-

Top of the Form**Item 7.01 Regulation FD Disclosure.**

From time to time, representatives of Sara Lee Corporation have been asked for details regarding the impact of the euro/dollar exchange rate on the corporation's earnings, and Sara Lee's expenditures on commodities, by category. Sara Lee is filing this report to provide investors with greater details on those two topics. Sara Lee also will provide this information during its presentation at the Deutsche Bank Global Consumer Conference in Paris, France which will be broadcast live via the Internet at 7:45 a.m. CDT (2:45 p.m. in Paris) on Tues., June 15, 2010 and can be accessed at www.saralee.com.

Impact of euro/dollar Exchange Rate

For the first nine months of fiscal 2010, Sara Lee generated approximately 25% of its net sales from continuing operations and 40% of its operating income from continuing operations in euros. As a general rule of guidance, a \$0.03 change in the euro/dollar exchange rate has an approximately \$10 million impact on Sara Lee's reported operating income, which is the equivalent of approximately \$0.01 of diluted EPS in fiscal 2011. In fiscal 2010, the average euro/dollar exchange rate is projected to be \$1.39.

Commodity Costs and Outlook

The table below summarizes Sara Lee's main commodities and expected fiscal 2010 spend, which is estimated to be approximately \$3.9 billion.

Commodity category	Fiscal 2010 spend (in millions)
Coffee Arabica, Robusta	\$ 1,000
Ingredients Flour, oils, sweeteners, dairy, etc.	\$ 950
Meats Pork, poultry, beef	\$ 900
Packaging Cartons, bags, trays, film	\$ 850
Energy Diesel, natural gas, electricity	\$ 200
Total estimated fiscal 2010 commodity spend	\$ 3,900

Sara Lee currently expects that input costs for meats, coffee and energy will increase in fiscal 2011 on a year-over-year basis. However, we believe that we can manage the impact of these fiscal 2011 commodity cost increases for several reasons: (i) we have a proven procurement track record that is underscored by long-term supplier agreements with strategic suppliers, (ii) we have developed the expertise and relationships to effectively hedge our commodity exposure to significantly reduce input cost volatility, and (iii) we have strong pricing architecture tools and disciplines in place that, combined with our category management skills, will help us protect our margins while at the same time helping our retail customers to grow their business.
