EATON CORPORATION plc

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Amounts are in millions unless indicated otherwise (per share data assume dilution).

Note 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Eaton Corporation plc (Eaton or the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by United States generally accepted accounting principles (US GAAP) for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring accruals) have been made that are necessary for a fair presentation of the condensed consolidated financial statements for the interim periods.

This Form 10-Q should be read in conjunction with the consolidated financial statements and related notes included in Eaton's 2017 Form 10-K. The interim period results are not necessarily indicative of the results to be expected for the full year. Management has evaluated subsequent events through the date this Form 10-Q was filed with the Securities and Exchange Commission.

During the first quarter of 2018, Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segment is eMobility (which includes certain legacy Electrical Products and Vehicle product lines). For the reportable segments that were re-segmented, previously reported segment financial information has been updated for 2016 and 2017. See Note 13 for additional information related to these segments.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Revenue Recognition

Sales are recognized when control of promised goods or services are transferred to customers in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services. Control is transferred when the customer has the ability to direct the use of and obtain benefits from the goods or services. The majority of the Company's sales agreements contain performance obligations satisfied at a point in time when control is transferred to the customer. Sales recognized over time are generally accounted for using an input measure to determine progress completed at the end of the period. Sales for service contracts generally are recognized as the services are provided. For agreements with multiple performance obligations, judgment is required to determine whether performance obligations specified in these agreements are distinct and should be accounted for as separate revenue transactions for recognition purposes. In these types of agreements, we generally allocate sales price to each distinct obligation based on the price of each item sold in separate transactions.

Payment terms vary by the type and location of the customer and the products or services offered. Generally, the time between when revenue is recognized and payment is due is not significant. Eaton does not evaluate whether the selling price includes a financing interest component for contracts that are less than a year. Sales, value add, and other taxes collected concurrent with revenue are excluded from sales. Shipping and handling costs are treated as fulfillment costs and are included in Cost of products sold.

Eaton records reductions to sales for returns, and customer and distributor incentives, primarily comprised of rebates, at the time of the initial sale. Rebates are estimated based on sales terms, historical experience, trend analysis, and projected market conditions in the various markets served. The rebate programs offered vary across businesses due to the numerous markets Eaton serves, but the most common incentives relate to amounts paid or credited to customers for achieving defined volume levels. Returns are estimated at the time of the sale primarily based on historical experience and recorded gross on the Consolidated Balance Sheet. See Note 3 for additional information.

Adoption of New Accounting Standards

Eaton adopted Accounting Standard Update 2014-09, Revenue from Contracts with Customers, at the start of the first quarter of 2018 using the modified retrospective approach and recorded a cumulative effect adjustment to retained earnings based on the current terms and conditions for open contracts as of January 1, 2018. The adoption of the standard did not have a material impact on the Company's Consolidated financial statements. The comparative information has not been restated and continues to be reported under the accounting standards in effect for those

periods.

| Liabilities and shareholders' equity      |                                    |                                      |                                     |
| Other current liabilities                 | \$ 1,872                           | \$ 33                                | \$ 1,905                            |
| Eaton shareholders' equity                | 17,253                             | (2 )                                 | 17,251                              |

Eaton adopted Accounting Standards Update 2016-16, Intra-Entity Transfers of Assets Other Than Inventory (ASU 2016-16), at the start of the first quarter of 2018. This accounting standard requires companies to recognize the income tax effects of intercompany sales and transfers of assets other than inventory in the period in which the transfer occurs. The previous accounting standard required companies to defer the income tax effects of intercompany transfers of assets by recording a prepaid tax, until such assets were sold to an outside party or otherwise recognized. ASU 2016-16 requires companies to write off any income tax amounts that had been deferred as prepaid taxes from past intercompany transactions, and record deferred tax balances for amounts that have not been recognized, through a cumulative-effect adjustment to retained earnings. Upon adoption, the Company recorded a cumulative-effect adjustment of \$199 to reduce retained earnings.

Eaton adopted Accounting Standards Update 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost (ASU 2017-07), at the start of the first quarter of 2018. The new standard requires companies to present service costs consistent with other employee compensation costs on the income statement and separate from all other elements of pension costs. The retrospective adoption of this standard resulted in a reduction in selling and administrative expense with a corresponding decrease in Other income - net of \$1 and \$9 for the three months ended March 31, 2018 and 2017, respectively.

#### Recently Issued Accounting Pronouncement

In February 2016, the FASB issued Accounting Standards Update 2016-02, Leases (Topic 842), (ASU 2016-02). This accounting standard requires that a lessee recognize a lease asset and a lease liability on its balance sheet for all leases, including operating leases, with a term greater than 12 months. ASU 2016-02 will require additional disclosures in the notes to the consolidated financial statements and is effective for annual and interim reporting periods beginning after December 15, 2018. A project team has been formed to evaluate and implement the new standard. The project team is working to gather the data required to account for leases under the new standard, and validating the functionality of third-party lease accounting software. In addition, the Company is in the process of identifying and implementing the appropriate changes to business processes and controls to support recognition and disclosure under the new standard. Eaton plans to adopt the standard as of the first quarter of 2019. Eaton is evaluating the impact of ASU 2016-02 and an estimate of the impact to the consolidated financial statements cannot be made at this time.

Table of Contents**Note 2. ACQUISITION INTEGRATION CHARGES**

Eaton incurs integration charges related to acquired businesses. A summary of these charges follows:

|                                                           | Three<br>months<br>ended<br>March<br>31<br>2018 | 2017 |
|-----------------------------------------------------------|-------------------------------------------------|------|
| Electrical Products                                       | \$ —                                            | \$ 1 |
| Total acquisition integration charges before income taxes | —                                               | 1    |
| Income taxes                                              | —                                               | —    |
| Total after income taxes                                  | \$ —                                            | \$ 1 |
| Per ordinary share - diluted                              | \$ —                                            | \$ — |

Business segment acquisition integration charges in 2017 related to the integration of Ephesus Lighting, Inc. (Ephesus), which was acquired in 2015. The charges associated with Ephesus were included in Selling and administrative expense. In Business Segment Information, the charges reduced Operating profit of the related business segment. See Note 13 for additional information about business segments.

**Note 3. REVENUE RECOGNITION**

Sales are recognized when obligations under the terms of the contract are satisfied and control of promised goods or services have transferred to our customers. Sales are measured at the amount of consideration the Company expects to be paid in exchange for these products or services.

The majority of the Company's sales agreements contain performance obligations satisfied at a point in time when title and risk and rewards of ownership have transferred to the customer. Sales recognized over time are less than 5% of Eaton's Consolidated Net Sales. Sales recognized over time are generally accounted for using an input measure to determine progress completed at the end of the period. Sales for service contracts generally are recognized as the services are provided. For agreements with multiple performance obligations, judgment is required to determine whether performance obligations specified in these agreements are distinct and should be accounted for as separate revenue transactions for recognition purposes. In these types of agreements, we generally allocate sales price to each distinct obligation based on the price of each item sold in separate transactions.

Due to the nature of the work required to be performed for obligations recognized over time, Eaton estimates total costs by contract. The estimate of total costs are subject to judgment. Estimated amounts are included in the recognized sales price to the extent it is not probable that a significant reversal of cumulative sales will occur. Additionally, contracts can be modified to account for changes in contract specifications, requirements or sale price. The effect of a contract modification on the sales price or adjustments to the measure of completion under the input method are recognized as adjustments to revenue on a cumulative catch-up basis.

Payment terms vary by the type and location of the customer and the products or services offered. Generally, the time between when revenue is recognized and when payment is due is not significant. Eaton does not evaluate whether the selling price includes a financing interest component for contracts that are less than a year. Sales, value add, and other taxes collected concurrent with revenue are excluded from sales. Shipping and handling costs are treated as fulfillment costs and are included in Cost of products sold.

Eaton records reductions to sales for returns, and customer and distributor incentives, primarily comprised of rebates, at the time of the initial sale. Rebates are estimated based on sales terms, historical experience, trend analysis, and projected market conditions in the various markets served. The rebate programs offered vary across businesses due to the numerous markets Eaton serves, but the most common incentives relate to amounts paid or credited to customers for achieving defined volume levels. Returns are estimated at the time of the sale primarily based on historical experience and are recorded gross on the Condensed Consolidated Balance Sheet.

Sales commissions are expensed when the amortization period is less than a year and are generally not capitalized as they are typically earned at the completion of the contract when the customer is invoiced or when the customer pays

Eaton.

Sales of products and services varies by segment and are discussed in Note 15 of Eaton's 2017 Form 10-K and in Note 13.

8

---

## Table of Contents

In the Electrical Products segment, sales contracts are primarily for electrical components, industrial components, residential products, single phase power quality, emergency lighting, fire detection, wiring devices, structural support systems, circuit protection, and lighting products. These sales contracts are primarily based on a customer's purchase order followed by our order acknowledgement, and may also include a master supply or distributor agreement. In this segment, performance obligations are generally satisfied at a point in time either when we ship the product from our facility, or when it arrives at the customer's facility.

In the Electrical Systems and Services segment, sales contracts are primarily for power distribution and assemblies, three phase power quality, hazardous duty electrical equipment, intrinsically safe explosion-proof instrumentation, utility power distribution, power reliability equipment, and services. The majority of the sales contracts in this segment contain performance obligations satisfied at a point in time either when we ship the product from our facility, or when it arrives at the customer's facility; however, certain power distribution and power quality services are recognized over time.

Many of the products and services in power distribution and power quality services meet the definition of continuous transfer of control to customers and are recognized over time. These products are engineered to a customer's design specifications, have no alternative use to Eaton, and are controlled by the customer as evidenced by the customer's contractual ownership of the work in process or our right to payment for work performed to date plus a reasonable margin. As control is transferring over time, sales are recognized based on the extent of progress towards completion of the obligation. Eaton generally uses an input method to determine the progress completed and sales are recorded proportionally as costs are incurred. Incurred cost represent work performed, which corresponds with, and thereby best depicts, the transfer of control to the customer.

In the Hydraulics segment, sales contracts are primarily for hydraulic components and systems for industrial and mobile equipment. These sales contracts are primarily based on a customer's purchase order. In this segment, performance obligations are generally satisfied at a point in time when we ship the product from our facility.

In the Aerospace segment, sales contracts are primarily for aerospace fuel, hydraulics, and pneumatic systems for commercial and military use. These sales contracts are primarily based on a customer's purchase order, and frequently covered by terms and conditions included in a long-term agreement. In this segment, performance obligations are generally satisfied at a point in time either when we ship the product from our facility, or when it arrives at the customer's facility. Our military contracts are primarily fixed-price contracts that are not subject to performance-based payments or progress payments from the customer.

In the Vehicle segment, sales contracts are primarily for drivetrains, powertrain systems and critical components that reduce emissions and improve fuel economy, stability, performance, and safety of cars, light trucks and commercial vehicles. These sales contracts are primarily based on a customer's purchase order or a blanket purchase order subject to firm releases, frequently covered by terms and conditions included in a master supply agreement. In this segment, performance obligations are generally satisfied at a point in time either when we ship the product from our facility, or when it arrives at the customer's facility.

In the eMobility segment, sales contracts are primarily for electronic and mechanical components and systems that improves the power management and performance of both on-road and off-road vehicles. These sales contracts are primarily based on a customer's purchase order. In this segment, performance obligations are generally satisfied at a point in time either when we ship the product from our facility, or when it arrives at the customer's facility.

In limited circumstances, primarily in the Electrical and Vehicle segments, Eaton sells separately-priced warranties that extend the warranty coverage beyond the standard coverage offered on specific products. Sales for these separately-priced warranties are recorded based on their stand-alone selling price and are recognized as revenue over the length of the warranty period.

Table of Contents

The Company's six operating segments and the following tables disaggregate sales by lines of businesses, geographic destination, market channel or end market.

| Net sales                       | United States | Rest of world | Total   |
|---------------------------------|---------------|---------------|---------|
| Electrical Products             | \$ 960        | \$ 772        | \$1,732 |
| Electrical Systems and Services | 894           | 487           | 1,381   |
| Hydraulics                      | 297           | 413           | 710     |

|           | Original Equipment Manufacturers | Aftermarket, Distribution and End User |     |
|-----------|----------------------------------|----------------------------------------|-----|
| Aerospace | \$ 264                           | \$ 194                                 | 458 |

|         | Commercial | Passenger and Light Duty |     |
|---------|------------|--------------------------|-----|
| Vehicle | \$ 430     | \$ 463                   | 893 |

|           |  |  |    |
|-----------|--|--|----|
| eMobility |  |  | 77 |
|-----------|--|--|----|

|       |  |  |         |
|-------|--|--|---------|
| Total |  |  | \$5,251 |
|-------|--|--|---------|

The timing of revenue recognition, billings and cash collections results in billed accounts receivable, unbilled receivables (revenue recognized exceeds amount billed to the customer), and deferred revenue (advance payments and billings in excess of revenue recognized). Accounts receivables from customers were \$3,520 and \$3,399 at March 31, 2018 and December 31, 2017, respectively. Amounts are billed as work progresses in accordance with agreed-upon contractual terms, either at periodic intervals or upon achievement of contractual milestones. These assets and liabilities are reported on the Condensed Consolidated Balance Sheets on a contract-by-contract basis at the end of each reporting period. Unbilled receivables were \$129 and \$117 at March 31, 2018 and January 1, 2018, respectively, and are recorded in Prepaid expenses and other current assets. The increase in the unbilled receivables was primarily due to revenue recognized and not yet billed, partially offset by billings to customers during the quarter.

Changes in the deferred revenue liabilities are as follows:

|                                         | Deferred Revenue |
|-----------------------------------------|------------------|
| Balance at January 1, 2018              | \$ 227           |
| Customer deposits and billings          | 232              |
| Revenue recognized in the period (209 ) |                  |
| Translation                             | 1                |
| Balance at March 31, 2018               | \$ 251           |

A significant portion of open orders placed with Eaton are by original equipment manufacturers or distributors. These open orders are not considered firm as they have been historically subject to releases by customers. In measuring backlog of unsatisfied or partially satisfied obligations, only the amount of orders to which customers are firmly committed are included. Using this criterion, total backlog at March 31, 2018 was approximately \$5.2 billion. Eaton expects to recognize approximately 88% of this backlog in the next twelve months and the rest thereafter.

| Other current liabilities                 | \$1,861        | \$ (30 )       |  | \$ 1,831                                         |

## Note 4. RESTRUCTURING CHARGES

During 2015, Eaton announced its commitment to undertake actions to reduce its cost structure in all business segments and at corporate. The multi-year initiative concluded at the end of 2017.

A summary of liabilities related to workforce reductions, plant closings and other associated costs announced as part of this program follows:

|                              | Workforce<br>reductions | Plant<br>closings<br>and<br>other | Total  |
|------------------------------|-------------------------|-----------------------------------|--------|
| Balance at December 31, 2016 | \$ 113                  | \$ 1                              | \$ 114 |
| Liability recognized         | 57                      | 59                                | 116    |
| Payments                     | (102 )                  | (39 )                             | (141 ) |
| Other adjustments            | (1 )                    | (16 )                             | (17 )  |
| Balance at December 31, 2017 | 67                      | 5                                 | 72     |
| Payments                     | (13 )                   | (3 )                              | (16 )  |
| Other adjustments            | (8 )                    | —                                 | (8 )   |

## Note 5. GOODWILL

Change in the carrying amount of goodwill by segment follows:

|                                 | December<br>31,<br>2017 | Translation | March<br>31,<br>2018 |
|---------------------------------|-------------------------|-------------|----------------------|
| Electrical Products             | \$ 6,678                | \$ 77       | \$6,755              |
| Electrical Systems and Services | 4,311                   | 42          | 4,353                |
| Hydraulics                      | 1,257                   | 5           | 1,262                |
| Aerospace                       | 947                     | 4           | 951                  |
| Vehicle                         | 294                     | 1           | 295                  |
| eMobility                       | 81                      | 1           | 82                   |
| Total                           | \$ 13,568               | \$ 130      | \$13,698             |

Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segment is eMobility (which includes certain legacy Electrical Products and Vehicle product lines). The Company used the relative fair value method to reallocate goodwill to the associated reporting units.

## Note 6. RETIREMENT BENEFITS PLANS

The components of retirement benefits expense follow:

|                                | United States pension benefit expense |       | Non-United States pension benefit expense |       | Other postretirement benefits expense |      |
|--------------------------------|---------------------------------------|-------|-------------------------------------------|-------|---------------------------------------|------|
|                                | Three months ended March 31           |       |                                           |       |                                       |      |
|                                | 2018                                  | 2017  | 2018                                      | 2017  | 2018                                  | 2017 |
| Service cost                   | \$25                                  | \$24  | \$16                                      | \$17  | \$ 1                                  | \$ 1 |
| Interest cost                  | 30                                    | 31    | 14                                        | 13    | 3                                     | 3    |
| Expected return on plan assets | (63 )                                 | (61 ) | (27 )                                     | (23 ) | (1 )                                  | (1 ) |
| Amortization                   | 24                                    | 20    | 10                                        | 13    | (3 )                                  | (3 ) |
|                                | 16                                    | 14    | 13                                        | 20    | —                                     | —    |
| Settlements                    | 14                                    | 17    | —                                         | —     | —                                     | —    |
| Total expense                  | \$30                                  | \$31  | \$13                                      | \$20  | \$ —                                  | \$ — |

The components of retirement benefits expense other than service costs are included in Other income - net.

## Table of Contents

### Note 7. LEGAL CONTINGENCIES

Eaton is subject to a broad range of claims, administrative and legal proceedings such as lawsuits that relate to contractual allegations, tax audits, patent infringement, personal injuries, antitrust matters and employment-related matters. Eaton is also subject to asbestos claims from historic products which may have contained asbestos. Insurance may cover some of the costs associated with these claims and proceedings. Although it is not possible to predict with certainty the outcome or cost of these matters, the Company believes they will not have a material adverse effect on the consolidated financial statements.

In December 2011, Pepsi-Cola Metropolitan Bottling Company, Inc. (“Pepsi”) filed an action against (a) Cooper Industries, LLC, Cooper Industries, Ltd., Cooper Holdings, Ltd., Cooper US, Inc., and Cooper Industries plc (collectively, “Cooper”), (b) M&F Worldwide Corp., Mafco Worldwide Corp., Mafco Consolidated Group LLC, and PCT International Holdings, Inc. (collectively, “Mafco”), and (c) the Pneumo Abex Asbestos Claims Settlement Trust (the “Trust”) in Texas state court. Pepsi alleged that it was harmed by a 2011 settlement agreement (“2011 Settlement”) among Cooper, Mafco, and Pneumo Abex, LLC (“Pneumo,” which prior to the 2011 Settlement was a Mafco subsidiary), which settlement resolved litigation that Pneumo had previously brought against Cooper involving, among other things, a guaranty related to Pneumo’s friction products business. In November 2015, after a Texas court ruled that Pepsi’s claims should be heard in arbitration, Pepsi filed a demand for arbitration against Cooper, Mafco, the Trust, and Pneumo. Pepsi subsequently dropped claims against all parties except Cooper. An arbitration under the auspices of the American Arbitration Association commenced in October 2017. Pepsi’s experts have opined, among other things, that the value contributed to the Trust for a release of the guaranty was approximately \$440 below reasonably equivalent value, and that an inability of Pneumo to satisfy future liabilities may result in plaintiffs suing Pepsi under various theories. Cooper submitted various expert reports and, among other things, Cooper’s experts have opined that Pepsi has no basis to seek any damages and that Cooper paid reasonably equivalent value for the release of its indemnity obligations under the guaranty. The arbitration proceedings closed in December 2017. The parties are awaiting the issuance of a decision. The Company believes that the claims of Pepsi are without merit, and that the ultimate resolution of this matter will not have a material impact on the Company’s consolidated financial statements.

### Note 8. INCOME TAXES

The effective income tax rate for the first quarter of 2018 was expense of 13.8% compared to expense of 7.0% for the first quarter of 2017. The increase in the effective tax rate in the first quarter of 2018 was due to the impact of the U.S. Tax Cuts and Jobs Act (“TCJA”) and the impact of realization of a foreign deferred tax asset in the first quarter of 2017.

The TCJA was enacted on December 22, 2017 and the Company recorded provisional tax amounts in the fourth quarter of 2017 for the remeasurement of deferred tax balances, including valuation allowances related to the realization of deferred tax assets, and the one-time transition tax. The Company continues to analyze aspects of the TCJA, including potential impact to the provisional amounts recorded for the remeasurement of deferred tax balances and related valuation allowances, and the one-time transition tax. The Company did not record any adjustments to the 2017 provisional tax amounts in the first quarter of 2018.

Table of Contents

## Note 9. EQUITY

During the first quarter of 2018 and 2017, 3.7 million and 3.6 million ordinary shares, respectively, were repurchased under the 2016 Program in the open market at a total cost of \$300 and \$255, respectively.

The changes in Shareholders' equity follow:

|                                                                | Eaton<br>shareholders'<br>equity | Noncontrolling<br>interests | Total<br>equity |

## Net Income Per Share Attributable to Eaton Ordinary Shareholders

A summary of the calculation of net income per share attributable to Eaton ordinary shareholders follows:

|                                                                  | Three<br>months<br>ended<br>March 31 |       |
|------------------------------------------------------------------|--------------------------------------|-------|
| (Shares in millions)                                             | 2018                                 | 2017  |
| Net income attributable to Eaton ordinary shareholders           | \$488                                | \$434 |
| Weighted-average number of ordinary shares outstanding - diluted | 441.7                                | 451.0 |
| Less dilutive effect of equity-based compensation                | 2.9                                  | 2.2   |
| Weighted-average number of ordinary shares outstanding - basic   | 438.8                                | 448.8 |

## Net income per share attributable to Eaton ordinary shareholders

|         |        |        |
|---------|--------|--------|
| Diluted | \$1.10 | \$0.96 |
| Basic   | 1.11   | 0.97   |

For the first quarter of 2018 and 2017, 0.1 million and 1.2 million stock options, respectively, were excluded from the calculation of diluted net income per share attributable to Eaton ordinary shareholders because the exercise price of the options exceeded the average market price of the ordinary shares during the period and their effect, accordingly, would have been antidilutive.

## Note 10. FAIR VALUE MEASUREMENTS

Fair value is measured based on an exit price, representing the amount that would be received to sell an asset or paid to satisfy a liability in an orderly transaction between market participants. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy is established, which categorizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

A summary of financial instruments recognized at fair value, and the fair value measurements used, follows:

|                                | Total | Level<br>1 | Level<br>2 | Level<br>3 |
|--------------------------------|-------|------------|------------|------------|
| March 31, 2018                 |       |            |            |            |
| Cash                           | \$317 | \$317      | \$ —       | \$ —       |
| Short-term investments         | 510   | 510        | —          | —          |
| Net derivative contracts (13 ) | —     | —          | (13)       | —          |

## December 31, 2017

|                          |       |       |      |      |
|--------------------------|-------|-------|------|------|
| Cash                     | \$561 | \$561 | \$ — | \$ — |
| Short-term investments   | 534   | 534   | —    | —    |
| Net derivative contracts | 36    | —     | 36   | —    |

Eaton values its financial instruments using an industry standard market approach, in which prices and other relevant information is generated by market transactions involving identical or comparable assets or liabilities. No financial instruments were measured using unobservable inputs.

## Other Fair Value Measurements

Long-term debt and the current portion of long-term debt had a carrying value of \$7,692 and fair value of \$7,790 at March 31, 2018 compared to \$7,745 and \$8,048, respectively, at December 31, 2017. The fair value of Eaton's debt instruments were estimated using prevailing market interest rates on debt with similar creditworthiness, terms and

maturities, and are considered a Level 2 fair value measurement.

## Table of Contents

### Note 11. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, Eaton is exposed to certain risks related to fluctuations in interest rates, currency exchange rates and commodity prices. The Company uses various derivative and non-derivative financial instruments, primarily interest rate swaps, currency forward exchange contracts, currency swaps and, to a lesser extent, commodity contracts, to manage risks from these market fluctuations. The instruments used by Eaton are straightforward, non-leveraged instruments. The counterparties to these instruments are financial institutions with strong credit ratings. Eaton maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit rating of these institutions. Such instruments are not purchased and sold for trading purposes.

Derivative financial instruments are accounted for at fair value and recognized as assets or liabilities in the Condensed Consolidated Balance Sheets. Accounting for the gain or loss resulting from the change in the fair value of the derivative financial instrument depends on whether it has been designated, and is effective, as part of a hedging relationship and, if so, as to the nature of the hedging activity. Eaton formally documents all relationships between derivative financial instruments accounted for as designated hedges and the hedged item, as well as its risk-management objective and strategy for undertaking the hedge transaction. This process includes linking derivative financial instruments to a recognized asset or liability, specific firm commitment, forecasted transaction, or net investment in a foreign operation. These financial instruments can be designated as:

- Hedges of the change in the fair value of a recognized fixed-rate asset or liability, or the firm commitment to acquire such an asset or liability (a fair value hedge); for these hedges, the gain or loss from the derivative financial instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, are recognized in income during the period of change in fair value.

Hedges of the variable cash flows of a recognized variable-rate asset or liability, or the forecasted acquisition of such an asset or liability (a cash flow hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss on the hedged item is included in income.

Hedges of the currency exposure related to a net investment in a foreign operation (a net investment hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss related to the net investment in the foreign operation is included in income.

The gain or loss from a derivative financial instrument designated as a hedge that is effective is classified in the same line of the Consolidated Statements of Income as the offsetting loss or gain on the hedged item. The change in fair value of a derivative financial instrument that is not effective as a hedge is immediately recognized in income. The cash flows resulting from these financial instruments are classified in operating activities on the Condensed Consolidated Statements of Cash Flows.

For derivatives that are not designated as a hedge, any gain or loss is immediately recognized in income. The majority of derivatives used in this manner relate to risks resulting from assets or liabilities denominated in a foreign currency and certain commodity contracts that arise in the normal course of business. Gains and losses associated with commodity hedge contracts are classified in Cost of products sold.

Eaton uses certain of its debt denominated in foreign currency to hedge portions of its net investments in foreign operations against foreign currency exposure (net investment hedges). Foreign currency denominated debt designated as non-derivative net investment hedging instruments on an after-tax basis was \$94 at March 31, 2018 and \$88 at December 31, 2017, and designated on a pre-tax basis was \$670 at March 31, 2018 and \$652 at December 31, 2017.

| Total                                 |                    | \$ 40                      |                               | \$ 19                           |                                    |                  |                      |

The currency exchange contracts shown in the table above as derivatives not designated as hedges are primarily contracts entered into to manage currency volatility or exposure on intercompany sales and loans. While Eaton does not elect hedge accounting treatment for these derivatives, Eaton targets managing 100% of the intercompany balance sheet exposure to minimize the effect of currency volatility related to the movement of goods and services in the normal course of its operations. This activity represents the great majority of these currency exchange contracts.

## Note 13. BUSINESS SEGMENT INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated on a regular basis by the chief operating decision maker, or decision making group, in deciding how to allocate resources to an individual segment and in assessing performance.

During the first quarter of 2018, Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segment is eMobility (which includes certain legacy Electrical Products and Vehicle product lines).

The eMobility segment designs, manufactures, markets, and supplies electrical and electronic components and systems that improve the power management and performance of both on-road and off-road vehicles. Products include high voltage inverters, converters, fuses, onboard chargers, circuit protection units, vehicle controls, power distribution, fuel tank isolation valves, and commercial vehicle hybrid systems. The principal markets for the eMobility segment are original equipment manufacturers and aftermarket customers of passenger cars, commercial vehicles, and construction, agriculture, and mining equipment.

Eaton's operating segments are Electrical Products, Electrical Systems and Services, Hydraulics, Aerospace, Vehicle, and eMobility. Operating profit includes the operating profit from intersegment sales. For additional information regarding Eaton's business segments, see Note 15 to the Consolidated Financial Statements contained in the 2017 Form 10-K.

Note 14. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

The Registered Senior Notes issued by Eaton Corporation are registered under the Securities Act of 1933. Eaton and certain of Eaton's 100% owned direct and indirect subsidiaries (the Guarantors) fully and unconditionally guaranteed (subject, in the case of the Guarantors, other than Eaton, to customary release provisions as described below), on a joint and several basis, the Registered Senior Notes. The following condensed consolidating financial statements are included so that separate financial statements of Eaton, Eaton Corporation and each of the Guarantors are not required to be filed with the Securities and Exchange Commission. The consolidating adjustments primarily relate to eliminations of investments in subsidiaries and intercompany balances and transactions. The condensed consolidating financial statements present investments in subsidiaries using the equity method of accounting. See Note 6 of Eaton's 2017 Form 10-K for additional information related to the Registered Senior Notes.

The guarantee of a Guarantor that is not a parent of the issuer will be automatically and unconditionally released and discharged in the event of any sale of the Guarantor or of all or substantially all of its assets, or in connection with the release or termination of the Guarantor as a guarantor under all other U.S. debt securities or U.S. syndicated credit facilities, subject to limitations set forth in the indenture. The guarantee of a Guarantor that is a direct or indirect parent of the issuer will only be automatically and unconditionally released and discharged in connection with the release or termination of such Guarantor as a guarantor under all other debt securities or syndicated credit facilities (in both cases, U.S. or otherwise), subject to limitations set forth in the indenture.

During 2018 and 2017, the Company undertook certain steps to restructure ownership of various subsidiaries. The transactions were entirely among wholly-owned subsidiaries under the common control of Eaton. This restructuring has been reflected as of the beginning of the earliest period presented below.

2. OPERATIONS.

Amounts are in millions of dollars or shares unless indicated otherwise (per share data assume dilution).

## COMPANY OVERVIEW

Eaton Corporation plc (Eaton or the Company) is a power management company with 2017 net sales of \$20.4 billion. The Company provides energy-efficient solutions that help its customers effectively manage electrical, hydraulic, and mechanical power more efficiently, safely, and sustainably. Eaton has approximately 96,000 employees in 59 countries and sells products to customers in more than 175 countries.

## Summary of Results of Operations

A summary of Eaton's Net sales, Net income attributable to Eaton ordinary shareholders, and Net income per share attributable to Eaton ordinary shareholders - diluted follows:

|                                                                            | Three months<br>ended March<br>31 |         |
|----------------------------------------------------------------------------|-----------------------------------|---------|
|                                                                            | 2018                              | 2017    |
| Net sales                                                                  | \$5,251                           | \$4,848 |
| Net income attributable to Eaton ordinary shareholders                     | 488                               | 434     |
| Net income per share attributable to Eaton ordinary shareholders - diluted | \$1.10                            | \$0.96  |

During the first quarter of 2018, Eaton re-segmented certain reportable operating segments due to a reorganization of the Company's businesses. The new reportable business segment is eMobility (which includes certain legacy Electrical Products and Vehicle product lines). For those reportable segments that were re-segmented, previously reported segment financial information has been updated for 2017. For additional information regarding the re-segmentation, see Note 13 to the Condensed Consolidated Financial Statements. The re-segmentation did not impact previously reported consolidated results of operations. For additional information regarding Eaton's business segments, see Note 15 to the Consolidated Financial Statements contained in the 2017 Form 10-K.

## RESULTS OF OPERATIONS

## Non-GAAP Financial Measures

The following discussion of Consolidated Financial Results and Business Segment Results of Operations includes certain non-GAAP financial measures. These financial measures include adjusted earnings, adjusted earnings per ordinary share, and operating profit before acquisition integration charges for each business segment as well as corporate, each of which differs from the most directly comparable measure calculated in accordance with generally accepted accounting principles (GAAP). A reconciliation of adjusted earnings and adjusted earnings per ordinary share to the most directly comparable GAAP measure is included in the table below. Operating profit before acquisition integration charges is reconciled in the discussion of the operating results of each business segment, and excludes acquisition integration expense related to integration of Ephesus Lighting, Inc. in 2017. Management believes that these financial measures are useful to investors because they exclude certain transactions, allowing investors to more easily compare Eaton's financial performance period to period. Management uses this information in monitoring and evaluating the on-going performance of Eaton and each business segment. For additional information on acquisition integration charges, see Note 2 to the Condensed Consolidated Financial Statements.

| Excluding per share impact of acquisition<br>integration charges, after-tax (Note 2) | —                              | —       |                        |   |
| Adjusted earnings per ordinary share                                                 | \$1.10                         | \$0.96  | 15                     | % |
| Net Sales                                                                            |                                |         |                        |   |

Net sales increased 8% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 6% in organic sales and an increase of 3% from the impact of positive currency translation, partially offset by a decrease of 1% from the sale of a business and a stake in a joint venture in the second half of 2017. The increase in organic sales in the first quarter of 2018 was primarily due to higher sales volumes in all business segments.

**Gross Profit**

Gross profit margin increased from 31.8% in the first quarter of 2017 to 32.0% in the first quarter of 2018. The increase in gross profit margin was primarily due to higher sales volumes and savings from restructuring actions.

**Income Taxes**

The effective income tax rate for the first quarter of 2018 was expense of 13.8% compared to expense of 7.0% for the first quarter of 2017. The increase in the effective tax rate in the first quarter of 2018 was due to the impact of the U.S. Tax Cuts and Jobs Act ("TCJA") and the impact of realization of a foreign deferred tax asset in the first quarter of 2017.

**Net Income**

Net income attributable to Eaton ordinary shareholders of \$488 in the first quarter of 2018 increased 12% compared to Net income attributable to Eaton ordinary shareholders of \$434 in the first quarter of 2017. The increase in the first quarter of 2018 was primarily due to higher sales volumes and savings from restructuring actions, partially offset by a higher tax rate.

Net income per ordinary share increased to \$1.10 in the first quarter of 2018 compared to \$0.96 in the first quarter of 2017. The increase in the Net income per ordinary share in the first quarter of 2018 was due to higher Net income attributable to Eaton ordinary shareholders and the Company's share repurchases over the past year.

**Adjusted Earnings**

Adjusted earnings of \$488 in the first quarter of 2018 increased 12% compared to Adjusted earnings of \$435 in the first quarter of 2017. The increase in Adjusted earnings in the first quarter of 2018 was primarily due to higher Net income attributable to Eaton ordinary shareholders.

Adjusted earnings per ordinary share increased to \$1.10 in the first quarter of 2018 compared to \$0.96 in the first quarter of 2017. The increase in Adjusted earnings per ordinary share in the first quarter of 2018 was due to higher Adjusted earnings and the impact of the Company's share repurchases over the past year.

| Acquisition integration charges | \$—                            | \$1     |                        |   |

## Before acquisition integration charges

|                  |       |        |   |   |
|------------------|-------|--------|---|---|
| Operating profit | \$307 | \$287  | 7 | % |
| Operating margin | 17.7  | % 17.4 | % |   |

Net sales increased 5% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 4% from the impact of positive currency translation and an increase of 1% in organic sales. The increase in organic sales in the first quarter of 2018 was primarily driven by growth in products going into industrial applications, partially offset by weakness in North American lighting sales.

The operating margin increased from 17.3% in the first quarter of 2017 to 17.7% in the first quarter of 2018 primarily due to higher sales volumes and savings from restructuring actions.

The operating margin before acquisition integration charges increased from 17.4% in the first quarter of 2017 to 17.7% in the first quarter of 2018 primarily due to an increase in the operating margin.

## Electrical Systems and Services

|                  | Three months<br>ended March 31 |         | Increase<br>(decrease) |   |
|------------------|--------------------------------|---------|------------------------|---|
|                  | 2018                           | 2017    |                        |   |
| Net sales        | \$1,381                        | \$1,333 | 4                      | % |
| Operating profit | \$167                          | \$155   | 8                      | % |
| Operating margin | 12.1                           | % 11.6  | %                      |   |

Net sales increased 4% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 2% in organic sales and an increase of 2% from the impact of positive currency translation, partially offset by a decrease of 1% from a sale of a stake in a joint venture in the fourth quarter of 2017. The increase in organic sales in the first quarter of 2018 was primarily due to strength in large industrial projects in the United States, oil and gas markets, and services in North America.

The operating margin increased from 11.6% in the first quarter of 2017 to 12.1% in the first quarter of 2018 primarily due to higher sales volumes and savings from restructuring actions.

## Hydraulics

|           | Three months<br>ended March 31 |       | Increase<br>(decrease) |   |
|-----------|--------------------------------|-------|------------------------|---|
|           | 2018                           | 2017  |                        |   |
| Net sales | \$710                          | \$587 | 21                     | % |

Operating profit \$90 \$60 50 %

Operating margin 12.7 % 10.2 %

Net sales increased 21% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 16% in organic sales and an increase of 5% from the impact of positive currency translation. The increase in organic sales in the first quarter of 2018 was due to strength in global mobile OEM markets and in distribution channels.

The operating margin increased from 10.2% in the first quarter of 2017 to 12.7% in the first quarter of 2018 primarily due to higher sales volumes, partially offset by investments in growth initiatives.

## Aerospace

|           | Three months<br>ended March 31 |       | Increase<br>(decrease) |   |
|-----------|--------------------------------|-------|------------------------|---|
|           | 2018                           | 2017  |                        |   |
| Net sales | \$458                          | \$428 | 7                      | % |

Operating profit \$89 \$79 13 %

Operating margin 19.4 % 18.5 %

Net sales increased 7% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 6% in organic sales and an increase of 1% from the impact of positive currency translation. The increase in organic sales in the first quarter of 2018 was primarily due to higher sales to the aftermarket and the military OEM market.

The operating margin increased from 18.5% in the first quarter of 2017 to 19.4% in first quarter of 2018 primarily due to higher sales volumes and favorable product mix due to growth in the aftermarket.

## Vehicle

|           | Three months<br>ended March 31 |       | Increase<br>(decrease) |   |
|-----------|--------------------------------|-------|------------------------|---|
|           | 2018                           | 2017  |                        |   |
| Net sales | \$893                          | \$786 | 14                     | % |

Operating profit \$132 \$108 22 %

Operating margin 14.8 % 13.7 %

Net sales increased 14% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 13% in organic sales and an increase of 3% from the impact of positive currency translation, partially offset by a decrease of 2% from the sale of a business in the third quarter of 2017. The increase in organic sales in the first quarter of 2018 was driven by growth in the Americas and Asia Pacific regions, with particular strength in the North American Class 8 truck market.

The operating margin increased from 13.7% in the first quarter of 2017 to 14.8% in the first quarter of 2018 primarily due to higher sales volumes, partially offset by higher restructuring costs.

|-----------|--------------------------------|------|------------------------|---|
|           | 2018                           | 2017 |                        |   |
| Net sales | \$77                           | \$63 | 22                     | % |

Operating profit \$11 \$11 — %

Operating margin 14.3% 17.5%

Net sales increased 22% in the first quarter of 2018 compared to the first quarter of 2017 due to an increase of 19% in organic sales and an increase of 3% from the impact of positive currency translation. The increase in organic sales in the first quarter of 2018 was due to strength in North America.

The operating margin decreased from 17.5% in the first quarter of 2017 to 14.3% in the first quarter of 2018 primarily due to increased research and development costs.

## Corporate Expense

|                                                      | Three<br>months<br>ended<br>March 31 |       | Increase<br>(decrease) |   |
|------------------------------------------------------|--------------------------------------|-------|------------------------|---|
|                                                      | 2018                                 | 2017  |                        |   |
| Amortization of intangible assets                    | \$98                                 | \$94  | 4                      | % |
| Interest expense - net                               | 70                                   | 61    | 15                     | % |
| Pension and other postretirement<br>benefits expense | 2                                    | 11    | (82)                   | % |
| Other corporate expense - net                        | 61                                   | 66    | (8)                    | % |
| Total corporate expense                              | \$231                                | \$232 | —                      | % |

Total corporate expense was \$231 in the first quarter of 2018 compared to corporate expense of \$232 in the first quarter of 2017. The change in Total corporate expense for the first quarter of 2018 was primarily due to a decrease in Pension and other postretirement benefits expense as a result of favorable returns on plan assets during 2017 and the Company's contributions to the pension plans, offset by higher interest expense.

## LIQUIDITY, CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

## Financial Condition and Liquidity

Eaton's objective is to finance its business through operating cash flow and an appropriate mix of equity and long-term and short-term debt. By diversifying its debt maturity structure, Eaton reduces liquidity risk. The Company maintains access to the commercial paper markets through a \$2,000 commercial paper program, which is supported by credit facilities in the aggregate principal amount of \$2,000. There were no borrowings outstanding under these revolving credit facilities at March 31, 2018. Over the course of a year, cash, short-term investments and short-term debt may fluctuate in order to manage global liquidity. Eaton believes it has the operating flexibility, cash flow, cash and short-term investment balances, and access to capital markets in excess of the liquidity necessary to meet future operating needs of the business as well as scheduled payments of long-term debt.

Eaton was in compliance with each of its debt covenants for all periods presented.

## Sources and Uses of Cash

## Operating Cash Flow

Net cash provided by operating activities was \$339 in the first three months of 2018, a decrease of \$124 in the source of cash compared to \$463 in the first three months of 2017. The decrease in net cash provided by operating activities in the first three months of 2018 was driven by higher working capital balances compared to 2017, partially offset by lower pension contributions and higher net income.

## Table of Contents

### Investing Cash Flow

Net cash used in investing activities was \$137 in the first three months of 2018, a decrease in the use of cash of \$92 compared to \$229 in the first three months of 2017. The decrease in the use of cash was primarily driven by net sales of short-term investments of \$31 in 2018 compared to net purchases of \$93 in 2017.

### Financing Cash Flow

Net cash used in financing activities was \$443 in the first three months of 2018, a decrease of \$120 in the use of cash compared to \$563 in the first three months of 2017. The decrease in the use of cash was primarily due to a decrease of \$221 in payments on borrowings which totaled \$33 in 2018 and \$254 in 2017. This was partially offset by an increase of \$45 in share repurchases during the first three months of 2018 compared to the first three months of 2017.

## FORWARD-LOOKING STATEMENTS

This Form 10-Q Report contains forward-looking statements concerning legal contingencies, among other matters.

These statements may discuss goals, intentions and expectations as to future trends, plans, events, results of operations or financial condition, or state other information relating to Eaton, based on current beliefs of management as well as assumptions made by, and information currently available to, management. Forward-looking statements generally will be accompanied by words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “guidance,” “intend,” “may,” “possible,” “potential,” “predict,” “project” or other similar words, phrases or expressions. These statements should be used with caution and are subject to various risks and uncertainties, many of which are outside Eaton’s control. The following factors could cause actual results to differ materially from those in the forward-looking statements: unanticipated changes in the markets for the Company’s business segments; unanticipated downturns in business relationships with customers or their purchases from us; the potential effects on our businesses from natural disasters; the availability of credit to customers and suppliers; competitive pressures on sales and pricing; unanticipated changes in the cost of material and other production costs, or unexpected costs that cannot be recouped in product pricing; the introduction of competing technologies; unexpected technical or marketing difficulties; unexpected claims, charges, litigation or dispute resolutions; strikes or other labor unrest; the impact of acquisitions and divestitures; unanticipated difficulties integrating acquisitions; new laws and governmental regulations; interest rate changes; tax rate changes or exposure to additional income tax liability; stock market and currency fluctuations; war, civil or political unrest or terrorism; and unanticipated deterioration of economic and financial conditions in the United States and around the world. Eaton does not assume any obligation to update these forward-looking statements.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in exposures to market risk since December 31, 2017.

## ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures - Pursuant to SEC Rule 13a-15, an evaluation was performed under the supervision and with the participation of Eaton’s management, including Craig Arnold - Principal Executive Officer; and Richard H. Fearon - Principal Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures. Based on that evaluation, management concluded that Eaton’s disclosure controls and procedures were effective as of March 31, 2018.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in Eaton’s reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Eaton’s reports filed under the Exchange Act is accumulated and communicated to management, including Eaton’s Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

During the first quarter of 2018, there was no change in Eaton’s internal control over financial reporting that materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

## PART II — OTHER INFORMATION

## ITEM 1. LEGAL PROCEEDINGS.

Information regarding the Company's current legal proceedings is presented in Note 7 of the Notes to the Condensed Consolidated Financial Statements.

## ITEM 1A. RISK FACTORS.

“Item 1A. Risk Factors” in Eaton's 2017 Form 10-K includes a discussion of the Company's risk factors. There have been no material changes from the risk factors described in the 2017 Form 10-K.

## ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

## (c) Issuer's Purchases of Equity Securities

During the first quarter of 2018, 3.7 million ordinary shares were repurchased in the open market at a total cost of \$300 million. These shares were repurchased under the program approved by the Board on February 24, 2016. A summary of the shares repurchased in the first quarter of 2018 follows:

| Month    | Total<br>number<br>of shares<br>purchased | Average<br>price<br>paid<br>per<br>share | Total<br>number of<br>shares<br>purchased<br>as<br>part of<br>publicly<br>announced<br>plans or<br>programs | Approximate<br>dollar value<br>of shares<br>that may yet<br>be purchased<br>under the<br>plans or<br>programs (in<br>millions) |
|----------|-------------------------------------------|------------------------------------------|-------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|

| February | 2,962,790                                 | \$ 82.59                                 | 2,962,790                                                                                                   | \$ 757                                                                                                                         |
| March    | 689,406                                   | \$ 80.11                                 | 689,406                                                                                                     | \$ 702                                                                                                                         |
| Total    | 3,652,196                                 | \$ 82.12                                 | 3,652,196                                                                                                   |                                                                                                                                |

## ITEM 5. OTHER INFORMATION.

## Disclosure Pursuant to Section 13r of the Exchange Act

Set forth below is a description of all matters reported by us pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 and Section 13(r) of the Exchange Act. Concurrently with the filing of this Quarterly Report, we are filing a notice pursuant to Section 13(r) of the Exchange Act that such matters have been disclosed in this Quarterly Report.

During the first quarter, certain of our wholly-owned non-U.S. subsidiaries sold various electrical products to customers in Iran. We received total revenue of approximately 877,115 Euros and realized net profits of approximately 336,919 Euros from the sales (approximately \$1,082,055 and \$415,640 in whole U.S. dollars, respectively). One or more of our non-U.S. subsidiaries intend to continue doing business in Iran under General License H in compliance with U.S. economic sanctions and export control laws, though the Company has no assets or employees in Iran.
