Item 8.01 Other Events.

Janssen Cilag International NV notified EU health care providers today that EU Regulators (CHMP) have approved the supply of CAELYX® (doxorubicin HCl liposome injection) following limitations on availability due to production difficulties at the product manufacturing site. Endocyte notes that:

Endocyte's phase 3 PROCEED trial in platinum resistant ovarian cancer is currently enrolling patients in select EU investigative sites.

Sustainable commercial supply will not be immediately available, so Endocyte plans to activate additional sites in the EU as CAELYX® supply becomes sufficient to support them.

CAELYX® is marketed as DOXIL® in the U.S. As previously reported, the PROCEED trial sites in the U.S. have full access to supply of DOXIL®.
