QUARTERLY INFORMATION

MARCH 31, 2013

REPORT OF QUARTERLY INFORMATION REVIEW

To the Shareholders, Board Members and Directors of

TELEFÔNICA BRASIL S.A.

São Paulo - SP

Introduction

We have reviewed the individual and consolidated interim accounting information of **TELEFÔNICA BRASIL S.A.** and subsidiaries, contained in the ITR (Quarterly Information Form), referring to the quarter ended on March 31, 2013, which comprises the balance sheet and related statements of income, of comprehensive income, of changes in shareholders' equity and of cash flows for the three-month period then ended, including the notes thereto.

The management is responsible for the preparation of the individual interim accounting information according to CPC Technical Pronouncement CPC 21 (R1) – Interim Statement and interim consolidated accounting information according to CPC 21 (R1) and international standard IAS 34 – Interim Financial Reporting, issued by International Accounting Standards Board – IASB, as well as for the presentation of such information according to standards issued by CVM (Brazilian SEC), applicable to the preparation of Quarterly Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with the Brazilian and international standards of review of interim information (NBC TR 2410 - Revisão de Informações Intermediárias Executada pelo Auditor da Entidade e ISRE 2410 - Review of Interim Financial Information

Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of inquiries, mainly to those responsible for financial and accounting matters, and the application of analytical procedures and other review procedures.

The scope of a review is significantly less in scope than an audit and, consequently, it did not allow us to obtain assurance that we became aware of all significant matters which could be identified in an audit. Accordingly, we did not express an audit opinion.

Conclusion on individual interim information

Based on our review, we are not aware of any fact which makes us believe that the individual interim accounting information included in the aforesaid quarterly information was not prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information (ITR) and presented in accordance with the Brazilian SEC (CVM) regulations.

Conclusion on consolidated interim information

Based on our review, we are not aware of any fact which makes us believe that the consolidated interim accounting information included in the aforesaid quarterly information was not prepared, in all material respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of Quarterly Information (ITR) and presented in accordance with Brazilian SEC (CVM) regulations.

Emphasis

Restatement of correspondent amounts

As mentioned in Note 2, as a consequence of the change in accounting policies introduced by the adoption of IFRS 11, the correspondent amounts, individual and consolidated, related to the balance sheet of the period ended December 31, 2012 and the correspondent interim accounting information related to the statement of income, of comprehensive income, of changes in shareholders' equity, of cash flows and added value (supplementary information), related to the three-month period ended March 31, 2012, presented for comparison purposes, were adjusted and are being restatement in accordance with CPC 23 – Accounting Policies, Change in Estimate and Ratification of Error and CPC 26 (R1) – Presentation of the Financial Statements. Our conclusion is not changed regarding this matter.

Other matters

Interim statement of value added

We have also reviewed the individual and consolidated statement of value added (SVA), referring to the three-month period ended March 31, 2013, the presentation of which in the interim information is required according to standards issued by CVM (Brazilian SEC), regulations applicable to the preparation of the Quarterly Information – ITR and considered as

supplementary information by IFRS's standards, which do not require the presentation of the SVA. These statements were submitted to the same review procedures previously described and, based on our review, we are not aware of any fact which could make us believe that they were not prepared, in all material aspects, in accordance with individual and consolidated interim accounting information taken as a whole.

Telefônica Brasil S. A.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

1. OPERATIONS

a. Shareholding controlling interest

Telefônica Brasil S.A. ("Company" or Telefônica Brasil) is headquartered at Avenida Engenheiro Luiz Carlos Berrini, nº 1376, in the capital city of the state of São Paulo, Brazil. The Company is a member of Telefonica Group (Group), the telecommunications industry leader in Spain and which is also present in several European and Latin American countries. At March 31, 2013 and December 31, 2012, Telefônica S.A., holding company of the Group, held total direct and indirect interest in the Company of 73.81%, excluding treasury shares, 91.76% of which are common shares and 64.60% are preferred shares.

b. Operations

The Company's main business purposes is the rendering of fixed-line telephone and data services in the state of São Paulo, under Fixed Switched Telephone Service Concession Arrangement (STFC) and authorizations, respectively. Its subsidiaries are also authorized to render STFC services in Regions I and II of the General Service Concession Plan (PGO/2008) and other telecommunications services, such as: data communication, including broadband internet (Multimedia Communication Service - SCM), mobile telephone services (Personal Mobile Services – SMP), all over the country, and pay TV services, to wit (i) by satellite all over the country; (ii) MMDS technology in the cities of São Paulo, Rio de Janeiro, Curitiba and Porto Alegre, until December 2013, as a result of the waiver signed by the Company, effects of which will become effective 18 months after June 5, 2012, as a condition for the Company to participate in the 4G auction, held on June 12 and 13, 2012; and (iii) cable in the cities of São Paulo, Curitiba, Foz do Iguaçu and Florianópolis.

Service concessions and authorizations are granted by Brazil's Telecommunications Regulatory Agency (ANATEL), under the terms of Law No. 9472, of July 16, 1997 – General Law of Telecommunications ("Lei Geral das Telecomunicações" - LGT), amended by Laws No. 9986, of July 18, 2000 and No. 12485, of September 12, 2011 (Notes 1.b.1 and 1.b.2). It operates under regulations and supplementary plans issued.

b.1) STFC service concession arrangement

The Company is a concessionaire of the STFC to render fixed line services in the local network and national long distance calls originated in sector 31 of region 3, which comprises the state of São Paulo (except for cities comprising sector 33), established in the General Service Concession Plan (PGO/2008).

The Company's current STFC service concession arrangement was executed on June 30, 2011, is effective from July 1, 2011 to December 31, 2025, and was granted for valuable consideration. This arrangement provides for the possibility of amendments on December 31, 2015 and December 31, 2020. This condition allows ANATEL to set up new requirements and goals for universal and quality of telecommunication services, considering the conditions in place at the time.

The service concession arrangement establishes that all assets owned by the Company and that are indispensable to the provision of the services described in the referred to arrangement are considered reversible assets and are deemed to be part of the service concession assets. These assets will be automatically returned to ANATEL upon termination of the service concession arrangement, according to the regulation in force. At March 31, 2013, estimated residual value of reversible assets was R\$6,973,461 (R\$6,911,508 at December 31, 2012), which comprised switching and transmission equipment and public use terminals, external network equipment, energy equipment and system and operation support equipment.

Telefônica Brasil S. A.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

In accordance with the service concession arrangement, every two years, during the arrangement's 20-year effective term, the Company shall pay a fee which will correspond to 2% (two percent) of its prior-year STFC revenue, net of taxes and social contributions.

b.2) Authorizations and frequencies related to mobile telephone services

Vivo S.A., wholly-owned subsidiary of the Company, is authorized to render SMP services, which are also regulated by ANATEL.

Frequency authorizations granted by ANATEL for mobile telephone services may be renewed only once, for a 15-year period, through a biannually payment of fees equivalent to 2% (two percent), of the Company's prior-year revenue, net of taxes and social contributions, related to the application of the Basic and Alternative Plans of Service after the first renewal.

Information on the areas of operation (regions) and termination of radiofrequency authorizations is the same as in Note 1.b2 – "Authorizations and frequencies related to mobile telephone services", disclosed in the financial statements as of December 31, 2012.

b.3) Corporate restructuring

In order to simplify the Company's current organizational structure, and to help the Company integrate business and generate synergies from the rationalization of services provided, on March 15, 2012, the Company filed with ANATEL a request for previous approval of corporate restructuring, which became legally feasible due to legislation changes applicable to STFC operators through Law No. 12485.

The corporate restructuring proposed can only be implemented after previous approval by ANATEL, which is still analyzing the request.

2. BASIS FOR PREPARATION AND PRESENTATION OF QUARTERLY INFORMATION

The Company's quarterly information (ITR) for the quarter ended March 31, 2013 is presented in thousands of reais (unless otherwise indicated) and is presented considering the Company's ability to continue as a going concern.

The Company and its subsidiaries have no seasonal operations.

This quarterly information compares the quarters ended March 31, 2013 and 2012, except for the balance sheets, which compare the Company's financial position as of March 31, 2013 to the financial position as of December 31, 2012.

Company management, in meeting held on April 29, 2013, authorized the issuance of this quarterly information, which was confirmed by the Board of Directors in meeting held on May 6, 2013.

The individual quarterly information was prepared and is presented in accordance with accounting practices adopted in Brazil, which comprise Brazilian Securities and Exchange Commission (CVM) rules and Brazilian Financial Accounting Standards Board (CPC) pronouncements, which are in compliance with the standards and procedures under the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), except for investment in subsidiaries, which are measured using the equity method.

The consolidated quarterly information was prepared and is presented in accordance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), which are not different from accounting practices adopted in Brazil, which comprise CVM rules and CPC pronouncements.

Telefônica Brasil S. A.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

This quarterly information was prepared in accordance with accounting principles, practices and criteria consistent with those adopted in the preparation of the financial statements for the financial year ended December 31, 2012, in addition to the new pronouncements, interpretations and amendments, as follows:

New IFRS and International Financial Reporting Interpretations Committee (IFRIC) with no significant impact on the financial position presented in this quarterly information:

• IAS 1 Presentation of financial statements – presentation of Other Comprehensive Income items

Amendments to IAS 1 change the grouping of items presented in other comprehensive income. Items that could be reclassified (or recycled) to P&L at certain time in the future (e.g.: net earnings of net investments in hedge operations, exchange gains/losses from translation of operations abroad, net changes in cash flow hedge or gains in sale of available-for-sale assets) should be presented separately from items that will never be reclassified (e.g.: actuarial gains or losses in defined benefit plans). Revisions are effective for financial years beginning on or after July 1, 2012. The application of these revisions affects presentation only, and has no impacts on the financial position or performance of the Company and its subsidiaries.

IAS 19 Employee Benefits (Revision): IASB has issued several amendments to IAS 19. Such amendments include from basic changes, such as exclusion of the corridor approach and the concept of expected returns on plan assets, to simple clarifications on appreciation, depreciation and reformulation. Revisions are effective for financial years beginning on or after January 1, 2013. The application of this amendment has no significant impacts on the financial position or performance of the Company and its subsidiaries.

IAS 28 – Investments in Associates and Joint Ventures (revised in 2011): As a result of recent IFRS 11 and IFRS 12, IAS 28 is now IAS 28 – Investments in Associates and Joint Ventures, and describes how to apply the equity method for investments in joint ventures, and investments in associates. Revisions are effective for financial years beginning on or after January 1, 2013. The application of this amendment has no significant impacts on the financial position or performance of the Company and its subsidiaries.

IFRS 1 – Accounting for Government Grants (Revised IFRS 1): These revisions establish the first-time application of IAS 20 Accounting for Government Grants and Disclosure requirements prospectively to government loans existing as of the transition date to IFRS. Entities may opt to retroactively apply IFRS 9 (or IAS 39, as the case may be) and IAS 20 requirements to government loans if the necessary information therefor is obtained upon initial recognition of this loan. This exception would release companies adopting the standard for the first time from the obligation to retroactively measure government loans at an interest rate lower than market rate. Revisions are effective for financial years beginning on or after January 1, 2013. Application of these revisions is expected to have no impacts on the Company and its subsidiaries for the first-time adoption period.

IFRS 7 – Disclosures – Offsetting Financial Assets and Financial Liabilities (Revised IFRS 7): These revisions require that an entity disclose information on offsetting rights and related agreements (such as guarantee agreement). Disclosures provide useful information for users to assess the effect of offsetting agreements on an entity's financial position. The new disclosures are required for all financial instruments recognized that are offset in accordance with IAS 32 Financial Instruments – Presentation. Disclosures are also applicable to financial instruments recognized subject to a principal offsetting contract or similar agreement, irrespective of whether they are offset or not in accordance with IAS 32. This revision became effective for financial years beginning on or after January 1, 2013. The application of these revisions affects presentation only, and has no impacts on the financial position or performance of the Company and its subsidiaries.

(In thousands of reais, unless otherwise indicated)

IFRS 10 Consolidated Financial Statements. IAS 27 Separated Financial Statements: IFRS 10 replaces the part of IAS 27 – Consolidated and Separate Financial Statements addressing the recognition of consolidated financial statements. It also addresses issues mentioned in SIC-12 Consolidation – Special Purpose Entities. IFRS 10 sets forth a single control model, which is applicable to every entity, including SPE. Changes introduced by IFRS 10 will require that management exercise significant judgment to determine which entities are subsidiaries and, therefore, required to be included in the consolidation by a parent company, as in requirements contained in IAS 27. This standard became effective for financial years beginning January 1, 2013. The Company analyzed the referred to standard and identified no significant impacts on its quarterly information.

IFRS 12 - Disclosure of Interests in Other Entities: IFRS 12 includes all preceding disclosures contained in IAS 27 related to consolidated financial statements, as well as all disclosures previously included in IAS 31 and IAS 28. These disclosures refer to interests in subsidiaries, joint ventures, affiliates and structured entities. This standard became effective for financial years beginning on or after January 1, 2013. The application of this standard affects presentation only, and has no impacts on the financial position or performance of the Company and its subsidiaries.

IFRS 13 – Fair Value Measurement: IFRS 13 establishes a single source of guidance, for IFRS purposes, for all fair value measurements. IFRS 13 does not change determination when an entity is required to use the fair value, but provides guidance on how to measure fair value under the IFRS when such fair value is required or allowed. This standard became effective for financial years beginning on or after January 1, 2013. Application of this standard has no impacts on the Company for the first-time adoption period.

IAS 34 - Interim financial statements: This revision aligns disclosure requirements for total assets of the segment and total liabilities of the segment in the interim financial statements. This clarification also ensures that interim reporting is in line with the annual reporting. These enhancements became effective for financial years beginning on or after January 1, 2013. Application of this standard has no impacts on the Company for the first-time adoption period.

New IFRS and International Financial Reporting Interpretations Committee (IFRIC) with significant impacts on the financial position presented in this quarterly information:

IFRS 11 replaced IAS 31, *Interests in Joint Ventures*, and SIC-13 Jointly Controlled Entities – Non-Monetary Contributions by Venturers. IFRS 11 eliminated the option to account for jointly controlled entities based on proportional consolidation. Instead, jointly controlled entities qualifying for the *joint venture* definition shall be accounted for under the equity method. Application of this new standard impacted the financial position of the Company, and eliminated the proportional consolidation of Aliança, AIX and ACT. With application of this standard, investments in the aforementioned companies were accounted for based on the equity method. This standard became effective for annual periods beginning on or after January 1, 2013, and shall be retroactively applied to joint ventures held at first-time adoption date.

New IFRS and interpretations of the International Financial Reporting Interpretations Committee (IFRIC) not yet effective as of March 31, 2013

IAS 32 – Offsetting Financial Assets and Financial Liabilities – Revised IAS 32: These revisions clarify the meaning of “currently legally entitled to offsetting.” These revisions also provide clarification on the adoption of IAS 32 offsetting criteria for clearance systems (such as the clearing houses) which apply gross settlement mechanisms that are not simultaneous. These revisions are not expected to have an impact on the financial position, performance or disclosures of the Company and its subsidiaries for the first-time adoption period, and are effective for financial years beginning on or after January 1, 2014.

IFRS 9 – Financial Instruments: Classification and measurement: IFRS 9, as issued, reflects the first phase of IASB work towards replacing IAS 39, and refers to the classification and measurement of financial assets and liabilities as established by IAS 39. This standard would be effective for annual periods beginning on or after January 1, 2013. However, standard IFRS9 (R) – Effective IFRS 9 Date and Transition Disclosures, issued in December 2011, amended the date it will become mandatorily effective to January 1, 2015. In subsequent phase, IASB will address the accounting for *hedge* instruments and impairment of assets. The adoption of the first phase of IFRS 9 will have effects on the classification and measurement of the financial assets of the Company and its subsidiaries, but will have no impacts on the classification and measurement of financial liabilities. The Company will quantify the overall effect with other phases when the final standard is issued. This will include all phases.

Deferred taxes were determined considering future realization, as follows:

a) Income and social contribution tax losses: represents the amount recorded by the Company and its subsidiaries which, according to the tax legislation in Brazil, can be offset up to 30% of the tax bases computed for the following years, with no expiry date. Subsidiaries TData, TSTV, Ajato, GTR-T, Lemontree, TVA Sul and Comercial Cabo did not record the potential deferred income and social contribution tax credits which would be generated for the use of income and social contribution tax losses amounting to R\$325,913 as of March 31, 2013 (R\$301,081 as of December 31, 2012), considering uncertainties, at this

moment, as to the ability of these subsidiaries to generate future taxable profits sufficient to ensure realization of these deferred taxes.

Tax credits of the Company and its subsidiaries arising from income and social contribution tax losses recognized and not recognized are as follows. During the quarter ended March 31, 2013, there was no significant change in the business of the Company and its subsidiaries indicating that a provision for losses of the referred to tax credits would be required.

At March 31, 2013, the Company and its subsidiaries had a several number of tax-related judicial deposits, amounting to R\$1,574,155 (R\$1,549,738 as of December 31, 2012) and R\$2,217,139 (R\$2,182,513 as of December 31, 2012), Company and consolidated, respectively.

In Note 18, we present further details on the matters which give rise to these deposits.

Brief description of the main tax-related judicial deposits:

- Social contribution tax on gross revenue for social integration Program (PIS) and social contribution tax on gross revenue for social security financing (COFINS)

Vivo is involved in disputes related to: (i) claim arising from overpayment of tax credits, not recognized by tax authorities; (ii) tax debt arising from underpayment due to differences in ancillary statements (Federal Tax Debt and Credit Return – DCTF); and (iii) disputes referring to changes in rates and increase in tax bases introduced by Law No. 9718/98.

At March 31, 2013, consolidated judicial deposits amounted to R\$63,964 (R\$62,924 as of December 31, 2012).

- Social Contribution Tax for Intervention in the Economic Order (CIDE)

The Company and its subsidiaries are involved in legal and administrative disputes for the exemption of CIDE levied on offshore remittances of funds arising from agreements for the transfer of technology, brand and software licensing etc.

At March 31, 2013, judicial deposits amounted to R\$5,073 (R\$5,038 as of December 31, 2012) and R\$140,055 (R\$136,211 as of December 31, 2012), Company and consolidated, respectively.

- Telecommunications Inspection Fund (FISTEL)

ANATEL collects Installation Inspection Fee (TFI) on extension of licenses granted and on radio base stations, mobile stations and radio links.

Such collection results from the ANATEL understanding that said extension would be a triggering event of TFI and that mobile stations, even if owned by third parties, are also subject to TFI. The Company and its subsidiaries understand that such collection is unjustified, and therefore challenged the aforesaid fee in court.

At March 31, 2013, judicial deposits amounted to R\$829,049 (R\$818,502 as of December 31, 2012) for the Company and consolidated.

- Withholding income tax (IRRF)

The Company and its subsidiaries were involved in disputes related to: (i) exemption of IRRF payment on offshore remittances for out-coming traffic (land-line operators); (ii) exemption of IRRF payment on interest on equity recognized (mobile operators); and (iii) IRRF levied on earnings from rentals and royalties, wage labor and fixed-income investments.

At March 31, 2013, judicial deposits amounted to R\$49,281 (R\$48,759 as of December 31, 2012) and R\$59,040 (R\$58,367 as of December 31, 2012), Company and consolidated, respectively.

- Corporate Income Tax (IRPJ)

The Company and its subsidiaries were involved in disputes related to: (i) debts stemming from offsetting of IRPJ overpayments not recognized by the Brazilian IRS; and (ii) requirement of IRPJ estimates and lack of payment – debts in the integrated system of economic and tax information (SIEF).

At March 31, 2013, judicial deposits amounted to R\$24,380 (R\$24,095 as of December 31, 2012) and R\$25,730 (R\$25,422 as of December 31, 2012), Company and consolidated, respectively.

- Contribution to Empresa Brasil de Comunicação (EBC)

Sinditelebrasil (Union of Telephony and Mobile and Personal Services) filed an injunction challenging the Contribution to Foster Public Radio Broadcasting payable to EBC, introduced by Law No. 11652/2008. The Company and its subsidiaries, as union members, made judicial deposits referring to that contribution.

At March 31, 2013, judicial deposits amounted to R\$36,386 (R\$34,765 as of December 31, 2012) and R\$383,824 (R\$370,026 as of December 31, 2012), Company and consolidated, respectively.

- Social Security, Work Accident Insurance (SAT) and Funds to Third Parties (INSS)

The Company filed an injunction in order to nullify the entry stemming from collection of SAT and third party funds on payment of " Compensatory Damages for Suspension of Benefits" due to the suspension of collective bargaining agreements of 1996/1997 and 1998/1999, and SAT rate difference (1% to 3% of work accident insurance).

At March 31, 2013, judicial deposits amounted to R\$93,843 (R\$91,915 as of December 31, 2012) for the Company and consolidated.

- Unemployment Compensation Fund (FGTS)

The Company filed an injunction in order to represent its right not to pay surtax of 0.5% and 10% for FGTS introduced by Supplementary Law No. 110/2001 levied on deposits made by employers (the proceedings did not result in any reduction of FGTS deposits made by the Company on behalf of its employees).

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

At March 31, 2013, judicial deposits amounted to R\$67.307 (R\$66.386 as of December 31, 2012) for the Company and consolidated.

- Tax on Net Income (ILL)

The Company filed an injunction in order to represent its right to offset amounts unduly paid for ILL purposes against future IRPJ payments.

At March 31, 2013, judicial deposits amounted to R\$49,826 (R\$49,355 as of December 31, 2012) for the Company and consolidated.

- Universal Telecommunication Services Fund (FUST)

The Company and its subsidiaries petitioned for an injunction in order to have their right declared not to include expenses with interconnection (ITX) and Industrial Use of Dedicated Line (EILD) in FUST tax base for landline phone carriers and not to include revenues from ITX and EILD in FUST tax base for mobile phone carriers, according to Abridgment No. 7, of December 15, 2005, as it does not comply with the provisions contained in sole paragraph of article 6 of Law No. 9998, of August 17, 2000.

At March 31, 2013, judicial deposits amounted to R\$339,053 (R\$330,331 as of December 31, 2012) and R\$351,037 (R\$341,403 as of December 31, 2012), Company and consolidated, respectively.

- Provisional Contribution Tax on Financial Transactions (CPMF)

Given the merger of PTelecom Brasil S.A. into Vivo Part., merged into the Company in 2011, the judicial deposit balance related to the injunction filed by PTelecom Brasil S.A. was absorbed, so as to reject the

requirement for CPMF on pro forma and simultaneous foreign exchange agreements, as required by the Central Bank of Brazil to translate foreign loans into investment.

At March 31, 2013, judicial deposits amounted to R\$21,037 (R\$20,899 as of December 31, 2012) for the Company and consolidated.

- State Value-Added Tax (ICMS)

The Company and its subsidiaries were involved in disputes related to: (i) ICMS stated but not paid; (ii) ICMS not levied on communication in default; (iii) fine for late voluntary payment of ICMS; (iv) ICMS supposedly levied on access, adhesion, enabling, availability and use of services, as well as supplementary services and additional facilities; (v) right to credit from the acquisition of goods designed to Property, Plant and Equipment and electric energy; and (vi) activation cards for pre-paid services.

At March 31, 2013, judicial deposits amounted to R\$166 (R\$168 as of December 31, 2012) and R\$34,797 (R\$34,235 as of December 31, 2012), Company and consolidated, respectively.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

Brazilian Development Bank (BNDES)

- In October 2007, a credit facility was approved for the Company to finance investment in products and services produced domestically. All of these funds have been withdrawn and investment thereof are proven and accepted by BNDES.
- In August 2007, Vivo took out a R\$1,530,459 financing from BNDES. Funds were released for the purpose of financing investment projects for implementation and expansion of the wireless capacity all over Brazil. Credits were released in installments and, as of December 31, 2011, no more funds were available for withdrawal. The agreement is effective for seven years. Principal will be repaid in 60 consecutive monthly installments as from September 15, 2009, after a two-year grace period.
- On October 14, 2011, a R\$3,031,110 credit facility was taken out from BNDES. These funds are used in investments of expansion and improvement of the current network, implementation of the infrastructure required for new technologies, from 2011 to 2013, and construction of a *data center* in the city of Tamboré (São Paulo State) and social projects.

This agreement is effective for eight years, with its grace period ending July 15, 2014, when only interest will be paid, on a quarterly basis. After this period, interest will be paid and principal repaid within 60 consecutive monthly installments.

As the interest rates applied to two of the five sub-credit lines of this financing are lower than those prevailing in the market (TJLP and TJLP + 1.48%), this operation qualifies for the scope of IAS 20/CPC 7. Accordingly, using the effective interest method defined by IAS 39/CPC 38, the following comparison was considered: (i) total debt calculated based on rates defined in contract, and (ii) total debt calculated based on rates used in the market (fair value). The government grant by BNDES, adjusted to present value and deferred in accordance with the useful life of the financed asset item, resulted in balance amounting to R\$17,548 through March 31, 2013 (R\$18,322 as of December 31, 2012).

Through March 31, 2013 and December 31, 2012, the amount of R\$1,802,113 has been released.

- In January 2010, a R\$319,927 financing line was approved to Vivo by BNDES through its Investment Maintenance Program (BNDES PSI). Funds borrowed are used to improve the network capacity through acquisition of domestic equipment previously registered with BNDES (subject to Finame), and released as investments made are evidenced. Through December 31, 2012, the amount of R\$184,489 was released and the remaining R\$135,438 balance was canceled.

As the interest rates applied to this financing are lower than those prevailing in the market (4.5% to 5.5% p.a. fixed), this operation qualifies for the scope of IAS 20/CPC 7. Accordingly, using the effective interest method defined by IAS 39/CPC 38, the following comparison was considered: (i) total debt calculated based on rates determined in contract, and (ii) total debt calculated based on rates used in the market (fair value). The government grant by BNDES, adjusted to present value and deferred in accordance with the useful life of the financed asset item, resulted in balance amounting to R\$22,594 through March 31, 2013 (R\$23,876 as of December 31, 2012).

Telefônica Brasil S. A.

NOTES TO QUARTERLY INFORMATION

(In thousands of reais, unless otherwise indicated)

- With the merger process, Vivo responded for the financing agreements which belonged to former Vivo Part. whose balance amounted to R\$ 25,933 as of March 31, 2013 (R\$ 26,825 at December 31, 2012).
- In November 2010 and in March 2011, BNDES approved credit facilities for Comercial Cabo TV São Paulo amounting to R\$ 40,163. On December 28, 2012, a R\$9,493 financing line was approved by BNDES, for 36 months, with six-month grace period for principal, fully released as investments made are proved. Through March 31, 2013, R\$ 41,950 (R\$ 41,950 at December, 2012) had been released. These transactions also fall into the scope of IAS 20/CPC 7 because the interest rate is lower than the market rate (2.5% p.a. and 5.5% p.a. fixed), and the subvention granted by BNDES, adjusted to present value, resulted – as of March 31, 2013 – in the amount of R\$ 2,469 (R\$ 2,404 at December 31, 2012).
- In December 2010, BNDES, through its Investment Maintenance Program (BNDES PSI), approved a R\$5,417 financing line for the Company. Through March 31, 2013, balance amounted to R\$ 1,900 (R\$ 1,946 as of December 31, 2012). This transaction also falls into the scope of IAS 20/CPC 7 because the interest rate is lower than the market rate (5.5% p.a. fixed), and the subvention granted by BNDES, adjusted to present value, resulted – as of March 31, 2013 – in the amount of R\$ 320 (R\$ 331 as of December 31, 2012).
- On December 28, 2012, R\$21,783 and R\$331,698 financing lines were approved for the Company and Vivo, respectively, by BNDES, at the rate of 2.5% p.a., for 60 months, 24 grace period for principal, which will be released as investments made are proved.

Médiocrédito

Loan taken out in 1993 by Telecomunicações Brasileiras S.A. (Telebrás) from *Instituto Centrale per il Credito a Médio Termine (Mediocredito Centrale)* amounting to US\$45,546, with semiannual repayments and maturity by 2014. This loan was taken in order to build rural telephony via satellite in the state of Mato Grosso. A derivative was taken out to hedge the Company against currency risks related to this debt and, as it is an effective hedge, the hedge accounting methodology was adopted. Therefore, as of March 31, 2013, the risk against which the Company was hedged by this instrument was recognized in the balance

sheet at its fair value as of the balance sheet date.

Banco Europeu de Investimentos - BEI

Vivo took out a €250 million (equivalent to U\$365 million) financing from BEI. Funds were released in two installments, the first of which on December 19, 2007, and the second on February 28, 2008. The agreement will be effective for seven years, with principal amount repayment in two installments, on December 19, 2014 and March 2, 2015. Interest is collected on a semiannual basis, according to each release date. This financing is secured with a *swap* agreement that converts the currency risk into a percentage of CDI variation.

Telefônica Brasil S. A.**NOTES TO QUARTERLY INFORMATION****Quarter ended March 31, 2013****(In thousands of reais, unless otherwise indicated)**Banco do Nordeste – BNB

- On January 29, 2007, Vivo S.A. took out a credit facility from BNB amounting to R\$ 247,240. Funds borrowed were used to expand coverage and increase mobile network capacity in the Northeastern region of Brazil. This agreement will be effective for ten years, with principal amount repaid in 96 installments, after a two-year grace period.
- On October 30, 2008, Vivo S.A. took out a credit facility from BNB amounting to R\$ 389,000. Funds borrowed were used to expand coverage and increase mobile network capacity in the Northeastern region of Brazil. This agreement will be effective for ten years, with principal amount repaid in 96 installments, after a two-year grace period.

Funds raised by Vivo Part.

4th Issue

On September 4, 2009, the Board of Directors of Vivo Part. approved the 4th public issue, by Vivo Part., of simple, registered, book-entry debentures nonconvertible into unprivileged shares of the company's issue, with a ten-year interest accrual period.

The total issue amounted was R\$810 million, basic offering of which corresponded to R\$600 million, plus R\$210 million due to full exercise of the additional debentures option.

Total 810,000 (eight hundred ten thousand) debentures were issued in three series: 98,000 debentures in the 1st series, 640,000 in the second series and 72,000 in the third series. The number of debentures allocated to each series was jointly decided in an agreement between Vivo Part. and the leading coordinator of the offer after completion of the blockbuilding procedure.

Remuneration of the 1st series was 108.00% of CDI, of the 2nd series was 112.00% of CDI, and of the 3rd series was a coupon of 7.00% p.a. on face value restated based on Brazil's Extended Consumer Price Index (IPCA) variation. These debentures accrue interest payable on a semiannual basis in the 1st and 2nd series and annual basis in the 3rd series.

(In thousands of reais, unless otherwise indicated)

The funds raised from the issue of the offering were used for full payment of the debt relating to the 6th issue of commercial promissory notes of Vivo Part. and to support its working capital.

Transaction costs in connection with this issue, amounting to R\$ 607 as of March 31, 2013 (R\$ 840 as of December 31, 2012), were allocated to a liabilities reducing account as deferred cost and are recorded as financial expenses, pursuant to the contractual terms of this issue. The effective rate this issue, considering transaction costs, is 112.13% of CDI.

Debenture holders, in meeting held on July 29, 2011 (first call), decided to approve transfer of 4th Public Distribution debentures issued by Vivo Part. to Telefonica Brasil with no changes to terms and conditions, and the correspondent amendment of the indenture in order to reflect change in issuer's ownership.

On July 24, 2012, the Company's Board of Directors approved the proposal to reschedule the 1st series of 4th issue, amounting to R\$98 million at 106% CDI.

On October 15, 2012, the Company renegotiated the 1st series of the 4th debenture issuance under the conditions approved by the Board of Directors in a meeting held on July 24, 2012. Total value renegotiated was R\$93,150 and the Company redeemed debentures held by dissenting debenture holders in the amount of R\$4,850, and kept them in treasury for later cancellation.

Rescheduling of the 2nd and 3rd series is provided for as follows: 2nd series, on October 15, 2013, 3rd series, on October 15, 2014.

The balance of this account at March 31, 2013 was R\$854,868 (R\$840,927 at December 31, 2012).

Fund raised by Telemig Celular S.A.(Telemig. company merged into Vivo Part. as of June 1, 2010)

1st Issue

Abiding by the SMP Service Agreement, in compliance with Public Selection No. 001/07, the state of Minas Gerais, through the State Department for Economic Development, has undertaken to subscribe debentures issued by Telemig, within the scope of the “Minas Comunica” Program, using proceeds from the Fund for Universal Access to Telecommunications Services (Fundo de Universalização do Acesso a Serviços de Telecomunicações) – FUNDOMIC. Under the terms of this program, Telemig would make SMP services available to 134 locations in the areas registered under No. 34, No. 35 and No. 38.

Also according to the program, 5,550 simple, registered, book-entry debentures nonconvertible into unprivileged shares, with no stock certificates issued, would be issued in up to five series.

In consideration for the certification by the State Department of Economic Development of the service to be provided to 15 locations, 621 debentures were issued in the 1st series of the 1st issue, amounting to R\$ 6,210 in December 2007. In March 2008, for the service in 42 locations, 1,739 debentures were issued in the 2nd series of the 1st issue, amounting to R\$ 17,390. At December 31, 2008, for the service in 77 locations, 3,190 debentures were issued in the 3rd series of the 1st issue, amounting to R\$ 31,900, thus completing the program for providing services to 134 locations inside the state of Minas Gerais.

(In thousands of reais, unless otherwise indicated)

The balance of this account at March 31, 2013 was R\$73,790 (R\$72,137 at December 31, 2012).

Fund raised by the Company

3rd Issue

On July 24, 2012, the Company's Board of Directors approved a proposal to raise funds from local financial market through issue of simple debentures nonconvertible into shares of the Company, amounting up to R\$2 billion, with a maximum seven-year term and firm underwriting.

On September 10, 2012, total 200,000 (two hundred thousand) simple, registered, book-entry debentures nonconvertible into unprivileged shares of the Company's issue were issued in a single series, with unit face value of R\$10,000.00 (ten thousand reais), totaling R\$2 billion, under the terms of CVM Rule No. 476, of January 16, 2009, with public distribution and limited placement efforts.

Remuneration is 100.00% of CDI, plus *spread* of 0.75% p.a., based on 252 working days. These debentures yield interest with semiannual payments, with interest accrual period of five years, maturing on September 10, 2017. Unit face value of each debenture will be fully repaid in a lump sum, on the maturity date.

Debentures are not subject to rescheduling.

Funds obtained through this limited offering were allocated to: (i) direct investment in 4th generation (4G) wireless phone services, specifically to settle the authorization price obtained by Vivo in the 4G auction;

and (ii) sustaining liquidity and extension of other debts already incurred by the Company.

Transaction costs in connection with this issue, amounting to R\$ 940 as of March 31, 2013 (R\$ 993 as of December 31, 2012), were allocated to a liabilities reducing account as deferred cost and are recorded as financial expenses, pursuant to the contractual terms of this issue.

The balance of this account at March 31, 2013 was R\$2,007,757 (R\$2,044,674 at December 31, 2012).

Provisions and labor contingencies refer to labor claims filed by former's employees and employees at outsourced companies (the later alleging joint or subsidiary liability) claiming for, among others, overtime, equal pay for like work, post-retirement salary supplements, job hazard premium, additional for unhealthy work conditions and claims related to outsourced services.

The Company is also defendant in labor claims filed by retired former employees regarding the Medical Care Plan for Retired Employees (PAMA), which require, among other issues, the annulment of the change occurred in such plan. The claims await the decision by the Regional Labor Court of São Paulo. Based on the opinion of its legal advisors and the current jurisdictional benefits, management considers this claim as a possible risk. No amount has been assigned for these claims, since in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time.

Additionally, the Company is part to public civil actions filed by the Department of Labor, in respect of the decision to restrain the Company to continue hiring outsourced companies to carry out the Company's main activities. No amounts were assigned to the possible likelihood of an unfavorable outcome related to these public civil actions in the table above, since in these phases, in the event of loss, it is not possible to estimate the monetary loss for the Company.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

Such proceedings concern the collection of contributions to FUNTTEL on other revenues (not related to telecom services), as well as on income and expenses transferred to other operators (interconnection).

According to Management and the Company's legal advisers, the likelihood of loss in these proceedings is possible.

Telecommunications Inspection Fund (FISTEL)

Because extension of the effective license period to use telephone switches in connection with use of STFC (landline phone carriers) and extension of the right to use radiofrequency in connection with wireless service (wireless carriers), ANATEL charges the Installation Inspection Fee (TFI).

This collection is based on ANATEL's understanding that such extension would represent a taxable event for TFI. The Company and its subsidiaries understand that such collection is unjustified, and separately challenged the aforesaid fee in court. At March 31, 2013, total amount was R\$48,059 (R\$197,666 at December 31, 2012) for the Company, with deposit in full, and R\$1,613,794 (R\$1,589,479 at December 31, 2012) for consolidated, without the respective deposit in full.

According to Management and the Company's legal advisers, the likelihood of loss in these proceedings is possible.

Public Price for Numbering Resources Management (PPNUM)

Vivo, along with other wireless carriers in Brazil, are challenging in court the tariff charged by ANATEL for use by such carriers of the numbering resources managed by the agency. When charged by ANATEL, Vivo made a judicial deposit referring to the amounts payable. On April 23, 2009, the carriers received a favorable sentence and the lawsuit is currently waiting to be tried at the court of appeals. At March 31, 2013, total amount was R\$ 2,160 (R\$ 2,138 at December 31, 2012).

According to Management and the Company's legal advisers, the likelihood of loss in these proceedings is possible.

Provisions for civil contingencies

- The Company is party to various claims related to rights to receive additional shares calculated vis-à-vis network expansion plans after 1996 (share supplement processes). Such claims are at several stages: Lower court, Justice and Higher Court of Justice. Considering the likelihood of an unfavorable outcome as probable as of March 31, 2013, the Company set up a provision amounting to R\$32,914 (R\$31,260 as of December 31, 2012).

- The Company and its subsidiaries are parties to civil proceedings in the administrative and judicial sphere, the object of which is the provision of services. This proceedings are filed by individual consumers, civil associations representing consumer rights, PROCON, as well as the State and Federal Public Prosecutor's Offices. Similarly, the Company and its subsidiaries are defendants or plaintiffs in other proceedings having as object matters other than those related to the normal course of business. At March 31, 2013, provisions amounted to R\$207,419 (R\$193,216 at December 31, 2012) for Company and R\$404,307 (R\$377,649 at December 31, 2012) for consolidated.

- The Company is also involved in various lawsuits filed by individual consumers, with similar characteristics, which individually are not considered to be material, based on provision analysis, the historical average of losses in similar proceedings. At March 31, 2013, provision set up amounted to R\$80,672 (R\$78,711 at December 31, 2012).

Provision for regulatory contingencies

At March 31, 2013, the Company and its subsidiaries were parties in administrative proceedings against ANATEL, which were filed based on alleged noncompliance with obligations set forth in industry regulations, as well as in legal claims discussing sanctions by ANATEL at the administrative level. The likelihood of an unfavorable outcome for these proceedings was rated as probable. Therefore, as of March 31, 2013, provisions were set up at R\$277,988 (R\$265,038 as of December 31, 2012) for the Company, and R\$325,338 (R\$307,674 as of December 31, 2012) for consolidated.

Civil contingencies

- Community Telephone Plan (PCT): Refers to a Public Interest Suit to which the Company is a party and which is related to the PCT, a plan that allows purchasers of telephone line expansion plans who did not receive shares for their financial investment to claim indemnity rights, in the city of Mogi das Cruzes. The total amount is approximately R\$ 248,737 (R\$236,236 as of December 31, 2012). The likelihood of

loss in this proceeding was deemed as possible by legal counsels. The São Paulo State Court of Justice (TJSP) has reversed the decision and deemed that claim groundless. The carriers association of Mogi das Cruzes (plaintiff) filed a special appeal to reverse that decision, which is currently waiting for a decision.

- Class actions filed by SISTEL Members Association in the State of São Paulo (ASTEL), whereby SISTEL members in São Paulo State challenge changes made in the health care plan for retired employees (PAMA), and claim that former conditions are restored. The claim is still in the evidentiary stage, and no decision was issued in any court level. The likelihood of loss in this proceeding was deemed as possible by legal counsels. The amount is not measurable and the claims are uncertain due to their unenforceability, since it would be necessary to restore the plan to its previous conditions.

- Public Interest Suits filed by ASTEL in São Paulo State and FENAPAS - National Federation of Associations of Retirees, Pensioners and Pension Funds Members of the Telecommunications Industry, both against SISTEL, the Company and other carriers, seeking annulment of PBS pension plan spin-off, claiming “the dismantling of SISTEL Foundation supplementary pension system”, which originated several specific PBS-mirrors plans, and respective allocation of resources deriving from technical surplus and tax contingencies at the time of the spin-off. The likelihood of loss in this proceeding was deemed as possible by legal counsels. The amount is not measurable and the claims are uncertain due to their unenforceability, since it would be necessary to restore SISTEL's spun-off fund related to carriers of the former Telebrás System.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

- The Public Prosecutor's Office of the State of São Paulo commenced a class action claiming moral and property damages suffered by all consumers of telecommunications services from 2004 to 2009 due to the bad quality of services and failures of the communications system. The Public Prosecutor's Office suggested that the indemnification to be paid should be R\$ 1 billion. The decision handed down on April 20, 2010 imposes the payment of indemnification for damages caused to all consumers who have filed a suit for such damages.

Conversely, in the event that the number of claiming consumers is not in line with the gravity of damages, after the lapsing of one year, the judge determined that the amount of R\$ 60 million should be deposited in the Special Expenses Fund to Recover Natural Rights Damages (Fundo Especial de Despesa de Reparação de Interesses Difusos Lesados). It is not possible to estimate the number of consumers who will individually file suits nor the amounts claimed thereby. The parties filed an appeal on the merits of the case. The judgment effects are in abeyance. No amount has been assigned to the possible likelihood of an unfavorable outcome in connection with this action, since in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time. Likewise, establishing a provision for contingency equivalent to the amount sought is not possible.

- The Company and its subsidiaries are involved in other civil claims, at several levels, related to service rendering. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Ministry. They are also involved in other claims of several types related to the normal course of business. Total contingency amounts to R\$ 671,382 (R\$643,432 as of December 31, 2012) for the Company and R\$ 1,277,943 (R\$ 1,236,312 as of December 31, 2012) for consolidated, whose likelihood of an unfavorable outcome has been assessed by their legal advisers as possible.

- The Company and its subsidiaries have received fines regarding the noncompliance of "SAC Decree". The Company and its subsidiaries are currently parties to several administrative proceedings and lawsuits, whose likelihood of an unfavorable outcome has been rated as possible by their legal advisers, amounting to R\$4,110 as of March 31, 2013 (R\$7,550 as of December 31, 2012) for the Company and R\$15,888 (R\$19,314 as of December 31, 2012) consolidated.

- Intellectual Property: Lune Projetos Especiais Telecomunicação Comércio e Ind. Ltda (Lune), a Brazilian company, proposed the lawsuit on November 20, 2001 against 23 wireless carriers claiming to own the patent for caller ID and the trademark "Bina". The purpose of that lawsuit it to interrupt provision of such service by carriers and to seek indemnification equivalent to the amount paid by consumers for using the service.

(In thousands of reais, unless otherwise indicated)

An unfavorable sentence was passed determining that Vivo should refrain from selling mobile phones with Caller ID service (Bina), subject to a daily fine of R\$ 10,000 in case of noncompliance. Furthermore, according to the sentence passed, Vivo must pay indemnification for *royalties* to be calculated in settlement. Motions for Clarification were opposed by all parties and Lune's motions for clarification were accepted since an injunctive relief in this stage of the proceedings was deemed applicable. An interlocutory appeal petition was filed given this decision, which suspended the interim relief, and rendered the unfavorable decision ineffective until a final decision is awarded to such appeal. An appeal was filed given the decision pending judgment. The likelihood of an unfavorable outcome has been assessed by legal advisors as possible. There is no way to determine the extent of potential liabilities with respect to this claim.

- Validity of prepaid plan: Vivo and other wireless carriers are defendants in several lawsuits filed by the Public Prosecutor's Office and consumer associations to challenge imposition of a period to use prepaid minutes. The plaintiffs allege that the prepaid minutes should not expire after a specific period. Conflicting decisions were handed down by courts on the matter. Although we believe that our criteria for the period determination comply with ANATEL standards, the likelihood of an unfavorable outcome has been assessed by legal advisers as possible, except for collective actions against Telemig, for which the likelihood of an unfavorable outcome in relation to this claim is deemed remote, also based on the opinion of our legal advisers.

Regulatory contingencies

- The Company and its subsidiaries are parties to administrative proceeding filed by ANATEL alleging noncompliance with the obligations set forth in industry regulations, as well as legal claims which discuss the sanctions applied by ANATEL at administrative level. The likelihood of an unfavorable outcome was rated as possible for the consolidated amount of R\$1,158,197 (R\$1,121,181 for the Company, of which R\$890,597 refers to administrative proceedings, R\$184,419 for administrative proceedings in court, and R\$46,165 for other legal claims) as of March 31, 2013, and R\$1,164,988 (R\$1,125,507 for the Company, of which R\$903,926 refers to administrative proceedings, R\$177,736 for administrative proceedings in court, and R\$43,845 for other legal claims) as of December 31, 2012.

- Administrative proceedings discussing payment of 2% charge on revenue from interconnection services due to the extension of right of use of SMP-related radiofrequencies. Under clause 1.7 of the Authorization Terms that grant right of use of SMP-related radiofrequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years), of a 2% charge calculated on net revenue from the basic and alternative service plans of the service company, determined in the year before that of payment.

However, ANATEL determined that the 2% charge should be calculated on revenue from service plans and also on revenue from interconnection services, which is not provided for by clause 1.7 of the referred to Authorization Terms.

For considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, Vivo filed administrative proceedings challenging these charges, based on ANATEL's position.

(In thousands of reais, unless otherwise indicated)

Legal advisers rated the likelihood of a favorable outcome in these proceedings as possible.

- Administrative Proceeding No. 08012.008501/2007-91: It is a proceeding filed at the level of the Brazilian System for Competition Defense (SBDC) by Global Village Telecom Ltda (GVT), Intelig Telecomunicações Ltda (Intelig), Transit do Brasil Ltda. and Easytone Telecomunicações Ltda. on August 6, 2007 against Claro S.A. (Claro), Tim Brasil Serviços e Telecomunicações S.A. (TIM), TNL SCS S.A. (Oi) and Vivo, for supposed trust and *price squeeze* practices, with the objective of increasing VUM tariff, thus increasing the costs of competitors. Due to the proceeding filed on August 21, 2008, the Department for Economic Right (SDE) started an administrative proceeding against the defendants in order to evaluate whether the practices adopted would fit into (i) items I, III and IV, article 20 combined with items V, article 21 and (ii) items I, III and IV, article 20 combined with items I and V, all of Law No. 8,884/94, to wit trust and *price squeeze*.

On March 25, 2010, SDE issued a technical note whereby: (i) dismissed the accusation of trust against all the defendants, recommending filing of such accusation; (ii) suggested excluding Oi from the group of defendants in the investigation of *price squeeze* for considering that its economic group would be responsible for paying VUM and for lack of evidence of recurrent practices of prices below VUM; (iii) recommended condemning Vivo, TIM and Claro, based on article 20, items I, III and IV, and article 21, item V, all of Law No. 8884/94, for the increase in costs of competitors (*price squeeze*). On November 7, 2012, the Federal Public Prosecutor's Office issued an opinion under the same terms of SDE Note and, on March 12, 2013, the Attorney General of the Brazilian Antitrust Enforcement Agency (CADE) decided to file all charges.

The proceeding is in the finding of facts process at CADE, for future decision.

The Company's legal advisers consider that Administrative Proceeding No. 08012.008501/2007-91 involves possible unfavorable outcome, therefore no related provision has been set up. If CADE hands down a sentence against defendants only for *price squeeze*, the fine estimated for this case may range from 0.1% to 0.5% of Vivo's gross income for 2006. However, in the remote case that CADE accepts the hypothesis of trust, initially dismissed by SDE and the Federal Public Prosecutor's Office, fines may range from 10% to 15% of Vivo's gross income for 2006.

It is worth highlighting that Law No. 12529/12 became effective on May 29, 2012 and there is not a significant number of former cases for which CADE has handed down a decision based on the new criteria. This estimate is based on a proportional calculation that took into consideration former court decisions and the criteria set forth by the new Law.

18.4 Guarantees

At March 31, 2013, the Company and its subsidiaries granted guarantees for tax, civil and labor claims, as follows:

According to its bylaws, the Company is authorized to increase its capital up to the limit of 1,350,000,000 (one billion three hundred and fifty million) shares, common or preferred. The capital increase and consequent issue of new shares are to be approved by the Board of Directors, subject to the authorized capital limit. However, the Brazilian Corporation Law – Law No. 6404/76, article 166, IV – establishes capital may be increased through a Special Shareholders' Meeting resolution held to decide about amendments to the Articles of Incorporation, if authorized capital increase limit has been reached.

Capital increases do not necessarily have to observe the proportion between the numbers of shares of each type. However, the number of preferred shares, nonvoting or with restricted voting, must not exceed 2/3 of the total shares issued.

Preferred shares are nonvoting, but have priority in the reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's bylaws and clause II, paragraph 1, article 17, of Law No. 6404/76.

b. Bonus paid on acquisition of interest from non-controlling shareholders

In accordance with the accounting practices adopted in Brazil previously to the adoption of the IFRS/CPC, goodwill was recorded when shares were acquired at a higher value than their book value, generated by the difference between the book value of shares acquired and the transaction's fair value. With the adoption of IAS 27R/CPC 35 and 36, the effects of all acquisition of shares from non-controlling shareholders are recorded under equity when there is no change in the shareholding. Consequently, these transactions no longer generate goodwill or income, and the goodwill previously generated from acquisition from non-controlling shareholders, including expenses inherent to these transactions, were adjusted based on the Company's equity. The acquisition of shares from non-controlling shareholders of Lemontree and GTR totaled R\$40,519. The balance of this account at March 31, 2013 was R\$70,448.

c. Capital reserves

Special goodwill reserve

This represents the tax benefit generated by the incorporation of Telefonica Data do Brasil Ltda. which will be capitalized annually in favor of the controlling shareholders to the extent tax credits are realized under the terms of CVM Ruling No. 319/99. The balance of this account at March 31, 2013 and December 31, 2012 was R\$63,074.

Other capital reserves

This reserve arises from merger of holdings TBS Celular Participações Ltda, Portelcom Participações S.A. and PTelecom Brasil S.A. into Vivo Part., which was therefore recorded in Company after merger of Vivo Part. This reserve, amounting to R\$47,723, may be used for future capital increase by the Company. The

balance of this account at March 31, 2013 and December 31, 2012 was R\$2,735,930.

Treasury shares

These represent the Company's treasury shares arising from: i) merger of TDBH (in 2006); ii) merger of Vivo Part. shares (in 2011), and iii) repurchase of common and preferred shares. At March 31, 2013 and December 31, 2012, balance in this account amounted to R\$ 112,107.

On November 5, 2012, the Company informed its shareholders and the market that the members of the Company's Board of Directors approved the acquisition of common and preferred shares issued by the Company, without capital reduction, for subsequent cancellation, disposal or maintenance in treasury for the purpose of increasing shareholder value. The repurchase will be made through the use of part of the existing capital reserve as of October 31, 2012, except for the reserves referred in Article 7 subsection (a) to (d) of CVM Ruling No. 10/80. This repurchase will begin from the deliberation date of the Board of Directors, remaining in force until November 3, 2013, the acquisitions being carried out in BM&FBOVESPA at market prices and is responsibility of Management to decide the moment and number of shares to be acquired, whether in a single operation, whether in a series of operations, as well as to define the parameters for carrying out the repurchase, within legal limits, until a maximum of 2,894,534 common shares and 24,257,777 preferred shares.

Telefônica Brasil S. A.**NOTES TO QUARTERLY INFORMATION****Quarter ended March 31, 2013****(In thousands of reais, unless otherwise indicated)**d. Income reserveLegal reserve

This reserve is mandatorily set up by the Company considering 5% of the net income for the year, up to the limit of 20% of the paid-up capital. Legal reserve may only be used to increase capital or to offset accumulated losses. Balance in this account at March 31, 2013 and December 31, 2012 amounted to R\$1,100,000.

e. Interim and proposed dividends

On January 10, 2013, the Company's Board of Directors approved the allocation of interim dividends amounting to R\$1,650,000, based on income existing on the quarterly balance as of September 30, 2012, to common and preferred shareholders enrolled with the Company through the end of January 21, 2013. Payment of these interim dividends started on February 18, 2013.

(a) In the 1Q2012, Vivo sold 800 non-strategic transmission towers for R\$277,180. After this transaction, Vivo leased back part of the towers disposed of to continue the data transmission required for its mobile telephone services.

This transaction was considered a sale and leaseback transaction, as under IAS 17. Leaseback of each asset sold was analyzed by management and classified as operating lease, considering the qualitative and quantitative requirements set forth in IAS 17.

The risks and benefits of such towers were transferred to buyers, except for towers whose transfer of risks and benefits rely on physical inspections and the corresponding technical acceptance of buyer. For such items, R\$27,924 (R\$23,825 net of residual values) was recognized as deferred income (Note 19). For other assets, R\$249,256 (R\$216,910 net of residual values) was recognized as operating income in virtue of disposal of the towers.

Breakdown of gains and losses of deferred income and social contribution taxes on temporary differences is shown in Note 6.2.

29. EARNINGS (LOSS) PER SHARE

Basic and diluted earnings per share were calculated by dividing income attributable to Company's shareholders by the weighted average of the number of outstanding common and preferred shares for the year. No transactions were carried out that could have potential shares issued through the date of issuance of the consolidated financial statements; therefore, there are no adjustments of diluting effects inherent in the potential issue of shares.

Calculation of earnings per share for the quarters ended March 31, 2013 and 2012 is as follows:

30.b) Key management personnel compensation

Consolidated key management personnel compensation paid by the Company to its Board of Directors and Executive Board for the quarters ended March 31, 2013 and 2012 amounted to approximately R\$16,525 and R\$6,016, respectively. Of this amount, R\$15,313 as of March 31, 2013 (R\$4,834 as of March 31, 2012) correspond to salaries, benefits and social charges and R\$1,212 (R\$1,182 as of March 31, 2012) to variable compensation.

These amounts were carried as personnel expenses, according to the function in the groups of Costs of Services Rendered, Selling Expenses and G&A Expenses (Notes 23, 24 and 25).

For the quarters ended March 31, 2013, our Directors and Officers did not receive any benefit related to pension, retirement pension or other similar benefits.

31. INSURANCE

The policy of the Company and its subsidiaries, as well as of Telefonica Group, includes maintenance of insurance coverage for all assets and liabilities involving significant and high-risk amounts, based on management's judgment and following Telefónica S.A.'s corporate program guidelines. Risk assumptions adopted, given their nature, are not included in the financial statements audit scope and, as a result, were not reviewed by our independent auditor.

Significant assets, liabilities or interests covered by insurance and their respective amounts are as follows:

32. SHARE-BASED COMPENSATION PLANS

The Company's controlling shareholder, Telefónica S.A., has different share-based payment plans, which were also offered to management and employees of its subsidiaries, among which, Telefônica Brasil and its subsidiaries.

Fair value of options is estimated on the grant date, based on the binomial model for pricing options which considers terms and conditions of instrument grant.

The Company refunds Telefónica S.A. for the fair value of the benefit granted to management and employees on grant date.

Significant plans effective as of March 31, 2012 and December 31, 2012 are detailed below:

a) Share incentive plan of Telefónica S.A.: "Performance Share Plan" or "PSP"

The General Shareholders' Meeting of Telefónica S.A., held on June 21, 2006, approved adoption of a long-term incentive plan to executives of Telefónica S.A. and its subsidiaries, which consists of granting them, after fulfillment of the requirements set forth in the plan, with a given number of shares of Telefónica S.A., as variable compensation.

Initially, the plan is expected to remain effective for seven years. The plan is divided into five cycles, of three years each, each starting on July 1 ("Start Date") and ending on June 30 of the third year following the Start Date ("End Date"). At the beginning of each cycle, the number of shares to be granted to plan beneficiaries will be determined based on fulfillment of objectives set. Shares will be granted, as the case may be, after the End Date of each cycle. Cycles are independent, with the first one starting on July 1, 2006 (with shares granted on July 1, 2009), and the fifth cycle, on July 1, 2010 (with shares granted, as the case may be, as from July 1, 2013).

Granting of shares is conditional upon:

- Beneficiaries staying with the company for the three years of each cycle, subject to certain special conditions in relation to terminations.
- The actual number of shares granted at the end of each cycle will depend on the level of success and maximum number of shares granted to each executive. The level of success is based on the comparison of the evolution of shareholder remuneration considering price and dividends (Total Shareholder Return - TSR) of Telefónica share, vis-à-vis the evolution of TSRs corresponding to a number of companies quoted in the telecommunications industry, which correspond to the Comparison Group. Each employee enrolled with the plan is granted, at the beginning of each cycle, a maximum number of shares, and the actual number of shares granted at the end of the cycle is calculated by multiplying this number by the maximum level of success on the date. This will be 100% if the evolution of Telefonica's TSR is equal to or greater than the third quartile of the Comparison Group, and 30% if this evolution is equal to the median. If the evolution is maintained between the two values, a linear interpolation will be made, and, if below the median, nothing will be granted.

Telefônica Brasil S. A.**NOTES TO QUARTERLY INFORMATION****Quarter ended March 31, 2013****(In thousands of reais, unless otherwise indicated)**

On June 30, 2011 and 2012, the third and fourth cycles of this incentive plan ended, and the following number of shares were distributed to executives of Telefonica Brasil and its subsidiaries:

3 rd cycle: July 1, 2008	186,186	8.39	June 30, 2011
4 th cycle: July 1, 2009	169,323	8.41	June 30, 2012

Following the end of the third and fourth cycles, in July 2011 and 2012, total 186,186 and zero shares were granted to all officers of Telefonica Brasil and its subsidiaries that were included in those cycles, respectively. In the fourth cycle, no shares were granted as the minimum level of success established in the program for the TSR was not achieved.

The maximum number of outstanding shares attributed to the cycle as of March 31, 2013 is as follows:

Cycles	Number of shares	Unit value in Euros	End date
5 th cycle: July 1, 2010	164,854	9.08	June 30, 2013

b) Performance & Investment Plan (PIP)

The General Shareholders' Meeting of Telefónica S.A., held on May 18, 2011, approved a long-term program to acknowledge the commitment, differentiated performance and high potential of its executives at global level, by granting them with Telefónica S.A. shares.

Participants of the plan need not pay for the shares initially granted to them and may increase the number of shares to be possible received by the end of the plan if they decide for a joint investment in their PIP. Co-investment requires that the participant buy and maintain, to the end of the cycle, a number equivalent to 25% of shares initially granted thereto by Telefónica S.A.. On participant's co-investment, Telefónica S.A. will increase initial shares by 25%.

Initially, the plan is expected to remain effective for three years. The cycle began on July 1, 2011 and will be effective to July 30, 2014. The number of shares is reported at the beginning of the cycle and, after three years of grant date, shares are transferred to the participant if goals are achieved.

Granting of shares is conditional upon:

- maintenance of active employment relationship within the Telefónica Group on the cycle consolidation date;
- achievement, by Telefónica, of results representing fulfillment of the objectives established for the plan: the level of success is based on the comparison of the evolution or shareholder compensation, obtained through (TSR) to the evolution of the TSRs of the previously defined Comparison Group companies.

Telefônica Brasil S. A.**NOTES TO QUARTERLY INFORMATION****Quarter ended March 31, 2013****(In thousands of reais, unless otherwise indicated)**

Ø 100% are granted if the TSR of Telefónica S.A. exceeds the TSR of companies representing 75% of capitalization on the Comparison Group stock exchange.

Ø 30% are granted if the TSR of Telefónica S.A. is equivalent to the TSR of companies representing 50% of capitalization on the Comparison Group stock exchange.

Ø determined by linear interpolation if the TSR of Telefónica S.A. ranges from 50% to 75% of the capitalization of the Comparison Group stock exchange.

Ø No shares are granted if the TSR of Telefónica S.A. is below the TSR of companies representing 50% of capitalization on the Comparison Group stock exchange.

The maximum number of outstanding shares attributed to cycles one and two as of March 31, 2013 is as follows:

Cycle	Number of shares	Unit value in Euros	End date
1 st cycle: July 1, 2011	416,384	8.28	June 30, 2014
2 nd cycle: July 1, 2012	520,325	8.28	June 30, 2015

c) Global share incentive plan of Telefónica S.A.: “Global Employee Share Plan” or “GESP”

The General Shareholders’ Meeting of Telefónica S.A. held on May 18, 2011, approved the second round of the share option incentive plan of Telefónica S.A. for Telefonica Group’s employees, on a global level, including employees of Telefonica Brasil and its subsidiaries. Through this plan, they are offered the possibility of acquiring shares of Telefónica S.A., which agrees to freely grant participants with a certain number of its shares, whenever certain requirements are fulfilled.

Initially, the plan is expected to remain effective for two years. Employees enrolled with the plan could acquire Telefónica S.A. shares through monthly contributions of up to 100 Euros (or equivalent in local currency), with maximum of 1,200 Euros over twelve months (vesting period). Shares will be granted, as the case may be, after the vesting period, beginning December 1, 2014, and is conditional upon:

- Beneficiaries staying with the company for the two years of the program (vesting period), subject to certain special conditions in relation to terminations.

- The exact number of shares to be granted at the end of the vesting period will rely upon the number of shares acquired and held by employees. Thus, employees enrolled with the plan, continuing with the Group, and who have held the shares acquired for additional twelve months after the vesting period, are entitled to receive one free share for each share they have acquired and held through the end of the vesting period.

The vesting period started in November 2012 and, as of March 31, 2013, employees of Telefônica Brasil and its subsidiaries enrolled with the plan totaled 1,885.

The Company and its subsidiaries recorded personnel expenses referring to share-based compensation plans for the quarters ended March 31, 2013 and 2012, as follows:

Hybrid = Plan that offers both BD and CD-type benefits.

⁽²⁾ Except for plan CELPREV, managed by Sistel.

The Company and its subsidiaries, together with other companies from former Telebrás System, sponsor private pension plans and post-employment medical benefits, as follows: i) PBS-A; ii) PAMA; iii) CTB ; iv) PBS-Telefonica, PBS-Telesp Celular, PBS-TCO, PBS Tele Sudeste Celular and PBS Tele Leste Celular; v) Plano TCP Prev, TCO Prev and CelPrev; and vi) Plano de Benefícios Visão Telefônica and Visão Celular – Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular.

The Company and its subsidiaries individually sponsor defined benefit retirement plans - Plano PBS, managed by Visão Prev. In addition, a multiemployer plan (PBS-A) and health care plan (PAMA) are provided by the Company and its subsidiaries to retired employees and their dependents (managed by Fundação Sistel, with constituted fund and participants contributions), at shared costs. Contributions to the PBS Plans are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The funding procedure is the capitalization method and the sponsor's contribution is a fixed percentage of payroll of employees covered by the plan, as described below:

<u>Plan</u>	<u>%</u>
PBS Telesp	11.47%
PBS Telesp Celular	10.68%
PBS Tele Sudeste Celular	11.73%

(In thousands of reais, unless otherwise indicated)

For other employees of the Company and its subsidiaries, there are individual defined contribution plans - Visão Benefit Plan, which is managed by Visão Previdência Complementar. The other Plans are funded by contributions made by members (employees) and by sponsors, which are credited to members' individual accounts. The Company and its subsidiaries are responsible for bearing all administrative and maintenance expenses of such plans, including members' death and disability risks. The contributions made by the Company and its subsidiaries to those plans are equal to those of the employees, varying from 2% to 9% of the contribution salary for members belonging to Telefonica Brasil, and from 0% to 8% of the contribution salary for those members belonging to Vivo, based on the percentage chosen by the member.

Additionally, the Company supplements the retirement benefits of certain employees of the former Companhia Telefônica Brasileira (CTB).

Vivo also sponsors the CelPrev. The participant may contribute to the plan in three ways, to wit: (a) normal basic contribution: percentage ranging from 0% to 2% of their participation salary; (b) normal additional contribution: percentage ranging from 0% to 6% of part of their participation salary exceeding 10 Standard Reference Units of the Plan, and (c) volunteer contribution: percentage freely chosen by the participant, and applied on their participation salary. The sponsor may contribute in four ways, to wit: (a) normal basic contribution: contribution equal to the normal basic contribution of the participant, less contribution to fund the health allowance benefit and administrative expenses; (b) normal additional contribution: equal to the normal additional contribution of the participant, less administrative expenses; (c) volunteer contribution: volunteer contribution and with frequency determined by the sponsor, and (d) special contribution: contribution solely to sponsor's employees not belonging to PBS and who enrolled with the plan 90 days from the day CelPrev became effective.

All revenues and expenses relating to defined benefit plans and benefit plans hybrids, such as employer contributions, the current service costs, interest costs and expected return on plan assets are recognized directly in the operating income of the Company and its subsidiaries.

Gains and losses relating to defined benefit plans and benefit plans hybrids, in addition to recoverability limitations of surpluses for refund or reduction in future contributions are immediately recognized in other comprehensive income, causing no impact on the operating income of the Company and its subsidiaries.

Actuarial liabilities recorded by the Company and its subsidiaries as of March 31, 2013 and December 31, 2012 are as follows:

	Company		Consolidated	
	3.31.13	12.31.12	3.31.13	12.31.12 - Restated

Fair value hierarchy

The Company and its subsidiaries use the following hierarchy to determine and disclose the fair value of financial instruments by the valuation technique:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: other techniques for which all data that have significant effect on the fair value recorded are directly or indirectly observable;

Level 3: techniques that use data that have significant effect on fair value recorded, not based on observable market data.

For the quarter ended March 31, 2013, no transfers of assessments of fair value between level 1 and level 2, nor level 3 and level 2 were made. The Company and its subsidiaries do not have financial instruments with fair value level 3 assessments.

Capital management

The purpose of the Company and its subsidiaries' Capital management is to ensure that a solid credit *rating* is sustained with the institutions, as well as an optimum capital ratio, in order to support the Company's businesses and maximize the value to its shareholders.

The Company and its subsidiaries manage their capital structure by making adjustments and adapting to the current economy conditions. For this purpose, the Company and its subsidiaries may pay dividends, raise new loans, issue promissory notes and contract derivative transactions. For the quarter ended March 31, 2013, there were no changes in the Company's objectives, policies or capital structure processes.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

Net debt structure of the Company and its subsidiaries includes: loans, financing, derivative operations, less cash and cash equivalents.

Risk management policy

The Company and its subsidiaries are exposed to various market risks as a result of its commercial operations, debts obtained to finance its activities and debt-related financial instruments.

The main market risk factors that affect the business of the Company and its subsidiaries are detailed below.

a. Currency risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the financial expenses stemming from loans denominated in foreign currency.

At March 31, 2013, 20.0% (19.9% at December 31, 2012) of the financial debt was denominated in foreign currency. The Company and its subsidiaries have entered into derivative transactions (exchange rate hedge) with financial institutions to protect itself against exchange rate variation on its gross debt in foreign currency (R\$1,541,556 at March 31, 2013 and R\$1,586,711 at December 31, 2012). In view of this, total debt was covered by asset positions on currency *hedge* transactions (*swap* for CDI) on those dates.

There is also the exchange rate risk related to non-financial assets and liabilities in foreign currency, which can lead to a lower amount receivable or higher amount payable, depending on exchange rate variation in the period.

As from May 2010, hedge transactions were contracted to minimize the exchange rate risk related to these non-financial assets and liabilities in foreign currency. This balance is subject to daily changes due to business dynamics, however, the Company aims to cover the net balance of these rights and obligations (US\$26,723 and €2,720 payable at March 31, 2013 and US\$ 16,130 and €4,140 payable at December 31, 2012) to minimize the related currency risk.

b. Interest rate and inflation risk

This risk arises from the possibility of the Company and its subsidiaries incurring losses due to an unfavorable change in domestic interest rates, which may negatively affect financial expenses connected with part of debentures pegged to CDI and liability positions in derivatives (exchange rate hedge and IPCA) contracted at floating interest rates (CDI).

The debt taken out from BNDES is indexed by the TJLP (Long Term Interest Rate) quarterly set by the National Monetary Council, which was kept at 6.0% p.a. from July 2009 to June 2012. From July to December 2012, the TJLP was 5.5% p.a., and reduced to 5.0% p.a. as from January 2013.

Telefônica Brasil S. A.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

The risk of inflation arises from the debentures of Telemig (merged into Vivo Part. on June 1, 2010), indexed by the IPCA, which may adversely affect our financial expenses in the event of an unfavorable change in this index.

To reduce exposure to local floating interest rates (CDI), the Company and its subsidiaries invest cash surplus of R\$6,589,068 (R\$7,039,181 at December 31, 2012), mainly in short-term financial investments (Bank Deposit Certificates) based on CDI variation. The book value of these instruments approximates market value, since they are redeemable within a short term.

c. Liquidity risk

Liquidity risk derives from the possibility that the Company and its subsidiaries do not have sufficient resources to meet their commitments according to the different currencies and terms of execution/settlement of their rights and obligations.

The Company and its subsidiary structure the maturity dates of the non-derivative financial agreements, as shown in note 16, and their respective derivatives as shown in the payments schedule disclosed in the referred note, in such manner as not to affect its liquidity.

The control of the Company's and its subsidiaries' liquidity and cash flow is monitored daily by Management, in such way as to ensure that the operating cash generation and the available lines of credit, as necessary, are sufficient to meet its schedule of commitments, not generating liquidity risks.

d. Credit risk

This risk arises from the possibility that the Company and its subsidiaries may incur losses due to the difficulty in receiving amounts billed to its customers and sales of handsets and pre-activated pre-paid cards to the distributor's network.

The credit risk on accounts receivable is dispersed and minimized by a strict control of the customer base. The Company and its subsidiaries constantly monitor the level of accounts receivable of post-paid plans and limit the risk of past-due accounts, interrupting access to telephone lines for past due bills. At Vivo, the customer base predominantly uses the prepaid system, which requires prior charging and consequently entails no credit risk. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

The credit risk in the sale of handsets and "pre-activated" prepaid cards is managed under a conservative credit policy, by means of modern management methods, including the application of "*credit scoring*" techniques, analysis of financial statements and information, and consultation to commercial data bases, in addition to request of guarantees.

At March 31, 2013 and December 31, 2012, the customer portfolio of the Company and its subsidiaries had no subscribers whose receivables were individually higher than 1% of total accounts receivable from services.

The Company and its subsidiaries are also subject to credit risk arising from short-term investments, letters of guarantee received as collateral in connection with certain transactions and receivables from derivative transactions. The Company and its subsidiaries control the credit limit granted to all counterparties and diversifies such exposure among top tier financial institutions, according to credit policy of financial counterparties in force.

NOTES TO QUARTERLY INFORMATION

Quarter ended March 31, 2013

(In thousands of reais, unless otherwise indicated)

Derivatives and risk management policy

All the Company's and its subsidiaries' derivative instruments have the objective of providing a hedge against the risk of variation in exchange rates arising from assets and liabilities in foreign currency and against inflation risk from its debenture indexed to IPCA (inflation rate) with shorter term. As such, any changes in risk factors generate an opposite effect on the hedged end. Therefore, there are no derivative instruments for speculative purposes and the Company is hedged against currency risk.

The Company and its subsidiaries have internal controls over their derivative instruments, which, according to management, are appropriate to control the risks associated with each market strategy. The Company's results derived from its derivative financial instruments indicate that the risks have been adequately managed.

The Company and its subsidiaries determine the effectiveness of the derivative instruments entered into to hedge its financial liabilities upon origination and on an ongoing basis (quarterly). At March 31, 2013 and December 1, 2012, derivative instruments taken out were effective for the hedged debts. Provided that these derivative contracts qualify as hedge accounting, the hedged risk may also be adjusted at fair value, according to hedge accounting rules.

The Company and its subsidiaries entered into *swap* contracts in foreign currency at different exchange rates hedging their assets and liabilities in foreign currency.

At March 31, 2013 and December 31, 2012, the Company and its subsidiaries had no embedded derivatives agreements.

Fair value of financial instruments

The discounted cash flow method was used to determine the fair value of financial liabilities (when applicable) and derivative instruments, considering expected settlement of liabilities or realization of assets and liabilities at the market rates prevailing at balance sheet date.

Fair values are calculated by projecting future operating flows, using BM&FBovespa curves, and discounting to present value through market DI rates for *swaps*, as informed by BM&FBovespa.

The market values of exchange rate derivatives were obtained through market currency rates in force at the balance sheet date and projected market rates were obtained from currency coupon curves. The coupon for positions indexed to foreign currencies was determined using the 360-calendar-day straight-line convention; the coupon for positions indexed by CDI was determined using the 252-workday exponential convention.

The consolidated derivative financial instruments shown below are registered with CETIP. All of them are classified as *swaps* and do not require margin deposits.

For the purpose of preparing the financial statements, the Company and its subsidiaries adopted *hedge* accounting for its foreign currency X CDI and IPCA x CDI swap transactions providing financial debt hedge. Under this methodology, both the derivative and the risk covered are stated at fair value.

At March 31, 2013 and December 31, 2012, ineffectiveness amounted to R\$1,271 and R\$2,188, respectively.

For the quarters ended March 31, 2013 and 2012, derivative transactions generated a consolidated losses of R\$49,502 and R\$31,600, respectively, according to Note 27.

At March 31, 2013, the Company and its subsidiaries recorded R\$292,369 as assets and R\$62,342 as liabilities in order to recognize the derivatives position as of that date.

Sensitivity analysis of the Company's risk variables

CVM Rule No. 604/09 requires listed companies to disclose, in addition to the provisions of Technical Pronouncement CPC No. 40 - Financial Instruments: Disclosure (equivalent to IFRS 7), a table showing the sensitivity analysis of each type of market risk inherent in financial instruments considered significant by management and to which the Company is exposed at the closing date of each reporting period, including all transactions involving derivative financial instruments.

Telefônica Brasil S. A.
NOTES TO QUARTERLY INFORMATION
Quarter ended March 31, 2013
(In thousands of reais, unless otherwise indicated)

In compliance with the foregoing, all the transactions involving derivative financial instruments were evaluated considering a probable scenario and two scenarios that may adversely impact the Company.

The assumption taken into consideration under the probable scenario was to keep, the maturity date of each transaction, what has been signaled by the market through BM&FBovespa market curves (currencies and interest rates). Accordingly, the probable scenario does not provide for any impact on the fair value of the derivative financial instruments mentioned above. For scenarios II and III, risk variables contemplated 25% and 50% deterioration, respectively, pursuant to the applicable CVM ruling.

Considering that the Company and Vivo has derivative instruments only to cover its assets and liabilities in foreign currency, the changes in scenarios are offset by changes in the related hedged items, thus indicating that the effects are practically null. For these transactions, the Company reported the value of the hedged item and of the derivative financial instrument on separate rows in the sensitivity analysis table in order to provide information on the Company's and Consolidated net exposure for each of the three mentioned scenarios, as shown below:

Sensitivity analysis – Net exposure

To determine the net exposure of the sensitivity analysis, all derivatives were considered at market value and only hedged elements classified under the hedge accounting method were also considered at fair value.

The fair values shown in the table above are based on the status of the portfolio as of March 31, 2013, not reflecting an estimated realization in view of the market dynamics, always monitored by the Company. The use of different assumptions may significantly impact estimates.

37. SUBSEQUENT EVENTSIssue of debentures

On April 11, 2013, the Company's Board of Directors approved the proposal for fund raising in the local financial market through issue of simple non-convertible debentures, amounting to R\$1.3 billion, so as to guarantee Company's liquidity for future commitments.

These funds will be used by the Company to amortize future debt, investments in Capex of projects developed and in reinforcement of liquidity.

Total 130,000 (one hundred thirty thousand) debentures will be issued, at par value of R\$10,000.00 (ten thousand reais) each. Debentures have a maturity of five years from the issue date (April 25, 2013), i.e., April 25, 2018. Par value of each debenture will not be monetarily restated. The outstanding balance of the face value of each debenture bears interest corresponding to 100% (one hundred percent) of accumulated daily rates for interbank deposits (DI) per day, "extra-group", expressed in the form percentage per year of 252 working days, calculated and published daily by the OTC Clearing House (CETIP SA) in the daily report available on its website, plus a spread equal to 0.68% (zero point sixty-eight percent) for a year of 252 working days (remuneration). Remuneration will be calculated exponentially and cumulatively *pro rata temporis* per day elapsed since the issue date or the payment date immediately before, as the case may be, until the date of actual payment. Leading coordinator will be Banco Itaú BBA S.A.

Approval of additional dividends proposed as of December 31, 2012
