Form 10-Q
October 31, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-35435

Proto Labs, Inc.

(Exact name of registrant as specified in its charter)

Minnesota

(State or other jurisdiction of incorporation or organization)

41-1939628

(I.R.S. Employer Identification No.)

5540 Pioneer Creek Drive

Maple Plain, Minnesota

(Address of principal executive offices)

55359

(Zip Code)

(763) 479-3680

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	(Do not check if a smaller reporting company)
Smaller reporting company	Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 26,645,826 shares of Common Stock, par value \$0.001 per share, were outstanding at October 24, 2017.

The accompanying notes are an integral part of these consolidated financial statements.

Note 1 – Basis of Presentation

The unaudited interim Consolidated Financial Statements of Proto Labs, Inc. (Proto Labs, the Company, we, us or our) have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, the accompanying financial statements reflect all adjustments necessary for a fair presentation of the Company's statements of financial position, results of operations and cash flows for the periods presented. Except as otherwise disclosed herein, these adjustments consist of normal, recurring items. Operating results for interim periods are not necessarily indicative of results that may be expected for the fiscal year as a whole.

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses, and the related disclosures at the date of the financial statements and during the reporting period. Actual results could materially differ from these estimates. For further information, refer to the audited Consolidated Financial Statements and Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016 as filed with the Securities and Exchange Commission (SEC) on February 22, 2017.

The accompanying Consolidated Balance Sheet as of December 31, 2016 was derived from the audited Consolidated Financial Statements but does not include all disclosures required by U.S. GAAP for a full set of financial statements. This Form 10-Q should be read in conjunction with the Company's Consolidated Financial Statements and Notes included in the Annual Report on Form 10-K filed on February 22, 2017 as referenced above.

Note 2 – Recent Accounting Pronouncements

Recently Adopted Accounting Pronouncements

During the first quarter of 2017, the Company adopted the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-09, *Employee Share-Based Payment Accounting*, which is intended to simplify several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, statutory tax withholding requirements, and classification in the statement of cash flows. As a result of the adoption, the amount in excess tax benefits from stock-based compensation is recorded in our provision for income taxes. For the three and nine months ended September 30, 2017, the amount recorded in the provision for income taxes was \$0.1 million and \$0.3 million, respectively. Historically, these amounts were recorded as additional paid-in capital as required by the accounting pronouncements in force during the periods presented. In addition, for each period presented, cash flows related to excess tax benefits are now classified as an operating activity along with other income tax cash flows. Retrospective application of the cash flow presentation requirements resulted in an increase to

net cash provided by operations and a decrease to net cash provided by financing activities of \$2.0 million for the nine months ended September 30, 2016.

Recently Issued Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*. This ASU is a comprehensive new revenue recognition model that requires a company to recognize revenue from the transfer of goods or services to customers in an amount that reflects the consideration that the entity expects to receive in exchange for those goods or services. The Company is required to adopt the new pronouncement using one of two retrospective application methods.

On July 9, 2015, the FASB voted to approve a deferral of the effective date of ASU 2014-09 by one year to December 15, 2017 for annual reporting periods beginning after that date. The Company expects to adopt the new revenue standard using the modified retrospective approach. As of September 30, 2017, the Company has identified revenue streams and has completed its review of individual contracts. Based on this review, the Company expects to recognize revenue over time for the majority of contracts. While the Company is still evaluating the impact of the amended guidance, preliminarily, it does not anticipate a material impact on its financial statements including the potential impact of additional disclosure requirements. The Company expects to quantify and disclose the expected impact, if any, of adopting this amended guidance in its Annual Report on Form 10-K for the year ending December 31, 2017.

In February 2016, the FASB issued ASU 2016-02, *Leases*, which introduces the balance sheet recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases under previous guidance. The guidance will be effective for annual reporting periods beginning after December 15, 2018 and interim periods within those fiscal years with early adoption permitted. The Company is evaluating the impact of the future adoption of this standard on its consolidated financial statements, but because the Company owns a majority of its buildings and significant assets it does not expect the impact to be material.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows*, which is intended to reduce diversity in how companies present and classify certain cash receipts and cash payments in the statement of cash flows. This guidance will be effective for annual reporting periods beginning after December 15, 2017 and interim periods within those fiscal years with early adoption permitted. The Company is evaluating the impact of the future adoption of this guidance on its consolidated financial statements, but does not expect the impact to be material.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other*, which is intended to simplify the subsequent measurement of goodwill. This guidance will be effective for impairment tests in fiscal years beginning after December 15, 2019 and interim periods within those fiscal years with early adoption permitted. The Company is evaluating the impact of future adoption of this guidance on its consolidated financial statements, but does not expect the impact to be material.

In January 2017, the FASB issued ASU 2017-01, *Business Combinations*, which is intended to clarify the definition of a business to assist with evaluating whether transactions should be accounted for as acquisitions or disposals of assets or businesses. This guidance will be effective for annual reporting periods beginning after December 15, 2017 and interim periods within those fiscal years with early adoption permitted. The Company is evaluating the impact of the future adoption of this guidance on its consolidated financial statements, but does not expect the impact to be material.

In May 2017, the FASB issued ASU 2017-09, *Compensation – Stock Compensation*, which is intended to provide clarity and reduce diversity in practice as well as cost and complexity when applying the guidance to a change to the terms or conditions of a share-based payment award. This guidance will be effective for annual reporting periods beginning after December 15, 2017 and interim periods within those fiscal years with early adoption permitted. The Company is evaluating the impact of the future adoption of this guidance on its consolidated financial statements, but does not expect the impact to be material.

Note 3 – Net Income per Common Share

Basic net income per share is computed based on the weighted-average number of common shares outstanding. Diluted net income per share is computed based on the weighted-average number of common shares outstanding, increased by the number of additional shares that would have been outstanding had potentially dilutive common shares been issued and reduced by the number of shares the Company could have repurchased from the proceeds from issuance of the potentially dilutive shares. Potentially dilutive shares of common stock include stock options, restricted stock units and restricted stock awards granted under stock-based compensation plans and shares committed to be purchased under the employee stock purchase plan. Performance Stock Units are excluded from the calculation of dilutive potential common shares until the performance conditions have been satisfied.

The table below sets forth the computation of basic and diluted net income per share:

(in thousands, except share and per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Net income	\$13,220	\$11,982	\$37,506	\$33,335
Basic - weighted-average shares outstanding:	26,617,349	26,416,041	26,600,174	26,334,738
Effect of dilutive securities:				
Employee stock options and other	184,685	193,837	116,379	204,340
Diluted - weighted-average shares outstanding:	26,802,034	26,609,878	26,716,553	26,539,078
Net income per share:				
Basic	\$0.50	\$0.45	\$1.41	\$1.27
Diluted	\$0.49	\$0.45	\$1.40	\$1.26

Note 4 – Goodwill and Other Intangible Assets

There were no changes in the carrying amount of Goodwill during the three and nine months ended September 30, 2017.

Intangible Assets other than Goodwill at September 30, 2017 and December 31, 2016 were as follows:

(in thousands)	September 30, 2017			December 31, 2016			Useful Life (in years)	Weighted Average Useful Life Remaining (in years)
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net		
Intangible Assets with finite lives:								
Marketing assets	\$930	\$ (318)) \$612	\$930	\$ (248)) \$682	10.0	6.6
Non-compete agreement	190	(190)) -	190	(190)) -	2.0	-
Trade secrets	250	(171)) 79	250	(133)) 117	5.0	1.6
Internally developed software	680	(680)) -	680	(604)) 76	3.0	-
Customer relationships	2,530	(960)) 1,570	2,530	(750)) 1,780	9.0	5.6
Total intangible assets	\$4,580	\$ (2,319)) \$2,261	\$4,580	\$ (1,925)) \$2,655		

Amortization expense for intangible assets was \$0.1 million and \$0.2 million for the three months ended September 30, 2017 and 2016, respectively, and \$0.4 million and \$0.5 million for the nine months ended September 30, 2017 and 2016, respectively.

Estimated aggregated amortization expense based on the current carrying value of the amortizable intangible assets is as follows:

(in thousands)	Estimated Amortization Expense
Remaining 2017	\$ 106
2018	424
2019	391
2020	374

2021	374
Thereafter	592
Total estimated amortization expense	\$ 2,261

Note 5 – Fair Value Measurements

ASC 820, *Fair Value Measurement* (ASC 820), defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that requires classification based on observable and unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1—Quoted prices in active markets for identical assets or liabilities.

Level 2—Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3—Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company's cash consists of bank deposits. The Company's cash equivalents measured at fair value consist of money market mutual funds. The Company determines the fair value of these investments using Level 1 inputs.

The following table summarizes financial assets as of September 30, 2017 and December 31, 2016 measured at fair value on a recurring basis:

(in thousands)	September 30, 2017			December 31, 2016		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial Assets:						
Cash and cash equivalents						
Money market mutual fund	\$26,187	\$ -	\$ -	\$11,771	\$ -	\$ -
Total	\$26,187	\$ -	\$ -	\$11,771	\$ -	\$ -

Note 6 – Marketable Securities

The Company invests in short-term and long-term agency, municipal, corporate and other debt securities. The securities are categorized as held-to-maturity and are recorded at amortized cost. Categorization as held-to-maturity is based on the Company's ability and intent to hold these securities to maturity. Information regarding the Company's short-term and long-term marketable securities as of September 30, 2017 and December 31, 2016 is as follows:

(in thousands)	September 30, 2017			Fair Value
	Cost	Unrealized Gains	Unrealized Losses	
U.S. municipal securities	\$35,388	\$ 23	\$ (43)	\$35,368
Corporate debt securities	29,841	3	(68)	29,776
U.S. government agency securities	37,866	-	(125)	37,741
Certificates of	5,456	1	(25)	5,432

deposit/time deposits Total marketable securities	\$ 108,552	\$ 27	\$ (261)	\$ 108,318
---	------------	-------	---------	---	------------

(in thousands)	December 31, 2016				
	Cost	Unrealized Gains	Unrealized Losses	Fair Value	
U.S. municipal securities	\$46,578	\$ 1	\$ (187)	\$46,392
Corporate debt securities	38,490	2	(147)	38,345
U.S. government agency securities	31,706	1	(141)	31,566
Certificates of deposit/time deposits Total	7,182	12	(22)	7,172
marketable securities	\$123,956	\$ 16	\$ (497)	\$123,475

Fair values for the corporate debt securities are primarily determined based on quoted market prices (Level 1). Fair values for the U.S. municipal securities, U.S. government agency securities and certificates of deposit are primarily determined using dealer quotes or quoted market prices for similar securities (Level 2).

The Company tests for other-than-temporary losses on a quarterly basis and has considered the unrealized losses indicated above to be temporary in nature. In reaching this conclusion, the Company considered the credit quality of the issuers of the debt securities as well as the Company's intent to hold the investments to maturity and recover the full principal.

Classification of marketable securities as current or non-current is based upon the security's maturity date as of the

date of these financial statements.

The September 30, 2017 balance of held-to-maturity debt securities by contractual maturity is shown in the following table at amortized cost. Actual maturities may differ from contractual maturities because the issuers of the securities may have the right to prepay obligations without prepayment penalties.

7

	September

year or less	
Due after	
one year	55,351
through	
five years	
Total	
marketable	\$ 108,552
securities	

Note 7 – Inventory

Inventory consists primarily of raw materials, which are recorded at the lower of cost or market using the average-cost method, which approximates first-in, first-out (FIFO) cost. The Company periodically reviews its inventory for slow-moving, damaged and discontinued items and provides allowances to reduce such items identified to their recoverable amounts.

The Company's inventory consisted of the following as of the dates indicated:

	September	December
	30,	31,
(in	2017	2016
thousands)		
Raw	\$ 8,653	\$ 8,057

inventory		
	(395)	(278)

Allowance for obsolescence Inventory, net of allowance	\$ 9,789	\$ 9,310
--	----------	----------

Note 8 – Stock-Based Compensation

Under the Company's 2012 Long-Term Incentive Plan, as amended (the 2012 Plan), the Company has the ability to grant stock options, stock appreciation rights (SARs), restricted stock, restricted stock units, other stock-based awards and cash incentive awards. Awards under the 2012 Plan have a maximum term of ten years from the date of grant. The compensation committee may provide that the vesting or payment of any award will be subject to the attainment of specified performance measures in addition to the satisfaction of any continued service requirements and the compensation committee will determine whether such measures have been achieved. The per-share exercise price of stock options and SARs granted under the 2012 Plan generally may not be less than the fair market value of a share of our common stock on the date of the grant.

Employee Stock Purchase Plan

The Company's 2012 Employee Stock Purchase Plan (ESPP) allows eligible employees to purchase a variable number of shares of the Company's common stock each offering period at a discount through payroll deductions of up to 15 percent of their eligible compensation, subject to plan limitations. The ESPP provides for six-month offering periods with a single purchase period ending May 15 and November 15, respectively. At the end of each offering period, employees are able to purchase shares at 85 percent of the lower of the fair market value of the Company's common stock on the first trading day of the offering period or on the last trading day of the offering period.

Stock-Based Compensation Expense

Stock-based compensation expense was \$2.2 million and \$1.7 million for the three months ended September 30, 2017 and 2016, respectively, and \$6.2 million and \$5.3 million for the nine months ended September 30, 2017 and 2016, respectively.

Stock Options

The following table summarizes stock option activity during the nine months ended September 30, 2017:

	Stock Options	Weighted- Average Exercise Price
Options outstanding at December 31, 2016	569,639	\$ 45.00
Granted	43,095	58.35
Exercised	(136,483)	34.82
Forfeited	(16,943)	58.17
Options outstanding at September 30, 2017	459,308	\$ 48.79
Exercisable at September 30, 2017	270,705	\$ 40.54

The outstanding options generally have a term of ten years. For employees, options granted become exercisable ratably over the vesting period, which is generally a five-year period beginning on the first anniversary of the grant date, subject to the employee's continuing service to the Company. For directors, options generally become exercisable in full on the first anniversary of the grant date.

The weighted-average grant date fair value of options that were granted during the nine months ended September 30, 2017 was \$27.57.

The following table provides the assumptions used in the Black-Scholes pricing model valuation of options during the nine months ended September 30, 2017 and 2016:

Nine Months Ended	
September 30,	
2017	2016

Risk-free interest rate	2.24%	1.53	-	1.68%
Expected life (years)	6.50			6.50
Expected volatility	44.68%	44.38-		45.93%
Expected dividend yield	0%			0%

As of September 30, 2017, there was \$4.3 million of unrecognized compensation expense related to unvested stock options, which is expected to be recognized over a weighted-average period of 2.8 years.

Restricted Stock

Restricted stock awards are share-settled awards and restrictions lapse ratably over the vesting period, which is generally a five-year period, beginning on the first anniversary of the grant date, subject to the employee's continuing service to the Company. For directors, restrictions generally lapse in full on the first anniversary of the grant date.

The following table summarizes restricted stock activity during the nine months ended September 30, 2017:

	Restricted Stock	Weighted- Average Grant Date Fair Value Per Share
Restricted stock at December 31, 2016	215,105	\$ 62.78
Granted	197,649	61.60
Restrictions lapsed	(55,205)	63.62
Forfeited	(13,074)	63.51
Restricted stock at September 30, 2017	344,475	\$ 61.94

As of September 30, 2017, there was \$18.7 million of unrecognized compensation expense related to non-vested restricted stock, which is expected to be recognized over a weighted-average period of 3.8 years.

Performance Stock

Performance Stock Units (PSUs) are expressed in terms of a target number of PSUs, with anywhere between 0 percent and 150 percent of that target number capable of being earned and vesting at the end of a three-year performance period depending on the Company's performance in the final year of the performance period and the award recipient's continued employment. As of September 30, 2017, the Company is accruing stock-based compensation expense for the PSUs at 100 percent.

The following table summarizes performance stock activity during the nine months ended September 30, 2017:

**Weighted-
Average**

	Performance Stock	Grant Date Fair Value Per Share
Performance stock at December 31, 2016	-	\$ -
Granted	25,707	58.35
Restrictions lapsed	-	-
Forfeited	-	-
Performance stock at September 30, 2017	25,707	\$ 58.35

Employee Stock Purchase Plan

The following table presents the assumptions used to estimate the fair value of the ESPP during the nine months ended September 30, 2017 and 2016:

	Nine Months Ended September 30,					
	2017		2016			
Risk-free interest rate	0.59%	-	0.97%	0.39%	-	0.56%
Expected life (months)	6.00		6.00			
Expected volatility	34.51%	-	39.51%	29.41%	-	49.13%
Expected dividend yield	0%		0%			

Note 9 – Accumulated Other Comprehensive Loss

Other comprehensive income (loss) is comprised entirely of foreign currency translation adjustments. The following table presents the changes in accumulated other comprehensive loss balances during the three and nine months ended September 30, 2017 and 2016:

(in thousands)	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2016	
Foreign currency translation adjustments				
Balance at beginning of period	\$(7,404)	\$(6,612)	\$(10,753)	\$(5,212)
Other comprehensive income (loss) before reclassifications	1,655	(154)	5,004	(1,554)
Amounts reclassified from accumulated other comprehensive loss	-	-	-	-
Net current-period other comprehensive income (loss)	1,655	(154)	5,004	(1,554)
Balance at end of period	\$(5,749)	\$(6,766)	\$(5,749)	\$(6,766)

Note 10 – Income Taxes

The Company is subject to income tax in multiple jurisdictions and the use of estimates is required to determine the provision for income taxes. For the three months ended September 30, 2017 and 2016, the Company recorded an income tax provision of \$6.4 million and \$5.6 million, respectively. For the nine months ended September 30, 2017 and 2016, the Company recorded an income tax provision of \$17.7 million and \$15.9 million, respectively. The income tax provision is based on the estimated annual effective tax rate for the year applied to pre-tax income. The effective income tax rate for the three months ended September 30, 2017 was 32.8 percent compared to 31.8 percent in the same period of the prior year. The effective income tax rate for the nine months ended September 30, 2017 was 32.1 percent compared to 32.4 percent in the same period of the prior year.

The effective income tax rate for the three and nine months ended September 30, 2017 differs from the U.S. federal statutory rate of 35.0 percent due primarily to the mix of income earned in domestic and foreign tax jurisdictions and deductions for which the Company qualifies.

The Company had reserves against unrecognized tax benefits totaling \$4.0 million and \$3.8 million at September 30, 2017 and December 31, 2016, respectively, all of which, if recognized, would affect the Company's effective tax rate. The Company recognizes interest and penalties related to income tax matters in income tax expense, and reports the liability in current or long-term income taxes payable as appropriate.

Note 11 – Segment Reporting

The Company's reportable segments are based on the internal reporting used by the Company's Chief Executive Officer, who is the chief operating decision maker (CODM), to assess operating performance and make decisions about the allocation of resources. The Corporate Unallocated and Japan category includes non-reportable segments, as well as research and development and general and administrative costs that the Company does not allocate directly to its operating segments.

Intercompany transactions primarily relate to intercontinental activity and have been eliminated and are excluded from the reported amounts. The difference between income from operations and pre-tax income relates to foreign currency-related gains and losses and interest income on cash balances and investments, which are not allocated to business segments.

Revenue and income from operations by reportable segment for the three and nine months ended September 30, 2017 and 2016 were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
(in thousands)	2017	2016	2017	2016
Revenue:				
United States	\$67,490	\$59,574	\$191,019	\$169,364
Europe	18,094	15,610	51,224	48,518
Japan	2,521	2,989	8,069	7,820
Total revenue	\$88,105	\$78,173	\$250,312	\$225,702

(in thousands)	Three Months		Nine Months	
	Ended September		Ended September	
	30,		30,	
	2017	2016	2017	2016
Income from Operations:				
United States	\$26,903	\$23,910	\$76,973	\$67,542
Europe	3,251	3,554	9,626	9,369
Corporate Unallocated and Japan	(10,787)	(10,522)	(33,148)	(29,975)
Total income from operations	\$19,367	\$16,942	\$53,451	\$46,936

Total long-lived assets at September 30, 2017 and December 31, 2016 were as follows:

(in thousands)	September	December
	30,	31,
	2017	2016
Total long-lived assets:		
United States	\$ 113,784	\$ 108,650
Europe	32,115	23,199
Japan	7,613	7,625
Total assets	\$ 153,512	\$ 139,474

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2016.

Forward-Looking Statements

Statements contained in this report regarding matters that are not historical or current facts are “forward-looking statements” within the meaning of The Private Securities Litigation Reform Act of 1995. In some cases, you can identify forward-looking statements by the following words: “may,” “will,” “could,” “would,” “should,” “expect,” “intend,” “p,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “potential,” “continue,” “ongoing” or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. These statements involve known and unknown risks, uncertainties and other factors that may cause our results to be materially different than those expressed or implied in such statements. Certain of these risk factors and others are described in Item 1A. “Risk Factors” of our most recent Annual Report on Form 10-K as filed with the SEC. Other unknown or unpredictable factors also could have material adverse effects on our future results. We cannot guarantee future results, levels of activity, performance or achievements. Accordingly, you should not place undue reliance on these forward-looking statements. Finally, we expressly disclaim any intent or obligation to update any forward-looking statements to reflect subsequent events or circumstances.

Overview

We are an e-commerce driven digital manufacturer of quick-turn, on-demand injection-molded, CNC-machined and 3D-printed custom parts for prototyping and short-run production. We provide “Real Parts, Really Fast” to product developers and engineers worldwide, who are under increasing pressure to bring their finished products to market faster than their competition. We believe custom parts manufacturing has historically been an underserved market due to the inefficiencies inherent in the quotation, equipment set-up and non-recurring engineering processes required to produce custom parts. Our proprietary technology eliminates most of the time-consuming and expensive skilled labor conventionally required to quote and manufacture parts in low volumes, and our customers conduct nearly all of their business with us over the Internet. We target our products to the millions of product developers and engineers who use three-dimensional computer-aided design (3D CAD) software to design products across a diverse range of end-markets.

Our primary manufacturing product lines currently include Injection Molding, CNC Machining and 3D Printing. We continually seek to expand the range of sizes and geometric complexity of the parts we can make with these

manufacturing processes, extend the variety of materials we are able to support and identify additional manufacturing processes to which we can apply our technology in order to better serve the evolving preferences and needs of product developers and engineers.

Injection Molding

Our Injection Molding product line uses our proprietary 3D CAD-to-CNC machining technology for the automated design and manufacture of thermoplastic or liquid silicone injection molds, which are then used to produce custom injection-molded parts utilizing commercially available equipment. Our Injection Molding product line is used for prototype, on-demand and short-run production. Prototype quantities typically range from 25 to 100 parts. Because we retain possession of the molds, customers who need low-volume production often come back to Proto Labs' Injection Molding product line for additional quantities typically ranging up to 10,000 parts or more. They do so to support pilot production for product testing or while their tooling for high-volume production is being prepared, because they need on-demand manufacturing due to disruptions in their manufacturing process, because their product will only be released in a limited quantity, because demand for their product is unpredictable, or because they need end-of-life production support. These additional part orders typically occur on approximately half of the molds that we make, usually accounting for approximately half of our total Injection Molding revenue.

CNC Machining

Our CNC Machining product line uses our proprietary 3D CAD-to-CNC machining technology on commercially available CNC machines to cut plastic or metal blocks or bars into one or more custom parts based on the 3D CAD model uploaded by the product developer or engineer. Our efficiencies derive from the automation of the programming of these machines and a proprietary fixturing process. The CNC Machining product line is well suited to produce small quantities, typically in the range of one to 200 parts.

3D Printing

Our 3D Printing product line includes stereolithography (SL), selective laser sintering (SLS), direct metal laser sintering (DMLS), Multi Jet Fusion (MJF) and PolyJet processes, which offers customers a wide-variety of high-quality, precision rapid prototyping and low-volume production. These processes create parts with a high level of accuracy, detail, strength and durability. 3D Printing is well suited to produce small quantities, typically in the range of one to 50 parts.

Key Financial Measures and Trends

Revenue

The Company's operations are conducted in three geographic operating segments in the United States, Europe and Japan, which we believe are three of the largest geographic markets where product developers and engineers are located. Revenue within our United States and Europe markets is derived from our Injection Molding, CNC Machining and 3D Printing product lines. Revenue within our Japan market is derived from our Injection Molding and CNC Machining product lines. Our historical and current efforts to increase revenue have been directed at gaining new customers and selling to our existing customer base by:

- increasing marketing and selling activities;

- offering additional product lines such as 3D Printing through our acquisition of FineLine Prototyping, Inc. in April 2014 and expanded through our acquisition of certain assets of Alphaform AG (Alphaform) in October 2015;

- improving the usability of our product lines such as our web-centric applications;

- expanding the breadth and scope of our products, for example, by adding more sizes and materials to our offerings such as liquid silicone rubber (LSR) in Injection Molding and lathe-turned parts in CNC Machining;

- expanding the breadth of manufacturing capabilities, for example, by adding rapid overmolding and insert molding technology to our Injection Molding product line as well as PolyJet and Multi Jet Fusion technology to our 3D printing product line; and

- adding a suite of capabilities designed to address the on-demand needs of the low-volume, high-mix product segment.

During the three months ended September 30, 2017, we served 16,909 unique product developers and engineers who purchased our products through our web-based customer interface, an increase of 18.5% over the same period in 2016. During the nine months ended September 30, 2017, we served 31,307 unique product developers and engineers who purchased our products through our web-based customer interface, an increase of 18.0% over the same period in 2016. The information does not include 3D Printing and Injection Molding customers resulting from the Alphaform

acquisition who do not utilize our web-based interface.

Cost of Revenue, Gross Profit and Gross Margin

Cost of revenue consists primarily of raw materials, employee compensation, benefits, stock-based compensation, equipment depreciation, facilities costs and overhead allocations associated with the manufacturing process for molds and custom parts. We expect cost of revenue to increase in absolute dollars, but remain relatively constant as a percentage of total revenue.

We define gross profit as our revenue less our cost of revenue, and we define gross margin as gross profit expressed as a percentage of revenue. Our gross profit and gross margin are affected by many factors, including our pricing, sales volume and manufacturing costs, the costs associated with increasing production capacity, the mix between sales by product line, the mix between domestic and foreign revenue sources, and foreign currency exchange rates.

Operating Expenses

Operating expenses consist of marketing and sales, research and development and general and administrative expenses. Personnel-related costs are the most significant component in each of these categories.

Our recent growth in operating expenses is mainly due to higher headcounts to support our growth and expansion, and we expect that trend to continue. Our business strategy is to continue to be a leading online and technology-enabled manufacturer of quick-turn, on-demand injection-molded, CNC-machined, CNC-turned and 3D-printed custom parts for prototyping and low-volume production. In order to achieve our goals, we anticipate continued substantial investments in technology and personnel, resulting in increased operating expenses.

Marketing and sales. Marketing and sales expense consists primarily of employee compensation, benefits, commissions, stock-based compensation, marketing programs such as electronic, print and pay-per-click advertising, trade shows and other related overhead. We expect sales and marketing expense to increase in the future as we increase the number of marketing and sales professionals and marketing programs targeted to increase our customer base.

Research and development. Research and development expense consists primarily of employee compensation, benefits, stock-based compensation, depreciation on equipment and other related overhead. We expect research and development expense to increase in the future as we seek to enhance and expand our product line offerings.

General and administrative. General and administrative expense consists primarily of employee compensation, benefits, stock-based compensation, professional service fees related to accounting, tax and legal and other related overhead. We expect general and administrative expense to increase in the future as we continue to grow and expand as a global organization.

Other Income, net

Other income, net primarily consists of foreign currency-related gains and losses and interest income on cash balances and investments. Our foreign currency-related gains and losses will vary depending upon movements in underlying exchange rates. Our interest income will vary each reporting period depending on our average cash balances during the period, composition of our marketable security portfolio and the current level of interest rates.

Provision for Income Taxes

Provision for income taxes is comprised of federal, state, local and foreign taxes based on pre-tax income. We expect income taxes to increase as our taxable income increases and we expect our effective tax rate to remain relatively constant.

Results of Operations

The following table summarizes our results of operations and the related changes for the periods indicated. The results below are not necessarily indicative of the results for future periods.

	Three Months Ended September 30,				Change		Nine Months Ended September 30,				Change	
	2017		2016		\$	%	2017		2016		\$	
(dollars in thousands)												
Revenue	\$88,105	100.0%	\$78,173	100.0%	\$9,932	12.7	\$250,312	100.0%	\$225,702	100.0%	\$24,610	
Cost of revenue	38,793	44.0	33,448	42.8	5,345	16.0	109,358	43.7	99,077	43.9	10,281	
Gross profit	49,312	56.0	44,725	57.2	4,587	10.3	140,954	56.3	126,625	56.1	14,329	
Operating expenses:												
Marketing and sales	13,846	15.7	11,787	15.1	2,059	17.5	41,463	16.6	34,182	15.1	7,281	
Research and development	5,877	6.7	5,976	7.6	(99)	(1.7)	17,784	7.1	17,110	7.6	674

Total operating expenses	29,945	34.0	27,783	35.5	2,162	7.8	87,503	35.0	79,689	35.3	7,814	
Income from operations	19,367	22.0	16,942	21.7	2,425	14.3	53,451	21.3	46,936	20.8	6,515	
Other income (expense), net	291	0.3	625	0.8	(334)	(53.4)	1,779	0.7	2,342	1.0	(563)	
Income before income taxes	19,658	22.3	17,567	22.5	2,091	11.9	55,230	22.0	49,278	21.8	5,952	
Provision for income taxes	6,438	7.3	5,585	7.2	853	15.3	17,724	7.1	15,943	7.0	1,781	
Net income	\$13,220	15.0 %	\$11,982	15.3 %	\$1,238	10.3 %	\$37,506	14.9 %	\$33,335	14.8 %	\$4,171	

Stock-based compensation expense included in the statements of operations data above for the three and nine months ended September 30, 2017 and 2016 was as follows:

	Three Months Ended		Nine Months Ended	
	September 30, 2017	2016	September 30, 2017	2016
(dollars in thousands)				
Stock options and restricted stock	\$2,063	\$1,553	\$5,706	\$4,820
Employee stock purchase plan	138	166	453	440
Total stock-based compensation expense	\$2,201	\$1,719	\$6,159	\$5,260
Cost of revenue	\$263	\$205	\$698	\$489
Operating expenses:				
Marketing and sales	417	250	1,024	741
Research and development	295	309	796	1,084
General and administrative	1,226	955	3,641	2,946
Total stock-based compensation expense	\$2,201	\$1,719	\$6,159	\$5,260

Comparison of Three Months Ended September 30, 2017 and 2016

Revenue

Revenue by reportable segment and the related changes for the three months ended September 30, 2017 and 2016 was as follows:

	Three Months Ended September 30,				Change	
	2017	% of Total Revenue	2016	% of Total Revenue	\$	%
(dollars in thousands) \$			\$		\$	%
Revenue						
United States	\$67,490	76.6 %	\$59,574	76.2 %	\$7,916	13.3 %

Edgar Filing: Proto Labs Inc - Form 10-Q

Europe	18,094	20.5	15,610	23.0	2,484	15.9
Japan	2,521	2.9	2,989	3.2	(468)	(15.7)
Total revenue	\$88,105	100.0	% \$78,173	100.0	% \$9,932	12.7 %

Our revenue increased \$9.9 million, or 12.7%, for the three months ended September 30, 2017 compared to the same period in 2016. By reportable segment, revenue in the United States increased \$7.9 million, or 13.3%, revenue in Europe increased \$2.5 million, or 15.9%, and revenue in Japan decreased \$0.5 million, or 15.7%, in each case for the three months ended September 30, 2017 compared to the same period in 2016.

Our revenue growth during the three months ended September 30, 2017 was the result of an increase in the volume of the product developers and engineers we served through our web-based customer interface. During the three months ended September 30, 2017, we served 16,909 unique product developers and engineers through our web-based customer interface, an increase of 18.5% over the same period in 2016. The information does not include certain 3D Printing and Injection Molding customers resulting from the Alphaform acquisition who do not utilize our web-based interface.

Our revenue increases were primarily driven by increases in sales personnel and marketing activities. Our sales personnel focus on gaining new customer accounts and expanding the depth and breadth of existing customer accounts. Our marketing personnel focus on marketing activities that have proven to result in the greatest number of customer leads to support sales activity. International revenue was positively impacted by \$0.4 million during the three months ended September 30, 2017 when compared to the same period in 2016 as a result of foreign currency movements, primarily the strengthening of the Euro relative to the British Pound.

Revenue by product line and the related changes for the three months ended September 30, 2017 and 2016 was as follows:

	Three Months Ended September 30,		2016		Change			
	2017	% of		% of				
	Revenue	Total	Revenue	Total	\$	%		
(dollars in thousands) \$			\$		\$		%	
Revenue								
Injection Molding	\$49,480	56.2	% \$46,445	59.4	% \$3,035	6.5	%	
CNC Machining	27,166	30.8	21,781	27.9	5,385	24.7		
3D Printing	11,102	12.6	9,850	12.6	1,252	12.7		
Other Revenue	357	0.4	97	0.1	260	268.0		
Total revenue	\$88,105	100.0	% \$78,173	100.0	% \$9,932	12.7	%	

By product line, our revenue growth was driven by a 6.5% increase in Injection Molding revenue, a 24.7% increase in CNC Machining revenue and a 12.7% increase in 3D Printing revenue, as well as a \$0.3 million increase in Other Revenue in each case for the three months ended September 30, 2017 compared to the same period in 2016.

Cost of Revenue, Gross Profit and Gross Margin

Cost of Revenue. Cost of revenue increased \$5.3 million, or 16.0%, for the three months ended September 30, 2017 compared to the same period in 2016, which was faster than the rate of revenue increase of 12.7% for the three months ended September 30, 2017 compared to the same period in 2016. The increase in cost of revenue resulted from the growth of the business and was due to raw material and production cost increases of \$1.9 million, an increase in direct labor headcount resulting in personnel and related cost increases of \$3.1 million and equipment and facility-related cost increases of \$0.3 million to support increased sales volumes.

Gross Profit and Gross Margin. Gross profit increased from \$44.7 million, or 57.2% of revenue, in the three months ended September 30, 2016 to \$49.3 million, or 56.0% of revenue, in the three months ended September 30, 2017. Gross profit increased primarily due to increases in revenue. Gross margin decreased due to the timing and mix of revenue, which impacted the increase in cost of revenue discussed above.

Operating Expenses, Other Income, net and Provision for Income Taxes

Marketing and Sales. Marketing and sales expenses increased \$2.1 million, or 17.5%, during the three months ended September 30, 2017 compared to the same period in 2016 due primarily to an increase in headcount resulting in personnel and related cost increases of \$2.0 million as well as marketing program cost increases of \$0.1 million.

Research and Development. Our research and development expenses decreased \$0.1 million, or 1.7%, during the three months ended September 30, 2017 compared to the same period in 2016 due to general operating cost decreases of \$0.1 million.

General and Administrative. Our general and administrative expenses increased \$0.2 million, or 2.0%, during the three months ended September 30, 2017 compared to the same period in 2016 due to an increase in headcount resulting in personnel and related costs increase of \$0.6 million and stock based compensation cost increases of \$0.3 million, which were partially offset by decreases in administrative costs of \$0.4 million and professional services cost decreases of \$0.3 million. The decrease in administrative costs was due to expenses recorded in 2016 related to our decisions to vacate existing facilities and move to new facilities in the U.S. and Japan.

Other Income, net. We recognized other income, net of \$0.3 million for the three months ended September 30, 2017, a decrease of \$0.3 million compared to other income, net of \$0.6 million for the three months ended September 30, 2016. Other income, net decreased primarily due to a decrease of \$0.4 million in foreign currency gains, which were partially offset by an increase of \$0.1 million in interest income on investments.

Provision for Income Taxes. Our effective tax rate of 32.8% for the three months ended September 30, 2017 increased 1.0% compared to 31.8% for the same period in 2016. The increase in the effective tax rate is primarily due to changes in taxable income in our geographic regions in the quarter ended September 30, 2017 compared to the quarter ended September 30, 2016. Our income tax provision increased by \$0.8 million to \$6.4 million for the three months ended September 30, 2017 compared to our income tax provision of \$5.6 million for the three months ended September 30, 2016.

*Comparison of Nine Months Ended September 30, 2017 and 2016**Revenue*

Revenue by reportable segment and the related changes for the nine months ended September 30, 2017 and 2016 was as follows:

		Revenue		Revenue		
Revenue						
United States	\$ 191,019	76.3	% \$ 169,364	75.0	% \$ 21,655	12.8%
Europe	51,224	20.5	48,518	21.5	2,706	5.6
Japan	8,069	3.2	7,820	3.5	249	3.2
Total revenue	\$ 250,312	100.0	% \$ 225,702	100.0	% \$ 24,610	10.9%

Our revenue increased \$24.6 million, or 10.9%, for the nine months ended September 30, 2017 compared to the same period in 2016. By reportable segment, revenue in the United States increased \$21.7 million, or 12.8%, revenue in Europe increased \$2.7 million, or 5.6%, and revenue in Japan increased \$0.2 million, or 3.2%, in each case for the nine months ended September 30, 2017 compared to the same period in 2016.

Our revenue growth during the nine months ended September 30, 2017 was the result of an increase in the volume of the product developers and engineers we served through our web-based customer interface. During the nine months ended September 30, 2017, we served 31,307 unique product developers and engineers through our web-based customer interface, an increase of 18.0% over the same period in 2016. The information does not include certain 3D Printing and Injection Molding customers resulting from the Alphaform acquisition who do not utilize our web-based interface.

Our revenue increases were primarily driven by increases in sales personnel and marketing activities. Our sales personnel focus on gaining new customer accounts and expanding the depth and breadth of existing customer accounts. Our marketing personnel focus on marketing activities that have proven to result in the greatest number of customer leads to support sales activity. International revenue was negatively impacted by \$1.4 million during the

nine months ended September 30, 2017 when compared to the same period in 2016 as a result of foreign currency movements, primarily the strengthening of the United States Dollar relative to the British Pound.

Revenue by product line and the related changes for the nine months ended September 30, 2017 and 2016 was as follows:

	Nine Months Ended September 30,				Change	
	2017		2016			
		% of Total		% of Total		
(dollars in thousands) \$			\$		\$	%
		Revenue		Revenue		
Revenue						
Injection Molding	\$144,187	57.6 %	\$134,376	59.5 %	\$9,811	7.3 %
CNC Machining	73,318	29.3	60,510	26.8	12,808	21.2
3D Printing	32,061	12.8	28,059	12.4	4,002	14.3
Other Revenue	746	0.3	2,757	1.3	(2,011)	(72.9)
Total revenue	\$250,312	100.0 %	\$225,702	100.0 %	\$24,610	10.9 %

By product line, our revenue growth was driven by a 7.3% increase in Injection Molding revenue, which includes headwind from our decision to discontinue MIM and Thixo manufacturing processes during the second quarter of 2016, a 21.2% increase in CNC Machining revenue and a 14.3% increase in 3D Printing revenue, as well as a \$2.0 million decrease in Other Revenue driven by our decision in 2016 to exit our non-core resin resale business in Europe, in each case for the nine months ended September 30, 2017 compared to the same period in 2016.

Cost of Revenue, Gross Profit and Gross Margin

Cost of Revenue. Cost of revenue increased \$10.3 million, or 10.4%, for the nine months ended September 30, 2017 compared to the same period in 2016, which was slower than the rate of revenue increase of 10.9% for the nine months ended September 30, 2017 compared to the same period in 2016 reflecting the realization of productivity improvements. The net increase in cost of revenue resulted from the growth of the business and was due to raw material and production cost increases of \$2.8 million, an increase in direct labor headcount resulting in personnel and related cost increases of \$6.8 million and equipment and facility-related cost increases of \$0.7 million to support increased sales volumes.

Gross Profit and Gross Margin. Gross profit increased from \$126.6 million, or 56.1% of revenues, in the nine months ended September 30, 2016 to \$141.0 million, or 56.3% of revenue, in the nine months ended September 30, 2017. Gross profit increased primarily due to increases in revenue and realization of manufacturing productivity improvements, partially offset by the volume- and mix-related increase in cost of revenue as discussed above.

Operating Expenses, Other Income, net and Provision for Income Taxes

Marketing and Sales. Marketing and sales expenses increased \$7.3 million, or 21.3%, during the nine months ended September 30, 2017 compared to the same period in 2016 due primarily to an increase in headcount resulting in personnel and related cost increases of \$7.1 million as well as marketing program cost increases of \$0.2 million.

Research and Development. Our research and development expenses increased \$0.7 million, or 3.9%, during the nine months ended September 30, 2017 compared to the same period in 2016 due to an increase in headcount resulting in personnel and related cost increases of \$0.6 million and operating cost increases of \$0.2 million, which were partially offset by a decrease in professional services cost of \$0.1 million.

General and Administrative. Our general and administrative expenses decreased \$0.1 million, or 0.5%, during the nine months ended September 30, 2017 compared to the same period in 2016 due to decreases in administrative costs of \$1.7 million and professional services costs of \$0.4 million, which were partially offset by an increase in headcount resulting in personnel and related cost increases of \$1.3 million and stock based compensation cost increases of \$0.7 million. The decrease in administrative costs was due to expenses recorded in 2016 related to our decisions to exit MIM and Thixo manufacturing processes and vacate existing facilities and move to new facilities in the U.S. and Japan.

Other Income, net. We recognized other income, net of \$1.8 million for the nine months ended September 30, 2017, a decrease of \$0.5 million when compared to other income, net of \$2.3 million for the nine months ended September 30, 2016. Other income, net decreased primarily due to a \$1.3 million decrease in foreign currency gains, which was partially offset by a \$0.4 million favorable legal settlement and a \$0.4 million increase in interest income on investments.

Provision for Income Taxes. Our effective tax rate of 32.1% for the nine months ended September 30, 2017 decreased 0.3% compared to 32.4% for the same period in 2016. The decrease in the effective tax rate is primarily due to changes in taxable income in our geographic regions in the nine months ended September 30, 2017 compared to the nine months ended September 30, 2016. Our income tax provision increased by \$1.8 million to \$17.7 million for the nine months ended September 30, 2017 compared to our income tax provision of \$15.9 million for the nine months ended September 30, 2016.

Liquidity and Capital Resources

Cash Flows

The following table summarizes our cash flows during the nine months ended September 30, 2017 and 2016:

(dollars in thousands)	Nine Months Ended September 30,	
	2017	2016
Net cash provided by operating activities	\$59,000	\$58,142
Net cash used in investing activities	(10,625)	(41,287)
Net cash provided by financing activities	1,339	3,768

19

Sources of Liquidity

Historically, we have primarily financed our operations and capital expenditures through cash flow from operations. We had cash and cash equivalents of \$119.3 million as of September 30, 2017, an increase of \$50.5 million from December 31, 2016. The increase in our cash was primarily due to cash generated through operations and proceeds from maturities of marketable securities, which were partially offset by repurchases of common stock and investing activity.

Cash Flows from Operating Activities

Cash flows from operating activities were \$59.0 million during the nine months ended September 30, 2017 and primarily consisted of net income of \$37.5 million, adjusted for certain non-cash items, including depreciation and amortization of \$13.5 million, stock-based compensation expense of \$6.2 million, deferred taxes of \$0.7 million and amortization of held-to-maturity securities of \$0.9 million. Cash flows from operating activities increased \$0.9 million during the nine months ended September 30, 2017 compared to the same period in 2016, primarily due to increases in net income of \$4.2 million, depreciation and amortization of \$0.7 million driven by an increase in capital investments, an increase in stock-based compensation expense of \$0.9 million, an increase in deferred taxes of \$0.2 million and an increase in other adjustments of \$1.3 million primarily due to changes in foreign currency. These increases were partially offset by a decrease in loss on impairment of assets of \$0.4 million and a decrease in changes in operating assets and liabilities of \$6.0 million driven by general growth of the business and timing of cash receipts and payments.

Cash flows from operating activities of \$58.1 million during the nine months ended September 30, 2016 and primarily consisted of net income of \$33.3 million, adjusted for certain non-cash items, including depreciation and amortization of \$12.8 million, stock-based compensation expense of \$5.3 million, deferred taxes of \$0.5 million, loss on impairment of assets of \$0.5 million and amortization of held-to-maturity securities of \$0.9 million, which were partially offset by other adjustments of \$1.3 million.

Cash Flows from Investing Activities

Cash used in investing activities was \$10.6 million during the nine months ended September 30, 2017, consisting of \$24.2 million for the purchases of property and equipment, \$20.0 million for the purchases of marketable securities and \$0.5 million for the purchases of other investments, which were partially offset by \$34.1 million in proceeds from maturities of marketable securities.

Cash used in investing activities was \$41.3 million during the nine months ended September 30, 2016, consisting of \$31.0 million for the purchases of property and equipment and \$56.2 million for the purchases of marketable securities, which were partially offset by \$45.9 million in proceeds from maturities of marketable securities.

Cash Flows from Financing Activities

Cash provided by financing activities was \$1.3 million during the nine months ended September 30, 2017, consisting of proceeds from exercises of stock options of \$5.7 million, which were partially offset by repurchases of common stock of \$4.4 million.

Cash provided by financing activities was \$3.7 million during the nine months ended September 30, 2016, consisting of proceeds from exercises of stock options of \$4.1 million, which were partially offset by \$0.4 million for acquisition-related contingent consideration payments.

Off-Balance Sheet Arrangements

Since our inception, we have not engaged in any off-balance sheet arrangements, including the use of structured finance, special purpose entities or variable interest entities.

Critical Accounting Policies and Use of Estimates

We have adopted various accounting policies to prepare the Consolidated Financial Statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). Our significant accounting policies are disclosed in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2016. There were no material changes in our significant accounting policies during the nine months ended September 30, 2017.

Recent Accounting Pronouncements

For information on recent accounting pronouncements, see Note 2 to the Consolidated Financial Statements appearing in Part I, Item 1 in this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Foreign Currency Risk

As a result of our foreign operations, we have revenue, expenses, assets and liabilities that are denominated in foreign currencies. We generate revenue and incur production costs and operating expenses in British Pounds, Euros and Japanese Yen.

Our operating results and cash flows are adversely impacted when the United States Dollar appreciates relative to foreign currencies. Additionally, our operating results and cash flows are adversely impacted when the British Pound appreciates relative to the Euro. As we expand internationally, our results of operations and cash flows will become increasingly subject to changes in foreign currency exchange rates.

We have not used forward contracts or currency borrowings to hedge our exposure to foreign currency risk. Foreign currency risk can be assessed by estimating the change in results of operations or financial position resulting from a hypothetical 10% adverse change in foreign exchange rates. We believe such a change would generally not have a material impact on our financial position, but could have a material impact on our results of operations. We recognized foreign currency losses of \$0.1 million in the three months ended September 30, 2017 and foreign currency gains of \$0.3 million in the nine months ended September 30, 2017, respectively. We recognized foreign currency gains of \$0.4 million and \$1.6 million in the three and nine months ended September 30, 2016, respectively.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (Exchange Act)) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this quarterly report, our disclosure controls and procedures are effective and provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported accurately and within the time frames specified in the SEC's rules and forms and accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are subject to various legal proceedings and claims that arise in the ordinary course of our business activities. Although the results of litigation and claims cannot be predicted with certainty, as of the date of these financial statements, we do not believe we are party to any litigation the outcome of which, if determined adversely to us, would individually or in the aggregate be reasonably expected to have a material adverse effect on our business.

Item 1A. Risk Factors

There have been no material changes from the risk factors we previously disclosed in Part I, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On February 9, 2017, we announced that our board of directors had authorized the repurchase of shares of our common stock from time to time on the open market or in privately negotiated purchases, at an aggregate purchase price of up to \$50 million. The timing and amount of any share repurchases will be determined by our management based on market conditions and other factors. The term of the program runs through December 31, 2021.

During the three months ended September 30, 2017, we did not repurchase shares of our common stock.

Item 3. Defaults Upon Senior Securities

No matters to disclose.

Item 4. Mine Safety Disclosures

No matters to disclose.

Item 5. Other Information

No matters to disclose.
