Matters to Be Voted Upon.

The following matters are to be voted upon at the 2015 annual meeting of our shareholders.

PROPOSAL ONE - ELECTION OF DIRECTORS

Our board has nominated three persons for election to our board at the 2015 annual meeting of our shareholders: Paul A. Novelly, Paul G. Lorenzini, and Dale E. Cole, each as a Class C director.

Paul A. Novelly has been our chairman of the board since inception and chief executive officer since January 2013. Mr. Novelly is chairman and chief executive officer of Apex Oil Company, Inc., a privately-held company based in St. Louis, Missouri engaged in the trading, storage, marketing, and transportation of petroleum products, including liquid terminal facilities in the Midwest and Eastern United States, and towboat and barge operations on the inland waterway system. Mr. Novelly is president and a director of AIC Limited, a Bermuda-based oil trading company, chairman, president, chief executive officer and a director of World Point Terminals, Inc., a Delaware company based in Missouri which is the general partner of World Point Terminals, LP which is a publicly traded master limited partnership which owns and operates petroleum storage facilities in the United States, and chief executive officer of St. Albans Global Management, Limited Partnership, LLLP, which provides corporate management services. He currently serves on the board of directors at Boss Holdings, Inc., a distributor of work gloves, boots and rainwear, and other consumer products, and FCB Financial Holdings, Inc., a holding company whose material subsidiary is Florida Community Bank. Within the past five years, Mr. Novelly also served on the board of directors of World Point Terminals Inc., a Canadian and Toronto Stock Exchange predecessor to World Point Terminals, Inc.

Our board believes that Mr. Novelly's experience, knowledge, skills, and expertise as our chairman since 2005 and his knowledge of our operations and effectiveness of our business strategies provide valuable perspective to our board and add significant value. Additionally, Mr. Novelly's experience as the chief executive officer of Apex Oil Company, Inc., AIC Limited, and St. Albans Global Management, Limited Partnership, LLLP and as the chairman of World Point Terminals, Inc., as well as a number of executive positions with other oil refining, terminalling, storage, and

transportation companies, are integral to our board's assessment of our business opportunities and strategic options. Finally, Mr. Novelly's service and experience as a director for other boards, including active involvement in strategic planning for those companies, strengthens the governance and functioning of our board.

Paul G. Lorenzini has been a member of our board since January 2007 and our chief operating officer since April 21, 2008. In January 1970, Mr. Lorenzini co-founded Packaging Consultants, Inc., a distribution business supplying packaging materials to the food industry. In 1983, Bunzl PLC, a supplier of supermarket and food service packaging, acquired Packaging Consultants, Inc. Mr. Lorenzini continued to work for Bunzl PLC and in 1986 became president of Bunzl USA. He subsequently became the chief executive officer and chairman of Bunzl North America and grew Bunzl North America to the largest food packaging distributor in North America and retired in July 2004 with the title of chairman emeritus. Mr. Lorenzini served as a director of Bunzl PLC between 1988 and 1991 and between 1999 and 2004.

Our board believes that Mr. Lorenzini's experience, knowledge, skills, and expertise as our chief operating officer and his knowledge of our operations and business strategies gained over his seven-plus years of service as chief operating officer provide valuable perspective to our board and add significant value. Additionally, Mr. Lorenzini's operational and management experience with Bunzl PLC, Bunzl USA, and Bunzl North America is integral to our board's assessment of our business opportunities and strategic options. Finally, Mr. Lorenzini's service and experience as a director for other boards, including active involvement in strategic planning for those companies, strengthens the governance and functioning of our board.

Dale E. Cole is a graduate of the University of Texas at Austin with an undergraduate degree in business and finance and the Graduate School of Banking at Louisiana State University. Mr. Cole's career in banking began in 1974 with Texas Bank and Trust Company in Dallas, TX. He then worked with First National Bank in Marshal, TX, and became President of Banc Texas McKinney in McKinney, TX in 1983. In 1988, Mr. Cole became Chairman and CEO of Worthen Banking Corporation, with two banks in Batesville and Newark, AR. Mr. Cole founded First Community Bank in 1997. He currently serves as Chairman and CEO of First Community Bank and its holding company. As of March 31, 2015, First Community Bank had 18 branch locations in Northeast Arkansas and Southwest Missouri and maintained assets of \$959 million. Mr. Cole previously served on the Board of Trustees of the Barret School of Banking in Memphis, TN, the Board of Visitors of the University of Arkansas Community College in Batesville, AR, the Board of the Chamber of Commerce, Economic Development Foundation in Batesville, AR, Lyon College Advisory Counsel, and the board of White River Medical Center in Batesville, AR.

Mr. Cole's extensive career in banking built in him a strong foundation in business, regulatory environments, and corporate governance. Having served on numerous committees throughout his career, including compensation, trust, executive, asset/liability, investment, and many others, Mr. Cole's well-rounded experience and exposure in banking and regulatory environments will strengthen the governance function of our board. Our nominating/corporate governance committee has determined that if elected, Mr. Cole has no disqualifying relationships with us or our subsidiaries and will be considered independent of us under applicable SEC and New York Stock Exchange regulations.

Under our certificate of incorporation, our directors are divided into three classes, serving staggered three-year terms. Mr. Novelly and Mr. Lorenzini are standing for reelection, and Mr. Cole is a new director nominee. Mr. Novelly and Mr. Lorenzini were most recently re-elected as Class C directors at our 2012 annual shareholder meeting. Each nominee has agreed, if elected at the 2015 annual meeting of our shareholders, to serve as a Class C member of our board for a three-year term expiring in 2018.

The persons named as attorneys-in-fact in the accompanying shareholder proxy card will vote for the election of the nominees listed above as director, unless authority to so vote is withheld. Although our board expects that the nominees will be available for election, in the event a vacancy in the slate of nominees occurs, shares of our common stock represented by proxies will be voted for the election of a substitute nominee selected by the persons named as attorneys-in-fact in the accompanying shareholder proxy card.

The names of the nominees for election and the other continuing members of our board, and certain other information with respect to such persons, are set forth below.

Biodiesel, petrodiesel and blends

FutureFuel enters into agreements to buy and sell biofuels (biodiesel, petrodiesel, biodiesel/petrodiesel blends, RINs, and biodiesel production byproducts) and other petroleum products such as gasoline with an affiliate from time to time. Such agreements are priced at the then current market price of the product, as determined from bids from other customers and/or market pricing services. Cost of goods sold related to these sales includes variable costs and allocated fixed costs.

Natural gas purchases

FutureFuel utilizes natural gas to generate steam for its manufacturing process and to support certain of its air and waste treatment utilities. This natural gas is purchased through an affiliate provider of natural gas marketing services. Expenses related to these purchases include the cost of the natural gas only; transportation charges are paid to an independent third party.

Income tax and consulting services

An affiliate provides professional services to FutureFuel, primarily in the area of income tax preparation and consulting. FutureFuel also receives certain finance and accounting expertise from this affiliate as requested. Expenses related to these services are comprised of an agreed quarterly fee plus reimbursement of expense, at cost.

Distribution and related services

Distribution and related services are comprised of barge transportation and related unloading charges for petrodiesel that were arranged and paid by an affiliate and subsequently rebilled to FutureFuel. Additionally, FutureFuel leases oil storage capacity from an affiliate under a storage and throughput agreement. This agreement provides for the storage of biodiesel, diesel or biodiesel/petrodiesel blends, methanol, and biodiesel feedstocks in above-ground storage tankage at designated facilities of the affiliate. Expenses related to this agreement include monthly lease charges, generally on a per barrel basis, and associated heating, throughput, and other customary terminalling charges.

Commodity trading advisory fees

FutureFuel entered into a commodity trading advisory agreement with an affiliate. Pursuant to the terms of this agreement, the affiliate provides advice to FutureFuel concerning the purchase, sale, exchange, conversion, and/or hedging of commodities as FutureFuel may request from time to time.

Travel and administrative services

FutureFuel reimburses an affiliate for travel and other administrative services incurred on its behalf. Such reimbursement is performed at cost with the affiliate realizing no profit on the transaction.

Railcar sublease agreement

FutureFuel entered into a railcar sublease agreement with an affiliate. Pursuant to the terms of this sublease, FutureFuel leased from the affiliate railcars upon the same terms, conditions, and price the affiliate leased the railcars. Lease terms for individual railcars began upon delivery of the railcars. Forty railcars were received through December 31, 2009. From the onset of this lease, FutureFuel paid lease charges directly to the entity leasing the railcars to the affiliate, as opposed to paying the affiliate itself. Hence, no related party expense is reflected in the above table, although the affiliate has essentially been guaranteeing FutureFuel's obligations to the lesser. In September 2009, the master lease was modified such that the affiliate was removed and FutureFuel leases the railcars directly, with no guarantee remaining on the part of the affiliate. Expenses related to this lease were \$329,000, \$315,000, and \$331,000 for December 31, 2014, 2013, and 2012, respectively.

This policy was adopted by our board on January 8, 2007 and amended on February 2, 2011, and can be found through the “Investor Relations - Corporate Governance” section of our internet website (<http://www.FutureFuelCorporation.com>). All of the agreements described above in this section been approved by a majority of the disinterested members of our board of directors.

In addition, we adopted a Code of Business Conduct and Ethics which sets forth legal and ethical standards of conduct for our directors, officers, and employees and the directors, officers, and employees of our subsidiaries. This Code is designed to deter wrongdoing and to promote: (i) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships; (ii) full, fair, accurate, timely, and understandable disclosure in reports and documents that we file with, or submit to, the SEC and in other public communications made by us; (iii) compliance with applicable governmental laws, rules, and regulations; (iv) the prompt internal reporting of violations of this Code to appropriate persons identified in this Code; and (v) accountability for adherence to this Code. Note: Each of the transactions described above (under the caption “Transactions with Related Persons”) was undertaken in compliance with our Code of Business Conduct and Ethics and approved by a majority of the disinterested members of our board of directors.

Compliance with Section 16(a) of the Exchange Act.

Based solely upon a review of Forms 3 and Forms 4 and amendments thereto furnished to us under the rules of the SEC promulgated under Section 16 of the Exchange Act during the fiscal year ended December 31, 2014, and Forms 5 and amendments thereto furnished to us with respect to the fiscal year ended December 31, 2014, as well as any written representation from a reporting person that no Form 5 is required, we are not aware that any officers, members of our board of directors and/or beneficial owners of more than 10% of our common stock failed to file on a timely basis, as disclosed in the aforementioned forms, reports required by Section 16 of the Exchange Act during the year ended December 31, 2014.

Standing Audit Committee.

We have a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. The members of our audit committee are: Thomas R. Evans (chairman), Donald C. Bedell, Edwin A. Levy and Paul M. Manheim.

Audit Committee Financial Expert.

Our board has determined that each member of our audit committee is an audit committee financial expert. During 2014, each such member of our audit committee was independent, as independence for audit committee members is defined in the listing standards applicable to us and in the rules of the SEC.

Board Leadership Structure and Role in Risk Oversight.

Board Leadership Structure.

We have a board currently comprised of eight members. Our chairman and chief executive officer is Mr. Novelly. Our chairman presides over all meetings of our board and at all meetings of our shareholders. He provides strategic leadership and guidance to our board and management, he advises and consults with our president, chief operating officer, and other executive officers, and he works with management and other committees of our board regarding strategies, risks, opportunities, and other matters.

Mr. Mikles is a director and prior to January 31, 2015, served as our president. In that capacity, he assisted our chief executive officer in supervision of and coordination with our executive and senior management.

Mr. Lorenzini is a director and serves as our chief operating officer. As such, his duties included developing strategic and tactical initiatives with our chief executive officer and other members of our executive management.

The five remaining members of our board are independent as described below, and these independent members comprise the membership of our board's audit committee, nominating/corporate governance committee, and compensation committee. We have not designated any of these individuals as a lead independent director and there are no plans to do so.

We believe that consolidation of the offices of chairman and chief executive officer in Mr. Novelly is the appropriate leadership structure for us at this time. His breadth of experience and expertise in both capacities qualifies him for such service. Given his constant communication with executive management, this provides for adequate linkage between the board and management.

Role in Risk Oversight.

Our board as a whole is ultimately responsible for our risk management oversight. Our board is assisted by its committees, including our audit committee and compensation committee, whose duties are described in more detail below.

The board's oversight of our material risks is undertaken through, among other things, various reports and assessments that management presents to our board or to committees of our board, and the related board or committee discussions and decisions. The committees of our board report to our board about their meetings.

Our chief executive officer addresses risk matters at regular and special board meetings. In addition, other members of senior management regularly provide reports directly to our board. Finally, our audit committee works closely with our independent public accountants in their review of risk and controls.

Corporate Governance/Director Independence.

Our board has adopted corporate governance guidelines which incorporate certain rules of the SEC and U.S. securities exchanges for use by our board when determining director independence. These guidelines include the Company's Corporate Governance Guidelines, Policy for Approving Transactions with Related Parties, and Insider Trading Policy, copies of which may be found on our website at <http://ir.futurefuelcorporation.com/governance.cfm>. Our board also broadly considers all other relevant facts and circumstances that bear on the materiality of each director's relationship with us, including the potential for conflicts of interest, when determining director independence.

The nominating/corporate governance committee of our board evaluates each incumbent director and all new director nominees based on applicable law, regulations, and rules and makes a recommendation to the full board as to the independence of directors and director nominees. Our board has determined that, of the eight current members of the board, the following five directors have no disqualifying relationships with us or our subsidiaries and are, therefore, independent: Edwin A. Levy, Thomas R. Evans, Donald C. Bedell, William J. Doré and Paul M. Manheim. In 2014, each of our board's compensation, audit, and nominating/corporate governance committees was comprised of directors who were independent under such definitions. Our nominating/corporate governance committee has determined that, if elected, Mr. Cole will qualify as an independent director under the applicable SEC and stock exchange regulations. Accordingly, if the proposed slate of nominees are elected, our board will continue to maintain a majority of independent directors. The guidelines referenced above, as well as other corporate governance initiatives adopted by us, are also available to any shareholder free of charge upon request to our corporate secretary at our principal executive office set forth above.

Our independent directors meet in executive sessions (without our management) generally before or after meetings of the directors, and will meet more often as the need arises. None of our non-management directors presides at meetings of our non-management directors. Rather, a chairman is chosen at the beginning of each meeting.

Any interested party (and not just our shareholders) may make their concerns known to our non-management directors through our website at <http://ir.futurefuelcorporation.com/contactus.cfm>. In the “comment” section on this page, please indicate that the message is for our non-management directors, and the message will be provided to them.

A copy may also be obtained free of charge by written request to our corporate secretary at our principal executive office set forth above.

Our nominating/corporate governance committee will consider director candidates recommended by our shareholders. To facilitate such nominations, our board has adopted Procedures for Shareholders Submitting Nominating Recommendations, which is Appendix B to our nominating/corporate governance committee charter. Those Procedures set forth the procedures for a shareholder to submit a director nominee recommendation, the timelines for receiving such nominations, and the information required on each director nominee. Our board has also adopted a Policy on Shareholder Recommendation of Candidates for Election as Directors, which is Appendix C to our nominating/corporate governance committee charter. This Policy sets forth the evaluation process adopted by our board. Any shareholder desiring to submit a director nominee for consideration by the nominating committee of our board for the 2016 annual meeting of our shareholders must do so in accordance with our bylaws and policies described under “Shareholder Proposals for the Next Annual Meeting” beginning at page 1 above. Director nominations should be submitted in writing to our corporate secretary, acting as agent for the nominating/corporate governance committee, at FutureFuel Corp., 8235 Forsyth Blvd., Suite 400, Clayton, Missouri 63105. A copy of such Procedures and Policy is available free of charge to any shareholder and may be obtained from our corporate secretary at our principal executive office set forth above.

Once a director nominee has been recommended, whether by a shareholder or otherwise, the nominating committee reviews the background and qualifications of the nominee in accordance with the Policy Regarding Qualifications of Directors adopted by our board, which Policy is Appendix A to our nominating/corporate governance committee charter. A copy of such Policy is available free of charge to any shareholder and may be obtained from our corporate secretary at our principal executive office set forth above. In selecting the slate of nominees to be recommended by the nominating/corporate governance committee to our board, and in an effort to maintain a proper mix of directors that results in a highly effective governing body, the nominating/corporate governance committee also considers such factors as the occupational, geographic, and age diversity of all director nominees; the particular skills and ability of each nominee to understand financial statements and finance matters generally; and the independence status of each nominee in accordance with our corporate governance guidelines, SEC rules, and other applicable laws and regulations. Our nominating/corporate governance committee does not differentiate in its evaluation of nominees as directors depending upon whether a nominee is recommended by one of our shareholders.

The nominating/corporate governance committee reports its recommendations concerning each director nominee to our board. Our board then considers the nominating/corporate governance committee’s recommendations and selects those director nominees to be submitted to the shareholders for approval at the next annual meeting of shareholders. Our board may, as a part of its consideration, request the nominating/corporate governance committee to provide it with such information pertaining to a director nominee as our board deems appropriate to fully evaluate the qualifications of the nominee.

The slate of nominees for directors for the 2015 annual meeting of our shareholders consists of Paul A. Novelly, Paul G. Lorenzini, and Dale E. Cole. Mr. Novelly and Mr. Lorenzini are standing for reelection, Mr. Cole is a new nominee recommended to the nominating committee by independent members of our Board of Directors.

Audit Committee.

As noted above, our board has a standing audit committee. The audit committee members during 2014 were: Thomas R. Evans (chairman), Edwin Levy, Donald C. Bedell and Paul M. Manheim. All members of our audit committee are independent as determined in accordance with the listing standards applicable to us.

We have adopted an audit committee charter. A copy of this audit committee charter may be accessed on our internet website at <http://ir.futurefuelcorporation.com/governance.cfm>. A copy may also be obtained free of charge from us by written request to our corporate secretary at our principal executive office set forth above.

The primary duties and responsibilities of the audit committee are to monitor: (i) the integrity of our financial statements, including the financial reporting process and systems of internal controls regarding finance and accounting; (ii) our compliance with related legal and regulatory requirements; and (iii) the independence and performance of our external auditor. The audit committee also selects our independent registered public accounting firm. Management of the Company is responsible for designing and implementing the internal controls and the financial reporting process. The independent registered public accounting firm is responsible for performing an independent audit of our financial statements in accordance with generally accepted auditing standards and issuing a report thereon. The audit committee's responsibility is to monitor and oversee these processes.

In the performance of its oversight function, the audit committee has performed the duties required by its charter, and it has reviewed and discussed our consolidated financial statements for 2014 with management and the independent registered public accounting firm. The audit committee also has discussed with the independent registered public accounting firm the matters required to be discussed by the Statement on Auditing Standards Number 61, *Communication with Audit Committees*, as amended, as adopted by the Public Company Accounting Oversight Board (or PCAOB) in Rule 3200T.

The audit committee has received the written disclosures and the letter from the independent registered public accounting firm required by the applicable requirements of PCAOB regarding the independent registered public accounting firm's communications with our audit committee concerning independence, and has discussed with the independent registered public accounting firm its independence. The audit committee also has received confirmations from management and has considered whether the provision of any non-audit services by the independent registered public accounting firm to us is compatible with maintaining the independence of the auditors.

Based upon a review of the reports by, and discussions with, management and the independent registered public accounting firm and the audit committee's review of the representations of management and the report of the independent registered public accounting firm, the audit committee recommended to our board to include the audited financial statements in our Form 10-K and Annual Report for the year ended December 31, 2014:

Thomas R. Evans, Edwin A. Levy, Donald C. Bedell and Paul M. Manheim

The original shareholder communication will be maintained on file in our corporate secretary's office and made readily available to any director who should wish to review it.

Compensation of Directors and Executive Officers.

General

Our board of directors has established a compensation committee. The compensation committee's responsibilities include, among other things, determining our policy on remuneration to our (that is, FutureFuel Corp.'s) officers and directors and the executive officers and directors of FutureFuel Chemical Company. We paid each of our directors \$30,000 for 2014 and committee heads were paid an additional \$10,000. Additionally, the compensation committee also approved the payment to our directors of \$2,000 for each board and committee meeting attended in person and \$1,000 for each board and committee meeting attended telephonically. We determined for 2014 not to pay salaries, bonuses, or other forms of cash compensation to any of our executive officers (in their capacities as such) (other than other executive officers of FutureFuel Chemical Company as described below). No other director compensation and no compensation for our executive officers have been set at this time for the calendar year 2015. Rather, our board believes it is more appropriate to set such compensation later in the year when 2015 results are capable of reasonable estimation.

In 2014 we paid salaries, bonuses, and other forms of compensation to the officers of FutureFuel Chemical Company as described below.

Compensation Discussion and Analysis

The objectives of our compensation program are to provide a competitive compensation package that rewards sustained financial and operating performance that creates long-term value for our shareholders. Our compensation programs are intended to meet the goals of attracting and retaining qualified personnel; motivating these individuals to achieve short-term and long-term corporate goals without undue risk-taking and to promote equity among executive officer positions, while considering external competitiveness and differences in job responsibilities.

The elements of our compensation program include base salary, bonuses, and certain retirement, insurance, and other benefits generally available to all employees. In addition, our board adopted an Omnibus Incentive Plan (or the "Incentive Plan") which was approved by our shareholders at our 2007 annual meeting on June 26, 2007. The Incentive Plan provides equity-based compensation to our executive officers and our directors. Our compensation committee, and the company generally, makes decisions with respect to each compensation element paid or payable to our personnel on an individual-by-individual basis and does not necessarily take into account decisions made with respect to other elements of compensation that may be paid to such individual. The overall goal of our compensation program, however, is to achieve the goals described above.

Cash Salaries and Bonuses

We determined not to pay cash salaries or bonuses to Messrs. Novelly, Lorenzini, or Mikles for 2014. Our chairman and chief executive officer, Mr. Novelly, receives compensation from our affiliate, St. Albans Global Management, Limited Partnership, LLLP. Our former president, Mr. Mikles, receives compensation from existing business enterprises and investments, none of which are affiliated with us. Neither Messrs. Novelly, nor Mikles received any increase in their salary, bonus, or other income to compensate them for their services to us. As to our other executive officers, base salaries for Mr. Dortch and Mrs. Sparks were not materially adjusted as we determined that their base salaries for 2014 were competitive with current market levels, sufficient for the services provided, and sufficient to motivate these individuals to aid in the achievement of short-term and long-term corporate goals. Mr. Flynn was a new hire during 2014, with his base salary set largely in line with our other executives at FutureFuel Chemical Company and commensurate with his experience.

For the year 2014, we established a bonus pool for the employees of our subsidiary, FutureFuel Chemical Company. The total bonus target amount was determined by the Executive Officers. Eligible FutureFuel Chemical Company employees hired after January 1, 2014 received \$250. Eligible employees hired prior to January 1, 2014 received approximately 109 hours of pay at their normal hourly rate. Salaried employees of FutureFuel Chemical Company received an additional bonus amount ranging from \$0 to \$70,000, with the larger bonuses going to FutureFuel Chemical Company's executive officers as determined by FutureFuel Chemical Company's board of directors. The bonus was paid in cash on December 12, 2014. After discussions with senior management and the review of historical financial performance, we determined the amount of bonuses distributed to Mr. Dortch, Mr. Flynn, and Ms. Sparks. Such bonus distributions were designed to be sufficient compensation for the services rendered, competitive with market rates for similar services and sufficient to motivate these individuals to aid in our achievement of short-term and long-term corporate goals.

We expect to establish an annual cash bonus program for fiscal years commencing after 2014 in an amount equal to 10% of after-tax earnings of FutureFuel Chemical Company, subject to certain adjustments, but solely on a discretionary basis. In determining actual bonus payouts for such years, we expect that the compensation committee will consider performance against performance goals to be established by us, as well as individual performance goals. We expect that this annual cash bonus program will apply to certain key employees of FutureFuel Chemical Company in addition to the executives whose compensation is described herein. The actual amount of bonuses, if any, will be determined near the end of our fiscal year.

Omnibus Incentive Plan

Our board of directors adopted the Incentive Plan, which was approved by our shareholders at our 2007 annual shareholder meeting on June 26, 2007. The purpose of the Incentive Plan is to:

encourage share ownership by key personnel whose long-term employment with or engagement by us or our subsidiaries (including FutureFuel Chemical Company) is considered essential to our continued progress and, thereby, encourage recipients to act in our shareholders' interests and share in our success; encourage such persons to remain in our employ or in the employ of our subsidiaries; and, provide incentives to persons who are not our employees to promote our success.

The Incentive Plan authorizes us to issue stock options (including incentive stock options and nonqualified stock options), stock awards, and stock appreciation rights. To date, options for 1,030,500 shares of stock and awards of 414,800 shares of stock have been made. Please see footnote 13 to our consolidated financial statements for a detailed discussion of 2014 stock based compensation awards.

Eligible participants in the Incentive Plan include: (i) members of our board of directors and our executive officers; (ii) regular, active employees of us or of any of our subsidiaries; and (iii) persons engaged by us or by any of our subsidiaries to render services to us or our subsidiaries as an advisor or consultant.

Awards under the Incentive Plan are limited to shares of our common stock, which may be shares reacquired by us, including shares purchased in the open market, or authorized but un-issued shares. Awards are limited to 10% of the issued and outstanding shares of our common stock in the aggregate, or 2,670,000 shares, as of the date of adoption of the Incentive Plan. Taking into account the prior grants of stock options and stock awards, there are 1,224,700 shares remaining to be issued under the Incentive Plan.

The Incentive Plan is administered by our board's compensation committee (or Administrator). The Administrator may appoint agents to assist it in administering the Incentive Plan. The Administrator may delegate to one or more individuals the day-to-day administration of the Incentive Plan and any of the functions assigned to the Administrator in the Incentive Plan. Such delegation may be revoked at any time. All decisions, determinations, and interpretations by the Administrator regarding the Incentive Plan and the terms and conditions of any award granted thereunder will be final and binding on all participants.

The Administrator may grant a stock option or provide for the grant of a stock option either from time to time in the discretion of the Administrator or automatically upon the occurrence of events specified by the Administrator, including the achievement of performance goals or the satisfaction of an event or condition within the control of the participant or within the control of others. Each option agreement must contain provisions regarding: (i) the number of shares of common stock that may be issued upon exercise of the option; (ii) the type of option; (iii) the exercise price of the shares and the means of payment for the shares; (iv) the term of the option; (v) such terms and conditions on the vesting or exercisability of the option as may be determined from time to time by the Administrator; (vi) restrictions on the transfer of the option and forfeiture provisions; and (vii) such further terms and conditions not inconsistent with the plan as may be determined from time to time by the Administrator. Unless otherwise specifically determined by the Administrator or otherwise set forth in the Incentive Plan, the vesting of an option will occur only while the participant is employed or rendering services to us or one of our subsidiaries, and all vesting will cease upon a participant's termination of employment for any reason.

The Administrator may grant annual performance vested options. Performance will be tied to annual cash flow targets (our consolidated income plus depreciation plus amortization) in amounts to be determined. Annual performance vested options will vest 25% for each year that the annual cash flow target is achieved (with provisions for subsequent year catch-ups). Neither our management nor our compensation committee, however, has through the year ended December 31, 2014 made any awards that were contingent upon the achievement of specified performance goals or that were otherwise performance-vested. Rather, through 2014, all grants were made in the discretion of our compensation committee based upon their authority under the Incentive Plan.

The Administrator may grant cumulative performance vested options. Performance will be tied to cumulative cash flow in amounts to be determined for periods to be determined.

The Administrator may issue other options based upon the following performance criteria either individually, alternatively, or in any combination, applied to either us as a whole or to a business unit, subsidiary, or business segment, either individually, alternatively, or in any combination, and measured either annually or cumulatively over a period of years, on an absolute basis or relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Administrator: (i) cash flow; (ii) earnings (including gross margin, earnings before interest and taxes, earnings before taxes, and net earnings); (iii) earnings per share; (iv) growth in earnings or earnings per share; (v) stock price; (vi) return on equity or average shareholders' equity; (vii) total shareholder return; (viii) return on capital; (ix) return on assets or net assets; (x) return on investment; (xi) revenue; (xii) income or net income; (xiii) operating income or net operating income; (xiv) operating profit or net operating profit; (xv) operating margin; (xvi) return on operating revenue; (xvii) market share; (xviii) overhead or other expense reduction; (xix) growth in shareholder value relative to the moving average of the S&P 500 Index or a peer group index; (xx) strategic plan development and implementation; and (xxi) any other similar criteria.

Such options will vest and expire (including on a pro rata basis) on such terms as may be determined by the Administrator from time to time consistent with the terms of the Incentive Plan.

The Administrator may award our common stock to participants. The grant, issuance, retention, or vesting of each stock award may be subject to such performance criteria and level of achievement versus these criteria as the Administrator determines, which criteria may be based on financial performance, personal performance evaluations, or completion of service by the participant. Unless otherwise provided for by the Administrator, upon the participant's termination of employment other than due to death or retirement, the unvested portions of the stock award and the shares of our common stock subject thereto will generally be forfeited. Unless otherwise provided for by the Administrator, if a participant's termination of employment is due to death or retirement, all outstanding stock awards will continue to vest provided certain conditions to be determined are met. Unless otherwise provided for by the Administrator, if a participant's termination of employment is due to his death, a portion of each outstanding stock award granted to such participant will immediately vest and all forfeiture provisions and repurchase rights will lapse as to a prorated number of shares of common stock determined by dividing the number of whole months since the grant date by the number of whole months between the grant date and the date that the stock award would have fully vested.

The Administrator may grant stock appreciation rights either alone or in conjunction with other awards. The Administrator will determine the number of shares of common stock to be subject to each award of stock appreciation rights. The award of stock appreciation rights will not be exercisable for at least six months after the date of grant except as the Administrator may otherwise determine in the event of death, disability, retirement, or voluntary termination of employment of the participant. Except as otherwise provided by the Administrator, the award of stock appreciation rights will not be exercisable unless the person exercising the award of stock appreciation rights has been at all times during the period beginning with the date of the grant thereof and ending on the date of such exercise, employed by or otherwise performing services for us or one of our subsidiaries.

In the event there is a change in control of the Company, as determined by our board, our board may, in its discretion: (i) provide for the assumption or substitution of, or adjustment to, each outstanding award; (ii) accelerate the vesting of awards and terminate any restrictions on cash awards or stock awards; and (iii) provide for the cancellation of awards for a cash payment to the participant.

Retirement Benefits

We adopted a 401(k) plan for FutureFuel Chemical Company which is generally available to all of its employees.

Say-on-Pay

At our 2014 annual meeting of shareholders held on September 3, 2014, we submitted a proposal to our shareholders regarding the 2013 compensation awarded to our executive officers (commonly known as a “say-on-pay” vote). Our shareholders approved the proposal. We hold our say-on-pay votes every three years. Our next say-on-pay vote and advisory vote on the frequency of say-on-pay votes (commonly known as “say-when-on-pay” vote) will be held at the 2017 annual meeting of shareholders.

The Compensation Committee considers the results of our say-on-pay vote as one factor in evaluating our executive compensation practices.

Life Insurance and Other Employee Benefits

Our executive officers who are not officers of FutureFuel Corp. participate in employee welfare plans (life insurance, medical insurance, disability insurance, vacation pay, and the like) maintained by FutureFuel Chemical Company for all of its employees.

The Compensation Committee

Our compensation committee currently consists of Donald C. Bedell, William J. Doré, and Edwin A. Levy. Each of these individuals is an “independent director” under the rules of the NYSE, a “Non-Employee Director” within the meaning of Section 16 of the Exchange Act, and an “outside director” within the meaning of §162(m) of the Internal Revenue Code of 1986, as amended.

The compensation committee takes these recommendations into consideration in approving all such salaries, bonuses, and awards.

(d) determining the value of option awards reported here are set forth in Note 13 to our consolidated financial statements included in our 2014 Annual Report which accompanies this proxy statement.

Mr. Flynn became FutureFuel Chemical Company's executive vice president of business and marketing

(e) effective September 2, 2014. He was awarded 125,000 shares of our common stock, of which 25,000 vested immediately.

Grants of Plan-Based Awards.

In December 2014, we granted a total of 90,000 stock options to select members of management. The options awarded have an exercise price equal to the mean between the highest and lowest quoted sales prices for FutureFuel's common stock as of the grant date as reported by the New York Stock Exchange. The options awarded vest annually over three years and expire on December 2, 2019. These option awards were recommended by our chief executive officer and approved by our board's compensation committee to reward the selected managers for 2014 performance. Please see footnote 13 to our consolidated financial statements for a discussion of the company's plan-based awards.

In May 2014, we issued a restricted stock award of 250,000 shares to Paul A. Novelly, FutureFuel's Chief Executive Officer. The restricted shares vest in three annual installments on the first, second, and third anniversaries of the grant date as service to the company is fulfilled. The total expense for the award was \$4,195,000 and will be recognized into expense equally over the three years. The restricted stock award to Mr. Novelly was made by the compensation committee of the board in its discretion in recognition of Mr. Novelly's having served without salary or bonus as chairman of our board of directors since 2006 and as our chief executive officer since January 2013. In determining the amount of the restricted stock grant, the compensation committee particularly considered the compensation paid to chief executive officers of publicly held competitors of the company during the periods involved, as well as the appreciation of the company's share price in comparison to its competitors through the date of grant.

In July 2014, we issued a restricted stock award of 125,000 shares to Paul M. Flynn, FutureFuel's Executive Vice President of Business and Marketing, upon commencement of employment on September 2, 2014. Twenty percent of the shares vested immediately. The remaining shares vest equally over the remaining annual installments on the first, second, third, and fourth anniversaries of the commencement of employment as service to the company is fulfilled. The total expense for the award was \$2,136,000 with 20% recognized immediately and the remainder to be recognized into expense equally over the four years. The restricted stock grant to Mr. Flynn was made in connection with his employment agreement dated July 2, 2014. The amount and specific terms of the restricted stock grant were negotiated as part of and incorporated into the employment agreement. The terms of the grant, including provisions for potential payments upon termination of employment or change in control of the company, were recommended by our chief executive officer as appropriate to obtain the services of a seasoned executive with 25 years of international experience in the chemical and biotech industry. The terms of the grant and Mr. Flynn's employment agreement were approved by the compensation committee of our board.

The following tables set forth certain information regarding the awards to our executive officers and certain officers of FutureFuel Chemical Company of options and shares of our common stock under the incentive plan during 2014.

Compensation Committee Interlocks and Insider Participation.

The members of our compensation committee during 2014 were Donald C. Bedell, Richard, William J. Doré, and Edwin A. Levy. The committee was chaired by Mr. Bedell. None of such individuals are or have been an officer or employee of the Company, nor did we enter into any transactions with such individuals during 2014 (other than the payment of director's fees and other compensation, as noted above, solely in their capacity as directors).

Mr. Novelly, Mr. Levy (one of our directors and a member of our compensation committee), Mr. Bedell (one of our directors and a member of our compensation committee), and Mr. Manheim (one of our directors and a member of our audit committee) are directors of World Point Terminals, Inc.; World Point Terminals, Inc. does not have a separate compensation committee.

Compensation Committee Report.

The compensation committee of our board has reviewed and discussed the Compensation Discussion and Analysis set forth above with our management. Based on this review and discussions, the compensation committee recommended to our board of directors that the Compensation Discussion and Analysis be included in this annual proxy statement:

Donald C. Bedell, William J. Doré, and Edwin A. Levy

Independent Public Accountants.

The following table shows the aggregate fees billed to us by RubinBrown LLP for professional services attributable to 2013 and 2014.

	2013	2014
Audit Fees	\$250,000	\$260,000
Audit-Related Fees	11,050	10,836
Tax Fees	24,200	27,000
All Other Fees	-	-
Total	\$285,250	\$297,836

Audit fees include professional services rendered by RubinBrown LLP to us for the audit of our annual financial statements and review of financial statements included in our Form 10-Q and services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for 2013 and 2014. Audit related fees include assurance and related services provided by RubinBrown LLP to us that are reasonably related to the performance of the audit or review of our financial statements and are not included in audit fees. In 2013 and 2014, Audit-related fees were incurred for employee benefit plan audits and comfort letter procedures provided by RubinBrown LLP. Tax fees include professional services rendered by RubinBrown LLP for tax compliance, tax advice, and tax planning. These services include a review and preparation of our federal income tax return and several state income tax returns. All other fees include any services provided by RubinBrown LLP to us that are not otherwise included in the other three categories. RubinBrown LLP did not provide any other services to us in 2013 or 2014.

Our audit committee approves the engagement of our independent auditors prior to their rendering audit or non-audit services and sets their compensation. Pursuant to SEC regulations, our audit committee approves all fees payable to the independent auditors for all routine and non-routine services provided. Our audit committee considers and approves the budget for the annual audit and financial statement review services prior to the initiation of the work.

Non-routine services in the ordinary course of business which are not prohibited under SEC regulation, such as tax planning, tax compliance, and other services generally are pre-approved on a case-by-case basis.

None of the hours expended on RubinBrown LLP's engagement to audit our financial statements for 2014 were attributed to work performed by persons who were not RubinBrown LLP's full-time, permanent employees.

Our audit committee is also required to consider the independence of RubinBrown LLP when engaging the firm to perform audit-related and other services. It was determined by our audit committee that audit-related and other services provided and the fees paid for those services for 2014 were compatible with maintaining the independence of RubinBrown LLP.

Financial Information - Annual Report.

Our Annual Report for the year ended December 31, 2014 is included herewith. We will provide without charge additional copies of our Annual Report upon written request. Requests and related inquiries should be directed to Corporate Secretary, FutureFuel Corp., 8235 Forsyth Blvd., Suite 400, Clayton, Missouri 63105.

Other Proposed Actions.

Our board knows of no other matter to come before the 2015 annual meeting of our shareholders. However, if any other matter requiring a vote of the shareholders arises, it is the intention of the persons named in the accompanying shareholder proxy to vote such proxy in accordance with their best judgment.

Voting Procedures.

Required Vote.

In accordance with Delaware law and our bylaws, our directors will be elected at the 2015 annual meeting of our shareholders by a plurality of the votes cast by shareholders. "Plurality" means that the nominees receiving the largest number of votes cast are elected as directors up to the maximum number of directors to be elected at the meeting. Any other matter on which shareholders vote at the 2015 annual meeting, including ratification of the appointment of RubinBrown LLP as our independent auditor for the year ending December 31, 2015, will be determined by the affirmative vote of a majority of the votes cast.

Quorum.

The presence, in person or by proxy, of shareholders owning shares of our common stock representing a majority of the votes entitled to be cast by shareholders at the 2015 annual meeting will constitute a quorum for the transaction of business at the annual meeting for which shareholders have the right to vote. Shareholders who deliver valid proxies or vote in person at the annual meeting will be considered part of the respective quorums. Once a share is represented for any purpose at the annual meeting, it is deemed present for quorum purposes for the remainder of the annual meeting and for any adjourned meeting. We will count abstentions as present and entitled to vote for purposes of determining the applicable quorum.

Proxies and Voting.

Shares of our common stock represented by properly executed proxies will, unless the proxies have been properly revoked, be voted in accordance with the instructions indicated on the proxies or, if no instructions are indicated, will be voted FOR the: (i) election of Paul A. Novelly, Paul G. Lorenzini, and Dale E. Cole as Class C directors of the

Company; and (ii) approval of the appointment of RubinBrown LLP as our independent auditor for 2015. You can vote for approval of a particular proposal by marking the shareholder proxy card enclosed herewith with an “X” in the box under “FOR” for such proposal. If you do not wish to vote “FOR” the election of Paul A. Novelly, Paul G. Lorenzini, or Dale E. Cole, you can mark the shareholder proxy card with an “X” in the box under “WITHHOLD” for Item 1 on the card next to their respective names, and you can vote against approval of any of the other proposals by marking the shareholder proxy card with an “X” in the box under “AGAINST” for such proposal. Abstentions (other than with respect to the election of directors) may be specified with respect to any of the resolutions by properly marking with an “X” in the box under “ABSTAIN” on the shareholder proxy card, and will be counted as present for the purpose of determining the existence of a shareholder quorum.

If you own shares in “street name” in an account at a bank or brokerage firm, we generally cannot mail our proxy materials directly to you. You may instead receive a voting instruction form with this Proxy Statement that you should use to instruct how your shares are to be voted, and you should also vote your shares by completing, signing, and returning the voting instruction form in the envelope provided. Many brokerage firms have arranged for internet or telephonic voting of shares and provide instructions for using those services on the voting instruction form. If your shares are held by a brokerage firm, the brokerage firm may under certain circumstances vote your shares. Such entities may have authority to vote their customers’ shares on certain routine matters, including the ratification of auditors. When a firm votes its customers’ shares on routine matters, those shares are also counted for the purpose of establishing a quorum to conduct business at the meeting. A brokerage firm cannot vote its customers’ shares on non-routine matters without instructions from the customers. Accordingly, those shares are not counted as votes against a non-routine matter, but rather are not counted at all for such a matter. Proposal 1 (election of directors) is not considered routine matters under New York Stock Exchange rules, so brokers do not have discretionary authority to vote shares held in street name on those items. If you hold your shares in street name and wish for your shares to be voted on these matters, you must provide your broker with voting instructions.

You also may attend the 2015 annual meeting of our shareholders and vote your shares. We encourage you to vote your shares by proxy even if you plan to attend the annual meeting. If you do attend the annual meeting, you will be asked to present valid photo identification, such as a driver's license or passport. If you hold your stock in an account at a brokerage firm or bank (in nominee name), you will need to bring a copy of an account statement reflecting such ownership on or after the July 8, 2015 record date for the meeting.

Delivery of Documents to Security Holders Sharing an Address.

Our Annual Report, Proxy Statement, and Notice of Internet Availability of Proxy Materials are being delivered to each shareholder of record, even if two or more shareholders of record share an address. Shareholders sharing an address can request delivery of a single copy of our Annual Reports, Proxy Statements, and Notices of Internet Availability of Proxy Materials by requesting the same to our corporate secretary at 8235 Forsyth Blvd., Suite 400, Clayton, Missouri 63105.
