ANNOUNCEMENT ON
RECEIPT OF THE RESULTS COMPENSATION AMOUNT FOR 2018

References are made to the announcement of Huaneng Power International, Inc. (the “Company” or “Huaneng International”) dated 15 October 2016 (the “Announcement”) and the circular of the Company dated 15 November 2016 (the “Circular”) in relation to the discloseable and connected transaction regarding the Company’s acquisition of the Shandong Power Interests, the Jilin Power Interests, the Heilongjiang Power Interests and the Zhongyuan CCGT Interests, and also the announcement dated 20 March 2019 on the Implementation Status for 2018 in relation to the Performance Undertaking by Huaneng Group pursuant to the Profit Forecast Compensation Agreement. Capitalised terms used herein shall have the same meanings as those defined in the Announcement and the Circular unless otherwise stated.

As disclosed in the Announcement and the Circular, Huaneng Group guaranteed that the audited actual net profit for 2017, 2018 and 2019 (the “Actual Net Profit”) for each of Huaneng Laiwu Power Generation Limited, Huaneng Jiexiang Power Generation Limited, Huaneng Jining Canal Power Generation Limited, Huaneng Liaocheng Thermal Power Limited and Huaneng Yantai Power Generation Limited (which was changed to Huaneng Shandong Power Generation Co., Ltd. The compensation shall be payable by way of cash by Huaneng Group to Huaneng International within 20 working days from the date of disclosure of the specific audit report.

The Company has recently received from Huaneng Group the sum of RMB550.832 million as the undertaken compensation amount for the Profit Forecast Companies for 2018. ANNOUNCEMENT ON POWER GENERATION
FOR THE FIRST QUARTER OF 2019

This announcement is made pursuant to Rule 13.10B of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

According to the preliminary statistics of Huaneng Power International, Inc. (the “Company”), for the first quarter of 2019, the Company’s total power generation by power plants within China on consolidated basis amounted to 103.839 billion kWh, representing a decrease of 0.45% over the same period last year. Total electricity sold by the Company amounted to 98.255 billion kWh, representing a decrease of 0.06% over the same period last year. For the first quarter of 2019, the Company’s average on-grid electricity settlement price for its power plants within China amounted to RMB421.87 per MWh, representing a decrease of 0.40% over the same period last year.

The decrease in the Company’s power generation was mainly attributable to:

1. The slowing down in the growth rate of electricity consumption nation-wide;
2. The Company has relatively a larger proportion of thermal power. In the first quarter, the country’s hydropower, wind power and nuclear power increased rapidly, and it occupied the space for thermal power generation;
3. The impact of the coal restrictions policy in East China has affected the thermal power generation.
