UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission file number 001-37416

PEOPLE'S UTAH BANCORP

(Exact name of registrant as specified in its charter)

UTAH 87-0622021 (State or other jurisdiction of incorporation or organization) Identification No.)

1 East Main Street, American Fork, Utah 84003 (Address of principal executive offices) (Zip Code)

(801) 642-3998

Registrant's telephone number, including area code

Not Applicable

(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by checkmark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by checkmark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of Registrant's common stock outstanding on October 31, 2018 was 18,719,496. No preferred shares are issued or outstanding.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — Basis of Presentation

Nature of operations and basis of consolidation — People's Utah Bancorp, Inc. ("PUB" or the "Company") is a Utah corporation headquartered in American Fork, Utah. The Company operates all business activities through its wholly-owned banking subsidiary, People's Intermountain Bank ("PIB" or the "Bank"), which was organized in 1913. The Bank is a Utah state chartered bank. The Bank operates under the jurisdiction of the Utah Department of Financial Institutions, and its deposits are insured by the Federal Deposit Insurance Corporation ("FDIC"). The Bank is not a member of the Federal Reserve System; however, PUB is operated as a bank holding company under the Federal Bank Holding Company Act of 1956 and is the sole shareholder of the Bank. Both PUB and the Bank are subject to periodic examination by applicable federal and state regulatory agencies and file periodic reports and other information with the agencies.

PIB is a community bank that provides highly personalized retail and commercial banking products and services to small and medium sized businesses and individuals. Products and services are offered primarily through 26 retail branches located throughout Utah and southern Idaho. PIB has three banking divisions, Bank of American Fork, Lewiston State Bank, and People's Town & Country Bank; a leasing division, GrowthFunding Equipment Finance; and a mortgage division, People's Intermountain Bank Mortgage. The Bank offers a full range of short-term to long-term commercial, personal and mortgage loans. Commercial loans include both secured and unsecured loans for working capital (including inventory and accounts receivable), business expansion (including acquisition of real estate and improvements), and purchase of equipment and machinery. Consumer loans include secured and unsecured loans to finance automobiles, home improvements, education, and personal investments. The Bank also offers mortgage loans secured by personal residences. The Bank offers a full range of deposit services typically available in most financial institutions, including checking accounts, savings accounts, and time deposits. The Bank solicits these accounts from individuals, businesses, associations and organizations, and governmental entities.

The interim condensed consolidated financial statements include the accounts of the Company together with its subsidiary Bank. All intercompany transactions and balances have been eliminated.

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial information. In the opinion of management, the interim statements reflect all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis and all such adjustments are of a normal recurring nature. These financial statements and the accompanying notes should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2017, which are included in the Company's 2017 Form 10-K. Operating results for the three months and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018, or any other period.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant

change in the near term relate to the determination of the allowance for loan losses, the valuation of real estate acquired through foreclosure, deferred tax assets, and share-based compensation.

Earnings per share — Basic earnings per common share represents income available to common shareholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued. Potential common shares include shares that may be issued by the Company for outstanding stock options determined using the treasury stock method and for all outstanding restricted stock units ("RSU").

Note 1 — Basis of Presentation – Continued

Earnings per common share have been computed based on the following:

	Three Months Ended September 30,		Nine Months September 30	
(Dollars in thousands, except share and per share data)	2018	2017	2018	2017
Numerator				
Net income	\$10,483	\$6,238	\$29,954	\$19,253
Denominator				
Weighted-average number of common shares outstanding	18,713,410	17,976,066	18,664,339	17,933,010
Incremental shares assumed for stock options and RSUs	297,190	420,598	315,066	422,126
Weighted-average number of dilutive shares outstanding	19,010,600	18,396,664	18,979,405	18,355,136
Basic earnings per common share	\$0.56	\$0.35	\$1.60	\$1.07
Diluted earnings per common share	\$0.55	\$0.34	\$1.58	\$1.05

Reclassifications — Certain amounts in the prior period's financial statements have been reclassified to conform to the current period's presentation.

Impact of Recent Authoritative Accounting Guidance —The Accounting Standards CodificationTM ("ASC") is the Financial Accounting Standards Board's ("FASB") officially recognized source of authoritative GAAP applicable to all public and non-public non-governmental entities. Periodically, the FASB will issue Accounting Standard Updates ("ASU") to its ASC. Rules and interpretive releases of the SEC under the authority of the federal securities laws are also sources of authoritative GAAP for us as an SEC registrant. All other accounting literature is non-authoritative.

In March 2017, FASB issued ASU 2017-08, "Receivables-Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities." The ASU requires entities to amortize the premium on certain purchased callable debt securities to the earliest call date, which more closely aligns the amortization period of premiums and discounts to expectations incorporated in the market prices. Entities will no longer recognize a loss in earnings upon the debtor's exercise of a call on a purchased debt security held at a premium. The ASU does not require any accounting change for debt securities held at a discount; therefore the discount will continue to be amortized as an adjustment of yield over the contractual life of the investment. This ASU is effective for interim and annual reporting periods beginning after December 15, 2018. Early adoption is permitted for all entities. The adoption of ASU No. 2017-08 is not expected to have a material impact on the Company's Consolidated Financial Statements.

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." The ASU significantly changes the impairment model for most financial assets that are measured at amortized cost and certain other instruments from an incurred loss model to an expected loss model. This ASU is effective for interim and annual reporting periods beginning after December 15, 2019. Early adoption is permitted for all entities beginning after December 15, 2018, including interim periods within those fiscal

years. The Company is in the process of identifying required changes to the loan loss estimation models and processes and evaluating the impact of this new guidance. Once adopted, we expect our allowance for loan losses to increase. However, until our evaluation is complete, the magnitude of the increase will be unknown.

In February 2016, the FASB issued ASU 2016-02, "Leases (ASC 842)." The guidance in this ASU requires most leases to be recognized on the balance sheet as a right-of-use asset and a lease liability. It will be critical to identify leases embedded in a contract to avoid misstating the lessee's balance sheet. For income statement purposes, the FASB retained a dual model, requiring leases to be classified as either operating or finance. Classification will be based on criteria that are largely similar to those applied in current lease accounting, but without explicit bright lines. This ASU is effective for interim and annual periods beginning after December 15, 2018. We are currently evaluating the impact of this guidance on our Consolidated Financial Statements and the timing of adoption. The Company will compile an inventory of all leased assets to determine the impact of ASU 2016-02 on its financial condition and results of operations. Once adopted, we expect to report higher assets and liabilities on our Consolidated Balance Sheets as a result of including right-of-use assets and lease liabilities related to certain banking offices and certain equipment under noncancelable operating lease agreements, which currently are not reflected in our Consolidated Balance Sheets. We do not expect the guidance to have a material impact on the Consolidated Statements of Income or the Consolidated Statements of Changes in Shareholders' Equity.

Note 1 — Basis of Presentation – Continued

In August 2015, the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606)", which defers the effective date of Accounting Standard Update ASU No. 2014-09 one year. ASU No. 2014-09 created Topic 606 and supersedes Topic 605, Revenue Recognition. The core principle of Topic 606 is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In general, the new guidance requires companies to use more judgment and make more estimates than under current guidance, including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients, which provides clarifying guidance in certain narrow areas and adds some practical expedients, but does not change the core revenue recognition principle in Topic 606. ASU No. 2015-14 is effective for interim and annual periods beginning after December 15, 2017. For financial reporting purposes, the standard allows for either full retrospective adoption, meaning the standard is applied to all of the periods presented, or modified retrospective adoption, meaning the standard is applied only to the most current period presented in the financial statements with the cumulative effect of initially applying the standard recognized at the date of initial application. The Company adopted this standard on January 1, 2018 using the full retrospective method.

A significant amount of the Company's revenues are derived from net interest income on financial assets and liabilities, which are excluded from the scope of the amended guidance. Revenue streams reported as deposit fees and other service charges, which include transaction based deposit fees, and interchange fees on credit and debit cards, are within the scope of Topic 606. The Company completed its assessment of revenue streams and associated incremental costs of contracts affected by the standard. The Company's adoption of this standard did not change the timing or the amount of revenue recognized in prior periods. However, the presentation of certain costs associated with card processing will now be offset against card processing revenue in non-interest income. The change in presentation resulted in \$1.8 million of expenses for the nine months ended September 30, 2018 being netted against card processing income and reported in non-interest income instead of as payment and card processing expenses in non-interest expense. In addition, to conform to the current period presentation, \$1.6 million of card processing related expenses for the nine months ended September 30, 2017, were reclassified from payment and card processing expense in non-interest expense to being netted against card processing revenue in non-interest income. The Company elected to apply the practical expedient and therefore does not disclose information about remaining performance obligations that have an original expected term of one year or less and allows the Company to expense costs related to obtaining a contract as incurred when the amortization period would have been one year or less.

The following table presents the impact of adopting of the new revenue standard on our Statements of Income for the nine months ended September 30, 2018 and 2017:

The amortized cost and estimated fair value of investment securities that are available-for-sale and held-to-maturity at September 30, 2018, by contractual maturity, are as follows:

	Available-For-Sale Amortized Fair		Held-To- Amortize	•
(Dollars in thousands)	Cost	Value	Cost	Value
Securities maturing in:				
One year or less	\$13,314	\$13,181	\$9,876	\$9,851
After one year through five years	64,991	63,569	37,334	36,900
After five years through ten years	49,367	47,589	14,859	14,360
After ten years	135,101 130,68		5,079	4,939
-	\$262,773	\$255,021	\$67,148	\$66,050

Actual maturities may differ from contractual maturities because issuers may have the right to call obligations with or without penalties and other securities may experience pre-payments.

As of September 30, 2018, the Company held 336 investment securities with fair value less than amortized cost compared to 304 at December 31, 2017. Management evaluated these investment securities and determined that the decline in value is temporary and related to the change in market interest rates since purchase. The decline in value is not related to any company or industry specific event. The Company anticipates full recovery of the amortized cost with respect to these securities at maturity, or sooner in the event of a more favorable market interest rate environment.

Note 2 — Investment Securities – continued

The Company had sales of available-for-sale securities totaling \$500,000 during the nine months ended September 30, 2018, which resulted in a net gain of \$336,000 compared with \$126.2 million during the nine months ended September 30, 2017, which resulted in a net loss of \$486,000. There were no available-for-sale securities in a nonaccrual status at September 30, 2018 or December 31, 2017.

The Company had no sales of held-to-maturity securities during the nine months ended September 30, 2018, compared to \$204,000 during the nine months ended September 30, 2017, which resulted in a net loss of \$13,000. The company had no held-to-maturity securities in a nonaccrual status at September 30, 2018 or December 31, 2017.

Note 3 — Loans and Allowance for Loan Losses

Loans are summarized as follows:

	September 30,	December 31,
(Dollars in thousands)	2018	2017
Loans held for investment:		
Commercial real estate loans:		
Real estate term	\$856,247	\$784,148

Note 3 — Loans and Allowance for Loan Losses – Continued

Non-accrual loans are summarized as follows:

(Dollars in thousands)	September 30, 2018	December 31, 2017
Non-accrual loans, not troubled debt restructured:	2010	2017
Real estate term	\$ 310	\$ -
Construction and land development	98	-
Commercial and industrial	1,455	223
Residential and home equity	-	-
Consumer and other	5	-
Total non-accrual loans, not troubled debt restructured	1,868	223
Troubled debt restructured loans, non-accrual:		
Real estate term	1,495	-
Construction and land development	-	-
Commercial and industrial	169	-
Residential and home equity	-	-
Consumer and other	-	-
Total troubled debt restructured loans, non-accrual	1,664	-
Total non-accrual loans	\$ 3,532	\$ 223

Troubled debt restructured loans are summarized as follows:

	September	December
	30,	31,
(Dollars in thousands)	2018	2017
Accruing troubled debt restructured loans	\$ 2,423	\$ 3,307
Non-accrual troubled debt restructured loans	1,664	-
Total troubled debt restructured loans	\$ 4,087	\$ 3,307

A restructured loan is considered a troubled debt restructured loan ("TDR"), if the Company, for economic or legal reasons related to the debtor's financial difficulties, grants a concession in terms or a below-market interest rate to the debtor that it would not otherwise consider. Each TDR loan is separately negotiated with the borrower and includes terms and conditions that reflect the borrower's prospective ability to service the debt as modified.

Loans totaling \$4.1 million were classified as TDR's during the nine months ended September 30, 2018. No new TDRs occurred during the nine months ended September 30, 2018. In addition, there were no TDRs which incurred a payment default within twelve months of the restructure date during the nine-month periods ended September 30, 2018 and 2017.

Current and past due loans held for investment (accruing and non-accruing) are summarized as follows:

Credit Quality Indicators:

In addition to past due and non-accrual criteria, the Company also analyzes loans using a loan grading system. Performance-based grading follows the Company's definitions of Pass, Special Mention, Substandard and Doubtful, which are consistent with published definitions of regulatory risk classifications.

Definitions of Pass, Special Mention, Substandard, and Doubtful are summarized as follows:

Pass: A Pass asset is higher quality and does not fit any of the other categories described below. The likelihood of loss is considered remote.

Special Mention: A Special Mention asset has potential weaknesses that may be temporary or, if left uncorrected, may result in a loss. While concerns exist, the Company is currently protected and loss is considered unlikely and not imminent.

Substandard: A Substandard asset is inadequately protected by the current sound net worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified have well defined weaknesses and are characterized by the distinct possibility that the Company may sustain some loss if deficiencies are not corrected.

Doubtful: A Doubtful asset has all the weaknesses inherent in a Substandard asset with the added characteristics that the weaknesses make collection or liquidation in full highly questionable.

For Consumer loans, the Company generally assigns internal risk grades similar to those described above based on payment performance.

Outstanding loan balances (accruing and non-accruing) categorized by these credit quality indicators are summarized as follows:

September	30	2018
Schreiner	$\mathcal{I}_{\mathbf{V}}$	2010

Purchased credit-impaired loans and purchased non-credit-impaired loans. Purchased loans, including loans acquired in business combinations, are recorded at their fair value at the acquisition date. Credit discounts are included in the determination of fair value; therefore, an allowance for loan and lease losses is not recorded at the acquisition date. Acquired loans are evaluated upon acquisition and classified as either purchased credit-impaired (PCI) or purchased non-credit-impaired. PCI loans reflect credit deterioration since origination such that it is probable at acquisition that the Company will be unable to collect all contractually required payments. The outstanding contractual unpaid principal balance of PCI loans, excluding acquisition accounting adjustments, was \$9.2 million at September 30, 2018 and \$12.4 million at December 31, 2017. The carrying balance of PCI loans was \$6.2 million at September 30, 2018 and \$8.7 million at December 31, 2017.

The following table presents the changes in the accretable yield for PCI loans for the nine months ended September 30, 2018, and 2017:

	Nine Mor	nths
	Ended	
	Septembe	er 30,
(Dollars in thousands)	2018	2017
Balance, beginning of period	\$8,536	\$573
Accretion to interest income	(2,165)	(38)
Reclassification from non-accretable difference	189	9
Balance, end of period	\$6,560	\$544

As of September 30, 2018 and December 31, 2017, the non-accretable difference between the contractually required payments and cash flows expected to be collected were \$3.0 million and \$3.7 million, respectively.

Loans and Deposits to affiliates — The Company has entered into loan transactions with certain directors, affiliated companies and executive committee members ("affiliates"). Such transactions were made in the ordinary course of business on substantially the same terms and conditions, including interest rates and collateral, as those prevailing at the same time for comparable transactions with other customers, and did not, in the opinion of management, involve more than normal credit risk or present other unfavorable features. Total outstanding loans with affiliates were approximately \$4.3 million and \$3.4 million as of September 30, 2018, and December 31, 2017, respectively. Available lines of credit for loans and credit cards to affiliates were approximately \$1.3 million and \$330,000 as of September 30, 2018, and December 31, 2017, respectively. Deposits from affiliates were \$8.8 million and \$7.1 million as of September 30, 2018 and December 31, 2017, respectively.

Note 4 — Commitments and Contingencies

Litigation contingencies — The Company is involved in various claims, legal actions and complaints which arise in the ordinary course of business. In the Company's opinion, all such matters are adequately covered by insurance, are without merit or are of such kind, or involve such amounts, that unfavorable disposition would not have a material adverse effect on the financial condition or results of operations of the Company.

Commitments to extend credit — In the normal course of business, the Company has outstanding commitments and contingent liabilities, such as commitments to extend credit and unused credit card lines, which are not included in the accompanying consolidated financial statements. The Company's exposure to credit loss in the event of non-performance by other parties to the financial instruments for commitments to extend credit and unused credit card lines is represented by the contractual or notional amount of those instruments. The Company uses the same credit policies in making such commitments as it does for instruments that are included in the consolidated balance sheets.

Contractual amounts of off-balance sheet financial instruments were as follows:

September Dec 30, 31, (Dollars in thousands) 2018 201	
Commitments to extend credit, including unsecured	
commitments of \$17,912 and \$13,625 as of September 30, 2018 and December 31, 2017, respectively \$582,174 \$63	7.029
Stand-by letters of credit and bond commitments, including	7,023
unsecured commitments of \$474 and \$440 as of	
September 30, 2018 and December 31, 2017, respectively 26,013 27	,943
Unused credit card lines, all unsecured 25,096 24	,949

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments to extend credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Company, is based on management's credit evaluation of the customer.

Unused credit card lines are commitments for possible future extensions of credit to existing customers. These lines of credit are uncollateralized and usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Company is committed.

Note 5 — Fair Value

The Company measures and discloses certain assets and liabilities at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (that is, not a forced liquidation or distressed sale). GAAP establishes a consistent framework for measuring fair value and disclosure requirements about fair value measurements. Among other things, the standard requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's estimates for market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 – Quoted prices in active markets for identical instruments. An active market is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available.

Level 2 – Observable inputs other than Level 1 including quoted prices in active markets for similar instruments, quoted prices in less active markets for identical or similar instruments, or other observable inputs that can be corroborated by observable market data.

Level 3 – Unobservable inputs supported by little or no market activity for financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation; also includes observable inputs from non-binding single dealer quotes not corroborated by observable market data. In developing Level 3 measurements, management incorporates whatever market data might be available and uses discounted cash flow models where appropriate. These calculations include projections of future cash flows, including appropriate default and loss assumptions, and market based discount rates.

Note 5 — Fair Value - Continued

The estimated fair value amounts of financial instruments have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required to interpret data to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize at a future date. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts. In addition, reasonable comparability between financial institutions may not be likely due to the wide range of permitted valuation techniques and numerous estimates that must be made given the absence of active secondary markets for many of the financial instruments. This lack of uniform valuation methodologies also introduces a greater degree of subjectivity to these estimated fair values. Transfers between levels of the fair value hierarchy are deemed to occur at the end of the reporting period.

The following methods were used to estimate the fair value of each class of financial instruments:

Cash and cash equivalents: The carrying amount of these items is a reasonable estimate of their fair value.

Securities: The estimated fair values of investment securities are priced using current active market quotes, if available, which are considered Level 1 measurements. For most of the portfolio, matrix pricing based on the securities' relationship to other benchmark quoted prices is used to establish the fair value. These measurements are considered Level 2.

Non-marketable securities: The fair value is based upon the redemption value of the stock, which equates to its carrying value.

Loans Held for Sale: The carrying amount of these items is a reasonable estimate of their fair value.

Loans held for investment: The fair value is estimated by discounting the future cash flows and estimated prepayments using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining term. Some loan types fair value approximated carrying value because of their floating rate or expected maturity characteristics.

Bank-owned life insurance: The fair value of BOLI policies owned is based on the various insurance contracts' cash surrender value.

Deposits: The carrying amount of deposits with no stated maturity, such as savings and checking accounts, is a reasonable estimate of their fair value. The market value of certificates of deposit is based upon the discounted value of contractual cash flows. The discount rate is determined using the rates currently offered on comparable instruments.

Short-term borrowings: Short-term borrowing are overnight advances with the FHLB and their carrying amount is considered a reasonable approximation of their fair value.

The following table presents estimated fair values of the Company's financial instruments as of September 30, 2018 and December 31, 2017:

September 30, 2018 December 31, 2017
Carrying Estimated Carrying Estimated

As of December 31, 2017				
Fair valued on a recurring basis:				
Investment securities available-for-sale	\$ -	\$263,056	\$-	\$263,056
Fair valued on a non-recurring basis:				
Impaired loans	-	-	1,740	1,740

Note 6 — Income Taxes

Income tax expense was \$3.3 million and \$2.7 million for the three months ended September 30, 2018 and 2017, respectively. The Company's effective tax rate for the third quarter of 2018 was 23.9% compared with 30.2% in the third quarter of 2017. The tax rate in the third quarter of 2018 is lower than the same quarter in 2017 due primarily to the reduction in the federal corporate tax rate to a flat rate of 21%, the reduction of the Utah state corporate tax rate to 4.95% as well as tax benefits related to tax-deductible stock compensation expense.

Note 7 — Regulatory Capital Matters

The consolidated Tier 1 Leverage ratio increased to 11.90% as of September 30, 2018 from 11.46% at December 31, 2017. Federal Reserve Board Regulations require maintenance of certain minimum reserve balances based on certain average deposits, which, as of September 30, 2018 and December 31, 2017, were \$16.3 million and \$19.0 million, respectively. The Company's Board of Directors may declare a cash or stock dividend out of retained earnings provided the regulatory minimum capital ratios are met. The Company plans to maintain capital ratios that meet the well-capitalized standards per the regulatory capital ratios.

Note 8 — Incentive Share-Based Plan and Other Employee Benefits

In June 2014, the Board of Directors ("Board") and shareholders of the Company approved a share-based incentive plan ("the Plan"). The Plan provides for various share-based incentive awards including incentive share-based options, non-qualified share-based options, restricted shares, and stock appreciation rights to be granted to officers, directors and other key employees. The maximum aggregate number of shares that may be issued under the Plan is 800,000 common shares. The share-based awards are granted to participants under the Plan at a price not less than the fair value on the date of grant and for terms of up to ten years. The Plan also allows for granting of share-based awards to directors and consultants who are not employees of the Company.

During the nine months ended September 30, 2018, the Company granted options for the purchase of 33,382 common shares, which have a weighted average exercise price of \$32.31 per share and a weighted average fair value as of the date of grant of \$3.58 per share. Additionally, the Company granted 32,128 restricted stock units ("RSU") at a weighted-average fair value of \$31.03 per unit. The options and RSU's generally vest over periods from one to three years. The Company recorded share-based compensation expense of \$683,000 and \$382,000 for the nine months ended September 30, 2018 and 2017, respectively.

Note 9 — Acquisition Related Measurement Period Adjustments

During the nine months ended September 30, 2018, the Company made acquisition related measurement period adjustments of \$335,000. Changes to initially estimated fair values from a business combination are recognized as an adjustment to goodwill over the measurement period, which cannot exceed one year from the acquisition date. The adjustments to goodwill related to changes in the preliminary goodwill recorded for the acquisition of Town & Country Bank and were related to loan valuations.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to provide a more comprehensive review of People's Utah Bancorp's operating results and financial condition than can be obtained from reading the Unaudited Condensed Consolidated Financial Statements alone. The discussion should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements and the notes thereto included in "Part I. Item 1. Financial Statements."

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10–Q may contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements reflect our current views and are not historical facts. These statements can generally be identified by use of phrases such as "believe," "expect," "will," "seek," "should," "anticipate," "estimate," "intend," "plan," "target," "project," "commit" or other words of similar import. Similarly, statements that describe our future financial condition, results of operations, objectives, strategies, plans, goals or future performance and business are also forward-looking statements. Statements that project future financial conditions, results of operations and shareholder value are not guarantees of performance and many of the factors that will determine these results and values are beyond our ability to control or predict. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. These are forward-looking statements and involve known and unknown risks, uncertainties and other factors, including, but not limited to, those described in the "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections in this report and our Annual Report on Form 10-K for the year ended December 31, 2017 ("Form 10-K"), and other parts of this report that could cause our actual results to differ materially from those anticipated in these forward-looking statements. The following is a non-exclusive list of factors which could cause our actual results to differ materially from our forward-looking statements in this prospectus:

- changes in general economic conditions, either nationally or in our local market;
- inflation, interest rates, securities market volatility and monetary fluctuations;
- increases in competitive pressures among financial institutions and businesses offering similar products and services; higher defaults on our loan portfolio than we expect;
 - changes in management's estimate of the adequacy of the allowance for loan losses:
- Tisks associated with our growth and expansion strategy and related costs;
- ability to raise liquidity, either with deposits or other funding sources, to support our growth in assets;
- •risks associated with the integration of current and future acquisitions.
- increased lending risks associated with our high concentration of real estate loans;
- ability to successfully grow our business in Utah and neighboring states;
- legislative or regulatory changes or changes in accounting principles, policies or guidelines;
- risks associated with cyber security.
- technological changes;
- regulatory or judicial proceedings; and
- other factors and risks including those described under "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this report and our Annual Report on Form 10-K for the year ended December 31, 2017.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, expected, projected, intended, committed or believed.

Please take into account that forward-looking statements speak only as of the date of this Form 10-Q. We do not undertake any obligation to release publicly our revisions to such forward-looking statements to reflect events or

circumstances after the date of this Form 10-Q.

Overview

People's Utah Bancorp ("PUB") is the holding company for People's Intermountain Bank. People's Intermountain Bank ("Bank", "PIB") is a full-service community bank providing loans, deposit and cash management services to individuals and businesses. Our primary customers are small to medium sized businesses that require highly personalized commercial banking products and services. People's Intermountain Bank has 26 branch locations in three banking divisions, Bank of American Fork, Lewiston State Bank, and People's Town & Country Bank; a leasing division, GrowthFunding Equipment Finance; and a mortgage division, People's Intermountain Bank Mortgage. The Bank has been serving communities in Utah and southern Idaho for more than 100 years.

Our recent loan growth is the result of mergers and acquisitions as well as organic growth that we believe was generated by our seasoned relationship managers and supporting associates who provide outstanding service and quick responsiveness to our customers. The primary source of funding for our asset growth has been the generation of core deposits, which we raised through acquisitions as well as from our existing branch system.

Our results of operations are largely dependent on net interest income. Net interest income is the difference between interest income we earn on interest earning assets, which are comprised of loans, investment securities and short-term investments and the interest we pay on our interest bearing liabilities, which are primarily deposits, and, to a lesser extent, other borrowings. Management strives to match the re-pricing characteristics of the interest earning assets and interest bearing liabilities to protect net interest income from changes in market interest rates and changes in the shape of the yield curve.

We measure our performance by calculating our net interest margin, return on average assets, and return on average equity. Net interest margin is calculated by dividing net interest income, which is the difference between interest income on interest earning assets and interest expense on interest bearing liabilities, by average interest earning assets. Net interest income is our largest source of revenue. Interest rate fluctuations, as well as changes in the amount and type of earning assets and liabilities, combine to affect net interest income. We also measure our performance by our efficiency ratio, which is calculated by dividing non-interest expense by the sum of net interest income and non-interest income.

Mergers & Acquisitions

Utah Branches from Banner Bank — On October 6, 2017, we completed our acquisition of \$257 million in loans and seven Utah branch locations with \$160 million in low-cost core deposits from Banner Corporation's subsidiary Banner Bank. The Bank paid a deposit premium of \$13.8 million based on average deposits at closing. The seven branch locations in Utah include Salt Lake City, Provo, South Jordan, Woods Cross, Orem, Salem, and Springville. The Woods Cross and Orem branches were consolidated into our existing Bank of American Fork Bountiful and Orem branches, respectively. We are operating these acquired branches under the name of Bank of American Fork, a division of PIB.

Town & Country Bank — On November 13, 2017, we completed the merger of Town & Country Bank located in St. George, Utah, including the acquisition of \$117 million in loans and the assumption of \$124 million in deposits. We consolidated our existing St. George branch and Town & Country's branch into one branch. Under the terms of the merger, each outstanding Town & Country common share converted into the right to receive 0.2917 PUB common shares and \$4.23 per common share in cash, including \$2.0 million of cash held in escrow that is subject to indemnification claims. Town & Country shareholders also received an additional cash distribution of \$1.68 per common share in cash. A total of 466,546 PUB common shares were issued in this transaction. We operate this branch under the name of People's Town & Country Bank, a division of PIB.

Non-GAAP Financial Measures

In addition to financial results presented in accordance with generally accepted accounting principles ("GAAP"), this Management's Discussion & Analysis contains certain non-GAAP financial measures. We have presented these non-GAAP financial measures because we believe that they provide useful and comparative information to assess trends in our core operations and facilitates the comparison of our financial performance with the performance of our peers and the comparative years presented. We have excluded acquisition related costs, net gains and losses on the sale of certain securities, and the write-down of our deferred income tax assets due to the reduction in the Federal corporate income tax rate to derive non-GAAP financial information related to the company's core operations. The Company believes this non-GAAP financial information is useful in understanding the Company's core financial performance.

However, these non-GAAP financial measures are supplemental and are not a substitute for any analysis based on GAAP. Where applicable, we have also presented comparable earnings information using GAAP financial measures. For a reconciliation of these non-GAAP financial measures, see the tables below. Because not all companies use the same calculations, our presentation may not be comparable to other similarly titled non-GAAP measures as calculated by other companies.

(NG) Non-GAAP Financial Measures

In addition to financial results presented in accordance with GAAP, this schedule contains certain non-GAAP financial measures. Management has presented these non-GAAP financial measures because it believes that they provide useful and comparative information to assess trends in core operations and facilitate the comparison of our financial performance with the performance of our peers.
