**PART III — NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

**Bio-Techne Corporation (the "Company") is unable to file its Annual Report on Form 10-K for the year ended June 30, 2017 (the "Form 10-K") within the prescribed time period without unreasonable effort or expense due to the greater-than-anticipated time, resources and effort required to complete work related to the assessment of the Company's internal control over financial reporting. Management identified material weaknesses in internal controls at the end of its prior fiscal year. In response, during the fiscal year recently concluded on June 30, 2017, the Company redesigned a substantial number of controls, with a particular focus at several of our smaller locations acquired over the past several years. The Company believes it has made significant progress in changing the design of our controls as of June 30, 2017; however, the Company believes that material weaknesses still remain within some aspects of its internal control framework. Therefore, the Company requires some additional time to appropriately define and address the root causes of the material weaknesses and the path toward remediation prior to filing the Form 10-K. The Company currently does not expect any material changes to the results that have been reported in its previously disclosed results for the fourth quarter and 2017 fiscal year end. The Company expects to file the Form 10-K within the 15 calendar day period allowed under Rule 12b-25.**
