STEALTHGAS INC. ANNOUNCES ELEVEN CHARTER RENEWALS AT HIGHER RATES AND NEW CHARTER EMPLOYMENT FOR VESSEL TO BE DELIVERED IN OCTOBER

ATHENS, GREECE, September 18, 2007. STEALTHGAS INC. (NASDAQ: GASS) (the Company), a ship-owning company serving the liquefied petroleum gas (LPG) sector of the international shipping industry, announced today that it has entered into new time charter agreements for M/V Gas Sophie, M/V Gas Czar and M/V Gas Nemesis. In addition, the Company has entered into a new bareboat charter for M/V Gas Ice and extended time charters for M/V Gas Renovatio, M/V Gas Zael, M/V Gas Sincerity, M/V Gas Shanghai, M/V Gas Kalogeros, Gas Legacy, M/V Gas Icon and the M/V Gas Spirit, as described below.

The M/V Gas Sophie, upon its scheduled delivery to the Company in October 2007 will be deployed on a time charter for 12 months to an international gas trader. The vessel is a 1995 built 3,500 cbm, Fully Pressurized (F.P.) LPG carrier that the Company agreed to acquire in early April 2007.

The M/V Gas Czar and M/V Gas Nemesis have entered into new time charters both for 12 months commencing in December 2007 and May 2008, respectively, to an international gas trader.

The M/V Gas Renovatio has extended its existing time charter for an additional 12 months, commencing in January 2008, to an international gas trader.

The M/V Gas Zael and M/V Gas Sincerity have each extended their existing time charters for an additional 12 months to an oil major, commencing in March and July of 2008, respectively.

The M/V Gas Shanghai has extended its existing time charter for an additional 12 months, commencing in September 2008, to an international gas trader.

Both the M/V Gas Kalogeros and the M/V Gas Legacy have extended their existing time charters for an additional two years, both commencing in April 2008, and both to an oil major.

The M/V Gas Spirit has extended its existing time charter for an additional two years commencing in June 2008 to an oil major.

The M/V Gas Icon has also extended its existing charter for two years commencing in July 2008 to an oil major.

Lastly, the M/V Gas Ice upon the expiration of its current bareboat charter in April 2008, has entered into a new bareboat charter for a period of three years commencing in April 2008 to a European ship operator.

The aggregate revenue per calendar month for the above detailed charters is \$3,088,000.

CEO Harry Vafias commented, We are very pleased to announce these fixtures as, excluding the new charter for the M/V Gas Sophie, eight out of the eleven charters we are announcing today are renewals with existing charterers for the vessels they are currently chartering, which emphasizes the trust and relationships that we have built with these major international operators in the LPG industry. I am also pleased to announce that the renewals represent an overall 15.9% increase over the current prevailing rates being earned by the vessels detailed above.

The above-mentioned charters demonstrate our commitment to having a transparent earnings stream and we now have some 82% of our fleet under period contracts for 2008 and 40% for 2009. As we have discussed previously, we believe that the outlook for our sector remains positive over the next two to three years and in this context, many of these renewals have been negotiated in advance of the expiry of their current charter and in our opinion, provides further proof of the improving market conditions for our company, as charterers are seeking to secure quality tonnage

on a period basis. However, on a cautionary note, I should also add that we are continuing to face shortages of well qualified crew, and this is leading to further upward pressure on wages required to be paid to secure the availability of crew to man our vessels. Nevertheless, on an overall basis, we believe that the above detailed charters represent a positive outlook for the earnings of our company going into 2008 and beyond .
