**Risk Factors**

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

- If the notes are not automatically called, your investment will result in a loss; there is no guaranteed return of principal. You will lose all or a portion of your principal amount if the level of the Index on the final Observation Date is greater than the starting value.
- Payments on the notes are subject to the credit risk of BAC, and actual or perceived changes in the creditworthiness of BAC are expected to affect the value of the notes. If BAC becomes insolvent or is unable to pay its obligations, you may lose your entire investment.
- Your investment return is limited to the applicable Call Premium and may be less than a comparable short position in the Market Measure or the stocks included in the Market Measure.
- The initial estimated value of the notes on the pricing date will be less than their public offering price.
- If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.
- You will have no rights of a holder of the securities represented by the Market Measure, and you will not be entitled to receive securities or dividends or other distributions by the issuers of those securities.
- The notes are subject to risks associated with small-size capitalization companies.

*Final terms will be set on the pricing date within the given range for the specified Market -Linked Investment. Please see the Preliminary Offering Documents for complete product disclosure, including related risks and tax disclosure.*
