SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition period from _____ to _____

Commission file number 1-08951

M.D.C. HOLDINGS, INC.

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer

Non-Accelerated Filer (Do not check if a smaller reporting company) Smaller Reporting Company

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of June 30, 2014, the aggregate market value of the Registrants' common stock held by non-affiliates of the Registrants was \$1.2 billion based on the closing sales price of \$30.29 per share as reported on the New York Stock Exchange on June 30, 2014.

As of December 31, 2014, the number of shares outstanding of Registrant's common stock was 48,831,639.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of part III of this Form 10-K are incorporated by reference from the Registrant's 2014 definitive proxy statement to be filed with the Securities and Exchange Commission no later than 120 days after the end of the Registrant's fiscal year.

PART I

Forward-Looking Statements

Certain statements in this Annual Report on Form 10-K, as well as statements made by us in periodic press releases, oral statements made by our officials in the course of presentations about the Company and conference calls in connection with quarterly earnings releases, constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding our business, financial condition, results of operation, cash flows, strategies and prospects. These forward-looking statements may be identified by terminology such as “likely,” “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential” or “continue,” or the negative of such terms and other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements contained in this Report are reasonable, we cannot guarantee future results. These statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by the forward-looking statements. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in subsequent reports on Forms 10-K, 10-Q and 8-K should be considered.

Item 1. Business.

(a) General Development of Business

M.D.C. Holdings, Inc. is a Delaware corporation. We refer to M.D.C. Holdings, Inc. as the “Company,” “MDC,” “we” or “our” in this Annual Report on Form 10-K, and these designations include our subsidiaries unless we state otherwise. We have two primary operations, homebuilding and financial services. Our homebuilding operations consist of wholly-owned subsidiary companies that generally purchase finished lots or develop lots to the extent necessary for the construction and sale primarily of single-family detached homes to first-time and first-time move-up homebuyers under the name “Richmond American Homes.” Our homebuilding operations are comprised of various homebuilding

divisions that we consider to be our operating segments. For financial reporting, we have aggregated our homebuilding operating segments into reportable segments as follows: (1) West (Arizona, California, Nevada and Washington); (2) Mountain (Colorado and Utah); and (3) East (Virginia, Florida, Illinois and Maryland, which includes Pennsylvania, Delaware, and New Jersey).

Our financial services operations primarily consist of HomeAmerican Mortgage Corporation (“HomeAmerican”), which originates mortgage loans primarily for our homebuyers; Allegiant Insurance Company, Inc., A Risk Retention Group (“Allegiant”), which provides insurance coverage primarily to our homebuilding subsidiaries and certain subcontractors for homes sold by our homebuilding subsidiaries and for work performed in completed subdivisions; StarAmerican Insurance Ltd., which is a re-insurer on Allegiant claims; American Home Insurance Agency, Inc., which offers third-party insurance products to our homebuyers; and American Home Title and Escrow Company, which provides title agency services to our homebuilding subsidiaries and our customers in certain states. For financial reporting, we have aggregated our financial services operating segments into reportable segments as follows: (1) mortgage operations (represents HomeAmerican only) and (2) other (all remaining operating segments).

(b) Available Information

We make our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, available free of charge on our website as soon as reasonably practicable after we file or furnish the materials electronically with the Securities and Exchange Commission (“SEC”). To obtain any of this information, go to our website, <http://ir.richmondamerican.com>, and select “SEC Filings.” Our website includes our: (1) Corporate Governance Guidelines; (2) Corporate Code of Conduct; (3) Rules for Senior Financial Officers; (4) Audit Committee Procedures for Handling Confidential Complaints; and (5) charters for the Audit, Compensation and Corporate Governance/Nominating Committees. These materials may also be obtained, free of charge, at <http://ir.richmondamerican.com> (select “Corporate Governance”).

(c) Financial Information About Industry Segments

Note 3 to the Consolidated Financial Statements contains information regarding our reportable segments for each of the years ended December 31, 2014, 2013 and 2012.

(d) Narrative Description of Business

Our business consists of two primary operations, homebuilding and financial services. Our homebuilding subsidiaries build and sell primarily single-family detached homes that are designed and built to meet local customer preferences. Each homebuilding subsidiary is the general contractor for its projects and retains subcontractors for land development and home construction. Our homebuilding subsidiaries build a variety of home styles in each of their markets, targeting primarily first-time and first-time move-up homebuyers.

For 2014, the percentage of our home deliveries and home sale and land sale revenues by state were as follows:

	Percentage of Deliveries	%	Percentage of Home Sale Revenues	%
Arizona	17	%	12	%
California	14	%	18	%
Nevada	13	%	11	%
Washington	6	%	6	%
West	50	%	47	%
Colorado	27	%	29	%
Utah	4	%	3	%
Mountain	31	%	32	%
Maryland	7	%	9	%
Virginia	5	%	7	%
Florida	7	%	5	%
East	19	%	21	%
Total	100	%	100	%

Our financial services operations include subsidiary companies that provide mortgage financing, place title insurance and homeowner insurance for our homebuyers, and provide general liability insurance for our subsidiaries and most of

our subcontractors.

Homebuilding Operations

Operating Divisions. The primary functions of our homebuilding segments include land acquisition and development, home construction, sales and marketing, and customer service. Operating decisions are made by our local management teams under the oversight of our Chief Operating Decision Maker (“CODM”), or decision-making group, defined as two key executives - our Chief Executive Officer and Chief Operating Officer. Our organizational structure (i.e., the grouping and reporting of divisions) changes based upon the current needs of the Company. We had 10 active homebuilding operating divisions at the end of each year ended December 31, 2014, 2013 and 2012.

Corporate Management. Our homebuilding business is managed primarily through members of senior management in our Corporate segment and our Asset Management Committees (“AMCs”). Each AMC is comprised of the Chief Operating Officer and three of our corporate officers. All real estate acquisition transactions are reviewed to ensure the transaction achieves the land strategies set forth by our CODM and must be approved by one of the AMCs. Generally, the role of our senior management team and/or AMC includes:

- review and approval of division business plans and budgets;
- oversight of land and home inventory levels;
- review of major personnel decisions; and
- review of capital allocation decisions.

Additionally, our corporate executives and corporate departments generally are responsible for establishing and monitoring compliance with our policies and procedures. Among other things, the corporate office has primary responsibility for:

- asset management and capital allocation;
- treasury;
- insurance and risk management;
- merchandising and marketing;
- national purchasing contracts;
- accounting, tax and internal audit functions;
- legal matters;
- human resources and payroll;
- information technology; and
- training and development.

Housing. Generally, our homebuilding subsidiaries build single-family detached homes in a number of standardized series, designed to provide variety in the size and style of homes for our potential homebuyers. In certain markets, our homebuilding subsidiaries build and sell attached townhomes. Within each series for our single-family detached homes, our homebuilding subsidiaries build several different floor plans offering standard and optional features (such as upgraded appliances, cabinetry, flooring, etc.). Differences in sales prices of similar models from market-to-market depend primarily upon homebuyer demand, home prices offered by our competitors, market conditions (such as home inventory supply levels), location, cost of land, optional features and design specifications. The series of homes offered at a particular location is based on perceived customer preferences, lot size, area demographics and, in certain cases, the requirements of major land sellers and local municipalities. We monitor levels of inventories of speculative homes (defined as homes under construction without a sales contract) in our markets in order to increase returns based on market demand. Speculative homes in various stages of completion allow us to meet the immediate and near-term demands of prospective homebuyers.

Land Acquisition and Development. Our homebuilding subsidiaries acquire our lots with the intention of constructing and selling homes on the acquired land. Generally, we prefer to purchase finished lots using option contracts, in phases or in bulk for cash. However, we do acquire entitled land for development into finished lots when we believe that the risk is justified. In making land purchases, we consider a number of factors, including projected rates of return, estimated gross margins from home sales, sales prices of the homes to be built and mortgage loan limits within the respective county, population and employment growth patterns, proximity to developed areas, estimated cost and complexity of development including environmental and geological factors, quality of schools, estimated levels of competition and demographic trends. Our homebuilding subsidiaries attempt to maintain a supply of finished lots sufficient to enable them to start homes promptly after a contract for a home sale is executed. See “**Forward-Looking Statements**” above.

In their option contracts, our homebuilding subsidiaries generally obtain the right to purchase lots in consideration for an option deposit in the form of cash or letters of credit. In the event they elect not to purchase the lots within a

specified period of time, they may be required to forfeit the option deposit. Our option contracts do not contain provisions requiring our specific performance.

Our homebuilding subsidiaries may own or have the right under option contracts to acquire undeveloped parcels of real estate that they intend to develop into finished lots. They generally develop our land in phases in order to limit our risk in a particular subdivision and to efficiently employ available capital resources. Generally, building permits and utilities are available and zoning is suitable for the current intended use of substantially all of our undeveloped land. When developed, these lots generally will be used in our homebuilding activities. See “**Forward-Looking Statements**” above.

Labor and Raw Materials. Materials used in our homebuilding operations are mainly standard items carried by major suppliers. We generally contract for our materials and labor at a fixed price for the anticipated construction period of our homes. This allows us to mitigate the risks associated with increases in the cost of building materials and labor between the time construction begins on a home and the time it is closed. Increases in the cost of building materials and subcontracted labor may reduce gross margins from home sales to the extent that market conditions prevent the recovery of increased costs through higher home sales prices. From time to time and to varying degrees, we may experience shortages in the availability of building materials and/or labor in each of our markets. These shortages and delays may result in delays in the delivery of homes under construction, reduced gross margins from home sales, or both. See “**Forward-Looking Statements**” above.

Warranty. Our homebuilding subsidiaries sell their homes with limited third-party warranties that generally provide for ten years of structural coverage, two years of coverage for plumbing, electrical, heating, ventilation and air conditioning systems, and one year of coverage for workmanship and materials. Under our agreement with the issuer of the third-party warranties, our homebuilding subsidiaries perform all of the work for the first two years of the warranty coverage and pay for substantially all of the work required to be performed during years three through ten of the warranties.

Seasonal Nature of Business. The homebuilding industry can experience noticeable seasonality and quarter-to-quarter variability in homebuilding activity levels. The seasonal nature of our business is described in more detail in our description of Risk Factors under the heading “*Because of the seasonal nature of our business, our quarterly operating results can fluctuate.*”

Backlog. At December 31, 2014 and 2013, homes under contract but not yet delivered (“backlog”) totaled 1,519 and 1,262, respectively, with an estimated sales value of \$663 million and \$506 million, respectively. We anticipate that homes in backlog at December 31, 2014 generally will close during 2015 under their existing home order contracts or through the replacement of an existing contract with a new home order contract. The estimated backlog sales value at December 31, 2014 may be impacted by, among other things, subsequent home order cancellations and incentives provided, and options and upgrades selected after December 31, 2014. See “**Forward-Looking Statements**” above.

Customer Service and Quality Control. Our homebuilding divisions are responsible for pre-closing quality control inspections and responding to customers’ post-closing needs. We have a product service and quality control program, focused on improving and/or maintaining the quality of our customers’ complete home buying and homeownership experience.

Sales and Marketing. Our sales and marketing programs are designed to attract homebuyers in a cost effective manner. We have a centralized in-house advertising and marketing department that oversees our efforts to communicate the inherent value of our homes to our prospective homebuyers and distinguish our Richmond American Homes brand from our competitors or other home buying opportunities. The main objective of this team is to generate homebuyer leads, which are actively pursued by our community sales associates. Our in-house merchandising team furnishes our model homes and sales offices.

Another important part of our marketing presentation takes place in our design centers (also known as Home Galleries). Here, homebuyers are able to personalize their homes with a variety of options and upgrades. These locations also serve as an information center for prospective home buyers and real estate agents who may opt to receive personalized attention from one of our new home specialists, resulting in a more focused and efficient home search across all of our Richmond American communities in a given market place. We believe that the services provided by our Home Galleries represent a key competitive advantage in dealing with prospective homebuyers.

Competition. The homebuilding industry is fragmented and highly competitive. The competitive nature of our business is described in more detail in our description of Risk Factors.

Regulation. Our homebuilding operations are subject to compliance with applicable laws and regulations, which are described in more detail in our description of Risk Factors.

Financial Services Operations

Mortgage Lending Operations

General. HomeAmerican is a full-service mortgage lender and the principal originator of mortgage loans for our homebuyers. HomeAmerican has a centralized loan processing center where it originates mortgage loans, primarily for our homebuyers.

HomeAmerican is authorized to originate Federal National Mortgage Association (“Fannie Mae”), Federal Home Loan Mortgage Corporation (“Freddie Mac”) (together “the government-sponsored enterprises”), Federal Housing Administration-insured (“FHA”), and Veterans Administration-guaranteed (“VA”) mortgages and is an authorized issuer of Government National Mortgage Association (“Ginnie Mae”) mortgage-backed securities. HomeAmerican also is an authorized loan servicer for Fannie Mae, Freddie Mac and Ginnie Mae and, as such, is subject to the rules and regulations of these entities. Additionally, HomeAmerican is approved to sell loans to various private investors.

HomeAmerican uses a mortgage repurchase facility, internally generated funds, and temporary financing provided by its parent, to finance the origination of mortgage loans until they are sold. HomeAmerican sells originated mortgage loans to third-party purchasers on either a bulk or flow basis. Mortgage loans sold on a bulk basis include the sale of a package of substantially similar originated mortgage loans, while sales of mortgage loans on a flow basis are completed as HomeAmerican originates each loan. Mortgage loans sold to third-party purchasers include HomeAmerican’s representations and warranties with respect to certain borrower payment defaults, credit quality issues and/or misrepresentations made by HomeAmerican or our homebuyers. Substantially all of the mortgage loans originated by HomeAmerican are sold to third-party purchasers generally within 15 to 40 days of origination.

Pipeline. HomeAmerican’s mortgage loans in process for which a rate and price commitment had been made to a borrower that had not closed (the “locked pipeline”) at December 31, 2014 and 2013 had an aggregate principal balance of approximately \$42.8 million and \$69.8 million, respectively, and were under interest rate lock commitments at an average interest rate of 3.69% and 4.13%, respectively.

Forward Sales Commitments. HomeAmerican is exposed to market risks related to fluctuations in interest rates. HomeAmerican creates certain derivative instruments in the normal course of business, which primarily include commitments to originate mortgage loans (interest rate lock commitments or locked pipeline). HomeAmerican uses forward sales of mortgage-backed securities and commitments from third-parties to purchase loans to hedge the interest rate risk inherent with the locked pipeline, as well as its loan inventory held for sale. The market related risks in our business are described in more detail in our description of Risk Factors.

Competition. HomeAmerican competes with other mortgage bankers to arrange financing for our homebuyers. The significant decline in demand for re-financings during 2013 resulted in increased competition from other mortgage bankers for mortgage originations and this has continued during 2014.

The mortgage industry has been de-consolidating with a number of smaller non-bank entities entering the third-party purchaser space. These new entrants can offer HomeAmerican better prices and a potentially wider array of product options which has served to mitigate some of the competitive issues that HomeAmerican faced when the mortgage market was less fragmented. The competitive nature of our business is described in more detail in our description of Risk Factors.

Regulation. Our mortgage lending operations are subject to compliance with applicable laws and regulations, which are described in more detail in our description of Risk Factors.

Insurance Operations

General. Our insurance operations consist of three business divisions: (1) Allegiant; (2) StarAmerican; and (3) American Home Insurance.

Allegiant and StarAmerican were formed to provide insurance coverage of homebuilding risks for our homebuilding subsidiaries and certain of our homebuilding subcontractors. Allegiant was organized as a risk retention group under the Federal Liability Risk Retention Act of 1981. Allegiant, which began operations in June of 2004, is licensed as a Class 3 Stock Insurance Company by the Division of Insurance of the State of Hawaii and is subject primarily to the regulations of its state of incorporation. StarAmerican is a single parent captive insurance company licensed by the Division of Insurance of the State of Hawaii and is a wholly-owned subsidiary of MDC. Pursuant to agreements beginning in June 2004, StarAmerican re-insures Allegiant for all claims in excess of \$50,000 per occurrence up to \$3.0 million per occurrence, subject to various aggregate limits.

Allegiant generates premium revenue generally by providing to its customers, comprised of the Company's homebuilding subsidiaries and certain subcontractors of the Company's homebuilding subsidiaries, general liability insurance on homes sold by our homebuilding subsidiaries and for work performed in completed subdivisions. Allegiant seeks to provide to its customers coverage and insurance rates that are competitive with other insurers. StarAmerican generates premium revenue by providing re-insurance coverage to Allegiant. Allegiant and StarAmerican incur expenses for actual losses and loss adjustment expenses and for reserves established based on actuarial studies including known facts, such as our experience with similar insurance cases and historical trends involving insurance claim payment patterns, pending levels of unpaid insurance claims, claim severity, claim frequency patterns and interpretations of circumstances including changing regulatory and legal environments.

Regulation. Allegiant and StarAmerican are licensed in the State of Hawaii and, therefore, are subject to regulation by the Hawaii Insurance Division. This regulation includes restrictions and oversight regarding: types of insurance provided; investment options; required capital and surplus; financial and information reporting; use of auditors, actuaries and other service providers; periodic examinations; and other operational items. Additionally, as a risk retention group, Allegiant also is registered in other states where certain MDC homebuilding subsidiaries do business.

American Home Insurance is an insurance agency that sells primarily personal property and casualty insurance products in the same markets as our homebuilding subsidiaries and primarily to our homebuyers.

Title Operations

American Home Title provides title agency services to the Company and its homebuyers in Colorado, Florida, Maryland, Nevada and Virginia.

Employees.

The table below summarizes the approximate number of employees for our combined Homebuilding, combined Financial Services and Corporate segments at December 31, 2014 and 2013.

	December 31,	
	2014	2013
Homebuilding	843	800

Financial Services	104	99
Corporate	193	212
Total	1,140	1,111

Item 1A. Risk Factors.

Changes in general economic, real estate and other business conditions may have an adverse effect on the homebuilding and mortgage industries, which could have a negative impact on our business.

The homebuilding industry is cyclical and is significantly affected by changes in industry conditions, as well as in general economic conditions at a national, regional and local level, such as:

- employment levels;
- availability of financing for homebuyers;
- interest rates;
- consumer confidence;
- levels of new and existing homes for sale;
- cost of land, labor and construction materials;
- demographic trends; and
- housing demand.

These conditions may exist on a national level or may affect some of the regions or markets in which we operate more than others. When adverse conditions affect any of our larger markets, they could have a proportionately greater

impact on us than on some other homebuilding companies.

Changes to monetary policy or other actions by the Federal Reserve could have an adverse effect on interest rates (including mortgage interest rates), equity markets and consumer confidence. Such effects could cause us to experience declines in the market value of our inventory and the demand for our homes, resulting in a negative impact to our financial position, results of operations and cash flows.

An oversupply of alternatives to new homes, including foreclosed homes, homes held for sale by investors and speculators, other existing homes, and rental properties, can also reduce our ability to sell new homes, depress new home prices and reduce our margins on the sale of new homes. High levels of foreclosures and short-sales not only contribute to additional inventory available for sale, but also can reduce appraisal valuations for new homes, potentially resulting in lower sales prices.

Continued military deployments, terrorist attacks, other acts of violence or threats to national security, and any corresponding response by the United States or others, or related domestic or international instability, may adversely affect general economic conditions or cause a slowdown of the economy.

The impact of the Affordable Care Act remains uncertain and may adversely affect individuals and businesses, which could negatively impact homebuyer discretionary spending and demand for new homes.

As a result of the foregoing matters, potential customers may be less willing or able to buy our homes. In the future, our pricing strategies may continue to be limited by market conditions. We may be unable to change the mix of our home offerings, reduce the costs of the homes we build or offer more affordable homes to maintain our gross margins or satisfactorily address changing market conditions in other ways. In addition, cancellations of home sales contracts in backlog may increase as homebuyers choose to not honor their contracts.

Additionally, the factors discussed above may increase our counterparty risk, which may include, among others, banks under our credit facilities and mortgage purchasers who may not be willing or able to perform on obligations to us. To the extent a third-party is unable or unwilling to meet its obligations, our financial position, results of operations and cash flows could be negatively impacted.

Our financial services business is closely related to our homebuilding business, as it originates mortgage loans principally to purchasers of the homes we build. Therefore, a decrease in the demand for our homes because of the preceding matters may also adversely affect the financial results of this segment of our business. Furthermore, any adverse changes in the economic conditions discussed previously could increase the default rate on the mortgages we originate, which may adversely affect our ability to sell the mortgages, the pricing we receive upon the sale of mortgages, or our potential exposure to recourse regarding mortgage loan sales.

These challenging conditions are complex and interrelated. We cannot predict their occurrence or severity, nor can we provide assurance that our responses would be successful.

Increased competition levels in the homebuilding and mortgage lending industries could have a negative impact on our homebuilding and mortgage operations.

The homebuilding industry is fragmented and highly competitive. Our homebuilding subsidiaries compete with numerous public and private homebuilders, including a number that are substantially larger than us and may have greater financial resources than we do. Our homebuilding subsidiaries also compete with subdivision developers and land development companies, some of which are themselves homebuilders or affiliates of homebuilders. Homebuilders compete for customers, land, building materials, subcontractor labor and desirable financing. Competition for home orders is based primarily on home sales price, location of property, home style, financing available to prospective homebuyers, quality of homes built, customer service and general reputation in the community, and may vary market-by-market and/or submarket-by-submarket. Additionally, competition within the homebuilding industry can be impacted by an excess supply of new and existing homes available for sale resulting from a number of factors, including, among other things, increases in the number of new home communities, increases in speculative homes available for sale and increases in home foreclosures. Increased competition can result in a decrease in our net new home orders, a decrease in our home sales prices and/or an increase in our home sales incentives in an effort to generate new home sales and maintain homes in backlog until they close. These competitive pressures may negatively impact our financial position, results of operations and cash flows.

Through our mortgage lending subsidiary, HomeAmerican, we have seen an increased level of competition with numerous banks and other mortgage bankers and brokers, many of which are larger than us and may have greater financial resources than we do. Competitive factors include pricing, mortgage loan terms, underwriting criteria and customer service. To the extent that we continue to see increased competition with other companies that originate mortgage loans, the financial position, results of operations and cash flows of our mortgage operations may be negatively impacted.

If land is not available at reasonable prices or terms, we could be required to scale back our operations in a given market and/or we may operate at lower levels of profitability.

Our operations depend on our homebuilding subsidiaries' ability to obtain land for the development of our residential communities at reasonable prices and with terms that meet our underwriting criteria. Our ability to obtain land for new residential communities may be adversely affected by changes in the general availability of land, the willingness of land sellers to sell land at reasonable prices, competition for available land, availability of financing to acquire land, zoning, regulations that limit housing density, and other market conditions. If the supply of land, and especially finished lots, appropriate for development of residential communities continues to be limited because of these factors, or for any other reason, the number of homes that our homebuilding subsidiaries build and sell may decline. To the

extent that we are unable to timely purchase land or enter into new contracts for the purchase of land at reasonable prices, due to the lag time between the time we acquire land and the time we begin selling homes, we may be required to scale back our operations in a given market and/or we may operate at lower levels of profitability, and as a result our financial position, results of operations and cash flows could be negatively impacted.

Supply shortages and other risks related to the demand for skilled labor and building materials could increase costs and delay deliveries.

The residential construction industry experiences price fluctuations and shortages in labor and materials from time to time. Shortages in labor can be due to: work stoppages, labor disputes, shortages in qualified trades people, lack of availability of adequate utility infrastructure and services, or our need to rely on local subcontractors who may not be adequately capitalized or insured. Labor and material shortages can be more severe during periods of strong demand for housing or during periods in which the markets where we operate experience natural disasters that have a significant impact on existing residential and commercial structures. Additionally, we could experience labor shortages as a result of subcontractors going out of business or leaving the residential construction market due to low levels of housing production and volumes. Pricing for labor and materials can be affected by the factors discussed above, changes in energy prices, and various other national, regional and local economic factors. Any of these circumstances could give rise to delays in the start or completion of our residential communities, increase the cost of developing one or more of our residential communities and/or increase the construction cost of our homes.

We generally are unable to pass on increases in construction costs to customers who have already entered into sales contracts, as those sales contracts fix the price of the homes at the time the contracts are signed, which may be in advance of the construction of the home. To the extent that market conditions prevent the recovery of increased costs, including, among other things, subcontracted labor, finished lots, building materials, and other resources, through higher selling prices, our financial position, cash flows and operating results, including our gross margin from home sales, could be negatively impacted.

If mortgage interest rates rise, if down payment requirements are increased, if loan limits are decreased, or if mortgage financing otherwise becomes less available, it could adversely affect our business.

Mortgage liquidity influenced by governmental entities or government-sponsored enterprises (“GSEs”) like the FHA, VA, USDA, Fannie Mae, Freddie Mac and Ginnie Mae continue to be an important factor in marketing our homes. Financial losses or other factors may limit, restrict or otherwise curtail their ability or willingness to insure mortgage loans, offer insurance at rates and on terms that are not prohibitive, or purchase mortgage loans. Should this occur, it may negatively impact the availability of mortgage financing and our sales of new homes.

Beginning in 2014, new regulations took effect that, among other things, capped the fees and placed additional restrictions on what our mortgage company and its affiliates may collect, limit the types of loans our mortgage company may originate and place additional restrictions on loans that are sold to entities such as Fannie Mae, Freddie Mac, and Ginnie Mae, insured by the FHA or guaranteed by the VA. The ultimate impact of these changes is uncertain and may have a negative impact on our financial position, results of operations and cash flows.

We believe that the liquidity provided by Fannie Mae, Freddie Mac and Ginnie Mae to the mortgage industry has been very important to the housing market. The future of Fannie Mae and Freddie Mac are in question and any reduction in the availability of the liquidity provided by these institutions could adversely affect interest rates, mortgage availability and our sales of new homes and mortgage loans.

Loans sold to or insured by the GSEs are subject to various loan limits. Decreases in these loan limits may require homebuyers to make larger down payments or obtain more restrictive non-conforming or “jumbo” mortgages, which could adversely impact on our financial position, results of operations and cash flows.

Even if potential customers do not need financing, changes in the availability of mortgage products may make it harder for them to sell their current homes to potential buyers who need financing.

If interest rates increase, the costs of owning a home may be affected and could result in further reductions in the demand for our homes.

Expirations, amendments or changes to tax laws, incentives or credits currently available to our customers may negatively impact our business.

Many homeowners receive substantial tax benefits in the form of tax deductions against their personal taxable income for mortgage interest and property tax payments and the loss or reduction of these deductions could affect homeowners' net cost of owning a home. Significant changes to existing tax laws that currently benefit homebuyers, such as the ability to deduct mortgage interest and real property taxes, may result in an increase in the total cost of home ownership and may make the purchase of a home less attractive to buyers. This could adversely impact demand for and/or sales prices of new homes, which would have a negative impact on our business.

Increases in our cancellations could have a negative impact on our business.

Home order cancellations can result from a number of factors, including declines in the market value of homes, increases in the supply of homes available to be purchased, increased competition, higher mortgage interest rates, homebuyers' inability to sell their existing homes, homebuyers' inability to obtain suitable financing, including providing sufficient down payments, and adverse changes in economic conditions.

Increased levels of home order cancellations could have a negative impact on our financial position, results of operations and cash flows.

A decline in the market value of our homes or carrying value of our land would have a negative impact on our business.

Our homebuilding subsidiaries acquire land for the replacement of land inventory and/or expansion within our current markets and may, from time to time, purchase land for expansion into new markets. The fair value of our land and land under development inventory and housing completed or under construction inventory depends on market conditions. Factors that can impact our determination of the fair value of our inventory primarily include home sales prices, levels of home sales incentives and home construction and land costs. Our home sales prices and/or levels of home sales incentives can be impacted by, among other things, uncertainty in the homebuilding and mortgage industries or the United States / global economy overall, decreased demand for new homes, decreased home prices offered by our competitors, home foreclosure and short-sale levels, decreased ability of our homebuyers to obtain suitable mortgage loan financing and high levels of home order cancellations. Under such circumstances, we may be required to record impairments of our inventory. Any such inventory impairments would have a negative impact on our financial position and results of operations.

Natural disasters could cause an increase in home construction costs, as well as delays, and could negatively impact our business.

The climates and geology of many of the markets in which we operate present increased risks of natural disasters. To the extent that hurricanes, severe storms, earthquakes, droughts, floods, heavy or prolonged precipitation, wildfires or other natural disasters or similar events occur, the financial position, results of operations and cash flows of our business may be negatively impacted.

Change in energy prices may have an adverse effect on the economies in certain markets we operate in and our cost of building homes.

The economies of some of the markets in which we operate are impacted by the health of the energy industry. To the extent that energy prices significantly change, the economies of certain of our markets may be negatively impacted which may adversely impact the financial position, results of operations and cash flows of our business. Furthermore, pricing offered by our suppliers and subcontractors can be adversely affected by increases in various energy costs resulting in a negative impact to our financial position, results of operations and cash flows of our business.

We have financial needs that we meet through the capital markets, including the debt and secondary mortgage markets, and disruptions in these markets could have an adverse impact on the results of our business.

We have financial needs that we meet through the capital markets, including the debt and secondary mortgage markets. Our requirements for additional capital, whether to finance operations or to service or refinance our existing indebtedness, fluctuate as market conditions and our financial performance and operations change. We cannot provide assurance that we will maintain cash reserves and generate sufficient cash flow from operations in an amount to enable us to service our debt or to fund other liquidity needs.

The availability of additional capital, whether from private capital sources or the public capital markets, fluctuates as our financial condition and market conditions in general change. There may be times when the private capital markets and the public debt or equity markets lack sufficient liquidity or when our securities cannot be sold at attractive prices, in which case we would not be able to access capital from these sources. Our public debt was downgraded by a rating agency in 2014. This, combined with any further reduction in our credit rankings and/or a weakening of our financial condition, could adversely affect our ability to obtain necessary funds. Even if financing is available, it could be costly or have other adverse consequences.

In addition, the sources and terms and conditions of warehouse financing and mortgage repurchase arrangements and other lending arrangements for the mortgage lending industry are subject to change. These changes may impact, among other things, availability of capital, terms and structures for debt and line of credit agreements, collateral requirements and collateral advance rates.

Our business is subject to numerous federal, local and state laws and regulations concerning land development, construction of homes, sales, mortgage lending, environmental and other aspects of our business. These laws and regulations could give rise to additional liabilities or expenditures, or restrictions on our business.

Our operations are subject to continuing compliance requirements mandated by applicable federal, state and local statutes, ordinances, rules and regulations, including zoning and land use ordinances, building, plumbing and electrical codes, contractors' licensing laws, state insurance laws, federal and state human resources laws and regulations and health and safety laws and regulations. Various localities in which we operate have imposed (or may impose in the future) fees on developers to fund schools, road improvements and low and moderate-income housing.

Availability of and costs related to permit, water/sewer tap, and impact fees can impact our homebuilding operations. From time to time, various municipalities in which our homebuilding subsidiaries operate restrict or place moratoria on the availability of utilities, including water and sewer taps. Additionally, certain jurisdictions in which our homebuilding subsidiaries operate have proposed or enacted “slow growth” or “no growth” initiatives and other measures that may restrict the number of building permits available in any given year. These initiatives or other slow or no growth measures could reduce our ability to open new subdivisions and build and sell homes in the affected markets. The availability issues previously discussed and any increases in costs of these fees may negatively impact our financial position, results of operations and cash flows.

Our homebuilding operations also are affected by environmental laws and regulations pertaining to availability of water, municipal sewage treatment capacity, stormwater discharges, land use, hazardous waste disposal, dust controls, building materials, population density and preservation of endangered species, natural terrain and vegetation.

The particular environmental laws and regulations that apply to any given homebuilding project vary greatly according to a particular site’s location, the site’s environmental conditions and the present and former uses. These environmental laws may result in project delays, cause us to incur substantial compliance and other costs and/or prohibit or severely restrict homebuilding activity in certain environmentally sensitive locations.

We also are subject to rules and regulations with respect to originating, processing, selling and servicing mortgage loans, which, among other things: prohibit discrimination and establish underwriting guidelines; provide for audits and inspections; require appraisals and/or credit reports on prospective borrowers and disclosure of certain information concerning credit and settlement costs; establish maximum loan amounts; prohibit predatory lending practices; and regulate the referral of business to affiliated entities. The turmoil caused by the increased number of defaults in subprime and other mortgages during the last industry downturn has encouraged ongoing consumer lawsuits and the investigation of financial services industry practices by governmental authorities. These investigations have included the examination of consumer lending practices, sales of mortgages to financial institutions and other investors and the practices in the financial services segments of homebuilding companies. New rules and regulations or revised interpretations of existing rules and regulations applicable to our mortgage lending operations could result in more stringent compliance standards, which may substantially increase costs of compliance.

In the ordinary course of business, we are required to obtain surety bonds, the unavailability of which could adversely affect our business.

As is customary in the homebuilding industry, we often are required to provide surety bonds to secure our performance under construction contracts, development agreements and other arrangements. Our ability to obtain surety bonds primarily depends upon our credit rating, capitalization, working capital, past performance, management expertise and certain external factors, including the overall capacity of the surety market and the underwriting practices of surety bond issuers. The ability to obtain surety bonds also can be impacted by the willingness of

insurance companies to issue surety bonds. If we were unable to obtain surety bonds when required, our financial position, results of operations and cash flows could be adversely impacted.

Decreases in the market value of our investments in marketable securities could have an adverse impact on our business.

We have a material amount of investments in marketable securities, the market value of which is subject to changes from period to period. Decreases in the market value of our marketable securities could have an adverse impact on our financial position, results of operations and cash flows.

Product liability litigation and warranty claims that arise in the ordinary course of business may be costly.

As a homebuilder, we are subject to construction defect and home warranty claims, as well as claims associated with the sale and financing of our homes arising in the ordinary course of business. These types of claims can be costly. The costs of insuring against or directly paying for construction defect and product liability claims can be high and the amount of coverage offered by insurance companies may be limited. If we are not able to obtain adequate insurance against these claims, we may incur additional expenses that would have a negative impact on our results of operations in future reporting periods. Additionally, changes in the facts and circumstances of our pending litigation matters could have a material impact on our financial position, results of operations and cash flows.

Repurchase requirements associated with HomeAmerican's sale of mortgage loans, could negatively impact our business.

We are subject to risks associated with mortgage loans, including conventional mortgage loans, FHA and VA mortgage loans, previously originated and sold Alt-A and sub-prime mortgage loans, second mortgage loans, high loan-to-value mortgage loans and jumbo mortgage loans (mortgage loans with principal balances that exceed various thresholds in our markets). These risks may include, among other things, compliance with mortgage loan underwriting criteria and the associated homebuyers' performance, which could require HomeAmerican to repurchase certain of those mortgage loans or provide indemnification. Repurchased mortgage loans and/or the settlement of claims associated with such loans could have a negative impact on HomeAmerican's financial position, results of operations and cash flows.

Because of the seasonal nature of our business, our quarterly operating results can fluctuate.

We may experience noticeable seasonality and quarter-to-quarter variability in homebuilding activity levels. In general, the number of homes delivered and the associated home sale revenues increase during the third and fourth quarters, compared with the first and second quarters. We believe that this type of seasonality reflects the historical tendency of homebuyers to purchase new homes in the spring and summer with deliveries scheduled in the fall or winter, as well as the scheduling of construction to accommodate seasonal weather conditions in certain markets.

We are dependent on the services of key employees, and the loss of their services could hurt our business.

Although we believe that we have made provision for adequately staffing current operations, because of our efforts to "right-size" our organization in recent years, retaining our skilled people has become a critical area of focus. Our future success depends, in part, on our ability to attract, train and retain skilled personnel. If we are unable to retain our key employees or attract, train and retain other skilled personnel in the future, it could have an adverse impact on our financial position, results of operations and cash flows.

The interests of certain controlling shareholders may be adverse to investors

Larry A. Mizel and David D. Mandarich beneficially own, directly or indirectly through their affiliates, in the aggregate, approximately 25% of our common stock. To the extent they and their affiliates vote their shares in the same manner, their combined stock ownership may effectively give them the power to influence the election of members of our board of directors and other matters reserved for our shareholders. Circumstances may occur in which

the interest of these shareholders could be in conflict with your interests. In addition, such persons may have an interest in pursuing transactions that, in their judgment, enhance the value of their equity investment in us, even though such transactions may involve risks to you.

Information technology failures and data security breaches could harm our business.

We and our financial services operations use information technology and other computer resources to carry out important operational activities and to maintain our business records. These information technology systems are dependent upon electronic systems and other aspects of the internet infrastructure. A material breach in the security of our information technology systems or other data security controls could result in third parties obtaining customer, employee or company data. Such occurrences could have a material and adverse effect on our financial position, results of operations and cash flows.

Item 1B. Unresolved Staff Comments.

None

Item 2. *Properties.*

Our corporate office is located at 4350 South Monaco Street, Denver, Colorado 80237, where we lease office space in a 144,000 square foot office building. In some markets, our homebuilding divisions and other MDC subsidiaries lease additional office space. The table below outlines the number of office facilities that are leased and the approximate square footage leased in each market at December 31, 2014. While currently we are satisfied with the suitability and capacity of our office locations, we continue to evaluate them in view of market conditions and the size of our operations.

	Number of Leased Facilities	Total Square Footage Leased
Arizona	2	18,000
California	2	22,000
Colorado	4	155,000
Florida	2	11,000
Maryland	2	18,000
Nevada	1	13,000
Utah	1	6,000
Virginia	3	13,000
Washington	2	22,000
Total	19	278,000

Item 3. *Legal Proceedings.*

Because of the nature of the homebuilding business, we and certain of our subsidiaries and affiliates have been named as defendants in various claims, complaints and other legal actions arising in the ordinary course of business, including product liability claims and claims associated with the sale and financing of our homes. In the opinion of management, the outcome of these ordinary course matters will not have a material adverse effect upon our financial

condition, results of operations or cash flows.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

At December 31, 2014, we had 607 shareholders of record. The shares of our common stock are traded on the New York Stock Exchange. The following table sets forth, for the periods indicated, the closing price ranges of our common stock.

	Three Months Ended			
	March 31	June 30	September 30	December 31
2014				
High	\$32.04	\$30.29	\$ 30.42	\$ 26.66
Low	27.40	27.37	25.32	23.71
2013				
High	\$41.76	\$39.71	\$ 34.00	\$ 32.24
Low	35.90	31.56	27.12	27.81

The table below sets forth the cash dividends declared and paid in 2014. During the year ended December 31, 2013 we did not declare or pay any dividends. We paid dividends of \$2.00 per share during the year ended December 31, 2012. Of the \$2.00 per share in dividends, \$1.00 was in lieu of declaring and paying regular quarterly dividends in calendar year 2013.

	Date of Declaration	Date of Payment	Dividend per Share	Total Dividends Paid
2014				
First Quarter	01/27/14	02/26/14	\$ 0.25	\$ 12,207
Second Quarter	04/28/14	05/28/14	0.25	12,205
Third Quarter	07/21/14	08/20/14	0.25	12,204
Fourth Quarter	10/20/14	11/19/14	0.25	12,204
			\$ 1.00	\$ 48,820

There were no shares of MDC common stock repurchased during the years ended December 31, 2014, 2013 or 2012. At December 31, 2014, we were authorized to repurchase up to 4,000,000 shares of our common stock.

Performance Graph

Set forth below is a graph comparing the yearly change in the cumulative total return of MDC's common stock with the cumulative total return of the Standard & Poor's 500 Stock Index and with that of a peer group of other homebuilders over the five-year period ending on December 31, 2014, weighted as of the beginning of that period.

It is assumed in the graph that \$100 was invested (1) in our common stock; (2) in the stocks of the companies in the Standard & Poor's 500 Stock Index; and (3) in the stocks of the peer group companies, just prior to the commencement of the period and that all dividends received within a quarter were reinvested in that quarter. The peer group index is composed of the following companies: Beazer Homes USA, Inc., D.R. Horton, Inc., Hovnanian Enterprises, Inc., KB Home, Lennar Corporation, M/I Homes, Inc., Meritage Homes Corporation, NVR, Inc., Pulte Homes, Inc., The Ryland Group, Inc., Standard Pacific Corp. and Toll Brothers, Inc.

The stock price performance shown on the following graph is not indicative of future price performance.

Item 6. Selected Financial Data.

The data in these tables and related footnotes should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our Consolidated Financial Statements.

During 2014, we redeemed our 5 % Senior Notes due December 2014 and our 5 % Senior Notes due July 2015. As a result of these transactions, we paid \$517.7 million to extinguish \$500 million in debt principal and recorded a (1) total of \$18.2 million in losses from early extinguishments of debt. In addition, we recorded an other-than-temporary impairment of \$4.3 million in connection with the sale of securities to fund the early redemption of the 5 % Senior Notes due July 2015.

(2) Net income for the year ended December 31, 2013 includes the impact of a \$187.6 million reversal of the valuation allowance against our deferred tax asset in the 2013 second quarter.

During 2011, we completed a debt tender offer and redemptions of our 7% Senior Notes due 2012 and 5½% Senior Notes due 2013. As a result of these transactions, we paid \$537.7 million to extinguish \$500 million in debt principal and recorded a \$38.8 million expense for loss on extinguishment of debt.

(4) Total dividends declared per share for the year ended December 31, 2012 include \$1.00 per share representing the accelerated payment of dividends for 2013.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with, and is qualified in its entirety by, the Consolidated Financial Statements and Notes thereto included elsewhere in this Annual Report on Form 10-K. This item contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those indicated in such forward-looking statements. Factors that may cause such a difference include, but are not limited to, those discussed in "Item 1A, Risk Factors Relating to our Business."

EXECUTIVE SUMMARY

Overview

For the year ended December 31, 2014, our results were mixed as we worked through an uneven recovery for the homebuilding industry. Following a significant increase in home prices during the first half of 2013 and increased difficulty in homebuyers obtaining financing, resulting from more stringent underwriting standards established in 2014 and reductions to loan limits by the FHA in late 2013, the use of incentives to stimulate demand for new homes in certain markets became more prevalent in 2014. Combined with rising construction and land costs, the increased incentives placed pressure on our homebuilding gross margins during the year, though we were able to partially offset the impact of the margin pressure by reducing overhead expenses. Additionally, we increased our net new home orders and ending backlog for 2014 by expanding our community count, establishing a foundation for future improvement in both top and bottom line results. While we may continue to see some volatility in industry conditions and our operating results in the short-term, we believe that the longer-term trend will be positive, driven by continued progress toward more healthy levels of household formation, employment and consumer confidence. See "**Forward-Looking Statements**" above.

For the year ended December 31, 2014, we reported net income of \$63.1 million, or \$1.29 per diluted share, compared to net income of \$314.4 million, or \$6.34 per diluted share for the year earlier period. The decrease was primarily attributable to a \$187.6 million benefit from the reversal of our deferred tax asset valuation allowance in the 2013 second quarter, while for 2014 we had no such benefit and recognized \$37.3 million of income tax expense. Our results for the full year were also adversely impacted by \$18.2 million of expense from the early extinguishments of debt, a \$4.3 million other-than-temporary impairment ("OTTI") on certain marketable securities sold to fund a portion of the early debt extinguishments, an 80 basis point decline in gross margin from home sales and a 16% decline in financial services income, due primarily to more competitive mortgage market conditions. These declines were slightly offset by a slight improvement in home sale revenues, due to a 9% increase in average selling price that was mostly offset by a 7% decline in home deliveries, and an 80 basis point improvement in our homebuilding selling, general and administrative ("SG&A") expenses as a percentage of home sale revenues ("SG&A rate"), primarily due to lower compensation-related and legal expenses.

Our active community count as of December 31, 2014 was 159, a 9% increase from 146 a year ago. This increase was the result of our strong acquisition efforts during much of 2013, during which we purchased approximately 7,900 lots. During 2014, we somewhat tempered our acquisition efforts, purchasing just over 4,200 lots in 112 communities, and ended 2014 with approximately 15,300 lots, a slight decrease from December 31, 2013. While our monthly sales absorption pace was marginally weaker in 2014 when compared to 2013, our higher average active community count during 2014 drove a 7% increase in net new home orders to 4,623 from 4,327 in the prior year. We ended 2014 with backlog of 1,519, up 20% from 1,252 at December 31, 2013 and the dollar value of our backlog was up 31% to \$663.2 million. With our higher backlog and active communities to start to 2015, we believe we are well positioned for growth in 2015. See "**Forward-Looking Statements**" above.

Our financial services pretax income was \$24.7 million for the year ended December 31, 2014, down \$4.8 million, or 16%, from \$29.5 million for the year ended December 31, 2013. The decline in pretax income was driven by more competitive market conditions for our mortgage operations segment, which experienced reduced volumes of loans locked and sold, lower gains on loans locked and sold compared to a year ago and lower origination income due to fewer loan originations and other incentives. Our other financial services segment, which includes our insurance and title operations, experienced a \$2.7 million year-over-year increase in pretax income, partially offsetting the decrease in our mortgage operations segment.

During 2014, we continued to maintain a balance sheet among the industry's strongest through prudent inventory management and by opportunistically accessing the capital markets. We reduced interest costs and extended our closest senior note maturity to 2020 by extinguishing \$500 million of existing senior notes during the year and issuing \$250 million of new senior notes, due January 2024. Additionally, we increased our revolving credit facility from \$450 million to \$550 million and extended its maturity date by one year to December 2019.

Homebuilding*Pretax Income (Loss)*

	Year Ended December 31,						
	2014	Change		2013	Change		2012
	(Dollars in thousands)	Amount	%		Amount	%	
West	\$63,071	\$(2,601)	(4)%	\$65,672	\$38,596	143%	\$27,076
Mountain	39,343	(13,049)	(25)%	52,392	28,090	116%	24,302
East	10,730	(8,860)	(45)%	19,590	8,579	78%	11,011
Corporate	(37,340)	(9)	0%	(37,331)	(7,559)	(25)%	(29,772)
Total homebuilding pretax income	\$75,804	(24,519)	(24)%	\$100,323	\$67,706	208%	\$32,617

Homebuilding pretax income for 2014 was \$75.8 million for the year ended December 31, 2014, a decrease of \$24.5 million from \$100.3 million for the year ended December 31, 2013. The decrease was primarily driven by an 80 basis point decline in our gross margin from home sales, debt extinguishment charges of \$18.2 million, a \$4.3 million OTTI and a \$3.5 million reduction in interest and other income. These items were partially offset by an 80 basis point improvement in our SG&A rate.

The decline in pretax income for our East segment was primarily the result of a 17% year-over-year decline in the number of homes delivered, partially offset by a \$3.6 million decrease in legal expenses, while the decline in our Mountain segment was primarily the result of a decrease in our gross margin from home sales and an 11% decline in deliveries. Our Corporate segment included \$18.2 million in debt extinguishment charges, but was largely offset by \$14.3 million in lower incentive-based compensation and post-retirement benefit expenses for certain of our executive officers.

For the year ended December 31, 2013, the \$67.7 million improvement in our homebuilding financial performance from 2012 was driven primarily by a 41% increase in home sale revenues, a 240 basis point improvement in our gross margin from home sales and a 140 basis point reduction in our SG&A rate.

Each of our homebuilding reportable segments, most notably our West and Mountain segments, showed substantial improvements in pretax income for the twelve months ended December 31, 2013 as compared with the same period in 2012, benefiting from significant increases in home sale revenues and gross margins from home sales. Also, excluding a \$2.5 million legal recovery in 2012 for our East segment, our SG&A rates for all homebuilding segments showed

improvements. Our pretax loss for our non-operating Corporate reportable segment for 2013 increased by \$7.6 million primarily due to increases in our general and administrative expenses related to our accrual for higher incentive-based compensation and higher legal expenses, which were partially offset by reduced stock-based compensation expense. While the SG&A expenses increased during 2013 in the Corporate segment, the SG&A rate decreased due to increased homebuilding revenues.

Assets

	December 31,		Change	
	2014	2013	Amount	%
	(Dollars in thousands)			
West	\$893,970	\$760,450	\$133,520	18 %
Mountain	516,971	418,796	98,175	23 %
East	343,718	297,627	46,091	15 %
Corporate	465,368	951,809	(486,441)	(51)%
Total homebuilding assets	\$2,220,027	\$2,428,682	\$(208,655)	(9)%

Homebuilding assets decreased by \$208.7 million during the year ended December 31, 2014 largely due to the decrease in cash and marketable securities in connection with the net payoff of \$250 million in senior notes. Homebuilding assets in our West, Mountain and East segments increased from December 31, 2013 as incremental investments in both land and new construction drove an increase in our inventory balances and corresponding active community count. The funds for these investments came from our Corporate segment. In addition, our Corporate segment assets declined due to the net payoff of \$250 million in our senior notes discussed above.

Revenues

	Year Ended December 31,				Change		
	2014	Change Amount	%	2013	Change Amount	%	2012
	(Dollars in thousands)						
West	\$770,051	\$98,773	15 %	\$671,278	\$155,199	30%	\$516,079
Mountain	534,244	(12,557)	(2)%	546,801	191,433	54%	355,368
East	346,336	(64,760)	(16)%	411,096	126,401	44%	284,695
Total home and land sale revenues	\$1,650,631	\$21,456	1 %	\$1,629,175	\$473,033	41%	\$1,156,142

Home and land sale revenues for the year ended December 31, 2014 were nearly flat compared to 2013 due to a 9% increase in the average selling price which was mostly offset by a 7% decrease in homes delivered. The increases in home and land sale revenues for the year ended December 31, 2013 was driven primarily by a 26% increase in new home deliveries and a 12% increase in average selling price.

N/M – Not meaningful

We experienced increases in the average selling price of new home deliveries for the year ended December 31, 2014 in nearly all of our markets. The improvement in each market's average selling price was primarily the result of a mix shift to higher-priced communities, particularly in California, and, to a lesser extent, price increases implemented in 2013. However, the increases in average selling price for most of our markets were mostly offset by a decrease in the number of homes delivered, due primarily to lower year-over-year beginning backlog for each of those markets. In total, our beginning backlog for 2014 was 23% lower as compared to beginning backlog for 2013. Arizona and Florida were the only two markets which had a year-over-year increase in beginning backlog, resulting in the improvement in deliveries for those markets in 2014.

The dollar value of new home deliveries for the year ended December 31, 2013 increased significantly for all of our homebuilding operating segments and was primarily attributable to an increase of 76% in the dollar value of homes in backlog to start 2013 as compared to the beginning of 2012 coupled with significant price increases implemented throughout the year at many of our communities and more speculative home deliveries. Our West and Mountain segments had the strongest increases in beginning backlog due to improved market conditions, especially within each state within the West, and in Colorado in the Mountain segment.

Gross Margin

Gross margin from home sales for the year ended December 31, 2014 was 17.0%, down 80 basis points from 17.8% for 2013. The decrease in our gross margin percentage was primarily due to increased construction and land costs and increased incentive levels offered to stimulate demand, in light of the uneven homebuilding industry conditions.

Gross margin from home sales for the year ended December 31, 2013 was 17.8%, up 240 basis points from 15.4% for 2012. The increase in our gross margin percentage was primarily due to increased prices and reduced incentives as a percentage of home sales in all of our markets, as lower new and resale inventory supply levels, historically low lending rates and general improvements in the state of the U.S. economy improved homebuyer demand.

Excluding inventory impairments and interest in cost of sales, our adjusted gross margin percentage from home sales for the years ended December 31, 2014, 2013 and 2012 was 20.8%, 21.1% and 18.2%, respectively. The table set forth below is a reconciliation of our gross margin and gross margin percentage, as reported, to gross margin from home sales excluding inventory impairments and gross margin from home sales excluding inventory impairments and interest in home cost of sales, which are non-GAAP measures.

	Year Ended December 31,					
	2014	<i>Gross Margin</i> %	2013	<i>Gross Margin</i> %	2012	<i>Gross Margin</i> %
	(Dollars in thousands)					
Gross Margin	\$280,691	17.0 %	\$289,317	17.8 %	\$177,094	15.3 %
Less: Land Sale Revenues	(3,233)		(2,468)		(5,144)	
Add: Land Cost of Sales	2,559		1,961		4,823	
Gross Margin from Home Sales	280,017	17.0 %	288,810	17.8 %	176,773	15.4 %
Add: Inventory Impairments	1,760		919		1,105	
Gross Margin from Home Sales Excluding Impairments ⁽¹⁾	281,777	17.1 %	289,729	17.8 %	177,878	15.5 %
Add: Interest in Cost of Sales	60,508		54,261		31,106	
Gross Margin from Home Sales Excluding Impairments and Interest in Cost of Sales ⁽¹⁾	\$342,285	20.8 %	\$343,990	21.1 %	\$208,984	18.2 %

(1) Gross Margin from Home Sales Excluding Impairments and Gross Margin from Home Sales Excluding Impairments and Interest in Cost of Sales are non-GAAP financial measures. We believe this information is

meaningful as it isolates the impact that interest and impairments have on our Gross Margin from Home Sales and permits investors to make better comparisons with our competitors, who also break out and adjust gross margins in a similar fashion.

Inventory Impairments

Impairments recognized for the years ended December 31, 2014, 2013 and 2012 are shown in the table below:

	Year Ended December		
	2014	2013	2012
	(Dollars in thousands)		
Inventory Impairments			
West	\$-	\$-	\$-
Mountains	760	-	-
East	1,000	919	1,105
Total	\$1,760	\$919	\$1,105

We recognized \$1.8 million in inventory impairments on four projects in our Maryland and Colorado markets during the year ended December 31, 2014. During the years ended December 31, 2013 and 2012, we recognized \$0.9 million and \$1.1 million, respectively, of inventory impairments related to three and two projects in our Maryland market, respectively. Based on the slow sales absorption rates experienced during each period and the estimated sales price reductions required to sell the remaining lots and houses in these communities, it was determined that the fair values were less than the carrying values.

The table below shows the number of subdivisions and carrying value of the inventory we tested for impairment during each quarter in the years ended December 31, 2014, 2013 and 2012. The table also includes impairments that we recorded during such periods, as well as the quarter-end fair value, number of lots and number of subdivisions for the impaired inventories. For the years ended December 31, 2014, 2013 and 2012, we used discount rates ranging from 10% to 18% for the subdivisions that were impaired.

Three Months Ended	Total Subdivisions Tested for Impairment During Quarter	Carrying Value of Inventory Tested for Impairment During Quarter	Carrying Value of Impaired Inventory Before Impairment at Quarter End	Inventory Impairments	Fair Value of Inventory After Impairments	Number of Subdivisions Impaired During the Quarter	Number of Lots Impaired During the Quarter

Selling, General and Administrative Expenses

For the year ended December 31, 2014, our SG&A expenses were \$203.3 million, compared to \$213.3 million for the year ended December 31, 2013. The decline in SG&A expenses was largely attributable to \$14.3 million in lower incentive-based compensation and post-retirement benefit expense for certain of our executive officers, \$3.5 million in lower stock-based compensation expense and a \$7.8 million reduction in our legal expenses. The improvements were partially offset by an increase in marketing costs of \$8.9 million incurred to support a larger number of active communities as compared with the prior year. These year-over-year improvements drove an improvement in our SG&A rate by 80 basis points from 13.1% in 2013 to 12.3% in 2014.

For the year ended December 31, 2013, our SG&A expenses were \$213.3 million, compared to \$167.3 million for the year ended December 31, 2012. The increase in SG&A expense was largely attributable to higher incentive-based compensation expense, due to increased profitability, higher commissions expense resulting from increased sales volume, and increased headcount due to our growth during the year. In addition, the year ended December 31, 2012 benefited from significant legal recoveries totaling \$9.8 million, whereas 2013 did not benefit from any significant legal recoveries and included additional legal expense accruals for certain matters encountered in the normal course of business that totaled \$5.9 million. These increases to our 2013 SG&A expense were slightly offset by lower stock-based compensation expense. Despite the above increases, our SG&A rate decreased 140 basis points from 14.5% in 2012 to 13.1% in 2013, driven primarily by improved operating leverage that resulted from higher revenues.

Early Extinguishments of Debt & Other-Than-Temporary Impairment of Marketable Securities

During the 2014 first quarter, we redeemed our 5 % Senior Notes due December 2014 and, in the 2014 fourth quarter, we redeemed our 5 % Senior Notes due July 2015. As a result of these transactions, we paid \$517.7 million to extinguish \$500 million in debt principal and recorded a total of \$18.2 million in losses on early extinguishments of debt. We used available cash balances to fund the Senior Notes due December 2014 and for the redemption of the Senior Notes due July 2015, we used available cash balances in addition to proceeds from the sale of marketable securities. As a result of the determination in the 2014 third quarter to sell certain marketable securities to fund a portion of the 2014 fourth quarter redemption of the Senior Notes due July 2015, we recorded an other-than-temporary impairment of \$4.3 million.

Interest and Other Income

Our interest and other income for the years ended December 31, 2014, 2013 and 2012 was \$26.3 million, \$29.8 million and \$25.0 million, respectively. The change in interest and other income between each period was attributable to the year-over-year changes in our cash and cash equivalents and marketable securities balance, as well as changing

yields.

Interest Expense

For the years ended December 31, 2014, 2013 and 2012, we expensed \$0.7 million, \$1.7 million and \$0.8 million of interest, respectively, related to the portion of our homebuilding debt that exceeded our qualified assets.

Other Expense

For the years ended December 31, 2014, 2013 and 2012, our other expense was \$4.8 million, \$3.8 million and \$1.4 million, respectively. The increased other expense in 2013 and 2014 was due to a higher amount of abandoned project costs.

* Calculated as total net new orders in period ÷ average active communities during period ÷ number of months in period

N/M - Not meaningful

For the year ended December 31, 2014, the dollar value of net new orders increased 19%, as an 11% and 12% increase in our average price and average active subdivision count, respectively, more than offset a minor decline in our monthly absorption rate to 2.43. Our West and Mountain segments showed the most improvement for the year, increasing 29% and 23%, respectively, largely attributable to our California and Arizona markets and, to a lesser extent, our Colorado and Nevada markets. Each of these four markets experienced a significant increase in the average selling price of net new orders, driven by a combination of market appreciation and a shift in mix to higher-priced communities. All four markets also experienced significant increases in unit volume, driven by considerable increases in average active communities resulting from our substantial investment into these markets over the past two years or, for Colorado, a notable improvement of our monthly absorption rate due to strong demand. In Florida, the significant increase in the dollar value of net new orders for the year was due to a higher proportion of our new orders coming from the Orlando and South Florida markets, which have a much higher average selling price than our Jacksonville operation. However, the overall dollar value of net new orders from our East segment was down 8% due to a decrease in the number of net new orders in Virginia, where market demand has been particularly weak relative to our other markets, and Maryland, which experienced a 47% year-over-year decrease in active subdivisions during 2014.

Net new orders for the year ended December 31, 2013 decreased slightly to 4,327 homes, compared with 4,342 homes for the year ended December 31, 2012, as a 21% increase in our monthly absorption rate to 2.54 per community was offset by an 18% decline in our average community count. The declines in our California, Nevada and Utah markets were driven by a decline in average active subdivisions during the year as monthly absorption rates were up in each of these markets. Virginia also saw a decline in net new orders resulting from a decline in average active subdivisions as well as monthly absorption rate. Substantial improvements in the monthly absorption rate for our Colorado and Florida markets sufficiently offset year-over-year declines in average active subdivisions driving increases in net new orders. The increase in the dollar value of new orders was due to higher average price per home, which was driven by price increases instituted at most of our communities and a shift in product mix to more move-up homes.

Active Subdivisions:

	December 31,					
	2014	%	2013	%	2012	
		Change		Change

East	32	(18)% 39	(13)% 45	
Total	159	9	% 146	(1)% 148	
Average for Year Ended	159	12	% 142	(18)% 173	

At December 31, 2014, we had 159 active subdivisions, a 9% increase from 146 active subdivisions at the end of 2013. The substantial increase in active subdivisions for 2014 was the result of significant land acquisition activity over the past two years, particularly in our West markets. In the East, our active community count declined during 2014, due to delays in the development of some new communities, particularly in our Maryland and Virginia markets.

We ended December 31, 2013 with 146 active communities, down slightly from 148 in 2012. Our average active communities, however, were down 18% year-over-year, as higher than expected sales in 2013 resulted in certain subdivisions selling out more quickly than anticipated. The effect of this decline in active communities during the middle of 2013 was mostly offset by the end of 2013 due to our significant land acquisition activity during the year

and efforts to open communities.

26

Cancellation Rate:

	Year Ended December 31,					
	2014	Change	2013	Change	2012	
Arizona	24%	7	17%	(4)	21%	%
California	24%	0	24%	1	23%	%
Nevada	20%	(1)	21%	4	17%	%
Washington	20%	2	18%	(2)	20%	%
West	23%	3	20%	0	20%	%
Colorado	20%	(2)	22%	(1)	23%	%
Utah	18%	(4)	22%	(1)	23%	%
Mountain	20%	(2)	22%	(1)	23%	%
Maryland	24%	(1)	25%	(9)	34%	%
Virginia	27%	1	26%	1	25%	%
Florida	26%	4	22%	(2)	24%	%
East	26%	1	25%	(3)	28%	%
Total	22%	0	22%	(1)	23%	%

Our cancellation rate for the year ended December 31, 2014 was unchanged from 2013. The increase in our Arizona market was primarily due to potential buyers being unable to obtain financing, wavering homebuyer confidence in a more volatile market, and more contingent contracts being cancelled.

For the year ended December 31, 2013, our cancellation rate of 22% was slightly better than the prior year. Our cancellation rates were most improved in our Maryland market, primarily driven by various efforts to enhance the quality of our backlog, including reduced acceptance of contingencies and enhanced review of buyer creditworthiness before the ratification of sales contracts.

Total	1,262	\$505,995	\$ 400.9	1,645	\$579,013	\$ 352.0	(23)%	(13)%	14 %

At December 31, 2014 we had 1,519 homes in backlog with a total value of \$663.2 million, a 20% increase in homes and a 31% increase in dollar value from 1,262 homes in backlog with a total value of \$506.0 million at December 31, 2013. The increase in dollar value in backlog was driven by a year-over-year improvement of 11% in the average selling price of net new orders and a 7% year-over-year improvement in the number of net new orders for the year ended December 31, 2014. The lower dollar value in backlog in our Maryland and Virginia divisions was driven by weaker order trends experienced during 2014 as compared to the prior year period.

The dollar value of backlog at December 31, 2013 decreased in all segments and in total by 13% year-over-year. The decrease was driven by a 23% decrease in homes in the backlog, which was partially offset by a 14% increase in the average price of homes in backlog. Florida and Arizona were the only markets that showed increases. The increase in Florida was due to higher sales absorption rates generated in 2013 as compared to 2012 as well as our expansion into Orlando and South Florida in 2013. The increase in Arizona was due primarily to higher active subdivision counts during 2013 as compared to 2012. The decreases in all other markets were driven by lower sales activity, which was due to lower average active communities in the latter half of 2013 when compared to the same period in 2012.

Homes Completed or Under Construction:

	December 31,					
	2014	% Change	2013	% Change	2012	
Unsold:						
Completed	483	28 %	378	71 %	221	
Under construction	583	(44)%	1,038	72 %	604	
Total unsold started homes (speculative homes)	1,066	(25)%	1,416	72 %	825	
Sold homes under construction or completed	1,089	11 %	981	(14)%	1,147	
Model homes under construction or completed	272	5 %	258	17 %	221	
Total homes completed or under construction	2,427	(9)%	2,655	21 %	2,193	

Our total homes completed or under construction decreased from year end 2013 to 2014 primarily due to a 25% year-over-year decline in the number of speculative homes as a result of our ongoing efforts during 2014 to reduce our speculative home supply to meet current levels of demand. The decline in speculative homes was partially offset by an 11% increase in sold homes under construction or completed, primarily driven by a 7% year-over-year increase in net new orders during 2014 and higher homes in backlog as of December 31, 2014.

The increase in our total homes completed or under construction from December 31, 2012 to December 31, 2013 was driven by our initiative to intentionally start more speculative homes during the latter half of 2013 in light of increased homebuyer demand and improving market conditions at such time, low levels of resale and new home inventories, and the higher gross margins we experienced on our speculative homes during the first half of 2013.

Lots Owned and Optioned (including homes completed or under construction):

Lots owned and optioned decreased by 3% from the prior year as we slowed our land acquisition activity during 2014, particularly in our West and Mountain segments, in response to the declines in demand which began during the latter half of 2013 and continued during 2014. We believe that our current supply levels will support expected growth in future periods. See "**Forward-Looking Statements**" above.

As a result of the significant increase in our land acquisition activity during 2013, we increased our owned and optioned lot supply as of December 31, 2013 by 38% year-over-year, even after a 26% year-over-year increase in new home deliveries in 2013.

Financial Services

	Year Ended December 31,			2013	Change			2012
	2014	Change Amount	%		Change Amount	%

Mortgage operations	\$ 25,887	\$ (9,089)	(26)%	\$ 34,976	\$ (147)	(0)%	\$ 35,123	
Other	18,066	1,783	11 %	16,283	4,525	38 %	11,758	
Total financial services revenues	\$ 43,953	\$ (7,306)	(14)%	\$ 51,259	\$ 4,378	9 %	\$ 46,881	
Financial services pretax income								
Mortgage operations	\$ 14,034	\$ (7,574)	(35)%	\$ 21,608	\$ (2,331)	(10)%	\$ 23,939	
Other	10,637	2,743	35 %	7,894	3,335	73 %	4,559	
Total financial services pretax income	\$ 24,671	\$ (4,831)	(16)%	\$ 29,502	\$ 1,004	4 %	\$ 28,498	

Our financial services pretax income for the year ended December 31, 2014 was down 16% from the prior year. The decrease was driven by a \$7.6 million decrease in pretax income from our mortgage operations segment and was partially offset by a \$2.7 million improvement in our other financial services segment, which consists of our insurance and title operations. The decrease in our mortgage operations segment was primarily due to: (1) reduced volumes of loans locked and sold; (2) lower gains on loans locked and sold compared to a year ago; and (3) lower origination income due to fewer loan originations. These results were caused primarily by a more competitive mortgage market, which also resulted in lower capture rates. The \$2.7 million improvement in our other financial services segment was driven primarily by increased revenues from our insurance operations due to higher premiums, mostly due to a higher percentage of policies written in states where a higher premium is charged. "Capture rate" is defined as the number of mortgage loans originated by our mortgage operations for our homebuyers as a percent of our total home closings.

Our financial services pretax income for the year ended December 31, 2013 was up slightly over the prior year period. The increase was driven by a \$3.3 million increase in our other financial services segment driven by improved revenue from our insurance operations, and was partially offset by a \$2.3 million decrease in pretax income for our mortgage operations segment. The decline in pretax income for our mortgage operations segment was primarily due to per unit reduced origination income and gains on loans locked and sold compared to a year ago resulting largely from

a more competitive mortgage market and higher interest rates. In addition, higher general and administrative expenses, due to added employees hired to handle additional loan volume, and higher loan loss reserve expenses, caused by a slight increase in claims activity from our third party loan purchasers, adversely impacted the profitability of our mortgage operations segment for the year ended December 31, 2013.

The table below sets forth information for our mortgage operations relating to mortgage loans originated and capture rate.

	Year Ended December 31,

Principal	\$762,633	(16)%	\$913,309	35 %	\$675,422					

During 2014 and 2013, we have continued to experience significant year-over-year declines in our originations of FHA loans as a percentage of our total loans originated as a result of: (1) increases in the amount that FHA charges to insure mortgages, (2) increases in home prices, coupled with decreases in FHA loan limits in certain markets, which can limit a borrower's ability to use FHA insured mortgages in connection with the purchase of a home, and (3) structural changes in the FHA mortgage insurance program, which extended the period of time during which the borrower must pay a mortgage insurance premium. However, as a result of reductions made to the FHA's annual mortgage insurance premium, set to take effect in the first quarter 2015, and increases in FHA loan limits in certain markets, we may experience an increase in the level of FHA loans originated during 2015. See "**Forward-Looking Statements**" above.

Income Taxes

We recorded income tax expense of \$37.3 million for the year ended December 31, 2014, compared to an income tax benefit of \$184.6 and \$1.6 million for the same periods in 2013 and 2012, respectively.

The income tax expense for the year ended December 31, 2014 was primarily due to positive operating results, resulting in an effective income tax rate of 37.2%.

The income tax benefit for the year ended December 31, 2013 was due primarily to a \$187.6 million reversal of a significant portion of our deferred tax asset valuation allowance in the 2013 second quarter in addition to a \$6.5 million benefit from energy tax credits relating to current and prior years. These amounts were slightly offset by an \$11.9 million write-off of a deferred tax asset as a result of the termination of certain post-retirement pension benefits contained in the employment agreements of our Chief Executive Officer and Chief Operating Officer in the 2013 fourth quarter. We concluded that the reversal of a portion of our valuation allowance was appropriate after determining that it was more likely than not, after our evaluation of all relevant positive and negative evidence, that we would be able to realize most of our deferred tax assets within the allowable carryforward periods.

The income tax benefit for the year ended December 31, 2012 was due primarily to the release of reserves related to settlements with various taxing authorities.

LIQUIDITY AND CAPITAL RESOURCES

We use our liquidity and capital resources to (1) support our operations, including the purchase of land, land development and construction of homes; (2) provide working capital; and (3) provide mortgage loans for our homebuyers. Our liquidity includes our cash and cash equivalents, marketable securities, Revolving Credit Facility (as defined below) and Mortgage Repurchase Facility (as defined below). Additionally, we have an existing effective shelf registration statement that allows us to issue equity, debt or hybrid securities up to \$1.25 billion. See Note 22 to the Consolidated Financial Statements.

We have marketable debt and equity securities. Our debt securities consist primarily of floating and fixed rate interest earning debt securities, which may include, among others, corporate debt, United States government and government agency debt. Our equity securities consist of holdings in mutual fund securities, which invest mostly in debt securities and holdings in corporate equities.

Capital Resources.

Our capital structure is primarily a combination of (1) permanent financing, represented by stockholders' equity; (2) long-term financing, represented by our 5 % senior notes due 2020, 5½% senior notes due 2024 and our 6% senior notes due 2043; (3) our Revolving Credit Facility and (4) our Mortgage Repurchase Facility. Because of our current balance of cash, cash equivalents, marketable securities, ability to access the capital markets, and available capacity under both our Revolving Credit Facility and Mortgage Repurchase Facility, we believe that our capital resources are adequate to satisfy our short and long-term capital requirements, including meeting future payments on our senior notes as they become due. See **“Forward-Looking Statements”** above.

We may from time to time seek to retire or purchase our outstanding senior notes through cash purchases, whether in open market purchases, privately negotiated transactions or otherwise. Such repurchases, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

Senior Notes, Revolving Credit Facility and Mortgage Repurchase Facility

Senior Notes. Our senior notes are not secured and, while the senior note indentures contain some restrictions on secured debt and other transactions, they do not contain financial covenants. Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by most of our homebuilding segment

subsidiaries. We believe that we are in compliance with the representations, warranties and covenants in the senior note indentures.

Revolving Credit Facility. On December 13, 2013, we entered into an unsecured revolving credit agreement (“Revolving Credit Facility”) with a group of lenders which may be used for general corporate purposes. This agreement was amended on December 17, 2014 to (1) increase the aggregate commitment amount by \$100 million to \$550 million (the “Commitment”) and (2) extend the maturity until December 13, 2019. Each lender may issue letters of credit in an amount up to 50% of its commitment. The facility permits an increase in the maximum Commitment amount to \$1.0 billion upon our request, subject to receipt of additional commitments from existing or additional lenders and the consent of the designated agent and the co-administrative agent. Interest rates on outstanding borrowings are determined by reference to a specified London Interbank Offered Rate (LIBOR), a specified federal funds effective rate or a specified prime rate, plus a margin that is determined based on our credit ratings and leverage ratio, as defined in the facility agreement. At any time at which our leverage ratio, as of the last day of the most recent calendar quarter, exceeds 55%, the aggregate principal amount of all consolidated senior debt borrowings outstanding may not exceed the borrowing base. There is no borrowing base requirement if our leverage ratio, as of the last day of the most recent calendar quarter, is 55% or less.

The Revolving Credit Facility is fully and unconditionally guaranteed, jointly and severally, by most of our homebuilding segment subsidiaries. The facility contains various representations, warranties and covenants that we believe are customary for agreements of this type. The financial covenants include a consolidated tangible net worth test and a leverage test, along with a consolidated tangible net worth covenant, all as defined in the facility agreement. A failure to satisfy the foregoing tests does not constitute an event of default, but can trigger a “term-out” of the facility. A breach of the consolidated tangible net worth covenant (but not the consolidated tangible net worth test) would result in an event of default.

The Revolving Credit Facility is subject to acceleration upon certain specified events of default, including breach of the consolidated tangible net worth covenant, failure to make timely payments, breaches of certain representations or covenants, failure to pay other material indebtedness, or another person becoming beneficial owner of 50% or more of our outstanding common stock. We believe we were in compliance with the representations, warranties and covenants included in the Revolving Credit Facility as of December 31, 2014.

As of December 31, 2014, we had \$15 million in borrowings and \$10.5 million in letters of credit outstanding under the Revolving Credit Facility, leaving remaining borrowing capacity of \$524.5 million.

Mortgage Repurchase Facility. HomeAmerican has a Master Repurchase Agreement (the “Mortgage Repurchase Facility”) with U.S. Bank National Association (“USBNA”) that will expire on September 18, 2015. The Mortgage Repurchase Facility provides liquidity to HomeAmerican by providing for the sale of eligible mortgage loans to USBNA with an agreement by HomeAmerican to repurchase the mortgage loans at a future date. Until such mortgage loans are transferred back to HomeAmerican, the documents relating to such loans are held by USBNA, as custodian, pursuant to the Custody Agreement (“Custody Agreement”), dated as of November 12, 2008, by and between HomeAmerican and USBNA. The maximum aggregate commitment of the Mortgage Repurchase Facility was temporarily increased on December 29, 2014 from \$50 million to \$80 million and expiring on January 28, 2015. The Mortgage Repurchase Facility also had a temporary increase in the maximum aggregate commitment from \$50 million to \$80 million from December 31, 2013 through January 30, 2014. At December 31, 2014 and December 31, 2013, we had \$60.8 million and \$63.1 million, respectively, of mortgage loans that we were obligated to repurchase under our Mortgage Repurchase Facility. Mortgage loans that we are obligated to repurchase under the Mortgage Repurchase Facility are accounted for as a debt financing arrangement and are reported as mortgage repurchase facility in the consolidated balance sheets. Advances under the Mortgage Repurchase Facility carry a price range that is LIBOR-based. The Mortgage Repurchase Facility contains various representations, warranties and affirmative and negative covenants that we believe are customary for agreements of this type. The negative covenants include, among others, (i) a minimum Adjusted Tangible Net Worth requirement, (ii) a maximum Adjusted Tangible Net Worth Ratio, (iii) a minimum Adjusted Net Income requirement, and (iv) a minimum Liquidity requirement. The foregoing terms are defined in the Mortgage Repurchase Facility. We believe we were in compliance with the representations, warranties and covenants included in the Mortgage Repurchase Facility as of December 31, 2014.

Dividends

For the year ended December 31, 2014, we paid dividends of \$1.00 per share. There were no dividends declared or paid for the year ended of December 31, 2013. We paid dividends of \$2.00 per share during the year ended December 31, 2012. Of the \$2.00 per share in dividends, \$1.00 was in lieu of declaring and paying regular quarterly dividends in calendar year 2013.

MDC Common Stock Repurchase Program

At December 31, 2014, we were authorized to repurchase up to 4,000,000 shares of our common stock. We did not repurchase any shares of our common stock during the year ended December 31, 2014.

Consolidated Cash Flow

Our operating cash flows are primarily impacted by: (1) land purchases and construction of homes; (2) closing homes and the associated timing of collecting receivables from home closings; (3) sales of mortgage loans originated by HomeAmerican; (4) payments on accounts payables and accrued liabilities; and (5) funding for payroll. When we close on the sale of a house, our homebuilding subsidiaries will generally receive the proceeds from the sale of the homes within a few days of the home being closed. Therefore, our home sales receivable balance can increase or decrease from period to period based upon the timing of our home closings. Additionally, the amount of mortgage loans held-for-sale can be impacted period to period based upon the number of mortgage loans that were originated by HomeAmerican that have not been sold to third party purchasers and by the timing of fundings by third party mortgage purchasers. Accordingly, mortgage loans held-for-sale may increase if HomeAmerican originates more homes towards the end of one reporting period when compared with the same period in the previous year. HomeAmerican will generally sell mortgage loans it originates within 15 to 40 days after origination.

Year Ended December 31, 2014. We used \$163.6 million in cash for operating activities during the year ended December 31, 2014, primarily resulting from increasing our inventory from December 31, 2013, which resulted in the use of \$257.4 million in cash. This use of cash was partially offset by a \$4.2 million decrease in mortgage loans held-for-sale, net income of \$63.1 million, and the use of net operating loss carryforwards to reduce our current taxes payable.

We generated \$423.1 million in cash from investing activities during the year ended December 31, 2014, primarily attributable to the maturity and sale of marketable securities that increased our cash by \$855.0 million. The cash generated was significantly offset by the purchasing of \$428.7 million of marketable securities.

We used \$305.0 million of cash from financing activities during the year ended December 31, 2014, primarily attributable to the redemption of \$500 million of Senior Notes for a total use of \$517.7 million and from \$48.8 million of dividend payments. The cash used was partially offset by \$248.4 million generated from the issuance of our 10-year 5½% Senior Notes.

Year Ended December 31, 2013. We used \$269.5 million in cash for operating activities during the year ended December 31, 2013, primarily resulting from increasing our inventory from December 31, 2012, which resulted in the use of \$409.3 million in cash. The use of cash was significantly offset by consolidated pretax income of \$129.8 million and a decrease of \$27.4 million in mortgage loans held-for-sale.

We used \$30.4 million in cash from investing activities during the year ended December 31, 2013, primarily attributable to purchasing \$405.0 million of marketable securities. The use of cash was significantly offset by the maturity and sale of marketable securities that increased our cash by \$376.3 million.

We generated \$339.2 million of cash from financing activities during the year ended December 31, 2013, primarily attributable to \$346.9 million associated with the issuance of our 30-year 6% senior notes, which was partially offset by a \$13.3 million net decrease from payment and advance activity on our mortgage repurchase facility.

Year Ended December 31, 2012. We used \$108.8 million in cash for operating activities during the year ended December 31, 2012, primarily resulting from: (1) increasing our inventory from December 31, 2011, which resulted in the use of \$196.8 million in cash and (2) \$41.6 million used in connection with originating mortgage loans held-for-sale. These items partially were offset by net income of \$62.7 million and a \$47.5 million increase in accounts payable.

We used \$21.8 million in cash for investing activities during the year ended December 31, 2012, primarily attributable to purchasing \$478.7 million of marketable securities. These items were significantly offset by the maturity and sale of marketable securities that increased our cash by \$458.2 million.

We used \$52.7 million in cash for financing activities during the year ended December 31, 2012, primarily resulting from \$96.9 million of dividend payments. This was partially offset by net cash proceeds of \$27.6 million from mortgage repurchase facility activity.

Off-Balance Sheet Arrangements

Lot Option Purchase Contracts. In the ordinary course of business, we enter into lot option purchase contracts in order to procure lots for the construction of homes. Lot option contracts enable us to control lot positions with a minimal capital investment, which substantially reduces the risks associated with land ownership and development. At December 31, 2014, we had deposits of \$12.6 million in the form of cash and \$3.1 million in the form of letters of credit that secured option contracts to purchase 2,424 lots for a total estimated purchase price of \$225.6 million.

Surety Bonds and Letters of Credit. At December 31, 2014, we had issued and outstanding surety bonds and letters of credit totaling \$145.2 million and \$26.8 million, respectively, including \$16.3 million in letters of credit issued by HomeAmerican. The estimated cost to complete obligations related to these bonds and letters of credit was approximately \$56.1 million and \$6.1 million, respectively. We expect that the obligations secured by these performance bonds and letters of credit generally will be performed in the ordinary course of business and in accordance with the applicable contractual terms. To the extent that the obligations are performed, the related performance bonds and letters of credit should be released and we should not have any continuing obligations. However, in the event any such performance bonds or letters of credit are called, our indemnity obligations could require us to reimburse the issuer of the performance bond or letter of credit.

We have made no material guarantees with respect to third-party obligations.

Contractual Obligations.

The table below summarizes our known contractual obligations at December 31, 2014.

	Payments due by Period (in thousands)				
	Total	Less than 1 Year	1 - 3 Years	4 - 5 Years	After 5 Years
Senior notes	\$850,000	\$-	\$-	\$-	\$850,000
Interest on senior notes	806,469	48,813	97,625	97,625	562,406
Operating leases	53,022	4,922	9,560	8,863	29,677
Total ⁽¹⁾	\$1,709,491	\$53,735	\$107,185	\$106,488	\$1,442,083

(1) The table above excludes \$60.8 million of mortgage loans that we are obligated to repurchase under our Mortgage Repurchase Facility since it is not long-term indebtedness. Additionally, there were outstanding performance bonds and letters of credit totaling approximately \$145.2 million and \$26.8 million, respectively, at December 31, 2014, which have been excluded from the table above due to the uncertainty as to whether any payments may be made.

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

The preparation of financial statements in conformity with accounting policies generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Management evaluates such estimates and judgments on an on-going basis and makes adjustments as deemed necessary. Actual results could differ from these estimates using different estimates and assumptions, or if conditions are significantly different in the future. See “**Forward-Looking Statements**” above.

Listed below are those estimates and policies that we believe are critical and require the use of complex judgment in their application. Our critical accounting estimates and policies are as follows and should be read in conjunction with the Notes to our Consolidated Financial Statements.

Homebuilding Inventory Valuation. Our inventories are primarily associated with communities where we intend to construct and sell homes, including models and speculative homes. Costs capitalized to land and land under development primarily include: (1) land costs; (2) land development costs; (3) entitlement costs; (4) capitalized interest; (5) engineering fees; and (6) title insurance, real property taxes and closing costs directly related to the purchase of the land parcel. Components of housing completed or under construction primarily include: (1) land costs transferred from land and land under development; (2) direct construction costs associated with a house; (3) real property taxes, engineering fees, permits and other fees; (4) capitalized interest; and (5) indirect construction costs, which include field construction management salaries and benefits, utilities and other construction related costs. Land costs are transferred from land and land under development to housing completed or under construction at the point in time that construction of a home on an owned lot begins.

Homebuilding inventories are carried at cost unless events and circumstances indicate that the carrying value of the underlying subdivision may not be recoverable. We determine impairments on a subdivision level basis as each such subdivision represents the lowest level of identifiable cash flows. In making this determination, we review, among other things, the following for each subdivision:

- actual and trending “Operating Margin” (which is defined as home sale revenues less home cost of sales and all direct incremental costs associated with the home closing) for homes closed;
- estimated future undiscounted cash flows and Operating Margin;
- forecasted Operating Margin for homes in backlog;
- actual and trending net and gross home orders;
-

base sales price and home sales incentive information for homes closed, homes in backlog and homes available for sale;
market information for each sub-market, including competition levels, home foreclosure levels, the size and style of homes currently being offered for sale and lot size; and
known or probable events indicating that the carrying value may not be recoverable.

If events or circumstances indicate that the carrying value of our inventory may not be recoverable, assets are reviewed for impairment by comparing the undiscounted estimated future cash flows from an individual subdivision to its carrying value. We generally determine the estimated fair value of each subdivision by determining the present value of the estimated future cash flows at discount rates that are commensurate with the risk of the subdivision under evaluation. The evaluation for the recoverability of the carrying value of the assets for each individual subdivision can be impacted significantly by the following:

- estimates of future base selling prices;
- estimates of future home sales incentives; and
- estimates of future home construction and land development costs.

These estimates are dependent on specific market or sub-market conditions for each subdivision. While we consider available information to determine what we believe to be our best estimates as of the end of a reporting period, these estimates are subject to change in future reporting periods as facts and circumstances change. Local market-specific conditions that may impact these estimates for a subdivision include:

- historical subdivision results, and actual and trending Operating Margin, base selling prices and home sales incentives;
- forecasted Operating Margin for homes in backlog;
- the intensity of competition within a market or sub-market, including publicly available home sales prices and home sales incentives offered by our competitors;
- increased levels of home foreclosures;
- the current sales pace for active subdivisions;
- subdivision specific attributes, such as location, availability and size of lots in the sub-market, desirability and uniqueness of subdivision location and the size and style of homes currently being offered;
- potential for alternative home styles to respond to local market conditions;
 - changes by management in the sales strategy of a given subdivision; and
- current local market economic and demographic conditions and related trends and forecasts.

These and other local market-specific conditions that may be present are considered by personnel in our homebuilding divisions as they prepare or update the forecasted assumptions for each subdivision. Quantitative and qualitative factors other than home sales prices could significantly impact the potential for future impairments. The sales objectives can differ among subdivisions, even within a given sub-market. For example, facts and circumstances in a given subdivision may lead us to price our homes with the objective of yielding a higher sales absorption pace, while facts and circumstances in another subdivision may lead us to price our homes to minimize deterioration in our gross margins from home sales, even though this could result in a slower sales absorption pace. Furthermore, the key assumptions included in our estimated future undiscounted cash flows may be interrelated. For example, a decrease in estimated base sales price or an increase in home sales incentives may result in a corresponding increase in sales absorption pace. Additionally, a decrease in the average sales price of homes to be sold and closed in future reporting periods for one subdivision that has not been generating what management believes to be an adequate sales absorption pace may impact the estimated cash flow assumptions of a nearby subdivision. Changes in our key assumptions, including estimated construction and land development costs, absorption pace and selling strategies could materially impact future cash flow and fair value estimates. Due to the number of possible scenarios that would result from various changes in these factors, we do not believe it is possible to develop a sensitivity analysis with a level of precision that would be meaningful to an investor.

If the undiscounted future cash flows of a subdivision are less than its carrying value, the carrying value of the subdivision is written down to its then estimated fair value.

We determine the estimated fair value of each subdivision either: (1) by determining the present value of the estimated future cash flows at discount rates that are commensurate with the risk of the subdivision under evaluation; or

(2) assessing the market value of the land in its current condition by considering the estimated price a willing buyer would pay for the land (other than in a forced liquidation), and recent land purchase transactions that we believe are indicators of fair value. The estimated future cash flows are the same for both our recoverability and fair value assessments. Factors we consider when determining the discount rate to be used for each subdivision include, among others:

- the number of lots in a given subdivision;
- the amount of future land development costs to be incurred;
- risks associated with the home construction process, including the stage of completion for the entire subdivision and
- the number of owned lots under construction; and
- the estimated remaining lifespan of the subdivision.

We allocate the impairments recorded between housing completed or under construction and land and land under development for each impaired subdivision based upon the status of construction of a home on each lot (i.e., if the lot is in housing completed or under construction, the impairment for that lot is recorded against housing completed or under construction). The allocation of impairment is the same with respect to each lot in a given subdivision. Changes in management's estimates, particularly the timing and amount of the estimated future cash inflows and outflows and forecasted average selling prices of homes to be sold and closed can materially affect any impairment calculation. Because our forecasted cash flows are impacted significantly by changes in market conditions, it is reasonably possible that actual results could differ significantly from those estimates. Please see the "Inventory Impairments" section for a detailed discussion and analysis of our asset impairments.

Warranty Accrual. Our homes are sold with limited third-party warranties. We record expenses and warranty accruals for general and structural warranty claims, as well as accruals for known, unusual warranty-related expenditures. Warranty accrual is established based upon historical payment experience in an amount estimated to be adequate to cover expected costs of materials and outside labor during warranty periods. The establishment of warranty accrual for closed homes and the evaluation of our warranty accrual balance is based on an internally developed analysis that includes known facts and interpretations of circumstances, including, among other things, our trends in historical warranty payment levels and warranty payments for claims not considered to be normal and recurring.

Warranty accrual is included in accrued liabilities in the homebuilding section of our consolidated balance sheets and adjustments to our warranty accrual is recorded as an increase or reduction to home cost of sales in the homebuilding section of our consolidated statements of operations. Additionally, it is possible that changes in the warranty payment experience used in estimating our ultimate warranty losses could have a material impact on our warranty accrual balances. Please see further discussion on the adjustments to our warranty accrual within our discussion of gross margin from home sales in the “Gross Margin” section. Also see “**Forward-Looking Statements**” above.

Insurance Reserves. The establishment of reserves for estimated losses associated with insurance policies issued by Allegiant and re-insurance agreements issued by StarAmerican are based on actuarial studies that include known facts and interpretations of circumstances, including our experience with similar cases and historical trends involving claim payment patterns, pending levels of unpaid claims, product mix or concentration, claim severity, frequency patterns depending on the business conducted, and changing regulatory and legal environments.

Litigation Accruals. In the normal course of business, we are a defendant in claims primarily relating to construction defects, product liability and personal injury claims. These claims seek relief from us under various theories, including breach of implied and express warranty, negligence, strict liability, misrepresentation and violation of consumer protection statutes. We have accrued for losses that may be incurred with respect to legal claims based upon information provided by our legal counsel, including counsel’s on-going evaluation of the merits of the claims and defenses and the level of estimated insurance coverage. Due to uncertainties in the estimation process, actual results could vary from those accruals and could have a material impact on our results of operations.

Income Taxes—Valuation Allowance. A valuation allowance is recorded against a deferred tax asset if, based on the weight of available evidence, it is more-likely-than-not (a likelihood of more than 50%) that some portion, or all, of the deferred tax asset will not be realized. The realization of a deferred tax asset ultimately depends on the existence of sufficient taxable income in either the carryback or carryforward periods under federal tax law (generally 2 and 20 years, respectively) or state tax law, which range depends on the state (generally 2 and 20 years, respectively). The four sources of taxable income to be considered in determining whether a valuation allowance is required include:

- future reversals of existing taxable temporary differences;
- taxable income in prior carryback years;

- tax planning strategies; and
- future taxable income exclusive of reversing temporary differences and carryforwards.

Determining whether a valuation allowance for deferred tax assets is necessary requires an analysis of both positive and negative evidence regarding realization of the deferred tax assets. Examples of positive evidence may include:

- a strong earnings history exclusive of the loss that created the deductible temporary differences, coupled with evidence indicating that the loss is the result of an aberration rather than a continuing condition;
- an excess of appreciated asset value over the tax basis of a company's net assets in an amount sufficient to realize the deferred tax asset; and
- existing backlog that will produce sufficient taxable income to realize the deferred tax asset based on existing sales prices and cost structures.

Examples of negative evidence may include:

- the existence of "cumulative losses" (generally defined as a pretax cumulative loss for the current and previous two years);
- an expectation of being in a cumulative loss position in a future reporting period;
- a carryback or carryforward period that is so brief that it would limit the realization of tax benefits;
- a history of operating loss or tax credit carryforwards expiring unused; and
- unsettled circumstances that, if unfavorably resolved, would adversely affect future operations and profit levels on a continuing basis.

The weight given to the potential effect of negative and positive evidence should be commensurate with the extent to which it can be objectively verified. A company must use judgment in considering the relative impact of positive and negative evidence. In the future, changes in our valuation allowance may result from, among other things, additional pretax operating losses resulting in increases in our valuation allowance or pretax operating income resulting in decreases in our valuation allowance.

Revenue Recognition. We recognize revenue from home deliveries and land sales when: (1) the closing has occurred; (2) title has passed to the buyer; (3) possession and other attributes of ownership have been transferred to the buyer; (4) we are not obligated to perform significant additional activities after closing and delivery; and (5) the buyer demonstrates a commitment to pay for the property through an adequate initial and continuing investment. The buyer's initial investment shall include: (1) cash paid as a down payment; (2) the buyer's notes supported by irrevocable letters of credit; (3) payments made by the buyer to third-parties to reduce existing indebtedness on the property; and (4) other amounts paid by the buyer that are part of the sales value of the property. Revenue from a home delivery includes the base sales price and any purchased options and upgrades and is reduced for any sales price incentives.

Revenues recorded by HomeAmerican primarily include origination fees and the corresponding sale of a loan and either the release or retention of a loan's servicing rights. Origination fees are recognized when a loan is originated. When an interest rate lock commitment is made to a customer, we record the expected gain on sale of the mortgage including servicing rights, adjusted for a pull-through percentage (which is defined as the likelihood that an interest rate lock commitment will be originated), as revenue. As the interest rate lock commitment gets closer to being originated, the expected gain on the sale of that loan plus its servicing rights is updated to reflect current market value and the increase or decrease in the fair value of that interest rate lock commitment is recorded through revenues. At the same time, the expected pull-through percentage of the interest rate lock commitment to be originated is updated (typically an increase as the interest lock commitment gets closer to origination) and, if there has been a change, revenues are adjusted as necessary. After origination, our mortgage loans, generally including their servicing rights, are sold to third-party purchasers in accordance with sale agreements entered into by us with a third-party purchaser of the loans. We make representations and warranties with respect to the status of loans transferred in the sale agreements. The sale agreements generally include statements acknowledging the transfer of the loans is intended by both parties to constitute a sale. Sale of a mortgage loan has occurred when the following criteria, among others, have been met: (1) fair consideration has been paid for transfer of the loan by a third party in an arms-length transaction, (2) all the usual risks and rewards of ownership that are in substance a sale have been transferred by us to the third party purchaser; and (3) we do not have a substantial continuing involvement with the mortgage loan.

We carry interest rate lock commitments and mortgage loans held-for-sale at fair value.

Home Cost of Sales. Home cost of sales includes the specific construction costs of each home and all applicable land acquisition, land development and related costs, both incurred and estimated to be incurred, warranty costs and finance and closing costs. We use the specific identification method for the purpose of accumulating home construction costs and allocate costs to each lot within a subdivision associated with land acquisition and land development based upon relative fair value of the lots prior to home construction. Lots within a subdivision typically have comparable fair values, and, as such, we generally allocate costs equally to each lot within a subdivision. We record all home cost of sales when a home is closed on a house-by-house basis.

When a home is closed, we generally have not yet paid or incurred all costs necessary to complete the construction of the home and certain land development costs. At the time of a home closing, we compare the home construction budgets to actual recorded costs to determine the additional estimated costs remaining to be paid on each closed home. For amounts not incurred or paid as of the time of closing a home, we record an estimated accrual associated with certain home construction and land development costs. Generally, these accruals are established based upon contracted work that has yet to be paid, open work orders not paid at the time of home closing, as well as land completion costs more likely than not to be incurred, and represent estimates believed to be adequate to cover the expected remaining home construction and land development costs. We monitor the adequacy of these accruals on a house-by-house basis and in the aggregate on both a market-by-market and consolidated basis.

Mortgage Loan Loss Reserves. In the normal course of business, we establish reserves for potential losses associated with HomeAmerican's sale of mortgage loans to third-parties. These reserves are created to address repurchase and indemnity claims by third-party purchasers of the mortgage loans, which claims arise primarily out of allegations of homebuyer fraud at the time of origination of the loan. These reserves are based upon, among other matters: (1) pending claims received from third-party purchasers associated with previously sold mortgage loans; (2) a current assessment of the potential exposure associated with future claims of homebuyer fraud in mortgage loans originated in prior periods; and (3) historical loss experience. Significant changes in the number and magnitude of claims to repurchase previously sold mortgage loans could have a material impact on our results of operations. Our mortgage loan reserves are reflected as a component of accrued liabilities in the financial services section of the accompanying consolidated balance sheets, and the associated expenses are included in Expenses in the financial services section of the accompanying consolidated statements of operations.

Stock-Based Compensation. Accounting Standards Codification ("ASC") Topic 718, *Compensation—Stock Compensation* ("ASC 718") requires that share-based compensation expense be measured and recognized at an amount equal to the fair value of share-based payments granted under compensation arrangements. Determining the appropriate fair value model and calculating the fair value of stock option awards requires judgment, including estimating stock price volatility, annual forfeiture rates and the expected life of an award. We estimate the fair value for stock options granted using a Black-Scholes option pricing model. The Black-Scholes option pricing model calculates the estimated fair value of stock options based upon the following inputs: (1) closing price of our common stock on the measurement date (generally the date of grant); (2) exercise price; (3) expected stock option life; (4) expected volatility; (5) risk-free interest rate; and (6) expected dividend yield rate. The expected life of employee stock options represents the period for which the stock options are expected to remain outstanding and is derived primarily from historical exercise patterns. The expected volatility is based on the historical volatility in the price of our common stock over the most recent period commensurate with the estimated expected life of our employee stock options,

adjusted for the impact of unusual fluctuations not reasonably expected to recur and other relevant factors. The risk-free interest rate assumption is determined based upon observed interest rates appropriate for the expected term of our employee stock options. The expected dividend yield assumption is based on our historical dividend payouts. We determine the estimated fair value of the stock option awards on the date they were granted. The fair values of previously granted stock option awards are not adjusted as subsequent changes in the foregoing assumptions occur; for example, an increase or decrease in the price of our common stock. However, changes in the foregoing inputs, particularly the price of our common stock, expected stock option life and expected volatility, significantly change the estimated fair value of future grants of stock options.

An annual forfeiture rate is estimated at the time of grant, and revised if necessary, in subsequent periods if the actual forfeiture rate differs from our estimate.

Segment Reporting. The application of segment reporting requires significant judgment in determining our operating segments. Operating segments are defined as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the chief operating decision-maker, or decision-making group, to evaluate performance and make operating decisions. We have identified our Chief Operating Decision-Maker (“CODM”) as two key executives—the Chief Executive Officer and Chief Operating Officer.

We have identified each homebuilding division as an operating segment as each homebuilding division engages in business activities from which it earns revenue, primarily from the sale of single-family detached homes, generally to first-time and first-time move-up homebuyers. Divisions in the reportable segments noted below have been aggregated because they are similar in the following regards: (1) economic characteristics; (2) housing products; (3) class of homebuyer; (4) regulatory environments; and (5) methods used to manage the construction and sale of homes. In making the determination of whether or not our markets demonstrate similar economic characteristics, we review, among other things, actual and trending gross margins from home sales for homes closed within each market and forecasted gross margins from home sales. Accordingly, we may be required to reclassify our reportable segments if markets that currently are being aggregated do not continue to demonstrate similar economic characteristics.

Our homebuilding reportable segments are as follows:

- West (Arizona, California, Nevada and Washington);
- Mountain (Colorado and Utah); and
- East (Virginia, Florida, Illinois and Maryland, which includes Pennsylvania and New Jersey)

Our financial services operating segments are as follows: (1) HomeAmerican Mortgage Corporation (“HomeAmerican”); (2) Allegiant Insurance Company, Inc., A Risk Retention Group (“Allegiant”); (3) StarAmerican Insurance Ltd. (“StarAmerican”); (4) American Home Insurance Agency, Inc.; and (5) American Home Title and Escrow Company. Due to its contributions to consolidated pretax income we consider HomeAmerican to be a reportable segment (“mortgage operations”). The remaining operating segments have been aggregated into one reportable segment (“other”) because they do not individually exceed 10 percent of: (1) consolidated revenue; (2) the greater of (A) the combined reported profit of all operating segments that did not report a loss or (B) the positive value of the combined reported loss of all operating segments that reported losses; or (3) consolidated assets.

RECENTLY ISSUED ACCOUNTING STANDARDS

See Note 1 in our accompanying consolidated financial statements.

42

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Our cash and investment policy and strategy is to achieve an appropriate investment return while preserving principal and managing risk. Our cash and cash equivalents may include immediately available commercial bank deposits, commercial paper, money market funds, certificates of deposit and time deposits. Our marketable securities contain both debt and equity instruments, held directly or through mutual funds. Our debt securities consist primarily of floating and fixed rate interest earning debt securities, which may include, among others, United States government and government agency debt and corporate debt. Our equity securities consist of holdings in mutual fund securities, which invest mostly in debt securities and holdings in corporate equities. The remaining equity securities in our investment portfolio are holdings in corporate equities. The market value and/or income derived from our debt and equity securities can be negatively impacted by a number of market risk factors, including changes in interest rates, general economic conditions and equity markets. As of December 31, 2014, we had marketable securities in unrealized loss positions totaling \$3.1 million. There can be no assurances that the cost basis of these securities will be recovered in the future. If we elect to sell, or are otherwise were required to sell these securities, we could be required to record losses if the market values do not increase prior to any sales. Such losses, if any, would be recorded as a component of our results of operations.

We are exposed to market risks related to fluctuations in interest rates on mortgage loans held-for-sale, mortgage interest rate lock commitments and debt. Derivative instruments utilized in the normal course of business by HomeAmerican include interest rate lock commitments and forward sales of mortgage-backed securities, which are used to manage the price risk on fluctuations in interest rates on our mortgage loans in inventory and interest rate locked commitments to originate mortgage loans. Such contracts are the only significant financial derivative instruments utilized by MDC. HomeAmerican's mortgage loans in process for which a rate and price commitment had been made to a borrower that had not closed at December 31, 2014 had an aggregate principal balance of approximately \$42.8 million, all of which were under interest rate lock commitments at an average interest rate of 3.69%. In addition, HomeAmerican had mortgage loans held-for-sale with an aggregate principal balance of \$85.9 million at December 31, 2014, of which \$13.6 million had not yet been committed to a mortgage purchaser and had an average interest rate of 3.65%. In order to hedge the changes in fair value of interest rate lock commitments and mortgage loans held-for-sale which had not yet been committed to a mortgage purchaser, HomeAmerican had forward sales of securities totaling \$41.0 million and \$74.5 million at December 31, 2014 and 2013, respectively.

HomeAmerican provides mortgage loans that generally are sold forward and subsequently delivered to a third-party purchaser between 15 and 40 days. Forward commitments are used for non-trading purposes to sell mortgage loans and hedge price risk due to fluctuations in interest rates on rate-locked mortgage loans in process that have not closed. Due to this economic hedging philosophy, the market risk associated with these mortgages is limited. For forward sales commitments, as well as commitments to originate mortgage loans that are still outstanding at the end of a reporting period, we record the fair value of the derivatives in the consolidated statements of operations with an offset to either derivative assets or liabilities, depending on the nature of the change.

We utilize our Revolving Credit Facility, our Mortgage Repurchase Facility and senior notes in our financing strategy. For fixed rate debt, changes in interest rates generally affect the fair value of the debt instrument, but not our earnings or cash flows. We do not have an obligation to prepay our senior notes prior to maturity and, as a result, interest rate risk and changes in fair value do not have an impact on our financial position, results of operations or cash flows. See “**Forward-Looking Statements**” above.

At December 31, 2014, we had \$60.8 million of mortgage loans that HomeAmerican is obligated to repurchase under the Mortgage Repurchase Facility. Mortgage loans that HomeAmerican is obligated to repurchase under the Mortgage Repurchase Facility are accounted for as a debt financing arrangement and are reported under Mortgage Repurchase Facility in the consolidated balance sheets. The following table provides the maturities, average interest rate and estimated fair value of significant financial instruments that are sensitive to changes in interest rates at December 31, 2014.

	Maturities through December 31,						Total	Estimated Fair Value
	2015	2016	2017	2018	2019	Thereafter

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of

M.D.C. Holdings, Inc.

We have audited the accompanying consolidated balance sheets of M.D.C. Holdings, Inc. (the “Company”) as of December 31, 2014 and 2013, and the related consolidated statements of operations and comprehensive income, stockholders’ equity, and cash flows for each of the three years in the period ended December 31, 2014. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of M.D.C. Holdings, Inc. at December 31, 2014 and 2013, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), M.D.C. Holdings, Inc.’s internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated January 28, 2015 expressed an unqualified opinion thereon.

1. Summary of Significant Accounting Policies

Principles of Consolidation. The Consolidated Financial Statements of M.D.C. Holdings, Inc. ("MDC," "the Company," "we," "us," or "our" which refers to M.D.C. Holdings, Inc. and its subsidiaries) include the accounts of MDC and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation. Certain prior year balances have been reclassified to conform to the current year's presentation.

Description of Business. We have homebuilding operations in Arizona, California, Colorado, Florida, Maryland, (which includes Maryland, Pennsylvania and New Jersey), Nevada, Utah, Virginia and Washington. The primary functions of our homebuilding operations include land acquisition and development, home construction, purchasing, marketing, merchandising, sales and customer service. We build and sell primarily single-family detached homes, which are designed and built to meet local customer preferences. We are the general contractor for all of our projects and retain subcontractors for site development and home construction.

Our financial services operations consist of HomeAmerican Mortgage Corporation ("HomeAmerican"), which originates mortgage loans, primarily for our homebuyers, American Home Insurance Agency, Inc. ("American Home Insurance"), which offers third-party insurance products to our homebuyers, and American Home Title and Escrow Company ("American Home Title"), which provides title agency services to the Company and our homebuyers in Colorado, Florida, Maryland, Nevada and Virginia. The financial services operations also include Allegiant Insurance Company, Inc., A Risk Retention Group ("Allegiant"), which provides insurance coverage primarily to our homebuilding subsidiaries and certain subcontractors for homes sold by our homebuilding subsidiaries and for work performed in completed subdivisions, and StarAmerican Insurance Ltd. ("StarAmerican"), a wholly owned subsidiary of MDC, which is a re-insurer of Allegiant claims.

Presentation. Our balance sheet presentation is unclassified due to the fact that certain assets and liabilities have both short and long-term characteristics.

Use of Accounting Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents. The Company periodically invests funds in highly liquid investments with an original maturity of three months or less, such as commercial paper, money market funds and time deposits, which are included in cash and cash equivalents in the consolidated balance sheets and consolidated statements of cash flows.

Marketable Securities. We have marketable debt and equity securities and as of December 31, 2014 and 2013, all of our marketable securities were treated as available-for-sale investments. As such, we have recorded all of our marketable securities at fair value with changes in fair value being recorded as a component of accumulated other comprehensive income (loss) (“AOCI”). When a security is sold, we use the first-in first-out method to determine the cost of the security sold or the amount reclassified out of AOCI.

Restricted Cash. We receive cash earnest money deposits from our customers who enter into home sale contracts. In certain states we are restricted from using such deposits for general purposes, unless we take measures to release state imposed restrictions on such deposits received from homebuyers, which may include posting blanket surety bonds. We had \$2.8 million and \$2.2 million in restricted cash related to homebuyer deposits at December 31, 2014 and 2013, respectively.

Home Sale Receivables. Home sale receivables primarily consist of cash to be received from title companies or outside brokers associated with closed homes. Generally, we will receive cash from title companies and outside brokers within a few days of the home being closed.

Mortgage Loans Held-for-Sale, net. Mortgage loans held-for-sale are recorded at fair value based on quoted market prices and estimated market prices received from an outside third-party. Using fair value allows an offset of the changes in fair values of the mortgage loans and the derivative instruments used to hedge them without the burden of complying with the requirements for hedge accounting.

Inventories. Our inventories are primarily associated with communities where we intend to construct and sell homes, including models and speculative homes. Costs capitalized to land and land under development primarily include: (1) land costs; (2) land development costs; (3) entitlement costs; (4) capitalized interest; (5) engineering fees; and (6) title insurance, real property taxes and closing costs directly related to the purchase of the land parcel. Components of housing completed or under construction primarily include: (1) land costs transferred from land and land under development; (2) direct construction costs associated with a house; (3) real property taxes, engineering fees, permits and other fees; (4) capitalized interest; and (5) indirect construction costs, which include field construction management salaries and benefits, utilities and other construction related costs. Land costs are transferred from land and land under development to housing completed or under construction at the point in time that construction of a home on an owned lot begins.

In accordance with ASC 360, *Property, Plant, and Equipment* (“ASC 360”), homebuilding inventories are carried at cost unless events and circumstances indicate that the carrying value of the underlying subdivision may not be recoverable. We evaluate inventories for impairment at each quarter end on a subdivision level basis as each such subdivision represents the lowest level of identifiable cash flows. In making this determination, we review, among other things, the following for each subdivision:

- actual and trending “Operating Margin” (which is defined as home sale revenues less home cost of sales and all direct incremental costs associated with the home closing, including sales commissions) for homes closed;
- estimated future undiscounted cash flows and Operating Margin;
- forecasted Operating Margin for homes in backlog;
- actual and trending net and gross home orders;
- base sales price and home sales incentive information for homes closed, homes in backlog and homes available for sale;
- market information for each sub-market, including competition levels, home foreclosure levels, the size and style of homes currently being offered for sale and lot size; and
- known or probable events indicating that the carrying value may not be recoverable.

If events or circumstances indicate that the carrying value of our inventory may not be recoverable, assets are reviewed for impairment by comparing the undiscounted estimated future cash flows from an individual subdivision (including capitalized interest) to its carrying value. If the undiscounted future cash flows are less than the subdivision’s carrying value, the carrying value of the subdivision is written down to its then estimated fair value. We generally determine the estimated fair value of each subdivision by determining the present value of the estimated future cash flows at discount rates that are commensurate with the risk of the subdivision under evaluation.

Property and Equipment, net. Property and equipment is carried at cost less accumulated depreciation and amortization. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the related assets, which range from 2 to 29 years. Depreciation and amortization expense for property and equipment was \$3.8 million, \$3.7 million and \$4.4 million for the years ended December 31, 2014, 2013 and 2012, respectively.

F-8

The following table sets forth the cost and carrying value of our property and equipment by major asset category.

	Cost	Accumulated Depreciation and Amortization	Carrying Value
December 31, 2014:	(Dollars in thousands)		
Airplane	\$ 28,997	\$ 7,152	\$ 21,845
Computer software and equipment	20,594	14,084	6,510
Leasehold improvements	9,617	7,590	2,027
Other	1,989	1,880	109
Total	\$ 61,197	\$ 30,706	\$ 30,491
December 31, 2013:			
Airplane	\$ 28,997	\$ 6,604	\$ 22,393
Computer software and equipment	18,436	11,780	6,656
Leasehold improvements	8,793	6,787	2,006
Other	2,048	1,855	193
Total	\$ 58,274	\$ 27,026	\$ 31,248

Deferred Tax Asset, net. Deferred income taxes reflect the net tax effects of temporary differences between (1) the carrying amounts of the assets and liabilities for financial reporting purposes and (2) the amounts used for income tax purposes. Deferred tax assets and liabilities are measured using current enacted tax rates in effect in the years in which those temporary differences are expected to reverse. A valuation allowance is recorded against a deferred tax asset if, based on the weight of available evidence, it is more-likely-than-not (a likelihood of more than 50%) that some portion, or all, of the deferred tax asset will not be realized.

Deferred Marketing Costs. Certain marketing costs related to model homes and sales offices are capitalized as they are: (1) reasonably expected to be recovered from the sale of the project; and (2) incurred for (a) tangible assets that are used directly throughout the selling period to aid in the sale of the project or (b) services that have been performed to obtain regulatory approval of sales. Capitalized marketing costs are included in prepaid and other assets in the homebuilding section of the accompanying consolidated balance sheets and the associated amortization expense is included in selling, general and administrative (“SG&A”) in the homebuilding section of the accompanying consolidated statements of operations as the homes in the related subdivision are delivered. We allocate all capitalized marketing costs equally to each house within a subdivision and record expense as homes close over the life of a subdivision. All other marketing costs are expensed as incurred.

Variable Interest Entities. In accordance with ASC Topic 810, *Consolidation* (“ASC 810”), we analyze our land option contracts and other contractual arrangements to determine whether the corresponding land sellers are variable interest entities (“VIEs”) and, if so, whether we are the primary beneficiary. Although we do not have legal title to the optioned land, ASC 810 requires a company to consolidate a VIE if the company is determined to be the primary beneficiary. In determining whether we are the primary beneficiary, we consider, among other things, whether we have the power to direct the activities of the VIE that most significantly impact VIE’s economic performance, including, but not limited to, determining or limiting the scope or purpose of the VIE, selling or transferring property owned or controlled by the VIE, or arranging financing for the VIE. We also consider whether we have the obligation to absorb losses of the VIE or the right to receive benefits from the VIE. We have concluded that, as of December 31, 2014, we were not the primary beneficiary of any VIEs from which we are purchasing land under land option contracts.

Related Party Assets. Our related party assets are debt security bonds acquired from a quasi-municipal corporation in the state of Colorado. See Note 15 to the Consolidated Financial Statements.

Goodwill. In accordance with ASC Topic 350, *Intangibles—Goodwill and Other* (“ASC 350”), we evaluate goodwill for possible impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. We use a three step process to assess the realizability of goodwill. The first step is a qualitative assessment that analyzes current economic indicators associated with a particular reporting unit. For example, we analyze changes in economic, market and industry conditions, business strategy, cost factors, and financial performance, among others, to determine if there would be a significant decline to the fair value of a particular reporting unit. If the qualitative assessment indicates a stable or improved fair value, no further testing is required.

If a qualitative assessment indicates that a significant decline to fair value of a reporting unit is more likely than not, or if a reporting unit’s fair value has historically been closer to its carrying value, we will proceed to the second step where we calculate the fair value of a reporting unit based on discounted future probability-weighted cash flows. If this step indicates that the carrying value of a reporting unit is in excess of its fair value, we will proceed to the third step where the fair value of the reporting unit will be allocated to assets and liabilities as they would in a business combination. Impairment occurs when the carrying amount of goodwill exceeds its estimated fair value calculated in the third step.

Based on our analysis, we have concluded as of December 31, 2014, our goodwill was not impaired.

Liability for Unrecognized Tax Benefits. ASC Topic 740, *Income Taxes*, regarding liabilities for unrecognized tax benefits provides guidance for the recognition and measurement in financial statements of uncertain tax positions taken or expected to be taken in a tax return.

The evaluation of a tax position is a two-step process, the first step being recognition. We determine whether it is more-likely-than-not that a tax position will be sustained upon tax examination, including resolution of any related appeals or litigation, based on the technical merits of the position. The technical merits of a tax position derive from both statutory and judicial authority (legislation and statutes, legislative intent, regulations, rulings, and case law) and their applicability to the facts and circumstances of the tax position. If a tax position does not meet the more-likely-than-not recognition threshold, the benefit of that position is not recognized in the financial statements.

The second step is measurement. A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured as the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate resolution with a taxing authority. Once the gross unrecognized tax benefit is determined, we also accrue for any interest and penalties, as well as any offsets expected from resultant amendments to federal or state tax returns. We record the aggregate effect of these items in income tax expense in the consolidated statements of operations. To the extent this tax position would be offset against a similar deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward if such settlement is required or expected in the event the uncertain tax position is disallowed, the

liability is treated as a reduction to the related deferred tax asset for a net operating loss carryforward, a similar tax loss or a tax credit carryforward. Otherwise, we record the corresponding liability in accrued liabilities in the homebuilding section of our consolidated balance sheets.

Warranty Accrual. Our homes are sold with limited third-party warranties. Under our agreement with the issuer of the third-party warranties, we are responsible for performing all of the work for the first two years of the warranty coverage and paying for substantially all of the work required to be performed during years three through ten of the warranties. We record accruals for general and structural warranty claims, as well as accruals for known, unusual warranty-related expenditures. Warranty accrual is recorded based upon historical payment experience in an amount estimated to be adequate to cover expected costs of materials and outside labor during warranty periods. The determination of the warranty accrual rate for closed homes and the evaluation of our warranty accrual balance at period end are based on an internally developed analysis that includes known facts and interpretations of circumstances, including, among other things, our trends in historical warranty payment levels and warranty payments for claims not considered to be normal and recurring.

Warranty payments are recorded against the warranty accrual. Additional reserves may be established for known, unusual warranty-related expenditures not covered through the independent warranty accrual analysis performed by us. Warranty payments incurred for an individual house may differ from the related reserve established for the home at the time it was closed. The actual disbursements for warranty claims are evaluated in the aggregate to determine if an adjustment to the historical warranty accrual should be recorded.

We assess the reasonableness and adequacy of the reserve and the per-unit reserve amount originally included in home cost of sales, as well as the timing of the reversal of any excess reserve on a quarterly basis, using historical payment data and other relevant information. Warranty accrual is included in accrued liabilities in the homebuilding section of our consolidated balance sheets and adjustments to our warranty accrual is recorded as an increase or reduction to home cost of sales in the homebuilding section of our consolidated statements of operations.

Insurance Reserves. The establishment of reserves for estimated losses associated with insurance policies issued by Allegiant and re-insurance agreements issued by StarAmerican are based on actuarial developed studies that include known facts and interpretations of circumstances, including our experience with similar cases and historical trends involving claim payment patterns, pending levels of unpaid claims, product mix or concentration, claim severity, frequency patterns depending on the business conducted, and changing regulatory and legal environments.

Mortgage Loan Loss Reserves. In the normal course of business, we establish reserves for potential losses associated with HomeAmerican's sale of mortgage loans to third-parties. These reserves are created to address repurchase and indemnity claims by third-party purchasers of the mortgage loans, which claims arise primarily out of, but not limited to, allegations of homebuyer fraud at the time of origination of the loan, missing documentation, loan processing defects or defective appraisals. These reserves are based upon, among other matters: (1) pending claims received from third-party purchasers associated with previously sold mortgage loans; (2) a current assessment of the potential exposure associated with future claims of loan processing defects or homebuyer fraud in mortgage loans originated in prior periods; and (3) historical loss experience.

In addition to reserves established for mortgage loans previously sold to third-parties, we establish reserves for loans that we have repurchased if we believe the loss is likely and estimable. Our mortgage loan reserves are reflected as a component of accrued liabilities in the financial services section of the accompanying consolidated balance sheets, and the associated expenses are included in expenses in the financial services section of the accompanying consolidated statements of operations. See Note 17 to the Consolidated Financial Statements.

Litigation Reserves. We and certain of our subsidiaries have been named as defendants in various cases. We reserve for estimated exposure with respect to these cases based upon currently available information on each case. See Note 17 to the Consolidated Financial Statements.

Derivative Financial Instruments. The derivative instruments we utilize in the normal course of business are interest rate lock commitments and forward sales of mortgage-backed securities, both of which typically are short-term in nature. Forward sales of mortgage-backed securities are utilized to hedge changes in fair value of our interest rate lock commitments as well as mortgage loans held-for-sale not under commitments to sell. For forward sales of securities, as well as interest rate lock commitments that are still outstanding at the end of a reporting period, we record the changes in fair value of the derivatives in revenues in the financial services section of our consolidated statements of operations with an offset to prepaid expenses and other assets or accounts payable and accrued liabilities in the

financial services section of our accompanying consolidated balance sheets, depending on the nature of the change.

At December 31, 2014 and 2013, we had interest rate lock commitments with aggregate principal balances of approximately \$42.8 million and \$69.8 million, respectively, at average interest rates of 3.69% and 4.13%, respectively. In addition, we had \$13.6 million and \$25.9 million of mortgage loans held-for-sale at December 31, 2014 and 2013, respectively, that had not yet been committed to a mortgage purchaser. In order to hedge the changes in fair value of our interest rate lock commitments and mortgage loans held-for-sale which had not yet been committed to a mortgage purchaser, we had forward sales of securities totaling \$41.0 million and \$74.5 million at December 31, 2014 and 2013, respectively.

For the years ended December 31, 2014, 2013 and 2012, we recorded net gains (losses) on our derivatives of \$(0.8) million, \$(0.1) million and \$1.1 million, respectively. For further discussion of our policies regarding interest rate lock commitments, see our “Revenue Recognition for HomeAmerican” accounting policy section below.

Revenue Recognition for Homebuilding Segments. Revenue from home closings and land sales is recognized when the closing has occurred, title has passed, adequate initial and continuing investment by the buyer is received, possession and other attributes of ownership have been transferred to the buyer and we are not obligated to perform significant additional activities after closing and delivery. If the buyer has provided sufficient initial and continuing investment, and all other revenue recognition criteria have been met, revenue is recognized on the date of closing. Revenue from a home closing includes the base sales price and any purchased options and upgrades and is reduced for any sales price incentives.

We defer Operating Margin related to the sale of a home if all of the following criteria are present: (1) HomeAmerican originates the mortgage loan; (2) HomeAmerican has not sold the mortgage loan, or loans, as of the end of the pertinent reporting period; and (3) the homebuyer's down payment does not meet the initial or continuing investment criteria. The deferral is subsequently recognized at the time HomeAmerican sells the homebuyer's mortgage loan, or loans, to a third-party purchaser. In the event the Operating Margin is a loss, we recognize such loss at the time the home is closed. We did not have any homes that closed during the years ended December 31, 2014, 2013 or 2012 that failed to meet the continuing investment criteria.

Revenue Recognition for HomeAmerican. Revenues recorded by HomeAmerican primarily include origination fees and the corresponding sale of a loan and either the release or retention of a loan's servicing rights. Origination fees are recognized when a loan is originated. When an interest rate lock commitment is made to a customer, we record the expected gain on sale of the mortgage including servicing rights, adjusted for a pull-through percentage (which is defined as the likelihood that an interest rate lock commitment will be originated), as revenue. As the interest rate lock commitment gets closer to being originated, the expected gain on the sale of that loan plus its servicing rights is updated to reflect current market value and the increase or decrease in the fair value of that interest rate lock commitment is recorded through revenues. At the same time, the expected pull-through percentage of the interest rate lock commitment to be originated is updated (typically an increase as the interest lock commitment gets closer to origination) and, if there has been a change, revenues are adjusted as necessary. After origination, our mortgage loans, generally including their servicing rights, are sold to third-party purchasers in accordance with sale agreements entered into by us with a third-party purchaser of the loans. We make representations and warranties with respect to the status of loans transferred in the sale agreements. The sale agreements generally include statements acknowledging the transfer of the loans is intended by both parties to constitute a sale. Sale of a mortgage loan has occurred when the following criteria, among others, have been met: (1) fair consideration has been paid for transfer of the loan by a third party in an arms-length transaction, (2) all the usual risks and rewards of ownership that are in substance a sale have been transferred by us to the third party purchaser; and (3) we do not have a substantial continuing involvement with the mortgage loan.

We measure mortgage loans held-for-sale at fair value with the changes in fair value being reported in earnings at each reporting date. The impact of recording changes in fair value to earnings did not have a material impact on our financial position, results of operations or cash flows during the years ended December 31, 2014, 2013 or 2012. Gains on sales of mortgage loans, net, were \$15.5 million, \$28.7 million and \$21.7 million for the years ended December 31, 2014, 2013 and 2012, respectively, and are included as a component of revenues in the financial services section of the consolidated statements of operations.

Home Cost of Sales. Home cost of sales includes the specific construction costs of each home and all applicable land acquisition, land development and related costs, both incurred and estimated to be incurred, warranty costs and finance and closing costs, including closing cost incentives. We use the specific identification method for the purpose of accumulating home construction costs and allocate costs to each lot within a subdivision associated with land acquisition and land development based upon relative fair value of the lots prior to home construction. Lots within a subdivision typically have comparable fair values, and, as such, we generally allocate costs equally to each lot within a subdivision. We record all home cost of sales when a home is closed on a house-by-house basis.

When a home is closed, we generally have not yet paid and recorded all costs necessary to complete the construction of the home and certain land development costs. At the time of a home closing, we compare the home construction budgets to actual recorded costs to determine the additional costs remaining to be paid on each closed home. For amounts not incurred or paid as of the time of closing a home, we record an estimated accrual associated with certain home construction and land development costs. Generally, these accruals are established based upon contracted work which has yet to be paid, open work orders not paid at the time of home closing, as well as land completion costs more likely than not to be incurred, and represent estimates believed to be adequate to cover the expected remaining home construction and land development costs. We monitor the adequacy of these accruals on a house-by-house basis and in the aggregate on a subdivision-by-subdivision basis. At December 31, 2014 and 2013, we had \$10.1 million and \$9.6 million, respectively, of land development and home construction accruals for closed homes. Actual results could differ from such estimates.

Stock-Based Compensation Expense. Stock-based compensation expense for all share-based payment awards is based on the grant date fair value. The grant date fair value for stock option awards is estimated using the Black-Scholes option pricing model and the grant date fair value for restricted stock awards is based upon the closing price of our common stock on the date of grant. We recognize these compensation costs net of estimated forfeitures. For stock option awards with service conditions only, we recognize stock-based compensation expense on a straight-line basis over the requisite service period of the award, which is currently the vesting term of up to seven years. For our stock option awards with performance conditions, we recognize stock-based compensation expense on a straight-line basis for each performance criteria tranche (if applicable) over the period between the date that it is determined the performance conditions related to each tranche (if applicable) are probable to be met and the date the option vests.

Earnings (Loss) Per Common Share. For purposes of calculating earnings (loss) per share ("EPS"), a company that has participating security holders (for example, unvested restricted stock that has nonforfeitable dividend rights) is required to utilize the two-class method for calculating earnings per share unless the treasury stock method results in lower EPS. The two-class method is an allocation of earnings/(loss) between the holders of common stock and a company's participating security holders. Under the two-class method, earnings/(loss) for the reporting period are allocated between common shareholders and other security holders based on their respective rights to receive distributed earnings (i.e., dividends) and undistributed earnings (i.e., net income/(loss)). Currently, we have one class of security and we have participating security holders consisting of shareholders of unvested restricted stock. Basic EPS is calculated by dividing income or loss attributable to common stockholders by the weighted average number of shares of common stock outstanding. To calculate diluted EPS, basic EPS is further adjusted to include the effect of potential dilutive stock options outstanding.

Recently Issued Accounting Standards. In July 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2013-11, *Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists* ("ASU 2013-11"). This update requires companies to present an unrecognized tax benefit, or a portion of an unrecognized tax benefit, as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, unless certain conditions exist. ASU 2013-11 was effective for our interim and annual periods beginning January 1, 2014. The adoption of ASU 2013-11 did not have a material impact on our consolidated financial position or results of operations.

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers* ("ASU 2014-09"), which is a comprehensive new revenue recognition model. Under ASU 2014-09, a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods and services. ASU 2014-09 is effective for our interim and annual reporting periods beginning after December 15, 2016, and is to be applied retrospectively, with early application not permitted. We are currently evaluating the impact the pronouncement will have on our consolidated financial statements and related disclosures.

In June 2014, the FASB issued ASU 2014-11, *Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures* ("ASU 2014-11"), which makes limited amendments to Accounting Standards Codification ("ASC") Topic 860, "Transfers and Servicing." ASU 2014-11 requires entities to account for repurchase-to-maturity transactions as secured borrowings, eliminates accounting guidance on linked repurchase financing transactions, and expands disclosure requirements related to certain transfers of financial assets. ASU 2014-11 is effective for our fiscal periods beginning January 1, 2015 and interim periods beginning April 1, 2015. Early adoption is not permitted. This guidance is not expected to have a material impact on our consolidated financial statements.

2. Supplemental Cash Flow Disclosure

The table below sets forth supplemental disclosures of cash flow information and non-cash investing and financing activities.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Cash paid for:			
Interest, net of interest capitalized	\$1,843	\$-	\$1,083
Income taxes	\$2,793	\$5,161	\$577
Non-cash investing and financing activities:			
Unrealized holding gains (losses) on marketable securities	\$(1,120)	\$6,737	\$12,078

3. Segment Reporting

Our operating segments are defined as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the Chief Operating Decision Maker (“CODM”), or decision-making group, to evaluate performance and make operating decisions. We have identified our CODM as two key executives—the Chief Executive Officer and the Chief Operating Officer.

We have identified each homebuilding division as an operating segment. Our operating segments have been aggregated into the reportable segments noted below because they are similar in the following regards: (1) economic characteristics; (2) housing products; (3) class of homebuyer; (4) regulatory environments; and (5) methods used to construct and sell homes. Our homebuilding reportable segments are as follows:

West (Arizona, California, Nevada and Washington)

Mountain (Colorado and Utah)

East (Virginia, Florida, Illinois and Maryland, which includes Pennsylvania and New Jersey)

Our financial services business consists of the operations of the following operating segments: (1) HomeAmerican; (2) Allegiant; (3) StarAmerican; (4) American Home Insurance Agency, Inc.; and (5) American Home Title and Escrow Company. Due to its contributions to consolidated pretax income we consider HomeAmerican to be a reportable segment, mortgage operations. The remaining operating segments have been aggregated into one reportable segment, other, because they do not individually exceed 10 percent of: (1) consolidated revenue; (2) the greater of (A) the combined reported profit of all operating segments that did not report a loss or (B) the positive value of the combined reported loss of all operating segments that reported losses; or (3) consolidated assets.

Corporate is a non-operating segment that develops and implements strategic initiatives and supports our operating divisions by centralizing key administrative functions such as finance and treasury, information technology, insurance and risk management, litigation and human resources. Corporate also provides the necessary administrative functions to support MDC as a publicly traded company. A portion of the expenses incurred by Corporate are allocated to the homebuilding operating segments based on their respective percentages of assets, and to a lesser degree, a portion of Corporate expenses are allocated to the financial services segments. A majority of Corporate's personnel and resources are primarily dedicated to activities relating to the homebuilding segments, and, therefore, the balance of any unallocated Corporate expenses is included in the homebuilding segment.

The following table summarizes home and land sale revenues for our homebuilding operations and revenues for our financial services operations.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Homebuilding			
West	\$770,051	\$671,278	\$516,079
Mountain	534,244	546,801	355,368
East	346,336	411,096	284,695
Total home and land sale revenues	\$1,650,631	\$1,629,175	\$1,156,142
Financial Services			
Mortgage operations	\$25,887	\$34,976	\$35,123
Other	18,066	16,283	11,758
Total financial services revenues	\$43,953	\$51,259	\$46,881
Total revenues	\$1,694,584	\$1,680,434	\$1,203,023

The following table summarizes pretax income (loss) for our homebuilding and financial services operations.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Homebuilding			
West	\$63,071	\$65,672	\$27,076
Mountain	39,343	52,392	24,302
East	10,730	19,590	11,011
Corporate	(37,340)	(37,331)	(29,772)
Total homebuilding pretax income	\$75,804	\$100,323	\$32,617
Financial Services			
Mortgage operations	\$14,034	\$21,608	\$23,939
Other	10,637	7,894	4,559
Total financial services pretax income	\$24,671	\$29,502	\$28,498
Total pretax income	\$100,475	\$129,825	\$61,115

The following table summarizes total assets for our homebuilding and financial services operations. The assets in our West, Mountain and East segments consist primarily of inventory while the assets in our Corporate segment primarily

Edgar Filing: MDC HOLDINGS INC - Form 10-K

include cash and cash equivalents, marketable securities, and our deferred tax asset. The assets in our financial services segment consist mostly of cash and cash equivalents, marketable securities and mortgage loans held-for-sale.

	December 31,	
	2014	2013
	(Dollars in thousands)	
Homebuilding assets		
West	\$893,970	\$760,450
Mountain	516,971	418,796
East	343,718	297,627
Corporate	465,368	951,809
Total homebuilding assets	\$2,220,027	\$2,428,682
Financial services assets		
Mortgage operations	\$94,265	\$99,065
Other	44,146	67,702
Total financial services assets	\$138,411	\$166,767
Total assets	\$2,358,438	\$2,595,449

4. Earnings Per Share

The following table shows our basic and diluted EPS calculations:

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands, except per share amounts)		
Numerator			
Net income	\$63,143	\$314,385	\$62,699
Less: distributed earnings allocated to participating securities	(196)	-	(1,101)
Less: undistributed earnings allocated to participating securities	(60)	(4,917)	-
Net income attributable to common stockholders (numerator for basic earnings per share)	62,887	309,468	61,598
Add back: undistributed earnings allocated to participating securities	60	4,917	-
Less: undistributed earnings reallocated to participating securities	(60)	(4,879)	-
Numerator for diluted earnings per share under two class method	\$62,887	\$309,506	\$61,598
Denominator			
Weighted-average common shares outstanding	48,615,541	48,453,119	47,660,629
Add: dilutive effect of stock options	202,025	378,666	173,527
Denominator for diluted earnings per share under two class method	48,817,566	48,831,785	47,834,156
Basic Earnings Per Common Share	\$1.29	\$6.39	\$1.29
Diluted Earnings Per Common Share	\$1.29	\$6.34	\$1.29

Diluted EPS for the years ended December 31, 2014, 2013 and 2012 excluded options to purchase approximately 4.3 million, 3.8 million and 4.7 million shares, respectively, of common stock because the effect of their inclusion would be anti-dilutive.

5. Accumulated Other Comprehensive Income

The following table sets forth our changes in accumulated other comprehensive income:

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Unrealized gains (losses) on available-for-sale marketable securities ⁽¹⁾ :			
Beginning balance	\$ 7,655	\$ 4,838	\$ (7,240)
Other comprehensive income (loss) before reclassifications	(3,025)	3,255	12,473
Amounts reclassified from AOCI ⁽²⁾	(1,855)	(438)	(395)
Ending balance	\$ 2,775	\$ 7,655	\$ 4,838
Unrealized gains on available-for-sale metropolitan district bond securities ⁽¹⁾ :			
Beginning balance	\$ 3,920	\$ -	\$ -
Other comprehensive income before reclassifications	3,760	3,920	-
Amounts reclassified from AOCI	-	-	-
Ending balance	\$ 7,680	\$ 3,920	\$ -
Total ending AOCI	\$ 10,455	\$ 11,575	\$ 4,838

(1) All amounts net-of-tax.

(2) See separate table below for details about these reclassifications.

The following table sets forth the activity related to reclassifications out of accumulated other comprehensive income (loss) related to available for sale securities:

Affected Line Item in the Statements of Operations	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Homebuilding interest and other income	\$7,210	\$580	\$823

Edgar Filing: MDC HOLDINGS INC - Form 10-K

Other-than-temporary impairment of marketable securities	(4,293)	-	-

6. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements* (“ASC 820”), defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The following table sets forth the fair values and methods used for measuring the fair values of financial instruments on a recurring basis:

Financial Instrument	Hierarchy	Fair Value	
		December 31, 2014	December 31, 2013
		(Dollars in thousands)	
Marketable securities (available-for-sale)			
Equity securities	Level 1	\$ 129,560	\$ 389,323
Debt securities - maturity less than 1 year	Level 2	1,511	72,577
Debt securities - maturity 1 to 5 years	Level 2	7,643	106,566
Debt securities - maturity greater than 5 years	Level 2	17,426	19,601
Total available-for-sale securities		\$ 156,140	\$ 588,067
Mortgage loans held-for-sale, net	Level 2	\$ 88,392	\$ 92,578
Metropolitan district bond securities (related party) (available-for-sale)	Level 3	\$ 18,203	\$ 12,729

The following methods and assumptions were used to estimate the fair value of each class of financial instruments.

Cash and cash equivalents, restricted cash, trade and other receivables, prepaid and other assets, accounts payable, and accrued liabilities. Fair value approximates carrying value.

Marketable Securities. We have marketable debt and equity securities. Our equity securities consist of holdings in mutual fund securities, which invest in debt securities and holdings in corporate equities. Our debt securities consist primarily of fixed and floating rate interest earning debt securities, which may include, among others, United States government and government agency debt and corporate debt. We measure the fair value of our debt securities using a

third party pricing service that either provides quoted prices in less active markets for identical or similar securities or uses observable inputs for their pricing, both of which are level 2 inputs. As of December 31, 2014 and 2013, all of our marketable securities were treated as available-for-sale investments and, as such, we have recorded all of our marketable securities at fair value with changes in fair value being recorded as a component AOCI.

Each quarter we assess all of our securities in an unrealized loss position for potential other-than-temporary impairment (“OTTI”). Our assessment includes a consideration of many factors, both qualitative and quantitative, including the amount of the unrealized loss, the period of time the security has been in a loss position, the financial condition of the issuer and whether we have the intent and ability to hold the securities, among other factors. During third quarter of 2014, we recorded a pre-tax OTTI of \$4.3 million for certain of our mutual funds that were in a loss position as of quarter end. The OTTI is included in other-than-temporary impairment of marketable securities in the homebuilding section of our consolidated statements of operations.

The following tables set forth the amortized cost and estimated fair value of our available-for-sale marketable securities.

	December 31, 2014		December 31, 2013	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
(Dollars in thousands)				
Homebuilding:				
Equity securities	\$ 116,009	\$ 120,274	\$ 375,142	\$ 385,303
Debt securities	20,660	20,604	181,635	183,718
Total homebuilding available-for-sale marketable securities	\$ 136,669	\$ 140,878	\$ 556,777	\$ 569,021
Financial Services:				
Equity securities	\$ 9,028	\$ 9,286	\$ 4,000	\$ 4,020
Debt securities	5,930	5,976	14,721	15,026
Total financial services available-for-sale marketable securities	\$ 14,958	\$ 15,262	\$ 18,721	\$ 19,046
Total available-for-sale marketable securities	\$ 151,627	\$ 156,140	\$ 575,498	\$ 588,067

As of December 31, 2014 and 2013, our marketable securities were in a net unrealized gain position totaling \$4.5 million and \$12.6 million, respectively. Our marketable securities which were in unrealized loss positions aggregated to unrealized losses of \$3.1 million and \$1.1 million as of December 31, 2014 and 2013, respectively. The table below sets forth the debt and equity securities that were in an aggregate loss position. We do not believe that the aggregate unrealized loss related to our debt or equity securities as of December 31, 2014 is material to our operations.

Type of Investment	December 31, 2014		December 31, 2013	
	Number of Securities in Loss Position	Aggregate Fair Value of Securities in a Loss Position	Number of Securities in Loss Position	Aggregate Fair Value of Securities in a Loss Position
(Dollars in thousands)				
Debt	52	\$ (359) \$ 14,536	72	\$ (430) \$ 46,440
Equity	6	(2,738) 74,999	7	(713) 14,174
Total	58	\$ (3,097) \$ 89,535	79	\$ (1,143) \$ 60,614

Edgar Filing: MDC HOLDINGS INC - Form 10-K

The following tables set forth gross realized gains and losses from the sale of available-for-sale marketable securities, which were included in either interest and other income in the homebuilding section or interest and other income in the financial services section of our consolidated statements of operations.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Gross realized gains on sales of available-for-sale securities			
Equity securities	\$7,719	\$1,251	\$-
Debt securities	2,432	83	608
Total	\$10,151	\$1,334	\$608
Gross realized losses on sales of available-for-sale securities			
Equity securities	\$(6,183)	\$-	\$-
Debt securities	(952)	(3,794)	(1,287)
Total	\$(7,135)	\$(3,794)	\$(1,287)
Net realized gain (loss) on sales of available-for-sale securities	\$3,016	\$(2,460)	\$(679)

Mortgage Loans Held-for-Sale, Net. As of December 31, 2014, the primary components of our mortgage loans held-for-sale that are measured at fair value on a recurring basis are: (1) mortgage loans held-for-sale under commitments to sell; and (2) mortgage loans held-for-sale not under commitments to sell. At December 31, 2014 and December 31, 2013, we had \$72.3 million and \$65.1 million, respectively, of mortgage loans held-for-sale under commitments to sell for which fair value was based upon Level 2 inputs, which were the quoted market prices for those mortgage loans. At December 31, 2014 and December 31, 2013, we had \$13.6 million and \$25.9 million, respectively, of mortgage loans held-for-sale that were not under commitments to sell. The fair value for those loans was primarily based upon the estimated market price received from an outside party, which is a Level 2 fair value input.

Metro District Bond Securities (Related Party). The Metro District Bond Securities (“Metro Bonds”) are included in the homebuilding section of our accompanying consolidated balance sheets. Cash flows received by the Company from these securities reflect principal and interest payments from the quasi-municipal corporation in the state of Colorado (the “Metro District”) that are supported by an annual levy on the taxable value of real estate and personal property within the Metro District’s boundaries and a one-time fee assessed on permits obtained by MDC in the Metro District. The stated year of maturity for the Metro Bonds is 2037. However, if the unpaid principal and all accrued interest are not paid off by the year 2037, the Company will continue to receive principal and interest payments in perpetuity until the unpaid principal and accrued interest is paid in full. Since 2007 and through the first quarter of 2013, we accounted for these securities under the cost recovery method and they were not carried at fair value in accordance with ASC Topic 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality (“ASC 310-30”).

In the second quarter of 2013, we determined that these securities no longer were required to be accounted for under the cost recovery method due to an increase in the number of new homes delivered in the community coupled with the stabilization of property values within the Metro District. In accordance with ASC 310-30, we now adjust the bond principal balance on a prospective basis using an interest accretion model that utilizes future cash flows expected to be collected. Furthermore, as this investment is accounted for as an available-for-sale asset, we update its fair value on a quarterly basis, with the adjustment being recorded through AOCI. The fair value is based upon a discounted future cash flow model, which uses Level 3 inputs. The two primary unobservable inputs used in our discounted cash flow model are the forecasted number of homes to be closed, as they drive any increases to the tax base for the Metro District, and the discount rate. The table below provides quantitative data, as of December 31, 2014, regarding each unobservable input and the sensitivity of fair value to potential changes in those unobservable inputs.

Unobservable Input	Quantitative Data		Sensitivity Analysis	
	Range	Weighted Average	Movement in Fair Value from Increase in Input	Movement in Fair Value from Decrease in Input
Number of homes closed per year	0 to 123	93	Increase	Decrease
Discount rate	5.2% to 14%	10.2%	Decrease	Increase

The table set forth below summarizes the activity for our Metro Bonds.

Year Ended	
December 31,	
2014	2013

Edgar Filing: MDC HOLDINGS INC - Form 10-K

	(Dollars in thousands)	
Balance at beginning of period	\$12,729	\$5,818
Increase in fair value (recorded in other comprehensive income)	6,114	6,373
Change due to accretion of principal	1,405	1,192
Cash receipts	(2,045)	(654)
Balance at end of period	\$18,203	\$12,729

Mortgage Repurchase Facility. The debt associated with our Mortgage Repurchase Facility (see Note 16 for further discussion) is at floating rates or at fixed rates that approximate current market rates and have relatively short-term maturities, generally within 30 days. The fair value approximates carrying value and is based on Level 2 inputs.

Senior Notes. The estimated values of the senior notes in the following table are based on Level 2 inputs, including market prices of other homebuilder bonds.

	December 31, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	(Dollars in thousands)			
5 % Senior Notes due December 2014, net	\$-	\$-	\$249,814	\$258,750
5 % Senior Notes due July 2015, net	-	-	249,935	262,562
5 % Senior Notes due February 2020, net	246,450	257,950	245,871	259,688
5½% Senior Notes due January 2024	250,000	242,608	-	-
6% Senior Notes due January 2043	350,000	296,555	350,000	305,083
Total	\$846,450	\$797,113	\$1,095,620	\$1,086,083

Inventories. The table below sets forth the carrying value, at each year end, of all inventories that were impaired during each year presented.

	Carrying Value of Impaired Inventory at	
	December 31, 2014	December 31, 2013
	(Dollars in thousands)	
West	\$-	\$ -
Mountain	4,378	-
East	2,331	4,187
Total	\$6,709	\$ 4,187

Inventories with carrying values prior to impairment of \$10.7 million and \$5.8 million were determined to be impaired during the years ended December 31, 2014 and 2013, respectively. The carrying value for some of these inventories at their respective year ends may not represent the fair value they were impaired to due to activities that occurred subsequent to the measurement date. The fair values of impaired inventories were determined using Level 3 inputs. We generally determine the estimated fair value of each subdivision by determining the present value of the estimated future cash flows at discount rates that are commensurate with the risk of the subdivision under evaluation.

7. Inventories

The following table sets forth, by reportable segment, information relating to our homebuilding inventories:

	December 31, 2014	December 31, 2013
	(Dollars in thousands)	
Housing Completed or Under Construction:		
West	\$343,134	\$270,778
Mountain	220,489	194,101
East	169,069	171,821
Subtotal	732,692	636,700
Land and Land Under Development:		
West	507,252	459,512
Mountain	277,583	211,526
East	150,433	103,923
Subtotal	935,268	774,961
Total Inventories	\$1,667,960	\$1,411,661

In accordance with ASC 360, homebuilding inventories are carried at cost unless events and circumstances indicate that the carrying value of the underlying subdivision may not be recoverable. We evaluate inventories for impairment at each quarter end. Please see “*Inventories*” in Note 1 and the discussion below for more detail on the methods and assumptions that were used to estimate the fair value of our inventories.

Inventory impairments recognized by segment for the years ended December 31, 2014, 2013 and 2012 are shown in the table below:

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Housing Completed or Under Construction:			
West	\$-	\$-	\$-
Mountain	234	-	-
East	1,000	802	295
Subtotal	1,234	802	295

Land and Land Under Development:

West	-	-	-
Mountain	526	-	-
East	-	117	810
Subtotal	526	117	810
Total Inventories	\$1,760	\$919	\$1,105

During the year ended December 31, 2014, we recorded \$1.8 million of inventory impairments related to four projects; three in our Maryland division in our East segment and one in our Colorado division in our Mountain segment. During the year ended December 31, 2013, we recorded \$0.9 million of inventory impairments related to three projects in Maryland. During the year ended December 31, 2012, we recorded \$1.1 million of inventory impairments related to two projects in Maryland. These communities were all impaired based on their slow sales absorption rates experienced during each of 2014, 2013 and 2012 as well as the estimated or actual sales price reductions required to sell the remaining lots and houses.

For the years ended December 31, 2014, 2013 and 2012, we used discount rates ranging from 10% to 18% for the subdivisions that were impaired.

8. Capitalization of Interest

We capitalize interest to inventories during the period of development in accordance with ASC Topic 835, *Interest* (“ASC 835”). Homebuilding interest capitalized as a cost of inventories is included in cost of sales as related units or lots are sold. To the extent our homebuilding debt exceeds our qualified assets as defined in ASC 835, we expense a portion of the interest incurred. Qualified homebuilding assets consist of all lots and homes, excluding finished unsold homes or finished models, within projects that are actively selling or under development. The table set forth below summarizes homebuilding interest activity.

The homebuilding interest expensed in the table below relates to the portion of interest incurred where our homebuilding debt exceeded our qualified inventory for such periods in accordance with ASC 835.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Homebuilding interest incurred	\$ 66,269	\$ 61,634	\$ 42,315
Less: Interest capitalized	(65,584)	(59,908)	(41,507)
Homebuilding interest expensed	\$ 685	\$ 1,726	\$ 808
Interest capitalized, beginning of period	\$ 74,155	\$ 68,508	\$ 58,107
Plus: Interest capitalized during period	65,584	59,908	41,507
Less: Previously capitalized interest included in home cost of sales	(60,508)	(54,261)	(31,106)
Interest capitalized, end of period	\$ 79,231	\$ 74,155	\$ 68,508

9. Homebuilding Prepaid Expenses and Other Assets

The following table sets forth the components of homebuilding prepaid and other assets.

December 31,
2014 2013

	(Dollars in thousands)	
Land option deposits	\$12,895	\$15,221
Deferred marketing costs	29,231	15,830
Prepaid expenses	5,104	4,349
Goodwill	6,008	6,008
Deferred debt issuance costs, net	13,004	11,527
Other	1,754	590
Total	\$67,996	\$53,525

We experienced a significant increase in our deferred marketing costs from December 31, 2013 to December 31, 2014 due primarily to the increase in our active community count between those two years.

10. Homebuilding Accrued Liabilities and Financial Services Accounts Payable and Accrued Liabilities

The following table sets forth information relating to homebuilding accrued liabilities.

	December 31,	
	2014	2013
	(Dollars in thousands)	
Accrued compensation and related expenses	\$27,541	\$35,990
Accrued interest	23,234	24,198
Warranty accrual	18,346	22,238
Customer and escrow deposits	16,728	10,759
Land development and home construction accruals	10,108	9,592
Accrued executive deferred compensation	-	30,796
Other accrued liabilities	19,160	19,248
Total accrued liabilities	\$115,117	\$152,821

The following table sets forth information relating to financial services accounts payable and accrued liabilities.

	December 31,	
	2014	2013
	(Dollars in thousands)	
Insurance reserves	\$50,470	\$49,637
Accounts payable and other accrued liabilities	6,798	6,002
Total accounts payable and accrued liabilities	\$57,268	\$55,639

11. Warranty Accrual

The table set forth below summarizes accrual, adjustment and payment activity related to our warranty accrual for the years ended December 31, 2014, 2013 and 2012. As a result of favorable warranty payment experience relative to our estimates at the time of home closing, we reduced our warranty accrual by \$2.6 million in 2014. We had no

adjustments during the years ended December 31, 2013 and 2012. Additionally, from time to time, we change our warranty accrual rates based on payment trends. Any changes made to those rates did not materially affect our warranty expense or gross margin from home sales for the years ended December 31, 2014, 2013 and 2012.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Balance at beginning of period	\$22,238	\$23,151	\$25,525
Expense provisions	4,834	5,562	4,216
Cash payments	(6,126)	(6,475)	(6,590)
Adjustments	(2,600)	-	-
Balance at end of period	\$18,346	\$22,238	\$23,151

12. Insurance Reserves

The following table summarizes the insurance reserve activity for the years ended December 31, 2014, 2013 and 2012. The insurance reserve is included as a component of accrued liabilities in the financial services section of the accompanying consolidated balance sheets.

	December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Balance at beginning of period	\$49,637	\$47,852	\$49,376
Expense provisions	6,316	7,065	4,565
Cash payments, net of recoveries	(5,483)	(5,280)	(8,020)
Adjustments	-	-	1,931
Balance at end of period	\$50,470	\$49,637	\$47,852

The \$1.9 million adjustment to increase our insurance reserve during the year ended December 31, 2012 primarily resulted from an increase in the severity and frequency of insurance claim experience relative to prior period estimates. No such adjustments were required for the years ended December 31, 2014 and 2013.

In the ordinary course of business, we make payments from our insurance reserves to settle litigation claims arising primarily from our homebuilding activities. These payments are irregular in both their timing and their magnitude. As a result, the cash payments, net of recoveries shown for the years ended December 31, 2014, 2013, and 2012, are not necessarily indicative of what future cash payments will be for subsequent periods.

13. Deferred Compensation Retirement Plans

Effective August 1, 2008, the Company entered into amended and restated employment agreements (as amended on March 8, 2012, the “Employment Agreements”) with Larry A. Mizel, Chairman of the Board and Chief Executive Officer, and David D. Mandarich, President and Chief Operating Officer (collectively, the “Executive Officers”), which provided certain annual post-retirement pension benefits (the “Retirement Benefits”) depending on the year of retirement. In response to concerns expressed by significant institutional investors, and in accordance with the recommendation of an independent compensation consultant to the Company’s Compensation Committee, the Company announced that it had reached agreements (collectively, the “Second Amendments”) with the Executive Officers for the early termination, effective on October 18, 2013, of the Retirement Benefits contained in their respective Employment Agreements. Pursuant to the Second Amendments, on October 20, 2014, the Company paid each of Mr. Mizel and Mr. Mandarich a deferred lump sum in the amount of \$14.8 million and \$16.0 million, respectively, in full satisfaction of their past, present and future Retirement Benefits. The Company’s termination of the Retirement Benefits is irrevocable. As a result of the termination of the Retirement Benefits, the Company will no longer incur ongoing Retirement Benefit accruals.

Because the Company believed that it was more likely than not that the Second Amendment payments would not be deductible for tax purposes under Internal Revenue Code (“IRC”) Section 162(m), we wrote off approximately \$11.9 million of our deferred tax asset in 2013.

14. Income Taxes

Our provision for (benefit from) income taxes for the years ended December 31, 2014, 2013 and 2012 consisted of the following:

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Current tax provision (benefit)			
Federal	\$1,631	\$2,611	\$(374)
State	1,475	-	(1,210)
Total current	3,106	2,611	(1,584)
Deferred tax provision (benefit)			
Federal	28,630	(171,037)	-
State	5,596	(16,134)	-
Total deferred	34,226	(187,171)	-
Provision for (benefit from) income taxes	\$37,332	\$(184,560)	\$(1,584)

F-25

The provision for (benefit from) income taxes differs from the amount that would be computed by applying the statutory federal income tax rate of 35% to income before income taxes as a result of the following:

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Tax expense computed at federal statutory rate	\$35,166	\$45,439	\$21,390
State income tax expense, net of federal benefit	3,340	4,544	2,139
Permanent differences	(1,435)	(358)	1,771
Expiration of state net operating loss	3,030	3,874	2,634
Tax expense (benefit) related to an increase (decrease) in unrecognized tax benefits	559	(552)	(1,857)
Write-off of deferred tax asset for deferred compensation retirement plans	-	11,856	-
Charitable contributions statute expiration	181	-	-
Federal energy credits	(1,131)	(6,530)	-
Rate changes	866	-	-
Change in valuation allowance	(1,665)	(242,833)	(27,661)
Other	(1,579)	-	-
Provision for (benefit from) income taxes	\$37,332	\$(184,560)	\$(1,584)
Effective tax (benefit) rate	37.2%	(142.2%)	(2.6%)

We recorded income tax expense of \$37.3 million for the year ended December 31, 2014 while we recorded income tax benefits of \$184.6 million and \$1.6 million for the years ended December 31, 2013 and 2012, respectively.

The income tax benefit for the year ended December 31, 2013 was due primarily to a \$187.6 million reversal of a portion of our deferred tax asset valuation allowance in the 2013 second quarter in addition to a \$6.5 million benefit from energy credits relating to current and prior years. These amounts were slightly offset by an \$11.9 million write-off of a deferred tax asset related to the termination of certain post-retirement pension benefits contained in the employment agreements of our Chief Executive Officer and Chief Operating Officer as discussed in Note 13 to the Consolidated Financial Statements. We concluded that the reversal of a portion of our valuation allowance during the 2013 second quarter was appropriate after determining that it was more likely than not, after our evaluation of all relevant positive and negative evidence, that we would be able to realize most of our deferred tax assets within the applicable carry forward periods.

The income tax benefit for the year ended December 31, 2012 was due primarily to the release of reserves related to settlements with various taxing authorities.

Due to the effects of the deferred tax valuation allowance and changes in unrecognized tax benefits, our effective tax rates in 2013 and 2012 were not meaningful as the income tax benefit is not directly correlated to the amount of pretax income or loss generated in such periods.

At December 31, 2014 we had a valuation allowance of \$13.0 million. \$6.7 million of the total valuation allowance is related to various state net operating loss carryforwards where realization is more uncertain at this time due to the more limited carryforward periods that exist in certain states. The remaining \$6.3 million is related to the amount by which the carrying value of our Metro Bonds for tax purposes exceeds our carrying value for book purposes that we believe realization is more uncertain at this time.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The tax effects of significant temporary differences that give rise to the net deferred tax asset are as follows:

	December 31,	
	2014	2013
	(Dollars in thousands)	
Deferred tax assets:		
Federal net operating loss carryforwards	\$47,200	\$72,700
State net operating loss carryforwards	36,100	38,082
Alternative minimum tax and other tax credit carryforwards	27,582	24,196
Stock-based compensation expense	22,545	26,651
Warranty, litigation and other reserves	12,364	15,543
Receivables from related party	10,273	12,132
Accrued compensation	6,442	11,136
Asset impairment charges	2,785	5,496
Inventory, additional costs capitalized for tax purposes	3,257	1,700
Other, net	1,806	3,446
Total deferred tax assets	170,354	211,082
Valuation allowance	(13,027)	(14,669)
Total deferred tax assets, net of valuation allowance	157,327	196,413
Deferred tax liabilities:		
Property, equipment and other assets	5,025	5,512
Discount on notes receivable	4,149	4,204
Deferred revenue	4,306	3,985
Unrealized gain on marketable securities	1,737	4,915
Other, net	1,624	1,535
Total deferred tax liabilities	16,841	20,151
Net deferred tax asset	\$140,486	\$176,262

At December 31, 2014, we had \$47.2 million in tax effected federal net operating loss carryforwards. These operating loss carryforwards, if unused, will begin to expire in 2030. Additionally, we had \$36.1 million in tax-effected state net operating loss carryforwards and \$0.2 million of these operating loss carryforwards are at risk to expire in 2015 if they remain unused. The remaining operating loss carryforwards, if unused, will begin to expire in 2018.

At December 31, 2014 and 2013, our total liability for uncertain tax positions was \$0.8 million and \$0.3 million, respectively, which has been either included in accrued liabilities in the homebuilding section of our consolidated balance sheets or, in accordance with ASU 2013-11, offset against our state net operating loss carryforward deferred tax asset. The following table summarizes activity for the gross unrecognized tax benefit component of our total

liability for uncertain tax positions for the years ended December 31, 2014, 2013 and 2012:

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Gross unrecognized tax benefits at beginning of year	\$371	\$575	\$2,712
Increases related to prior year tax positions	633	124	63
Decreases related to prior year tax positions	(85)	(53)	(84)
Increases related to current year tax positions	-	-	-
Decreases related to current year tax positions	-	-	-
Settlements with taxing authorities	-	-	-
Lapse of applicable statute of limitations	(14)	(275)	(2,116)
Gross unrecognized tax benefits at end of year	\$905	\$371	\$575

Our liability for gross unrecognized tax benefits was \$0.9 million and \$0.4 million at December 31, 2014 and 2013, respectively, all of which, if recognized, would reduce our effective tax rate.

The net expense (benefit) for interest and penalties reflected in the consolidated statements of operations for the years ended December 31, 2014, 2013 and 2012 was \$0.2 million, \$0 and (\$0.4) million, respectively. The corresponding liabilities in the consolidated balance sheets were \$0.3 million and \$0.3 million at December 31, 2014 and 2013, respectively.

We have taken positions in certain taxing jurisdictions for which it is reasonably possible that the total amounts of unrecognized tax benefits may decrease within the next twelve months. The possible decrease could result from the expiration of various statutes of limitation and the finalization of various state income tax matters. The estimated range of the reasonably possible decrease is \$0 to \$0.2 million.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state jurisdictions. We are subject to U.S. federal income tax examination for calendar tax years ending 2011 through 2014. Additionally, we are subject to various state income tax examinations for the 2010 through 2014 calendar tax years.

15. Related Party Transactions

We previously entered into a transaction (the "Transaction") with the Villages at Castle Rock Metropolitan District No. 6 (the "District"). The District is a quasi-municipal corporation and political subdivision of the State of Colorado. The Board of Directors of the District currently is comprised of employees of the Company. The District was formed to provide funding for certain land development costs associated with the construction of homes in our Cobblestone subdivision. Pursuant to the terms of the Transaction, the District sold to the Company approximately \$22.5 million in Limited Tax General Obligation Capital Appreciation Bonds Series 2007 (the "2007 Bonds") and a \$1.6 million Limited Tax General Obligation Subordinate Bond (the "Subordinate Bond") in exchange for title to approximately \$28.6 million in land development improvements to the District.

We initially recorded the 2007 Bonds and Subordinate Bond at an estimated \$8.9 million and \$0 fair value, respectively, based upon discounted cash flows. During the year ended December 31, 2009, we updated our evaluation of the estimated fair value of the 2007 Bonds and through this evaluation, we determined there was a decrease in the estimated cash flows from this asset and, as a result, recorded a \$1.0 million OTTI associated with the 2007 Bonds in 2009. As discussed in Note 6, in the second quarter of 2013 we determined the 2007 Bonds were no longer required to be accounted for under the cost recovery method. We adjusted the bond principal balance based on the valuation to \$18.2 million as of December 31, 2014.

During the years ended December 31, 2014, 2013 and 2012, we received payments from the District in the amount of \$2.0 million, \$0.7 million and \$0.8 million, respectively. In 2012, these payments were recorded as a reduction to the carrying value of the 2007 Bonds. As discussed in Note 6, the principal payments going forward are included in an

interest accretion model with the appropriate interest income and increase or decrease to the carrying value being recorded. We recorded \$1.4 million and \$1.2 million in interest income for the years ended December 31, 2014 and 2013, respectively, and these amounts are included in interest and other income in the homebuilding section of our consolidated statements of operations and comprehensive income.

We contributed \$1 million in cash to the MDC/Richmond American Homes Foundation (the "Foundation") for each of the years ended December 31, 2014, 2013, and 2012. The Foundation is a Delaware non-profit corporation that was incorporated on September 30, 1999.

The Foundation is a non-profit organization operated exclusively for charitable, educational and other purposes beneficial to social welfare within the meaning of Section 501(c)(3) of the Internal Revenue Code. The following Directors and/or officers of the Company are the trustees of the Foundation at December 31, 2014, all of whom serve without compensation:

Name	MDC Title
Larry A. Mizel	Chairman and Chief Executive Officer
David D. Mandarich	President
Raymond T. Baker	Director
Herbert T. Buchwald	Director

16. Lines of Credit and Total Debt Obligations

Revolving Credit Facility. On December 13, 2013, we entered into an unsecured revolving credit agreement (“Revolving Credit Facility”) with a group of lenders which may be used for general corporate purposes. This agreement was amended on December 17, 2014 to (1) increase the aggregate commitment amount by \$100 million to \$550 million (the “Commitment”) and (2) extend the maturity until December 13, 2019. Each lender may issue letters of credit in an amount up to 50% of its commitment. The facility permits an increase in the maximum Commitment amount to \$1.0 billion upon our request, subject to receipt of additional commitments from existing or additional lenders and the consent of the designated agent and the co-administrative agent. Interest rates on outstanding borrowings are determined by reference to a specified London Interbank Offered Rate (LIBOR), a specified federal funds effective rate or a specified prime rate, plus a margin that is determined based on our credit ratings and leverage ratio, as defined in the facility agreement. At any time at which our leverage ratio, as of the last day of the most recent calendar quarter, exceeds 55%, the aggregate principal amount of all consolidated senior debt borrowings outstanding may not exceed the borrowing base. There is no borrowing base requirement if our leverage ratio, as of the last day of the most recent calendar quarter, is 55% or less.

The Revolving Credit Facility is fully and unconditionally guaranteed, jointly and severally, by most of our homebuilding segment subsidiaries. The facility contains various representations, warranties and covenants that we believe are customary for agreements of this type. The financial covenants include a consolidated tangible net worth test and a leverage test, along with a consolidated tangible net worth covenant, all as defined in the facility agreement. A failure to satisfy the foregoing tests does not constitute an event of default, but can trigger a “term-out” of the facility. A breach of the consolidated tangible net worth covenant (but not the consolidated tangible net worth test) would result in an event of default.

The Revolving Credit Facility is subject to acceleration upon certain specified events of default, including breach of the consolidated tangible net worth covenant, failure to make timely payments, breaches of certain representations or covenants, failure to pay other material indebtedness, or another person becoming beneficial owner of 50% or more of our outstanding common stock. We believe we were in compliance with the representations, warranties and covenants included in the Revolving Credit Facility as of December 31, 2014.

We incur costs associated with unused commitment fees pursuant to the terms of the Revolving Credit Facility. At December 31, 2014 and 2013, there were \$10.5 million and \$14.9 million, respectively, in letters of credit outstanding, which reduced the amounts available to be borrowed under the Revolving Credit Facility. As of December 31, 2014 we had \$15.0 million in borrowings outstanding under the Revolving Credit Facility and no outstanding borrowings as of December 31, 2013. As of December 31, 2014, availability under the Revolving Credit Facility was approximately \$524.5 million.

Mortgage Repurchase Facility. HomeAmerican has a Master Repurchase Agreement (the “Mortgage Repurchase Facility”) with U.S. Bank National Association (“USBNA”) that will expire on September 18, 2015. The Mortgage Repurchase Facility provides liquidity to HomeAmerican by providing for the sale of eligible mortgage loans to USBNA with an agreement by HomeAmerican to repurchase the mortgage loans at a future date. Until such mortgage loans are transferred back to HomeAmerican, the documents relating to such loans are held by USBNA, as custodian, pursuant to the Custody Agreement (“Custody Agreement”), dated as of November 12, 2008, by and between HomeAmerican and USBNA. The maximum aggregate commitment of the Mortgage Repurchase Facility was temporarily increased on December 29, 2014 from \$50 million to \$80 million, expiring on January 28, 2015. The Mortgage Repurchase Facility also had a temporary increase in the maximum aggregate commitment from \$50 million to \$80 million from December 31, 2013 through January 30, 2014. At December 31, 2014 and December 31, 2013, we had \$60.8 million and \$63.1 million, respectively, of mortgage loans that we were obligated to repurchase under our Mortgage Repurchase Facility. Mortgage loans that we are obligated to repurchase under the Mortgage Repurchase Facility are accounted for as a debt financing arrangement and are reported as mortgage repurchase facility in the consolidated balance sheets. Advances under the Mortgage Repurchase Facility carry a price range that is LIBOR-based. The Mortgage Repurchase Facility contains various representations, warranties and affirmative and negative covenants that we believe are customary for agreements of this type. The negative covenants include, among others, (i) a minimum Adjusted Tangible Net Worth requirement, (ii) a maximum Adjusted Tangible Net Worth Ratio, (iii) a minimum Adjusted Net Income requirement, and (iv) a minimum Liquidity requirement. The foregoing terms are defined in the Mortgage Repurchase Facility. We believe we were in compliance with the representations, warranties and covenants included in the Mortgage Repurchase Facility as of December 31, 2014.

Senior Notes. Our senior notes are not secured and, while the senior note indentures contain some restrictions on secured debt and other transactions, they do not contain financial covenants. Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by most of our homebuilding segment subsidiaries. We believe that we are in compliance with the representations, warranties and covenants in the senior note indentures.

On January 15, 2014, we issued \$250 million of 5½% Senior Notes due 2024 (the “5½% Notes”). The 5½% Notes, which pay interest semi-annually in arrears on January 15 and July 15 of each year, with payments commencing July 15, 2014, are general unsecured obligations of MDC and rank equally and ratably with our other general unsecured and unsubordinated indebtedness. We received proceeds of \$248.4 million, net of underwriting fees of \$1.6 million.

During the 2014 first quarter, we redeemed our 5 % Senior Notes due December 2014 and, in the 2014 fourth quarter, we redeemed our 5 % Senior Notes due July 2015. As a result of these transactions, we paid \$517.7 million to extinguish \$500 million in debt principal and recorded a total of \$18.2 million in losses on early extinguishments of debt.

On January 10, 2013, we issued \$250 million of 6% Senior Notes due 2043. On May 8, 2013, we issued an additional \$100 million of 6% Senior Notes due 2043, which are of the same series and have the same terms as the notes issued on January 10, 2013 (collectively the “6% Notes”). The 6% Notes, which pay interest semi-annually in arrears on January 15 and July 15 of each year, commencing July 15, 2013, are general unsecured obligations of MDC and rank equally and ratably with our other general unsecured and unsubordinated indebtedness. We received total proceeds of \$346.9 million, net of underwriting fees of \$3.1 million.

Our debt obligations at December 31, 2014 and December 31, 2013 were as follows:

	December 31,	
	2014	2013
	(Dollars in thousands)	
5 % Senior Notes due December 2014, net	\$-	\$249,814
5 % Senior Notes due July 2015, net	-	249,935
5 % Senior Notes due February 2020, net	246,450	245,871
5½% Senior Notes due January 2024	250,000	-
6% Senior Notes due January 2043	350,000	350,000
Total	\$846,450	\$1,095,620

17. Commitments and Contingencies

Surety Bonds and Letter of Credit Facilities. We are required to obtain surety bonds and letters of credit in support of our obligations for land development and subdivision improvements, homeowner association dues, warranty work, contractor license fees and earnest money deposits. At December 31, 2014, we had issued and outstanding surety bonds and letters of credit totaling \$145.2 million and \$26.8 million, respectively, including \$16.3 in letters of credit issued by HomeAmerican. The estimated cost to complete obligations related to these bonds and letters of credit was approximately \$56.1 million and \$6.1 million, respectively. The letters of credit as of December 31, 2014, excluding those issued by HomeAmerican, were outstanding under our unsecured revolving credit facility (see Note 16 for further discussion of the revolving credit facility). We expect that the obligations secured by these performance bonds and letters of credit generally will be performed in the ordinary course of business and in accordance with the applicable contractual terms. To the extent that the obligations are performed, the related performance bonds and letters of credit should be released and we should not have any continuing obligations. However, in the event any such performance bonds or letters of credit are called, our indemnity obligations could require us to reimburse the issuer of the performance bond or letter of credit.

We have made no material guarantees with respect to third-party obligations.

Mortgage Loan Loss Reserves. In the normal course of business, we establish reserves for potential losses associated with HomeAmerican's sale of mortgage loans to third-parties. These reserves are created to address repurchase and indemnity claims by third-party purchasers of the mortgage loans, which claims arise primarily out of, but not limited to, allegations of homebuyer fraud at the time of origination of the loan, missing documentation, loan processing defects or defective appraisals. These reserves are based upon, among other things: (1) pending claims received from third-party purchasers associated with previously sold mortgage loans; (2) a current assessment of the potential exposure associated with future claims of homebuyer fraud in mortgage loans originated in prior periods; and (3) historical loss experience. In addition to reserves established for mortgage loans previously sold to third-parties, we establish reserves for loans that we have been required to repurchase. Our mortgage loan reserves are reflected as a component of accrued liabilities in the financial services section of the accompanying consolidated balance sheets, and the associated expenses are included in expenses in the financial services section of the accompanying consolidated statements of operations.

The following table summarizes the mortgage loan loss reserve activity for the years ended December 31, 2014, 2013, and 2012.

	Year Ended December 31,		
	2014	2013	2012
	(Dollars in thousands)		
Balance at beginning of year	\$1,370	\$976	\$830
Expense provisions	298	1,172	437
Cash payments	-	(734)	(226)
Adjustments	(858)	(44)	(65)
Balance at end of year	\$810	\$1,370	\$976

Legal Reserves. Because of the nature of the homebuilding business, we have been named as defendants in various claims, complaints and other legal actions arising in the ordinary course of business, including product liability claims and claims associated with the sale and financing of homes. In the opinion of management, the outcome of these ordinary course matters will not have a material adverse effect upon our financial condition, results of operations or cash flows. At December 31, 2014 and 2013, respectively, we had \$3.1 million and \$5.9 million of legal accruals.

For the year ended December 31, 2012, we had various significant legal recoveries totaling \$9.8 million that were included in selling, general and administrative expenses in the homebuilding section of our consolidated statements of operations. These recoveries were realized primarily from prior claims we had made in connection with various construction defect cases. We did not have any material legal recoveries during the years ended December 31, 2014 or 2013.

Operating Leases. We have non-cancelable operating leases primarily associated with our office facilities. Rent expense under cancelable and non-cancelable operating leases totaled \$4.9 million, \$5.2 million and \$6.6 million in 2014, 2013 and 2012, respectively, and is included in either selling, general and administrative expenses in the homebuilding section or expenses in the financial services section of our consolidated statements of operations. The table below shows the future minimum payments under non-cancelable operating leases at December 31, 2014.

18. Concentration of Third-Party Mortgage Purchasers

The following table sets forth the percent of mortgage loans sold by HomeAmerican to its primary third party purchasers during 2014, 2013 and 2012. No other third parties purchased greater than 10 percent of our mortgage loans during 2014, 2013 or 2012.

	Year Ended			
	December 31,			
	2014	2013	2012	
Wells Fargo Funding, Inc.	37%	40%	58%	
PennyMac Loan Services, LLC	23%	7%	0%	
JP Morgan Chase Bank, N.A.	20%	46%	36%	
Fannie Mae	10%	4%	4%	

19. Stockholders' Equity

Common Stock Repurchase Program. At December 31, 2014, we were authorized to repurchase up to 4,000,000 shares of our common stock. We did not repurchase any shares of our common stock during the years ended December 31, 2014, 2013 or 2012. We did not hold any treasury stock at December 31, 2014.

20. Equity Incentive and Employee Benefit Plans

A summary of our equity incentive plans follows.

Employee Equity Incentive Plans. Effective March 2001, we adopted the M.D.C. Holdings, Inc. 2001 Equity Incentive Plan (the "2001 Equity Incentive Plan"). Non-qualified option awards previously granted generally vested over periods of up to seven years and expire ten years after the date of grant. Restricted stock awards generally were granted with vesting terms of up to five years. On March 26, 2011, the 2001 Equity Incentive Plan terminated and all stock option grants and restricted stock awards outstanding at the time of the plan termination may continue to be exercised, or become free of restrictions, in accordance with their terms. A total of 2.5 million shares of MDC common stock were reserved for issuance under the 2001 Equity Incentive Plan as of December 31, 2014.

On April 27, 2011, our shareholders approved the M.D.C Holdings, Inc. 2011 Equity Incentive Plan (the “2011 Equity Incentive Plan”), which provides for the grant of non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units and other equity awards to employees of the Company. Stock options granted under the 2011 Equity Incentive Plan have an exercise price that is at least equal to the fair market value of our common stock on the date the stock option is granted, generally vest in periods up to five years and expire ten years after the date of grant. At December 31, 2014, a total of 2.5 million shares of MDC common stock were reserved for issuance under the 2011 Equity Incentive Plan, of which 1.1 million shares remained available for grant under this plan as of December 31, 2014.

Director Equity Incentive Plans. Effective March 2001, we adopted the M.D.C. Holdings, Inc. Stock Option Plan for Non-Employee Directors (the “2001 Director Stock Option Plan”). Each option granted under the Director Stock Option Plan vested immediately and expires ten years from the date of grant. The 2001 Director Stock Option Plan terminated on May 21, 2012 and stock options outstanding at the time of plan termination may continue to be exercised in accordance with their terms. A total of 0.7 million shares of MDC common stock were reserved for issuance under the 2001 Director Stock Option Plan as of December 31, 2014.

Effective April 27, 2011, our shareholders approved the M.D.C. Holdings, Inc. 2011 Stock Option Plan for Non-Employee Directors (the “2011 Director Stock Option Plan”). Under the 2011 Director Stock Option Plan, non-employee directors of the Company are granted non-qualified stock options. Pursuant to the 2011 Director Stock Option Plan, on August 1 of each year, each non-employee director is granted options to purchase 25,000 shares of MDC common stock. Each option granted under the 2011 Director Stock Option Plan vests immediately, becomes exercisable six months after grant, and expires ten years from the date of grant. The option exercise price must be equal to the fair market value (as defined in the plan) of our common stock on the date of grant of the option. At December 31, 2014, a total of 0.8 million shares of MDC common stock were reserved for issuance under the 2011 Director Stock Option Plan and 0.4 million shares remained available for grant under this plan as of December 31, 2014.

Employee Benefit Plan. We have a defined contribution plan pursuant to Section 401(k) of the Internal Revenue Code where each employee may elect to make before-tax contributions up to the current tax limits. We match employee contributions on a discretionary basis and, as of December 31, 2014 we had accrued \$0.9 million related to the match that is expected to be contributed in the first quarter of 2015 for 2014 activity. For the years ended December 31, 2013 and 2012 we contributed \$0.9 million and \$0.2 million, respectively.

21. Stock Based Compensation

Determining Fair Value of Share-Based Payment Awards. We examine our historical pattern of option exercises in an effort to determine if there are any discernable activity patterns based on certain employee and non-employee populations. Based upon this evaluation, we have identified three distinct populations: (1) executives currently consisting of our Chief Executive Officer, Chief Operating Officer, Chief Financial Officer, and General Counsel (collectively, the “Executives”); (2) Non-Executive employees (“Non-Executives”); and (3) non-employee members of our board of directors (“Directors”). Accordingly, during 2014, 2013 and 2012 the Company used separate Black-Scholes option pricing model assumptions for each of the aforementioned employee and non-employee populations. The fair values for stock options granted for the years ended December 31, 2014, 2013 and 2012 were estimated using the Black-Scholes option pricing model with the following weighted-average assumptions.

	Year Ended December		
	31,		
	2014	2013	2012
Expected lives of options (in years)	4.0	4.0	7.8
Expected volatility	43.2%	45.3%	44.6%
Risk free interest rate	1.3%	0.8%	1.7%
Dividend yield rate	3.5%	3.0%	4.0%

Based on calculations using the Black-Scholes option pricing model, the weighted-average grant date fair values of stock options granted during 2014, 2013 and 2012 were \$7.48, \$9.75 and \$7.54, respectively. No stock options were granted to our CEO and COO during the years ended December 31, 2014 and 2013. As a result, the weighted average expected life of our options are higher in 2012 when compared to 2014 and 2013 as options were granted to our CEO and COO in 2012.

The expected life of employee stock options represents the weighted-average period for which the stock options are expected to remain outstanding and are derived primarily from historical exercise patterns. The expected volatility is based on the historical volatility in the price of our common stock over the most recent period commensurate with the estimated expected life of our stock options. The risk-free interest rate assumption is determined based upon observed interest rates appropriate for the expected term of our employee stock options. The dividend yield assumption is based

on our history of dividend payouts.

An annual forfeiture rate is estimated at the time of grant for all share-based payment awards with service conditions only. That rate is revised, if necessary, in subsequent periods if the actual forfeiture rate differs from our estimate. For grants made in the year ended December 31, 2014, we estimated a forfeiture rate between 30% and 45% for those share-based payment awards granted to Non-Executives. We estimate the annual forfeiture rate to be 0% for share-based payment awards with service conditions only granted to our Executives. Additionally, we estimate the annual forfeiture rate to be 0% for share-based payment awards granted to our Directors as those grants vest immediately upon grant.

F-33

Stock Option Award Activity. Stock option activity under our option plans for the years ended December 31, 2014, 2013 and 2012 were as follows.

	Year Ended December 31,					
	2014		2013		2012	
	Number of Shares	Weighted- Average Exercise Price	Number of Shares	Weighted- Average Exercise Price	Number of Shares	Weighted- Average Exercise Price

Unvested, end of year	467,708	\$ 9.51	838,541	\$ 9.50	2,045,000	\$ 8.63

⁽¹⁾ Total shares granted in 2012 include 1,000,000 performance based options granted to our CEO and COO. See further discussion regarding these grants in the “Performance Based Stock Award Activity” section below.

The total intrinsic value of options (difference between price per share as of the exercise date and the strike price, times the number of options outstanding) exercised during the years ended December 31, 2014, 2013 and 2012 was \$0.1 million, \$1.1 million and \$7.0 million, respectively.

The following table provides data for our stock options that are vested or expected to vest as of December 31, 2014.

Exercisable or expected to vest

Number outstanding	4,810,204
Weighted-average exercise price	\$37.51
Aggregate intrinsic value (in thousands)	\$2,780
Weighted-average remaining contractual term (years)	4.49

Exercisable

Number outstanding	4,129,875
Weighted-average exercise price	\$38.74
Aggregate intrinsic value (in thousands)	\$2,173
Weighted-average remaining contractual term (years)	4.59

The aggregate intrinsic values in the tables above represent the total pretax intrinsic values (the difference between the closing price of MDC's common stock on the last trading day of fiscal 2014 and the exercise price, multiplied by the number of in-the-money stock option shares) that would have been received by the option holders had all in-the-money outstanding stock options been exercised on December 31, 2014.

The following table summarizes information associated with outstanding and exercisable stock options at December 31, 2014.

Range of Exercise Price	Options Outstanding			Options Exercisable		
	Number Outstanding	Weighted-Average Remaining Contractual Life (in years)	Weighted-Average Exercise Price	Number Outstanding	Weighted-Average Remaining Contractual Life (in years)	Weighted-Average Exercise Price

\$ 23.78 - \$ 39.61	3,230,416	6.14	29.61	2,912,708	6.01	29.51
\$ 39.62 - \$ 47.53	578,000	2.88	42.88	528,000	2.39	43.17
\$ 55.45 - \$ 63.38	600,000	1.65	60.49	600,000	1.65	60.49
\$ 63.39 - \$ 71.30	180,000	1.00	68.18	180,000	1.00	68.18
\$ 71.31 - \$ 100	125,000	0.75	78.89	125,000	0.75	78.89
Total	4,855,916	4.89	\$ 37.45	4,388,208	4.63	\$ 38.31

Total compensation expense relating to stock options was \$3.3 million, \$5.6 million and \$10.6 million for the years ended December 31, 2014, 2013 and 2012, respectively. Our recognized tax benefit from this expense for the years ended December 31, 2014 and 2013 was \$1.3 million and \$2.2 million, respectively. We did not have any recognized tax benefits from compensation expense for stock options for the year ended December 31, 2012 as we were in a full valuation allowance position.

As of December 31, 2014, \$2.7 million of total unrecognized compensation cost related to stock options was expected to be recognized as an expense by the Company in the future over a weighted-average period of approximately 2.1 years.

Our realized tax benefit from stock options exercised for the years ended December 31, 2014, 2013 and 2012 was \$0, \$0.4 million and \$1.7 million, respectively.

Performance Based Stock Award Activity. On March 8, 2012, we granted a long term performance-based non-qualified stock option to each of our Chief Executive Officer and our Chief Operating Officer for 500,000 shares of common stock under our 2011 Equity Incentive Plan. In accordance with ASC 718, the performance-based awards were assigned a fair value of \$7.42 per share on the date of grant and, as of December 31, 2012, all performance targets had been achieved. Therefore, \$6.2 million of compensation expense was recognized related to the grant of these awards during the year ended December 31, 2012 with the remaining balance of the unamortized stock-based

compensation expense being amortized during the first two months of 2013, based on a vesting date of March 1, 2013.

Restricted and Unrestricted Stock Award Activity. Non-vested restricted stock awards at December 31, 2014, 2013 and 2012 and changes during those years were as follows:

	Year Ended December 31,				2012	
	2014	2013				
	Number	Weighted-Average Grant Date Fair Value	Number	Weighted-Average Grant Date Fair Value	Number	Weighted-Average Grant Date Fair Value
	of Shares		of Shares		of Shares	
Unvested, beginning of year	298,991	\$ 32.87	507,367	\$ 31.69	667,849	\$ 33.19
Granted	39,021	\$ 30.85	25,072	37.52	48,613	27.85
Vested	(141,454)	\$ 33.08	(144,841)	31.88	(197,801)	35.88
Forfeited	(12,717)	\$ 33.05	(88,607)	29.02	(11,294)	30.62
Unvested, end of year	183,841	\$ 32.27	298,991	\$ 32.87	507,367	\$ 31.69

Total compensation expense relating to restricted stock awards was \$2.7 million, \$4.0 million and \$5.6 million for the years ended December 31, 2014, 2013 and 2012, respectively. Our recognized tax benefit from this expense for the years ended December 31, 2014 and 2013 was \$1.0 million \$1.6 million, respectively. We did not have any recognized tax benefits from compensation expense for restricted stock awards for the year ended December 31, 2012 as we were in a full valuation allowance position.

At December 31, 2014, there was \$3.4 million of unrecognized compensation expense related to non-vested restricted stock awards that is expected to be recognized as an expense by us in the future over a weighted-average period of approximately 1.1 years. The total intrinsic value of unvested restricted stock awards (the closing price of MDC's common stock on the last trading day of fiscal 2014 multiplied by the number of unvested awards) at December 31, 2014 was \$4.7 million. The total intrinsic value of restricted stock which vested during each of the years ended December 31, 2014, 2013 and 2012 was \$4.2 million, \$5.5 million and \$5.9 million, respectively.

23. Supplemental Guarantor Information

Our senior notes are fully and unconditionally guaranteed on an unsecured basis, jointly and severally, by the following subsidiaries (collectively, the "Guarantor Subsidiaries"), which are 100%-owned subsidiaries of the Company.

M.D.C. Land Corporation
RAH of Florida, Inc.
Richmond American Construction, Inc.
Richmond American Homes of Arizona, Inc.
Richmond American Homes of Colorado, Inc.
Richmond American Homes of Delaware, Inc.
Richmond American Homes of Florida, LP
Richmond American Homes of Illinois, Inc.
Richmond American Homes of Maryland, Inc.
Richmond American Homes of Nevada, Inc.
Richmond American Homes of New Jersey, Inc.
Richmond American Homes of Pennsylvania, Inc.
Richmond American Homes of Utah, Inc.
Richmond American Homes of Virginia, Inc.
Richmond American Homes of Washington, Inc.

The senior note indentures do not provide for a suspension of the guarantees, but do provide that any Guarantor may be released from its guarantee so long as (1) no default or event of default exists or would result from release of such guarantee, (2) the Guarantor being released has consolidated net worth of less than 5% of the Company's consolidated net worth as of the end of the most recent fiscal quarter, (3) the Guarantors released from their guarantees in any year-end period comprise in the aggregate less than 10% (or 15% if and to the extent necessary to permit the cure of a default) of the Company's consolidated net worth as of the end of the most recent fiscal quarter, (4) such release would not have a material adverse effect on the homebuilding business of the Company and its subsidiaries and (5) the Guarantor is released from its guarantee(s) under all Specified Indebtedness (other than by reason of payment under its guarantee of Specified Indebtedness). Upon delivery of an officers' certificate and an opinion of counsel stating that all conditions precedent provided for in the indenture relating to such transactions have been complied with and the release is authorized, the guarantee will be automatically and unconditionally released. "Specified Indebtedness" means indebtedness under the senior notes, the Company's Indenture dated as of December 3, 2002, the Revolving Credit Facility, and any refinancing, extension, renewal or replacement of any of the foregoing.

We have determined that separate, full financial statements of the Guarantor Subsidiaries would not be material to investors and, accordingly, supplemental financial information for the Guarantor and Non-Guarantor Subsidiaries is presented below. As a result of our Richmond American Homes of Washington, Inc. subsidiary becoming a guarantor subsidiary in 2013, we have revised the 2012 Supplemental Condensed Combining Statements of Operations and Cash Flows to reflect this subsidiary's results in the guarantor column.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.*

None.

Item 9A. *Controls and Procedures.*

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures was performed under the supervision, and with the participation, of our management, including the principal executive officer and the principal financial officer. Based on that evaluation, our management, including the principal executive officer and principal financial officer, concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting. Under the supervision and with the participation of our management, including the principal executive officer and the principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in the *Internal Control—Integrated Framework* (2013 framework) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under this framework, management concluded that our internal control over financial reporting was effective at December 31, 2014.

Ernst & Young LLP, the independent registered public accounting firm that audited the consolidated financial statements included in this annual report on Form 10-K, has issued an attestation report on our internal control over financial reporting, which is included herein.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the fourth quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders of

M.D.C. Holdings, Inc.

We have audited M.D.C. Holdings, Inc.'s (the "Company") internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, M.D.C. Holdings, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of M.D.C. Holdings, Inc. as of December 31, 2014 and 2013, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended December 31, 2014, and our report dated January 28, 2015 expressed an unqualified opinion thereon.

PART III

Item 10. Directors. Executive Officers and Corporate Governance.

Information not disclosed below that is required with respect to directors, executive officers, filings under Section 16(a) of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”) and corporate governance is incorporated herein by reference, when filed, from our proxy statement (the “Proxy Statement”) for the Annual Meeting of Shareholders to be held on or about March 23, 2015, to be filed with the Securities and Exchange Commission pursuant to Regulation 14A under the Exchange Act.

We will provide to any shareholders or other person without charge, upon request, a copy of our Corporate Code of Conduct, Corporate Governance Guidelines, code of ethics applicable to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions (collectively “senior financial officers”) and the charters for our Audit Committee, Compensation Committee and Corporate Governance/Nominating Committee. You may obtain these documents on our website at <http://www.richmondamerican.com>, under our Investor Relations section or by contacting our Investor Relations department at 1-866-424-3395. Our intention is to post on our website any amendments to or waivers from our code of ethics applicable to our senior financial officers if such disclosure is required.

Item 11. Executive Compensation.

Information required to be set forth hereunder has been omitted and will be incorporated by reference, when filed, from our Proxy Statement.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

Information required to be set forth hereunder has been omitted and will be incorporated by reference, when filed, from our Proxy Statement

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Information required to be set forth hereunder has been omitted and will be incorporated by reference, when filed, from our Proxy Statement.

Item 14. Principal Accountant Fees and Services.

Information required to be set forth hereunder has been omitted and will be incorporated by reference, when filed, from our Proxy Statement.

PART IV

Item 15. Exhibits, Financial Statement Schedules.
