Speedemissions, Inc.
Notes to Consolidated Financial Statements

June 30, 2016
(Unaudited)

Note 1. Going Concern

The accompanying consolidated financial statements of Speedemissions, Inc. have been prepared on a going concern basis which contemplates the realization of assets and liquidation of liabilities in the normal course of business. These consolidated financial statements do not include any adjustments relating to the recoverability and classification of assets or the amounts and classification of liabilities that may be necessary in the event the Company cannot continue as a going concern. References in this report to "Speedemissions," the "Company," "we," "us" and "our" mean Speedemissions, Inc. and our consolidated subsidiaries.

Speedemissions has experienced recurring net losses which have caused an accumulated deficit of \$21,861,186 at June 30, 2016. We had a working capital deficit of \$1,455,497 at June 30, 2016 compared to a working capital deficit of \$1,429,910 at December 31, 2015.

Our revenues for the six months ended June 30, 2016 and the fiscal years ended December 31, 2015 and 2014 were below our expectations and internal forecasts primarily as a result of fewer vehicle emissions tests and safety inspections being performed at our stores. Our revenues for the six months ended June 30, 2016 and for the fiscal years ended December 31, 2015 and 2014 have been insufficient to attain profitable operations and to provide adequate levels of cash flow from operations. Our near term liquidity and ability to continue as a going concern is dependent on our ability to generate sufficient revenues from our store operations to provide sufficient cash flow from operations to pay our current level of operating expenses, provide for inventory purchases and to reduce past due amounts owed to vendors and service providers. No assurances can be given that the Company will be able to achieve sufficient levels of revenues in the near term to provide adequate levels of cash flow from operations. Should an increase in revenues not materialize, we will seek to further reduce operating costs to bring them in line with reduced revenue levels. If the Company is unable to achieve near term profitability and generate sufficient cash flow from operations, and if the Company is unable to sufficiently reduce operating costs, we would need to raise additional capital or obtain additional borrowings beyond our existing credit facilities. We currently have very limited access to capital, including the public and private placement of equity securities and additional debt financing. No assurances can be given that additional capital or borrowings would be available or, if available, that we would be able to complete a capital raise or financing on satisfactory terms, to allow us to continue as a going concern. As a result of the Company's history of losses and financial condition, there is substantial doubt about the ability of the Company to continue as a going concern. If the Company is unable to continue as a going concern, our shareholders will likely lose all of their investment in the Company.

On December 13, 2013 and on January 10, 2014, the Circuit Court in the Twelfth Judicial Circuit in and for Sarasota County, Florida (the "Court"), entered an Order Granting Approval of Settlement Agreement (the "Order") approving, among other things, the fairness of the terms and conditions of an exchange pursuant to Section 3(a)(10) of the Securities Act of 1933 (the "Securities Act"), in accordance with a Settlement Agreement (the "Settlement Agreement") between the Company and IBC Funds, LLC, a Nevada limited liability company ("IBC"), in the matter entitled IBC Funds, LLC, vs. SpeedEmissions, Inc., Case Nos. 2013 CA 008762 NC and 2014 CA 000153 (the "Actions"). IBC commenced the Actions against us to recover an aggregate of \$205,643 of past-due accounts payable, which IBC had purchased from certain of our vendors pursuant to the terms of separate claim purchase agreements between IBC and each of the respective vendors (the "Assigned Accounts), plus fees and costs (the "Claim"). The Assigned Accounts relate to certain research, technical, development and legal services. The Order provides for the full and final

settlement of the Claim and the Action. The Settlement Agreement became effective and binding on December 13, 2013 and January 10, 2014, respectively.

The Settlement Agreement provides that in no event shall the number of shares of common stock issued by the Company to IBC or its designee in connection with the Settlement Agreement, when aggregated with all other shares of common stock then beneficially owned by IBC and its affiliates (as calculated pursuant to Section 13(d) of the Securities Exchange Act of 1934 (the "Exchange Act") and the rules and regulations thereunder), result in the beneficial ownership by IBC and its affiliates (as calculated pursuant to Section 13(d) of the Exchange Act and the rules and regulations thereunder) at any time of more than 9.99% of the common stock of the Company. Pursuant to the Settlement Agreement, the Company issued 59,098,059 of its common shares to IBC during the year ended December 31, 2014, in full satisfaction of all amounts due IBC under the Settlement Agreement.

Furthermore, the Settlement Agreement provides that, for so long as IBC or any of its affiliates hold any shares of common stock of the Company, the Company and its affiliates are prohibited from, among other things, voting any securities of the Company in favor of: (1) an extraordinary corporate transaction, such as a merger, reorganization or liquidation, involving the Company or any of its subsidiaries, (2) a sale or transfer of a material amount of the Company's assets or its subsidiaries' assets, (3) any material change in the Company's present capitalization or dividend policy, (4) any other material change in the Company's business or corporate structure, (5) a change in the Company's charter, bylaws, or instruments corresponding thereto (6) causing a class of the Company's securities to be delisted from a national securities exchange or to cease to be authorized to be quoted in an inter-dealer quotation system of a registered national securities association, (7) causing a class of the Company's equity securities to become eligible for termination of registration pursuant to Section 12(g)(4) of the Exchange Act, (8) terminating the Company's transfer agent, (9) taking any action which would impede the purposes and objects of the Settlement Agreement or (10) taking any action, intention, plan or arrangement similar to any of those enumerated above. These prohibitions may not be modified or waived without further order of the Court.

We have been unable to make all required payments to the federal government for payroll taxes withheld from employee paychecks and the associated matching employer payroll taxes from April 1, 2015 through December 31, 2015. We also are in arrears during the same period to the state of Georgia for income taxes withheld from employee paychecks. As of August 5, 2016, we owed approximately \$240,000 and \$5,000 for 2015 payroll tax obligations to the federal and Georgia state governments, respectively. We proposed a payment plan to the federal government and made payments of \$10,000 on September 30, 2015, October 29, 2015 and January 12, 2016, but we have not reached an agreed payment schedule for the remainder of our 2015 federal payroll tax obligations as of the date of this report. However, we have made all federal tax deposits for 2016 payroll periods. We reached a payment agreement with the state of Georgia for the quarter ended June 30, 2015, which required four monthly payments of approximately \$5,000 each. All payments were made in accordance with the payment agreement. We were required to pay the state of Georgia for withholding taxes for the quarter ended September 30, 2015, in the approximate amount of \$14,500, by October 31, 2015. We reached a payment agreement with the state of Georgia for the quarter ended September 30, 2015, which required four monthly payments of approximately \$5,100 each. All payments, to the date of this report, were made in accordance with the payment agreement. In addition, we were able to make payments to the state of Georgia for all payroll tax obligations subsequent to September 30, 2015.

On April 16, 2015, the Company entered into a revolving loan agreement with Celtic Bank (“CB”), pursuant to which the Company initially borrowed \$17,000 from CB. Under the terms of the revolving loan agreement, the Company agreed to repay the initial loan, plus interest, for a total amount of \$18,955 by October 15, 2015. The Company made the required six monthly payments, as required, by the October 15, 2015 due date. As the Company repays the initial loan, it can and has borrowed new funds which created new six-month payment cycles on the previously outstanding principal plus the new funds borrowed. At their sole discretion, CB can increase the maximum availability under the revolving loan agreement above the \$17,000 amount established upon the execution of the revolving loan agreement. Effective April 18, 2016, CB increased our borrowing limit to \$33,200. At August 5, 2016, the outstanding balance on our revolving loan facility with CB was approximately \$24,000 and our cash balances were approximately \$9,000.

Our revenues during the years ended December 2015 and 2014, as well as the six months ended June 30, 2016, have been insufficient to attain profitable operations and to provide adequate levels of cash flow from operations. During the years ended December 31, 2015 and 2014, as well as the six months ended June 30, 2016, due to insufficient cash flow from operations and borrowing limitations under our line of credit facility, we have been extending payments owed to landlords and vendors beyond normal payment terms and deadlines. Until such vendors are paid within normal payment terms, no assurances can be given that required services and materials needed to support operations will continue to be provided. In addition, no assurances can be given that vendors will not pursue legal means to collect past due balances owed. Any interruption of services or materials would likely have an adverse impact on our operations and could impact our ability to continue as a going concern.

Note 2: Nature of Operations

Description of Business

Speedemissions, Inc. is one of the largest test-only emissions testing and safety inspection companies in the United States. We perform vehicle emissions testing and safety inspections in certain cities in which vehicle emissions testing is mandated by the United States Environmental Protection Agency (“EPA”). As of June 30, 2016, we operated 22 vehicle emissions testing and safety inspection stations under the trade names of Speedemissions and Auto Emissions Express (in Atlanta, Georgia and St. Louis, Missouri) and Just Emissions (in Salt Lake City, Utah). We also operate three mobile testing units in the Atlanta, Georgia area which service automotive dealerships and local government agencies. We manage our operations based on these three regions, and we have one reportable segment. References in this document to “Speedemissions,” “Company,” “we,” “us” and “our” mean Speedemissions, Inc. and our consolidated subsidiaries.

We use computerized emissions testing and safety inspections equipment that test vehicles for compliance with vehicle emissions and safety standards. We purchase or lease these computerized testing systems from state approved equipment vendors. Our revenues are mainly generated from the testing or inspection fees charged to the registered owner of the vehicle. As a service to our customers, we also sell automotive parts and supplies such as windshield wipers, taillight bulbs and gas caps at select locations. However, we do not provide automotive repair services.

On June 22, 2010, the Company announced the launch of its first iPhone application, Carbonga. Carbonga diagnoses an automobile's computer system using the on board diagnostic port available on vehicles produced since 1996. Carbonga can check over 2,000 vehicle fault codes. We launched version two of Carbonga on February 16, 2011. Version two improved the speed and performance of the application and added additional features, including the ability to receive vehicle safety recalls and Technical Service Bulletins, for an annual subscription fee.

During the quarter ended September 30, 2012, we formed a new company, SpeedEmissions Car Care, LLC, through which we franchised our vehicle emissions and safety inspections store model. Franchises are available to qualified store operators who have an interest in either a single- or multi-location opportunity in select cities where vehicle emissions testing/safety inspections and other automotive services are required. We signed an agreement with an Atlanta based franchise consulting company to assist with our plan to franchise our business model into a number of new U.S. markets. After securing approval for all the necessary disclosure documents, we began marketing franchises in the fourth quarter of 2012. However, as of June 30, 2016, we have sold no franchises.

During the three months ended June 30, 2014, we sold the assets comprising six of our Houston, Texas stores for a combined amount of \$220,000, consisting of \$152,500 in cash and notes receivable for \$67,500. The principal amount of the note was payable in equal monthly payments over a 12-month period with no interest. This note was paid in full during the year ended December 31, 2015.

On December 5, 2014, we sold the assets comprising five of our six Salt Lake City, Utah stores for \$1,350,000 in cash. After accounting for the sale of these five emissions testing centers, we now operate 22 emission testing centers in Atlanta, Georgia, St. Louis, Missouri and Salt Lake City, Utah metropolitan areas, plus three mobile testing units in the Atlanta, Georgia area.

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company are presented in accordance with accounting principles generally accepted in the United States of America ("GAAP") as codified in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments consisting of normal recurring adjustments necessary for a fair presentation of its financial position and results of operations. Interim results of operations are not necessarily indicative of the results that may be achieved for the full year. The financial statements and related notes do not include all information and footnotes required by GAAP for annual reports. This quarterly report should be read in conjunction with the consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

The Company has evaluated subsequent events through the date of the filing its Form 10-Q with the Securities and Exchange Commission. The Company is not aware of any significant events that occurred subsequent to the balance sheet date but prior to the filing of this report that would have a material impact on the Company's Consolidated Financial Statements.

The accompanying consolidated financial statements include the accounts of Speedemissions and its non-operating subsidiaries, which are 100% owned by the Company. All significant intercompany accounts and transactions have been eliminated in consolidation.

Note 3: Significant Accounting Policies and Estimates

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates included in these financial statements relate to useful lives of property and equipment, the valuation allowance provided against deferred tax assets and the valuation of long-lived assets and goodwill. Actual results could differ from those estimates. For a description of Speedemissions' critical accounting policies see the

Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Fair Value of Financial Instruments

The carrying amounts of cash, other current assets, accounts payable and accrued liabilities approximate their fair value because of the short-term nature of these accounts. Fair value of the equipment financing agreements and capital lease obligations approximate carrying value based upon current borrowing rates. The fair value of the Company's note receivable and note payable also approximates the carrying value because outstanding balances can be repaid at any time.

Note 4: Inventory

Inventory at June 30, 2016 consisted of certificate and merchandise inventory and was \$6,693 and \$1,371, respectively. Inventory at December 31, 2015 consisted of certificate and merchandise inventory and was \$8,118 and \$1,358, respectively.

Note 5: Notes Receivable

On September 14, 2010, the Company settled a lawsuit originally filed in 2006 against a former manager. The Company alleged the manager, while employed by the Company, breached his fiduciary duty by purchasing property in Texas where one of the Company's testing facilities he managed was located. Under the provisions of the settlement agreement, the Company will receive the sum of \$125,000 payable in monthly installments of \$1,000 per month for 72 months. The balance of \$53,000 will be due and payable to the Company on June 1, 2016. The note receivable is collateralized by a second lien on property owned by the former manager. The note receivable and gain from the settlement was computed and recorded at its present value of \$106,881 using an interest rate equal to prime rate plus 0.5%, which was 3.75%, which approximates rates offered in the market for notes receivable with similar terms and conditions. The Company recognized a gain from the legal settlement in the amount of \$106,881 during 2010. On May 6, 2016, in consideration of a payment of \$47,000, the Company agreed to cancel the note as paid in full, recording a loss of \$6,000.

During 2014, we sold the assets comprising six of our Houston, Texas stores for a combined amount of \$220,000, consisting of \$152,500 in cash and notes receivable for \$67,500. The principal amount of the note was payable in equal monthly payments over a 12-month period with no interest. The note was paid in full during the year ended December 31, 2015.

During 2015, we sold equipment for \$2,000 in cash plus a note receivable of \$2,496. The principal amount of the note was payable in equal monthly payments over a 12-month period with no interest. The note was paid in full in January 2016.

There was no outstanding balance on notes receivable as of June 30, 2016. The balance of notes receivable was \$56,200 December 31, 2015.

Note 9: Net Loss Per Share

Basic earnings per share (“EPS”) or net loss per share represents net loss divided by the weighted average number of common shares outstanding during a reported period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock, including stock options, warrants, and contingently issuable shares such as the Company’s Series A and Series B preferred stock (commonly and hereinafter referred to as “Common Stock Equivalents”), were exercised or converted into common stock.

The following table sets forth the computation for basic and diluted net loss per share for the three and six-month periods ended June 30, 2016 and 2015, respectively:

	Three Months Ended		Six Months Ended	
	June 30		June 30	
	2016	2015	2016	2015
Net loss (A)	\$(29,282) \$(246,832) \$(54,289) \$(359,428
Weighted average common shares - basic (B)	109,914,225	108,964,225	109,914,225	108,964,225

Diluted effect of stock options (1)	—	—	—	—

Net loss per share - basic (A/B)	\$(0.00) \$(0.00) \$(0.00) \$(0.00
Net loss per share - diluted (A/C)	\$(0.00) \$(0.00) \$(0.00) \$(0.00

As a result of the Company’s net loss for the three and six-month periods ended June 30, 2016 and 2015, aggregate Common Stock Equivalents of 426,000 and 431,000 issuable under stock option plans and stock warrants that were (1) potentially dilutive securities are anti-dilutive and have been excluded from the computation of weighted average common shares (diluted) for the three and six-month periods ended June 30, 2016 and 2015, respectively. These Common Stock Equivalents could be dilutive in future periods.

(2) As a result of the Company’s net loss in the three and six-month periods ended June 30, 2016 and 2015, aggregate Common Stock Equivalents of 4,277,498 issuable under Series A convertible, redeemable preferred stock that were potentially dilutive securities are anti-dilutive and have been excluded from the computation of weighted average common shares (diluted) for the three and six-month periods ended June 30, 2016 and 2015. These Common Stock Equivalents could be dilutive in future periods.

Note 10: Preferred and Common Stock

Preferred Stock

There were 5,133 shares of Series A convertible redeemable preferred stock (“Preferred A Stock”) issued and outstanding as of June 30, 2016 and December 31, 2015. For financial statement purposes, the Preferred A Stock has been presented outside of stockholders’ deficit on the Company’s consolidated balance sheets as a result of certain conditions that are outside the control of the Company that could trigger redemption of the securities.

Common Stock

The Company issued no common shares during the three or six month period ended June 30, 2016. The Company had 109,914,225 common shares outstanding as of June 30, 2016.

Note 11: Share-Based Compensation

The Company has several share-based compensation plans under which employees and non-employee directors receive stock options. Additionally, the Company has issued shares of its common stock as compensation to employees and payments of services rendered by third parties. Share-based compensation cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity grant). Fair value of the award is calculated using the Black-Scholes model or based on the fair value of the shares issued for the services provided, whichever is more accurately determinable. Such value is recognized as an expense over the requisite service period, net of estimated forfeitures, using the straight-line attribution method. The estimate of awards that will ultimately vest requires significant judgment, and to the extent actual results or updated estimates differ from the Company's current estimates, such amounts are recorded as a cumulative adjustment in the period estimates are revised. The Company considers many factors when estimating expected forfeitures, including types of awards, employee class and historical employee attrition rates. Actual results, and future changes in estimates, may differ substantially from the Company's current estimates.

There was no share based compensation expense during the three or six months ended June 30, 2016 and 2015. Share-based compensation is included in general and administrative expenses in the consolidated statements of operations.

Stock Incentive Plans

The Company has granted options to employees and directors to purchase the Company's common stock under various stock incentive plans. Under the plans, employees and non-employee directors are eligible to receive awards of various forms of equity-based incentive compensation, including stock options, restricted stock, restricted stock units and performance awards, among others. The plans are administered by the Compensation Committee of the Board of Directors, which determines the terms of the awards granted. Stock options are generally granted with an exercise price equal to the market value of the Company's common stock on the date of grant, have a term of ten years or less, and generally vest over three years from the date of grant.

The following table sets forth the options outstanding under the Company's stock option plans during the six-month period ended June 30, 2016:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Grant-date Fair Value
Options outstanding at December 31, 2015	59,000	\$ 0.61	
Granted	—	—	—
Expired	5,000	1.00	
Options outstanding at June 30, 2016	54,000	\$ 0.57	

The aggregate intrinsic value of options outstanding and exercisable at June 30, 2016 was \$0. Intrinsic value is the amount by which the fair value of the underlying stock exceeds the exercise price of the options.

The Company estimates the fair value for stock options at the date of grant using the Black-Scholes option pricing model, which requires management to make certain assumptions. Expected volatility is based on comparable company data. The Company bases the risk-free interest rate on U.S. Treasury note rates. The expected term is based on the vesting period and an expected exercise term. The Company does not anticipate paying cash dividends in the

foreseeable future and therefore uses an expected dividend yield of 0%. The Company did not grant stock options during the six months ended June 30, 2016.

As of June 30, 2016, there was no unrecognized share-based compensation expense related to non-vested stock options. There were no options that vested during the six months ended June 30, 2016 and 2015.

There were 54,000 and 59,000 options issued and outstanding under the Company's 2001 Stock Option Plan, the Amended and Restated 2005 Omnibus Stock Grant and Option Plan, Speedemissions Inc. 2006 Stock Grant and Option Plan and the 2008 Stock Grant and Option Plan (collectively, the "Option Plans") as of June 30, 2016 and December 31, 2015, respectively. There were no options granted under these plans during the six month period ended June 30, 2016. There were no options exercised during the six-month periods ended June 30, 2016 and 2015.

Stock Warrants

There were 372,000 common stock warrants outstanding as of June 30, 2016, and there were no warrants granted or exercised during the six month period ended June 30, 2016.

Note 12: Income Taxes

No provision for income taxes has been reflected for the three- and six-month periods ended June 30, 2016 and 2015 as the Company has sufficient net operating loss carry forwards to offset taxable income.

Note 13: Contingencies

From time to time, the Company may be involved in claims that arise out of the normal course of its business. In the opinion of management, we are not currently involved in any legal proceedings which would have a material adverse effect on the Company's financial position, results of operations or cash flows.

Cost of emission certificates. Cost of emission certificates increased \$1,509 or 1.0% for the three month period ended June 30, 2016 and was \$149,958, or 17.8% of revenues, compared to \$148,449, or 18.7% of revenues, for the three month period ended June 30, 2015. The decrease in general and administrative expenses during the three month period June 30, 2016 was primarily due to a decrease of \$47,812 in legal and accounting fees and \$18,345 in income resulting from early cancellation of an equipment lease by the lessor due to the obsolescence of the testing equipment underlying the lease.

Gain from disposal of non-strategic assets. We recorded a loss of \$3,482 from sales of non-strategic assets in the three month period ended June 30, 2016, and did not record any sales of non-strategic assets in the three month period ended June 30, 2015.

Liquidity and Capital Resources

Introduction

Our net cash position increased by \$90,340 during the six months ended June 30, 2016, primarily due to \$115,736 in net cash provided by financing activities, while our total liabilities increased by \$57,821. Our total liabilities increased mainly due to a \$157,079 increase notes payable, partially offset by an \$85,153 decrease in accounts payable. We hope to achieve an increase in our net operating cash flows on a long-term basis, but we may not achieve positive operating cash flows on a consistent basis during 2016.

As described above, on April 16, 2015, the Company entered into a revolving loan agreement with CB, pursuant to which the Company initially borrowed \$17,000 from CB. Under the terms of the revolving loan agreement, the Company agreed to repay the initial loan, plus interest, for a total amount of \$18,955 by October 15, 2015. The Company made the required six monthly payments, as required, by the October 15, 2015 due date. As the Company repays the initial loan, it can and has borrowed new funds which created new six-month payment cycles on the previously outstanding principal plus the new funds borrowed. At their sole discretion, CB can increase the maximum availability under the revolving loan agreement above the \$17,000 amount established upon the execution of the revolving loan agreement. Effective April 18, 2016, CB increased our borrowing limit to \$33,200. At August 5, 2016, the outstanding balance on our revolving loan facility with CB was approximately \$24,000 and our cash balances were approximately \$9,000.

For the six months ended June 30, 2016, operating activities used net cash of \$83,466. Our near term liquidity and ability to continue as a going concern is dependent on our ability to generate sufficient revenues from our store operations to provide sufficient cash flow from operations to pay our current level of operating expenses, to provide for inventory purchases and to reduce past due amounts owed to vendors and service providers. No assurances may be

given that the Company will be able to achieve sufficient levels of revenues in the near term to provide adequate levels of cash flow from operations. If the Company is unable to achieve near term profitability and generate sufficient cash flow from operations, we would need to raise additional capital or obtain additional borrowings beyond our existing line of credit facility. We currently have very limited access to capital, including the public and private placement of equity securities and additional debt financing. No assurances can be given that additional capital or borrowings would be available to allow us to continue as a going concern. If the Company is unable to continue as a going concern, our shareholders will likely lose all of their investment in the Company.

For the six months ended June 30, 2016, our net cash used in operating activities was \$83,466 compared to net cash used in operating activities of \$115,081 in the six months ended June 30, 2015. Negative operating cash flows during the six months ended June 30, 2016 were primarily created by a \$54,289 operating loss plus a \$58,652 decrease in accounts payable and accrued liabilities partially offset by depreciation and amortization of \$29,544.

Negative operating cash flows during the six months ended June 30, 2015 were primarily created by a \$359,428 operating loss partially offset by a \$162,268 increase in accounts payable and accrued liabilities, a \$38,871 decrease in other current assets plus depreciation and amortization of \$39,169.

Critical Accounting Policies

The discussion and analysis of the Company's financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. In consultation with our Board of Directors, the Company has identified accounting policies related to valuation of our equity instruments, valuation of long-lived assets and goodwill, created as the result of business acquisitions, and valuation of the allowance provided against deferred tax assets as key to an understanding of our financial statements. These are important accounting policies that require management's most difficult, subjective judgments.
