Discovery of good quality oil in south Santos Basin

Rio de Janeiro, November 23, 2011 – Petróleo Brasileiro S.A. – Petrobras announces that it has confirmed the presence of good quality oil in well 4-SPS-91 (4-BRSA-1002-SPS), in south Santos Basin, at an area known as Tiro and Sidon.

The new well, informally known as Patola, is located at a water depth of 299 meters, some 200 km off the coast of São Paulo State and 3.8 km from discovery well 1-SPS-57 (1-BRSA-658-SPS), in the area of the Evaluation Plan of the discoveries of wells 1-SPS-56 and 1-SPS-57 (1-BRSA-607 / 1-BRSA-658), former block BM-S-40.

Preliminary analyses indicate that this oil is of the same quality as the oil found in wild cat wells, around 36° API. This discovery confirms the potential of good quality oil in shallow waters of south Santos Basin.

The discovery was confirmed by oil sampling obtained through cable tests, in sandstone of the post-salt. This reservoir is approximately 2,160 meters deep.

Petrobras will proceed with the activities and investments provided in the Evaluation Plan, including the drilling of other wells in the area and will proceed with the Extended Well Test (EWT), which is currently in progress in wells 1-SPS-56 and 1-SPS-57.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
