(\* ) December 2005 preliminary data; final data for December 2004.

1. Available seat kilometers represents the aircraft seating capacity multiplied by the number of kilometers the seats are flown.
2. Revenue passenger kilometers represents the numbers of kilometers flown by revenue passengers.
3. Load factor represents the percentage of aircraft seating capacity that is actually utilized (calculated by dividing revenue passenger kilometers by available seat kilometers).

Preliminary operating revenue per available seat kilometer (RASK) for December 2005 reached approximately R\$23 cents, up approximately 20% over the month of September 2005. Preliminary RASK for 4Q05 was approximately R\$21 cents, primarily due to high demand for GOL's passenger transportation services, an increase in average stage length, and a slow recovery in yields.

#### About GOL Linhas Aéreas Inteligentes

Edgar Filing: Gol Intelligent Airlines Inc. - Form 6-K

GOL Linhas Aéreas Inteligentes, a low cost, low fare airline, is one of the most profitable and fastest growing airlines in the industry worldwide. GOL operates a simplified fleet with a single class of service. The Company has one of the youngest and most modern fleets in the industry resulting in low maintenance, fuel and training costs, with high aircraft utilization and efficiency ratios. In addition, safe and reliable services, which stimulate GOL's brand recognition and customer satisfaction, allow GOL to have the best value proposition in the market. GOL currently offers over 430 daily flights to 47 major business and travel destinations in Brazil, Argentina, Bolivia, Uruguay and Paraguay with substantial expansion opportunities. GOL's growth plans include increasing frequencies in existing markets and adding service to additional markets in both Brazil and other high-traffic South American travel destinations. GOL's shares are listed on the NYSE and the Bovespa. GOL: here everyone can fly!

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
