Item 1.01 Entry into a Material Definitive Agreement.

Information set forth under Item 2.03 of this Current Report on Form 8-K is incorporated by reference.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On March 11, 2009, Ferro Corporation (the "Company") entered into a Fourth Amendment to Amended and Restated Credit Agreement among Ferro Corporation; Credit Suisse, Cayman Islands Branch, as term loan administrative agent; National City Bank, as revolving loan administrative agent; and various financial institutions as lenders (the "Credit Agreement Fourth Amendment").

The primary effects of the Credit Agreement Fourth Amendment are to:

1. Increase the interest rates applicable to outstanding loans pursuant to a grid structure based on the Company's leverage ratio. The interest rate on the Company's revolving loans will range from 3.50% to 5.00% above the applicable base rate or, at the Company's option, from 4.50% to 6.00% above the applicable LIBOR rate. The interest rate on the Company's term loans will be 5.00% above the applicable base rate or 6.00% above the applicable LIBOR rate. The Credit Agreement Fourth Amendment also increases the commitment fees payable by the Company to a range of 0.50% to 0.75% based on the Company's leverage ratio.
2. Increase the maximum permitted leverage ratio. The maximum permitted leverage ratio will vary by fiscal quarter from 5.25 to 7.00 over the remaining term of the credit facility.
3. Decrease the minimum permitted fixed charge coverage ratio. The minimum permitted fixed charge coverage ratio will vary by fiscal quarter from 1.0 to 1.2 over the remaining term of the credit facility.
4. Add a minimum quarterly EBITDA requirement for the 2009 fiscal year.
5. Provide that the Company may not make certain investments or acquisitions unless, after giving effect to such investment or acquisition, the leverage ratio would be less than 3.5.
6. Require application of the net proceeds of certain dispositions, but excluding the first \$20 million of such net disposition proceeds, to be applied to repay debt outstanding under the term loans and revolving credit facility and to permanently reduce availability under the revolving credit facility on a dollar-for-dollar basis, except that the Company is not required to reduce the commitments under the revolving credit facility below \$150 million.
7. Eliminate the accordion feature, which had permitted the Company to request an increase of \$50 million in the revolving credit facility on the terms previously set forth therein.
8. Restrict the Company's ability to make payments with respect to Ferro's capital securities based on its anticipated leverage ratio during the quarter in which the dividends are paid. The Credit Agreement Fourth Amendment effectively prohibits the Company from paying dividends on its common stock.
9. Prohibit the Company from delivering in excess of \$120 million in cash and cash equivalent collateral to participants in the precious metals consignment arrangements to secure obligations arising under the precious metals programs.
10. Require additional financial reporting by the Company to its lenders under the 2009 Amended Credit Facility.
11. Increase the amount of the annual excess cash flow required to be used to repay term loans.
12. Add provisions governing the obligations of the Company and the lenders if one or more lenders under the revolving credit facility fails to satisfy its funding obligations or otherwise becomes a defaulting lender.

The foregoing summary is qualified in its entirety by reference to the text of the Credit Agreement Fourth Amendment, which is filed as Exhibit 10.1 and is incorporated herein by reference.
