Washington, D.C. 20549

Form 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 0-14719

SKYWEST, INC.

444 South River Road
Incorporated under the laws of Utah
87-0292166
(I.R.S. Employer ID No.)

Edgar Filing: SKYWEST INC - Form 10-Q

St. George, Utah 84790

(435) 634-3000

(Address of principal executive offices and telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.:

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the registrant’s classes of common stock, as of the latest practicable date.

SKYWEST, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

Note 1 — Condensed Consolidated Financial Statements

Basis of Presentation

The condensed consolidated financial statements of SkyWest, Inc. (“SkyWest” or the “Company”) and its operating subsidiaries, SkyWest Airlines, Inc. (“SkyWest Airlines”) and ExpressJet Airlines, Inc. (“ExpressJet”) included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the following disclosures are adequate to make the information presented not misleading. These condensed consolidated financial statements reflect all adjustments that, in the opinion of management, are necessary to present fairly the results of operations for the interim periods presented. All adjustments are of a normal recurring nature, unless otherwise disclosed. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016. The results of operations for the three and nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results will likely differ, and may differ materially, from those estimates and assumptions. The Company reclassified certain prior period amounts to conform to the current period presentation.

Recent Accounting Pronouncements

Standards Effective in Future Years and Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers” (“ASU No. 2014-09”). Under ASU No. 2014-09, revenue is recognized at the time a good or service is transferred to a customer for the amount of consideration received for that

specific good or service. In July 2015, the FASB deferred the effective date of ASU No. 2014-09 for annual reporting periods beginning after December 15, 2017. In 2016, the FASB issued several amendments to the standard, including principal versus agent considerations when another party is involved in providing goods or services to a customer and the application of identifying performance obligations. The Company continues to assess the potential impacts of ASU No. 2014-09 on its fixed-fee contracts, prorate flying agreements, ground handling agreements and other revenue transactions. The Company believes the principal versus agent considerations under ASU No. 2014-09 may result in the Company recording certain directly reimbursed expenses under its fixed-fee contracts, such as fuel and certain airport related expenses as a reduction to the applicable operating expense rather than revenue. The Company currently does not anticipate the adoption of ASU No. 2014-09 will have a material impact on its net income. ASU No. 2014-09 is required to be applied either full retrospective to each prior reporting period presented or modified retrospective with the cumulative effect of initially applying it at the date of initial application. The Company anticipates using the full retrospective method of adoption.

Table of Contents

In February 2016, the FASB issued Accounting Standards Update 2016-02, “Leases (Topic 842)” (“ASU No. 2016-02”). ASU No. 2016-02 amends the existing accounting standards for lease accounting, including requiring lessees to recognize most leases on their balance sheets and making targeted changes to lessor accounting. ASU No. 2016-02 will be effective beginning in the first quarter of 2019. Early adoption of ASU No. 2016-02 is permitted. ASU No. 2016-02 requires a modified retrospective transition approach for all leases existing at, or entered into after, the date of initial application, with an option to use certain transition relief. The Company’s management is currently evaluating the impact the adoption of ASU 2016-02 is anticipated to have on the Company’s consolidated financial statements.

In 2016, the FASB issued Accounting Standards Update 2016-15, “Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments” and Accounting Standard Update 2016-18, “Statement of Cash Flows (Topic 230): Restricted Cash” related to the classification of certain cash receipts and cash payments and the presentation of restricted cash within an entity’s statement of cash flows, respectively. These standards are effective for interim and annual reporting periods beginning after December 15, 2017, but early adoption is permitted. The Company does not anticipate these standards to have a material impact on the Company’s Consolidated Statement of Cash Flows.

Recently Adopted Standards

Pursuant to the guidelines of the recently issued Accounting Standards Update 2015-17, “Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes” (“ASU 2015-17”), all deferred tax assets and liabilities are to be classified as non-current. As permitted under ASU 2015-17, the Company adopted this guidance for the quarter ended March 31, 2017. The guidance indicates that ASU 2015-17 may be applied either prospectively or retrospectively. The Company elected to adopt ASU 2015-17 retrospectively. Upon adoption, approximately \$129.3 million of formerly recorded current deferred tax assets as of December 31, 2016 were reclassified to non-current and netted against non-current deferred income taxes payable as of December 31, 2016 in the accompanying financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, “Compensation—Stock Compensation (Topic 718)” (“ASU No. 2016-09”). ASU No. 2016-09 makes several amendments to Topic 718, which simplified the accounting for share-based payment transactions, including the income tax consequences, the calculation of diluted earnings per share, the treatment of forfeitures and the classification on the statement of cash flows. Amendments related to the timing of when excess tax benefits are recognized, minimum statutory withholding requirements and forfeitures should be applied using a modified retrospective transition method by means of a cumulative-effect adjustment to equity as of the beginning of the period in which the guidance is adopted. Amendments requiring the recognition of excess tax benefits and tax deficiencies in the income statement should be applied prospectively. Prior to the adoption of ASU No. 2016-09, GAAP required tax effects of deductions for share-based payments in excess of compensation cost and tax deficiencies to be recorded in equity. Under ASU No. 2016-09, the tax effects of awards are treated as discrete income tax expense items in the reporting period in which they occur.

The Company adopted ASU No. 2016-09 as of January 1, 2017. As a result of employee stock awards that vested and stock options that were exercised during the three months ended March 31, 2017, the Company recorded a discrete income tax benefit of \$3.0 million for the same period. The adoption of ASU No. 2016-09 did not have a material effect on the Company’s financial results for the three months ended September 30, 2017. The adoption of ASU No. 2016-09 did not have a material impact on the statement of cash flows presentation, which the Company adopted prospectively.

Table of Contents

Property and Equipment

Property and equipment are stated at cost and depreciated over their useful lives to their estimated residual values using the straight line method. The Company changed the estimated useful lives and residual values for certain long-lived assets as of January 1, 2017 as follows:

Assets	Current Depreciable Life	Prior Policy Depreciable Life	Current Residual Value	Prior Policy Residual Value
New Aircraft	20 - 22 years	18 years	17.5 - 20 %	30 %
Used Aircraft, rotatable spares, and spare engines	up to 18 years	up to 18 years	0 - 20 %	0 - 30 %
Ground equipment	up to 10 years	No Change	0 %	No Change
Office equipment	up to 7 years	No Change	0 %	No Change
Leasehold improvements	Shorter of 15 years or lease term	No Change	0 %	No Change
Buildings	20 - 39.5 years	No Change	0 %	No Change

The Company estimates that the impact of the change in estimated useful lives and residual values for certain long-lived assets will increase depreciation expense by an additional \$1.8 million on an annualized basis for 2017.

Note 2 — Passenger and Ground Handling and Other Revenue

The Company recognizes passenger and ground handling revenues when the service is provided under its code-share agreements. Under the Company's fixed-fee arrangements (referred to as "fixed-fee arrangements," "fixed-fee contracts" or "capacity purchase agreements") with Delta Air Lines, Inc. ("Delta"), United Airlines, Inc. ("United"), American Airlines, Inc. ("American") and Alaska Airlines, Inc. ("Alaska") (each, a "major airline partner"), the major airline partner generally pays the Company a fixed-fee for each departure, flight hour (measured from takeoff to landing, excluding taxi time) or block hour (measured from takeoff to landing, including taxi time) incurred, and an amount per aircraft in service each month with additional incentives based on flight completion and on-time performance. The major airline partner also directly reimburses the Company for certain direct expenses incurred under the fixed-fee arrangement, such as fuel expenses and landing fee expenses. Under the fixed-fee arrangements, revenue is earned when each flight is completed and is reflected in passenger revenues. For the nine months ended September 30, 2017, fixed-fee arrangements represented approximately 87.8% of the Company's total passenger revenue.

Under the Company's revenue-sharing arrangements (referred to as a "revenue-sharing" or "prorate" arrangement), the major airline partner and the Company negotiate a passenger fare proration formula, pursuant to which the Company receives a percentage of the ticket revenues for those passengers traveling for one portion of their trip on a Company airline and the other portion of their trip on the major airline partner. Revenue is recognized under the Company's

prorate flying agreements when each flight is completed based upon the portion of the prorate passenger fare the Company anticipates that it will receive for each completed flight. For the nine months ended September 30, 2017, prorate flying arrangements represented approximately 12.2% of the Company's total passenger revenue.

Ground handling and other revenue primarily consists of customer service functions, such as gate and ramp agent services at applicable airports where the Company provides such services to other airlines. Ground handling and other revenue primarily consists of ground handling services the Company provides to third party airlines and government subsidies the Company receives for operating certain routes under its prorate agreements. Revenues associated with ground handling services the Company provides for its aircraft are recorded as passenger revenues.

Other ancillary revenues commonly associated with airlines, such as baggage fee revenue, ticket change fee revenue and the marketing component of the sale of mileage credits, are retained by the Company's major airline partners on flights that the Company operates under its code share agreements.

In the event that the contractual rates under the Company's flying agreements have not been finalized at quarterly or annual financial statement dates, the Company records revenues based on the lower of the prior period's approved rates, as adjusted to reflect any contract negotiations, and the Company's estimate of rates that will be implemented in accordance with revenue recognition guidelines. In the event the Company has a reimbursement dispute

Table of Contents

with a major airline partner, the Company evaluates the dispute under its established revenue recognition criteria and, provided the revenue recognition criteria have been met, the Company recognizes revenue based on management's estimate of the resolution of the dispute.

In several of the Company's agreements, the Company is eligible to receive incentive compensation upon the achievement of certain performance criteria. The incentives are defined in the agreements and are measured and determined on a monthly, quarterly or semi-annual basis. At the end of each period during the term of an agreement, the Company calculates the incentives achieved during that period and recognizes revenue attributable to that agreement accordingly.

The following table summarizes the significant provisions of each code share agreement the Company has with each major airline partner:

Delta Connection Agreements

Agreement	Aircraft type	Number of Aircraft	Term / Termination Dates
SkyWest Airlines	•CRJ 200	63	•Individual aircraft have scheduled removal dates from 2017 to 2026

Alaska Capacity Purchase Agreement

Agreement	Aircraft type	Number of Aircraft	Term / Termination Dates
SkyWest Airlines	•CRJ 200	7	•Individual aircraft have scheduled removal dates from 2017 to 2029
Alaska Agreement	•CRJ 700	2	
(fixed-fee arrangement)	•E175	21	

In addition to the contractual arrangements described above, SkyWest Airlines has entered into agreements with Alaska and Delta to place additional Embraer E175 dual-class regional jet aircraft (which are typically configured with 76 seats) (“E175”) or E175 SC dual-class regional jet aircraft (which are typically configured with 70 seats) (“E175 SC”) into service for those major airline partners. As of September 30, 2017, the Company anticipated placing an additional 14 E175 aircraft with Alaska and 31 E175 or E175 SC aircraft with Delta. The delivery dates for the new E175/E175 SC aircraft are expected to take place by the end of 2018.

When an aircraft is scheduled to be removed from a fixed-fee arrangement, the Company may, as practical under the circumstances, negotiate an extension with the respective major airline partner, negotiate the placement of the aircraft with another major airline partner, return the aircraft to the lessor if the aircraft is leased and the lease is expiring, place owned aircraft for sale, or pursue other uses for the aircraft, including placing the aircraft in a prorate arrangement.

The Company’s passenger and ground handling revenues could be impacted by a number of factors, including changes to the Company’s code-share agreements with its major airline partners, contract modifications resulting from contract renegotiations, the Company’s ability to earn incentive payments contemplated under the Company’s code-share agreements and settlement of reimbursement disputes with the Company’s major airline partners.

Note 3 — Share-Based Compensation and Stock Repurchases

During the nine months ended September 30, 2017, the Company granted 22,617 fully-vested shares of common stock to the Company’s directors at a grant date fair value of \$35.81. Additionally, during the nine months ended September 30, 2017, the Company granted 160,137 restricted stock units and 119,315 performance shares to certain employees of the Company and its subsidiaries under the SkyWest, Inc. 2010 Long-Term Incentive Plan. Both the restricted stock units and performance shares have a three-year vesting period, during which the recipient must remain employed with the Company or one of the Company’s subsidiaries. In addition to the three-year vesting period, certain performance metrics of the Company must be met before the recipient will receive any shares of stock attributable to the restricted stock units and performance shares. Upon vesting, each restricted stock unit and performance share will be replaced with one share of common stock. The fair value of the restricted stock units and performance shares on the date of grant was \$35.81 per share. During the nine months ended September 30, 2017, the Company did not grant any options to purchase shares of common stock.

With the adoption of ASU No. 2016-09, the Company accounts for forfeitures of restricted stock units and performance share grants in 2017 when forfeitures occur. The estimated fair value of the stock options, restricted stock units and performance shares is amortized over the applicable vesting periods. During the three months ended September 30, 2017 and 2016, the Company recorded pre-tax share-based compensation expense of \$2.4 million and \$1.9 million, respectively. During the nine months ended September 30, 2017 and 2016, the Company recorded pre-tax share-based compensation expense of \$8.2 million and \$5.8 million, respectively.

The Company repurchased 281,000 shares of its common stock for \$10.0 million during the nine months ended September 30, 2017. Additionally, during the nine months ended September 30, 2017, the Company paid \$4.3 million for a net settlement of the income tax obligation on employee equity awards. The Company did not repurchase any shares of its common stock during the nine months ended September 30, 2016.

Note 4 — Net Income Per Common Share

Basic net income per common share (“Basic EPS”) excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share (“Diluted EPS”) reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised or converted into common stock. The computation of Diluted EPS does not assume exercise or

Table of Contents

conversion of securities that would have an anti-dilutive effect on net income per common share. During the three and nine months ended September 30, 2017, all outstanding options were included in the computation of Diluted EPS. During the three months ended September 30, 2016, all outstanding options were included in the computation of Diluted EPS. During the nine months ended September 30, 2016, options to acquire 2,000 shares were excluded from the Diluted EPS computation as the impact would have been anti-dilutive.

The calculation of the weighted average number of shares of common stock outstanding for Basic EPS and Diluted EPS for the periods indicated (in thousands, except per share data) is as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016
Numerator:				
Net Income	\$ 53,716	\$ 41,322	\$ 138,978	\$ 108,659
Denominator:				
Weighted average number of common shares outstanding	51,833	51,627	51,801	51,421
Effect of outstanding share-based awards	1,247	844	1,286	803
Weighted average number of shares for diluted net income per common share	53,080	52,471	53,087	52,224
Basic earnings per share	\$ 1.04	\$ 0.80	\$ 2.68	\$ 2.11
Diluted earnings per share	\$ 1.01	\$ 0.79	\$ 2.62	\$ 2.08

Note 5 - Segment Reporting

The Company's three reporting segments consist of the operations of SkyWest Airlines, ExpressJet and SkyWest Leasing activities. Corporate overhead expenses incurred by the Company are allocated to the operating expenses of SkyWest Airlines and ExpressJet.

The Company's chief operating decision maker analyzes the profitability of operating the E175 aircraft (including operating costs and associated revenue) separately from the profitability of the Company's ownership, financing costs and associated revenue of the Company's E175 aircraft (including depreciation expense, interest expense and associated revenue). The SkyWest Leasing segment includes revenue attributed to the Company's E175 aircraft ownership cost earned under the applicable fixed-fee contracts and the depreciation and interest expense of the Company's E175 aircraft. The SkyWest Leasing segment's total assets and capital expenditures include the acquired E175 aircraft. The SkyWest Leasing segment additionally includes the ownership and activity of four CRJ200 aircraft

leased to a third party.

12

Table of Contents

The following represents the Company's segment data for the three-month periods ended September 30, 2017 and 2016 (in thousands):

	Three months ended September 30, 2017			Consolidated
	SkyWest		SkyWest	
	Airlines	ExpressJet	Leasing	
Operating revenues	\$ 578,109	\$ 191,516	\$ 62,311	\$ 831,936
Operating expense	491,115	200,492	27,960	719,567
Depreciation and amortization expense	34,049	12,573	27,473	74,095
Interest expense	5,276	1,017	20,808	27,101
Segment profit (loss) (1)	81,718	(9,993)	13,543	85,268
Identifiable intangible assets, other than goodwill	—	6,121	—	6,121
Total assets (as of September 30, 2017)	2,088,048	721,939	2,579,459	5,389,446
Capital expenditures (including non-cash)	27,118	2,259	24,122	53,499

	Three months ended September 30, 2016			Consolidated
	SkyWest		SkyWest	
	Airlines	ExpressJet	Leasing

(1) Segment profit (loss) is equal to operating income less interest expense

Table of Contents

Note 6 — Commitments and Contingencies

As of September 30, 2017, the Company leased aircraft, airport facilities, office space, and other property and equipment under non-cancelable operating leases which are generally on a long-term, triple net lease basis pursuant to which the Company pays taxes, maintenance, insurance and certain other operating expenses applicable to the leased property. The Company expects that, in the normal course of business, such operating leases that expire will be renewed or replaced by other leases, or the property may be purchased rather than leased. The following table summarizes future minimum rental payments required under operating leases that had initial or remaining non-cancelable lease terms as of September 30, 2017 (in thousands):

October through December 2017	\$ 43,077
2018	137,046
2019	102,877
2020	121,280
2021	112,535
Thereafter	236,503
	\$ 753,318

As of September 30, 2017, the Company had a firm purchase commitment for 45 E175/E175 SC aircraft from Embraer, S.A. with scheduled delivery dates through the end of 2018.

Note 7 — Fair Value Measurements

The Company holds certain assets that are required to be measured at fair value in accordance with GAAP. The Company determined the fair value of these assets based on the following three levels of inputs:

- Level 1 — Quoted prices in active markets for identical assets or liabilities.
- Level 2 — Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Some of the Company's marketable securities primarily utilize broker quotes in a non-active market for valuation of these securities.
- Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities, therefore requiring an entity to develop its own assumptions.

Table of Contents

As of September 30, 2017 and December 31, 2016, the Company held certain assets that are required to be measured at fair value on a recurring basis. Assets measured at fair value on a recurring basis are summarized below (in thousands):

	Fair Value Measurements as of September 30, 2017			
	Total	Level 1	Level 2	Level 3
Marketable Securities				
Bonds and bond funds	\$ 414,578	\$ —	\$ 414,578	\$ —
Commercial paper	154,502	—	154,502	—
	\$ 569,080	\$ —	\$ 569,080	\$ —
Cash, Cash Equivalents and Restricted Cash	106,363	106,363	—	—
Total Assets Measured at Fair Value	\$ 675,443	\$ 106,363	\$ 569,080	\$ —

	Fair Value Measurements as of December 31, 2016			
	Total	Level 1	Level 2	Level 3
Marketable Securities				
Bonds and bond funds	\$ 409,885	\$ —	\$ 409,885	\$ —
Commercial paper	13	—	13	—
	\$ 409,898	\$ —	\$ 409,898	\$ —
Cash, Cash Equivalents and Restricted Cash	155,009	155,009	—	—
Total Assets Measured at Fair Value	\$ 564,907	\$ 155,009	\$ 409,898	\$ —

The Company's "Marketable Securities" classified as Level 2 securities primarily utilize broker quotes in a non-active market for valuation of these securities.

The Company did not make any significant transfers of securities between Level 1, Level 2 and Level 3 during the nine months ended September 30, 2017. The Company's policy regarding the recording of transfers between levels is to record any such transfers at the end of the reporting period.

As of September 30, 2017 and December 31, 2016, the Company classified \$569.1 million and \$409.9 million of marketable securities, respectively, as short-term since it had the intent to maintain a liquid portfolio and the ability to redeem the securities within one year. As of September 30, 2017 and December 31, 2016, the cost of the Company's total cash and cash equivalents and available for sale securities (excluding restricted cash) was \$667.2 million and \$556.8 million, respectively. As of September 30, 2017 and December 31, 2016, the fair value of the Company's total cash and cash equivalents and available for sale securities (excluding restricted cash) was \$667.2 million and \$556.7 million, respectively.

The fair value of the Company's long-term debt classified as Level 2 debt was estimated using discounted cash flow analyses, based on the Company's current estimated incremental borrowing rates for similar types of borrowing arrangements. The fair value of the Company's long-term debt is estimated based on current rates offered to the Company for similar debt and was estimated to be \$2.72 billion as of September 30, 2017 and \$2.57 billion as of December 31, 2016, as compared to the carrying amount of \$2.71 billion as of September 30, 2017 and \$2.57 billion as of December 31, 2016.

Table of Contents

Note 8 — Long-Term Debt

Long-term debt consisted of the following as of September 30, 2017 and December 31, 2016 (in thousands):

	September 30, 2017	December 31, 2016
Current portion of long-term debt	\$ 307,032	\$ 308,945
Current portion of unamortized debt issue cost, net	(3,609)	(3,485)
Current portion of long-term debt, net of debt issue costs	\$ 303,423	\$ 305,460
Long-term debt, net of current maturities	\$ 2,402,996	\$ 2,261,959
Long-term portion of unamortized debt issue cost, net	(22,204)	(21,908)
Long-term debt, net of current maturities and debt issue costs	\$ 2,380,792	\$ 2,240,051
Total long-term debt (including current portion)	\$ 2,710,028	\$ 2,570,904
Total unamortized debt issue cost, net	(25,813)	(25,393)
Total long-term debt, net of debt issue costs	\$ 2,684,215	\$ 2,545,511

During the nine months ended September 30, 2017, the Company took delivery of 18 E175 aircraft, which the Company financed through \$384.8 million of long-term debt. The debt associated with the E175 aircraft delivered during the nine months ended September 30, 2017 has a twelve-year term, is due in quarterly installments with a fixed annual interest rate ranging from 4.3% to 4.7% and is secured by the E175 aircraft.

As of September 30, 2017 and December 31, 2016, the Company had \$85.2 million in letters of credit and surety bonds outstanding with various banks and surety institutions.

Note 9 — Income Taxes

The Company's effective tax rate for the three and nine months ended September 30, 2017 was 38.0% and 36.8%, respectively. The Company's effective tax rate for the three and nine months ended September 30, 2017 varied from the federal statutory rate of 35% primarily due to provision for state income taxes and the impact of non-deductible crew per diem meal expenses, which were partially offset by a discrete tax benefit from excess tax deductions generated from employee equity transactions that occurred during such periods.

Note 10 — Legal Matters

The Company is subject to certain legal actions which it considers routine to its business activities. As of September 30, 2017, the Company's management believed, after consultation with legal counsel, that the ultimate outcome of such legal matters was not likely to have a material adverse effect on the Company's financial position, liquidity or results of operations.

Table of Contents

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis presents factors that had a material effect on the results of operations of SkyWest, Inc. ("SkyWest" "we" or "us") during the three and nine-month periods ended September 30, 2017 and 2016. Also discussed is our financial condition as of September 30, 2017 and December 31, 2016. You should read this discussion in conjunction with our condensed consolidated financial statements for the three and nine months ended September 30, 2017, including the notes thereto, appearing elsewhere in this Report. This discussion and analysis contains forward-looking statements. Please refer to the section of this Report entitled "Cautionary Statement Concerning Forward-Looking Statements" for discussion of uncertainties, risks and assumptions associated with these statements.

Cautionary Statement Concerning Forward-Looking Statements

Certain of the statements contained in this Report should be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may be identified by words such as "may," "will," "expect," "intend," "anticipate," "believe," "estimate," "plan," "project," "could," "should," "continue" and similar terms used in connection with statements regarding our outlook, anticipated operations, the revenue environment, our contractual relationships and our expected financial performance. These statements include, but are not limited to, statements about our future growth and development plans, including our future financial and operating results, our plans for SkyWest Airlines, Inc. ("SkyWest Airlines") and ExpressJet Airlines, Inc. ("ExpressJet"), our objectives, expectations, estimates, intentions and other statements that are not historical facts. All forward-looking statements are based on our existing beliefs about present and future events outside of our control and on assumptions that may prove to be incorrect. If one or more risks identified in this Report materializes, or any other underlying assumption proves incorrect, our actual results will likely vary, and may vary materially, from those anticipated, estimated, projected, or intended for a number of reasons, including but not limited to: the challenges of competing successfully in a highly competitive and rapidly changing industry; developments associated with fluctuations in the economy and the demand for air travel; the financial stability of United Airlines, Inc. ("United"), Delta Air Lines, Inc. ("Delta"), American Airlines, Inc. ("American") and Alaska Airlines, Inc. ("Alaska") (each, a "major airline partner") and any potential impact of their financial condition on the operations of SkyWest, SkyWest Airlines or ExpressJet; fluctuations in flight schedules, which are determined by the major airline partners for whom SkyWest's operating airlines conduct flight operations; variations in market and economic conditions; significant aircraft lease and debt commitments; realization of manufacturer residual value guarantees on applicable SkyWest aircraft; residual aircraft values and related impairment charges; the impact of global instability; labor relations and costs; potential fluctuations in fuel costs, and potential fuel shortages; the impact of weather-related or other natural disasters on air travel and airline costs; new aircraft deliveries; the ability to attract and retain qualified pilots; the other factors identified under the heading "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2016, under the heading "Risk Factors" in Part II, Item 1A of this Report, elsewhere in this Report, in our other filings with the Securities and Exchange Commission (the "SEC") and other unanticipated factors.

There may be other factors not identified above of which we are not currently aware that may affect matters discussed in the forward-looking statements, and may also cause actual results to differ materially from those discussed. We assume no obligation to publicly update any forward-looking statement to reflect actual results, changes in assumptions or changes in other factors affecting these statements other than as required by law.

Table of Contents

Overview

Through SkyWest Airlines and ExpressJet, we have the largest regional airline operations in the United States. As of September 30, 2017, SkyWest Airlines and ExpressJet offered scheduled passenger service with approximately 3,000 total daily departures to destinations in the United States, Canada, Mexico and the Caribbean. As of September 30, 2017, SkyWest Airlines and ExpressJet had a total fleet of 637 aircraft, of which 604 were in scheduled service, summarized as follows:

	CRJ200	CRJ700	CRJ900	ERJ135	ERJ145	E175	Total
United	78	20	—	3	115	65	281
Delta	89	60	60	—	—	18	227
American	17	49	—	—	—	—	66
Alaska	7	2	—	—	—	21	30
Aircraft in scheduled service	191	131	60	3	115	104	604
Subleased to an un-affiliated entity	4	—	—	—	—	—	4
Other*	14	6	4	—	5	—	29
Total	209	137	64	3	120	104	637

*As of September 30, 2017, these aircraft have been removed from service and are in the process of being returned under the applicable leasing arrangement or are aircraft transitioning between flying code-share agreements with our major airline partners. During the nine months ended September 30, 2017, we sold eleven owned Embraer Brasilia EMB120 (“EMB120”) 30-seat turboprop aircraft at net book value.

As of September 30, 2017, approximately 46.5% of our aircraft in scheduled service operated for United, approximately 37.6% was operated for Delta, approximately 10.9% was operated for American and approximately 5.0% was operated for Alaska.

Historically, multiple contractual relationships with major airlines have enabled us to reduce our reliance on any single major airline code and to enhance and stabilize operating results through a mix of fixed-fee arrangements (referred to as “fixed-fee arrangements,” “fixed-fee contracts” or “contract flying arrangements”) and revenue-sharing arrangements (referred to as “prorate” arrangements). For the nine months ended September 30, 2017, contract flying revenue and prorate revenue represented approximately 87.8% and 12.2%, respectively, of our total passenger revenues. On contract routes, the major airline partner controls scheduling, ticketing, pricing and seat inventories and we are compensated by the major airline partner at contracted rates based on completed block hours (measured from takeoff to landing, including taxi time), flight departures and other operating measures. On prorate routes, our revenue may fluctuate based on ticket prices and passenger loads and we are responsible for all costs to operate the flight, including fuel.

Third Quarter Summary

Our total operating revenues of \$831.9 million for the three months ended September 30, 2017 increased 4.0% compared to total operating revenues of \$799.8 million for the three months ended September 30, 2016. We had net income of \$53.7 million, or \$1.01 per diluted share, for the three months ended September 30, 2017, compared to net income of \$41.3 million, or \$0.79 per diluted share, for the three months ended September 30, 2016.

Significant items affecting our financial performance during the three months ended September 30, 2017 are outlined below:

Revenue

The number of aircraft we have under contract and the number of actual block hours we incur on completed flights are significant revenue drivers under our fixed-fee arrangements. We are currently in the process of a fleet transition that involves increasing the number of large dual-class regional jets we operate, including the Embraer E175 dual-class regional jet aircraft (“E175s”), while reducing the number of less profitable 50-seat regional jets we operate,

Table of Contents

including a portion of our Embraer ERJ145 regional jet aircraft (“ERJ145s”), Embraer ERJ135 regional jet aircraft (“ERJ135s”) and Canadair CRJ200 regional jet aircraft (“CRJ200s”). Our objective in the fleet transition is to improve our profitability through the addition of new dual class aircraft, while removing aircraft from service that have been operating under unprofitable or less profitable fixed-fee contracts.

Although the number of our aircraft operating in scheduled service decreased by 5.9% since September 30, 2016, and we had a 4.8% reduction in our block hour production since September 30, 2016, our total revenues increased \$32.2 million for the three months ended September 30, 2017 compared to the three months ended September 30, 2016. The increase in revenue, despite the decrease in fleet size and block hour production, was primarily driven by the increase in revenue from 37 new E175 aircraft added to flying arrangements since September 30, 2016, significantly offset by the removal of 76 CRJ200s, ERJ145s and Canadair CRJ900 regional jet aircrafts (“CRJ900s”) with a lower revenue per aircraft since September 30, 2016.

Operating Expenses

Our total operating expenses increased \$5.6 million for the three months ended September 30, 2017, compared to the three months ended September 30, 2016. This increase was primarily due to an increase in our average fuel cost per gallon and an increase in engine maintenance costs as an increased percentage of our fleet are under long-term Power-By-The-Hour maintenance agreements (see Other Accounting Items). Additional details regarding the increase in our operating expenses are described in the section of this Report entitled “Results of Operations.”

Fleet activity

The following table summarizes our fleet scheduled for service as of September 30, 2017 and 2016:

Aircraft in Service	September 30, 2017	September 30, 2016
CRJ200s	191	213
CRJ700s	131	130
CRJ900s	60	64
ERJ145/135s	118	168
E175s	104	67
Total	604	642

Changes in our fleet activity from September 30, 2016 to September 30, 2017 are summarized as follows:

Aircraft available for scheduled service at September 30, 2016:	642
Additions:	
New E175 aircraft added with United:	16
New E175 aircraft added with Alaska:	8
New E175 aircraft added with Delta:	13
New Aircraft added to fleet:	37
Removals, net:	
ERJ145/ERJ135 aircraft removed from service:	(50)
CRJ200 aircraft removed from service:	(22)
CRJ900 aircraft removed from service:	(4)
Total Removals, net:	(76)
Temporary placement of used CRJ700 aircraft:	1
Aircraft available for scheduled service at September 30, 2017:	604

Critical Accounting Policies

Our significant accounting policies are summarized in Note 1 to our consolidated financial statements for the year ended December 31, 2016, which are presented in our Annual Report on Form 10-K for the year ended December 31, 2016. Critical accounting policies are those policies that are most important to the preparation of our

Table of Contents

consolidated financial statements and require management’s subjective and complex judgments due to the need to make estimates about the effect of matters that are inherently uncertain. Our critical accounting policies relate to revenue recognition, maintenance, aircraft leases, impairment of long-lived assets and stock-based compensation expense. The application of these accounting policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results will likely differ, and may differ materially, from such estimates.

Other Accounting Items

Directly reimbursed expenses under our fixed-fee arrangements. Under our fixed-fee arrangements, our major airline partners directly reimburse us for certain operating expenses such as fuel, station rents and landing fees. When we incur directly reimbursed expenses under our fixed-fee arrangements, we record the reimbursement as passenger revenue. Thus, the price and volume volatility of directly reimbursed expenses may impact the comparability of revenue to previous periods and may impact the comparability of operating expenses to previous periods, without impacting the comparability of our operating income of those same periods.

Reimbursement for engine overhaul expenses under our fixed-fee arrangements. Under certain of our fixed fee arrangements, we are directly reimbursed for engine overhaul costs when incurred (“Directly reimbursed Engine Contracts”). Under our other fixed-fee arrangements, we are paid fixed hourly rates intended to cover certain operating expenses, including engine overhaul costs (“Fixed-Rate Engine Contracts”). Because these reimbursed expenses are recognized as revenue from our partners, the price and volume volatility of directly reimbursed engine expenses may impact the comparability of revenue to previous periods and may impact the comparability of operating expenses to previous periods, without impacting the comparability of our operating income of those same periods.

Engine maintenance expense. We use the direct-expense method of accounting for our regional jet aircraft engine overhaul costs. Under this method, the maintenance liability is recorded when the maintenance services are performed. For a portion of our engines, a third-party vendor provides our long-term engine maintenance services, covering scheduled and unscheduled repairs for covered engines. Under the terms of the vendor agreement, we pay a set dollar amount per engine hour flown on a monthly basis and the third-party vendor assumes the obligation to repair the engines at no additional cost to us, subject to certain specified exclusions (“Power-by-the-Hour Contracts”). Under our Power-by-the-Hour Contracts, we expense the engine maintenance cost as flight hours are incurred on the engines using the contractual rate set forth in the applicable Power-by-the-Hour Contract.

The table below summarizes how we are compensated by our major airline partners under our flying contracts for engine maintenance expense and the method we use to recognize the corresponding expense:

Fixed-fee contract	Compensation of Engine Expense	Expense Recognition
--------------------	--------------------------------	---------------------

Edgar Filing: SKYWEST INC - Form 10-Q

SkyWest Delta Connection (CRJs)	Fixed-Rate Engine Contracts and Directly Reimbursed Engine Contracts	Direct Expense
SkyWest Delta Connection (E175)	Fixed-Rate Engine Contracts	Power-by-the-Hour Contract
ExpressJet Delta Connection (CRJs)	Directly Reimbursed Engine Contracts	Direct Expense
SkyWest United Express (CRJ200, CRJ700, E175)	Fixed-Rate Engine Contracts	Power-by-the-Hour Contract
ExpressJet United (ERJ135, ERJ145)	Directly Reimbursed Engine Contracts	Power-by-the-Hour Contract
Alaska Agreement (CRJ200, CRJ700)	Fixed-Rate Engine Contracts	Power-by-the-Hour Contract
Alaska Agreement (E175)	Fixed-Rate Engine Contracts	Power-by-the-Hour Contract
SkyWest American Agreements (CRJ200, CRJ700)	Fixed-Rate Engine Contracts	Power-by-the-Hour Contract
ExpressJet American Agreement (CRJ700)	Fixed-Rate Engine Contracts	Power-by-the-Hour Contract

Recent Accounting Pronouncements

See Note 1 to the Condensed Consolidated Financial Statements for a description of recent accounting pronouncements.

Table of Contents

Results of Operations

Three Months Ended September 30, 2017 and 2016

Operational Statistics. The following table sets forth our major operational statistics and the associated percentage changes for the periods identified below:

	For the three months ended September 30,			
	2017	2016	% Change	
Block hours	469,901	493,547	(4.8)	%
Departures	281,921	296,962	(5.1)	%
Passengers carried	13,475,674	14,028,703	(3.9)	%
Passenger load factor	80.0	% 83.4	(3.4)	pts
Average passenger trip length (miles)	503	517	(2.7)	%

Revenues. Our total operating revenue includes passenger revenues, which primarily consist of revenue earned on flights we operate under our fixed-fee and prorate arrangements, and airport customer service revenue, including airport counter, gate, and ramp services, on flights we operate under our flying arrangements. Our total operating revenue also includes ground handling and other revenues, which primarily consist of revenue earned from providing airport counter, gate and ramp services to other airlines on flights operated by other airlines, and government subsidy revenue we receive for providing flight service to certain locations under our prorate arrangements. Changes in our passenger revenue and ground handling and other revenue are summarized below.

Passenger revenues. Under our fixed-fee contracts, we are directly reimbursed for certain expenses from our major airline partners and we record such reimbursements as passenger revenue. The following table summarizes our passenger revenues less directly reimbursed expenses that impacted the comparability of our passenger revenues for the periods indicated (dollar amounts in thousands):

	For the three months ended September 30,			
	2017	2016	\$ Change	% Change
Passenger revenues	\$ 812,295	\$ 781,475	\$ 30,820	3.9 %
Less: directly reimbursed fuel from airline partners	19,280	13,425	5,855	43.6 %
Less: directly reimbursed landing fee and station rent from airline partners	3,967	4,025	(58)	(1.4) %
Less: directly reimbursed engine maintenance from airline partners	17,718	15,425	2,293	14.9 %

Edgar Filing: SKYWEST INC - Form 10-Q

Passenger revenue excluding directly reimbursed fuel, landing fee, station rent and engine maintenance	\$ 771,330	\$ 748,600	\$ 22,730	3.0	%
--	------------	------------	-----------	-----	---

The \$22.7 million increase in passenger revenues (excluding directly reimbursed fuel, landing fees, station rents and engine overhaul expenses from our major airline partners) was primarily driven by 37 new E175 aircraft added to flying arrangements since September 30, 2016, significantly offset by the removal of 76 CRJ200, ERJ145/135 and CRJ900 aircraft from flying arrangements with a lower revenue per aircraft since September 30, 2016.

Our passenger revenue attributed to our directly reimbursed fuel, landing fees, station rents and engine overhaul expenses increased by \$8.1 million, or 24.6%, during the three months ended September 30, 2017, compared to the three months ended September 30, 2016. This increase in directly reimbursed expenses was primarily due to an increase in directly reimbursed engine events and an increase in our average fuel cost per gallon from \$1.75 for the three months ended September 30, 2016, to \$1.99 for the three months ended September 30, 2017.

Ground handling and other. Total ground handling and other revenues increased \$1.3 million, or 7.3%, during the three months ended September 30, 2017, compared to the three months ended September 30, 2016. The increase was primarily related to an increase in ground handling operations provided to third party airlines on a short-term contract basis.

Table of Contents

Individual expense components attributable to our operations are expressed in the following table (dollar amounts in thousands):

	For the three months ended September 30,				
	2017 Amount	2016 Amount	\$ Change Amount	% Change Percent	
Salaries, wages and benefits	\$ 303,997	\$ 305,958	\$ (1,961)	(0.6)	%
Aircraft maintenance, materials and repairs	148,787	143,573	5,214	3.6	%
Depreciation and amortization	74,095	71,743	2,352	3.3	%
Aircraft rentals	54,976	65,766	(10,790)	(16.4)	%
Aircraft fuel	42,071	33,189	8,882	26.8	%
Ground handling services	16,693	16,498	195	1.2	%
Other operating expenses	78,948	77,215	1,733	2.2	%
Total operating expenses	\$ 719,567	\$ 713,942	\$ 5,625	0.8	%
Interest expense	27,101	19,865	7,236	36.4	%
Total airline expenses	\$ 746,668	\$ 733,807	\$ 12,861	1.8	%

Salaries, wages and employee benefits. The \$2.0 million decrease in salaries, wages and employee benefits was primarily due to a decrease in direct labor costs resulting from a net reduction in our fleet size and related level of departures and block hours, which was partially offset by higher crew compensation costs resulting from labor agreements executed during 2017.

Aircraft maintenance, materials and repairs. The following table summarizes our aircraft maintenance, materials and repairs less the directly reimbursed engine overhaul costs under our fixed-fee arrangements for the periods indicated (dollar amounts in thousands).

	For the three months ended September 30,				
	2017	2016	\$ Change	% Change	
Aircraft maintenance, materials and repairs	\$ 148,787	\$ 143,573	\$ 5,214	3.6	%
Less: directly reimbursed engine maintenance from airline partners	17,718	15,425	2,293	14.9	%
Aircraft maintenance, materials and repairs excluding directly reimbursed engine maintenance from airline partners	\$ 131,069	\$ 128,148	\$ 2,921	2.3	%

The \$2.9 million increase in aircraft maintenance expense (excluding directly reimbursed engine overhaul costs) was primarily due to an increase in the percentage of our fleet that is under long-term, Power-By-The-Hour maintenance agreements, including the additional 37 E175 aircraft added since September 2016, which was partially offset by a decrease in direct maintenance costs that corresponds with our net decrease in fleet size and block hour reduction of

4.8%. Additionally, our aircraft maintenance, materials and repairs expense for the three months ended September 30, 2016 included \$5.6 million of maintenance costs associated with an early lease termination on six CRJ700 aircraft, and we did not have a comparable expense for the three months ended September 30, 2017. The increase in directly reimbursed engine overhaul costs was primarily due to an increase in the number of overhaul events.

Depreciation and amortization. The \$2.4 million increase in depreciation and amortization expense was primarily due to the purchase of 37 E175 aircraft and spare engines subsequent to September 30, 2016, which was partially offset by a reduction of 50-seat owned aircraft and related depreciation during the same period.

Aircraft rentals. The \$10.8 million decrease in aircraft rentals was primarily due to a reduction of our fleet size that was financed through leases subsequent to September 30, 2016. Additionally, our aircraft rental expense for the three months ended September 30, 2016 included \$3.2 million of costs associated with an early lease termination on six CRJ700 aircraft, and we did not have a comparable expense for the three months ended September 30, 2017.

Table of Contents

Aircraft Fuel. The following table summarizes our aircraft fuel expenses less directly reimbursed fuel expense under our fixed-fee arrangements for the periods indicated (dollar amounts in thousands):

	For the three months ended September 30,				
	2017	2016	\$ Change	% Change	
Aircraft fuel expenses	\$ 42,071	\$ 33,189	\$ 8,882	26.8	%
Less: directly reimbursed fuel from airline partners	19,280	13,425	5,855	43.6	%
Aircraft fuel less directly reimbursed fuel from airline partners	\$ 22,791	\$ 19,764	\$ 3,027	15.3	%

The \$3.0 million increase in fuel cost (less directly reimbursed fuel from major airline partners) was primarily due to an increase in our average fuel cost per gallon from \$1.75 for the three months ended September 30, 2016 to \$1.99 for the three months ended September 30, 2017. Aircraft fuel costs incurred under our prorate agreements are not directly reimbursed from our major airline partners. In the event one of our major airline partners purchases fuel directly from vendors on flights we operate pursuant to a fixed-fee arrangement, we do not incur the fuel expense. The following table summarizes the gallons of fuel we purchased directly from fuel vendors and our fuel expense, for the periods indicated:

(in thousands)	For the three months ended September 30,			
	2017	2016	% Change	
Fuel gallons purchased	21,123	18,936	11.5	%
Fuel expense	\$ 42,071	\$ 33,189	26.8	%

Ground handling service. Ground handling service expense includes airport-related customer service costs (our employee customer service labor costs are reflected in salaries, wages and benefits, such as outsourced airport gate and ramp agent services, airport security fees and passenger interruption costs). The \$0.2 million increase in ground handling service expense was primarily due to an increase in outsourced airport gate and ramp agent service costs during the three months ended September 30, 2017.

Other operating expenses. Other operating expenses, primarily consist of property taxes, hull and liability insurance, landing fees, station rents, simulator costs, crew per diem, and crew hotel costs. Under our fixed-fee arrangements, landing fee and station rental expense are directly reimbursed expenses. The following table summarizes our other operating expenses (less directly reimbursed landing fees and station rents under our fixed-fee arrangements) for the periods indicated (dollar amounts in thousands):

For the three months ended September 30,

Edgar Filing: SKYWEST INC - Form 10-Q

	2017	2016	\$ Change	% Change	
Other operating expenses	\$ 78,948	\$ 77,215	\$ 1,733	2.2	%
Less: directly reimbursed landing fee and station rent from airline partners	3,967	4,025	(58)	(1.4)	%
Other operating expenses excluding directly reimbursed landing fee and station rent from airline partners	\$ 74,981	\$ 73,190	\$ 1,791	2.4	%

The \$1.8 million increase in other operating expense (less directly reimbursed landing fees and station rents, expenses) was primarily related to an increase in property taxes related to the new E175 aircraft added subsequent to September 30, 2016, which was partially offset by the decrease in fleet size and other operating costs that resulted from the reduction in departures.

Interest Expense. The \$7.2 million increase in interest expense was primarily related to the additional interest expense associated with the 37 E175 aircraft added to our fleet since September 30, 2016 which were primarily debt financed.

Table of Contents

Total airline expense. The following table summarizes our total airline expense (consisting of total operating expense and interest expense) less the directly reimbursed expenses that impacted comparability for the periods indicated (dollar amounts in thousands):

	For the three months ended September 30,				
	2017	2016	\$ Change	% Change	
Total airline expense	\$ 746,668	\$ 733,807	\$ 12,861	1.8	%
Less: directly reimbursed fuel from airline partners	19,280	13,425	5,855	43.6	%
Less: directly reimbursed landing fee and station rent from airline partners	3,967	4,025	(58)	(1.4)	%
Less: directly reimbursed engine maintenance from airline partners	17,718	15,425	2,293	14.9	%
Total airline expense excluding directly reimbursed fuel, landing fee, station rent and engine maintenance	\$ 705,703	\$ 700,932	\$ 4,771	0.7	%

The \$4.8 million increase in total airline expenses (excluding directly reimbursed fuel, engine overhaul, landing fees and station rents) was primarily related to the additional aircraft ownership costs associated with the 37 E175 aircraft added to our fleet since September 30, 2016, partially offset by a reduction in fleet size and related block hour production of 4.8% during the three months ended September 30, 2017 compared to the three months ended September 30, 2016.

Income taxes. Our provision for income taxes was 38.0% and 37.9% for the three months ended September 30, 2017 and 2016, respectively. The increase in the effective tax rate relates to a reduction in valuation allowance in the three months ended September 30, 2016 related to certain state net operating losses we anticipate will be utilized before the benefit is scheduled to expire with no such reduction for the three months ended September 30, 2017, with such increase in the effective tax rate being neutralized primarily due to a \$0.4 million discrete tax benefit from excess tax deductions generated from employee equity transactions that occurred during the three months ended September 30, 2017 pursuant to ASU No. 2016-09 and a year over year increase in income before income taxes which diluted the effective tax rate impact related to expenses not deductible for tax purposes. The effective rate of our income tax provision may vary in future periods under ASU No. 2016-09 based on multiple variables including changes in our stock price, timing of employee stock option exercises and timing of restricted share vesting, among other factors.

Net income. Primarily due to the factors described above, we generated net income of \$53.7 million, or \$1.01 per diluted share, for the three months ended September 30, 2017, compared to net income of \$41.3 million, or \$0.79 per diluted share, for the three months ended September 30, 2016.

Nine Months Ended September 30, 2017 and 2016

Operational Statistics. The following table sets forth our major operational statistics and the associated percentage changes for the periods identified below:

	For the nine months ended September 30,			
	2017	2016	% Change	
Block hours	1,389,684	1,473,755	(5.7)	%
Departures	826,109	879,891	(6.1)	%
Passengers carried	38,861,025	40,612,654	(4.3)	%
Passenger load factor	80.2	% 81.9	(1.7)	pts
Average passenger trip length (miles)	511	523	(2.3)	%

Revenues. Our total operating revenue includes passenger revenues, which primarily consist of revenue earned on flights we operate under our fixed-fee and prorate arrangements, and airport customer service revenue, including airport counter, gate, and ramp services, on flights we operate under our flying arrangements. Our total operating revenue also includes ground handling and other revenues, which primarily consist of revenue earned from providing airport counter, gate and ramp services to other airlines on flights operated by other airlines, and government subsidy

Table of Contents

revenue we receive for providing flight service to certain locations under our prorate arrangements. Changes in our passenger revenue and ground handling and other revenue are summarized below.

Passenger revenues. Under our fixed-fee contracts, we are directly reimbursed for certain expenses from our major airline partners and we record such reimbursements as passenger revenue. The following table summarizes our passenger revenues less directly reimbursed expenses that impacted the comparability of our passenger revenues for the periods indicated (dollar amounts in thousands):

	For the nine months ended September 30,				
	2017	2016	\$ Change	% Change	
Passenger revenues	\$ 2,349,047	\$ 2,310,678	\$ 38,369	1.7	%
Less: directly reimbursed fuel from airline partners	52,269	37,341	14,928	40.0	%
Less: directly reimbursed landing fee and station rent from airline partners	12,255	10,489	1,766	16.8	%
Less: directly reimbursed engine maintenance from airline partners	51,601	48,415	3,186	6.6	%
Passenger revenue excluding directly reimbursed fuel, landing fee, station rent and engine maintenance	\$ 2,232,922	\$ 2,214,433	\$ 18,489	0.8	%

The \$18.5 million increase in passenger revenues (excluding directly reimbursed fuel, landing fees, station rents and engine overhaul expenses from our major airline partners) was primarily driven by 37 new E175 aircraft added to flying arrangements since September 30, 2016, significantly offset by the removal of 76 CRJ200, ERJ145/135 and CRJ900 aircraft from flying arrangements with a lower revenue per aircraft since September 30, 2016. Additionally, our revenue for the nine months ended September 30, 2016 included an \$11.5 million favorable resolution of a flying agreement matter with one of our major airline partners, and we did not have a comparable matter for the nine months ended September 30, 2017.

Our passenger revenue attributed to our directly reimbursed fuel, landing fees, station rents and engine overhaul expenses increased by \$19.9 million, or 20.7%, during the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016. This increase in directly reimbursed expenses was primarily due to the increase in our average fuel cost per gallon from \$1.65 for the nine months ended September 30, 2016, to \$1.95 for the nine months ended September 30, 2017.

Ground handling and other. Total ground handling and other revenues increased \$5.6 million, or 10.6%, during the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016. The increase was primarily related to an increase in ground handling operations provided to third party airlines on a short-term contract basis.

Table of Contents

Individual expense components attributable to our operations are expressed in the following table (dollar amounts in thousands):

	For the nine months ended September 30,				
	2017	2016	\$ Change	% Change	
	Amount	Amount	Amount	Percent	
Salaries, wages and benefits	\$ 899,966	\$ 915,743	\$ (15,777)	(1.7)	%
Aircraft maintenance, materials and repairs	433,467	424,722	8,745	2.1	%
Depreciation and amortization	215,415	209,431	5,984	2.9	%
Aircraft rentals	168,098	205,458	(37,360)	(18.2)	%
Aircraft fuel	113,564	90,827	22,737	25.0	%
Ground handling services	52,130	54,225	(2,095)	(3.9)	%
Other	229,211	231,004	(1,793)	(0.8)	%
Total operating expenses	\$ 2,111,851	\$ 2,131,410	\$ (19,559)	(0.9)	%
Interest expense	78,713	55,876	22,837	40.9	%
Total airline expenses	\$ 2,190,564	\$ 2,187,286	\$ 3,278	0.1	%

Salaries, wages and employee benefits. The \$15.8 million decrease in salaries, wages and employee benefits was primarily due to a decrease in direct labor costs resulting from a net reduction in our fleet size and related level of departures and block hours, which was partially offset by higher crew compensation costs resulting from labor agreements executed during 2017.

Aircraft maintenance, materials and repairs. The following table summarizes our aircraft maintenance, materials and repairs less the directly reimbursed engine overhaul costs under our fixed-fee arrangements for the periods indicated (dollar amounts in thousands).

	For the nine months ended September 30,				
	2017	2016	\$ Change	% Change	
Aircraft maintenance, materials and repairs	\$ 433,467	\$ 424,722	\$ 8,745	2.1	%
Less: directly reimbursed engine maintenance from airline partners	51,601	48,415	3,186	6.6	%
Other aircraft maintenance, materials and repairs	\$ 381,866	\$ 376,307	\$ 5,559	1.5	%

The \$5.6 million increase in aircraft maintenance expense (excluding directly reimbursed engine overhaul costs) was primarily due to an increase in the percentage of our fleet that is under long-term Power-By-The-Hour maintenance agreements, including the additional 37 E175 aircraft added since September 2016, which was partially offset by a decrease in direct maintenance costs that corresponds with our net decrease in fleet size and block hour reduction of 5.7%. Additionally, our aircraft maintenance, materials and repairs expense for the nine months ended September 30, 2016 included \$8.7 million of maintenance costs associated with an early lease termination on nine CRJ700 aircraft,

and we did not have a comparable expense for the nine months ended September 30, 2017. The increase in directly reimbursed engine overhaul costs was primarily due to an increase in the number of overhaul events.

Depreciation and amortization. The \$6.0 million increase in depreciation and amortization expense was primarily due to the purchase of 37 E175 aircraft and spare engines subsequent to September 30, 2016, which was partially offset by a reduction in owned 50-seat aircraft and related depreciation during the same period.

Aircraft rentals. The \$37.4 million decrease in aircraft rentals was primarily due to a reduction of our fleet size that was financed through leases subsequent to September 30, 2016. Additionally, our aircraft rental expense for the nine months ended September 30, 2016 included \$10.0 million of costs associated with an early lease termination on nine CRJ700 aircraft, and we did not have a comparable expense for the nine months ended September 30, 2017.

Table of Contents

Aircraft Fuel. The following table summarizes our aircraft fuel expenses less directly reimbursed fuel expense under our fixed-fee arrangements for the periods indicated (dollar amounts in thousands):

	For the nine months ended September 30,				
	2017	2016	\$ Change	% Change	
Aircraft fuel expenses	\$ 113,564	\$ 90,827	\$ 22,737	25.0	%
Less: directly reimbursed fuel from airline partners	52,269	37,341	14,928	40.0	%
Aircraft fuel less directly reimbursed fuel from airline partners	\$ 61,295	\$ 53,486	\$ 7,809	14.6	%

The \$7.8 million increase in fuel cost (less directly reimbursed fuel from major airline partners) was primarily due to an increase in our average fuel cost per gallon from \$1.65 for the nine months ended September 30, 2016 to \$1.95 for the nine months ended September 30, 2017. Aircraft fuel costs incurred under our prorated arrangements are not directly reimbursed from our major airline partners. In the event one of our major airline partners purchases fuel directly from vendors on flights we operate pursuant to a fixed-fee arrangement, we do not incur the fuel expense. The following table summarizes the gallons of fuel we purchased directly from fuel vendors and our fuel expense, for the periods indicated:

(in thousands)	For the nine months ended September 30,			
	2017	2016	% Change	
Fuel gallons purchased	58,282	55,043	5.9	%
Fuel expense	\$ 113,564	\$ 90,827	25.0	%

Ground handling service. Ground handling service expense includes airport-related customer service costs (our employee customer service labor costs are reflected in salaries, wages and benefits such as outsourced airport gate and ramp agent services, airport security fees and passenger interruption costs). The \$2.1 million decrease in ground handling service expense was primarily due to a reduction in passenger interruption related costs during the nine months ended September 30, 2016.

Other operating expenses. Other operating expenses, primarily consist of property taxes, hull and liability insurance, landing fees, station rents, simulator costs, crew per diem, and crew hotel costs. Under our fixed-fee arrangements, landing fee and station rental expense are directly reimbursed expenses. The following table summarizes our other operating expenses (less directly reimbursed landing fees and station rents under our fixed-fee arrangements) for the periods indicated (dollar amounts in thousands):

For the nine months ended September 30,

Edgar Filing: SKYWEST INC - Form 10-Q

	2017	2016	\$ Change	% Change	
Other operating expenses	\$ 229,211	\$ 231,004	\$ (1,793)	(0.8)	%
Less: directly reimbursed landing fee and station rent from airline partners	12,255	10,489	1,766	16.8	%
Other operating expenses excluding directly reimbursed landing fee and station rent from airline partners	\$ 216,956	\$ 220,515	\$ (3,559)	(1.6)	%

The \$3.6 million decrease in other operating expense (less directly reimbursed landing fees and station rents, expenses) was primarily related to the decrease in our fleet size and in other operating costs that resulted from the reduction in block hour production of 5.7%, which was partially offset by an increase in property taxes on the 37 new E175 aircraft added since September 30, 2016.

Interest Expense. The \$22.8 million increase in interest expense was primarily related to the additional interest expense associated with the 37 E175 aircraft added to our fleet since September 30, 2016 which were primarily debt financed.

Table of Contents

Total airline expense. The following table summarizes our total airline expense (consisting of total operating expense and interest expense) less the directly reimbursed expenses that impacted comparability for the periods indicated (dollar amounts in thousands):

	For the nine months ended September 30,				
	2017	2016	\$ Change	% Change	
Total airline expense	\$ 2,190,564	\$ 2,187,286	\$ 3,278	0.1	%
Less: directly reimbursed fuel from airline partners	52,269	37,341	14,928	40.0	%
Less: directly reimbursed landing fee and station rent from airline partners	12,255	10,489	1,766	16.8	%
Less: directly reimbursed engine maintenance from airline partners	51,601	48,415	3,186	6.6	%
Total airline expense excluding directly reimbursed fuel, landing fee, station rent and engine maintenance	\$ 2,074,439	\$ 2,091,041	\$ (16,602)	(0.8)	%

The \$16.6 million decrease in total airline expenses (excluding directly reimbursed fuel, engine overhaul, landing fees and station rents) was primarily due to the reduction in fleet size and related block hour production of 5.7%, partially offset by an increase in crew labor costs, an increase in the percentage of our fleet that is covered under long-term Power-By-The-Hour maintenance agreements and higher property taxes associated with the new E175 aircraft added since September 30, 2016.

Income taxes. Our provision for income taxes was 36.8% and 38.8% for the nine months ended September 30, 2017 and 2016, respectively. The reduction in our effective tax rate was primarily due to a \$3.6 million discrete tax benefit from excess tax deductions generated from employee equity transactions that occurred during the nine months ended September 30, 2017 pursuant to ASU No. 2016-09 and a year over year increase in income before income taxes which diluted the effective tax rate impact related to expenses not deductible for tax purposes. The effective rate of our income tax provision may vary in future periods under ASU No. 2016-09 based on multiple variables including changes in our stock price, timing of employee stock option exercises and timing of restricted share vesting, among other factors.

Net income. Primarily due to the factors described above, we generated net income of \$139.0 million, or \$2.62 per diluted share, for the nine months ended September 30, 2017, compared to net income of \$108.7 million, or \$2.08 per diluted share, for the nine months ended September 30, 2016.

Our Business Segments

Three Months Ended September 30, 2017 and 2016

For the three and nine months ended September 30, 2017 and 2016, we had three reportable segments which are the basis of our internal financial reporting: SkyWest Airlines, ExpressJet and SkyWest Leasing. Our segment disclosure relates to components of our business for which separate financial information is available to, and regularly evaluated by, our chief operating decision maker. Our operating segments consist of SkyWest Airlines, ExpressJet and SkyWest Leasing. Corporate overhead expense is allocated to the operating expenses of SkyWest Airlines and ExpressJet.

(1) Total Airline Expense includes operating expense and interest expense

SkyWest Airlines Segment Profit. SkyWest Airlines block hour production increased to 326,608, or 15.7%, for the three months ended September 30, 2017, from 282,287 for the three months ended September 30, 2016, primarily due to the additional block hour production from the new E175 aircraft added subsequent to September 30, 2016. Significant items contributing to the SkyWest Airlines segment profit are set forth below.

The \$75.5 million increase in SkyWest Airlines Operating Revenues for the three months ended September 30, 2017, compared to the three months ended September 30, 2016, was primarily due to revenue associated with 37 additional E175 aircraft subsequent to September 30, 2016.

The \$53.3 million increase in SkyWest Airlines Airline Expense for the three months ended September 30, 2017, compared to the three months ended September 30, 2016, was primarily due to the following factors:

- SkyWest Airlines' salaries, wages and benefits expense increased by \$20.2 million, or 11.4%, primarily due to the additional block hour production along with higher crew compensation costs resulting from labor agreements executed during 2017.

Edgar Filing: SKYWEST INC - Form 10-Q

- SkyWest Airlines' aircraft maintenance, materials and repairs expense increased by \$21.5 million, or 26.4%, primarily attributable to the additional E175 aircraft engines being placed under Power-by-the-Hour engine maintenance contracts and direct maintenance costs related to the increased volume of block hours. Additionally, SkyWest Airlines aircraft maintenance, materials and repairs expense for the three months ended September 30, 2016 included \$3.7 million of maintenance costs associated with an early lease termination on four CRJ700 aircraft, and SkyWest Airlines did not have a comparable expense for the three months ended September 30, 2017.
- SkyWest Airlines' fuel expense increased \$9.4 million, or 29.0%, primarily due to an increase in the average fuel cost per gallon in 2017 compared to 2016 along with an increase in the volume of gallons purchased. The average fuel cost per gallon was \$1.99 and \$1.75 for the three months ended September 30, 2017 and 2016, respectively.

Table of Contents

ExpressJet Segment Loss. ExpressJet's block hour production decreased to 143,293, or 32.2%, for the three months ended September 30, 2017, from 211,260 for the three months ended September 30, 2016, primarily due to the removal of 50-seat aircraft. Significant items contributing to the ExpressJet segment loss are set forth below.

The \$68.8 million decrease in ExpressJet Operating Revenues for the three months ended September 30, 2017, compared to the three months ended September 30, 2016, was primarily due to a reduction in block hour production due to a reduced fleet size since September 30, 2016.

The \$61.1 million decrease in ExpressJet Airline Expense for the three months ended September 30, 2017, compared to the three months ended September 30, 2016, was primarily due to the following factors:

- ExpressJet's salaries, wages and benefits expense decreased \$22.2 million, or 17.2%, primarily due to a reduction in direct labor costs associated with 32.2% fewer block hours produced year-over-year.
- ExpressJet's aircraft maintenance, materials and repairs expense decreased \$16.3 million, or 26.3%, primarily due to the decrease in fleet size subsequent to September 30, 2016, and a decrease in the number of directly reimbursed engine events. Additionally, ExpressJet's aircraft maintenance, materials and repairs expense for the three months ended September 30, 2016 included \$1.9 million of maintenance costs associated with an early lease termination on two CRJ700 aircraft, and ExpressJet did not have a comparable expense for the three months ended September 30, 2017.
- ExpressJet's aircraft rental expenses decreased \$5.9 million, or 37.9%, primarily due to a reduction of ExpressJet's fleet size that was financed through leases subsequent to September 30, 2016. Additionally, ExpressJet's aircraft rental expense for the three months ended September 30, 2016 included \$3.2 million of costs associated with an early lease termination on two CRJ700 aircraft, and ExpressJet did not have a comparable expense for the three months ended September 30, 2017.
- ExpressJet's depreciation expense decreased \$8.2 million, or 39.3%, primarily due to a reduction in owned 50-seat aircraft and related long-lived assets since September 30, 2016.
- ExpressJet's other operating expense decreased \$6.1 million, or 20.7%, primarily due to a decrease in direct operating costs associated with a 32.2% reduction in block hour production year over year.

SkyWest Leasing Segment Profit. SkyWest Leasing profit increased \$4.8 million during the three months ended September 30, 2017, compared to the three months ended September 30, 2016, primarily due to 37 E175 aircraft added to our fleet subsequent to September 30, 2016.

(1) Total Airline Expense includes operating expense and interest expense

SkyWest Airlines Segment Profit. SkyWest Airlines block hour production increased to 908,364, or 8.7%, for the nine months ended September 30, 2017, from 835,445 for the nine months ended September 30, 2016, primarily due to the additional block hour production from the new E175 aircraft added subsequent to September 30, 2016. Significant items contributing to the SkyWest Airlines segment profit are set forth below.

The \$125.8 million increase in SkyWest Airlines Operating Revenues for the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016, was primarily due to revenue associated with 37 additional E175 aircraft subsequent to September 30, 2016. SkyWest Airlines revenue for the nine months ended September 30, 2016 included an \$11.5 million favorable resolution of a flying agreement matter with one of its major airline partners, and SkyWest Airlines did not have a comparable matter for the nine months ended September 30, 2017.

The \$105.2 million increase in SkyWest Airlines Airline Expense for the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016, was primarily due to the following factors:

- SkyWest Airlines' salaries, wages and benefits expense increased by \$47.2 million, or 9.2%, primarily due to the additional block hour production along with higher crew compensation costs resulting from labor agreements executed during 2017.
- SkyWest Airlines' aircraft maintenance, materials and repairs expense increased by \$43.0 million, or 18.4%, primarily due to the additional E175 aircraft engines being placed under Power-by-the-Hour engine maintenance agreements and direct maintenance costs related to the increased volume of block hours. Additionally, SkyWest Airlines aircraft maintenance, materials and repairs expense for the nine months ended September 30, 2016 included \$3.7 million of maintenance costs associated with an early lease termination on four CRJ700 aircraft, and SkyWest Airlines did not have a comparable expense for the nine months ended September 30, 2017.

Table of Contents

- SkyWest Airlines' fuel expense increased \$23.1 million, or 26.0%, primarily due to an increase in the average fuel cost per gallon in 2017 compared to 2016 along with an increase in the volume of gallons purchased. The average fuel cost per gallon was \$1.95 and \$1.65 for the nine months ended September 30, 2017 and 2016, respectively.

ExpressJet Segment Loss. ExpressJet's block hour production decreased to 481,320, or 24.6%, for the nine months ended September 30, 2017, from 638,310 for the nine months ended September 30, 2016, primarily due to the removal of 50-seat aircraft. Significant items contributing to the ExpressJet segment loss are set forth below.

The \$162.2 million decrease in ExpressJet Operating Revenues for the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016, was primarily due to a reduction in scheduled departures in ExpressJet's 50-seat aircraft.

The \$166.5 million decrease in ExpressJet Airline Expense for the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016, was primarily due to the following factors:

- ExpressJet's salaries, wages and benefits expense decreased \$63.4 million, or 15.8%, primarily due to a reduction in direct labor costs associated with 24.6% fewer block hours produced year-over-year.
- ExpressJet's aircraft maintenance, materials and repairs expense decreased \$34.3 million, or 18.0%, primarily due to the decrease in fleet size subsequent to September 30, 2016 and a decrease in the number of directly reimbursed engine events. Additionally, ExpressJet's aircraft maintenance, materials and repairs expense for the nine months ended September 30, 2016 included \$4.9 million of maintenance costs associated with an early lease termination on five CRJ700 aircraft, and ExpressJet did not have a comparable expense for the nine months ended September 30, 2017.
- ExpressJet's aircraft rental expenses decreased \$23.4 million, or 44.2%, primarily due to a reduction of ExpressJet's fleet size that was financed through leases subsequent to September 30, 2016. Additionally, ExpressJet's aircraft rental expense for the nine months ended September 30, 2016 included \$10.0 million of costs associated with an early lease termination on CRJ700 aircraft, and ExpressJet did not have a comparable expense for the nine months ended September 30, 2017.
- ExpressJet's depreciation expense decreased \$24.6 million, or 38.8%, primarily due to a reduction in 50-seat owned aircraft and related long-lived assets since September 30, 2016.
- ExpressJet's other operating expense decreased \$15.7 million, or 17.5%, primarily due to a decrease in direct operating costs associated with a 24.6% reduction in block hour production year over year.

SkyWest Leasing Segment Profit. SkyWest Leasing profit increased \$15.7 million during the nine months ended September 30, 2017, compared to the nine months ended September 30, 2016, primarily due to 37 E175 aircraft added to our fleet subsequent to September 30, 2016.

Table of Contents

Liquidity and Capital Resources

Sources and Uses of Cash

Cash Position and Liquidity. The following table provides a summary of the net cash provided by (used in) our operating, investing and financing activities for the nine months ended September 30, 2017 and 2016, and our total cash and marketable securities positions as of September 30, 2017 and December 31, 2016 (in thousands):

	For the nine months ended September 30,			
	2017	2016	\$ Change	% Change
Net cash provided by operating activities	\$ 532,289	\$ 399,318	\$ 132,971	33.3 %
Net cash used in investing activities	(695,054)	(850,727)	155,673	(18.3) %
Net cash provided by financing activities	114,084	298,141	(184,057)	(61.7) %

	September 30,	December 31,	\$ Change	% Change
	2017	2016		
Cash and cash equivalents	\$ 98,085	\$ 146,766	\$ (48,681)	(33.2) %
Restricted cash	8,278	8,243	35	0.4 %
Marketable securities	569,080	409,898	159,182	38.8 %
Total cash and marketable securities	\$ 675,443	\$ 564,907	\$ 110,536	19.6 %

Cash Flows provided by Operating Activities

The \$133.0 million increase in net cash provided by operating activities was primarily due to an increase in income before income taxes of \$42.5 million for the nine months ended September 30, 2017 compared to the nine months ended September 30, 2016, cash provided by changes in accounts payable of \$68.9 million and cash provided by changes in prepaid aircraft rents of \$17.1 million.

Cash Flows used in Investing Activities

The \$155.7 million decrease in cash used in investing activities was primarily due to net liquidation of marketable securities, which provided an additional \$60.2 million during the nine months ended September 30, 2016 compared to the nine months ended September 30, 2017, and the acquisition of 18 E175 aircraft and the related spare aircraft assets during the nine months ended September 30, 2017, compared to 22 E175 aircraft and the related spare aircraft assets purchased during the nine months ended September 30, 2016, which in total represented a decrease of \$56.3 million. Additionally, during the nine months ended September 30, 2017, we received proceeds from the sale of 15 CRJ200 aircraft, eleven EMB120 aircraft, one CRJ700 aircraft and related spare aircraft assets for \$51.1 million.

Cash Flows provided by Financing Activities

The \$184.1 million decrease in cash provided by financing activities was primarily related to proceeds from the issuance of long-term debt of \$384.8 million associated with 17 E175 aircraft acquired during the nine months ended September 30, 2017, compared to proceeds from the issuance of debt of \$497.5 million associated with 22 E175 aircraft acquired during the nine months ended September 30, 2016. This decrease in cash provided by financing activities was also related to an additional \$47.4 million used as principal payments on long-term debt primarily due to the payoff of debt on 15 CRJ200 aircraft and one CRJ700 aircraft that we sold during the nine months ended September 30, 2017. Additionally, during the nine months ended September 30, 2017, we used \$14.3 million to purchase treasury shares and towards the net settlement of income taxes on employee equity awards.

Liquidity and Capital Resources

We believe that in the absence of unusual circumstances, the working capital currently available to us will be sufficient to meet our present financial requirements, including anticipated expansion, planned capital expenditures, and scheduled lease payments and debt service obligations for at least the next 12 months.

Table of Contents

At September 30, 2017, our total capital mix was 38.3% equity and 61.7% long-term debt, compared to 37.6% equity and 62.4% long-term debt at December 31, 2016.

Significant Commitments and Obligations

General

The following table summarizes our commitments and obligations as noted for each of the next five years and thereafter (in thousands):

	Total	Oct - 2017	2018	2019	2020	2021	Thereafter
Operating lease payments for aircraft and facility obligations	\$ 753,318	\$ 43,077	\$ 137,046	\$ 102,877	\$ 121,280	\$ 112,535	\$ 236,503
Firm aircraft and spare engine commitments	1,155,792	85,133	1,046,014	14,787	9,858	—	—
Interest commitments(1)	539,281	27,814	99,982	87,423	75,152	64,007	184,903
Principal maturities on long-term debt	2,710,028	82,093	308,700	311,002	278,906	266,011	1,463,316
Total commitments and obligations	\$ 5,158,419	\$ 238,117	\$ 1,591,742	\$ 516,089	\$ 485,196	\$ 442,553	\$ 1,884,722

(1) At September 30, 2017, we had variable rate notes representing 3.0% of our total long-term debt. Actual interest commitments will change based on the actual variable interest.

Purchase Commitments and Options

As of September 30, 2017, we had a firm purchase commitment for 45 E175/E175 SC aircraft from Embraer, S.A. with scheduled delivery dates through the end of 2018.

We have not historically funded a substantial portion of our aircraft acquisitions with working capital. Rather, we have generally funded our aircraft acquisitions through a combination of operating leases and long-term debt financing. At the time of each aircraft acquisition, we evaluate the financing alternatives available to us, and select one or more of these methods to fund the acquisition. At present, we intend to fund our acquisition of any additional aircraft through cash on hand and debt financing. Based on current market conditions and discussions with prospective leasing organizations and financial institutions, we currently believe that we will be able to obtain financing for our committed acquisitions, as well as additional aircraft. We intend to finance the firm order for 45 E175/E175 SC aircraft purchase with approximately 85% debt and the remaining balance with cash.

Aircraft Lease and Facility Obligations

We also have significant long-term lease obligations primarily relating to our aircraft fleet. At September 30, 2017, we had 353 aircraft under lease with remaining terms ranging from one year or less to eight years. Future minimum lease payments due under all long-term operating leases were approximately \$753.3 million at September 30, 2017. Assuming a 4.77% discount rate, which is the average rate used to approximate the implicit rates within the applicable aircraft leases, the present value of these lease obligations would have been equal to approximately \$607.1 million at September 30, 2017.

Long-term Debt Obligations

As of September 30, 2017, we had \$2.7 billion of long-term debt obligations, including current maturities, related to the acquisition of CRJ200, CRJ700, CRJ900 and E175 aircraft and spare engine financings. The average effective interest rate on the debt related to such aircraft and spare engine financings was approximately 3.9% at September 30, 2017.

Table of Contents

Guarantees

We have guaranteed the obligations of SkyWest Airlines under the SkyWest Airlines Delta Connection Agreement and the SkyWest Airlines United Express Agreement for the E175 aircraft. We have also guaranteed the obligations of ExpressJet under the ExpressJet Delta Connection Agreement and the ExpressJet United ERJ Agreement.

Seasonality

Our results of operations for any interim period are not necessarily indicative of those for an entire year, since the airline industry is subject to seasonal fluctuations and general economic conditions. Our operations are somewhat favorably affected by increased travel on our prorate routes, historically occurring during the summer months, and unfavorably affected by decreased travel during the months November through February and by inclement weather, which may occasionally or frequently, depending on the severity of the inclement weather in any given winter, result in cancelled flights during the winter months.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Aircraft Fuel

In the past, we have not experienced difficulties with fuel availability and we currently expect to be able to obtain fuel at prevailing prices in quantities sufficient to meet our future needs. Pursuant to our fixed-fee arrangements, United, Delta, Alaska and American have agreed to bear the economic risk of fuel price fluctuations on our contracted flights. We bear the economic risk of fuel price fluctuations on our prorate operations. For the nine months ended September 30, 2017, prorate flying arrangements represented approximately 12.2% of our total passenger revenue. For illustrative purposes only, we have estimated the impact of the market risk of fuel price fluctuations on our prorate operations using a hypothetical increase of 25% in the price per gallon we purchase. Based on this hypothetical assumption, we would have incurred an additional \$15.3 million in fuel expense for the nine months ended September 30, 2017.

Interest Rates

Our earnings may be affected by changes in interest rates due to our variable rate long-term debt. The interest rates applicable to variable rate debt may rise and increase our interest expense. At September 30, 2017, we had variable

rate notes representing 3.0% of our total long-term debt compared to 5.1% of our long-term debt at December 31, 2016. For illustrative purposes only, we have estimated the impact of market risk using a hypothetical increase in interest rates of one percentage point for variable rate long-term debt. Based on this hypothetical assumption, we would have incurred an additional \$0.8 million in interest expense for the nine months ended September 30, 2017. However, the majority of our debt relates to aircraft operated under our capacity purchase agreements. Our major airline partners would directly reimburse us for an increase to our interest expense on debt associated with aircraft operated under our capacity purchase agreements.

We currently intend to finance the acquisition of aircraft through manufacturer financing, third-party leases or long-term borrowings. Changes in interest rates may impact the actual cost to us to acquire these aircraft. To the extent we place these aircraft in service under our code-share agreements with Delta, United, Alaska or other carriers, our code-share agreements currently provide that reimbursement rates will be adjusted higher or lower to reflect changes in our aircraft financing interest rates.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, including our Chief Executive Officer and Chief Financial Officer, performed an evaluation of our disclosure controls and procedures, which have been designed to ensure that information we are required to disclose in the reports we file or submit under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the SEC. Our

Table of Contents

management, including our Chief Executive Officer and Chief Financial Officer, concluded that, as of September 30, 2017, those controls and procedures were effective to ensure that information we are required to disclose in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

During the quarter ended September 30, 2017, there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act).

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to certain legal actions which we consider routine to our business activities. As of September 30, 2017, there were no pending legal proceedings that, if decided against us, were likely to have a material adverse effect on our financial position, liquidity or results of operations.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Part I, Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016 and in our other filings with the SEC, which factors could materially affect our business, financial condition and results of operations. The risks described in our reports filed with the SEC are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our Board of Directors has adopted a stock repurchase program which authorizes us to repurchase shares of our common stock in the public market or in private transactions, from time to time, at prevailing prices. Our stock repurchase program authorizes the repurchase of up to \$100.0 million of our common stock, of which \$90.0 million remained available at September 30, 2017. During the three months ended September 30, 2017, we did not repurchase any additional shares of our common stock.
