Mr. David Tenwick Chairman of the Board AdCare Health Systems, Inc

Dear Dave,

Thank you for meeting with me on Monday August 12, 2013 to discuss the plan we laid out in the letter I sent you on July 15, 2013. I appreciate your willingness to listen to our ideas and potentially adding me to the Board of Directors of AdCare Health Systems, Inc. ("AdCare" or the "Company").

In this letter, we incorporate your and Boyd's comments on the plan we discussed in our previous letter, accounting for the capitalized rent for the operating company, which Boyd mentioned, as well as the updated information the Company provided in its most recent earnings release. In this letter we also present a REIT conversion scenario that would split the Company into a REIT and an operating company. This plan may be the most favorable outcome because it would result in an even higher value for the real estate, could be more beneficial to shareholders from a tax perspective, and shareholders that remain shareholders in the REIT would receive a sizable dividend.

Our analysis, which is outlined below illustrates that in the REIT conversion scenario, the REIT would be worth \$5.28 per share and pay an annual dividend of \$0.28 per share (5.4% dividend yield). We estimate the operating company would be worth \$6.43 per share, resulting in a combined value of the REIT and the operating company of \$11.71 per share.

We also continue to believe the Company's owned real estate could be sold to a REIT and the Company could pay off its debt and have approximately \$4.03 per share in cash to distribute to shareholders. In addition, we believe that the remaining operating company would be debt free and worth \$6.43 per share, representing a total value of \$10.46 per share.

12400 Coit Road, Suite 800 Dallas, TX 75251 214.954.0333

PARK CITY CAPITAL

We believe the operating company would be worth \$6.43 per share. We continue to believe that management, or perhaps another management team, should easily achieve double digit EBITDAR margins by the fourth quarter of 2013, and should achieve double-digit EBITDA margins over time. Table 1 shows that the Company's peers earned trailing twelve month EBITDAR margins of 12.7%. In addition, Table 1 shows that the Company's peers trade at a mean EV/EBITDAR multiple of 7.5x.

Table 1: Company Peers Trade at 7.5x EBITDAR

| Company | TTM EBITDAR | EV/EBITDAR | TTM EBITDA | EV/EBITDA |
|--------------------|-------------|------------|------------|-----------|
| | Margin | | Margin | |
| Ensign Group | 13.9% | 8.6x | 12.4% | 9.7x |
| Skilled Healthcare | 11.4% | 6.4x | 9.2% | 7.9x |
| Average | 12.7% | 7.5x | 10.8% | 8.8x |
| | | | | |

Source: Company filings and Park City Capital estimates.

Table 2 illustrates at 7.5x EV/EBITDAR, the operating company would be worth \$6.43 per share assuming a revenue run rate of \$230 million and a 12.7% EBITDAR margin.

Table 2: Operating Company Should Trade at \$6.43 per Share

| Sales | \$230,000,000 |
|------------------|---------------|
| EBITDAR Margin | 12.7 % |
| EBITDAR | \$29,210,000 |
| EV/EBITDAR | 7.5 x |
| Enterprise Value | 219,075,000 |
| Cash | 10,928,000 |
| Capitalized Rent | 69,300,000 |
| Market Value | 160,703,000 |
| Shares | 25,000,000 |
| Price | \$6.43 |

Source: Company filings and Park City Capital estimates. Note: This analysis assumes conversion of convertible notes.

In a sale-lease back scenario, we continue to believe the Company's real estate portfolio is worth \$4.03 per share. According to Levin Associates, in 2012 REITs paid an average of \$89,300 per bed for skilled nursing facilities. Table 3 shows that if the Company's owned facilities were sold for \$90,000 per bed, these assets would generate approximately \$242 million. At June 30, 2013, the Company had total debt (excluding the convertible notes) of approximately \$141 million. If the Company were to use the proceeds to pay back all of its debt (excluding the convertible notes), it would have approximately \$101 million (\$4.03 per share) to distribute to shareholders in a special one-time dividend.

PARK CITY CAPITAL

In a REIT conversion scenario, we estimate the REIT would be worth \$5.28 per share and would pay a \$0.28 per share annual dividend, representing a 5.4% annual dividend yield. In this scenario, the combined value of the REIT and the operating company would be \$11.71 per share. As mentioned above, this plan may be the most favorable outcome because it would result in an even higher value for the real estate, could be more beneficial to shareholders from a tax perspective, and shareholders that remain shareholders in the REIT would receive a sizable dividend.

Table 4 illustrates how the REIT would be able to pay a \$0.28 annual dividend per share assuming a 9% capitalization rate and the aforementioned \$90,000 value per bed. We annualized the Company's second quarter of 2013 interest expense and applied a 6.0% of rental income G&A expense, which is in-line with peers. In an effort to triangulate rental income from multiple calculations, in Table 5, we calculated the rental income for the REIT using a coverage ratio of 1.3x.

AdCare is at a defining moment and I challenge you to take action. As Chairman, you have a unique opportunity and obligation to maximize shareholder value. The shareholders are depending on you and we are confident that you will do the right thing. I'll remind you that when we met we spoke a lot about how in hindsight there were many mistakes that have been made over the past couple years. When weighing the decisions and alternatives that are currently in front of you, we urge you to look into the future and make them with the benefit of what you might know 12 months from now. Now is the time for action!

Sincerely, /s/ Michael Fox Michael Fox Founder and CEO Park City Capital, LLC
