LABOR SMART, INC
NOTES TO FINANCIAL STATEMENTS
June 30, 2012
(Unaudited)

NOTE 1 NATURE OF OPERATIONS

Nature of Business

Labor Smart, Inc. (the Company) was incorporated in the State of Nevada on May 31, 2011. Since inception, the Company has been engaged in organizational efforts and obtaining initial financing. Labor Smart, Inc. provides temporary blue-collar staffing services. It supplies general laborers on demand to the light industries, including manufacturing, logistics, and warehousing, skilled trades people, and general laborers to commercial construction industries.

As of December 31, 2011, the Company was considered to be in the development stage as defined by ASC 915 Development Stage Entities . During the six months ended June 30, 2012, the Company ceased to be a development stage company as it has established its temporary staffing service and planned principal operations have commenced.

NOTE 2 GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company requires capital for its contemplated operational and marketing activities. The Company's ability to raise additional capital through the future issuances of common stock is unknown. Accordingly, the Company had a net income of \$26,516 for the six months ended June 30, 2012. Additionally, the operating activities of the Company used \$190,904 net cash during the same six month period. The obtainment of additional financing and increasingly profitable operations are necessary for the Company to continue operations. The ability to successfully resolve these factors raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

NOTE 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

These financial statements are presented in United States dollars and have been prepared in accordance with generally accepted accounting principles in the United States of America. The Company has adopted a December 31 fiscal year end.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, and notes payable. The carrying amount of these financial instruments approximates fair value due to the short maturity of the instruments.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and short-term investments with original maturities of less than 90 days. Cash equivalents are placed with high credit quality financial institutions and are primarily in money market funds. The carrying value of those investments approximates fair value.

Income Taxes

The Company follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax balances. Deferred tax assets and liabilities are measured using enacted or substantially enacted tax rates expected to apply to the taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment. Deferred income taxes are reported for

timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with FASB ASC 740-10, Income Taxes, which requires the use of the asset/liability method of accounting for income taxes. The Company provides for deferred taxes for the estimated future tax effects attributable to temporary differences and carry-forwards when realization is more likely than not.

Revenue Recognition

The Company recognizes revenues and the related costs when persuasive evidence of an arrangement exists, delivery and acceptance has occurred or service has been rendered, the price is fixed or determinable, and collection of the resulting receivable is reasonably assured. Amounts invoiced or collected in advance of product delivery or providing services are recorded as deferred revenue. The Company accrues for warranty costs, sales returns, bad debts, and other allowances based on its historical experience.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. These estimates and judgments are based on historical information, information that is currently available to the Company, and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could differ from those estimates.

Factoring Agreement and Accounts Receivable

The Company has a month to month financing agreement with RIVIERA FINANCE that includes a non-recourse factoring arrangement that provides notification factoring on substantially all of the Company's sales. RIVIERA FINANCE, based on credit approved orders, assumes the accounts receivable risk of the Company's customers in the event of insolvency or non-payment. All other receivable risks for customer deductions that reduce the customer receivable balances are retained by the Company, including, but not limited to, allowable customer markdowns, disputes, and discounts. The Company assumes the risk on accounts receivable not factored to RIVIERA FINANCE, which is shown as accounts receivable on the accompanying balance sheets.

Earnings per share

Basic earnings per common share is computed by dividing net income available to common shareholders by the weighted-average number of shares of common stock outstanding during the period. Diluted earnings per common share is computed by dividing income available to common shareholders by the weighted-average number of shares of common stock outstanding during the period increased to include the number of additional shares of common stock that would have been outstanding if potentially dilutive securities had been issued. There were no potentially dilutive securities outstanding during the periods presented.

Recent Accounting Pronouncements

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position, or cash flow.

NOTE 4 STOCKHOLDERS EQUITY

The Company has 75,000,000 shares of \$0.001 par value common stock authorized. As of June 30, 2012 and December 31, 2011, the Company had 16,045,000 shares issued and outstanding, respectively. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Note Regarding Forward-Looking Statements

This quarterly report on Form 10-Q and other reports filed by the Company from time to time with the Securities and Exchange Commission (collectively the Filings) contain or may contain forward-looking statements and information that are based upon beliefs of, and information currently available to, Company s management as well as estimates and assumptions made by Company s management. Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. When used in the filings, the words anticipate , believe , estimate , expect , future , intend , plan , or the negative of these terms and similar expressions as they relate to Company or Company s management identify forward-looking statements. Such statements reflect the current view of Company with respect to future events and are subject to risks, uncertainties, assumptions, and other factors (including the risks contained in the section of operations and results of operations, and any businesses that Company may acquire.) Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended, or planned.

Although Company believes that the expectations reflected in the forward-looking statements are reasonable, Company cannot guarantee future results, levels of activity, performance, or achievements. Except as required by applicable law, including the securities laws of the United States, the Company does not intend to update any of the forward-looking statements to conform these statements to actual results. Readers are urged to carefully review and consider the various disclosures made throughout the entirety of this quarterly report, which attempt to advise interested parties of the risks and factors that may affect our business, financial condition, results of operations, and prospects.

Overview

Labor Smart, Inc. was incorporated in the State of Nevada on May 31, 2011. We are a provider of temporary employees to the construction, manufacturing, hospitality, restoration and retail industries. We provide unskilled and semi-skilled temporary workers to our customers. Generally, we pay our workers the same day they perform the job.

Our mission is to be the provider of choice to our growing community of customers, with a service-focused approach, that positions us as a resource and partner for their business.

At June 30, 2012, we were operating 6 branches located in 4 states.

Results of Operations

Three Months Ended June 30, 2012

Summary of Operations: Revenue for the three months ended June 30, 2012 was \$1.710 million. Net operating income for the three months ended June 30, 2012 was \$39,397 and net loss was \$8,252.

Cost of Services: Cost of services was 83.68% of revenue for the three months ended June 30, 2012. Cost of services mainly consists of payroll related and worker's compensation expense for our laborers which was 80.13% and 3.55% of revenues, respectively.

Selling, General and Administrative Expenses (SG&A): SG&A expenses were 14.01% of revenue for the three months ended June 30, 2012. There is no prior year comparable as we had not yet commenced operations.

Of our total \$239,679 in SG&A expenses, \$4,210 is attributable to accounting and auditor fees related to our S-1 Registration with the Securities and Exchange Commission, \$93,061 to staff payroll expenses, and \$142,408 to General and Administrative expenses, which includes \$15,000 attributable to consultant fees related to our S-1 Registration with the Securities and Exchange Commission, which represent .25%, 5.44%, and 8.33% of revenues, respectively.

Liquidity and Capital Resources

We have funded our operations to date primarily through the sale of equity, invoice factoring, and shareholder loans. Based on our current operating plan, we anticipate that we have sufficient cash and cash equivalents to fund our operations into the coming months. We will require additional cash to fund our operating plan past that time. If the level of sales anticipated by our financial plan are not achieved or our working capital requirements are higher than planned, we will need to raise additional cash sooner or take actions to reduce operating expenses. We are implementing plans to reduce our costs of capital and improve our revenue. If we cannot generate adequate cash by implementing these steps, we plan to obtain additional cash through the issuance of equity or debt securities. There can be no assurance that additional cash will be available or that, if available, it will be available on terms acceptable to us on a timely basis. If adequate funds are not available on a timely basis, we intend to limit our operations to extend our funds as we pursue other financing opportunities and business relationships. This limitation of operations could include reducing our planned investment in working capital to fund revenue growth and result in reductions in staff, operating costs, and capital expenditures.

Net cash provided by operations consisted of (\$190,904) during the six months ended June 30, 2012. Net Cash flows used in operating activities for the six months ended June 30, 2012 consisted of a net income of \$26,516 adjusted by: an increase of our balance sheet receivables factoring of \$218,201, by an increase of \$772,291 in accounts receivable and an increase of \$294,020 in payroll taxes payable. Cash used in investing activities totaled (\$5,949) for the six months ended June 30, 2012. Net cash provided by financing activities totaled \$200,000 for the six months ended June 30, 2012. The proceeds were primarily generated from shareholder loans in the amount of \$210,000.

Our continued capital needs will depend on branch operating performance, our ability to control costs, and the continued impact from our expansion plans for 2012 that are to be completed by the end of the 3rd quarter 2012.

Accounts Receivable: At June 30, 2012, we had total current assets of approximately \$761,065 and current liabilities of approximately \$725,760. Included in current assets are trade accounts receivable of approximately \$626,276. Our cash position at June 30, 2012 was approximately \$68,258. Accounts receivable are recorded at the invoiced amounts. We regularly review our accounts receivable for collectability. We will typically refer overdue balances to a collection agency at 120 days and the collection agent pursues collection for another 60 days. Most balances over 120 days past due are written off as it is probable the receivable will not be collected. To date we have had no bad debt right offs or accounts sent to collections. As our business matures, we will continue to monitor and seek to improve our historical collection ratio and aging experience with respect to trade accounts receivable. As we grow, our historical collection ratio and aging experience with respect to trade accounts receivable will continue to be important factors affecting our liquidity.

Financing: The Company has a month to month financing agreement with RIVIERA FINANCE that includes a non-recourse factoring arrangement that provides notification factoring on substantially all of the Company's sales. Receivables are factored at a rate of 85% of the invoice face value on accepted accounts up to \$500,000. As of June 30, 2012, the Company has factored \$218,201 in receivables. A reserve of 8% of the invoice face value is held by RIVIERA FINANCE in case of customer disputes. Fees charged by RIVIERA FINANCE are 2% of the unpaid

invoice face value for the first 25 days after the factored date and 0.8% of the invoice face value for every ten days thereafter up to a total of 7%, including the initial 2%. Administrative charges based on various rates are charged on the gross face amount of all accounts with minimum fees as defined in the agreement.

Our total financing costs through this facility for the six months ended June 30, 2012 was \$47,369, which is reflected on our income statement as a loss on sale of receivables. As collateral for repayment of any and all obligations, we granted Riviera Finance a security interest in all our property, including, but not limited to, accounts receivable, intangible assets, contract rights, investment property, deposit accounts, and other such assets.

Off- balance sheet arrangements: As of June 30, 2012, we do not have any off-balance sheet arrangements except for our factored receivables under the agreement with RIVIERA FINANCE. The cash received from our factored receivables finance the Company's operating expenses and are a significant source of liquidity for the Company. For more information about the factoring terms, see Financing discussion above.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable to smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act) that are designed to be effective in providing reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission (the SEC), and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

As of June 30, 2012, the Certifying Officers evaluated the effectiveness of our disclosure controls and procedures. Based on the evaluation, the Certifying Officers concluded that our disclosure controls and procedures were not effective to provide reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the applicable rules and forms, and that it is accumulated and communicated to our management, including the Certifying Officers, as appropriate to allow timely decisions regarding required disclosure.

The Certifying Officers have also concluded, based on their evaluation of our controls and procedures that as of June 30, 2012, our internal controls over financial reporting are not effective and provide no reasonable assurance of achieving their objective.

Changes in Internal Control over Financial Reporting

There was no change in our internal controls over financial reporting identified in connection with the requisite evaluation that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
