NEXSTAR BROADCASTING GROUP, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Business Operations

As of June 30, 2015, Nexstar Broadcasting Group, Inc. and its wholly-owned subsidiaries (“Nexstar”) owned, operated, programmed or provided sales and other services to 107 television stations and 36 digital multicast channels, including those owned by variable interest entities (“VIEs”), in 58 markets in the states of Alabama, Arizona, Arkansas, California, Colorado, Florida, Illinois, Indiana, Iowa, Louisiana, Maryland, Michigan, Missouri, Montana, Nevada, New York, Pennsylvania, Tennessee, Texas, Utah, Vermont, Virginia and Wisconsin. The stations are affiliates of ABC (20 stations), NBC (20 stations), FOX (28 stations), CBS (17 stations), The CW (10 stations and 2 digital multicast channels), MyNetworkTV (10 stations and 4 digital multicast channels), Telemundo (one station and one digital multicast channel), RTV (one station), Bounce TV (9 digital multicast channels), Me-TV (9 digital multicast channels), Estrella (6 digital multicast channels), LATV (one digital multicast channel), This TV (one digital multicast channel), Weather Nation Utah (one digital multicast channel), Movies! (one digital multicast channel) and News/Weather (one digital multicast channel). Through various local service agreements, Nexstar provided sales, programming and other services to 31 stations and 6 digital multicast channels owned and/or operated by independent third parties. Nexstar operates in one reportable television broadcasting segment. The economic characteristics, services, production process, customer type and distribution methods for Nexstar’s operations are substantially similar and are therefore aggregated as a single reportable segment.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The Condensed Consolidated Financial Statements include the accounts of Nexstar and the accounts of independently-owned VIEs for which Nexstar is the primary beneficiary. Nexstar and the consolidated VIEs are collectively referred to as the “Company.” Noncontrolling interests represent the VIE owners’ share of the equity in the consolidated VIEs and are presented as a component separate from Nexstar Broadcasting Group, Inc. stockholders’ equity. All intercompany account balances and transactions have been eliminated in consolidation. Nexstar management evaluates each arrangement that may include variable interests and determines the need to consolidate an entity where it determines Nexstar is the primary beneficiary of a VIE in accordance with related authoritative literature and interpretive guidance. Effective January 1, 2015, Nexstar entered into local service agreements to provide programming and sales services to stations acquired from Communications Corporation of America (“CCA”) and sold to Marshall Broadcasting Group, Inc. (“Marshall”) and stations owned by White Knight Broadcasting (“White Knight”), which were considered to be VIEs and were consolidated as of that date.

Certain assets of consolidated VIEs are not available to settle the obligations of Nexstar and there are certain liabilities of consolidated VIEs for which the creditors of the VIEs do not have recourse to the general credit of Nexstar. In previous filings, the Company presented such amounts as separate captions in its Consolidated Balance Sheets. Beginning in the first quarter of 2015, the Company has elected to present these amounts in a combined footnote on the Consolidated Balance Sheets, with footnote disclosure of the related carrying amounts and classification, as follows (in thousands):

	June 30, 2015	December 31, 2014	
Current assets	\$2,767	\$ 12	(1)
Property and equipment, net	4,364	-

<b>Total assets</b>	<b>121,308</b>	<b>49,131</b>	
<b>Current liabilities</b>	<b>12,074</b>	<b>7,852</b>	
<b>Noncurrent liabilities</b>	<b>24,974</b>	<b>10,018</b>	
<b>Total liabilities</b>	<b>\$37,048</b>	<b>\$ 17,870</b>	

(1) These balances relate to Parker Broadcasting of Colorado, LLC and were previously not presented separately on the Consolidated Balance Sheet. This correction is not considered material to the Consolidated Financial Statements as of December 31, 2014.

## Liquidity

Nexstar is highly leveraged, which makes it vulnerable to changes in general economic conditions. Nexstar's ability to repay or refinance its debt will depend on, among other things, financial, business, market, competitive and other conditions, many of which are beyond Nexstar's control.

## Interim Financial Statements

The Condensed Consolidated Financial Statements as of June 30, 2015 and for the three and six months ended June 30, 2015 and 2014 are unaudited. However, in the opinion of management, such financial statements include all adjustments (consisting solely of normal recurring adjustments) necessary for the fair statement of the financial information included herein in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). The preparation of the Condensed Consolidated Financial Statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. Results of operations for interim periods are not necessarily indicative of results for the full year. These Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and related Notes included in Nexstar's Annual Report on Form 10-K for the year ended December 31, 2014. The balance sheet as of December 31, 2014 has been derived from the audited financial statements as of that date, but does not include all of the information and footnotes required by U.S. GAAP for complete financial statements.

## Variable Interest Entities

The Company may determine that an entity is a VIE as a result of local service agreements entered into with the owner-operator of an entity. The term local service agreement generally refers to a contract between two separately owned television stations serving the same market, whereby the owner-operator of one station contracts with the owner-operator of the other station to provide it with administrative, sales and other services required for the operation of its station. Nevertheless, the owner-operator of each station retains control and responsibility for the operation of its station, including ultimate responsibility over all programming broadcast on its station. A local service agreement can be (1) a time brokerage agreement ("TBA") which allows Nexstar to program most of a station's broadcast time, sell the station's advertising time and retain the advertising revenue generated in exchange for monthly payments, based on the station's monthly operating expenses, (2) a shared services agreement ("SSA") which allows the Nexstar station in the market to provide services including news production, technical maintenance and security, in exchange for Nexstar's right to receive certain payments as described in the SSA, or (3) a joint sales agreement ("JSA") which permits Nexstar to sell certain of the station's advertising time and retain a percentage of the related revenue, as described in the JSA.

## Consolidated VIEs

Mission Broadcasting, Inc. ("Mission"), Marshall and Parker Broadcasting of Colorado, LLC ("Parker") are consolidated by Nexstar because Nexstar is deemed under U.S. GAAP to have controlling financial interests in these entities for financial reporting purposes as a result of (1) local service agreements Nexstar has with the stations owned by these entities, (2) Nexstar's guarantees of the obligations incurred under Mission's and Marshall's senior secured credit facilities (see Note 6), (3) Nexstar having power over significant activities affecting these entities' economic performance, including budgeting for advertising revenue, certain advertising sales and, for Mission and Parker, hiring and firing of sales force personnel and (4) purchase options granted by Mission which permit Nexstar to acquire the assets and assume the liabilities of each Mission station, subject to Federal Communications Commission ("FCC") consent.

Effective January 1, 2015, upon Nexstar's acquisition of CCA, Nexstar assumed the contractual obligations under CCA's local service agreements with White Knight, the owner of six television stations in the Baton Rouge, Louisiana, Shreveport, Louisiana and Tyler-Longview, Texas markets. Nexstar evaluated the business arrangements with White Knight and has determined that it has a variable interest in this entity. Nexstar has also determined that it is the primary beneficiary of the variable interest because it has the ultimate power to direct the activities that most significantly impact the economic performance of White Knight, including management advice and consultation in broadcast matters, the ability to sell certain advertising on the White Knight stations, the production of the White Knight stations' news and other programming, and oversight and control of sales management personnel. Additionally, Nexstar assumed CCA's options to acquire the assets and assume the liabilities of each White Knight station, subject to FCC consent. Simultaneous with Nexstar's acquisition of CCA, Nexstar sold the assets of CCA stations KPEJ and KMSS to Marshall and, as discussed above, Nexstar is the primary beneficiary of Marshall. Therefore, Nexstar consolidated White Knight, KPEJ and KMSS as of January 1, 2015. See Note 3 for additional information with respect to these transactions.

Edgar Filing: NEXSTAR BROADCASTING GROUP INC - Form 10-Q

The following table summarizes the various local service agreements Nexstar had in effect as of June 30, 2015 with Mission, Marshall, Parker and White Knight:

Service Agreements	Owner	Stations
TBA Only	Mission	WFXP and KHMT
	Parker	KFQX
SSA & JSA	Mission	KJTL, KJBO-LP, KLRT, KASN, KOLR, KCIT, KCPN-LP, KAMC, KRBC, KSAN, WUTR, WAWV, WYOU, KODE, WTVO, KTVE, WTVW and WVNY
	Marshall	KLJB, KPEJ and KMSS
	White Knight	WVLA, KZUP, KFXK, KFXL, KLPN, KSHV

Nexstar's ability to receive cash from Mission, Marshall, Parker and White Knight is governed by the local service agreements. Under these agreements, Nexstar has received substantially all of the consolidated VIEs' available cash, after satisfaction of operating costs and debt obligations. Nexstar anticipates it will continue to receive substantially all of the consolidated VIEs' available cash, after satisfaction of operating costs and debt obligations. In compliance with FCC regulations for all the parties, Mission, Marshall, Parker and White Knight maintain complete responsibility for and control over programming, finances, personnel and operations of their stations.

The carrying amounts and classification of the assets and liabilities of the VIEs mentioned above which have been included in the Condensed Consolidated Balance Sheets were as follows (in thousands):

Non-Consolidated VIEs

Nexstar has an outsourcing agreement with Cunningham Broadcasting Corporation (“Cunningham”), which continues through December 31, 2017. Under the outsourcing agreement, Nexstar provides certain engineering, production, sales and administrative services for WYZZ, the FOX affiliate in the Peoria, Illinois market, through WMBD, the Nexstar television station in that market. During the term of the outsourcing agreement, Nexstar retains the broadcasting revenue and related expenses of WYZZ and is obligated to pay a monthly fee based on the combined operating cash flow of WMBD and WYZZ, as defined in the agreement.

Nexstar has determined that it has a variable interest in WYZZ. Nexstar has evaluated its arrangements with Cunningham and has determined that it is not the primary beneficiary of the variable interest in WYZZ because it does not have the ultimate power to direct the activities that most significantly impact the economic performance of the station, including developing the annual operating budget, programming and oversight and control of sales management personnel. Therefore, Nexstar has not consolidated this station under authoritative guidance related to the consolidation of VIEs. Under the outsourcing agreement for WYZZ, Nexstar pays for certain operating expenses, and therefore may have unlimited exposure to any potential operating losses. Nexstar's management believes that Nexstar's minimum exposure to loss under the WYZZ outsourcing agreement consists of the fees paid to Cunningham. Additionally, Nexstar indemnifies the owner of WYZZ from and against all liability and claims arising out of or resulting from its activities, acts or omissions in connection with the agreement. The maximum potential amount of future payments Nexstar could be required to make for such indemnification is undeterminable at this time.

As of June 30, 2015 and December 31, 2014, Nexstar had balances in accounts payable of \$0.2 million and \$0.5 million, respectively, for fees under this arrangement and had receivables for advertising aired on these stations of \$0.6 million and \$0.7 million, respectively. Fees incurred under this arrangement of \$0.2 million and \$0.3 million for the three months ended June 30, 2015 and 2014, respectively, and \$0.3 million and \$0.6 million during each of the six months then ended, were included in direct operating expenses in the Condensed Consolidated Statements of Operations.

#### Financial Instruments

The carrying amounts of cash and cash equivalents, accounts receivable, broadcast rights, accounts payable, broadcast rights payable and accrued expenses approximate fair value due to their short-term nature. See Note 6 for fair value disclosures related to the Company's debt.

#### Income Per Share

Basic income per share is computed by dividing the net income attributable to Nexstar by the weighted-average number of common shares outstanding during the period. Diluted income per share is computed using the weighted-average number of common shares and potentially dilutive common shares outstanding during the period. Potentially dilutive common shares are calculated using the treasury stock method. They consist of stock options and restricted stock units outstanding during the period and reflect the potential dilution that could occur if common stock were issued upon exercise of stock options and vesting of restricted stock units. The following table shows the amounts used in computing the Company's diluted shares (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Weighted average shares outstanding - basic	31,325	30,641	31,260	30,622
Dilutive effect of equity incentive plan instruments	1,057	1,291	1,059	1,299
Weighted average shares outstanding - diluted	32,382	31,932	32,319	31,921

Stock options and restricted stock units to acquire a weighted average of 872,000 shares and 762,000 shares for the three months ended June 30, 2015 and 2014, respectively, and 958,000 shares and 691,000 shares during each of the respective six months then ended of Class A common stock were excluded from the computation of diluted earnings per share, because their impact would have been antidilutive.

Basis of Presentation

Certain prior year financial statement amounts have been reclassified to conform to the current year presentation. These reclassifications had no effect on net income or stockholders' equity as previously reported.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which updates the accounting guidance on revenue recognition. This standard is intended to provide a more robust framework for addressing revenue issues, improve comparability of revenue recognition practices and improve disclosure requirements. The standard is effective for interim and annual reporting periods beginning after December 15, 2017. Transition to the new guidance may be done using either a full or modified retrospective method. The Company is currently evaluating the impact of the provisions of the accounting standard update.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation (Topic 810) - Amendments to the Consolidation Analysis, to improve certain areas of consolidation guidance for reporting organizations (i.e., public, private and not-for-profit) that are required to evaluate whether to consolidate certain legal entities such as limited partnerships, limited liability corporations, and securitization structures (e.g., collateralized debt/loan obligations). All legal entities are subject to reevaluation under the revised consolidation model. Specifically, the amendments (1) eliminate the presumption that a general partner should consolidate a limited partnership, (2) eliminate the indefinite deferral of FASB Statement No. 167, thereby reducing the number of VIE consolidation models from four to two (including the limited partnership consolidation model), (3) clarify when fees paid to a decision maker should be a factor to include in the consolidation of VIEs, (4) amend the guidance for assessing how related party relationships affect VIE consolidation analysis and (5) exclude certain money market funds from the consolidation guidance. The amendments in this accounting standard are effective for public business entities for interim and annual periods beginning after December 15, 2015. Early adoption is permitted. The Company does not expect the implementation of this standard to have a material impact on its financial position or results of operations.

In April 2015, the FASB issued ASU No. 2015-03, Interest, Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs, which requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The amendments in this accounting standard are effective for interim and annual periods ending after December 15, 2015, with early application permitted. The Company does not expect this guidance to have a significant impact on its financial statements, other than a change in the financial statement classification of debt issuance costs related to term loans and publicly-held notes. As of June 30, 2015 and December 31, 2014, \$17.4 million and \$15.9 million, respectively, of net debt financing costs related to these loans were included in other noncurrent assets in the Condensed Consolidated Balance Sheets, but under the new guidance, would reduce the Company's debt.

In April 2015, the FASB issued ASU 2015-05, Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement (ASU 2015-05). ASU 2015-05 provides guidance to customers about whether a cloud computing arrangement includes software. If a cloud computing arrangement includes a software license, the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new guidance does not change the accounting for a customer's service contracts. ASU 2015-05 is effective for the Company in first quarter of 2017 with early adoption permitted using either of two methods: (i) prospective to all arrangements entered into or materially modified after the effective date and represent a change in accounting principle; or (ii) retrospectively. The Company is currently evaluating the impact of this accounting standard update.

## 3. Acquisitions and Dispositions

## CCA

Effective January 1, 2015, Nexstar completed the acquisition of the outstanding equity of privately-held CCA from SP ComCorp LLC (“SP ComCorp”), NexPoint Credit Strategies Fund (“NexPoint”) and Highland Floating Rate Opportunities Fund (“Highland”) and assumed CCA’s rights and obligations under its existing local service agreements with White Knight, for \$278.1 million in cash. CCA and White Knight, collectively, owned 19 television stations in 10 markets.

A deposit of \$27.0 million was paid to CCA in April 2013 upon signing the stock purchase agreement. Nexstar paid the \$251.1 million remaining purchase price at closing funded by a combination of cash on hand, term loans borrowed in October 2014 and borrowings from its revolving credit facility in January 2015 (See Note 6). The transaction costs relating to this acquisition, including legal and professional fees of \$0.1 million and \$0.6 million, were expensed as incurred during the three and six months ended June 30, 2015, respectively. Additionally, employment charges of \$0.6 million were incurred and included in the Condensed Consolidated Statements of Operations during the six months then ended.

Simultaneous with Nexstar’s acquisition of CCA, Nexstar sold the assets of CCA stations KPEJ and KMSS to Marshall for \$43.3 million in cash, funded primarily by a \$43.0 million deposit made in December 2014 arising from Marshall’s term loan. Nexstar also entered into local service agreements with Marshall to perform certain sales and other services for these stations. Additionally, Nexstar sold the assets of CCA station WEVV, the CBS and FOX affiliate serving the Evansville, Indiana market, to Bayou City Broadcasting Evansville, Inc. (“BCB”) for \$27.4 million in cash, plus a \$0.8 million cash sale of certain real estate properties previously owned by Nexstar (not acquired from CCA). Nexstar recognized a net loss on disposal of \$0.5 million in connection with this transaction. There is no relationship between Nexstar and BCB or their respective stations after the sale.

The above transactions allow the Company entrance into 7 new markets and create new duopolies in 4 markets. The stations impacted are as follows:

As discussed in Note 2, Nexstar is the primary beneficiary of the variable interests in White Knight and Marshall and has consolidated White Knight and the stations Nexstar sold to Marshall, KPEJ and KMSS, into Nexstar's Condensed Consolidated Financial Statements beginning January 1, 2015. Accordingly, all effects of the sale between Nexstar and Marshall have been eliminated in consolidation.

The consolidation of the assets and liabilities of White Knight into Nexstar resulted in a noncontrolling interest of \$2.9 million, representing the fair value of interest held by the owners as of January 1, 2015, estimated by applying the income approach valuation technique.

The estimated fair values of the assets acquired and liabilities assumed in the CCA acquisition (net of the effects of the sale of WEVV to BCB), including the consolidation of the assets and liabilities of White Knight, KPEJ and KMSS, are as follows (in thousands):

## 2015 Transactions

On January 29, 2015, Nexstar completed the issuance and sale of \$275.0 million 6.125% Notes at par. The proceeds from these notes were used to partially finance acquisitions and to pay for related fees and expenses (See Note 3). Interest on the 6.125% Notes is payable semiannually in arrears on February 15 and August 15 of each year commencing on August 15, 2015. The notes are senior unsecured obligations of Nexstar and are guaranteed by Mission and certain of Nexstar's and Mission's future wholly-owned subsidiaries, subject to certain customary release provisions. The notes will mature on February 15, 2022.

The 6.125% Notes are senior obligations of Nexstar and Mission but junior to the secured debt, including Nexstar's, Mission's and Marshall's senior secured credit facilities, to the extent of the value of the assets securing such debt. The 6.125% Notes rank equal to the 6.875% senior unsecured notes ("6.875% Notes").

On January 30, 2015, Mission repaid the outstanding principal balance under its revolving credit facility of \$5.5 million.

In January and February 2015, Nexstar borrowed a total of \$134.9 million under its revolving credit facility which was used to partially finance the acquisitions discussed in Note 3. During the six months ended June 30, 2015, Nexstar repaid all the \$134.9 million outstanding principal balance under its revolving credit facility funded by cash on hand.

In January and March 2015, Marshall borrowed a total of \$2.0 million under its revolving credit facility.

Through June 2015, Nexstar, Mission and Marshall paid the contractual maturities under their senior secured credit facilities of \$5.0 million, \$0.9 million and \$1.5 million, respectively.

## Unused Commitments and Borrowing Availability

The Company had \$103.0 million of total unused revolving loan commitments under its amended senior secured credit facilities, all of which was available for borrowing, based on the covenant calculations as of June 30, 2015. The Company's ability to access funds under its senior secured credit facilities depends, in part, on its compliance with certain financial covenants. As of June 30, 2015, Nexstar was in compliance with all of its covenants.

Collateralization and Guarantees of Debt

The Company's senior secured credit facilities are collateralized by a security interest in substantially all the combined assets, excluding FCC licenses and the other assets of consolidated VIEs unavailable to creditors of Nexstar (See Note 2). Nexstar guarantees full payment of all obligations incurred under the Mission and Marshall senior secured credit facilities in the event of their default. Similarly, Mission and Marshall are guarantors of the Nexstar senior secured credit facility. Mission is also a guarantor of Nexstar's 6.875% Notes and 6.125% Notes. Marshall is not a guarantor of either the 6.875% Notes or the 6.125% Notes. White Knight and Parker do not guarantee Nexstar's debt.

On July 7, 2015, Nexstar created Enterprise Technology LLC, a wholly-owned Delaware limited liability company ("Technology LLC"). Simultaneous with the creation of this new entity, certain assets and liabilities related to the digital media business owned by Nexstar were contributed to Technology LLC.

On July 7, 2015, Nexstar, Mission and Marshall entered into amendments to each of their senior secured credit facilities in order to permit Nexstar's contribution of assets and liabilities to Technology LLC. The amendments, among other things, permit Nexstar to use the proceeds of borrowings under its revolving credit facility to fund the working capital and other general corporate requirements of Technology LLC and each of its direct and indirect subsidiaries. The amendments also required the inclusion of Technology LLC and each of its direct and indirect subsidiaries in the calculation of Nexstar's financial covenants and other financial ratios and results pursuant to its amended credit agreement. Additionally, Technology LLC and each of its direct and indirect subsidiaries agreed to guarantee all borrowings of Nexstar, Mission and Marshall under each of their senior secured credit facilities. Technology LLC is not a guarantor of either the 6.875% Notes or the 6.125% Notes.

#### Fair Value of Debt

The aggregate carrying amounts and estimated fair values of the Company's debt were as follows (in thousands):

	June 30, 2015		December 31, 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Term loans <sup>(1)</sup>	\$697,850	\$693,977	\$705,054	\$697,420
Revolving loans <sup>(1)</sup>	2,000	1,962	5,500	5,386

6.125% Senior unsecured notes <sup>(2)</sup>	275,000	282,563	-	-

- (1) The fair value of senior secured credit facilities is computed based on borrowing rates currently available to the Company for bank loans with similar terms and average maturities. These fair value measurements are considered Level 3, as significant inputs to the fair value calculation are unobservable in the market.
- (2) The fair value of the Company's fixed rate debt is estimated based on bid prices obtained from an investment banking firm that regularly makes a market for these financial instruments. These fair value measurements are considered Level 2, as quoted market prices are available for low volume trading of these securities.

#### 7. FCC Regulatory Matters

Television broadcasting is subject to the jurisdiction of the FCC under the Communications Act of 1934, as amended (the "Communications Act"). The Communications Act prohibits the operation of television broadcasting stations except under a license issued by the FCC, and empowers the FCC, among other things, to issue, revoke and modify broadcasting licenses, determine the location of television stations, regulate the equipment used by television stations, adopt regulations to carry out the provisions of the Communications Act and impose penalties for the violation of such regulations. The FCC's ongoing rule making proceedings could have a significant future impact on the television industry and on the operation of the Company's stations and the stations to which it provides services. In addition, the U.S. Congress may act to amend the Communications Act or adopt other legislation in a manner that could impact the Company's stations, the stations to which it provides services and the television broadcast industry in general.

The FCC has adopted rules with respect to the final conversion of existing low power and television translator stations to digital operations. The FCC initially established a September 1, 2015 deadline by which low power and television translator stations must cease analog operations, but it recently has suspended that deadline pending action in an ongoing rulemaking proceeding.

## Media Ownership

The FCC is required to review its media ownership rules every four years and to eliminate those rules it finds no longer serve the “public interest, convenience and necessity.”

In March 2014, the FCC initiated its 2014 quadrennial review with the adoption of a Further Notice of Proposed Rulemaking (“FNPRM”). The FNPRM incorporates the record of the uncompleted 2010 quadrennial review proceeding and solicits comment on proposed changes to the media ownership rules. Among the proposals in the FNPRM are (1) retention of the current local television ownership rule (but with modifications to certain service contour definitions to conform to digital television broadcasting), (2) elimination of the radio/television cross-ownership rule, (3) elimination of the newspaper/radio cross-ownership rule, and (4) retention of the newspaper/television cross-ownership rule, while considering waivers of that rule in certain circumstances. The FNPRM also proposes to define a category of sharing agreements designated as SSAs between television stations, and to require television stations to disclose those SSAs. Comments and reply comments on the FNPRM were filed in the third quarter of 2014.

Concurrently with its adoption of the FNPRM, the FCC also adopted a rule making television JSAs attributable to the seller of advertising time in certain circumstances. Under this rule, where a party owns a full-power television station in a market and sells more than 15% of the weekly advertising time for another, non-owned station in the same market under a JSA, that party will be deemed to have an attributable interest in the latter station for purposes of the local television ownership rule. Parties to newly attributable JSAs that do not comply with the local television ownership rule were given two years to modify or terminate their JSAs to come into compliance. Congressional legislation signed into law in late 2014 extended this compliance period for an additional six months, and the compliance deadline is now December 19, 2016. Although the FCC has indicated that it will consider waivers of the new JSA attribution rule, the FCC thus far has not granted any such waiver and has provided little guidance on what factors must be present for a waiver to be granted. Various parties, including Nexstar (and Mission, which has intervened), have appealed this new rule to the U.S. Court of Appeals for the D.C. Circuit. If Nexstar is required to amend or terminate its existing agreements with Mission and others, the Company could have a reduction in revenue and could incur increased costs if it is unable to successfully implement alternative arrangements that are as beneficial as the existing JSAs.

### Spectrum

The FCC is seeking to make additional spectrum available to meet future wireless broadband needs. In February 2012, the U.S. Congress adopted legislation authorizing the FCC to conduct an incentive auction whereby television broadcasters could voluntarily relinquish their spectrum in exchange for consideration. In June 2014, the FCC released a Report and Order in which it adopted a framework for the auction. Various court appeals of this Report and Order were denied in June 2015. In December 2014, the FCC released a public notice proposing certain procedures that the FCC will follow in the incentive auction and the subsequent “repacking” of broadcast television spectrum. Comments on this public notice were filed in the first quarter of 2015, and the FCC has announced its intention to adopt procedures for the incentive auction in August 2015. The FCC has decided or is considering additional issues related to the incentive auction, including still-outstanding technical issues, in other proceedings. The FCC has stated its intention to conduct the incentive auction in the first quarter of 2016. The reallocation of television spectrum for wireless broadband use will require many television stations to change channel or otherwise modify their technical facilities. Future steps to reallocate television spectrum to broadband use may be to the detriment of the Company’s investment in digital facilities, could require substantial additional investment to continue current operations, and may require viewers to invest in additional equipment or subscription services to continue receiving broadcast television signals. The Company cannot predict the timing or results of television spectrum reallocation efforts or their impact to its business.

### Retransmission Consent

On March 3, 2011, the FCC initiated a Notice of Proposed Rulemaking to reexamine its rules (i) governing the requirements for good faith negotiations between multichannel video program distributors (“MVPDs”) and broadcasters, including implementing a prohibition on one station negotiating retransmission consent terms for another station under a local service agreement; (ii) for providing advance notice to consumers in the event of dispute; and (iii) to extend certain cable-only obligations to all MVPDs. The FCC also asked for comment on eliminating the network non-duplication and syndicated exclusivity protection rules, which may permit MVPDs to import out-of-market television stations during a retransmission consent dispute.

In March 2014, the FCC adopted a rule that prohibits joint retransmission consent negotiation between television stations in the same market which are not commonly owned and which are ranked among the top four stations in the market in terms of audience share. On December 5, 2014, federal legislation extended the joint negotiation prohibition to all non-commonly owned television stations in a market. This new rule requires Nexstar, Mission and other independent third parties with which Nexstar has local service agreements to separately negotiate retransmission consent agreements for certain of their stations. The December 2014 legislation also directed the FCC to commence a rulemaking to “review its totality of the circumstances test for good faith [retransmission consent] negotiations.” The

FCC has not yet commenced this proceeding, and we cannot predict its outcome.

Concurrently with its adoption of the prohibition on certain joint retransmission consent negotiation, the FCC also adopted a further notice of proposed rulemaking which seeks comment on the elimination or modification of the network non-duplication and syndicated exclusivity rules. The FCC's prohibition on certain joint retransmission consent negotiations and its possible elimination or modification of the network non-duplication and syndicated exclusivity protection rules may affect the Company's ability to sustain its current level of retransmission consent revenues or grow such revenues in the future and could have an adverse effect on the Company's business, financial condition and results of operations. The Company cannot predict the resolution of the FCC's network non-duplication and syndicated exclusivity proposals, or the impact of these proposals or the FCC's new prohibition on certain joint negotiations, on its business.

Further, certain online video distributors and other over-the-top video distributors (“OTTDs”) have begun streaming broadcast programming over the Internet. In June 2014, the U.S. Supreme Court held that an OTTD’s retransmissions of broadcast television programs without the consent of the broadcast station violate the copyright holders’ exclusive right to perform their works publicly as provided under the Copyright Act. In December 2014, the FCC issued a Notice of Proposed Rulemaking proposing to interpret the term “MVPD” to encompass OTTDs that make available for purchase multiple streams of video programming distributed at a prescheduled time, and seeking comment on the effects of applying MVPD rules to such OTTDs. Comments and reply comments were filed in the first and second quarters of 2015 and we cannot predict the outcome of the proceeding. However, if the FCC ultimately determines that an OTTD is not an MVPD, or declines to apply certain rules governing MVPDs to OTTDs, our business and results of operations could be materially and adversely affected.

## 8. Commitments and Contingencies

### Guarantees of Mission and Marshall Debt

Nexstar guarantees full payment of all obligations incurred under Mission’s and Marshall’s senior secured credit facilities. In the event that Mission and/or Marshall are unable to repay amounts due, Nexstar will be obligated to repay such amounts. The maximum potential amount of future payments that Nexstar would be required to make under this guarantee would be generally limited to the amount of borrowings outstanding. As of June 30, 2015, Mission had a maximum commitment of \$236.8 million under its senior secured credit facility, of which \$228.8 million of debt was outstanding, and Marshall had used all of its commitment and had outstanding debt obligations of \$59.6 million.

### Indemnification Obligations

In connection with certain agreements into which the Company enters in the normal course of its business, including local service agreements, business acquisitions and borrowing arrangements, the Company enters into contractual arrangements under which the Company agrees to indemnify the other party to such arrangement from losses, claims and damages incurred by the indemnified party for certain events as defined within the particular contract. Such indemnification obligations may not be subject to maximum loss clauses and the maximum potential amount of future payments the Company could be required to make under these indemnification arrangements may be unlimited. Historically, payments made related to these indemnifications have been immaterial and the Company has not incurred significant costs to defend lawsuits or settle claims related to these indemnification agreements.

### Litigation

From time to time, the Company is involved with claims that arise out of the normal course of its business. In the opinion of management, any resulting liability with respect to these claims would not have a material adverse effect on the Company’s financial position, results of operations or cash flows.
