UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

(Mark One) Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2015

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to

Commission file number 001-36504

Weatherford International public limited company
(Exact Name of Registrant as Specified in Its Charter)

Ireland 98-0606750
(State or Other Jurisdiction of Incorporation or Organization) (IRS Employer Identification No.)

Bahnhofstrasse 1, 6340 Baar, Switzerland CH 6340
(Address of Principal Executive Offices including Zip Code) (Zip Code)

Registrant's Telephone Number, Including Area Code: +41.22.816.1500

N/A

(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

As of July 13, 2015, there were 775,296,080 shares of Weatherford ordinary shares, \$0.001 par value per share, outstanding.

WEATHERFORD INTERNATIONAL PLC AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. General

The accompanying unaudited Condensed Consolidated Financial Statements of Weatherford International plc (the “Company”) are prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) and include all adjustments of a normal recurring nature which, in our opinion, are necessary to present fairly our Condensed Consolidated Balance Sheet at June 30, 2015 and December 31, 2014, Condensed Consolidated Statements of Operations and Condensed Consolidated Statements of Comprehensive Income (Loss) for the three and six months ended June 30, 2015 and 2014, and Condensed Consolidated Statements of Cash Flows for the six months ended June 30, 2015 and 2014. When referring to “Weatherford” and using phrases such as “we,” “us,” and “our,” the intent is to refer to Weatherford International plc, a public limited company organized under the law of Ireland, and its subsidiaries as a whole or on a regional basis, depending on the context in which the statements are made.

Although we believe the disclosures in these financial statements are adequate, certain information relating to our organization and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted in this Form 10-Q pursuant to U.S. Securities and Exchange Commission (“SEC”) rules and regulations. These financial statements should be read in conjunction with the audited Consolidated Financial Statements for the year ended December 31, 2014 included in our Annual Report on Form 10-K. The results of operations for the three and six months ended June 30, 2015 are not necessarily indicative of the results expected for the year ending December 31, 2015.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, the reported amounts of revenues and expenses during the reporting period, and disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates and assumptions, including those related to uncollectible accounts receivable, lower of cost or market of inventories, equity investments, intangible assets and goodwill, property, plant and equipment, income taxes, percentage-of-completion accounting for long-term contracts, self-insurance, foreign currency exchange rates, pension and post-retirement benefit plans, contingencies and share-based compensation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from those estimates.

Change in Reportable Segments

During the first quarter of 2015, we changed our business structure to better align with management’s current view and future growth objectives. This involved separating our Land Drilling Rigs business into a reportable segment resulting in a total of five reportable segments. We have recast prior periods to conform to the current business segment presentation. See “Note 15 – Segment Information” for additional information.

Principles of Consolidation

We consolidate all wholly-owned subsidiaries, controlled joint ventures and variable interest entities where the Company has determined it is the primary beneficiary. Investments in affiliates in which we exercise significant influence over operating and financial policies are accounted for using the equity method. All material intercompany accounts and transactions have been eliminated in consolidation.

Foreign Exchange Related Charges – Devaluation and Other Inflationary Impacts

A new Venezuelan currency exchange system, known as the “Marginal Currency System” (or “SIMADI”), opened for trading February 12, 2015, replacing Venezuela’s Supplementary Foreign Currency Administration System auction rate (“SICAD II”) mechanism. The SIMADI is intended to provide limited access to a free market rate of exchange. In the first quarter of 2015, we began using the SIMADI rate and recognized remeasurement charges of \$26 million and we will continue to monitor the impact on our financial statements of the evolving Venezuela exchange rate. At June 30, 2015 our net monetary asset position denominated in Venezuelan bolivar was approximately \$7 million.

Table of Contents

In the second quarter of 2015, the Angolan kwanza devalued approximately 11% and we recognized foreign exchange related charges of \$16 million. We will continue to monitor the impact on our financial statements of the evolving Angola exchange rate. At June 30, 2015 our net monetary asset position denominated in Angolan kwanza was approximately \$124 million.

2. Business Combinations and Divestitures

Acquisitions

From time to time, we acquire assets and businesses we believe are important to our long-term strategy or dispose of assets and businesses that are no longer a strategic fit within our business. We did not complete any acquisitions or divestitures during the first six months ended June 30, 2015.

In April 2014, we acquired an additional 30% ownership interest in a joint venture in China. We paid \$13 million for the incremental interest, thereby increasing our ownership interest from 45% to 75% and gaining control of the joint venture. As a result of this transaction, we adjusted our previously held equity investment to fair value, recognizing a \$16 million gain, and we applied the consolidation method of accounting, recognizing \$6 million of goodwill and \$30 million of cash.

In May 2012, we acquired a company that designs and produces well completion tools. Our purchase consideration included a contingent consideration arrangement valued at approximately \$3 million at December 31, 2014. At June 30, 2015, the contingent consideration arrangement was valued at approximately \$12 million, and is expected to be settled in 2016.

Divestitures

We completed the sale of our pipeline and specialty services business in September 2014. As of December 31, 2014, we received consideration of \$246 million, (\$245 million, net of cash disposed) and recognized a gain of approximately \$49 million resulting from this transaction.

In early July 2014, we completed the sale of our land drilling and workover rig operations in Russia and Venezuela. As of December 31, 2014, we received cash consideration of \$499 million (\$486 million, net of cash disposed). As a result of our commitment to sell, we recognized a \$143 million long-lived assets impairment loss and a \$121 million goodwill impairment loss. Of the \$121 million goodwill impairment, \$95 million pertained to goodwill attributable to our divested land drilling and workover rig operations in Russia. See "Note 7 – Goodwill" regarding the impact of the 2014 goodwill impairment.

3. Restructuring Charges

In the fourth quarter of 2014, in response to the significant decline in the price of crude oil and our anticipation of a lower level of exploration and production spending in 2015, we initiated a plan to reduce our overall costs and workforce to better align with anticipated activity levels. This cost reduction plan (the "2015 Plan") included a workforce reduction and other cost reduction measures initiated across our geographic regions. In connection with the 2015 Plan, we recognized restructuring charges of \$69 million and \$110 million in the three and six months ended June 30, 2015, respectively. For the three and six months ended June 30, 2015, our restructuring charges include termination (severance) benefits of \$19 million and \$59 million, respectively, and other restructuring charges of \$50 million and \$51 million, respectively. Other restructuring charges for both the three and six months ended June 30, 2015 includes asset write-offs of \$23 million related to Yemen due to the political disruption and \$22 million in other

regions. Other restructuring charges also include exit charges, contract termination costs, relocation and other associated costs.

In the first quarter of 2014, we announced a cost reduction plan (the “2014 Plan”), which included a worldwide workforce reduction and other cost reduction measures. The 2014 Plan resulted in restructuring charges of \$32 million and \$98 million related to termination (severance) benefits in the three and six months ended June 30, 2014, respectively. As of December 31, 2014, we completed our planned headcount reductions and closures of underperforming operating locations in connection with the 2014 Plan.

The following tables present the components of the 2015 Plan and the 2014 Plan restructuring charges by segment for the three and six months ended June 30, 2015 and 2014.

7

Total severance and other restructuring liability	\$79	\$65	\$(104)) \$(3)) \$37

Table of Contents

4. Percentage-of-Completion Contracts

In the three and six months ended June 30, 2015, we recognized estimated project losses of \$69 million and \$27 million, respectively, related to our long-term early production facility construction contract in Iraq accounted for under the percentage-of-completion method. Total estimated losses on these projects were \$406 million at June 30, 2015.

As of June 30, 2015, our percentage-of-completion project estimates include \$137 million of claims revenue and \$21 million of back charges. Our costs in excess of billings as of June 30, 2015 were \$129 million and are included in the “Other Current Assets” line on the balance sheet. We also have a variety of unapproved contract change orders or claims that are not included in our revenues as of June 30, 2015. The amounts associated with these contract change orders or claims are included in revenue only when they can be estimated reliably and their realization is reasonably assured.

In the three and six months ended June 30, 2014, we recognized estimated project losses of \$2 million and \$28 million, respectively. Total estimated losses on these projects were \$335 million at June 30, 2014. As of June 30, 2014, our percentage-of-completion project estimates include \$21 million of claims revenue. No claims revenue was recognized during the three months ended June 30, 2014 and \$28 million of claims revenue was recognized during the six months ended June 30, 2014.

5. Inventories, Net

Inventories, net of reserves, by category were as follows:

(Dollars in millions)	June 30, 2015	December 31, 2014
Raw materials, components and supplies	\$170	\$194
Work in process	102	135
Finished goods	2,649	2,758
	\$2,921	\$3,087

6. Long-lived Asset Impairments

In the second quarter of 2015, the continued weakness in crude oil prices contributed to lower exploration and production spending and a decline in the utilization of our pressure pumping assets. The continued weakness in oil prices and its impact on demand represent a significant adverse change in the business climate and an indication that these long-lived assets may not be recoverable. Based on these impairment indicators, we performed an analysis of our pressure pumping assets and recorded long-lived asset impairment charges of \$124 million to adjust the assets to fair value in our North America Segment. See “Note 9 – Fair Value of Financial Instruments” for additional information regarding the fair value determination.

We prepared an analysis to determine the fair value of our equity investments in less than majority owned entities. Upon completion of this valuation, we determined that the fair value attributable to an equity investment was significantly below its carrying value. We assessed this decline in value as other than temporary and recognized an impairment loss of \$20 million during the second quarter of 2015. See “Note 9 – Fair Value of Financial Instruments” for additional information regarding the fair value determination.

In July 2014, we completed the sale of our rig operations in Russia and Venezuela. We expected the sale would significantly impact the revenues and results of our Russia operations. We considered the associated circumstances and determined that the fair values of our Russia and Latin America rig operations were below their carrying amounts.

As a result of our commitment to sell, we recorded a \$143 million long-lived assets impairment charge.

Table of Contents

7. Goodwill

We perform an impairment test for goodwill and indefinite-lived intangible assets annually as of October 1, or more frequently if indicators of potential impairment exist. Due to the change in our reporting segments (See “Note 15 – Segment Information”), we now report Land Drilling Rigs as a segment. The goodwill associated with the Land Drilling Rigs reporting unit was previously impaired in 2014. We recognized a goodwill impairment loss of \$121 million in 2014 associated with the sale of our land drilling and workover rig operations in Russia and Venezuela.

The changes in the carrying amount of goodwill by reportable segment for the six months ended June 30, 2015 were as follows:

(Dollars in millions)	North America	MENA/ Asia Pacific	Europe/ SSA/ Russia	Latin America	Land Drilling Rigs	Total
Balance at December 31, 2014	\$1,896	\$195	\$623	\$297	\$—	\$3,011
Foreign currency translation adjustments	(55)	(3)	(3)	(5)	—	(66)
Balance at June 30, 2015	\$1,841	\$192	\$620	\$292	\$—	\$2,945

8. Short-term Borrowings and Current Portion of Long-term Debt

(Dollars in millions)	June 30, 2015	December 31, 2014
Commercial paper program	\$198	\$245
Revolving credit agreement	730	—
364-day term loan facility	—	175
Other short-term bank loans	220	257
Total short-term borrowings	1,148	677
Current portion of long-term debt	408	50
Short-term borrowings and current portion of long-term debt	\$1,556	\$727

Revolving Credit Agreement

We maintain a \$2.25 billion unsecured, revolving credit agreement (the “Credit Agreement”). On June 30, 2015, we entered into an amendment to the Credit Agreement to extend the maturity date to July 13, 2017 and to make certain other changes. The Credit Agreement can be used for a combination of borrowings, support for our \$2.25 billion commercial paper program and issuances of letters of credit. This agreement requires that we maintain a debt-to-total capitalization ratio of less than 60%. We were in compliance with this covenant at June 30, 2015. At June 30, 2015, we had \$1.3 billion available under the Credit Agreement, and there were \$16 million in outstanding letters of credit in addition to the commercial paper and borrowings under the revolving credit facility.

364-Day Term Loan Facility

On April 9, 2015, the maturity date, we repaid the remaining balance of \$175 million on our \$400 million, 364-day term loan facility.

Other Short-Term Borrowings and Other Debt Activity

We have short-term borrowings with various domestic and international institutions pursuant to uncommitted credit facilities. At June 30, 2015, we had \$220 million in short-term borrowings under these arrangements, including \$180

million borrowed under a credit agreement entered into in March 2014 that matures on March 20, 2016 (with respect to \$150 million) and June 20, 2016 (with respect to the remaining \$30 million), with a LIBOR-based weighted average interest rate of 1.73% as of June 30, 2015. In addition, we had \$549 million of letters of credit under various uncommitted facilities and \$278 million of surety bonds, primarily performance bonds, issued by financial sureties against an indemnification from us at June 30, 2015.

Table of Contents

The current portion of long-term debt at June 30, 2015 is primarily related to our 5.5% senior notes maturing February 2016 and our capital leases.

In the first three months of 2015, through a series of open market transactions, we repurchased certain of our 4.5% senior notes, 5.95% senior notes, 6.5% senior notes and 6.75% senior notes with a total book value of \$160 million. We recognized a cumulative gain of approximately \$12 million on these transactions. No repurchases were made during the second quarter of 2015.

9. Fair Value of Financial Instruments, Assets and Equity Investments

Financial Instruments Measured and Recognized at Fair Value

We estimate fair value at a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market for the asset or liability. Other than the derivative instruments discussed in “Note 10 – Derivative Instruments,” we had no other material assets or liabilities measured and recognized at fair value on a recurring basis at June 30, 2015 and December 31, 2014.

Fair Value of Other Financial Instruments

Our other financial instruments include short-term borrowings and long-term debt. The carrying value of our commercial paper and other short-term borrowings approximates their fair value due to the short-term duration of the associated interest rate periods. These short-term borrowings are classified as Level 2 in the fair value hierarchy.

The fair value of our long-term debt fluctuates with changes in applicable interest rates among other factors. Fair value will exceed carrying value when the current market interest rate is lower than the interest rate at which the debt was originally issued. The fair value of our long-term debt is classified as Level 2 in the fair value hierarchy and is established based on observable inputs in less active markets.

The fair value and carrying value of our senior notes were as follows:

(Dollars in millions)	June 30, 2015	December 31, 2014
Fair value	\$6,642	\$6,733
Carrying value	6,497	6,660

Non-recurring Fair Value Measurements

During the second quarter of 2015, long-lived pressure pumping assets and an equity investment were impaired and written down to their estimated fair values. The level 3 fair value of the long-lived assets was determined using a combination of the cost approach and the market approach, which used inputs that included replacement costs (unobservable), physical deterioration estimates (unobservable), and market sales data for comparable assets. The equity investment level 3 fair value was determined using an income based approach utilizing estimates of future cash flow, discount rate, long-term growth rate, and marketability discount, all of which were unobservable.

During the second quarter of 2014, long-lived assets in the rig operations in Russia and Venezuela and goodwill for the Russia reporting unit were impaired and written down to their estimated fair values. The level 3 fair value of the long-lived assets in the rig operations was determined using the market approach that considered the estimated sales price of those businesses. The goodwill level 3 fair value was determined using a combination of the income and market approaches with observable inputs that consisted of earnings multiples and unobservable inputs that included

estimates of future cash flows, discount rate, long-term growth rate, and control premiums.

Table of Contents

10. Derivative Instruments

We are exposed to market risk from changes in foreign currency and changes in interest rates. From time to time, we may enter into derivative financial instrument transactions to manage or reduce our market risk. We manage our debt portfolio to achieve an overall desired position of fixed and floating rates, and we may employ interest rate swaps as a tool to achieve that goal. The major risks from interest rate derivatives include changes in the interest rates affecting the fair value of such instruments, potential increases in interest expense due to market increases in floating interest rates and the creditworthiness of the counterparties in such transactions. In light of events in the global credit markets and the potential impact of these events on the liquidity of the banking industry, we continue to monitor the creditworthiness of our counterparties, which are multinational commercial banks. The fair values of all our outstanding derivative instruments are determined using a model with Level 2 inputs including quoted market prices for contracts with similar terms and maturity dates. Level 2 values for financial assets and liabilities are based on quoted prices in inactive markets, or whose values are based on models using observable inputs other than quoted prices. Level 2 inputs to those models are observable either directly or indirectly for substantially the full term of the asset or liability.

Fair Value Hedges

We may use interest rate swaps to help mitigate exposures related to changes in the fair values of the associated debt. Amounts paid or received upon termination of interest rate swaps accounted for as fair value hedges represent the fair value of the agreements at the time of termination and are amortized as a reduction, in the case of gains, or as an increase, in the case of losses, of interest expense over the remaining term of the debt. As of June 30, 2015, we had net unamortized gains of \$28 million associated with interest rate swap terminations. These gains are being amortized over the remaining term of the originally hedged debt as a reduction in interest expense.

Other Derivative Instruments

We enter into foreign currency forward contracts and cross-currency swap contracts to hedge our exposure to fluctuations in various foreign currencies. At June 30, 2015 and December 31, 2014, we had outstanding foreign currency forward contracts with notional amounts aggregating \$1.4 billion and \$1.6 billion, respectively. The notional amounts of our foreign currency forward contracts do not generally represent amounts exchanged by the parties and thus are not a measure of the cash requirements related to these contracts or of any possible loss exposure. The amounts actually exchanged at maturity are calculated by reference to the notional amounts and by other terms of the derivative contracts, such as exchange rates.

At December 31, 2014, to hedge our exposure to the Canadian dollar, we held cross-currency swaps between the U.S. dollar and the Canadian dollar with a notional amount of \$168 million. We settled the cross-currency swap arrangements in the three months ended March 31, 2015 after recognizing a mark-to-market gain of \$13 million in the first quarter of 2015. We collected \$8 million in proceeds upon settlement.

Our foreign currency forward contracts and cross-currency swaps were not designated as hedges, and the changes in fair value of the contracts are recorded each period in current earnings in the line captioned "Other, Net" on the accompanying Condensed Consolidated Statements of Operations.

The total estimated fair values of these foreign currency forward contracts and amounts receivable or owed associated with closed foreign currency contracts and the total estimated fair values of our cross-currency contracts are as follows:

(Dollars in millions)	June 30, 2015	Classification
-----------------------	---------------	----------------

Edgar Filing: Weatherford International plc - Form 10-Q

		December 31, 2014	
Derivative assets not designated as hedges:			
Foreign currency forward contracts	\$ 10	\$ 12	Other Current Assets
Derivative liabilities not designated as hedges:			
Foreign currency forward contracts	(11) (17) Other Current Liabilities
Cross-currency swap contracts	—	(5) Other Liabilities

Table of Contents

The effect of derivative instruments designated as fair value hedges and those not designated as hedges on the Condensed Consolidated Statements of Operations was as follows:

(Dollars in millions)	Gain (Loss) Recognized in Income				Classification
	Three Months Ended June 30,		Six Months Ended June 30,		
	2015	2014	2015	2014	
Interest rate swaps	\$3	\$2	\$5	\$4	Interest Expense, Net
Derivatives not designated as hedges:					
Foreign currency forward contracts	10	4	(56) (7) Other, Net
Cross-currency swap contracts	—	(8) 13	1	Other, Net

11. Income Taxes

We estimate our annual effective tax rate based on year-to-date operating results and our forecast of operating results for the remainder of the year, by jurisdiction, and apply this rate to the year-to-date operating results. If our actual results, by jurisdiction, differ from the forecasted operating results, our effective tax rate can change, affecting the tax expense for both successive interim results as well as the annual tax results. For both the three and six months ended June 30, 2015, we had a \$132 million tax benefit on a loss before income taxes of \$615 million and \$722 million, respectively. Our results for the three months ended June 30, 2015 includes \$112 million of litigation settlements, \$69 million of project losses, \$16 million of devaluation of the Angolan kwanza currency, \$20 million of equity investment impairment and \$69 million of restructuring charges with no significant tax benefit. Our results for the six months ended June 30, 2015 includes \$112 million of litigation settlements, \$27 million of project losses, \$42 million of currency devaluation, \$20 million of equity investment impairment and \$110 million of restructuring charges with no significant tax benefit.

We are continuously under tax examination in various jurisdictions. We cannot predict the timing or outcome regarding resolution of these tax examinations or if they will have a material impact on our financial statements. We continue to anticipate a possible reduction in the balance of uncertain tax positions by approximately \$19 million in the next twelve months due to expiration of statutes of limitations, settlements and/or conclusions of tax examinations.

For the three and six months ended June 30, 2014, we had a tax provision of \$11 million and \$38 million on a loss before income taxes of \$122 million and \$127 million, respectively. Our results for the three and six months ended June 30, 2014 include a \$143 million impairment loss (\$121 million, net of tax) to record the land drilling and workover rig operations in Russia and Venezuela at fair value. We also recorded a \$125 million non-cash impairment charge to goodwill based on our analysis triggered by the planned sale of our land drilling and workover rig operations in Russia and Venezuela, which was non-deductible for income tax purposes. Our results for the six months ended June 30, 2014 were also impacted by discrete income before tax items, including restructuring charges and project losses of approximately \$177 million, with no significant tax benefit.

Table of Contents

12. Shareholders' Equity

The following summarizes our shareholders' equity activity for the six months ended June 30, 2015 and 2014:

(Dollars in millions)	Par Value of Issued Shares	Capital In Excess of Par Value	Retained Earnings	Accumulated Other Comprehensive Income (Loss)	Treasury Shares	Non-controlling Interests	Total Shareholders' Equity
Balance at December 31, 2013	\$775	\$4,600	\$3,011	\$(187)	\$(37)	\$ 41	\$8,203
Net Income (Loss)	—	—	(186)	—	—	21	(165)
Other Comprehensive Loss	—	—	—	(36)	—	—	(36)
Consolidation of Joint Venture	—	—	—	—	—	26	26
Dividends Paid to Noncontrolling Interests	—	—	—	—	—	(15)	(15)
Change in Common Shares, Treasury Shares and Paid in Capital Associated with Redomestication	(778)	750	—	—	39	—	11
Equity Awards Granted, Vested and Exercised	4	24	—	—	(2)	—	26
Balance at June 30, 2014	\$1	\$5,374	\$2,825	\$(223)	\$—	\$ 73	\$8,050
Balance at December 31, 2014	\$1	\$5,411	\$2,427	\$(881)	\$—	\$ 75	\$7,033
Net Income (Loss)	—	—	(607)	—	—	17	(590)
Other Comprehensive Loss	—	—	—	(209)	—	—	(209)

Balance at June 30, 2015	\$1	\$5,441	\$1,820	\$(1,090)	\$—	\$ 75	\$6,247

The following table presents the changes in our accumulated other comprehensive income (loss) by component for the six months ended June 30, 2015 and 2014:

(Dollars in millions)	Currency Translation Adjustment	Defined Benefit Pension	Deferred Loss on Derivatives	Total
Balance at December 31, 2013	\$(140)	\$(38)	\$(9)	\$(187)
Other comprehensive loss	(36)	—	—	(36)
Balance at June 30, 2014	\$(176)	\$(38)	\$(9)	\$(223)
Balance at December 31, 2014	\$(813)	\$(57)	\$(11)	\$(881)
	(230)	20	—	(210)

Other comprehensive income (loss) before reclassifications

Reclassifications	—	1	—	1
Net activity	(230) 21	—	(209)
Balance at June 30, 2015	\$(1,043) \$(36) \$(11) \$(1,090)

The other comprehensive income before reclassifications from the defined benefit pension component of other comprehensive income relates to the conversion of one of our international pension plans from a defined benefit plan to a defined contribution plan.

Table of Contents

13. Earnings per Share

Basic earnings per share for all periods presented equals net income divided by the weighted average number of our shares outstanding during the period including participating securities. Diluted earnings per share is computed by dividing net income by the weighted average number of our shares outstanding during the period including participating securities, adjusted for the dilutive effect of our stock options, restricted shares and performance units.

The following discloses basic and diluted weighted average shares outstanding:

(Shares in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Basic and diluted weighted average shares outstanding	778	777	778	776

Our basic and diluted weighted average shares outstanding for the periods presented are equivalent due to the net loss attributable to shareholders. Diluted weighted average shares outstanding for the three and six months ended June 30, 2015 and 2014 exclude potential shares for stock options, restricted shares and performance units outstanding as we have net losses for that period and their inclusion would be anti-dilutive.

The following table discloses the number of anti-dilutive shares excluded:

(Shares in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Anti-dilutive potential shares due to net loss	3	5	3	5

14. Share-Based Compensation

We recognized the following employee share-based compensation expense during the three and six months ended June 30, 2015 and 2014:

(Dollars in millions)	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Share-based compensation	\$19	\$16	\$34	\$31
Related tax benefit	4	3	7	6

During the six months ended June 30, 2015, we granted approximately 1.6 million performance units, which will vest with continued employment, if the Company meets certain market-based performance goals. The performance units have a weighted average grant date fair value of \$10.45 per share based on the Monte Carlo simulation method. The assumptions used in the Monte Carlo simulation included a risk-free rate of 0.51%, volatility of 46.1% and a zero dividend yield. As of June 30, 2015, there was \$20 million of unrecognized compensation related to our performance units. This cost is expected to be recognized over a weighted average period of 2 years.

During the six months ended June 30, 2015, we also granted 6.3 million restricted shares at a weighted average grant date fair value of \$12.90 per share. As of June 30, 2015, there was \$120 million of unrecognized compensation related to our unvested restricted share grants. This cost is expected to be recognized over a weighted average period of 2 years.

Table of Contents

15. Segment Information

In the first quarter of 2015, we changed our business structure to better align with management's current view and future growth objectives. This involved separating our Land Drilling Rigs business into a reportable segment resulting in a total of five reportable segments which are North America, MENA/Asia Pacific, Europe/SSA/Russia, Latin America and Land Drilling Rigs. The operational performance of our segments is reviewed and managed primarily on a geographic basis, and we report the regional segments as separate, distinct reporting segments. In addition, the operations we intend to divest, in the case of our Land Drilling Rigs business, is reviewed and managed apart from our regional segments. Our corporate and other expenses that do not individually meet the criteria for segment reporting continue to be reported separately as Corporate and Research and Development. Each business reflects a reportable segment led by separate business segment management that reports directly or indirectly to our chief operating decision maker ("CODM"). Our CODM assesses performance and allocates resources on the basis of the five reportable segments. We have revised our business segment reporting to reflect our current management approach and recast prior periods to conform to the current business segment presentation.

Financial information by segment is summarized below. Revenues are attributable to countries based on the ultimate destination of the sale of products or performance of services. The accounting policies of the segments are the same as those described in the summary of significant accounting policies as presented in our Form 10-K.

(Dollars in millions)	Three Months Ended June 30, 2015		
	Net Operating Revenues	Income from Operations	Depreciation and Amortization
North America	\$808	\$(92)) \$97
MENA/Asia Pacific	516	(17)) 66
Europe/SSA/Russia	418	65	53
Latin America	463	76	62
Subtotal	2,205	32	278
Land Drilling Rigs	185	4	27
	2,390	36	305
Corporate and Research and Development		(105)) 6
Long-Lived Assets Impairment and Other Related Charges ^(a)		(181))
Equity Investment Impairment		(20))
Restructuring Charges ^(b)		(69))
Litigation Charges		(112))
Loss on Sale of Businesses, Net		(5))
Other Items ^(c)		(8))
Total	\$2,390	\$(464)) \$311

For the three months ended June 30, 2015 includes asset impairment charges of \$124 million, pressure pumping (a)business related charges of \$37 million and supply agreement charges related to a non-core business divestiture of \$20 million.

For the three months ended June 30, 2015, we recognized restructuring charges of \$69 million: \$21 million in (b)North America, \$29 million in MENA/Asia Pacific, \$14 million in Europe/SSA/Russia, \$4 million in Latin America, and \$1 million in Land Drilling Rigs.

The three months ended June 30, 2015 includes professional fees of \$3 million related to the divestiture of (c)non-core businesses, facility closure fees of \$3 million, restatement related litigation, post-settlement monitor and auditor expenses and other charges of \$2 million.

Certain leased equipment of our Land Drilling Rigs and North America pressure pumping business includes contractual residual value guarantees at June 30, 2015. We maintain a liability of \$80 million related to these guarantees, of which \$46 million is recorded as “Other Current Liabilities” and \$34 million as “Other Non-Current Liabilities” on our Condensed Consolidated Balance Sheets. Certain of our supply agreements contain minimum purchase commitments and we maintain a liability at June 30, 2015, of \$63 million, of which \$50 million is recorded as “Other Current Liabilities” and \$13 million as “Other Non-Current Liabilities” on our Condensed Consolidated Balance Sheets.

Table of Contents

(Dollars in millions)	Three Months Ended June 30, 2014		
	Net Operating Revenues	Income from Operations	Depreciation and Amortization
North America	\$1,659	\$244	\$107

Goodwill Impairment		(125))
Restructuring Charges ^(d)		(129))
Other Items ^(e)		(44))
Total	\$7,307	\$155	\$706

For the six months ended June 30, 2014, we recognized restructuring charges of \$129 million: \$28 million in North (d) America, \$17 million in MENA/Asia Pacific, \$27 million in Europe/SSA/Russia, \$23 million in Latin America, \$4 million in Land Drilling Rigs and \$30 million in Corporate and Research and Development.

(e) The six months ended June 30, 2014 included professional fees of \$40 million related to the divestiture of our non-core businesses, restatement related litigation, the settlement of the U.S. government investigations, the remediation of our material weakness related to income taxes and our recently completed redomestication from Switzerland to Ireland and other charges of \$4 million.

16. Disputes, Litigation and Contingencies

Shareholder Litigation

In 2010, three shareholder derivative actions were filed, purportedly on behalf of the Company, asserting breach of duty and other claims against certain current and former officers and directors of the Company related to the United Nations oil-for-food program governing sales of goods into Iraq, the FCPA and trade sanctions related to the U.S. government investigations disclosed above and in our U.S. Securities and Exchange Commission (the "SEC") filings since 2007. Those shareholder derivative cases, captioned Neff v. Brady, et al., No. 201040764, Rosner v. Brady, et al., No. 201047343, and Hess v. Duroc-Danner, et al., No. 201040765, were filed in Harris County, Texas state court and consolidated (collectively referred to as the "Neff Case"). In 2014, one of the three cases, Hess v. Duroc-Danner, et al., No. 201040765, was voluntarily dismissed from the Neff Case. Other shareholder demand letters covering the same subject matter were received by the Company in early 2014, and a fourth shareholder derivative action was filed, purportedly on behalf of the Company, also asserting breach of duty and other claims against certain current and former officers and directors of the Company related to the same subject matter as the Neff Case. That case, captioned Erste-Sparinvest KAG v. Duroc-Danner, et al., No. 201420933 (Harris County, Texas) was consolidated into the Neff Case in September 2014. A motion to dismiss was granted May 15, 2015 and an appeal was filed on June 15, 2015.

We cannot reliably predict the outcome of these cases including the amount of any possible loss. If one or more negative outcomes were to occur relative to these cases, the aggregate impact to our financial condition could be material.

In March 2012, a purported securities class action captioned *Freedman v. Weatherford International Ltd., et al.*, No. 1:12-cv-02121-LAK (SDNY) was filed in the Southern District of New York against us and certain current and former officers. That case alleges violation of the federal securities laws related to the restatement of our historical financial statements announced on February 21, 2012, and later added claims related to the announcement of a subsequent restatement on July 24, 2012. In the three months ended December 31, 2014, we advanced settlement negotiations such that settlement was deemed probable, and we maintained an accrual of the estimated probable loss. As a result of ongoing negotiations in the second quarter of 2015, a settlement agreement was reached on June 30, 2015, subject to notice to the class, approval by the U.S. District Court for the Southern District of New York and other conditions. The settlement agreement requires payments totaling \$120 million in exchange for the dismissal with prejudice of the litigation and the unconditional release of all claims, of which \$95 million was accrued during the second quarter of 2015.

Table of Contents

In March 2011, a shareholder derivative action, *Iron Workers Mid-South Pension Fund v. Duroc-Danner, et al.*, No. 201119822, was filed in Harris County, Texas, civil court purportedly on behalf of the Company against certain current and former officers and directors, alleging breaches of duty related to the material weakness and restatement announcements. In February 2012, a second substantially similar shareholder derivative action, *Wandel v. Duroc-Danner, et al.*, No. 1:12-cv-01305-LAK (SDNY), was filed in federal court in the Southern District of New York. In June 2014, the parties signed a term sheet resolving the action for an agreed upon set of revised corporate procedures, no monetary payment by the defendants, and an award of attorneys' fees for the plaintiff's counsel. In March 2015, the court approved notice to the class of the proposed settlement and set the final hearing for June 24, 2015. On June 24, 2015, the court approved the settlement. We maintain an immaterial accrual for the attorney's fees included in the settlement, which was subsequently paid in July 2015.

In March 2011, a purported shareholder class action captioned *Dobina v. Weatherford International Ltd., et al.*, No. 1:11-cv-01646-LAK (SDNY), was filed in the U.S. District Court for the Southern District of New York, following our announcement on March 1, 2011 of a material weakness in our internal controls over financial reporting for income taxes, and restatement of our historical financial statements (the "2011 Class Action"). The lawsuit alleged violation of the federal securities laws by us and certain current and former officers. During the three months ended December 31, 2013, we entered into negotiations to settle the 2011 Class Action. As a result of these negotiations, settlement became probable and a settlement agreement was signed on January 29, 2014. The settlement was approved by the U.S. District Court for the Southern District of New York on January 5, 2015, and final judgment entered on January 30, 2015. The settlement agreement required payments totaling \$53 million which was entirely funded by our insurers.

U.S. Government and Internal Investigations

On January 17, 2014, the U.S. District Court for the Southern District of Texas approved the settlement agreements between us and certain of our subsidiaries and the U.S. Department of Justice ("DOJ"). On November 26, 2013, we announced that we and our subsidiaries also entered into settlement agreements with the U.S. Departments of Treasury and Commerce and with the SEC, which the U.S. District Court for the Southern District of Texas entered on December 20, 2013. These agreements collectively resolved investigations of prior alleged violations by us and certain of our subsidiaries relating to certain trade sanctions laws, participation in the United Nations oil-for-food program governing sales of goods into Iraq and non-compliance with FCPA matters.

The \$253 million payable by us and our subsidiaries was paid in January and February 2014 pursuant to the terms of the settlement agreements. These agreements include a requirement to retain, for a period of at least 18 months, an independent monitor responsible for assessing our compliance with the terms of the agreement so as to address and reduce the risk of recurrence of alleged misconduct, after which we would continue to evaluate our own compliance program and make periodic reports to the DOJ and SEC and maintain agreed compliance monitoring and reporting systems. In April 2014, the independent monitor was retained and the compliance assessment period began. These agreements also require us to retain an independent third party to retroactively audit our compliance with U.S. export control laws during the years 2012, 2013 and 2014. This audit is on-going.

The SEC and DOJ are also investigating the circumstances surrounding the material weakness in our internal controls over financial reporting for income taxes that was disclosed in a notification of late filing on Form 12b-25 filed on March 1, 2011 and in current reports on Form 8-K filed on February 21, 2012 and on July 24, 2012 and the subsequent restatements of our historical financial statements. We are cooperating fully with these investigations. We are unable to predict the outcome of these matters due to the inherent uncertainties presented by such investigations, and we are unable to predict potential outcomes or estimate the range of potential loss contingencies, if any. The

government, generally, has a broad range of civil and criminal penalties available for these types of matters under applicable law and regulation, including injunctive relief, fines, penalties and modifications to business practices, some of which, if imposed on us, could be material to our business, financial condition or results of operations.

Additionally, we are aware of various disputes and potential claims and are a party in various litigation involving claims against us, some of which are covered by insurance. For claims, disputes and pending litigation in which we believe a negative outcome is probable and a loss can be reasonably estimated, we have recorded a liability for the expected loss. These liabilities are immaterial to our financial condition and results of operations. In addition we have certain claims, disputes and pending litigation which we do not believe a negative outcome is probable or for which we can only estimate a range of liability. It is possible, however, that an unexpected judgment could be rendered against us, or we could decide to resolve a case or cases, that would result in liability that could be uninsured and beyond the amounts we currently have reserved and in some cases those losses could be material. If one or more negative outcomes were to occur relative to these matters, the aggregate impact to our financial condition could be material.

Table of Contents

17. New Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (“FASB”) issued new guidance that requires inventory not measured using either the last in, first out (LIFO) or the retail inventory method to be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable cost of completion, disposal, and transportation. The new standard will be effective January 1, 2017 and will be applied prospectively. Early adoption is permitted. We are evaluating the impact that this new guidance will have on our Consolidated Financial Statements and related Note disclosures.

In April 2015, the FASB issued new guidance related to accounting for fees paid in a cloud computing arrangement. The new standard provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. We are evaluating the impact, if any, of adopting this new accounting guidance on our Consolidated Financial Statements and related Note disclosures.

In April 2015, the FASB issued new guidance related to presentation of debt issue costs. The new standard requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. We are currently evaluating the impact this guidance will have on our Consolidated Financial Statements and related Note disclosures.

In February 2015, the FASB issued new guidance related to consolidations. The new standard amends the guidelines for determining whether certain legal entities should be consolidated and reduces the number of consolidation models. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted. We are currently evaluating the impact this guidance will have on our Consolidated Financial Statements and related Note disclosures.

In May 2014, the FASB issued new guidance intended to change the criteria for recognition of revenue. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective beginning with the first quarter of 2017 and early adoption is not permitted. In April 2015, the FASB proposed a one year deferral of the effective date of the new revenue standard for public and non-public entities reporting under U.S. GAAP and on July 9, 2015, the FASB approved the one year deferral. The effective date of the amended standard will begin in the first quarter of 2018 and the FASB plans to submit its amendment to defer the effective date by the end of the third quarter 2015. We are currently evaluating the impact the adoption of this guidance would have on our Consolidated Financial Statements and related Note disclosures.

18. Condensed Consolidating Financial Statements

Weatherford International plc (“Weatherford Ireland”), a public limited company organized under the laws of Ireland, a Swiss tax resident, and the ultimate parent of the Weatherford group, guarantees the obligations of our subsidiaries – Weatherford International Ltd., a Bermuda exempted company (“Weatherford Bermuda”), and Weatherford International, LLC, a Delaware limited liability company (“Weatherford Delaware”), including the notes and credit facilities listed below.

The following obligations of Weatherford Delaware were guaranteed by Weatherford Bermuda at June 30, 2015 and December 31, 2014: (1) 6.35% senior notes and (2) 6.80% senior notes.

The following obligations of Weatherford Bermuda were guaranteed by Weatherford Delaware at June 30, 2015 and December 31, 2014: (1) revolving credit facility, (2) 5.50% senior notes, (3) 6.50% senior notes, (4) 6.00% senior notes, (5) 7.00% senior notes, (6) 9.625% senior notes, (7) 9.875% senior notes, (8) 5.125% senior notes, (9) 6.75% senior notes, (10) 4.50% senior notes and (11) 5.95% senior notes. At December 31, 2014, we had a 364-day term loan facility which was an obligation of Weatherford Bermuda guaranteed by Weatherford Delaware.

As a result of certain of these guarantee arrangements, we are required to present the following condensed consolidating financial information. The accompanying guarantor financial information is presented on the equity method of accounting for all periods presented. Under this method, investments in subsidiaries are recorded at cost and adjusted for our share in the subsidiaries’ cumulative results of operations, capital contributions and distributions and other changes in equity. Elimination entries relate primarily to the elimination of investments in subsidiaries and associated intercompany balances and transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

As used herein, the "Company," "we," "us" and "our" refer to Weatherford International plc ("Weatherford Ireland"), a public limited company organized under the laws of Ireland, and its subsidiaries on a consolidated basis, or for periods prior to June 17, 2014, to our predecessor, Weatherford International Ltd. ("Weatherford Switzerland"), a Swiss joint-stock corporation and its subsidiaries on a consolidated basis.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with the Condensed Consolidated Financial Statements and Notes included with this report and our Consolidated Financial Statements, Notes and related MD&A for the year ended December 31, 2014 included in our Annual Report on Form 10-K. Our discussion includes various forward-looking statements about our markets, the demand for our products and services and our future results. These statements are based on certain assumptions we consider reasonable. For information about these assumptions, please review the section entitled "Forward-Looking Statements" and the section entitled "Item 1A. - Risk Factors."

Overview

Change in Reportable Segments

In the first quarter of 2015, we changed our business structure to better align with management's current view and future growth objectives. This involved separating our Land Drilling Rigs business into a reportable segment resulting in a total of five reportable segments which are North America, MENA/Asia Pacific, Europe/SSA/Russia, Latin America and Land Drilling Rigs. We have recast prior periods to conform to the current business segment presentation. See "Note 15 – Segment Information" for additional information.

General

We conduct operations in over 100 countries and have service and sales locations in nearly all of the oil and natural gas producing regions in the world. Our operational performance is reviewed on a geographic basis, and we report the following regions as separate, distinct reporting segments mentioned previously.

We principally provide equipment and services to the oil and natural gas exploration and production industry, both on land and offshore, through our product service line groups: (1) Formation Evaluation and Well Construction, (2) Completion and Production, and (3) Land Drilling Rigs, which together comprise a total of 14 service lines.

Formation Evaluation and Well Construction service lines include Managed-Pressure Drilling, Drilling Services, Tubular Running Services, Drilling Tools, Wireline Services, Testing and Production Services, Re-entry and Fishing, Cementing, Liner Systems, Integrated Laboratory Services and Surface Logging.

Completion and Production service lines include Artificial Lift Systems, Stimulation and Completion Systems.

Land Drilling Rigs encompasses our land drilling rigs business, including the products and services ancillary thereto.

We may sell our products and services separately or may bundle them together to provide integrated solutions, up to and including integrated well construction where we are responsible for the entire process of drilling, constructing and completing a well. Our customers include both exploration and production companies and other oilfield service companies. Depending on the service line, customer and location, our contracts vary in their terms, provisions and indemnities. We earn revenues under our contracts when products and services are delivered. Typically, we provide products and services at a well site where our personnel and equipment may be located together with personnel and equipment of our customer and third parties, such as other service providers. Our services are usually short-term in

nature, day-rate based, and cancellable should our customer wish to alter the scope of work. Consequently, our backlog of firm orders is not material to the Company.

Table of Contents

Divestitures

Throughout 2014, we successfully sold several of our non-core businesses and investments. We received cash proceeds totaling over \$1.7 billion from these dispositions and used \$1.2 billion of the proceeds to reduce debt. For the year ended December 31, 2014, we recognized a gain on these dispositions of \$349 million.

Long-lived Asset Impairments and Other Related Charges

In the second quarter of 2015, the continued weakness in crude oil prices contributed to lower exploration and production spending and a decline in the utilization of our pressure pumping assets. Based on these impairment indicators, we performed an analysis of our pressure pumping business and recorded charges of \$161 million, including long-lived impairment charges of \$124 million to adjust the assets to fair value in our North America segment and \$37 million of other pressure pumping business related charges. In the three and six months ended June 30, 2015, we also incurred supply agreement charges of \$20 million and \$30 million, respectively, related to the divestiture of a non-core business. In connection with our long-lived asset impairment in the second quarter of 2015, we prepared an analysis to determine the fair value of our equity investments in less than majority owned entities. We assessed these declines in value as other than temporary and recognized an impairment loss of \$20 million during the second quarter of 2015. In July 2014, we completed the sale of our rig operations in Russia and Venezuela. As a result of our commitment to sell, we recorded a \$143 million long-lived assets impairment charge. See “Note 6 – Long-Lived Asset Impairments” for additional information.

Litigation Settlement

In March 2012, a purported securities class action captioned *Freedman v. Weatherford International Ltd., et al.*, was filed in the Southern District of New York against us and certain current and former officers. As a result of ongoing negotiations, a settlement agreement was reached on June 30, 2015, subject to notice to the class, approval by the U.S. District Court for the Southern District of New York and other conditions. The settlement agreement requires payments totaling \$120 million in exchange for the dismissal with prejudice of the litigation and the unconditional release of all claims. See “Note 16 – Disputes, Litigation and Contingencies” for additional information.

Industry Trends

The level of spending in the energy industry is heavily influenced by changes in the current and expected future prices of oil and natural gas. Changes in expenditures result in an increased or decreased demand for our products and services. Rig count is an indicator of the level of spending for the exploration for and production of oil and natural gas reserves. The following chart sets forth certain statistics that reflect historical market conditions:

	WTI Oil (a)	Henry Hub Gas (b)	North American Rig Count (c)	International Rig Count (c)
June 30, 2015	\$59.47	\$2.84	995	1,169
December 31, 2014	53.27	2.90	2,294	1,315
June 30, 2014	105.37	4.44	2,061	1,348

(a) Price per barrel of West Texas Intermediate (“WTI”) crude oil of the date indicated at Cushing, Oklahoma – Source: Thomson Reuters

(b) Price per MM/BTU as of the date indicated at Henry Hub Louisiana – Source: Thomson Reuters

(c) Average rig count for the period indicated – Source: Baker Hughes Rig Count

During the first six months of 2015, oil prices ranged from a high of \$61.82 per barrel in mid-June to a low of \$44.45 per barrel in late January. Natural gas ranged from a high of \$3.21 MM/BTU in mid January to a low of \$2.51 MM/BTU in mid-April. Factors influencing oil and natural gas prices during the period include hydrocarbon inventory levels, realized and expected global economic growth, realized and expected levels of hydrocarbon demand, level of production capacity within the Organization of Petroleum Exporting Countries (“OPEC”), weather and geopolitical uncertainty.

Outlook

We entered into 2015 challenged by the recent steep decline in oil prices. This decline has materially reduced capital spending by our customers and reduced our revenue, both through lower activity levels and pricing. Our response to this environment will be to continue to focus on developing our core businesses while reducing cost and improving cash flow. In the fourth quarter of 2014, responsive to these changing market conditions, we commenced a reduction in force exercise initially targeting 8,000 positions, and in the first quarter we increased the target by 2,000 to a total of 10,000 positions. We have completed approximately 97% of the reduction in force target of 10,000 positions as of June 30, 2015, with realized annualized savings of \$686 million. This headcount reduction target has now been revised upward to 11,000 with the increase principally in the U.S with a focus on support positions. We have also closed over 60 operating facilities across North America through the first half of 2015 and plan to close 30 more by the end of the year. In addition to our headcount and operating facility reductions, this quarter, we closed three of our seven planned closures for the year in manufacturing and service facilities.

In the second quarter of 2015, North America continued to be severely impacted by both lower volume and pricing pressure as our customers reduce spending due to the decline in commodity prices. For the remainder of the year, we expect North America to continue to be impacted by the curtailment of activity and show only modest activity improvements, which will be partially offset by our efforts to rationalize our cost structure. Internationally, we expect to show resilient year-on-year performance through the 2015 market decline with the second half remaining relatively flat compared to second quarter levels. The Middle East will play an important role with incremental business in the Gulf markets, offset by activity declines in Asia Pacific.

Over the longer term, we believe the outlook for our core businesses is favorable. As well production decline rates accelerate and reservoir productivity complexities increase, our clients will continue to face challenges associated with decreasing the cost of extraction activities and securing desired rates of production. These challenges increase our customers' requirements for technologies that improve productivity and efficiency and increase demand for our products and services. These factors provide us with a positive outlook for our core businesses over the longer term. However, the level of improvement in our core businesses in the future will depend heavily on pricing, volume of work and our ability to offer solutions to more efficiently extract hydrocarbons, control costs and penetrate new and existing markets with our newly developed technologies.

We continually seek opportunities to maximize efficiency and value through various transactions, including purchases or dispositions of assets, businesses, investments or joint ventures. We evaluate our disposition candidates based on the strategic fit within our business and objectives. It is also our intention to divest our remaining land drilling rigs. Upon completion, the cash proceeds from any divestitures are expected to be used to repay or repurchase debt. Debt reduction from divestiture proceeds or otherwise may include the repurchase of our outstanding senior notes prior to their maturity in open market, either privately negotiated transaction or otherwise.

Table of Contents

Revenue Percentage by Product Service Line Group

The following chart contains the percentage distribution of our consolidated revenues by product service line group for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended		Six Months Ended		
	June 30,		June 30,		
	2015	2014	2015	2014	%
Formation Evaluation and Well Construction	56	% 50	% 57	% 51	%
Completion and Production	36	39	36	39	
Land Drilling Rigs	8	11	7	10	
Total	100	% 100	% 100	% 100	%

Consolidated Revenues

Consolidated revenues decreased \$1.3 billion, or 36%, and decreased \$2.1 billion, or 29%, in the three and six months ended June 30, 2015 compared to the three and six months of 2014, respectively. Revenues decreased in the three and six months of 2015 across all our segments with declines of \$851 million, or 51%, and \$1.3 billion, or 40%, in North America, \$261 million, or 16%, and \$469 million, or 14%, in our International segments and \$209 million, or 53%, and \$356 million, or 48%, in Land Drilling Rigs, respectively. International revenues represent revenues of our regional segments other than North America and the Land Drilling Rigs segments. The decline in North American revenue is consistent with the 52% decrease in North American rig count since the second quarter of 2014 with significant declines across product lines in the United States and Canada, particularly pressure pumping, artificial lift, intervention services and drilling services. The decline in the North America segment was driven by a combination of lower activity and customer pricing pressure.

The decline in revenues in our International segments is in line with the decrease in international rig count of 13% since the second quarter of 2014 as well as declines in revenue from our Europe/Russia/SSA and MENA/Asia Pacific due to pricing pressure and reduced activity across our product lines. Partially offsetting the revenue decline in the MENA/Asia Pacific segment was improved demand for services for our well construction, completion and drilling services product lines in Saudi Arabia and Australia. Lastly, our Latin America segment showed improvement in our managed pressure drilling product line in Brazil due to increase in demand, as well as increased demand for various other services in Argentina.

The decline in our Land Drilling Rigs revenue is primarily attributable to the decline in drilling activity consistent with the rig count declines, decreases in new drilling activity and the 2014 disposal of our land drilling and workover rig operations in Russia and Venezuela.

Operating Income

Segment operating income decreased \$454 million, or 93%, and \$567 million, or 68%, in the three and six months ended June 30, 2015, compared to the three and six months ended June 30, 2014. The decline in operating income is consistent with the reduction in activity resulting from the significant decline in both the price of oil and rig counts, which has put pressure on our pricing and has resulted in lower volume of work.

Operating income for the three months ended June 30, 2015 and 2014 includes legacy contract and other related charges of \$69 million and \$2 million, respectively, and restructuring charges of \$69 million and \$59 million, respectively. Additionally, consolidated operating income for the six months ended June 30, 2015 and 2014 includes legacy contract and other related charges of \$78 million and \$48 million, respectively, and restructuring charges of

\$110 million and \$129 million, respectively. For additional information regarding charges by segment, see the subsection entitled “Segment Results” and “Restructuring Charges” below.

Other items impacting our results for the three months ended June 30, 2015 and 2014 included expenses of \$8 million and \$18 million, respectively, and for the six months ended June 30, 2015 and 2014 included expenses of \$19 million and \$44 million, respectively. These expenses were primarily incurred in conjunction with the divestiture of non-core businesses, restatement related litigation and our previously settled U.S. government investigations.

Table of Contents

Segment Results

North America

Revenues in our North America segment decreased \$851 million, or 51%, in the second quarter of 2015 and \$1.3 billion, or 40%, during the six months ended June 30, 2015 compared to the second quarter and six months ended June 30, 2014, respectively. North America average rig count decreased 52% since June 30, 2014. The decline in revenue in the three and six months ended June 30, 2015 was due to lower activity and pricing pressure that broadly impacted all product lines, particularly pressure pumping, artificial lift, intervention services and drilling services. The disposition of our engineered chemistry business on December 31, 2014 also negatively impacted revenues when compared to the same period in the prior year.

Total revenues in the United States were \$693 million and \$1.4 billion for the three months ended June 30, 2015 and 2014, respectively and \$1.6 billion and \$2.6 billion for the six months ended June 30, 2015 and 2014, respectively. The remaining revenues of our North America segment of \$115 million and \$248 million for the three months ended June 30, 2015 and 2014, and \$333 million and \$630 million for the six months ended June 30, 2015 and 2014, respectively, were derived from our operations in Canada.

Operating income in our North America segment decreased \$336 million, or 138%, in the second quarter of 2015 and \$542 million, or 123% during the six months ended June 30, 2015 compared to the second quarter and six months of 2014. Contributing to the decline was the rig count decrease of 52% since June 30, 2014, increased pricing pressure and reduced activity associated with the significant decline in oil prices. Due to these factors operating income decreased in the United States and Canada across all product lines, particularly artificial lift, drilling services and pressure pumping.

In the three months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” on our Condensed Consolidated Statements of Operations of \$21 million and \$19 million, respectively, related to operations in North America. In the six months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” of \$29 million and \$28 million, respectively, related to operations in North America. In addition, we recorded asset impairment charges of \$124 million, pressure pumping business related charges for contract obligation of \$37 million and supply agreement charges related to a non-core business divestiture of \$20 million as “Long-Lived Assets Impairment and Other Related Charges” on our Condensed Consolidated Statements of Operations.

MENA/Asia Pacific

Revenues in our MENA/Asia Pacific segment decreased \$63 million, or 11%, in the second quarter of 2015, and \$149 million or 12%, during the six months ended June 30, 2015 compared to the second quarter and six months ended June 30, 2014, respectively. The revenue decline was mainly due to reduced volume of work primarily in the intervention services, wireline, testing and production services, and secure drilling services product lines, as well as the lost revenues following the sale of the pipeline and specialty services product lines in September 2014. The decline in revenue was also impacted by lower progress from our ongoing legacy contract in Iraq, lower activity in Yemen from the political disruption and lower demand in the Asia Pacific region, primarily Indonesia and China. Partially offsetting the revenue decline in the MENA/Asia Pacific segment was improved demand for services for our well construction, completion and drilling services product lines in Saudi Arabia and Australia.

Operating income decreased \$78 million, or 128%, in the second quarter of 2015, and \$23 million, or 35%, during the six months ended June 30, 2015 compared to the second quarter and six months ended June 30, 2014. The decrease in operating income is primarily attributable to project losses on legacy contracts in Iraq and lower activity across most

product lines offset by a gain recognized from a sale of a joint venture investment in China in the six months ended June 30, 2014. This decline was partially offset by improved profitability for completion services product line in Australia and higher profitability resulting from the closure of unprofitable locations in 2014.

In the three months ended June 30, 2015 and 2014, we recognized "Restructuring Charges" on our Condensed Consolidated Statements of Operations of \$29 million and \$13 million, respectively, related to operations in MENA/Asia Pacific. In the six months ended June 30, 2015 and 2014, we recognized "Restructuring Charges" of \$35 million and \$17 million, respectively, related to operations in MENA/Asia Pacific.

Table of Contents

Europe/SSA/Russia

Revenues in our Europe/SSA/Russia segment decreased \$143 million, or 25%, in the second quarter of 2015 compared to the second quarter of 2014 and \$242 million, or 22%, during the six months ended June 30, 2015 compared to the six months ended June 30, 2014. The decline in activity directly impacted the decline in revenues due to lower demand and pricing pressure in our well construction and completion product lines in the North Sea and wireline and pressure pumping services in the Black Sea. There was also a decreased demand and pricing pressure for services in Gabon and drilling services in Russia. Additionally, the sale of the pipeline and specialty services and engineered chemistry product lines in the third and fourth quarters of 2014, respectively, contributed to the decline in the Europe/SSA/Russia segment. Revenue for six months ended June 30, 2015 was also negatively impacted by weaker Russian ruble and euro.

Operating income decreased \$40 million, or 38% , in the second quarter of 2015 compared to the second quarter of 2014 and \$47 million, or 26%, during the six months ended June 30, 2015 compared to the second quarter and six months ended of 2014. The decline was consistent with the decline in revenue and with the incremental profits attributable to our cost reduction exercise.

In the three months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” on our Condensed Consolidated Statements of Operations of \$14 million and \$8 million, respectively, related to operations in Europe/SSA/Russia. In the six months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” of \$21 million and \$27 million, respectively, related to operations in Europe/SSA/Russia.

Latin America

Revenues in our Latin America segment decreased \$55 million, or 11%, in the second quarter of 2015 compared to the second quarter of 2014 and \$78 million, or 8%, during the six months ended June 30, 2015 compared to the six months ended June 30, 2014. The reduced demand for drilling services in Mexico, Colombia, and Ecuador lead the decline in revenues for the Latin America segment, offset by an increase in sales in our managed pressure drilling product line in Brazil and increased demand for services in Argentina.

Operating income was flat in the second quarter of 2015 compared to the second quarter of 2014 and increased \$8 million, or 5%, during the six months ended June 30, 2015 compared to the six months ended June 30, 2014 due to cost reduction initiatives in Mexico and a continued focus on higher margin activity in Argentina and Brazil.

In the three months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” on our Condensed Consolidated Statements of Operations of \$4 million in both quarters related to operations in Latin America. In the six months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” of \$16 million and \$23 million, respectively, related to operations in Latin America.

Land Drilling Rigs

Revenues in our Land Drilling Rigs segment decreased \$209 million, or 53%, in the second quarter of 2015 and \$356 million, or 48%, during the six months ended 2015 compared to the second quarter and six months ended June 30, 2014, respectively. The decrease is due to the sale of the Russia Rigs business in July 2014 in addition to the overall decrease in the international rig count and drilling activity.

Operating income was flat in the second quarter of 2015 and increased \$37 million or 161%, during six months ended June 30, 2015, compared to the second quarter and six months ended June 30, 2014, respectively. The increase in the

six months ended June 30, 2015 is primarily a result improved drilling efficiencies in Iraq, Oman and Latin America. In addition, six months ended June 30, 2014 included facility closure costs that did not reoccur in 2015.

In the three months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” on our Condensed Consolidated Statements of Operations of \$1 million in both quarters related to our Land Drilling Rigs operations. In the six months ended June 30, 2015 and 2014, we recognized “Restructuring Charges” of \$6 million and \$4 million, respectively, related to our Land Drilling Rigs operations.

Table of Contents

Foreign Exchange Related Charges – Devaluation and Other Inflationary Impacts

A new Venezuelan currency exchange system, known as the “Marginal Currency System” (or “SIMADI”), opened for trading February 12, 2015, replacing Venezuela’s Supplementary Foreign Currency Administration System auction rate (“SICAD II”) mechanism. The SIMADI is intended to provide limited access to a free market rate of exchange. In the first quarter of 2015, we began using the SIMADI rate and recognized remeasurement charges of \$26 million and we will continue to monitor the impact on our financial statements of the evolving Venezuela exchange rate. At June 30, 2015 our net monetary asset position denominated in Venezuelan bolivar was approximately \$7 million.

In the second quarter of 2015, the Angolan kwanza devalued approximately 11% and we recognized foreign exchange related charges of \$16 million. We will continue to monitor the impact on our financial statements of the evolving Angola exchange rate. At June 30, 2015 our net monetary asset position denominated in Angolan kwanza was approximately \$124 million.

Potential Highly Inflationary Country

The Company has noted the concerns raised by the International Monetary Fund (“IMF”) relating to the accuracy of Argentina’s officially reported consumer price index. Given the lack of verifiable information, objective sources have not observed data that would support designating Argentina as “Highly Inflationary.” The Company is closely monitoring the work of the IMF and the price index information that becomes available. As of June 30, 2015, we had a net monetary asset position denominated in Argentine pesos of \$119 million, comprised primarily of accounts receivable and current liabilities.

Interest Expense, Net

Net interest expense was \$117 million and \$237 million for the three and six months ended June 30, 2015, respectively, compared to \$128 million and \$254 million for the three and six months ended June 30, 2014, respectively. Interest expense for the three and six months ended June 30, 2015 decreased primarily due to a decrease in our debt balance and the redemption of certain senior notes in the first quarter of 2015.

Income Taxes

We estimate our annual effective tax rate based on year-to-date operating results and our forecast of operating results for the remainder of the year, by jurisdiction, and apply this rate to the year-to-date operating results. If our actual results, by jurisdiction, differ from the forecasted operating results, our effective tax rate can change affecting the tax expense for both successive interim results as well as the annual tax results. For both the three and six months ended June 30, 2015, we had a \$132 million tax benefit on a loss before income taxes of \$615 million and \$722 million, respectively. Our results for the three months ended June 30, 2015 includes \$112 million of litigation settlements, \$69 million of project losses, \$16 million of devaluation of the Angolan kwanza currency, \$20 million of equity investment impairment and \$69 million of restructuring charges with no significant tax benefit. Our results for the six months ended June 30, 2015 includes \$112 million of litigation settlements, \$27 million of project losses, \$42 million of currency devaluation, \$20 million of equity investment impairment and \$110 million of restructuring charges with no significant tax benefit.

We are continuously under tax examination in various jurisdictions. We cannot predict the timing or outcome regarding resolution of these tax examinations or if they will have a material impact on our financial statements. We continue to anticipate a possible reduction in the balance of uncertain tax positions by approximately \$19 million in the next twelve months due to expiration of statutes of limitations, settlements and/or conclusions of tax examinations.

For the three and six months ended June 30, 2014, we had a tax provision of \$11 million and \$38 million on a loss before income taxes of \$122 million and \$127 million, respectively. Our results for the three and six months ended June 30, 2014 include a \$143 million impairment loss (\$121 million, net of tax) to record the land drilling and workover rig operations in Russia and Venezuela at fair value. We also recorded a \$125 million non-cash impairment charge to goodwill based on our analysis triggered by the planned sale of our land drilling and workover rig operations in Russia and Venezuela, which was non-deductible for income tax purposes. Our results for the six months ended June 30, 2014 were also impacted by discrete income before tax items, including restructuring charges and project losses of approximately \$177 million, with no significant tax benefit.

Table of Contents

Restructuring Charges

In the fourth quarter of 2014, in response to the significant decline in the price of crude oil and our anticipation of a lower level of exploration and production spending in 2015, we initiated a plan to reduce our overall costs and workforce to better align with anticipated activity levels. This cost reduction plan (the “2015 Plan”) includes a workforce reduction and other cost reduction measures initiated across our geographic regions. In connection with the 2015 Plan, we recognized restructuring charges of \$69 million and \$110 million in the three and six months ended June 30, 2015, respectively. For the three and six months ended June 30, 2015, our restructuring charges include termination (severance) benefits of \$19 million and \$59 million, respectively, and other restructuring charges of \$50 million and \$51 million. Other restructuring charges for both the three and six months ended June 30, 2015 includes asset write-offs of \$23 million related to Yemen due to the political disruption and \$22 million in other regions. We have also closed over 60 operating facilities across North America through the first half of 2015 and plan to close 30 more by the end of the year.

In the first quarter of 2014, we announced a cost reduction plan (the “2014 Plan”), which included a worldwide workforce reduction and other cost reduction measures. The 2014 Plan resulted in restructuring charges of \$32 million and \$98 million related to termination (severance) benefits in the three and six months ended June 30, 2014, respectively. As of December 31, 2014, we completed our planned headcount reductions and closures of underperforming operating locations in connection with the 2014 Plan.

The following tables present the components of the 2015 Plan and the 2014 Plan restructuring charges by segment for the three and six months ended June 30, 2015 and 2014.

(Dollars in millions)	Three Months Ended June 30, 2015		
	Severance Charges	Other Restructuring Charges	Total Severance and Other Charges

Liquidity and Capital Resources

At June 30, 2015, we had cash and cash equivalents of \$611 million compared to \$474 million at December 31, 2014. At June 30, 2015, cash and cash equivalents reflected a negative impact of \$12 million due to the devaluation of the Venezuelan bolivar in the first quarter of 2015 related to the adoption of the new Venezuelan currency exchange system called the SIMADI, which replaced the SICAD II exchange. In the second quarter of 2015 the Angolan kwanza devalued approximately 11% and we recognized a negative impact of \$16 million due to the devaluation. The following table summarizes cash flows provided by (used in) each type of activity, for the six months ended June 30, 2015 and 2014:

(Dollars in millions)	Six Months Ended June 30,	
	2015	2014
Net Cash Provided by Operating Activities	\$249	\$29
Net Cash Used in Investing Activities	(391)) (622)
Net Cash Provided by Financing Activities	302	722

Operating Activities

For the six months ended June 30, 2015, cash provided by operating activities was \$249 million compared to \$29 million in the six months ended June 30, 2014. The improvement in operating cash flow in 2015 compared to 2014 was attributable to improved cash flow from working capital and the absence of \$253 million in government settlement payments made in 2014. These improvements were partially offset by a decline of income associated with the significant decline in oil prices and drilling activity.

Investing Activities

The primary driver of our investing cash flow activities is capital expenditures for property, plant and equipment. Capital expenditures were \$411 million for the six months ended June 30, 2015 and \$662 million for the six months ended June 30, 2014. The amount we spend for capital expenditures varies each year based on the type of contracts in which we enter, our asset availability and our expectations with respect to industry activity levels in the following year.

Table of Contents

We did not complete any dispositions or acquisitions in the six months ended June 30, 2015. Cash proceeds received from dispositions were \$23 million and \$26 million in the six months ended June 30, 2015 and June 30, 2014, respectively. In the six months ended June 30, 2015, cash proceeds were primarily from the working capital adjustment related to the sale of our pipeline and specialty services business from the prior year and from a combination of various other asset sales. In the six months ended June 30, 2014, we acquired, via a step acquisition, an additional 30% ownership interest in a joint venture in China. We paid \$13 million for the incremental interest, thereby increasing our ownership interest from 45% to 75%. As a result of this transaction, we acquired \$30 million of cash. Therefore, in the six months ended June 30, 2014, we had a cash inflow from acquired businesses of \$17 million. While we expect to continue to make business acquisitions when strategically advantageous, our current focus is on disposition of businesses or capital assets that are no longer core to our long-term strategy.

Financing Activities

Our financing activities primarily consisted of the borrowing and repayment of short-term and long-term debt. Our short-term borrowings, net of repayments were \$478 million in the six months ended June 30, 2015 and \$738 million in the six months ended June 30, 2014. Total net long-term debt repayments were \$161 million in the six months ended June 30, 2015 compared to total net long-term debt repayments of \$36 million in six months ended June 30, 2014. In the first three months of 2015, through a series of open market transactions, we repurchased certain of our 4.5% senior notes, 5.95% senior notes, 6.5% senior notes and 6.75% senior notes with a total book value of \$160 million. We recognized a cumulative gain of approximately \$12 million on these transactions.

Sources of Liquidity

Our sources of available liquidity include cash and cash equivalent balances, cash generated from operations, dispositions, commercial paper and availabilities under committed lines of credit. We also historically have accessed banks for short-term loans from uncommitted borrowing arrangements and have accessed the capital markets with debt, equity and convertible bond offerings. From time to time we may enter into transactions to factor accounts receivable or dispose of businesses or capital assets that are no longer core to our long-term strategy.

Revolving Credit Agreement

We maintain a \$2.25 billion unsecured, revolving credit agreement (the "Credit Agreement"). On June 30, 2015, we entered into an amendment to the Credit Agreement to extend the maturity date to July 13, 2017 and to make certain other changes. The Credit Agreement can be used for a combination of borrowings, support for our \$2.25 billion commercial paper program and issuances of letters of credit. This agreement requires that we maintain a debt-to-total capitalization ratio of less than 60%. We were in compliance with this covenant at June 30, 2015.

The following summarizes our availability under the Credit Agreement at June 30, 2015 (dollars in millions):

Facility	\$2,250
Less uses of facility:	
Revolving credit facility	730
Commercial paper	198
Letters of credit	16
Availability	\$ 1,306

364-Day Term Loan Facility

On April 9, 2015, the maturity date, we repaid the remaining balance of \$175 million on our \$400 million, 364-day term loan facility.

Table of Contents

Other Short-Term Borrowings and Other Debt Activity

We have short-term borrowings with various domestic and international institutions pursuant to uncommitted credit facilities. At June 30, 2015, we had \$220 million in short-term borrowings under these arrangements, including \$180 million borrowed under a credit agreement entered into in March 2014 that matures on March 20, 2016 (with respect to \$150 million) and June 20, 2015 (with respect to the remaining \$30 million), with a LIBOR-based weighted average interest rate of 1.73% as of June 30, 2015. In the first three months of 2015, through a series of open market transactions, we repurchased certain of our 4.5% senior notes, 5.95% senior notes, 6.5% senior notes and 6.75% senior notes with a total book value of \$160 million. We recognized a cumulative gain of approximately \$12 million on these transactions. No repurchases were made during the second quarter of 2015.

Ratings Services' Credit Rating

Our Standard & Poor's Ratings Services' credit rating on our senior unsecured debt is currently BBB- and our short-term rating is A-3. On March 11, 2015, S&P removed us from Credit Watch with negative implications and changed our outlook to negative. Our Moody's Investors Ratings Services' credit rating on our unsecured debt is currently Baa3 and our short-term rating is P-3. On March 24, 2015, Moody Investors changed our outlook from stable to negative. On April 15, 2015, Fitch Ratings has assigned credit rating on our senior unsecured debt of BBB- and our short-term rating of F3, and a negative outlook. We have access and expect we will continue to have access to credit markets, including the U.S. commercial paper market, although the commercial paper amounts outstanding may be reduced as a result of a negative rating change. We expect to utilize the Credit Agreement or other facilities to supplement commercial paper borrowings as needed.

Cash Requirements

For the remainder of 2015, we anticipate our cash requirements will include payments for capital expenditures, repayment of debt, interest payments on our outstanding debt and payments for short-term working capital needs. Our cash requirements may also include opportunistic debt repurchases, business acquisitions and amounts to settle litigation related matters. We anticipate funding these requirements from cash generated from operations, availability under our existing or additional credit facilities, the issuance of commercial paper and, if completed, proceeds from disposals of businesses or capital assets that are no longer closely aligned with our core long-term growth strategy. We anticipate that cash generated from operations will be augmented by working capital improvements driven by capital discipline and the collection of receivables. Capital expenditures for 2015 are currently projected to be approximately \$750 million. The amounts we ultimately spend will depend on a number of factors including the type of contracts we enter into, asset availability and our expectations with respect to industry activity levels in 2015. Expenditures are expected to be used primarily to support anticipated near-term growth of our core businesses and our sources of liquidity are anticipated to be sufficient to meet our needs. Capital expenditures were \$411 million for the six months ended June 30, 2015. Cash and cash equivalents of \$611 million at June 30, 2015, are held by subsidiaries outside of Ireland. Based on the nature of our structure, we are generally able to redeploy cash with no incremental tax.

Off Balance Sheet Arrangements

Guarantees

Weatherford Ireland guarantees the obligations of our subsidiaries Weatherford Bermuda and Weatherford Delaware, including the notes and credit facilities listed below.

The following obligations of Weatherford Delaware were guaranteed by Weatherford Bermuda at June 30, 2015 and December 31, 2014: (1) 6.35% senior notes and (2) 6.80% senior notes.

The following obligations of Weatherford Bermuda were guaranteed by Weatherford Delaware at June 30, 2015 and December 31, 2014: (1) revolving credit facility, (2) 5.50% senior notes, (3) 6.50% senior notes, (4) 6.00% senior notes, (5) 7.00% senior notes, (6) 9.625% senior notes, (7) 9.875% senior notes, (8) 5.125% senior notes, (9) 6.75% senior notes, (10) 4.50% senior notes and (11) 5.95% senior notes. At December 31, 2014, we had a 364-day term loan facility which was an obligation of Weatherford Bermuda guaranteed by Weatherford Delaware.

As a result of certain of these guarantee arrangements, we are required to present condensed consolidating financial information. See guarantor financial information presented in “Note 18 – Condensed Consolidating Financial Statements.”

Table of Contents

Letters of Credit and Performance and Bid Bonds

We use letters of credit and performance and bid bonds in the normal course of our business. As of June 30, 2015, we had \$843 million of letters of credit and performance and bid bonds outstanding, consisting of \$549 million outstanding under various uncommitted credit facilities, \$16 million of letters of credit outstanding under our Credit Agreement and \$278 million of surety bonds, primarily performance bonds, issued by financial sureties against an indemnification from us. These obligations could be called by the beneficiaries should we breach certain contractual or performance obligations. If the beneficiaries were to call the letters of credit under our committed facilities, our available liquidity would be reduced by the amount called.

Derivative Instruments

Fair Value Hedges

We may use interest rate swaps to help mitigate exposures related to changes in the fair values of the associated debt. As of June 30, 2015, we had net unamortized gains of \$28 million associated with interest rate swap terminations. These gains are being amortized over the remaining term of the originally hedged debt as a reduction in interest expense. See “Note 10 – Derivative Instruments” to our Condensed Consolidated Financial Statements for additional details.

Other Derivative Instruments

We enter into contracts to hedge our exposure to currency fluctuations in various foreign currencies. At June 30, 2015 and December 31, 2014, we had outstanding foreign currency forward contracts with notional amounts aggregating \$1.4 billion and \$1.6 billion, respectively. The notional amounts of our foreign currency forward contracts do not generally represent amounts exchanged by the parties and, thus are not a measure of the cash requirements related to these contracts or of any possible loss exposure. The amounts actually exchanged at maturity are calculated by reference to the notional amounts and by other terms of the derivative contracts, such as exchange rates.

We had cross-currency swaps between the U.S. dollar and Canadian dollar to hedge certain exposures to the Canadian dollar. At December 31, 2014, to hedge our exposure to the Canadian dollar, we held cross-currency swaps between the U.S. dollar and Canadian dollar with a notional amount of \$168 million. We settled the cross-currency swap arrangements in the three months ended March 31, 2015 after recognizing a mark-to-market gain of \$13 million in the first quarter of 2015. We collected \$8 million in proceeds upon settlement.

Our foreign currency forward contracts and cross-currency swaps were not designated as hedges, and the changes in fair value of the contracts are recorded each period in current earnings in the line captioned “Other, Net” on the accompanying Condensed Consolidated Statements of Operations.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operation is based upon our Consolidated Financial Statements. We prepare these financial statements in conformity with U.S. generally accepted accounting principles. As such, we are required to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the periods presented. We base our estimates on historical experience, available information and various other assumptions we believe to be reasonable under the circumstances. On an on-going basis, we evaluate our estimates; however, actual results may differ from these estimates under different assumptions or conditions. There

have been no material changes or developments in our evaluation of the accounting estimates and the underlying assumptions or methodologies that we believe to be critical accounting policies and estimates as disclosed in our Form 10-K for the year ended December 31, 2014.

New Accounting Pronouncements

See “Note 17 – New Accounting Pronouncements” to our Condensed Consolidated Financial Statements, included elsewhere in this report.

Table of Contents

Forward-Looking Statements

This report contains various statements relating to future financial performance and results, including certain projections, business trends and other statements that are not historical facts. These statements constitute “Forward-Looking Statements” as defined in the Securities Act of 1933, as amended (the “Securities Act”) and the Private Securities Litigation Reform Act of 1995. These forward-looking statements generally are identified by the words “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “budget,” “strategy,” “plan,” “guidance,” “outlook,” “may,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions, although not all forward-looking statements contain these identifying words.

Forward-looking statements reflect our beliefs and expectations based on current estimates and projections. While we believe these expectations, and the estimates and projections on which they are based, are reasonable and were made in good faith, these statements are subject to numerous risks and uncertainties. Accordingly, our actual outcomes and results may differ materially from what we have expressed or forecasted in the forward-looking statements.

Furthermore, from time to time, we update the various factors we consider in making our forward-looking statements and the assumptions we use in those statements. However, we undertake no obligation to correct, update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except to the extent required under federal securities laws. The following sets forth various assumptions we use in our forward-looking statements, as well as risks and uncertainties relating to those statements. Certain of these risks and uncertainties may cause actual results to be materially different from projected results contained in forward-looking statements in this report and in our other disclosures. These risks and uncertainties include, but are not limited to, those described below under “Item 1A. – Risk Factors” and the following:

- the price volatility of oil, natural gas and natural gas liquids, including the impact of the recent and significant decline in the price of crude oil;
- global political, economic and market conditions, political disturbances, war, terrorist attacks, changes in global trade policies, and international currency fluctuations;
- nonrealization of expected benefits from our acquisitions or business dispositions and our ability to execute such acquisitions and dispositions;
- our ability to realize expected revenues and profitability levels from current and future contracts;
- our ability to manage our workforce, supply chain and business processes, information technology systems and technological innovation and commercialization, including the impact of our 2014 and 2015 cost reduction plans;
- our high level of indebtedness;
- increases in the prices and availability of our raw materials;
- potential non-cash asset impairment charges for long-lived assets, goodwill, intangible assets or other assets;
- changes to our effective tax rate;
- nonrealization of potential earnouts associated with business dispositions;
- downturns in our industry which could affect the carrying value of our goodwill;
- member-country quota compliance within OPEC;
- adverse weather conditions in certain regions of our operations;
- our ability to realize the expected benefits from our redomestication from Switzerland to Ireland and to maintain our Swiss tax residency;
- failure to ensure on-going compliance with current and future laws and government regulations, including but not limited to environmental and tax and accounting laws, rules and regulations; and
- limited access to capital or significantly higher cost of capital related to liquidity or uncertainty in the domestic or international financial markets.

Finally, our future results will depend upon various other risks and uncertainties, including, but not limited to, those detailed in our other filings with the SEC under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and the Securities Act. For additional information regarding risks and uncertainties, see our other filings with the SEC. Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act are made available free of charge on our web site www.weatherford.com under “Investor Relations” as soon as reasonably practicable after we have electronically filed the material with, or furnished it to, the SEC.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

For quantitative and qualitative disclosures about market risk, see “Part II – Item 7A.– Quantitative and Qualitative Disclosures about Market Risk,” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014. Our exposure to market risk has not changed materially since December 31, 2014, except as described below.

Foreign Exchange Related Charges – Devaluation and Other Inflationary Impacts

A new Venezuelan currency exchange system, known as the “Marginal Currency System” (or “SIMADI”), opened for trading February 12, 2015, replacing the Venezuela’s Supplementary Foreign Currency Administration System auction rate (“SICAD II”) mechanism. The SIMADI is intended to provide limited access to a free market rate of exchange. In the first quarter of 2015, we began using the SIMADI rate and recognized remeasurement charges of \$26 million and we will continue to monitor the impact on our financial statements of the evolving Venezuela exchange rate. At June 30, 2015 our net monetary asset position denominated in Venezuelan bolivar was approximately \$7 million.

In the second quarter of 2015, the Angolan kwanza devalued approximately 11% and we recognized foreign exchange related charges of \$16 million. We will continue to monitor the impact on our financial statements of the evolving Angola exchange rate. At June 30, 2015 our net monetary asset position denominated in Angolan kwanza was approximately \$124 million.

Potential Highly Inflationary Country

The Company has noted the concerns raised by the International Monetary Fund (“IMF”) relating to the accuracy of Argentina’s officially reported consumer price index. Given the lack of verifiable information, objective sources have not observed data that would support designating Argentina as “Highly Inflationary.” The Company is closely monitoring the work of the IMF and the price index information that becomes available. As of June 30, 2015, we had a net monetary asset position denominated in Argentine pesos of \$119 million, comprised primarily of accounts receivable and current liabilities.

Item 4. Controls and Procedures.

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. This information is collected and communicated to management, including our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), as appropriate, to allow timely decisions regarding required disclosures. Our management, under the supervision and with the participation of our CEO and CFO, evaluated the effectiveness of the design and operation of our disclosure controls and procedures at June 30, 2015. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of June 30, 2015.

Our management identified no change in our internal control over financial reporting that occurred during the second quarter ended June 30, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

See “Note 16 – Disputes, Litigation and Contingencies” to our Condensed Consolidated Financial Statements included elsewhere in this report.

Item 1A. Risk Factors.

An investment in our securities involves various risks. You should consider carefully all of the risk factors described in our most recent Annual Report on Form 10-K, Part I, under the heading “Item 1A. – Risk Factors” and other information included and incorporated by reference in this report. There have been no material changes in our assessment of our risk factors from those set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.
