Item 2.05 Costs Associated with Exit or Disposal Activities.

During the three months ended December 31, 2014 the Company initiated a 2015 cost reduction plan (“the 2015 Plan”), which includes a workforce reduction of 5,000 identified positions, principally in the Western Hemisphere. The Company recognized pre-tax charges of \$58 million associated with the 2015 Plan during the three months ended December 31, 2014 for one-time termination (severance) benefits and other associated costs. Responsive to current market conditions, the Company expects to identify additional positions during the first quarter and record additional pre-tax charges related to severance. The 2015 Plan, which, until this time, was under development, is scheduled to be substantially complete in the first quarter of 2015.

The information in this Item 2.05 consists of forward-looking statements within the meaning of the federal securities laws. These forward-looking statements involve a number of risks, uncertainties and other factors, which may cause the actual results to be materially different from those expressed or implied in the forward-looking statements. Important factors that could cause the statements made in this Item 2.05 to differ include, without limitation, the Company's ability to implement the 2015 Plan, identify additional positions and possible changes in the expected severance charges associated with the 2015 Plan. Other important factors are included under the caption “Forward-Looking Statements” in the Company's Form 10-K, Annual Report for the year ended December 31, 2013 and in subsequent filings. The Company does not intend to revise any particular forward-looking statement in light of future events.
