Item 2.05. Costs Associated With Exit or Disposal Activities.

On March 12, 2015, Post Holdings, Inc. (the “Company” or “Post”) announced plans to close its facility in Boise, Idaho, manufacturing PowerBar products distributed in North America. The closure of the plant is expected to be completed by July 2015. Post management expects to transfer production of the PowerBar products to third party facilities under co-manufacturing agreements.

The closure of the facility will impact approximately 165 employees, and the Company began notifying impacted employees on March 12, 2015. The Company currently expects to incur one-time pre-tax charges of approximately \$5 million in connection with the closure. Components of the pretax charges include cash charges of approximately \$4.2 million related to severance, retention and related expenses and non-cash charges of approximately \$0.8 million related to other plant closure expenses. The Company estimates that these pretax charges will primarily be incurred in Post's second quarter of fiscal 2015. Upon closure of the facility and the transfer of production to co-manufacturers, the Company expects to achieve net pre-tax annual cash manufacturing cost savings of approximately \$4 million beginning in Post's fiscal year 2016.

A copy of the Company's press release is attached to this report as Exhibit 99.1 and is incorporated herein by reference.

Certain matters discussed in this Current Report on Form 8-K are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including the expected timing of the closure of the plant, the expected transition of production to co-manufacturing agreements, the expected benefits of the closure, the expected cost savings and charges associated with the closure, and the timing of the savings. These forward-looking statements are based on the current expectations of Post and are subject to uncertainty and changes in circumstances. Such statements involve certain risks and uncertainties that could cause actual results to differ materially from the forward-looking statements made herein. These risks and uncertainties include our ability to continue to compete in our product markets and our ability to retain market position; changes in our cost structure, management, financing and business operations; significant volatility in the costs of certain raw materials, commodities, packaging or energy used to manufacture our products; our ability to maintain competitive pricing, introduce new products or successfully manage costs; our ability to successfully implement business strategies to reduce costs; changes in economic conditions and consumer demand for our products; labor strikes, work stoppages or unionization efforts; our reliance on third party manufacturers for certain of our products; disruptions or inefficiencies in supply chain; changes in weather conditions, natural disasters, disease outbreaks and other events beyond our control; business disruptions caused by information technology failures and/or technology hacking; and other risks and uncertainties described in the Company's filings with the Securities and Exchange Commission. These forward-looking statements represent the Company's judgment as of the date of this Current Report on Form 8-K. Investors are cautioned not to place undue reliance on these forward-looking statements. The Company disclaims, however, any intent or obligation to update these forward-looking statements.
