Performance Report

GOL recorded its first positive second-quarter operating income since 2010, reaching R\$38 million, accompanied by a positive operating margin (EBIT) of 1.6%, R\$73 million or 3.4 percentage points higher than in 2Q13, resulting on the sixth consecutive quarterly improvement in the operating result.

Net revenue reached a highest ever level of R\$2.4 billion on 2Q14, R\$466 million more than in 2Q13. Over the last twelve months, net revenue reached R\$9.8 billion, which also came to a new record. Domestic load factor reached 76.0% in the quarter and 76.4% year to date, also the highest ever figures for the periods. The new load factor level, together with the increase in yield by 17% in 2Q14, pushed up PRASK and RASK by 30% over 2Q13.

These results reflect the Company's efforts to ensure service excellence for all its clients, based on security, simplicity and sympathy.

In line with its strategy of increasing dollar revenue, GOL announced a codeshare agreement with Etihad Airways and Aeromexico, and new routes between Campinas (São Paulo) and Miami (USA), and Guarulhos (São Paulo) and Santiago (Chile), ensuring new destinations and improved connectivity. As a result, GOL recorded a 19% year over year increase in the number of passengers carried in the international market, the highest in the industry, raising its share of this segment by 4.2 percentage points to 30%. As a result, international passenger revenue has been increasing constantly, having passed the R\$1.0 billion level in the last 12 months.

Given the 8% devaluation of the Real against the average Dollar in 2Q13, the 13% increase in the per-liter jet fuel price, and higher inflationary pressure, the Company's costs reached R\$2.3 billion, 20% higher than in 2Q13, which represents an increase of 4 percentage points lower than the revenue growth.

GOL ended 2Q14 with a cash position of R\$2.8 billion, or 29% of net revenue in the last 12 months. Financial leverage (adjusted net debt over LTM revenue) totaled at 4.6x, versus 11.3x at the end of 2Q13. This improvement was chiefly due to higher LTM EBITDAR, which reached R\$1.8 billion, R\$1.1 billion up over 2Q13 LTM EBITDAR.

In order to strengthen its balance sheet, the Company renegotiated its 4th debenture issuance and held a tender offer of US\$187.1 million for the acquisition of its senior notes, maintaining a constant focus on reducing the cost and amortization of debt.

The efforts of the Team of Eagles were further underlined by the results during the 2014 World Cup. It represented months of preparation and planning to provide more than 28 thousand commercial flights, an average of 908 per day, with 486 extra flights. In order to serve passengers with different nationalities, we identified crew members fluent in several languages and allocated them in accordance with the needs of each flight. Of the total 4,500 airport employees, were temporarily relocated 3,000 to provide the best possible support for the operation. GOL was leader in passengers carried in the domestic market – 3.4 million – reaching a period load factor of 81.2% and leading the punctuality rankings, with 96% of flights on time.

The operational success during the World Cup was also recognized by the clients, through the SMS customer satisfaction survey, we received a rating of 8.16 on a scale of 0 to 10, reinforcing the commitment to overcome this rating by the end of the year.

GOL would like to thank its customers for their loyalty, our Team of Eagles for their commitment and investors for their confidence, all of which increasingly reinforces GOL's vision of being the best company to fly with, work for and invest in.

CEO of GOL Linhas Aéreas Inteligentes S.A.

Highlights of the Subsidiary Smiles' Results in 2Q14

25.2% upturn in the **number of accumulated miles**, excluding GOL, over 2Q13;

Increased redemptions with international partner airlines, totaling **1.2 billion miles, 16.7% of total redemptions**;

Gross margin of 46.9%, in line with 1Q14;

Net income of R\$64.1 million in 2Q14, with a **net margin of 42.1%**;

Issue of **R\$600.0 million in debentures** at 115% of the CDI rate;

Conclusion of the **capital reduction (R\$8.17 per share)**.

The second quarter of 2014 was marked by the increased accumulation of ex-GOL miles, which reached **8.1 billion, 25.2% more** than in 2Q13. Redemptions with international partner airlines and products also moved up, considering the implementation of a redemption partnership with Aerolíneas Argentinas and the new e-commerce miles redemption platform.

Aviation Market – Industry

In 2Q14, domestic aviation industry demand increased by 7% year to date and 4% in a quarter comparison over last year, fueled by the respective 4.8 and 4.4 percentage point increases to 79.2% and 78.8%. Supply remained flat in 6M14 and fell by 1.6% in the quarter.

The number of paying passengers transported in the domestic market increased by 7.8% in 6M14 to 46.2 million, a new period record. The total of paying passengers

transported in the international market stood at 3 million, 2% up over 6M13 and also a record over the period.

Domestic Market - GOL

Domestic supply declined by 2.2% year to date and 6.0% in the quarter, in line with the Company's projections for 2014 of a reduction between -3% and -1%.

Domestic demand increased by 9.0% in 6M14, representing around 50% of the industry growth in the same period. In 2Q14, domestic demand grew by 3.5%.

Domestic load factor reached 76.4% and 76.0% in 6M14 and 2Q14, respectively, the highest level in GOL's history.

GOL carried more paid passengers than any other airline in the domestic market, totaling a record of 19 million in the first half, 10% up on 6M13 and corresponding to 37% of the total industry.

International Market - GOL

International supply increased by 4.3% in the first half and 7.4% in the second quarter, in line with the annual growth guidance of up to 8%. The Company maintains its focus on increasing its international market presence by launching new routes in 2Q14 between São Paulo (Brazil) and Santiago (Chile), and Campinas (Brazil) and Miami (USA).

International demand grew by 24% in 6M14 and 30% in 2Q14, generating respective increases of 11.1 and 12.1 percentage points in the international load factor.

The number of paid passengers transported came to 908,000 year-to-date, 146,000, or 19%, more than in 6M13, outpacing the industry as a whole, which recorded growth of 64,000 paid passengers in the same period. GOL's market share grew by 4.2 percentage points to 30% in the first half.

PRASK and Yield

Thanks to the Company's strategy of maximizing profitability by raising its load factor to new levels, increasing the attractiveness of its services and having the flexibility to adapt its route network in a dynamic manner, PRASK grew by 30% in 2Q14 over 2Q13, and yield expanded by 17%.

Debt Amortization Schedule

GOL's loans and financing amortization profile, excluding interest and financial leasing, underlines the Company's continuing commitment to reducing its short-term financial obligations.

The Company ended the quarter with **an operational fleet of 133 B737-700 NG and B737-800 NG aircraft**, due to the sub-leasing of 8 aircraft to European airlines. The other **5 aircraft** were in the process of being returned to their lessors, giving a total fleet of **146**, as shown in the above table. The average age of the fleet is 7.1 years.

Of the 46 aircraft under finance leases, 40 have a purchase option when their leasing contracts expire. In 2Q14, the Company **took delivery of 3 aircraft** under operating lease contracts, and **returned another 4 under operating lease**, as well as **4 aircraft from Webjet's fleet**. On June 30, 2014, the Company had **130 firm aircraft acquisition orders** with Boeing.

The portion financed through long-term loans with the U.S. Ex-Im Bank corresponds to 85% of the total aircraft cost. Other agents finance acquisitions with similar or higher rates, sometimes reaching 100%. The Company pays for its aircraft acquisitions with its own resources, loans, cash flow from operations, short and long-term credit lines and financing by the supplier.

Report on the review of interim financial information

To

The Shareholders, Board of Directors and Officers

Gol Linhas Aéreas Inteligentes S.A.

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Gol Linhas Aéreas Inteligentes S.A. (“Company”), identified as Company and Consolidated, respectively, contained in the Quarterly Information (ITR) for the quarter ended June 30, 2014, which comprises the balance sheet as at June 30, 2014 and the related statement of operations and statement of comprehensive income (loss) for the quarter and six-month period then ended, and the statement of changes in equity and statement of cash flows for the quarter and six-month period then ended, and a summary of significant accounting practices and other explanatory notes.

Company management is responsible for the preparation of interim individual financial information in accordance with the Technical Pronouncement of the Accounting

Pronouncements Committee (CPC) 21 (R1) – Interim Financial Reporting and the consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of these information in compliance with the rules issued by the Brazilian Securities Commission (“CVM”), applicable to the preparation of Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review according to the Brazilian and international review standards

of interim financial information (NBC TR 2410 – Review of Interim Financial

Information Performed by the Independent Auditor of the Entity, and ISRE 2410 -

Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of inquiries, mainly of the people responsible for the financial and accounting matters, and the application of analytical and other review procedures. The scope of a review is significantly narrower than that of an audit conducted in accordance with audit standards and, accordingly, it did not permit us to obtain assurance that we took notice of all significant matters that could have been raised in an audit. Therefore, we did not

express an audit opinion.

Conclusion on the interim financial information

Based on our review, we are not aware of any fact that makes us believe that the individual and consolidated interim financial information included in the Quarterly Information referred above was not

prepared, in all material respects, in accordance with CPC 21 (R1) applicable to the preparation of Quarterly Information (ITR), and presented in compliance with the rules issued by the CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statement of value added (SVA) for the six-month period ended June 30, 2014, prepared under the responsibility of the Company's management, the presentation of which in the interim financial information is required by the rules of the CVM applicable to Quarterly Information (ITR), and as supplementary information under IFRS, whereby no statement of value added presentation is required. These statements have been subject to the same review procedures previously described and, based on our review, we are not aware of any fact that makes us believe that they were not prepared, in all material respects, according to the individual and consolidated interim financial information taken as a whole.

Audit and review of the amounts corresponding to prior year and period

The amounts correspondent to balance sheets for the year ended December 31, 2013 and the statements of operations, of comprehensive income, of changes in shareholders' equity, of cash flows and of value added for the three and six-months period ended June 30, 2013 presented for comparison purposes, were previously audited and reviewed, respectively, by other independent accountants, who issued an unmodified opinion dated March 25, 2014 and review report of quarterly information dated August 12, 2013.

1. General information

Gol Linhas Aéreas Inteligentes S.A. (“Company” or “GLAI”) is a publicly-listed company incorporated in accordance with the Brazilian Corporate Laws, organized on March 12, 2004. The Company is engaged in controlling its wholly-owned subsidiary (i) VRG Linhas Aéreas S.A. (“VRG”), and through its subsidiaries or affiliates, essentially exploring: (a) regular and non-regular air transportation services of passengers, cargo and mailbags, domestically or internationally, according to the concessions granted by the competent authorities; (b) complementary activities of air transport service provided in its bylaws; and (ii) Smiles S.A., which mainly operates: (a) the development and management of its own or third party’s customer loyalty program, and (b) sale of redemption rights of awards related to the loyalty program.

Additionally, GLAI is the direct parent Company of the subsidiaries GAC Inc. (“GAC”), Gol Finance (“Finance”), Gol LuxCo S.A. (“Gol LuxCo”), Gol Dominicana Lineas Aereas SAS (“Gol Dominicana”) and indirect parent Company of the subsidiary Webjet Linhas Aéreas S.A. (“Webjet”).

On February 27, 2014, the Company sold to General Atlantic S.A. (G.A.) the total of 3,433,476 shares of Smiles S.A. through the exercise of stock options in accordance with the investment agreement between the companies dated April 5, 2013 in the amount of R\$80,000. As a result of the exercise of the options, the Company decreased its participation in Smiles’ capital, being from 57.3% to 54.5% and remaining as the controlling shareholder. The gain generated by this partial decrease in the investment was recorded in “Gains on change on investment” in equity. This gain is also consists of the reversal of R\$46,216 previously classified in equity as derivatives of equity instruments.

The Company’s shares are traded on the New York Stock Exchange (“NYSE”) and on the São Paulo Stock Exchange (“BOVESPA”). The Company entered into an agreement for adoption of Level 2 Differentiated Corporate Governance Practices with the São Paulo Stock Exchange (“BOVESPA”), and is included in the Special Corporate Governance Stock Index (“IGC”) and the Special Tag Along Stock Index (“ITAG”), which were created to identify companies committed to adopt differentiated corporate governance practices.

2. Approval and summary of significant accounting policies applied in preparing the interim financial information (Continued)

2.1. Basis of preparation

The Consolidated Interim Financial Information was prepared for the six-month period ended on June 30, 2014 in accordance with International Accounting Standards (IAS) n.34 and technical pronouncement CPC 21 (R1) which comprises the interim financial reporting.

IAS 34 requires the use of certain accounting estimates by Company's Management. The consolidated interim financial information was prepared based on historical cost, except for certain financial assets and liabilities, which are measured at fair value.

The Individual Interim Financial Information was prepared in accordance with the technical pronouncement CPC 21 (R1) which comprises the interim financial reporting.

The Individual Interim Financial information measures investments in subsidiaries by the equity method, according to Brazilian legislation. Thus, the individual interim financial information is not in accordance with IFRS, which requires the valuation of these investments on the individual financial statements of the Parent Company at fair value or cost.

This Individual and Consolidated Interim Financial Information do not include all the information and disclosure items required in the consolidated annual financial statements and, therefore, it must be read along with the consolidated financial statements referring to the year ended December 31, 2013 filed on March 25, 2014, which were prepared in accordance with Brazilian accounting practices and IFRS. There were no changes in accounting policies adopted during the period from December 31, 2013 to June 30, 2014.

The shareholder's equity individual and consolidated quarterly financial information do not present differences on its composition, except in respect of the non-controlling interest in Smiles S.A., highlighted in the consolidated equity.

The non-financial information included on this Individual and Consolidated Interim Financial Information, such as sales volume, agreement information, forecasts, insurance, among others, have not been audited.

3. Seasonality

The Company expects that revenues and profits from its flights reach the highest levels during the summer and winter vacation periods, in January and July, respectively, and during the last two weeks of December, during the season holidays. Given the high portion of fixed costs, this seasonality tends to result in fluctuations in our operational quarter-on-quarter income.

4. Cash and cash equivalents

	Individual		Consolidated	
	06/30/2014	12/31/2013	06/30/2014	12/31/2013
Cash and bank deposits (a)	348,521	320,276	1,055,348	667,985
Cash equivalents	556,526	23,517	1,395,045	967,662
	905,047	343,793	2,450,393	1,635,647

(a) On January 23, 2014, the Venezuela government announced that the airline companies could request the repatriation of their resources generated by sales in Venezuela through CADIVI ("Comisión de Administración de Divisas") by the official rate of BS 6.30/US\$1.00. This rate experienced a level increase and the rate as of June 30, 2014 was BS 10.60/US\$1.00. The exchange variation control in Venezuela is

determined on a weekly basis by its Federal Reserve (SICAD). Given this increase, the Company recorded a currency depreciation justified by the intention to repatriate its values related to the operations performed in the country from January 2014. The total amount of the cash in Venezuela as of June 30, 2014 is R\$464,043, which the portion accrued as an impairment from the Venezuelan Bolívar related to U.S. Dollar was R\$134,333 with counterpart on "Foreign exchange variation, net" (see Note 28).

The register is subject to future changes due to the doubtful economic scenario on Venezuela, with the possibility of new limitations in the cash flows by CADIVI or sanctions by the government that may difficult the cash repatriation. Accordingly, considering the intention of the Company to perform the repatriation of the amount involved, the recoverable balance of Venezuela's cash as of June 30, 2014 is R\$329,710 recorded as "Cash and bank deposits", which R\$160,189 is related to the operations performed in 2014 and R\$169,521 is related to the operation performed in 2013.

The cash equivalents breakdown was as follows:

	Individual		Consolidated	
	06/30/2014	12/31/2013	06/30/2014	12/31/2013
Private bonds	556,093	19,471	1,152,092	537,196
Government bonds	-	271	6,195	65,673

	556,526	23,517	1,395,045	967,662

As of June 30, 2014, the cash equivalents were represented by private bonds (Bank Deposit Certificates - "CDBs"), and buy-back transactions. The government bonds were represented by LFT and LTN paid at post fixed rates ranging between 95.0% and 102.0% of the Interbank Deposit Certificate Rate ("CDI").

The investment funds classified as cash equivalentes have immediate liquidity and, according to the Company analysis, can be converted to a known amount of cash with insignificant risk of change in its value.

The Company and its direct subsidiary VRG and indirect subsidiary Webjet have tax losses and negative basis of social contribution in the calculation of taxable income, to compensate with 30% of annual taxable profits, without time limit for expiration, in the following amounts:

	Individual (GLAI)		Direct subsidiary (VRG)		Indirect subsidiary (Webjet)	
	06/30/2014	12/31/2013	06/30/2014	12/31/2013	06/30/2014	12/31/2013

Negative basis of social contribution	235,907	235,907	3,097,480	2,602,369	735,558	712,849

As of June 30, 2014, the tax credits arising from tax loss carryforwards and negative social contribution basis were valued based on the reasonably expected generation of future taxable income of the parent Company and its subsidiaries, subject to legal limitations.

Estimated recovery of deferred tax assets was based on taxable income projections, considering the assumptions above and several financial assumptions, business and internal and external factors considered at the end of the period. Consequently, the estimates may be subject to not materialize in the future, due to the uncertainties inherent in these estimates.

The Company and its subsidiaries hold the total amount of R\$1,383,441, of which R\$80,208 is related to its parent Company GLAI and R\$1,303,233 is related to its subsidiaries VRG and Webjet.

The forecasts of the parent Company GLAI and the indirect subsidiary Webjet did not present sufficient taxable profits to be realized over the next 10 years and, as a result, a provision was recorded for unrealizable loss tax credits of R\$26,522 for GLAI and R\$250,090 for Webjet. For the subsidiary VRG such forecasts indicate sufficient taxable profits for such to be realized in the next 10 years. However, due to tax losses presented during the recent years, the Administration conducted a sensitivity analysis on the forecast results, and considering significant changes in the macroeconomic scenario, registered the deferred tax assets on tax losses based on the lowest value obtained in this analysis. As a result, the Company and its subsidiaries did not recognize of R\$517,241 in its subsidiary VRG.

The Company's management considers that the deferred assets recognized as of June 30, 2014 arising from temporary differences will be realized when the provisions are settled and the related future events are resolved.

a) *Escrow deposits* (Continued)

Consolidated

Deposits and blocked escrows represent guarantees of lawsuits related to tax, civil and labor claims deposited in escrow until the resolution of the related claims. Part of the blocked amount in escrow is related to civil and labor claims arising on the succession orders on claims against Varig S.A. and proceedings filed by employees that are not related to the Company or any related party (third-party claims). As the Company is not correctly classified as the defendant of these lawsuits, whenever such blockages occur, the exclusion of such is requested in order to release the resources. As of June 30, 2014 the blocked amounts regarding the Varig' succession and the third-party lawsuits are R\$82,520 and R\$62,792 respectively (R\$75,498 and R\$65,450 as of December 31, 2013, respectively).

b) *Maintenance deposits*

The Company and its subsidiaries VRG and Webjet made deposits in U.S. Dollars for maintenance of aircraft and engines that will be used in future events as set forth in some leasing contracts.

The maintenance deposits do not exempt the Company and its subsidiaries, as lessee, neither from the contractual obligations relating to the maintenance of the aircraft nor from the risk associated with maintenance activities. The Company and its subsidiaries hold the right to select any of the maintenance service providers or to perform such services internally.

c) *Deposits in guarantee for lease agreements*

As required by the lease agreements, the Company and its subsidiaries hold guarantee deposits in U.S. Dollars on behalf of the leasing companies, whose full refund occurs upon the contract expiration date.

(a) The values that the Company maintains with GAC and Finance, subsidiaries abroad, are subject to exchange rate variations on U.S. Dollars.

Additionally, the Parent Company holds loans between: Finance (asset) with Gol LuxCo (liability) and Gol LuxCo (asset) with GAC (liability) in the amount of R\$496,610. These transactions are eliminated by the Company, since the entities are offshore and are considered an extension of the Company's operations.

During the six-month period ended June 30, 2014, VRG transferred to LuxCo assumed the debt of the Senior Bond maturing in 2023, previously owned by VRG, as described in Note 18. As counterpart, besides the receiving of the financial resources in the amount of R\$379,381, LuxCo signed with VRG a liability agreement in the amount of R\$14,612, which corresponds to the remaining amount of the obligation.

b) Transportation services and consulting

All the agreements related to transportation and consulting services are held by the Company' subsidiary VRG. The related parties for these services are:

i. Breda Transportes e Serviços S.A. for passenger and luggage transportation services between airports, and transportation of employees, expiring on May 31, 2015, renewable every 12 months for additional equal terms through an amendment instrument signed by the parties, annually adjusted based on the IGP-M fluctuation (General Market Price Index from Getulio Vargas Foundation).

ii. União Transporte de Encomendas e Comércio de Veículos Ltda., expiring on December 29, 2015 for the operation of the Gollog franchise in Passos/MG.

iii. Vaud Participações S.A. to provide executive administration and management services, expiring on October 01, 2014.

b) *Restricted shares*

The Restricted Shares Plan was approved on the Extraordinary General Meeting held on October 19, 2012, and the first grants were approved at the Board of Directors' meeting on November 13, 2012. The transfer of the restricted shares will occur after 3 years from the grant date, with an acquisition condition that the beneficiary maintains its employment relationship up to the end of this period.

The fair value of the restricted shares granted was estimated on the grant date using the Black-Scholes pricing model, and the assumptions are listed below:

Restricted shares					
Year of the share	Date of the Board Meeting	Total shares granted	Fair value of the share at grant date (in Reais)	Estimate volatility of share price	Risk-free rate of return
2012	11/13/2012	589,304	9.70	52.25%	9.0%
2013	05/13/2013	712,632	12.76	46.91%	7.5%

Until June 30, 2014 there were no restricted shares transferred to the plan's participants.

Smiles

On February 22, 2013, the Smiles' Board of Directors, during the Extraordinary General Meeting, approved the grant of a stock options plan, which consists of an additional payment to the Company's management and executives. On August 08, 2013, the Company's Board of Directors approved the grant of 1,058,043 shares related to the stock option plan, of which 260,020 shares were granted to employees of its affiliate VRG.

On February 4, 2014, the Smiles S.A.' Board of Directors approved the issue of 1,150,000 (one million, one hundred and fifty thousand) new stock options at a price of R\$31.28 per share, under the terms of the Stock Options Plan previously established for its management and participants which feature under the terms of the plan. Until June 30, 2014, there was no grant approval of these shares to its beneficiaries.

The fair value of stock options was estimated on the grant date using the Black-Scholes option pricing model. The expected volatility of Smiles shares is based on the historical volatility of 252 working days of the Bovespa index. The other assumptions utilized in the Black-Scholes option pricing model are as follows:

Year of the share	Date of the Board Meeting	Total shares granted	Stock Options Plan		Estimate volatility of share price	Expected dividend	Risk-free rate of return	Length of the option (in years)
			Exercise price of the option (In Reais)	The fair value of the option at grant date (In Reais)				
2013	08/08/2013	1,058,043	21.70	4.13 (a)	36.35%	6.96%	7.40%	10
2014	02/04/2014	1,150,000	31.28	4.90 (b)	33.25%	10.67%	9.90%	10

(a) The fair value calculated for the 2013 plan was R\$4.84, R\$4.20, R\$3.73 and R\$3.73 for the respective periods of vesting of 2013, 2014, 2015 and 2016.

(b) The fair value calculated for the 2013 plan was R\$4.35, R\$4.63, R\$4.90, R\$5.15 and R\$5.17 for the respective periods of vesting from 2014 to 2018.

For the six-month period ended June 30, 2014, the Company recorded in shareholders' equity a result from share-based payments in the amount of R\$3,026 related to Company's shareholders and R\$1,087 related to its non-controlling shareholders (R\$3,351 related to Company's shareholders and R\$341 related to its non-controlling shareholders for the six-month period ended June 30, 2013) for the plans presented above, being the corresponding entry in the income statement result classified as personnel costs.

14. Investments

Due to the changes in Law 6,404/76 introduced by Law 11,638/07, investments in foreign subsidiaries, GAC, Finance and Gol LuxCo were considered as an extension of the controller GLAI and consolidated on a line by line basis, only the subsidiaries Smiles, VRG and Gol Dominicana were considered as an investment.

On February 21, 2014, the subsidiary Smiles S.A., after the CADE's approval, closure the acquisition process of 25% of its affiliate Netpoint Fidelidade S.A. (for further information, see Note 1). Therefore, a consolidated investment balance was generated by this transaction. The change in investments during the six-month period ended June 30, 2014 is as follows:

(a) Refers to transactions related to revenue for redeeming miles for flight tickets for Smiles Program participants that, for consolidated financial statements purposes, only take place when the participants of the program are effectively transported by VRG.

(b) The adjusted equity corresponds to the percentage of the equity less unrealized gains.

(c) Is related to the investment cost due to G.A., as described in Note 1.

(d) The subsidiary GAC has a net balance of deferred losses and gains on sale leaseback, whose deferral is subject to the payment of contractual installments made by its subsidiary VRG. Accordingly, as of June 30, 2014, the net balance to be deferred is essentially part of the net investment of the Parent Company in VRG. The net balance to be deferred as of June 30, 2014 was R\$26,184 (R\$27,088 as of December 31, 2013). For further details, see Note 30b.

Impacts on participation change on capital - Smiles S.A.

On February 27, 2014, General Atlantic exercised the total stock options in respect of Smiles S.A. previously issued for G.A.'s benefit. As a result of the exercise of the stock options, the Company decreased its participation on Smiles' capital, being from 57.3% to 54.5%, as described in Note 1. The amounts related to this transaction are presented below:

Shares sold	3,433,476
Investment per share	11.052
Sell price	80,000
Investment costs offset	(37,949)
Exercise of stock options - G.A.	46,216
Income tax on capital gains (*)	(14,297)
Total gains from the change on investment	73,970

(*) Related to 25% of withholding taxes and 9% of social contribution.

15. Losses per share

Although there are differences between common and preferred shares in terms of voting rights and priority in case of liquidation, the Company's preferred shares are not entitled to receive any fixed dividends. Rather, preferred shareholders are entitled to receive dividends per share in the same amount of the dividends per share paid to common shareholders. Therefore, the Company understands that, substantially, there is no difference between preferred shares and common shares, and, accordingly, basic and diluted earnings or losses per share are calculated equally for both shares.

Consequently, basic earnings or loss per share are computed by dividing income or losses by the weighted average number of all classes of shares outstanding during the period. Diluted earnings or loss per share are computed including stock options granted to key management and employees using the treasury stock method when the effect is dilutive. The antidilutive effect of all potential shares is disregarded in calculating diluted earnings or loss per share.

(a) Smiles holds a Stock Options Plan for its employees. These equity instruments have a dilutive effect on earnings per share of this subsidiary, impacting, therefore, the loss considered on the basis calculation of Company's diluted result per share, in accordance with CPC 41.

Diluted earnings (losses) per share are calculated by the weighted average number of outstanding shares, in order to assume the conversion of all potential dilutive shares.

Diluted earnings or loss per share are calculated based on considering the instruments that may have a potential dilutive effect in the future, such as share-based payment transactions, described in Note 13. However, due to the losses reported for the period ended on June 30, 2014, these instruments issued have anti-dilutive effect and, therefore, are not considered in the total number of outstanding shares.

Adoption of the Law nº 12.973/2014 (Provisional Measure 627/2013)

On November, 2013 the provisional measure n. 627 was issued establishing that non-taxation over the profit and dividends calculated based on results from January 01, 2008 to December 31, 2013 by the Companies taxable based on actual profits, presumed or arbitrate, paid until the date of the provisional measure publication, in higher values that the ones calculated by the current accounting policies on December 31, 2007 since the Company has already paid the profit or dividends the anticipated adoption by 2014.

On May, 2014, the provisional measure was converted to Law n. 12,973, resulting in significant changes to the previously established, along with dividends, return on own capital and investments measurement through equity. A change from provisional measure n. 627 to Law n. 12,973, was the unconditional non-taxation for the profits and dividends calculated based on the results from January 01, 2008 to December 31, 2013.

In order to ensure tax neutrality established in Law n. 11,941, from 2009, since dividend payments occurred until the date of the law's publication, the Company and its subsidiary Smiles S.A.'s managements chose the early adoption of the Law through DCTF related to May, 2014. Thus, it will be guaranteed the usage of the equity measured in accordance with the Law no. 6404 from 1976, for purposes of calculating the limits as per laws related to the tax effects of interest on capital.

The Company analyzed the potential effects on the Law n. 12,973 adoption and concluded that there are no significant effects on its interim financial information as of June 30, 2014 and December 31, 2013 on GLAI and Smiles. On VRG and Webjet, the Company will analyse the impacts of the adoption of the Law and the related effects will be registered starting as from January 01, 2015.

a) Provision for anticipated return of aircraft

In 2011, according to the strategic planning of Webjet, a provision for the anticipated return of aircraft was recorded. This provision was calculated based on the expected return of 18 aircraft Boeing 737-300 with operating leases contracts, as part of the Company's fleet renewal. During the six-month period ended June 30, 2014 the Company completed 5 aircraft return with the following prefixes: PR-WJV, PR-WJB, PR-WJD, PR-WJF e PR-WJH.

b) Return of aircraft and engines

The returns provisions consider the costs that meet the contractual conditions for the return of engines maintained under operating leases, as well as the costs to reconfigure the aircraft without purchase option, as prescribed in the returns conditions of the lease contracts, and which is capitalized in fixed assets (aircraft reconfigurations/overhauling), as described in Note 16.

c) Lawsuits

As of June 30, 2014 the Company and its subsidiaries are parties to 27,057 (7,429 labor and 19,628 civil) lawsuits and administrative proceedings. The lawsuits and administrative proceedings are classified into Operation (those arising from the Company's normal course of operations), and Succession (those arising from the succession of former Varig S.A. obligations). Under this classification, the number of proceedings is as follows:

Labor lawsuits	3,910	3,297	7,207
Labor proceedings	220	2	222
	23,301	3,756	27,057

The civil lawsuits are primarily related to compensation claims generally related to flight delays and cancellations, baggage loss and damage. The labor claims primarily consist of discussions related to overtime, hazard pay, and wage differences.

The provisions related to civil and labor suits, whose likelihood of loss is assessed as probable are as follows:

	06/30/2014	12/31/2013
Civil	50,053	66,294
Labor	44,004	51,271

94,057

117,565

Provisions are reviewed based on the progress of the proceedings and history of losses based on the best current estimate for labor and civil lawsuits.

There are other civil and labor lawsuits assessed by management and its legal counsel as possible risks, in the estimated amount as of June 30, 2014 of R\$20,839 for civil claims and R\$2,990 for labor claims (R\$13,226 and R\$3,929 as of December 31, 2013 respectively), for which no provisions are recognized.

The tax lawsuits below were evaluated by the Company's management and its legal consultants as being relevant and with probable risk as of June 30, 2014:

- GLAI is discussing the non-incidence of taxation of PIS and COFINS on revenues generated by the interest on capital in the amount of R\$37,750, related to the years from 2006 to 2008, paid by its subsidiary GTA Transportes Aéreos S.A., succeeded by VRG on September 25, 2008. According to the opinion of the Company's legal counsel and based on the jurisprudence occurred in recent events, the Company classified this case as possible loss, without a provision registered for the related amount. Additionally, the Company maintains a letter of credit with Bic Banco with a partial guarantee on the lawsuit value of R\$20,690 as disclosed in Note 6.

c) Lawsuits (Continued)

- Tax on Services (ISS), the amount of R\$15,532 arising from assessment notices issued by the Prefeitura do Município de São Paulo against the Company, in the period from January, 2007 to December, 2010 regarding a possible ISS taxation on partners agreements. The classification of the possible risk stems from the matters under discussion and are interpretative, and involves discussions of factual and evidential materials, and has no final positioning of the Superior Courts.
- Customs Penalty in the amount of R\$33,044 relating to assessment notices issued against the Company for alleged breach of customs rules regarding procedures for temporary import of aircraft. The classification of possible risk is a result of the absence of a final positioning of the Superior Courts.
- BSSF goodwill (BSSF Air Holdings), in the amount of R\$42,514 related to Infraction notices due to the deductibility of the goodwill allocated to future profitability. The classification of possible risk is a result of the absence of a final positioning of the Superior Courts.
- VRG's goodwill in the amount of R\$16,670 resulted from summons of violation related to the deductibility of the goodwill classified as future payment. The classification of probable risk arises from the absence of a final opinion from the Superior Courts.

There are other lawsuits considered by the Company's management and its legal counsel as possible risk, in the estimated amount of R\$20,178 which added to the lawsuits mentioned above, amount to R\$165,688 as of June 30, 2014.

The Company and its subsidiaries are challenging in the court the ICMS levied on aircraft and engines imported under aircraft lease transactions without purchase options in transactions carried out with lessors' registered in foreign countries. The Company and its subsidiaries' management understand that these transactions represent simple leases in view of the contractual obligation to return the assets that are the subject matter of the contract.

Management believes that there is no evidence of goods circulation and so, there are no legal events to generate the ICMS taxation. Based on the legal counsel opinion and supported by similar lawsuits with favorable decisions to taxpayers by the Superior Court of Justice (STJ) and Supreme Federal Court (STF) in the second quarter of 2007, the Company understands that the likelihood of loss is remote, and thus did not recognize provisions for these amounts. As of June 30, 2014 the estimated aggregated amount of the ongoing lawsuits related to the non-levy of ICMS tax on said imports is R\$239,232 (R\$229,450 as of December 31, 2013) adjusted for inflation, not including late payment charges.

29. Operating segment

Operating segments are defined as business activities from which it may earn revenues and incur expenses, which operating results are regularly reviewed by the relevant decision makers to evaluate performance and allocate resources to the segments.

As of January 01, 2013, as a result of the Smiles Program as an independent entity, the Company presents two operating segments: the flight transportation segment and the customer's loyalty program segment.

The flight transportation segment offers regular transportation of passenger and cargo, and the customer's loyalty program segment consists on the granting of credit reward miles to participants who can use them to redeem rewards, mainly airline tickets.

The accounting policies of the operating segments are the same as those applied to the consolidated financial statements. Additionally, the Company has distinct natures between the two reportable segments, which prevents any form of cost allocation, so there is no common costs and revenues between operating segments.

The information below presents the summarized financial position related to reportable segments for the six-month period ended June 30, 2014.

In the individual interim financial information - ITR of the subsidiary Smiles S.A., which represents the segment Smiles Loyalty Program and in the information provided to the relevant decision makers, the revenue recognition occurs upon redemption of the miles by the participants. Under this perspective, this measurement is appropriate given that this is when the revenue recognition cycle is complete. At this point, Smiles has transferred to its suppliers the obligation to provide services or deliver products to its customers.

29. Operating segment (Continued)

However, from a consolidated perspective, the revenue recognition cycle related to miles exchanged for flight tickets is only complete when the passengers are effectively transported. Therefore, for purposes of reconciliation with the consolidated assets, liabilities and results, as well as for purposes of equity method of accounting and for consolidation purposes, the Company performed, besides eliminations entries, consolidating adjustments to adjust the accounting practices related to Smiles' revenues. In this case, under the perspective of the consolidated financial statements, the miles that were used to redeem airline tickets are only recognized as revenue when passengers are transported, in accordance with accounting practices and policies adopted by the Company.

30. Commitments

As of June 30, 2014 the Company holds 130 firm orders for aircraft acquisitions with Boeing. These aircraft acquisition commitments include estimates for contractual price increases during the construction phase. The approximate amount of firm orders, not including the contractual discounts, is R\$32,704,865 (corresponding to US\$14,848,974 at the reporting date) and are segregated according to the following years:

30. Commitments (Continued)

The installment financed by long-term debt with aircraft guarantee through the U.S. Ex-Im Bank corresponds approximately to 85% of the aircraft total cost. Other establishments finance the acquisitions with equal or higher percentages, reaching up to 100%.

The Company performs payments related to aircraft acquisition through its own funds, short and long-term debt, cash provided by operating activities, short and medium-term line of credit and supplier financing.

The Company leases its entire aircraft fleet through a combination of operational and financial leases. As of June 30, 2014, the total fleet leased was comprised of 147 aircraft, excluding 3 aircraft from Webjet's fleet, of which 101 were under operating leases and 46 were recorded as financial leases. The Company holds 40 aircraft under financial leasing with purchase option. During the six-month period ended June 30, 2014, the Company received 9 aircraft under operating lease contracts and effected the return of 4 aircraft operating lease.

a) Operating leases

The future payments of non-cancelable operating lease contracts are denominated in U.S. Dollars, and are as follows:

	06/30/2014	12/31/2013
2014	351,002	693,125
2015	605,787	581,153
2016	535,173	508,828
2017	481,083	456,990
2018	420,816	397,103
Beyond 2018	1,657,464	1,456,846
Total minimum lease payments	4,051,325	4,094,045

b) Sale-leaseback transactions

During the period ended June 30, 2014, the Company recorded the amount of R\$2,356 and R\$2,228, as "Other payables" in current and noncurrent liabilities, respectively (R\$5,247 and R\$3,118 as of December 31, 2013), related to the gains from sale-leaseback transactions performed by its subsidiary GAC Inc. in 2006 of 8 aircraft 737-800 Next Generation. These gains were deferred and are being amortized proportionally to the payments of the operational lease agreements, of which 1 aircraft have the agreement maturity of 91 months, 5 aircraft have contract term of 96 months and 2 aircraft have contract term of 120 months.

b) Sale-leaseback transactions (Continued)

On the same date, the Company held the amount of R\$8,377 and R\$22,386 as "Prepaid expenses" in current and noncurrent assets, respectively (R\$8,923 and R\$26,526 as of December 31, 2013), related to the losses on sale-leaseback transactions performed by its subsidiary GAC Inc. of 9 aircraft. During the years 2007, 2008 and 2009 these losses were deferred, and are being amortized proportionally to the payments of the operational lease agreements over the contract term of 120 months.

Additionally, during the period ended on June 30, 2014, the Company recorded a gain of R\$75,073 resulting from 9 aircraft received during the period (8 aircraft received during the six-month period ended on June 30, 2013) that were used as sale-leaseback transactions and resulted in operating leases. Given that the gains and losses from sale-leaseback transactions will not be offset against future lease payments and were negotiated at fair value, such gain was recognized directly in profit or loss.

31. Financial instruments

The Company and its subsidiaries have financial asset and financial liability transactions, which consist in part of derivative financial instruments.

The financial derivative instruments are used to hedge against the inherent risks related to the Company operations. The Company and its subsidiaries consider as most relevant risks: fuel price, exchange rate and interest rate. These risks can be mitigated by using exchange swap derivatives, futures and options contracts based on oil, U.S. Dollar and interest markets. The contracts may be held by means of exclusive investment funds, as described in the Risk Management Policy of the Company.

Management follows a documented guideline when managing its financial instruments, set out in its Risk Management Policy, which is periodically revised by the Risk Committee (CPR), and approved by the Board of Directors. The Committee sets the guidelines and limits, monitors controls, including the mathematical models adopted for a continuous monitoring of exposures and possible financial effects and also prevents the execution of speculative financial instruments transactions.

The gains or losses on these transactions and the application of risk management controls are part of the Committee's monitoring and have been satisfactory when considering the objectives proposed.

31. Financial instruments (Continued)

The fair values of financial assets and liabilities of the Company and its subsidiaries are established through information available in the market and according to valuation methodologies.

Most of the derivative financial instruments are engaged with the purpose of hedging against fuel and exchange rates risks based on scenarios with low probability of occurrence, and thus have lower costs compared to other instruments with higher probability of occurrence. Consequently, despite the high correlation between the hedged item and the derivative financial instruments contracted, can presents ineffective positions for hedge accounting purposes upon settlement, which are presented in the tables below.

The description of the consolidated account balances and the categories of financial instruments included in the balance sheet as of June 30, 2014 and December 31, 2013 is as follows:

(b) The Company registered as of June 30, 2014 the amount net of R\$74,839, net of tax effects (R\$18,162 as of December 31, 2013) in equity as an equity valuation resulting from these assets and liabilities, as explained in Note 25f;

(c) The Company manages its investments as held for trading to pay its operational expenses;

(d) Excludes the escrow deposits, as mentioned in Note 11.

On June 30, 2014 the Company had no financial assets available for sale.

Risks

The operating activities expose the Company and its subsidiaries to the following financial risks: market (especially currency risk, interest rate risk, and fuel price risk), credit and liquidity risks. These risks are originated by, essentially, leasing agreements of aircraft purchase.

Risks (Continued)

The Company's risk management policy aims at mitigating potential adverse effects from transactions that could affect its financial performance.

The Company's and its subsidiaries' decisions on the exposure portion to be hedged against financial risk, both for fuel consumption and currency and interest rate exposures, consider the risks and hedge costs.

The Company and its subsidiaries do not usually contract hedging instruments for its total exposure, and thus they are subject to the portion of risks resulting from market fluctuations. The portion of exposure to be hedged is determined and reviewed at least yearly in compliance with the strategies determined in the Risk Policies Committees. The relevant information on the main risks affecting the Company's and its subsidiaries' operation is as follows:

a) *Fuel price risk*

As of June 30, 2014, fuel expenses accounted for 41% of the costs and operating expenses of the Company and its subsidiaries. The aircraft fuel price fluctuates both in the short and in the long term, in line

with crude oil and oil byproduct price fluctuations.

To mitigate the risk of fuel price, the Company and its subsidiaries contract derivative financial instruments referenced mainly to crude oil and, eventually, to their derivatives, also contracted, directly with the local supplier, are future fuel deliveries to aircraft at predetermined prices.

As of June 30, 2014, there are no open transactions of derivatives instruments of fuel price variation hedge.

b) *Exchange rate risk*

The exchange rate risk derives from the possibility of unfavorable fluctuation of foreign currencies to which the Company's liabilities or cash flows are exposed. The exposure of the Company's and its subsidiaries' assets and liabilities to the foreign currency risk mainly derives from foreign currency-denominated leases and financing.

The Company's and its subsidiaries' revenues are mainly denominated in Brazilian Reais, except for a small portion in U.S. Dollar, Argentinean pesos, Bolivian bolivianos, Chilean peso, Colombian peso, Paraguay Guarani, Uruguayan peso, Venezuela bolivar etc.

Risks (Continued)

c) *Interest rate risk*

The Company and its subsidiaries are exposed to fluctuations in domestic and foreign interest rates, substantially the CDI and Libor, respectively. The highest exposure is related to lease transactions, of which the installments to be paid are indexed to the Libor after date that the aircraft are delivered. Another relevant exposure is the local investments and debts indexed to the CDI rate.

To mitigate the interest rate risk the Company and its subsidiaries hold swap instruments.

d) *Credit risk*

The credit risk is inherent in the Company's and its subsidiaries' operating and financing activities, mainly represented by trade receivables, cash and cash equivalents, including bank deposits.

The trade receivable credit risk consists of amounts falling due from the largest credit card companies, with credit risk better than or equal to those of the Company and its subsidiaries, and receivables from travel agencies, installment sales, and government sales, with a small portion exposed to risks from individuals or other entities.

As defined in the Risk Management Policy, the Company and its subsidiaries are required to evaluate the counterparty risks in financial instruments and diversify the exposure. Financial instruments are contracted with counterparties rated at least as investment grade by S&P and Moody's. The financial instruments are mostly contracted on commodities and futures exchanges (BM&FBOVESPA and NYMEX), which substantially mitigate the credit risk, derivative transactions contracted on the OTC market (OTC) have counterparts with a minimum rating of "investment grade". The Company's and its subsidiaries' Risk Management Policy establishes a maximum limit of 20% per counterparty for short-term investments.

e) *Liquidity risk*

Liquidity risk takes on two distinct forms: market and cash flow liquidity risk. The first is related to current market prices and varies in accordance with the types of assets and the markets where they are traded. Cash flow liquidity risk, however, is related to difficulties in meeting the contracted operating obligations at the agreed dates.

Risks (Continued)

e) *Liquidity risk* (Continued)

As a way of managing the liquidity risk, the Company and its subsidiaries invest its funds in liquid assets (governmental bonds, CDBs, and investment funds with daily liquidity), and the Cash Management Policy establishes that the Company's and its subsidiaries' weighted average debt maturity should be higher than the weighted average maturity of the investment portfolio. As of June 30, 2014, the weighted average maturity of the Company's and its subsidiaries' financial assets was 18 days and of financial debt, excluding perpetual bonds, was 4.3 years.

f) *Capital management*

The table below shows the financial leverage rate as of June 30, 2014 and December 31, 2013:

Consolidated

	06/30/2014	12/31/2013
Shareholder's equity (b)	485,110	650,926

31. Financial instruments (Continued)

Classification of derivatives financial instruments

i. *Cash flow hedges*

The Company and its subsidiaries use cash flow hedges to hedge against future revenue or expense fluctuations resulting from changes in the exchange rates, interest rates or fuel price, and accounts for actual fluctuations of the fair value of derivative financial instruments in shareholders' equity until the hedged revenue or expense is recognized.

The Company and its subsidiaries estimates the effectiveness based on statistical correlation methods and the ratio between gains and losses on the financial instruments used as hedge, and the cost and expense fluctuation of the hedged items. The instruments are considered as effective when the fluctuation in the value of derivatives offsets between 80 % to 125% the impact of the price fluctuation on the cost or expense of the hedged item.

The balance of the actual fluctuations in the fair values of the derivatives designated as cash flow hedges is transferred from shareholders' equity to profit or loss for the period in which the hedged costs or expenses impacts profit or loss. Gains or losses on effective cash flow hedges are recorded in balancing accounts of the hedged expenses, by reducing or increasing the operating cost, and the ineffective gains or losses are recognized as financial income or financial expenses for the period.

ii. *Derivative financial instruments not designated as hedge*

The Company and its subsidiaries hold derivative financial instruments that are not formally designated for hedge accounting. This occurs when transactions are in the short term and the control and disclosure complexity.

iii. *Derivative equity instruments*

In April 2013, the Company entered into an investment agreement with General Atlantic Service Company LLC. ("G.A.") that established the grant by the Company of an option to purchase its Smiles shares enabling the secondary acquisition by G.A. (or other person designated by it), of Smiles S.A. shares held by the Company. These stock options were exercised on February 27, 2014 and, during the period ended June 30, 2014, the Company registered a loss in derivative instruments on the financial result in the amount of R\$15,901 related to the derivative market pricing. As of June 30, 2014, the Company performed a reversal of this derivative obligation to the equity in the amount of R\$46,216 as described on Note 1.

Hedge activities

a) *Fuel hedge*

Due to the low liquidity of jet fuel derivatives traded in commodities exchanges, the Company and its subsidiaries contracts crude oil derivatives (WTI, Brent) and its byproducts (Heating Oil) to hedge against fluctuations in jet fuel prices. Historically, oil prices are highly correlated with aircraft fuel prices.

As of June 30, 2014, the Company and its subsidiaries does not have contracts designated as “cash flow hedge accounting” of fuel.

Sensitivity analysis of derivative financial instruments

The sensitivity analysis of financial instruments was prepared according to CVM Instruction 475/08, in order to estimate the impact on the fair value of financial instruments operated by the Company, considering three scenarios considered in the risk variable: most likely scenario, the assessment of the Company; deterioration of 25% (possible adverse scenario) in the risk variable, deterioration 50% (remote adverse scenario).

The estimates presented, since they are based on simple statistics, do not necessarily reflect the amounts to be reported in the next financial statements. The use of different methodologies and /or assumptions may have a material effect on the estimates presented.

The tables below show the sensitivity analysis for market risks and financial instruments considered relevant by management, open position as of June 30, 2014 and based on the scenarios described above.

The probable scenario of the Company is the maintaining of the market rates.

In the tables, positive values are displayed as asset exposures (assets greater than liabilities) and negative values are exposed liabilities (liabilities greater than assets).

l) *Foreign exchange risk*

As of June 30, 2014, the Company has a currency exposure of R\$1,269,921 (see Note 31b). On this date, the exchange rate adopted was R\$2.2025/US\$, corresponding to the closing rate of the month published by Banco Central do Brasil as a likely scenario, and the impacts analyzed from the variation of 25% and 50% over the current rate are shown below:

* Negative values correspond to net losses expected in the case of U.S. Dollar appreciation.

III) *Interest risk factor*

As of June 30, 2014, the Company holds financial investments and financial liabilities indexed to several rates, and Libor interest.

In the sensitivity analysis of non-derivative financial instruments it was considered the impacts on yearly interest of the exposed values as of June 30, 2014 (see Note 19), arising from fluctuations in interest rates according to the scenarios presented below:

Instruments	Risk	Exposed amount	Probable Scenario Scenario	Possible Adverse Scenario 25%	Adverse Scenario Remote 50%
Financial investments -					
Short and Long-term debt (a)	Increase in the CDI rate	(101,546)	-	(12,075)	(24,150)
Derivative	Decrease in the Libor rate	(46,034)	-	(87,607)	(175,327)

(a) Refers to the sum of the values invested and raised in the market and indexed to CDI, the negative amounts means more debt than application.

Measurement of the fair value of financial instruments

In order to comply with the disclosure requirements for financial instruments measured at fair value, the Company and its subsidiaries must classify its instruments in Levels 1 to 3, based on observable fair value levels:

- a) Level 1: Fair value measurements are calculated based on quoted prices (without adjustment) in active market or identical liabilities;

- b) Level 2: Fair value measurements are calculated based on other variables besides quoted prices included in Level 1, that are observable for the asset or liability directly (such as prices) or indirectly (derived from prices); and

c) Level 3: Fair value measurements are calculated based on valuation methods that include the asset or liability but that are not based on observable market variables (unobservable inputs).

The following table shows a summary of the Company's and its subsidiaries' financial instruments measured at fair value, including their related classifications of the valuation method, as of June 30, 2014 and December 31, 2013:
