The Herzfeld Caribbean Basin Fund Inc.'s investment objective is long-term capital appreciation. To achieve its objective, the Fund invests in issuers that are likely, in the Advisor's view, to benefit from economic, political, structural and technological developments in the countries in the Caribbean Basin, which include, among others, Cuba, Jamaica, Trinidad and Tobago, the Bahamas, the Dominican Republic, Barbados, Aruba, Haiti, the Netherlands Antilles, the Commonwealth of Puerto Rico, Mexico, Honduras, Guatemala, Belize, Costa Rica, Panama, Colombia, the United States and Venezuela ("Caribbean Basin Countries"). The Fund invests at least 80% of its total assets in equity and equity-linked securities of issuers, including U.S.-based companies which engage in substantial trade with, and derive substantial revenue from, operations in the Caribbean Basin Countries.

Letter to Stockholders

February 1, 2012

Dear Fellow Stockholders:

We are pleased to present our Semi-Annual report for the period ended December 31, 2011. On that date the net asset value of The Herzfeld Caribbean Basin Fund, Inc. (CUBA) stood at \$7.17 per share, down 7.73% for the calendar year and down 10.91% for the first six months of the Fund's fiscal year then ended. The share price closed at \$6.42 per share, a decline of 9.55% for the calendar year, and off 9.17% for the six month period. (All figures are adjusted for the year-end \$0.0634 per share cash distribution.)

Investment Strategy and Outlook

The Fund seeks long-term capital appreciation through investment in companies which the Advisor believes are poised to benefit from economic, political, structural and technological developments in countries of the Caribbean Basin. More specifically, our investment strategy, since inception, has focused on Caribbean Basin companies that would benefit from the resumption of U.S. trade with Cuba. Since it is impossible to predict when the U.S. embargo against that country may be lifted, we have concentrated on investments which we believe can do well even if there is no political or economic change with respect to that country.

Our early investments were primarily in large companies with strong earnings and balance sheets. These include global organizations which have the potential to do business in Cuba, and which currently have varying exposures to that country. This strategy has worked well over the years; original shareholders in the fund have more than doubled their money.

Recent developments indicate to us that the prospect of resumption of trade with Cuba is just beyond the horizon. Fidel Castro's age and health are certainly factors and the upcoming visit by Pope Benedict this March is highly significant. We cannot help but notice the changing attitudes of Americans towards Cuba.

Letter to Stockholders (continued)

Going forward, as opportunities arise, we will seek to modify our investment approach to include some speculative holdings using a more highly focused Cuba strategy. Initially, this will be done only with a small portion of the portfolio. We accept that these new portfolio companies may currently have weak balance sheets and/or no current earnings in exchange for their future potential.

Changing Environment

2011 may best be remembered as being the year the U.S. lost its AAA credit rating or for the escalation of Europe's economic woes. But in the background, a great deal of change happened with regard to Cuba. The country made unprecedented positive moves in the direction of capitalism. By far the most interesting developments, in our opinion, were the decisions to allow Cubans to start businesses and grow companies. Cuba now permits farmers to sell directly to state-run hotels and other tourist facilities; before they were required to go through government channels to reach those markets. Cuba has also begun to allow small businesses to hire workers and even get loans from banks to start new ventures. Before, business had to operate secretly in the black market and away from official eyes. Now, appliance repair stores, carpentry shops, and locksmiths are springing up throughout Cuba. Further evidence of change includes allowing Cubans to buy and sell their homes as well as vehicles, albeit with restrictions.

On the U.S. side, licenses were granted to five additional American airports to fly directly to the island, and Cuban-Americans are no longer restricted in the number of times they can visit—before only one trip was allowed every two years. For the first time, Cuban-Americans are also permitted to send money to relatives in Cuba for the purpose of starting small businesses.

We are excited about what 2012 will bring for Cuba and are optimistic change will continue to foster fledgling entrepreneurship. The Pope's visit also promises to pave the way for greater religious openness and cast Cuba in a positive light from a human rights perspective.

Notes to Financial Statements

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Related Matters

The Herzfeld Caribbean Basin Fund, Inc. (the “Fund”) is a non-diversified, closed-end management investment company incorporated under the laws of the State of Maryland on March 10, 1992, and registered under the Investment Company Act of 1940. The Fund commenced investing activities in January 1994. The Fund is listed on the NASDAQ Capital Market and trades under the symbol “CUBA”.

The Fund’s investment objective is to obtain long-term capital appreciation. The Fund pursues its objective by investing primarily in equity and equity-linked securities of public and private companies, including U.S.-based companies, (i) whose securities are traded principally on a stock exchange in a Caribbean Basin Country or (ii) that have at least 50% of the value of their assets in a Caribbean Basin Country or (iii) that derive at least 50% of their total revenue from operations in a Caribbean Basin Country (collectively, “Caribbean Basin Companies”). Under normal conditions, the Fund invests at least 80% of its total assets in equity and equity-linked securities of Caribbean Basin Countries. This 80% policy may be changed without stockholder approval upon sixty days written notice to stockholders. The Fund’s investment objective is fundamental and may not be changed without the approval of a majority of the Fund’s outstanding voting securities.

At December 31, 2011, the Fund had foreign investments in companies operating principally in Mexico and Panama representing approximately 19.83% and 8.82% of the Fund’s net assets, respectively.

The Fund’s custodian and transfer agent is State Street Bank and Trust Company (“SSBT”), 200 Clarendon Street, PO Box 9130, Boston, Massachusetts 02117.

Security Valuation

In accordance with accounting principles generally accepted in the United States of America (“GAAP”), fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date.

Notes to Financial Statements

In determining fair value, the Fund uses various valuation approaches. In accordance with GAAP, a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1: quoted prices in active markets for identical investments

1:

Level 2: other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3: significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including, the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Fund in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls, is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Fund's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Fund uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Notes to Financial Statements

Investments in securities traded on a national securities exchange (or reported on the NASDAQ National Market or Capital Market) are stated at the last reported sales price on the day of valuation (or at the NASDAQ official closing price); other securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Restricted securities and other securities for which quotations are not readily available are valued at fair value as determined by the Board of Directors.

The following table summarizes the classification of the Fund's investments by the above fair value hierarchy levels as of December 31, 2011:

LEVEL	Investments in Securities
Level 1	\$26,263,430
Level 2	\$50,034
Level 3	\$0*

*See Note 2, non-marketable securities owned

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investment in Securities at Value
Balance as of 6/30/11	\$56
Unrealized gain/(loss)	(50,592)
Net purchases/(sales)	0
Transfer in/out of Level 3	50,536
Balance as of 12/31/11	\$0

Income Recognition

Security transactions are recorded on the trade date. Gains and losses on securities sold are determined on the basis of identified cost. Dividend income is recognized on the ex-dividend date or in the case of certain foreign securities, as soon as the Fund is notified, and interest income is recognized on an accrual basis. Pursuant to a custodian agreement, SSBT receives a fee reduced by credits which are determined based on the average daily cash balance the Fund maintains with SSBT. Credit balances used to reduce the Fund's custodian fees for the six months ended December 31, 2011 were approximately \$27. Discounts and premiums

Notes to Financial Statements

on debt securities purchased are amortized over the life of the respective securities. It is the Fund's practice to include the portion of realized and unrealized gains and losses on investments denominated in foreign currencies as components of realized and unrealized gains and losses on investments and foreign currency.

Deposits with Financial Institutions

The Fund may, during the course of its operations, maintain account balances with financial institutions in excess of federally insured limits.

Counterparty Brokers

In the normal course of business, substantially all of the Fund's money balances and security positions are custodied with the Fund's custodial broker, SSBT. The Fund transacts with other brokers. The Fund is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Fund's management monitors the financial condition of such brokers and does not anticipate any losses from these counterparties.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Fund's policy is to continue to comply with the provisions of the Internal Revenue Code that are applicable to regulated investment companies and to distribute all its taxable income to its stockholders. Under these provisions, the Fund is not subject to federal income tax on its taxable income and no federal income tax provision is required.

The Fund has adopted a June 30 year-end for federal income tax purposes.

Notes to Financial Statements

Distributions to Stockholders

Distributions to stockholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. For the six months ended December 31, 2011, a distribution from long-term capital gains of \$0.0634 per share was declared on November 11, 2011.

NOTE 2. NON-MARKETABLE AND RESTRICTED SECURITIES OWNED

Investments in securities include \$165,000 principal, 4.5%, 1977 Republic of Cuba bonds purchased for \$63,038. The bonds were listed on the New York Stock Exchange and had been trading in default since 1960. A “regulatory halt” on trading was imposed by the New York Stock Exchange in July 1995 and trading in the bonds was suspended as of December 28, 2006. The New York Stock Exchange has stated that following the suspension of trading, application will be made to the Securities and Exchange Commission to delist the issue. As of December 31, 2011, the position was valued at \$0 by the Board of Directors, which approximates the bonds’ fair value.

Investments in securities also include 250,000 shares of Admiralty Holding Company, 20 shares of Ceramica Carabobo Class A ADR, 700 shares of Cuban Electric Company, 895 shares of Siderurgica Venezolana Sivensa, S.A. ADR, 79 shares of Siderurgica Venezolana Sivensa S.A. Series B, 100,000 shares of Cuba Business Development and 70,348 shares of Waterloo Investment Holdings Ltd. As of December 31, 2011, the positions were valued at \$0 by the Board of Directors, which approximates their fair value.

Two of the Fund’s holdings are currently segregated and restricted from transfer because they appear on the OFAC list. These securities are: \$165,000 principal value Republic of Cuba bonds, 4.5%, 1977 in default with a fair value of \$0, and 700 shares of Cuban Electric Company with a fair value of \$0.

NOTE 3. TRANSACTIONS WITH AFFILIATES

HERZFELD / CUBA (the “Advisor”), a division of Thomas J. Herzfeld Advisors, Inc., is the Fund’s investment advisor and charges a monthly fee at the annual rate of 1.45% of the Fund’s average daily net assets. Total fees for the six months ended December 31, 2011 amounted to \$196,300, of which \$95,926 is payable as of December 31, 2011.

A director of the Fund serves on the Board of Directors of Margo Caribe, Inc., a company that trades on the Pink Sheets and in which the Fund has an investment. A director of the Fund is the owner of the Advisor and Thomas J. Herzfeld & Co., Inc.

The Fund reimbursed the Advisor in the amount of \$13,456 for the portion of the chief compliance officer’s (the “CCO”) salary determined to be attributable to the services provided as CCO of the Fund.

Notes to Financial Statements

NOTE 4. INVESTMENT TRANSACTIONS

During the six months ended December 31, 2011, purchases and sales of investment securities were \$2,169,004 and \$1,922,411, respectively.

At December 31, 2011, the Fund's investment portfolio had gross unrealized gains of \$5,884,126 and gross unrealized losses of \$5,012,046, resulting in a net unrealized gain of \$872,080 for financial statement purposes.

NOTE 5. INCOME TAX INFORMATION

For financial statement purposes, the Fund's net investment loss for the year ended June 30, 2011 does not differ from the net investment loss for tax purposes. Realized gains differ for financial statement and tax purposes primarily due to differing treatments of wash sales.

As of June 30, 2011, for tax purposes the Fund's undistributed net investment loss was \$0 and its undistributed realized loss ("capital loss carryforward") on investments was \$0.

The cost basis of securities owned for financial statement purposes is lower than the cost basis for income tax purposes by \$592,784 due to wash sale adjustments. As of June 30, 2011, gross unrealized gains were \$6,940,461 and gross unrealized losses were \$3,354,441 for income tax purposes.

In accordance with GAAP, the Fund is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. states and foreign jurisdictions. Generally the Fund is no longer subject to income tax examinations by major taxing authorities for years before June 30, 2008. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Fund recording a tax liability that reduces ending net assets. This policy has been applied to all existing tax positions upon the Fund's initial adoption for the period ended June 30, 2008. Based on its analysis, the Fund has determined that the adoption of this policy did not have a material impact on the Fund's financial statements upon adoption. However, the Fund's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, ongoing analyses of and changes to tax laws, regulations and interpretations thereof.

The Fund's policy would be to recognize accrued interest expense to unrecognized tax benefits in interest expense and penalties in operating expenses. There were none for the period ended June 30, 2011.

NOTE 6. CAPITAL SHARE TRANSACTIONS

Rights Offering

On October 26, 2007, the Fund issued 1,812,293 common shares in connection with a rights offering. Stockholders of record September 26, 2007 were issued one non-transferable right for every share owned on that date. The rights entitled the stockholders to purchase one new common share for every right held. In addition, the Fund had the discretion to increase the number of shares of common stock subject to subscription by up to 100% of the shares offered, or up to an additional 1,678,556 additional shares of common stock.

The subscription price was equal to 85% of the average volume-weighted sales price per share of the Fund's common stock on the NASDAQ Capital Market on October 26, 2007 and the four preceding trading days. The final subscription price was \$10.04 per share. Net proceeds to the Fund were \$18,075,138 after deducting rights offering costs of \$120,284. The net asset value of the Fund's common shares was increased by approximately \$0.09 per share as a result of the share issuance.

Notes to Financial Statements

Year-End Distributions

On January 5, 2009, the Fund paid a year-end distribution of \$0.211 per share paid in stock. Stockholders were also given the option of receiving the payment in cash. Shares were purchased in the open market to pay the distribution at a reinvestment price of \$4.9896 per share including brokerage commissions.

On January 9, 2008, the Fund issued 213,222 common shares in connection with a year-end distribution of \$1.28 per share paid in stock. Stockholders were also given the option of receiving the payment in cash. Shares were issued at \$7.94 per share, equal to the net asset value of the Fund on the payable date of January 9, 2008. New shares were issued at net asset value per share, therefore the reinvestment of distributions had no effect on net asset value.

No distribution was declared during the fiscal years ended June 30, 2011 or 2010.

On January 9, 2012, the Fund paid a year-end distribution of \$0.0634 per share in cash.

Dividend Reinvestment Plan

Registered holders (“Stockholders”) of shares of common stock, \$0.001 par value (“Common Stock”) of Herzfeld Caribbean Basin Fund, Inc. (the “Fund”) will automatically be enrolled (“Participants”) in the Fund’s Dividend Reinvestment Plan (the “Plan”) and are advised as follows:

1. State Street Bank & Trust Company (the “Agent”) will act as agent for each Participant. The Agent will open an account for each registered shareholder as a Participant under the Plan in the same name in which such Participant’s shares of Common Stock are registered.
2. CASH OPTION. Pursuant to the Fund’s Plan, unless a holder of Common Stock otherwise elects, all dividend and capital gains distributions payable in cash (“Distributions”) will be automatically reinvested by the Agent in additional Common Stock of the Fund. Stockholders who elect not to participate in the Plan will receive all cash distributions in cash paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name then to such nominee) by the Agent, as dividend paying agent. Stockholders and Participants may elect not to participate in the Plan and to receive all cash distributions of dividends and capital gains in cash by sending written instructions to the Agent, as dividend paying agent, at the address set forth below.
3. MARKET PREMIUM ISSUANCES. If on the payment date for a Distribution, the net asset value per Common Stock is equal to or less than the market price per Common Stock plus estimated brokerage commissions, the Agent shall receive newly issued Common Stock (“Additional Common Stock”) from the Fund for each Participant’s account. The number of Additional Common Stock to be credited shall be determined by dividing the dollar amount of the Distribution by the greater of (i) the net asset value per Common Share on the payment date, or (ii) 95% of the market price per Common Share on the payment date.
4. MARKET DISCOUNT PURCHASES. If the net asset value per Common Stock exceeds the market price plus estimated brokerage commissions on the payment date for a Distribution, the Agent (or a broker-dealer selected by the Agent) shall endeavor to apply the amount of such Distribution on each Participant’s Common Stock to purchase Common Stock on the open market. In the event of a market discount on the payment date, the Agent will have 30 days after the dividend payment date (the “last purchase date”) to invest the dividend amount in shares acquired in open-market purchases. The weighted average price (including brokerage commissions) of all Common Stock purchased by the

Dividend Reinvestment Plan (continued)

Agent as Agent shall be the price per Common Stock allocable to each Participant. If, before the Agent has completed its purchases, the market price plus estimated brokerage commissions exceeds the net asset value of the Common Stock as of the payment date, the purchase price paid by Agent may exceed the net asset value of the Common Stock, resulting in the acquisition of fewer Common Stock than if such Distribution had been paid in Common Stock issued by the Fund. Because of the foregoing difficulty with respect to open-market purchases, the Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent may cease making open-market purchases and may invest the uninvested portion of the dividend amount in newly issued Common Stock at the net asset value per Common Stock at the close of business on the last purchase date. Participants should note that they will not be able to instruct the Agent to purchase Common Stock at a specific time or at a specific price. Open-market purchases may be made on any securities exchange where Common Stock are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the Agent shall determine. Each Participant's uninvested funds held by the Agent will not bear interest. The Agent shall have no liability in connection with any inability to purchase Common Stock within the time provided, or with the timing of any purchases effected. The Agent shall have no responsibility for the value of Common Stock acquired. The Agent may commingle Participants' funds to be used for open-market purchases of the Fund's shares and the price per share allocable to each Participant in connection with such purchases shall be the average price (including brokerage commissions and other related costs) of all Fund shares purchased by Agent. The rules and regulations of the Securities and Exchange Commission may require the Agent to limit the Agent's market purchases or temporarily cease making market purchases for Participants.

5. The market price of Common Stock on a particular date shall be the last sales price on the securities exchange where the Common Stock are listed on that date (currently the NASDAQ Capital Market)(the "Exchange"), or, if there is no sale on the Exchange on that date, then the average between the closing bid and asked quotations on the Exchange on such date will be used. The net asset value per Common Stock on a particular date shall be the amount calculated on that date (or if not calculated on such date, the amount most recently calculated) by or on behalf of the Fund.
6. Whenever the Agent receives or purchases shares or fractional interests for a Participant's account, the Agent will send such Participant a notification of the transaction as soon as practicable. The Agent will hold such shares and fractional interests as such Participant's agent and may hold them in the Agent's name or the name of the Agent's nominee. The Agent will not send a Participant stock certificates for shares unless a Participants so requests in writing or unless a Participant's account is terminated as stated below. The Agent will vote any shares so held for a Participant in accordance with any proxy returned to the Fund by such Participant in respect of the shares of which such Participant is the record holder.

Dividend Reinvestment Plan (continued)

7. There is presently no service charge for the Agent serving as Participants' agent and maintaining Participants' accounts. The Agent may, however, charge Participants for extra services performed at their request. The Plan may be amended in the future to impose a service charge. In acting as Participants' agent under the Plan, the Agent shall be liable only for acts, omissions, losses, damages or expenses caused by the Agent's willful misconduct or gross negligence. In addition, the Agent shall not be liable for any taxes, assessments or governmental charges which may be levied or assessed on any basis whatsoever in connection with the administration of the Plan.
8. The Agent may hold each Participant's Common Stock acquired pursuant to the Plan together with the Common Stock of other Stockholders of the Fund acquired pursuant to the Plan in non-certificated form in the Agent's name or that of the Agent's nominee. Each Participant will be sent a confirmation by the Agent of each acquisition made for his or her account as soon as practicable, but in no event later than 60 days, after the date thereof. Upon a Participant's request, the Agent will deliver to the Participant, without charge, a certificate or certificates for the full Common Stock. Although each Participant may from time to time have an undivided fractional interest in a Common Share of the Fund, no certificates for a fractional share will be issued. Similarly, Participants may request to sell a portion of the Common Stock held by the Agent in their Plan accounts by calling the Agent, writing to the Agent, or completing and returning the transaction form attached to each Plan statement. The Agent will sell such Common Stock through a broker-dealer selected by the Agent within 5 business days of receipt of the request. The sale price will equal the weighted average price of all Common Stock sold through the Plan on the day of the sale, less brokerage commissions. Participants should note that the Agent is unable to accept instructions to sell on a specific date or at a specific price. Any share dividends or split shares distributed by the Fund on Common Stock held by the Agent for Participants will be credited to their accounts. In the event that the Fund makes available to its Stockholders rights to purchase additional Common Stock, the Common Stock held for each Participant under the Plan will be added to other Common Stock held by the Participant in calculating the number of rights to be issued to each Participant.

If a Participant holds more than one Common Stock Certificate registered in similar but not identical names or if more than one address is shown for a Participant on the Fund's records, all of such Participant's shares of Common Stock must be put into the same name and address if all of them are to be covered by one account. Additional shares subsequently acquired by a Participant otherwise than through the Plan will be covered by the Plan.

9. The reinvestment of Distributions does not relieve Participants of any federal, state or local taxes which may be payable (or required to be withheld on Distributions.) Participants will receive tax information annually for their personal records and to help them prepare their federal income tax return. For further information as to tax consequences of participation in the Plan, Participants should consult with their own tax advisors.

Dividend Reinvestment Plan (continued)

10. Each registered Participant may terminate his or her account under the Plan by notifying the Agent in writing at State Street Bank and Trust, P.O. Box 642, Boston, MA 02117-0642, or by calling the Agent at (617) 662-2760. Such termination will be effective with respect to a particular Distribution if the Participant's notice is received by the Agent prior to such Distribution record date. The Plan may be terminated by the Agent or the Fund upon notice in writing mailed to each Participant at least 60 days prior to the effective date of the termination. Upon any termination, the Agent will cause a certificate or certificates to be issued for the full shares held for each Participant under the Plan and cash adjustment for any fraction of a Common Share at the then current market value of the Common Shares to be delivered to him. If preferred, a Participant may request the sale of all of the Common Shares held by the Agent in his or her Plan account in order to terminate participation in the Plan. If any Participant elects in advance of such termination to have Agent sell part or all of his shares, Agent is authorized to deduct from the proceeds the brokerage commissions incurred for the transaction. If a Participant has terminated his or her participation in the Plan but continues to have Common Shares registered in his or her name, he or she may re-enroll in the Plan at any time by notifying the Agent in writing at the address above.
11. These terms and conditions may be amended by the Agent or the Fund at any time but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to each Participant appropriate written notice at least 30 days prior to the effective date thereof. The amendment shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Agent receives notice of the termination of the Participant's account under the Plan. Any such amendment may include an appointment by the Agent of a successor Agent, subject to the prior written approval of the successor Agent by the Fund.
12. These terms and conditions shall be governed by the laws of the State of Maryland.

Discussion Regarding the Approval of the Investment
Advisory Agreement

The Fund's Board of Directors, including a majority of those directors who are not "interested persons" as such term is defined in the 1940 Act ("Independent Directors"), unanimously approved the continuance of the investment advisory agreement between the Fund and the Advisor (the "Agreement") at a meeting held on August 10, 2011.

Before meeting to determine whether to approve the Agreement, the Board had the opportunity to review written materials provided by the Advisor and by legal counsel to the Fund which contained information to help the Board evaluate the Agreement. The materials included (i) a memorandum from the Fund's legal counsel regarding the Directors' responsibilities in evaluating and approving the Agreement, (ii) a letter from the Advisor containing detailed information about the Advisor's services to the Fund, Fund performance, allocation of Fund transactions, compliance and administration information, and the compensation received by the Advisor from the Fund; (iii) a copy of the current investment advisory agreement between the Fund and the Advisor; (iv) audited financial statements for the Advisor for the year-ended December 31, 2010 and unaudited financial statements for the six months ended June 30, 2011; (v) the Advisor's Form ADV Parts I and II; (vi) comparative performance data for the Fund relative to peer funds (small closed-end funds and foreign funds invested in the Latin American region); and (vii) comparative statistics and fee data for the Fund relative to peer funds.

During its deliberations on whether to approve the continuance of the Agreement, the Board considered many factors. The Board considered the nature, extent and quality of the services to be provided by the Advisor and determined that such services will meet the needs of the Fund and its shareholders. The Board reviewed the services provided to the Fund by the Advisor as compared to services provided by other advisors, which manage investment companies with investment objectives, strategies and policies similar to those of the Fund. The Board concluded that the nature, extent and quality of the services provided by the Advisor were appropriate and consistent with the terms of the advisory agreement, that the quality of those services had been consistent with industry norms and that the Fund was likely to benefit from the continued provision of those services. The Board also concluded that the Advisor had sufficient personnel, with the appropriate education and experience, to serve the Fund effectively and had demonstrated its continuing ability to attract and retain qualified personnel.

Both at the meeting and on an ongoing basis throughout the year, the Board considered and evaluated the investment performance of the Fund and reviewed the Fund's performance relative to other investment companies and funds with similar investment objectives, strategies and policies, and its respective benchmark index. The Board considered both the short-term and long-term performance of the Fund noting that the Fund's net asset value performance was in line with, and in some periods higher than, funds used in the comparison. It was also noted that market price performance was slightly lower than the average of funds used in the comparison, reflecting a widening of the Fund's discount level. The board concluded that the performance of the Fund was within an acceptable range of performance relative to other funds with similar investment objectives, strategies and policies.

Discussion Regarding the Approval of the Investment
Advisory Agreement (continued)

The Board considered the costs of the services provided by the Advisor, the compensation and benefits received by the Advisor providing services to the Fund, as well as the Advisor's profitability. In addition, the Board considered any direct or indirect revenues received by affiliates of the Advisor including the commissions paid to the Fund's former affiliated broker/dealer, Thomas J. Herzfeld & Co., Inc. The Board considered the advisory fees paid to the Advisor by the Fund and relevant comparable fee data and statistics of a sampling of small closed-end funds and foreign funds invested in the Latin American region. The Board noted that there are no funds with which to make a direct comparison because of the Fund's unique strategy. The Board also noted that the Fund is considerably smaller than many Latin American regional funds, and, therefore its total expense ratio is relatively higher than funds used in comparison. The Board further discussed the services by the Advisor and concluded that the advisory services performed were efficient and satisfactory and that the fee charged was reasonable and not excessive. The Board concluded that the Advisor's fees and profits derived from its relationship with the Fund in light of its expenses, were reasonable in relation to the nature and quality of the services provided, taking into account the fees charged by other advisors for managing comparable funds with similar strategies. The Directors also concluded that the overall expense ratio of the Fund was reasonable, taking into account the size of the Fund, the quality of services provided by the Advisor, and the investment performance of the Fund.

The Board also considered the extent to which economies of scale would be realized relative to fee levels as the Fund grows, and whether the advisory fee levels reflect these economies of scale for the benefit of shareholders. The Board recognized that because of the closed-end structure of the Fund, and the fact that there is no influx of capital, this particular factor is less relevant to the Fund than it would be to an open-end fund. The Board concluded that only marginal economies of scale could be achieved through the growth of assets since the Fund is closed-ended.

The Board also considered its deliberations regarding the Advisor's services and performance from the regular Board meetings held throughout the year, including the Board's discussion of the Fund's investment objective, long-term performance, investment style and process. The Board noted the high level of diligence with which it reviews and evaluates the Advisor throughout the year and the extensive information provided with respect to Advisor's performance and the Fund's expenses on a quarterly basis. The Board also considered whether there have occurred any events that would constitute a reason not to renew the Agreement and concluded there were not.

After deliberation and further consideration of the factors discussed above and information presented at the August 10, 2011 meeting and at previous meetings of the Board, the Board and the Independent Directors determined to continue the Agreement for an additional one-year period. In arriving at this decision, the Board and the Independent Directors did not identify any single matter, factor or consideration as controlling, but made their determination in light of all the circumstances. The Board based its decision to approve the Agreement on all the relevant factors in light of its reasonable business judgment, and with a view to future long-term considerations.

Results of November 10, 2011 Stockholder Meeting

The annual meeting of stockholders of the Fund was held on November 10, 2011. At the meeting three nominees for Director posts were elected as follows:
