KIMCO REALTY CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Business and Organization

Kimco Realty Corporation and subsidiaries (the "Company"), affiliates and related real estate joint ventures are engaged principally in the ownership, management, development and operation of open-air shopping centers, which are anchored generally by grocery stores, discount department stores, or drugstores. Additionally, the Company provides complementary services that capitalize on the Company's established retail real estate expertise.

The Company elected status as a Real Estate Investment Trust (a "REIT") for federal income tax purposes beginning in its taxable year ended December 31, 1991 and operates in a manner that enables the Company to maintain its status as a REIT. As a REIT, with respect to each taxable year, the Company must distribute at least 90 percent of its taxable income (excluding capital gain) and does not pay federal income taxes on the amount distributed to its shareholders. The Company is not generally subject to federal income taxes if it distributes 100 percent of its taxable income. Most states, where the Company holds investments in real estate, conform to the federal rules recognizing REITs. Certain subsidiaries have made a joint election with the Company to be treated as taxable REIT subsidiaries ("TRSs"), which permit the Company to engage in certain business activities which the REIT may not conduct directly. A TRS is subject to federal and state income taxes on its income, and the Company includes, when applicable, a provision for taxes in its condensed consolidated financial statements. The Company is subject to and also includes in its tax provision non-U.S. income taxes on certain investments located in jurisdictions outside the U.S. These investments are held by the Company at the REIT level and not in the Company's taxable REIT subsidiaries. Accordingly, the Company does not expect a U.S. income tax impact associated with the repatriation of undistributed earnings from the Company's foreign subsidiaries.

2. Summary of Significant Accounting Policies

Principles of Consolidation -

The accompanying Condensed Consolidated Financial Statements include the accounts of the Company. The Company's subsidiaries include subsidiaries which are wholly-owned or which the Company has a controlling interest,

including where the Company has been determined to be a primary beneficiary of a variable interest entity (“VIE”) in accordance with the Consolidation guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”). All inter-company balances and transactions have been eliminated in consolidation. The information presented in the accompanying Condensed Consolidated Financial Statements is unaudited and reflects all adjustments which are, in the opinion of management, necessary to reflect a fair statement of the results for the interim periods presented, and all such adjustments are of a normal recurring nature. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's audited Annual Report on Form 10-K for the year ended December 31, 2017 (the “10-K”), as certain disclosures in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2018, that would duplicate those included in the 10-K are not included in these Condensed Consolidated Financial Statements.

Reclassifications -

Certain amounts in the prior period have been reclassified in order to conform with the current period's presentation. The Company reclassified \$7.3 million and \$15.6 million of costs related to property management and services of the Company's operating properties from General and administrative to Operating and maintenance on the Company's Condensed Consolidated Statements of Income for the three and six months ended June 30, 2017, respectively. In conjunction with the adoption of Accounting Standard Update (“ASU”) 2014-09 discussed below, the Company reclassified \$61.0 million and \$119.1 million of Reimbursement income and \$6.1 million and \$9.6 million of Other rental property income from Revenues from rental properties on the Company's Condensed Consolidated Statements of Income for the three and six months ended June 30, 2017, respectively. In addition, the Company reclassified \$5.3 million of tax withholdings for surrender of restricted common stock from Net cash flow provided by operating activities to Net cash flow used for financing activities on the Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2017.

Subsequent Events -

The Company has evaluated subsequent events and transactions for potential recognition or disclosure in its condensed consolidated financial statements (see Footnote 10 to the Notes to the Company's Condensed Consolidated Financial Statements).

Marketable Securities -

The Company classifies its marketable equity securities as available-for-sale in accordance with the FASB's Investments-Debt and Equity Securities guidance. On January 1, 2018, the Company adopted ASU 2016-01, *Financial Instruments—Overall* (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”). In accordance with the adoption of ASU 2016-01, the Company now recognizes changes in the fair value of equity investments with readily determinable fair values in net income. Previously, changes in fair value of the Company's available-for-sale marketable securities were recognized in accumulated other comprehensive

income (“AOCI”) on the Company’s Condensed Consolidated Balance Sheets. As of December 31, 2017, the Company had aggregate unrealized losses related to its available-for-sale marketable securities of \$1.1 million, which were included in AOCI on the Company’s Condensed Consolidated Balance Sheets. In connection with the adoption of ASU 2016-01, the Company recorded a cumulative-effect adjustment of \$1.1 million to its beginning retained earnings as of January 1, 2018, which is reflected in Cumulative distributions in excess of net income on the Company’s Condensed Consolidated Statements of Changes in Equity.

Table of Contents*Revenue and Gain Recognition—*

On January 1, 2018, the Company adopted ASU 2014-09, *Revenue from Contracts with Customers* (Topic 606), (“Topic 606”) using the modified retrospective method applying it to any open contracts as of January 1, 2018, for which the Company did not identify any open contracts. The Company also utilized the practical expedient for which the Company was not required to restate revenue from contracts that began and are completed within the same annual reporting period. Results for reporting periods beginning after January 1, 2018, are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Revenue Recognition (Topic 605). The new guidance provides a unified model to determine how revenue is recognized. To determine the proper amount of revenue to be recognized, the Company performs the following steps: (i) identify the contract with the customer, (ii) identify the performance obligations within the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations and (v) recognize revenue when (or as) a performance obligation is satisfied. As of June 30, 2018, the Company had no outstanding contract assets or contract liabilities. The adoption of this standard did not result in any material changes to the Company’s revenue recognition as compared to the previous guidance.

The Company’s primary source of revenue are leases which fall under the scope of Leases (Topic 840). The revenues which will be impacted by the adoption of Topic 606 include fees for services performed at various unconsolidated joint ventures for which the Company is the manager. These fees primarily include property and asset management fees, leasing fees, development fees and property acquisition/disposition fees. Also affected by Topic 606 are gains on sales of properties, lease termination fees and tax increment financing (“TIF”) contracts. The Company elected to disaggregate its revenue streams into the following line items on the Company’s Condensed Consolidated Statements of Income: Revenues from rental properties, Reimbursement income, Other rental property income and Management and other fee income. The Company believes that these are the proper disaggregated categories as they are the best depiction of its revenue streams both qualitatively and quantitatively.

Revenues from rental properties

Revenues from rental properties are comprised of minimum base rent, percentage rent, lease termination fee income, amortization of above-market and below-market rent adjustments and straight-line rent adjustments. Base rental revenues from rental properties are recognized on a straight-line basis over the terms of the related leases. Certain of these leases also provide for percentage rents based upon the level of sales achieved by the lessee. These percentage rents are recognized once the required sales level is achieved. Rental income may also include payments received in connection with lease termination agreements. Lease termination fee income is recognized when the lessee provides consideration in order to terminate a lease agreement in place. The performance obligation of the Company is the termination of the lease agreement which occurs upon consideration received and execution of the termination agreement. Upon acquisition of real estate operating properties, the Company estimates the fair value of identified intangible assets and liabilities (including above-market and below-market leases, where applicable). The capitalized above-market or below-market intangible is amortized to rental income over the estimated remaining term of the respective leases, which includes the expected renewal option period for below-market leases.

Reimbursement income

Leases typically provide for reimbursement to the Company of common area maintenance costs (“CAM”), real estate taxes and other operating expenses. Operating expense reimbursements are recognized as earned. The lease component relating to CAM reimbursement revenue will be within the scope of Topic 606, upon the effective date of ASU 2016-02, Leases (Topic 842). See New Accounting Pronouncements below for further details.

Other rental property income

Other rental property income totaled \$11.1 million and \$9.6 million for the six months ended June 30, 2018 and 2017, respectively, which mainly consists of ancillary income and TIF income. Ancillary income is derived through various agreements relating to parking lots, clothing bins, temporary storage, vending machines, ATMs, trash bins and trash collections, fireworks sales, etc. The majority of the revenue derived from these sources are through lease agreements/arrangements and are recognized in accordance with the lease terms described in the lease. The Company has TIF agreements with certain municipalities and receives payments in accordance with the agreements. TIF reimbursement income is recognized on a cash-basis when received.

Table of Contents

Management and other fee income

Property management fees, property acquisition and disposition fees, construction management fees, leasing fees and asset management fees all fall within the scope of Topic 606. These fees arise from contractual agreements with third parties or with entities in which the Company has a noncontrolling interest. Management and other fee income related to partially owned entities are recognized to the extent attributable to the unaffiliated interest. Property and asset management fee income is recognized as a single performance obligation (managing the property) comprised of a series of distinct services (maintaining property, handling tenant inquiries, etc.). The Company believes that the overall service of property management is substantially the same each day and has the same pattern of performance over the term of the agreement. As a result, each day of service represents a performance obligation satisfied at that point in time. These fees are recognized at the end of each period for services performed during that period, primarily billed to the customer monthly and terms for payment are payment due upon receipt.

Leasing fee income is recognized as a single performance obligation primarily upon the rent commencement date. The Company believes the leasing services it provides are similar for each available space leased and none of the individual activities necessary to facilitate the execution of each lease are distinct. These fees are billed to the customer monthly and terms for payment are payment due upon receipt.

Property acquisition and disposition fees are recognized when the Company satisfies a performance obligation by acquiring a property or transferring control of a property. These fees are billed subsequent to the acquisition or sale of the property and payment is due upon receipt.

Construction management fees are recognized as a single performance obligation (managing the construction of the project) composed of a series of distinct services. The Company believes that the overall service of construction management is substantially the same each day and has the same pattern of performance over the term of the agreement. As a result, each day of service represents a performance obligation satisfied at that point in time. These fees are based on the amount spent on the construction at the end of each period for services performed during that period, primarily billed to the customer monthly and terms for payment are payment due upon receipt.

Gains on sales of operating properties/change in control of interests

On January 1, 2018, the Company also adopted ASU 2017-05, Other Income—Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets (“Topic 610”) for gains and losses from the sale and/or transfer of real estate property. The Company adopted Topic 610 using the modified retrospective approach for all contracts effective January 1, 2018. Topic 610 provides that sales of nonfinancial assets, such as real estate, are to be recognized when

control of the asset transfers to the buyer, which will occur when the buyer has the ability to direct the use of or obtain substantially all of the remaining benefits from the asset. This generally occurs when the transaction closes and consideration is exchanged for control of the property.

In accordance with its election to apply the modified retrospective approach for all contracts, the Company recorded a cumulative-effect adjustment of \$8.1 million to its beginning retained earnings as of January 1, 2018, on the Company's Condensed Consolidated Statements of Changes in Equity and an adjustment to Investments in and advances to real estate joint ventures on the Company's Condensed Consolidated Balance Sheets. As of December 31, 2017, the Company had aggregate net deferred gains of \$8.1 million relating to partial disposals of two operating real estate properties prior to the adoption of ASU 2017-05, of which \$6.9 million was included in Investments in and advances to real estate joint ventures and \$1.2 million was included in Other liabilities on the Company's Condensed Consolidated Balance Sheets. The Company had deferred these gains in accordance with prior guidance due to its continuing involvement in the entities which acquired the operating real estate properties.

During the six months ended June 30, 2018, the Company sold a portion of its investment in a consolidated operating property to its partner and amended the partnership agreement to provide for joint control of the entity. As a result of the amendment, the Company no longer consolidates the entity and recognized a gain on change in control of \$6.8 million, in accordance with the adoption of ASU 2017-05 (See Footnote 3 to the Notes to the Company's Condensed Consolidated Financial Statements for additional disclosure regarding disposals), which is included in Gain on sale of operating properties/change in controls of interests on the Company's Condensed Consolidated Statements of Income.

Table of Contents*New Accounting Pronouncements –*

The following table represents ASUs to the FASB's ASC that, as of June 30, 2018, are not yet effective for the Company and for which the Company has not elected early adoption, where permitted:

ASU	Description	Effective Date	Effect on the financial statements or other significant matters
ASU 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments	The new guidance introduces a new model for estimating credit losses for certain types of financial instruments, including loans receivable, held-to-maturity debt securities, and net investments in direct financing leases, amongst other financial instruments. ASU 2016-13 also modifies the impairment model for available-for-sale debt securities and expands the disclosure requirements regarding an entity's assumptions, models, and methods for estimating the allowance for losses.	January 1, 2020; Early adoption permitted	The Company is still assessing the impact on its financial position and/or results of operations.
ASU 2016-02, Leases (Topic 842)	This ASU sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing	January 1, 2019; Early adoption permitted	The Company continues to evaluate the effect the adoption will have on the Company's financial position and/or results of operations. However, the Company currently believes that the adoption will not have a material impact for operating leases where it is a lessor and will continue to record revenues from rental properties for its operating leases on a straight-line basis. However, for leases where the Company is a lessee, primarily for the Company's ground leases and administrative office leases, the Company will be required to record a lease liability and a right of use asset on its Consolidated Balance Sheets at present value upon adoption. In addition, direct internal leasing costs will continue to be capitalized, however, indirect internal leasing costs previously capitalized will be expensed. Within the terms of the Company's leases where the Company is the lessor, the Company is entitled to

guidance for sales-type leases, direct financing leases and operating leases. ASU 2016-02 supersedes the previous leases standard, Leases (Topic 840).

In January 2018, the FASB issued ASU 2018-01, which includes amendments to clarify land easements are within the scope of the new leases standard (Topic 842) and provide an optional transition practical expedient to not evaluate whether existing and expired land easements that were not previously accounted for as leases under current lease guidance in Topic 840 and are to be accounted for or contain leases under Topic 842. Early adoption is permitted as of the original effective date.

The FASB approved an exposure draft in March 2018 which provided lessors with a practical expedient by class of underlying assets to not separate non-lease components from the lease component. However, the practical expedient would be limited to circumstances in which: 1) the timing and pattern of revenue recognition are the same for the non-lease component and the related lease component; and, 2) the combined single lease component would be classified as an operating lease.

In July 2018, the FASB issued ASU 2018-10, which includes amendments to clarify certain aspects of the new leases standard. These amendments address the rate implicit in the lease, impairment of the net investment in the lease, lessee reassessment of lease classification, lessor reassessment of lease term and purchase options, variable payments that depend on an index or rate and certain transition adjustments.

receive reimbursement amounts from tenants for operating expenses such as real estate taxes, insurance and other CAM. Upon adoption of this ASU, CAM reimbursement revenue will be accounted for in accordance with ASU 2016-12 Revenue from Contracts with Customers (Topic 606). The Company continues to evaluate the effect the adoption will have on this source of revenue. However, the Company currently does not believe the adoption will significantly affect the timing of the recognition of the Company's CAM reimbursement revenue.

(Topic 718):
Scope of
Modification
Accounting

The amendment provides guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. Under the new guidance, modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions. The new guidance will be applied prospectively to awards modified on or after the adoption date.

ASU 2017-05, Other Income – Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets	The amendment clarifies that a financial asset is within the scope of Subtopic 610-20 if it meets the definition of an in substance nonfinancial asset and defines the term in substance nonfinancial asset. ASU 2017-05 also clarifies that nonfinancial assets within the scope of Subtopic 610-20 may include nonfinancial assets transferred within a legal entity to a counterparty. Subtopic 610-20, which was issued in May 2014 as part of ASU 2014-09, discussed below, provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with noncustomers. An entity is required to apply the amendments in ASU 2017-05 at the same time it applies the amendments in ASU 2014-09 discussed below. An entity may elect to apply the amendments in ASU 2017-05 either retrospectively to each period presented in the financial statements in accordance with the guidance on accounting changes in ASC Topic 250, Accounting Changes and Error Corrections, paragraphs 10-45-5 through 10-45-10 (i.e. the retrospective approach) or retrospectively with a cumulative-effect adjustment to retained earnings as of the beginning of the fiscal year of adoption (i.e. the modified retrospective approach). An entity may elect to apply all of the amendments in ASU 2017-05 and ASU 2014-09 using the same transition method, or alternatively may elect to use different transition methods.	January 1, 2018	The Company adopted the provisions of Subtopic 610-20 using the modified retrospective approach. The amendments clarify certain aspects of the guidance issued in ASU 2016-01, discussed below, primarily impacting the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments.

ASU 2014-09, Revenue from Contracts with Customers (Topic 606)	ASU 2014-09 is a comprehensive new revenue recognition model requiring a company to recognize revenue to depict the transfer of goods or services to a customer at an amount reflecting the consideration it expects to receive in exchange for those goods or services. In adopting ASU 2014-09, companies may use either a full retrospective or a modified retrospective approach. ASU 2014-09 was anticipated to be effective for the first interim period within annual reporting periods beginning after December 15, 2016, and early adoption was not permitted.	January 1, 2018	The Company's revenue-producing contracts are primarily leases that are not within the scope of this standard, except for the lease component relating to common area maintenance ("CAM") reimbursement revenue, which will be within the scope of this standard upon the effective date of ASU 2016-02, Leases (Topic 842).
ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date			

Table of Contents

ASU 2016-08, Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations

In August 2015, the FASB issued ASU 2015-14, which delayed the effective date of ASU 2014-09 by one year making it effective for the first interim period within annual reporting periods beginning after December 15, 2017.

ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying performance obligations and licensing

Subsequently, in March 2016, the FASB issued ASU 2016-08, which further clarifies the implementation guidance on principal versus agent considerations, and in April 2016, the FASB issued ASU 2016-10, an update on identifying performance obligations and accounting for licenses of intellectual property.

ASU 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-scope improvements and practical expedients

Additionally, in May 2016, the FASB issued ASU 2016-12, which includes amendments for enhanced clarification of the guidance. Early adoption is permitted as of the original effective date.

ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash

This amendment requires entities to show the changes in the total of cash, cash equivalents, restricted cash, and restricted cash equivalents in the statement of cash flows. The amendment should be applied using a retrospective transition method to each period presented.

The revenues which are within the scope of this standard include other ancillary income earned through the Company's operating properties as well as fees for services performed at various unconsolidated joint ventures which the Company manages. These fees primarily include property and asset management fees, leasing fees, development fees and property acquisition/disposition fees. The Company believes the timing of recognition and amount of these revenues will be generally consistent with the previous recognition and measurement. See above for impact from the adoption of this ASU.

January 1, 2018

There was no impact to the Company's financial position and/or results of operations.

3. Operating Property Activities

Acquisitions and Dispositions –

During January 2018, the Company acquired a land parcel adjacent to an existing shopping center located in Ardmore, PA for a purchase price of \$3.4 million.

The table below summarizes the Company's disposition activity relating to consolidated operating properties and parcels (dollars in millions):

	Six Months Ended June 30,	
	2018	2017
Aggregate sales price	\$833.1	\$157.3
Gain on sale of operating properties/change in control of interests	\$152.2	\$21.6
Impairment charges	\$9.9	\$2.4
Number of operating properties sold/deconsolidated	35	11
Number of out-parcels sold	2	5

Included in the table above, during the six months ended June 30, 2018, the Company sold a portion of its investment in a consolidated operating property to its partner based on a gross fair value of \$320.0 million, including \$206.0 million of non-recourse mortgage debt, and amended the partnership agreement to provide for joint control of the entity. As a result of the amendment, the Company no longer consolidates the entity and as such, reduced noncontrolling interests by \$43.8 million and recognized a gain on change in control of \$6.8 million, in accordance with the adoption of ASU 2017-05 effective as of January 1, 2018 (See Footnote 2 to the Notes to the Company's Condensed Consolidated Financial Statements for additional discussion). The Company now has an investment in this unconsolidated property (\$62.4 million as of the date of deconsolidation), included in Investments in and advances to real estate joint ventures on the Company's Condensed Consolidated Balance Sheets. The Company's share of this investment is subject to change and is based upon a cash flow waterfall provision within the partnership agreement (54.8% as of the date of deconsolidation).

During the six months ended June 30, 2018, the Company disposed of five land parcels, in separate transactions, for an aggregate sales price of \$4.7 million, which resulted in an aggregate gain of \$2.1 million, included in Other income, net on the Company's Condensed Consolidated Statements of Income.

Table of Contents*Held-for-Sale*

At June 30, 2018, the Company had three consolidated properties classified as held-for-sale at an aggregate carrying amount of \$10.2 million (including accumulated depreciation of \$4.8 million), which are included in Other assets on the Company's Condensed Consolidated Balance Sheets. The Company's determination of the fair value of the properties was based upon executed contracts of sale with third parties. The book value of one of these properties exceeded its estimated fair value, less costs to sell, and as such an impairment charge of \$0.3 million was recognized. Additionally, the Company reclassified \$3.1 million in mortgage debt related to one of these properties to Other liabilities on the Company's Condensed Consolidated Balance Sheets.

Impairments –

During the six months ended June 30, 2018, the Company recognized aggregate impairment charges of \$30.5 million. These impairment charges consist of (i) \$20.6 million related to adjustments to property carrying values for properties which the Company has marketed for sale as part of its active capital recycling program and as such has adjusted the anticipated hold period for such properties and (ii) \$9.9 million related to the sale of certain operating properties, as discussed above. The Company's estimated fair values of these properties were primarily based upon estimated sales prices from (i) signed contracts or letters of intent from third party offers or (ii) discounted cash flow models. See Footnote 12 to the Notes to the Company's Condensed Consolidated Financial Statements for fair value disclosure.

4. Real Estate Under Development

The Company is engaged in various real estate development projects for long-term investment. As of June 30, 2018, the Company had in progress a total of four active real estate development projects and two additional projects held for future development.

(4) Includes capitalized costs of interest, real estate taxes, insurance, legal costs and payroll of \$36.5 million and \$27.7 million, as of June 30, 2018 and December 31, 2017, respectively.

5. Investments in and Advances to Real Estate Joint Ventures

The Company has investments in and advances to various real estate joint ventures. These joint ventures are engaged primarily in the operation of shopping centers which are either owned or held under long-term operating leases. The Company and the joint venture partners have joint approval rights for major decisions, including those regarding property operations. As such, the Company holds noncontrolling interests in these joint ventures and accounts for them under the equity method of accounting.

The table below presents joint venture investments for which the Company held an ownership interest at June 30, 2018 and December 31, 2017 (in millions, except number of properties):

As of December 31, 2017, the Company had aggregate net deferred gains of \$6.9 million relating to the disposal of operating properties prior to the adoption of ASU 2017-05. These deferred gains were included in the Company’s investment above, of which \$5.1 million related to KimPru II and \$1.8 million related to Other Joint Venture (3) Programs. Upon adoption, the Company recorded a cumulative-effect adjustment of \$6.9 million to its beginning retained earnings as of January 1, 2018 on the Company’s Condensed Consolidated Statements of Changes in Equity. See Footnote 2 to the Notes to the Company’s Condensed Consolidated Financial Statements for further detail and discussion.

During March 2018, the Company sold a portion of its investment in a consolidated operating property to its partner and amended the partnership agreement to provide for joint control of the entity. As a result of the (4) amendment, the Company no longer consolidates the entity. As of the date of deconsolidation, the Company had an investment in this unconsolidated property of \$62.4 million. See Footnotes 2 and 3 to the Notes to the Company’s Condensed Consolidated Financial Statements for further detail and discussion.

The table below presents the Company’s share of net income for the above investments which is included in Equity in income of joint ventures, net on the Company’s Condensed Consolidated Statements of Income for the three and six months ended June 30, 2018 and 2017 (in millions):

During the three months ended June 30, 2018, a joint venture investment distributed cash proceeds resulting from (1) the refinancing of an existing loan of which the Company’s share was \$3.6 million. This distribution was in excess of the Company’s carrying basis in this joint venture investment and as such was recognized as income.

During the six months ended June 30, 2018, certain of the Company's real estate joint ventures disposed of four operating properties, in separate transactions, for an aggregate sales price of \$37.9 million. These transactions resulted in an aggregate net gain to the Company of \$3.5 million for the six months ended June 30, 2018.

During the six months ended June 30, 2017, certain of the Company's real estate joint ventures disposed of six operating properties and a portion of one property, in separate transactions, for an aggregate sales price of \$49.3 million. Albertsons -

As of June 30, 2018, the Company owns 9.74% of the common stock of Albertsons Companies, Inc. (“ACI”) through two wholly-owned partnerships and accounts for this investment on the cost method. The Company’s net investment of \$140.2 million in ACI is included in Other assets on the Company’s Condensed Consolidated Balance Sheets.

On February 20, 2018, ACI announced the execution of a definitive merger agreement under which ACI will acquire all the outstanding shares of Rite Aid Corporation (NYSE: RAD) (“RAD”). This agreement is subject to customary closing conditions. During June 2018, RAD scheduled a special stockholder meeting for August 9, 2018 for its stockholders of record to vote on the proposed merger with ACI. In addition, RAD announced that the registration statement on Form S-4 filed, in connection with this proposed merger, has been declared effective by the Securities and Exchange Commission. Upon completion of the proposed merger, the Company expects to account for its net investment in ACI as an available-for-sale marketable security, with the related changes in fair value recognized in net income.

7. Variable Interest Entities (“VIE”)

Included within the Company’s consolidated operating properties at June 30, 2018 and December 31, 2017, are 22 and 24 consolidated entities that are VIEs, respectively, for which the Company is the primary beneficiary. These entities have been established to own and operate real estate property. The Company’s involvement with these entities is through its majority ownership and management of the properties. The entities were deemed VIEs primarily because the unrelated investors do not have substantive kick-out rights to remove the general or managing partner by a vote of a simple majority or less and they do not have substantive participating rights. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest. At June 30, 2018, total assets of these VIEs were \$891.3 million and total liabilities were \$69.6 million. At December 31, 2017, total assets of these VIEs were \$1.2 billion and total liabilities were \$383.5 million.

The majority of the operations of these VIEs are funded with cash flows generated from the properties. The Company has not provided financial support to any of these VIEs that it was not previously contractually required to provide, which consists primarily of funding any capital expenditures, including tenant improvements, which are deemed necessary to continue to operate the entity and any operating cash shortfalls that the entity may experience.

Additionally, included within the Company’s real estate development projects at June 30, 2018 and December 31, 2017, are two and three consolidated entities that are VIEs, respectively, for which the Company is the primary beneficiary. These entities have been established to develop real estate properties to hold as long-term investments.

The Company's involvement with these entities is through its majority ownership and management of the properties. These entities were deemed VIEs primarily based on the fact that the equity investments at risk are not sufficient to permit the entities to finance their activities without additional financial support. The initial equity contributed to these entities was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was the primary beneficiary of these VIEs as a result of its controlling financial interest. At June 30, 2018, total assets of these real estate development VIEs were \$350.4 million and total liabilities were \$37.6 million. At December 31, 2017, total assets of these real estate development VIEs were \$307.9 million and total liabilities were \$34.2 million.

Substantially all the projected development costs to be funded for these two real estate development projects, approximately \$25.0 million to \$75.0 million, will be funded with capital contributions from the Company, when contractually obligated. The Company has not provided financial support to these VIEs that it was not previously contractually required to provide.

All liabilities of these consolidated VIEs are non-recourse to the Company ("VIE Liabilities"). The assets of the unencumbered VIEs are not restricted for use to settle only the obligations of these VIEs. The remaining VIE assets are encumbered by third party non-recourse mortgage debt. The assets associated with these encumbered VIEs ("Restricted Assets") are collateral under the respective mortgages and are therefore restricted and can only be used to settle the corresponding liabilities of the VIE. The table below summarizes the consolidated VIEs and the classification of the Restricted Assets and VIE Liabilities on the Company's Condensed Consolidated Balance Sheets are as follows (dollars in millions):

	As of June 30, 2018	As of December 31, 2017
Number of unencumbered VIEs	21	22
Number of encumbered VIEs	3	5
Total number of consolidated VIEs	24	27
Restricted Assets:		
Real estate, net	\$ 102.6	\$ 627.5
Cash and cash equivalents	3.5	9.8
Accounts and notes receivable, net	1.4	3.2

Total Restricted Assets	\$ 110.0	\$ 645.0

In addition, the Company recorded a cumulative-effect adjustment of \$1.1 million to its beginning retained earnings as of January 1, 2018, which is reflected in Cumulative distributions in excess of net income on the Company's Condensed Consolidated Statements of Changes in Equity, to reclassify unrealized losses previously reported in AOCI for available-for-sale marketable securities. Also, during the six months ended June 30, 2018, the Company recognized a net loss on changes in fair value of its available-for-sale marketable securities of \$0.1 million in Other income, net on the Company's Condensed Consolidated Statements of Income.

Notes Payable -

In June 2018, the Company repurchased \$6.4 million of its \$500.0 million Senior Unsecured Notes which bear interest at an annual rate of 3.20% and are scheduled to mature in May 2021. As of June 30, 2018, these Senior Unsecured Notes had an outstanding balance of \$493.6 million.

On July 24, 2018, the Company issued a notice of redemption for all of its \$300.0 million 6.875% Senior Unsecured Notes (the “Senior Notes”) which are scheduled to mature in October 2019. The Senior Notes will be redeemed on August 23, 2018 (the “Redemption Date”) at a redemption price (“Redemption Price”) equal to the greater of (i) 100% of the aggregate principal amount of the Senior Notes to be redeemed and (ii) the sum, as determined by an independent investment banker to be appointed by the Company, of the remaining scheduled payments of principal and interest in respect of the Senior Notes being redeemed (exclusive of any interest accrued to, but excluding, the Redemption Date) discounted to the Redemption Date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 50 basis points, plus, in either case, accrued and unpaid interest to, but excluding, the Redemption Date. The Redemption Price will be determined on August 20, 2018.

During the six months ended June 30, 2018, the Company (i) deconsolidated \$206.0 million of individual non-recourse mortgage debt relating to an operating property for which the Company no longer holds a controlling interest and (ii) repaid \$176.0 million of maturing mortgage debt (including fair market value adjustments of \$0.8 million) that encumbered four operating properties.

Additionally, during the six months ended June 30, 2018, the Company disposed of an encumbered property through foreclosure. The transaction resulted in a net decrease in mortgage debt of \$12.4 million. In addition, the Company recognized a gain on forgiveness of debt of \$4.3 million and relief of accrued interest of \$3.4 million, both of which are included in Other income, net in the Company’s Condensed Consolidated Statements of Income.

11. Noncontrolling Interests

Noncontrolling interests represent the portion of equity that the Company does not own in entities it consolidates as a result of having a controlling interest or determined that the Company was the primary beneficiary of a VIE in accordance with the provisions of the FASB’s Consolidation guidance. The Company accounts and reports for noncontrolling interests in accordance with the Consolidation guidance and the Distinguishing Liabilities from Equity guidance issued by the FASB. The Company identifies its noncontrolling interests separately within the equity section on the Company’s Condensed Consolidated Balance Sheets. The amounts of consolidated net income attributable to the Company and to the noncontrolling interests are presented separately on the Company’s Condensed Consolidated Statements of Income. During the six months ended June 30, 2018, there were various transactions that had an impact

on noncontrolling interest. See Footnotes 3 and 5 to the Notes to Condensed Consolidated Financial Statements for additional information regarding specific transactions.

Table of Contents

In addition, during the six months ended June 30, 2018, the Company acquired its partners' interests in three consolidated entities, in two separate transactions, for an aggregate purchase price of \$3.4 million. These transactions resulted in a net decrease in Noncontrolling interest of \$4.6 million and a corresponding net increase in Paid-in capital of \$1.2 million on the Company's Condensed Consolidated Balance Sheets. There are no remaining partners in two of these consolidated entities.

Included within noncontrolling interests are units that were determined to be contingently redeemable that are classified as Redeemable noncontrolling interests and presented in the mezzanine section between Total liabilities and Stockholder's equity on the Company's Condensed Consolidated Balance Sheets.

12. Fair Value Measurements

All financial instruments of the Company are reflected in the accompanying Condensed Consolidated Balance Sheets at amounts which, in management's estimation, based upon an interpretation of available market information and valuation methodologies, reasonably approximate their fair values except those listed below, for which fair values are disclosed. The valuation method used to estimate fair value for fixed-rate and variable-rate debt is based on discounted cash flow analyses, with assumptions that include credit spreads, market yield curves, trading activity, loan amounts and debt maturities. The fair values for marketable securities are based on published values, securities dealers' estimated market values or comparable market sales. Such fair value estimates are not necessarily indicative of the amounts that would be realized upon disposition.

As a basis for considering market participant assumptions in fair value measurements, the FASB's Fair Value Measurements and Disclosures guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

The following are financial instruments for which the Company's estimate of fair value differs from the carrying amounts (in thousands):

	June 30, 2018		December 31, 2017	
	Carrying	Estimated	Carrying	Estimated
	Amounts	Fair Value	Amounts	Fair Value
Notes payable, net (1)	\$4,591,178	\$4,338,371	\$4,596,140	\$4,601,479

Mortgages payable, net (2) \$477,538 \$470,651 \$882,787 \$881,427

- The Company determined that the valuation of its Senior Unsecured Notes were classified within Level 2 of the fair value hierarchy and its Credit Facility was classified within Level 3 of the fair value hierarchy. The estimated (1) fair value amounts classified as Level 2 as of June 30, 2018 and December 31, 2017, were \$4.3 billion and \$4.6 billion, respectively. The estimated fair value amounts classified as Level 3 as of June 30, 2018 and December 31, 2017, were \$0 and \$1.9 million, respectively.
- (2) The Company determined that its valuation of Mortgages payable, net was classified within Level 3 of the fair value hierarchy.

The Company has certain financial instruments that must be measured under the FASB's Fair Value Measurements and Disclosures guidance, including available for sale securities. The Company currently does not have non-financial assets and non-financial liabilities that are required to be measured at fair value on a recurring basis.

The tables below present the Company's financial assets and liabilities measured at fair value on a recurring basis as of June 30, 2018 and December 31, 2017, aggregated by the level in the fair value hierarchy within which those measurements fall (in thousands):

During the six months ended June 30, 2018 and 2017, the Company recognized impairment charges related to adjustments to property carrying values of \$30.5 million and \$31.3 million, respectively. The Company's estimated fair values of these properties were primarily based upon estimated sales prices from (i) signed contracts or letters of intent from third party offers or (ii) discounted cash flow models. The Company does not have access to the unobservable inputs used to determine the estimated fair values of third party offers. For the discounted cash flow models, the capitalization rates primarily range from 8.5% to 9.0% and discount rates primarily range from 9.50% to 10.0% which were utilized in the models based upon unobservable rates that the Company believes to be within a reasonable range of current market rates for each respective investment. Based on these inputs, the Company determined that its valuation of these investments was classified within Level 3 of the fair value hierarchy. (See Footnote 3 to the Notes to the Company's Condensed Consolidated Financial Statements for additional discussion regarding impairment charges).

The Company accounts for equity awards in accordance with FASB's Compensation – Stock Compensation guidance which requires that all share based payments to employees, including grants of employee stock options, restricted stock and performance shares, be recognized in the Condensed Consolidated Statements of Income over the service period based on their fair values. Fair value is determined, depending on the type of award, using either the Black-Scholes option pricing formula or the Monte Carlo method for performance shares, both of which are intended to estimate the fair value of the awards at the grant date. Fair value of restricted shares is calculated based on the price on the date of grant.

The Company recognized expenses associated with its equity awards of \$10.4 million and \$13.8 million for the six months ended June 30, 2018 and 2017, respectively. As of June 30, 2018, the Company had \$37.1 million of total unrecognized compensation cost related to unvested stock compensation granted under the Plans. Diluted earnings per share	\$0.36	\$0.31	\$0.66	\$0.46

The effect of the assumed conversion of certain convertible units had an anti-dilutive effect upon the calculation of Income from continuing operations per share. Accordingly, the impact of such conversions has not been included (1) in the determination of diluted earnings per share calculations. Additionally, there were 3.2 million and 4.0 million stock options that were not dilutive as of June 30, 2018 and 2017, respectively, and 2.3 million shares of restricted stock that were not dilutive for the three months ended June 30, 2018.

The Company's unvested restricted share awards contain non-forfeitable rights to distributions or distribution equivalents. The impact of the unvested restricted share awards on earnings per share has been calculated using the two-class method whereby earnings are allocated to the unvested restricted share awards based on dividends declared and the unvested restricted shares' participation rights in undistributed earnings.

Executive Overview

Kimco Realty Corporation, a Maryland corporation, is one of North America's largest publicly traded owners and operators of open-air shopping centers. The terms "Kimco," the "Company," "we," "our" and "us" each refer to Kimco Realty Corporation and our subsidiaries, unless the context indicates otherwise. The Company's mission is to create destinations for everyday living that inspire a sense of community and deliver value to our many stakeholders.

The Company is a self-administered real estate investment trust ("REIT") and has owned and operated open-air shopping centers for 60 years. The Company has not engaged, nor does it expect to retain, any REIT advisors in connection with the operation of its properties. As of June 30, 2018, the Company had interests in 460 shopping center properties (the "Combined Shopping Center Portfolio"), aggregating 78.7 million square feet of gross leasable area ("GLA"), located in 28 states and Puerto Rico. In addition, the Company had 296 other property interests, primarily through the Company's preferred equity investments and other real estate investments, totaling 5.0 million square feet of GLA. The Company's ownership interests in real estate consist of its consolidated portfolio and portfolios where the Company owns an economic interest, such as properties in the Company's investment real estate management programs, where the Company partners with institutional investors and also retains management.

The Company's operating strategies are to (i) own and operate its shopping center properties at their highest potential through maximizing and maintaining rental income and occupancy levels, (ii) attract local area customers to its shopping centers, which offer day-to-day necessities rather than high-priced luxury items, and (iii) maintain a strong balance sheet.

The Company's investment strategy is to invest capital into high quality assets which are concentrated in major metro markets that provide opportunity for growth while disposing of lesser quality assets in more undesirable locations. Through this strategy, the Company has steadily progressed in its transformation of its portfolio and will continue these efforts as deemed necessary to maximize the quality and growth of its portfolio. The properties acquired are primarily located in major metro areas allowing tenants to generate higher foot traffic resulting in higher sales volume. The Company believes that this will enable it to maintain higher occupancy levels, rental rates and rental growth.

Table of Contents

The Company's investment strategy also includes the retail re-tenanting, renovation and expansion of its existing centers and acquired centers. The Company may selectively acquire established income-producing real estate properties and properties requiring significant re-tenanting and redevelopment, primarily in geographic regions in which the Company presently operates. Additionally, the Company may selectively acquire land parcels in its key markets for real estate development projects for long-term investment. The Company may consider investments in other real estate sectors and in geographic markets where it does not presently operate should suitable opportunities arise. The Company also continues to simplify its business by reducing the number of joint venture investments and pursuing redevelopment opportunities to increase overall value within its portfolio.

As part of the Company's investment strategy each property is evaluated for its highest and best use, which may include residential and mixed-use components. In addition, the Company may consider other opportunistic investments related to retailer controlled real estate such as, repositioning underperforming retail locations, retail real estate financing and bankruptcy transaction support. The Company has an active capital recycling program which provides for the disposition of certain properties. If the Company accepts sales prices for any of these assets that are less than their net carrying values, the Company would be required to take impairment charges and such amounts could be material.

The Company anticipates the total remaining costs to complete these four active projects to be approximately \$125.0 million to \$200.0 million. The Company anticipates its capital commitment toward these development projects for the remainder of 2018 will be approximately \$100.0 million to \$150.0 million. The funding of these capital requirements will be provided by proceeds from property dispositions, cash flow from operating activities, construction financing, where applicable, and availability under the Company's Credit Facility.

The Company continually evaluates its debt maturities, and, based on management's current assessment, believes it has viable financing and refinancing alternatives that will not materially adversely impact its expected financial results. The Company continues to pursue borrowing opportunities with large commercial U.S. and global banks, select life insurance companies and certain regional and local banks. The Company has noticed a continuing trend that, although pricing remains dependent on specific deal terms, generally spreads for non-recourse mortgage financing has stabilized and the unsecured debt markets are functioning well and credit spreads are at manageable levels.

Table of Contents

Debt maturities for the remainder of 2018 consist of \$68.1 million of unconsolidated joint venture debt, assuming the utilization of extension options where available. These maturities are anticipated to be repaid through operating cash flows, debt refinancing, unsecured credit facilities, proceeds from property sales or partner capital contributions, as deemed appropriate.

The Company intends to maintain strong debt service coverage and fixed charge coverage ratios as part of its commitment to maintain its investment-grade senior, unsecured debt ratings. The Company may, from time-to-time, seek to obtain funds through additional common and preferred equity offerings, unsecured debt financings and/or mortgage/construction loan financings and other capital alternatives.

Since the completion of the Company's IPO in 1991, the Company has utilized the public debt and equity markets as its principal source of capital for its expansion needs. Since the IPO, the Company has completed additional offerings of its public unsecured debt and equity, raising in the aggregate over \$13.8 billion. Proceeds from public capital market activities have been used for the purposes of, among other things, repaying indebtedness, acquiring interests in open-air shopping centers, funding real estate under development projects, expanding and improving properties in the portfolio and other investments.

During February 2018, the Company filed a shelf registration statement on Form S-3, which is effective for a term of three years, for the future unlimited offerings, from time-to-time, of debt securities, preferred stock, depositary shares, common stock and common stock warrants. The Company, pursuant to this shelf registration statement may, from time-to-time, offer for sale its senior unsecured debt for any general corporate purposes, including (i) funding specific liquidity requirements in its business, including property acquisitions, development and redevelopment costs and (ii) managing the Company's debt maturities.

Preferred Stock-

During January 2018, the underwriting financial institutions for the Class M Preferred Stock issuance elected to exercise the over-allotment option and as a result, the Company issued an additional 1,380,000 Class M Depositary Shares, each representing a one-thousandth fractional interest in a share of the Company's 5.250% Class M Cumulative Redeemable Preferred Stock, \$1.00 par value per share. The Company received net proceeds before expenses of \$33.4 million from this over-allotment issuance.

Mortgages Payable –

During the six months ended June 30, 2018, the Company (i) deconsolidated \$206.0 million of individual non-recourse mortgage debt relating to an operating property for which the Company no longer holds a controlling interest and (ii) repaid \$176.0 million of maturing mortgage debt (including fair market value adjustments of \$0.8 million) that encumbered four operating properties.

Additionally, during the six months ended June 30, 2018, the Company disposed of an encumbered property through foreclosure. The transaction resulted in a net decrease in mortgage debt of \$12.4 million. In addition, the Company

recognized a gain on forgiveness of debt of \$4.3 million and relief of accrued interest of \$3.4 million, both of which are included in Other income, net in the Company's Condensed Consolidated Statements of Income.

In addition to the public equity and debt markets as capital sources, the Company may, from time-to-time, obtain mortgage financing on selected properties and construction loans to partially fund the capital needs of its real estate development projects. As of June 30, 2018, the Company had over 340 unencumbered property interests in its portfolio.

Dividends –

In connection with its intention to continue to qualify as a REIT for federal income tax purposes, the Company expects to continue paying regular dividends to its stockholders. These dividends will be paid from operating cash flows. The Company's Board of Directors will continue to evaluate the Company's dividend policy on a quarterly basis as the Board of Directors monitors sources of capital and evaluates the impact of the economy and capital markets availability on operating fundamentals. Since cash used to pay dividends reduces amounts available for capital investment, the Company generally intends to maintain a conservative dividend payout ratio, reserving such amounts as it considers necessary for the expansion and renovation of shopping centers in its portfolio, debt reduction, the acquisition of interests in new properties and other investments as suitable opportunities arise and such other factors as the Board of Directors considers appropriate. Cash dividends paid for the six months ended June 30, 2018 and 2017 were \$264.7 million and \$252.8 million, respectively.

Although the Company receives substantially all of its rental payments on a monthly basis, it generally intends to continue paying dividends quarterly. Amounts accumulated in advance of each quarterly distribution will be invested by the Company in short-term money market or other suitable instruments. On April 24, 2018, the Company's Board of Directors declared a quarterly cash dividend of \$0.28 per common share payable to shareholders of record on July 3, 2018, which was paid on July 16, 2018. Additionally, on July 24, 2018, the Company's Board of Directors declared a quarterly cash dividend of \$0.28 per common share payable to shareholders of record on October 2, 2018, which is scheduled to be paid on October 15, 2018.

The Board of Directors declared quarterly dividends with respect to the Company's various classes of cumulative redeemable preferred shares (Classes I, J, K, L and M). All dividends on the preferred shares were paid on July 16, 2018 to shareholders of record on July 3, 2018. Additionally, the Board of Directors also declared quarterly dividends with respect to the Company's various series of cumulative redeemable preferred shares (Classes I, J, K, L and M). All dividends on the preferred shares are scheduled to be paid on October 15, 2018, to shareholders of record on October 1, 2018.

Hurricane Impact –

On September 20, 2017, Hurricane Maria struck Puerto Rico as a Category 4 hurricane which resulted in widespread damage, flooding, and power outages. The Company has interests in seven operating properties located throughout Puerto Rico, aggregating 2.2 million square feet of GLA, which were variously impacted by the hurricane. The Company maintains a comprehensive property insurance policy on these properties with total coverage of up to \$62.0 million, as well as business interruption insurance with coverage up to \$39.3 million in the aggregate, subject to a collective deductible of \$1.2 million.

Table of Contents

The Company expects to collect property insurance proceeds (net of deductible) equal to the replacement cost of its damaged property, currently estimated to be approximately \$30.9 million. The Company expects that the final replacement cost claim will exceed the amount previously written off due to property damage (\$16.0 million) and that this excess amount will be recorded, net of the deductible, as income by the Company upon full settlement and collection of the casualty insurance claim. As of June 30, 2018, the Company has collected property insurance proceeds totaling \$10.5 million to date and has a remaining receivable balance of \$5.5 million, which is included in Other assets on the Company's Condensed Consolidated Balance Sheets.

The Company's business interruption insurance covers lost revenues as a result of the hurricane for a period of up to one year. After the expiration of one year following the loss, the policy has 365 days of extended period of indemnity which provides business interruption coverage in the event the properties have not fully recovered from the storm. As of June 30, 2018, the Company has collected business interruption claims totaling \$3.7 million to date from its insurance provider. The Company is still in the process of assessing current and future business interruption insurance losses and will submit insurance claims for its estimated losses under its business interruption insurance policy.

Other –

The Company is subject to taxes on its activities in Canada, Puerto Rico and Mexico. In general, under local country law applicable to the structures the Company has in place and applicable treaties, the repatriation of cash to the Company from its subsidiaries and joint ventures in Canada, Puerto Rico and Mexico generally are not subject to withholding tax. The Company is subject to and also includes in its tax provision non-U.S. income taxes on certain investments located in jurisdictions outside the U.S. These investments are held by the Company at the REIT level and not in the Company's taxable REIT subsidiary. Accordingly, the Company does not expect a U.S. income tax impact associated with the repatriation of undistributed earnings from the Company's foreign subsidiaries.

Funds From Operations

Funds From Operations ("FFO") is a supplemental non-GAAP financial measure utilized to evaluate the operating performance of real estate companies. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income/(loss) available to the Company's common shareholders computed in accordance with generally accepted accounting principles in the United States ("GAAP"), excluding (i) gains or losses from sales of operating real estate assets and change in control of interests, plus (ii) depreciation and amortization of operating properties and (iii) impairment of depreciable real estate and in substance real estate equity investments and (iv) after adjustments for unconsolidated partnerships and joint ventures calculated to reflect FFO on the same basis.

The Company presents FFO available to the Company's common shareholders as it considers it an important supplemental measure of our operating performance and believes it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO available to the Company's common shareholders when reporting results. Comparison of our presentation of FFO available to the Company's common shareholders to similarly titled measures for other REITs may not necessarily be meaningful due to possible differences in the application of the NAREIT definition used by such REITs.

The Company also presents FFO available to the Company's common shareholders as adjusted as an additional supplemental measure as it believes it is more reflective of its core operating performance and provides investors and analysts an additional measure to compare the Company's performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. FFO available to the Company's common shareholders as adjusted is generally calculated by the Company as FFO available to the Company's common shareholders excluding certain transactional income and expenses and non-operating impairments which management believes are not reflective of the results within the Company's operating real estate portfolio.

FFO is a supplemental non-GAAP financial measure of real estate companies' operating performances, which does not represent cash generated from operating activities in accordance with GAAP and therefore should not be considered an alternative for net income as a measure of liquidity. Our method of calculating FFO available to the Company's common shareholders and FFO available to the Company's common shareholders as adjusted may be different from methods used by other REITs and, accordingly, may not be comparable to such other REITs.

Reflects the potential impact if certain units were converted to common stock at the beginning of the period, which would have a dilutive effect on FFO available to the Company's common shareholders. FFO available to the Company's common shareholders would be increased by \$261 and \$267 for the three months ended June 30, 2018 and 2017, respectively and \$525 and \$459 for the six months ended June 30, 2018 and 2017. The effect of other certain convertible units would have an anti-dilutive effect upon the calculation of Net income available to the Company's common shareholders per share. Accordingly, the impact of such conversion has not been included in the determination of diluted earnings per share calculations.

Same Property Net Operating Income ("Same property NOI")

Same property NOI is a supplemental non-GAAP financial measure of real estate companies' operating performance and should not be considered an alternative to net income in accordance with GAAP or as a measure of liquidity. The Company considers Same property NOI as an important operating performance measure because it is frequently used by securities analysts and investors to measure only the net operating income of properties that have been owned by the Company for the entire current and prior year reporting periods. It excludes properties under redevelopment, development and pending stabilization; properties are deemed stabilized at the earlier of (i) reaching 90% leased or (ii) one year following a project's inclusion in operating real estate. Same property NOI assists in eliminating disparities in net income due to the development, acquisition or disposition of properties during the particular period presented, and thus provides a more consistent performance measure for the comparison of the Company's properties.

Same property NOI is calculated using revenues from rental properties (excluding straight-line rent adjustments, lease termination fees, TIFs and amortization of above/below market rents) less charges for bad debt, operating and maintenance expense, real estate taxes and rent expense plus the Company's proportionate share of Same property NOI from unconsolidated real estate joint ventures, calculated on the same basis. The Company's method of calculating Same property NOI available to the Company's common shareholders may differ from methods used by other REITs and, accordingly, may not be comparable to such other REITs.
