GOL to Begin Operations in Bolivia in the First Half of 2005

São Paulo, January 20, 2005 GOL Linhas Aéreas Inteligentes S.A. (NYSE: GOL and Bovespa: GOLL4), Brazil's low-fare, low-cost airline, today announced that it has been authorized by the CERNAL (International Air Navigation Studies Commission) to operate regular flights to Santa Cruz de La Sierra, Bolivia. The Company is taking the necessary actions to commence flights to Bolivia during the first half of 2005. Bolivia will be GOL's second international destination since the Company began services to Buenos Aires, Argentina in December 2004.

Consistent with the successful model of international low-cost airlines, GOL will provide its low-cost, high-quality services to Bolivia, benefiting both Brazilian and foreign customers. GOL's successful operations in Argentina have proven that there is the opportunity to expand our business throughout South America, says Tarcísio Gargioni, GOL's Marketing and Services Vice-President.

About GOL Linhas Aéreas Inteligentes

GOL Linhas Aéreas Inteligentes, a low-cost, low-fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single-class of service. It also has one of the youngest and most modern fleets in the industry that results in low maintenance, fuel and training costs, and therefore high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best cost-benefit service in the market. GOL currently offers service to 38 major business and travel destinations in Brazil and one international destination, with substantial expansion opportunities. In 2005, GOL plans to grow by increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL listed its shares on the NYSE and the Bovespa in June 2004.
