OVERSEAS REGULATORY ANNOUNCEMENT - Power Generation increases 31.7% in 2005

This announcement is made pursuant to Rule 13.09(2) of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited.

Huaneng Power International, Inc. (the "Company") announced its power generation in 2005.

Based on preliminary statistics, as of 31st December 2005, the Company's total power generation on a consolidated basis in 2005 was 150.505 billion kWh, an increase of 31.7% over last year. The power generation of Yushe Power Plant, Huaiyin Power Plant, Qinbei Power Plant, Jining Power Plant and Shantou Power Plant increased significantly.

The increase in power generation of the Company's power plants in 2005 was mainly attributable to the following reasons:

1. Power plants acquired in 2004, such as Luohuang Power Plant, Yueyang Power Plant, Yingkou Power Plant, Jinggangshan Power Plant, Pingliang Power Plant and Sichuan Hydro Power have made significant contribution to the increase of the Company's power generation;
2. Yushe Power Plant Phase II and Qinbei Power Plant which were put into operation in the second half of 2004, and Huaiyin Power Plant Phase II and Shantou Power Plant Phase II which were put into operation in 2005 have contributed stable generation in 2005;
3. As a result of rapid economic growth, power demand in the regions where the Company's power plants operated remained strong, thereby providing favorable market conditions for the power generation of the Company;
4. As there were less new generating units being put into operation in Shandong power grid recently, the power generation of the Company's power plants in Shandong region has posted comparatively rapid growth;
5. Safe and stable operation of generating units has also ensured the growth in the Company's power generation.

The power generation of each of the Company's power plants in 2005 was listed below (in billion kWh):

Dalian	9.234	Changxing	1.921
Fuzhou	9.215	Taicang	3.969
Nantong	8.403	Huaiyin	6.030
