares. Please visit invesco.com/us for the most recent month-end performance. Performance figures reflect Trust expenses, the reinvestment of distributions (if any) and changes in NAV for performance based on NAV and changes in market price for performance based on market price.

Since the Trust is a closed-end management investment company, shares of the Trust may trade at a discount or premium from the NAV. This characteristic is separate and distinct from the risk that NAV could decrease as a result of investment activities and may be a greater risk to investors expecting to sell their shares after a short time. The

Edgar Filing: Invesco Pennsylvania Value Municipal Income Trust - Form N-CSR

Trust cannot predict whether shares will trade at, above or below NAV. The Trust should not be viewed as a vehicle for trading purposes. It is designed primarily for risk- tolerant long-term investors.

How we invest

The Trust seeks to provide investors with a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital.

We seek to achieve the Trust's investment objective by investing primarily in Pennsylvania municipal securities that are rated investment grade at the time of

investment. Municipal securities include municipal bonds, municipal notes, municipal commercial paper and lease obligations. The Trust may also invest up to 20% of its net assets in non-investment-grade and unrated securities that we determine to be of comparable quality. From time to time, we may invest in Pennsylvania municipal securities that pay interest subject to the federal alternative minimum tax.

We employ a bottom-up, research-driven approach to identify securities that have

Portfolio Composition

By credit sector, based on total Investments

Revenue Bonds	80.3%
General Obligations	14.6
Pre-Refunded Bonds	2.6
Other	2.5

---	------------

attractive risk-reward characteristics for the sectors in which we invest. We also integrate macroeconomic analysis and forecasting into our evaluation and ranking of various sectors and individual securities. Finally, we employ leverage in an effort to enhance the Trust's income and total return.

Sell decisions generally are based on:

- n A deterioration or likely deterioration of an individual issuer's capacity to meet its debt obligations on a timely basis.
- n A deterioration or likely deterioration of the broader fundamentals of a particular industry or sector.
- n Opportunities in the secondary or primary market to purchase a security with better relative value.

Market conditions and your Trust

Pennsylvania has a highly diversified economy in terms of industries, with no single employment sector dominant. The commonwealth's economic performance is largely dependent on job growth. Since the end of the Great Recession, Pennsylvania has added 171,000 jobs.¹ The seasonally adjusted unemployment rate fell from 7.9% in December 2012 to 6.8% in December 2013, on track with the US, which saw a decline from 7.9% to 6.7%.¹ Pennsylvania tends to track the national economy, but with less volatility. During periods of economic contraction nationally, the commonwealth oftentimes outperforms the US in areas such as growth in real gross state product, real personal income and employment. However, during periods of economic expansion, the commonwealth often lags growth in the national economy.

For the fiscal year ended February 28, 2014, the municipal bond market returned -0.21%², as measured by the Barclays Municipal Bond Index. Record outflows from municipal bond funds, driven by concerns over rising interest rates and high-profile credit events, resulted in a challenging year for municipal bond investors. The \$67 billion³ in municipal bond fund redemptions between March and December 2013 was in stark contrast to inflows of \$65 billion³ and strong performance for the asset class over the prior two years.

Edgar Filing: Invesco Pennsylvania Value Municipal Income Trust - Form N-CSR

Shortly after the fiscal year began, investors became apprehensive that the US Federal Reserve (the Fed) would reduce its asset purchase program, known as quantitative easing (QE), as the US economy improved. Concerned that Fed action would cause interest rates to rise and bond prices to fall, investors began trimming their allocations to fixed income investments, including municipal bonds. The rate of outflows increased dramatically in June following comments made by then-Fed Chairman Ben Bernanke on the timing for tapering QE.

Over the summer of 2013, several high-profile credit events had an adverse impact

2 Invesco Pennsylvania Value Municipal Income Trust

on the municipal bond market. These included downgrades to the credit ratings of Chicago debt on pension concerns, Detroit filing the largest municipal bankruptcy in US history⁴ and increased uncertainty about the financial condition of Puerto Rico.

The market received a two-month reprieve in September when the Fed decided not to reduce QE, although it reversed that decision in December when it announced that it would decrease its asset purchases by \$10 billion per month, beginning in January 2014.⁵ A final headwind for the municipal bond market was significant tax-loss selling of municipal bonds in December to offset gains from strong equity returns during 2013.

In the first two months of 2014, the municipal bond market turned positive. Softer economic data reduced expectations for hawkish Fed action. Relatively high yields on municipal bonds, coupled with higher personal income tax rates and improving municipal fundamentals, drew investors back to the asset class. Net positive fund flows in January and February, combined with limited supply of new issuance, produced strong returns in the final two months of the fiscal year.

During the fiscal year, the largest driver of Trust performance relative to its benchmark, the Barclays Pennsylvania Municipal Index, was an overweight position in longer-maturity bonds. This position had a negative impact on relative performance as investors sold longer-dated bonds on concerns over rising interest rates. Security selection in the intermediate-to-long end of the yield curve was positive and helped offset the impact of rising rates.

At a sector level, the primary detractors from relative performance were electric, industrial revenue and special tax bonds. Underperformance in those sectors was significantly driven by bonds issued by Puerto Rico. State-specific trusts purchase bonds issued by US territories, such as Puerto Rico, because interest income from those bonds is exempt from state taxes.

One important factor affecting the Trust's relative performance was the use of structural leverage. The Trust uses leverage because we believe that, over time, leveraging can provide opportunities for additional income and total return for common shareholders. However, the use of leverage also can expose common shareholders to additional volatility. For example, if the prices of securities held by a trust decline, the negative effect of these valuation changes on common share NAV and total return is magnified by the use of leverage. Conversely, leverage may enhance common share returns during periods when the prices of securities held by a trust generally are rising.

During the reporting period, the Trust achieved a leveraged position through the use of inverse floating rate securities and

Variable Rate Muni Term Preferred (VMTP) shares. Inverse floating rate securities or Tender Option Bonds (TOBs) are instruments that have an inverse relationship to a referenced interest rate. VMTPs are a variable rate form of preferred stock with a mandatory redemption date. Inverse floating rate securities and VMTPs can be efficient means to manage duration, yield curve exposure and credit exposure, and potentially can enhance yield. At the close of the reporting period, leverage accounted for 38% of the Trust's total assets and it detracted from returns. For more information about the Trust's use of leverage, see the Notes to Financial Statements later in this report.

As stated earlier, the Trust trades at a market price that may be at a premium or discount to NAV. Throughout and at the end of the reporting period, the Trust traded at a discount to its underlying NAV.

We wish to remind you that the Trust is subject to interest rate risk, meaning when interest rates rise, the value of fixed income securities generally will fall. This risk may be greater in the current market environment because interest rates are at or near historic lows. We are monitoring interest rates and market and economic factors that may impact interest rates, including the potential impact of the Fed's tapering of QE. If interest rates rise, markets may experience increased volatility, which may affect the value and/or liquidity of certain of the Trust's investments or the market

price of the Trust's common shares.

Recently published rules implementing section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act may preclude banking entities from sponsoring and/or providing services for TOB trust programs. As a result, the Trust's ability to utilize TOBs for leverage purposes may be adversely affected.

Supplemental Information

Invesco Pennsylvania Value Municipal Income Trust's investment objective is to provide common shareholders with a high level of current income exempt from federal and Pennsylvania income taxes and, where possible under local law, local income and personal property taxes, consistent with preservation of capital.

- n Unless otherwise stated, information presented in this report is as of February 28, 2014, and is based on total net assets applicable to common shares.
- n Unless otherwise noted, all data provided by Invesco.
- n To access your Trust's reports, visit invesco.com/fundreports.

About indexes used in this report

- n The **Barclays Pennsylvania Municipal Index** is an unmanaged index considered representative of Pennsylvania investment-grade municipal bonds.
- n The **S&P Municipal Bond Index** is a broad, market value-weighted index that seeks to measure the performance of the US municipal bond market.
- n The **S&P Municipal Bond Pennsylvania 5+ Year Investment Grade Index** is a subset of the broad S&P Municipal Bond Index. This index of market value-weighted investment-grade US municipal bonds seeks to measure the performance of Pennsylvania-issued US municipals whose maturities are greater than or equal to 5 years.
- n The **Lipper Closed End Pennsylvania Municipal Debt Funds Index** is an unmanaged index considered representative of closed end Pennsylvania municipal debt funds tracked by Lipper. These funds limit assets to those securities that are exempt from taxation in Pennsylvania (double tax-exempt) or a city in Pennsylvania (triple-exempt).
- n The **Barclays Municipal Bond Index** is an unmanaged index considered representative of the tax-exempt bond market.
- n The Trust is not managed to track the performance of any particular index, including the index(es) described here, and consequently, the performance of the Trust may deviate significantly from the performance of the index(es).
- n A direct investment cannot be made in an index. Unless otherwise indicated, index results include reinvested dividends, and they do not reflect sales charges. Performance of the peer group, if applicable, reflects trust expenses; performance of a market index does not.

Other information

- n The returns shown in management's discussion of Trust performance are based on net asset values (NAVs) calculated for shareholder transactions. Generally accepted accounting principles require adjustments to be made to the net assets of the Trust at period end for financial reporting purposes, and as such, the NAVs for shareholder transactions and the returns based on those NAVs may differ from the NAVs and returns reported in the Financial Highlights.

4 Invesco Pennsylvania Value Municipal Income Trust

Dividend Reinvestment Plan

The dividend reinvestment plan (the Plan) offers you a prompt and simple way to reinvest your dividends and capital gains distributions (Distributions) into additional shares of your Invesco closed-end Trust (the Trust). Under the Plan, the money you earn from Distributions will be reinvested automatically in more shares of the Trust, allowing you to potentially increase your investment over time. All shareholders in the Trust are automatically enrolled in the Plan when shares are purchased.

Plan benefits

n Add to your account:

You may increase your shares in your Trust easily and automatically with the Plan.

n Low transaction costs:

Shareholders who participate in the Plan may be able to buy shares at below-market prices when the Trust is trading at a premium to its net asset value (NAV). In addition, transaction costs are low because when new shares are issued by the Trust, there is no brokerage fee, and when shares are bought in blocks on the open market, the per share fee is shared among all participants.

n Convenience:

You will receive a detailed account statement from Computershare Trust Company, N.A. (the Agent), which administers the Plan. The statement shows your total Distributions, date of investment, shares acquired, and price per share, as well as the total number of shares in your reinvestment account. You can also access your account at invesco.com/us.

n Safekeeping:

The Agent will hold the shares it has acquired for you in safekeeping.

Who can participate in the Plan

If you own shares in your own name, your purchase will automatically enroll you in the Plan. If your shares are held in street name in the name of your brokerage firm, bank, or other financial institution you must instruct that entity to participate on your behalf. If they are unable to participate on your behalf, you may request that they reregister your shares in your own name so that you may enroll in the Plan.

How to enroll

Edgar Filing: Invesco Pennsylvania Value Municipal Income Trust - Form N-CSR

If you haven't participated in the Plan in the past or chose to opt out, you are still eligible to participate. Enroll by visiting invesco.com/us, by calling toll-free 800 341 2929 or by notifying us in writing at Invesco Closed-End Funds, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170. If you are writing to us, please include the Trust name and account number and ensure that all shareholders listed on the account sign these written instructions. Your participation in the Plan will begin with the next Distribution payable after the Agent receives your authorization, as long as they receive it before the record date, which is generally 10 business days before the Distribution is paid. If your authorization arrives after such record date, your participation in the Plan will begin with the following Distribution.

How the Plan works

If you choose to participate in the Plan, your Distributions will be promptly reinvested for you, automatically increasing your shares. If the Trust is trading at a share price that is equal to its NAV, you'll pay that amount for your reinvested shares. However, if the Trust is trading above or below NAV, the price is determined by one of two ways:

1. **Premium:** If the Trust is trading at a premium (a market price that is higher than its NAV) you'll pay either the NAV or 95 percent of the market price, whichever is greater. When the Trust trades at a premium, you may pay less for your reinvested shares than an investor purchasing shares on the stock exchange. Keep in mind, a portion of your price reduction may be taxable because you are receiving shares at less than market price.
2. **Discount:** If the Trust is trading at a discount (a market price that is lower than its NAV) you'll pay the market price for your reinvested shares.

Costs of the Plan

There is no direct charge to you for reinvesting Distributions because the Plan's fees are paid by the Trust. If the Trust is trading at or above its NAV, your new shares are issued directly by the Trust and there are no brokerage charges or fees. However, if the Trust is trading at a discount, the shares are purchased on the open market, and you will pay your portion of any per share fees. These per share fees are typically less than the standard brokerage charges for individual transactions because shares are purchased for all participants in blocks, resulting in lower fees for each individual participant. Any service or per share fees are added to the purchase price. Per share fees include any applicable brokerage commissions the Agent is required to pay.

Tax implications

The automatic reinvestment of Distributions does not relieve you of any income tax that may be due on Distributions. You will receive tax information annually to help you prepare your federal income tax return.

Invesco does not offer tax advice. The tax information contained herein is general and is not exhaustive by nature. It was not intended or written to be used, and it cannot be used, by any taxpayer for avoiding penalties that may be imposed on the taxpayer under US federal tax laws. Federal and state tax laws are complex and constantly changing. Shareholders should always consult a legal or tax adviser for information concerning their individual situation.

How to withdraw from the Plan

You may withdraw from the Plan at any time by calling 800 341 2929, by visiting invesco.com/us or by writing to Invesco Closed-End Funds, Computershare Trust Company, N.A., P.O. Box 30170, College Station, TX 77842-3170. Simply indicate that you would like to withdraw from the Plan, and be sure to include your Trust name and account number. Also, ensure that all shareholders listed on the account sign these written instructions. If you withdraw, you have three options with regard to the shares held in the Plan:

1. If you opt to continue to hold your non-certificated whole shares (Investment Plan Book Shares), they will be held by the Agent electronically as Direct Registration Book-Shares (Book-Entry Shares) and fractional shares will be sold at the then-current market price. Proceeds will be sent via check to your address of record after deducting applicable fees, including per share fees such as any applicable brokerage commissions the Agent is required to pay.
2. If you opt to sell your shares through the Agent, we will sell all full and fractional shares and send the proceeds via check to your address of record after deducting a \$2.50 service fee and per share fees. Per share fees include any applicable brokerage commissions the Agent is required to pay.
3. You may sell your shares through your financial adviser through the Direct Registration System (DRS). DRS is a service within the securities industry that allows Trust shares to be held in your name in electronic format. You retain full ownership of your shares, without having to hold a share certificate. You should contact your financial adviser to learn more about any restrictions or fees that may apply.

The Trust and Computershare Trust Company, N.A. may amend or terminate the Plan at any time. Participants will receive at least 30 days written notice before the effective date of any amendment. In the case of termination, Participants will receive at least 30 days written notice before the record date for the payment of any such Distributions by the Trust. In the case of amendment or termination necessary or appropriate to comply with applicable law or the rules and policies of the Securities and Exchange Commission or any other regulatory authority, such written notice will not be required.

To obtain a complete copy of the current Dividend Reinvestment Plan, please call our Client Services department at 800 341 2929 or visit invesco.com/us.
