Item 2.02. Results of Operation and Financial Condition.

On May 1, 2012, the Registrant issued an earnings release announcing its financial results for the three month period ended March 31, 2012. A copy of the earnings release is furnished as Exhibit 99.1.

This earnings press release includes financial measures that are not in conformity with accounting principles generally accepted in the United States. We refer to these as non-GAAP financial measures. Specifically, the release refers to adjusted statements of operations and adjusted diluted earnings per share.

Adjusted statements of operations and adjusted diluted earnings per share

Endo refers to adjusted income (loss) before tax in making operating decisions because it believes it provides meaningful supplemental information regarding the Company's operational performance. For instance, Endo believes that this measure facilitates its internal comparisons to its historical operating results and comparisons to competitors' results. The Company believes this measure is useful to investors in allowing for greater transparency related to supplemental information used by Endo in its financial and operational decision-making. In addition, Endo has historically reported similar financial measures to its investors and believes that the inclusion of comparative numbers provides consistency in its financial reporting at this time. Further, Endo believes that adjusted income (loss) before tax may be useful to investors as it is aware that certain of its significant stockholders utilize adjusted income (loss) before tax to evaluate its financial performance. Finally, adjusted income (loss) before income tax is utilized in the calculation of adjusted diluted net income per share, which is used by the Compensation Committee of Endo's Board of Directors in assessing the performance and compensation of substantially all of its employees, including its executive officers.

These non-GAAP financial measures are not prepared in accordance with accounting principles generally accepted in the United States and may be different from non-GAAP financial measures used by other companies. Endo refers to these non-GAAP financial measures in making operating decisions because it believes they provide meaningful supplemental information regarding the company's operational performance. For instance, Endo believes that these non-GAAP financial measures facilitate its internal comparisons to its historical operating results and comparisons to competitors' results. The company includes these non-GAAP financial measures in its earnings announcements because it believes they are useful to investors in allowing for greater transparency related to supplemental information used by Endo in its financial and operational decision-making. In addition, Endo has historically reported similar non-GAAP financial measures to its investors and believes that the inclusion of comparative numbers provides consistency in its financial reporting at this time. Further, Endo believes that these non-GAAP financial measures may be useful to investors as it is aware that certain of its significant stockholders and lenders utilize these measures to evaluate its financial performance. Finally, the adjusted statements of operations and adjusted diluted earnings per share measures are considered by the Compensation Committee of Endo's Board of Directors in assessing the performance and compensation of substantially all of its employees, including its executive officers.

Investors are encouraged to review the reconciliation of the non-GAAP financial measures used in this earnings announcement to their most directly comparable GAAP financial measures as provided with the financial statements included in this press release.
