Bladex selects i-flex to lead its Technology Transformation Process

Panama City and Mumbai, November 10, 2005: Banco Latinoamericano de Exportaciones S.A. (NYSE: BLX) (Bladex), a leading provider of trade finance in Latin America and the Caribbean, announced today that it has chosen i-flex[®] solutions (Reuters: IFLX.BO & IFLX.NS) to lead its technology transformation process. Bladex is i-flex's first customer in Panama and the Central American region and is a testimony to the company's continued success across the Latin American Region.

Bladex is also the first bank in Latin America to opt for a comprehensive suite of solutions from i-flex, encompassing FLEXCUBE[®], Reveleus[™], FLEXCUBE Reporting Services (FRS), Business Process Consulting Services and Technology Deployment and Management Services (TDMS).

The solutions will allow Bladex to focus on its core business by automating its processes and enabling easy and fast dissemination of information to its affiliates.

"We are excited about having found in i-flex a competitive technology for our information and processing needs," stated Bladex's Chief Executive Officer, Jaime Rivera. He added, "Such a best-in-class platform reduces the risks often associated with comparable type implementations, and speeds our deployment of new services for our clients."

The Bank chose FLEXCUBE because of its capability to scale up to future expansion plans and its ability to serve as a platform for the Bank to offer new products and services to its clients. In addition, the technology will help in the implementation of a more efficient reporting infrastructure for the Bank in line with compliance requirements of regulatory bodies both in Panama and the USA.

Banks in Latin America are moving away from proprietary technologies and increasingly opting for flexible solutions to broaden the scope of their offerings and increase profitability. i-flex is proud to help Bladex take the initiative in this regard. The nature of the implementation showcases the breadth of our offerings across products and services and also demonstrates our ability to resolve real world problems faced by banks," said R. Ravisankar, CEO, International Operations and Business Development.

About Bladex

Bladex is a supranational bank originally established by the Central Banks of Latin America and Caribbean countries to promote trade finance in the Region. Based in Panama, its shareholders include central and state-owned entities in 23 countries of the Region, Latin American, international commercial banks, and institutional and retail investors.

BLADEX SAFE HARBOR STATEMENT

This press release contains forward-looking statements of expected future developments. The Bank wishes to ensure that such statements are accompanied by meaningful cautionary statements pursuant to the safe harbor established by the Private Securities Litigation Reform Act of 1995. The forward-looking statements in this press release refer to the growth of the trade portfolio, the increase in the number of the Bank's clients, the increase in activities engaged in by the Bank that are derived from the Bank's trade finance client base, anticipated operating income in future periods, the improvement in the financial strength of the Bank and the progress the Bank is making. These forward-looking statements reflect the expectations of the Bank's management and are based on currently available data; however, actual experience with respect to these factors is subject to future events and uncertainties, which could materially impact the Bank's expectations. Among the factors that can cause actual performance and results to differ materially are as follows: the possibility that the Bank will need to renegotiate, restructure or write-off certain of its Argentine loans; the possibility of pre-payments; the anticipated growth of the Bank's trade finance portfolio; the continuation of the Bank's preferred creditor status; the effects of increased interest rates on the Bank's financial condition; the implementation of the Bank's strategies and initiatives, including its revenue diversification strategy; the pending applications in the United States to open a representative office in Miami, Florida; the adequacy of the Bank's allowance for credit losses to address the likely impact of the Argentine crisis and other credit risks on the Bank's loan portfolio; the necessity of making additional provisions for credit losses; the Bank's ability to achieve future growth, to reduce its liquidity levels and increase its leverage; the Bank's ability to maintain its investment-grade credit ratings; the availability and mix of future sources of funding for the Bank's lending operations; and the adequacy of the Bank's sources of liquidity to cover large deposit withdrawals.
