## SECTION 8 – Other Events

### Item 8.01 Other Events.

The Company has entered into a Development Agreement (the “Development Agreement”), dated October 14, 2016, with STACK Exploration LLC, a Delaware limited liability company (the “Investor”). Pursuant to the Development Agreement, the Company and the Investor will participate in the funding and development of certain of the Company’s currently undeveloped oil and gas properties covering approximately 18,000 net mineral acres, restricted to certain depths, located in the STACK Play in Kingfisher County, Oklahoma in the Meramec and Osage formations within the Mississippi Lime on a contract area within three townships (collectively, the “Subject Assets”).

The Subject Assets will be developed pursuant to a drilling program which will consist of three tranches of 20 wells each (each, a “Tranche”), and the Company and the Investor have agreed on the locations of the initial Tranche. Each Tranche is expected to be drilled during a 15-month period. The Investor may participate in the second Tranche at its sole election, and the Company and the Investor must each elect to proceed with the third Tranche. The Company will operate each well jointly developed under the Development Agreement. The Investor’s obligations under the Development Agreement will be limited to \$90 million for the initial Tranche, subject to adjustment resulting from certain mutually agreed items, and may, subject to the Investor’s consent, expand to an aggregate of \$270 million over subsequent Tranches.

Under the Development Agreement, the Investor will fund 90% of Gastar’s working interest portion of drilling and completion costs to initially earn 80% of Gastar’s working interest in each new well (in each case, proportionately reduced by other participating working interests in the well). As a result, Gastar will pay 10% of its working interest portion of such costs for an initial working interest of 20% (in each case, proportionately reduced by other participating working interests in the well).

The terms of the Development Agreement provide for reversions upon the occurrence of the following events:

• on the first day of the calendar month following the date that the Investor achieves a 15% internal rate of return in the aggregate with respect to a Tranche, the Investor’s interest in the relevant Tranche will revert to 40% of the Company’s initial working interest while the remainder will revert to the Company, increasing the Company’s working interest to 60% of its initial working interest; and

• on the first day of the calendar month following the date that the Investor achieves a 20% internal rate of return in the aggregate with respect to a Tranche (with respect to each Tranche, the “Final Reversion”), the Investor’s interest in the relevant Tranche will revert to 10% of the Company’s initial working interest while the remainder will revert to the Company, increasing the Company’s working interest to 90% of its initial working interest.

The Development Agreement provides that the Investor’s payment obligations can be suspended upon the occurrence of certain events based on changes in commodity prices, including the New York Mercantile Exchange price per barrel of crude oil averaging less than \$40.00 over 30 consecutive trading days, provided that the Investor will be obligated to complete funding of any wells in progress, subject to certain exceptions.

The Development Agreement contains customary transfer restrictions on each of the Company’s and the Investor’s ability to transfer their respective interests in the Subject Assets, including consents to transfer and a tag-along right provided to the Investor. With certain limited exceptions, the Development Agreement will terminate (i) upon mutual agreement of the Investor and the Company, (ii) with respect to each Tranche, upon Final Reversion of such Tranche,

(iii) upon the election of the non-defaulting party in the event of uncured default, or (iv) upon the Investor's sole election any time after the later of the 18-month anniversary

---

of the Development Agreement or the date a subsequent Tranche is approved if certain specified wells have not been drilled and completed by such date.
