| During 2016, for the 11th consecutive year, GOL conducted its 404 certification process. GOL was one of the first foreign private issuers to assess the effectiveness of the Company's internal control over financial reporting and meet the requirements of Section 404 of the Sarbanes-Oxley Act of 2002.

Management's Comments on Results

As previously guided, GOL's load factors in the Brazilian summer have remained high and yields have risen as result of GOL's network and fleet restructuring completed during the year to adjust capacity to the Brazilian economic contraction. GOL responded to the weaker environment by continuing to improve customer experience and cutting costs.

In the fourth quarter of 2016 GOL improved its high service quality and achieved net revenues of R\$2.7 billion and continued to rationalize operations. While reducing the number of seats available for sale by 17%, full-year 2016 net revenues were a record R\$10 billion, a result made possible due the flight network restructuring effected in May 2016. According to the ANAC, in 2016 GOL was the leading airline in the Brazilian domestic market with a share of 36% of RPKs (passenger demand per kilometers). According to ABRACORP - Brazilian Association of Travel Agencies, GOL was the leader in market share and number of tickets issued and sold to corporate clients.

"GOL further consolidated its position as Brazil's No. 1 airline. The dedication and teamwork of GOL's employees contributed to improved operating results in the fourth quarter," commented GOL's CEO Paulo Kakinoff. GOL is proud of its status as Brazil's lowest cost carrier for the 10th consecutive year based its standardized single fleet generating smaller crew costs, smart spare parts management and best in class maintenance and lean and productive operations, low fixed costs. The Company's order for new B-737 MAX 8s and investments in technology will maintain its cost leadership.

The Company strives to provide the best overall flying experience to its clients. GOL was most on-time airline in 2016 in the Brazilian market, with an 84.6% rating, according to OAG (Official Airline Guide), a specialized independent company that monitored over 54 million flights worldwide. For the fourth consecutive year, GOL remained the most on-time Brazilian airline with a 94.8% rate of flights taking off on schedule, according to the data from Infraero

and airports concessionaires, which considers as a delay any departure with a delay of over 30 minutes.

The Company's 4Q16 operating profit (EBIT) registered R\$198 million with an operating margin of 7.4%. In 4Q16, GOL increased aircraft utilization rates while maintaining market cost leadership. Passengers transported in 4Q16 decreased 15.4% over 4Q15. GOL's load factor increased 2.2 percentage points to 77.6% due to the maturity of the new network launched in May 2016 that achieved a 19.0% reduction in seats availability in the period. Aircraft utilization was at 11.7 block hours per day (increases 5.7% over 4Q15). Operating costs per ASK, excluding fuel and non-operating expenses, decreased approximately 6.8% to 13.97 cents (R\$). Fuel costs per available seat kilometer (ASK) decreased 17.3% to 5.75 cents (R\$). Cost reductions per ASK were driven by lower aircraft rent expenses due to fleet restructuring. "Our absolute market cost leadership is key to our value proposition and allowed us to provide the best fares and service in the market, even during a challenging industry environment," added Richard Lark, GOL's CFO.
