The Group's business and general information

Cresud was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier's shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

In 2002, Cresud acquired a 19.85% interest in IRSA, a real estate company related to certain shareholders of Cresud. In 2009, Cresud increased its ownership percentage in IRSA to 55.64% and IRSA became Cresud's directly principal subsidiary.

Cresud and its subsidiaries are collectively referred to hereinafter as the Group.

IFISA is the parent company and is a corporation established and domiciled in Uruguay, and IFIS Limited is the ultimate parent company.

These Financial Statements have been approved for issue by the Board of Directors on November 11, 2016.

As of September 30, 2016, the Group operates in two major lines of business: (i) agricultural business and (ii) urban properties and investments business, which is divided into two operations centers: (a) Operations Center in Argentina and (b) Operations Center in Israel. They are developed through several operating companies and the main ones are listed below (see Note 6):

Cresud Sociedad Anónima,
Comercial, Inmobiliaria, Financiera y Agropecuaria

1.
The Group's business and general information (Continued)

IDBD has diverse debts containing restricted covenants, which have been successively negotiated, resulting in several waivers actually in force. IDBD estimates that if the original covenants of such loans were to become effective again, it would not be able to honor them. Non-compliance could have the effect of creditors requiring immediate repayment of the debt. Yet, there are restrictions as to the payment of dividends based on the indebtedness level in some subsidiaries. IDBD has projected future cash flows and expects to have the required liquidity to meet its commitments by issuing new debt in Israel, selling financial assets such as Clal and from dividend payouts by Clal. IDBD could also secure additional financing through the private issuance of equity securities.

On December 2013, was published in the Official Gazette of Israel the Promotion of Competition and Reduction of Concentration Law, 5774-2013 ("the Concentration Law") which has material implications for IDBD and its investments, including the disposal of the controlling interest in Clal, a potential delisting of IDBD or DIC so as to no longer trade its shares publicly or a merger between IDBD and DIC.

All factors mentioned above, mainly (i) IDBD's current financial position and need of financing to honor its financial debt and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern. These financial statements do not include the adjustments or reclassifications related to the valuation of IDBD's assets and liabilities that would be required if IDBD were not able to continue as a going-concern.

The Group is and will continue working to address the uncertainties described above.

The financial position of IDBD and its subsidiaries at the operations center in Israel does not affect the financial position of Cresud and its subsidiaries at the operations center in Argentina.

Cresud and its subsidiaries are not facing financial constraints and are compliant with their financial commitments. In addition, the commitments and other covenants resulting from the loan granted to IDBD do not have impact on Cresud since such loan has no recourse against Cresud and it is not secured by Cresud's assets.

There are no significant uncertainties as to the capacity of the Group, as a whole, to operate as a going-concern perspective, with such uncertainties being limited to the operations in Israel.

2.
Summary of significant accounting policies

2.1.
Basis of preparation of the Unaudited Financial Statements

The present Financial Statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", therefore, should be read together with the Annual Financial Statements of the Group as of June 30, 2016, prepared in accordance with IFRS in force. Furthermore, these Financial Statements include supplementary information required by Law N° 19,550 and/or regulations of CNV. Such information is included in notes to the Financial Statements according to IFRS.

These Financial Statements corresponding to the three-month periods ended as of September 30, 2016 and 2015 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. Results for the three-month periods ended as of September 30, 2016 and 2015 do not necessarily reflect the proportion of the Group's full year results.

IDBD's fiscal year ends on December 31 each year and the Company's fiscal year ends on June 30. IDBD's quarterly and annual reporting follows the guidelines of Israeli standards, which means that the information is only available after the applicable statutory terms in Argentina.

Therefore, the Company is not able to include IDBD's quarterly results in its annual financial statements to be filed with the CNV within the applicable statutory terms in Argentina. The Company consolidates IDBD's results of operations with a three-month lag, adjusted for the effects of material transactions that may have taken place during the reported period.

Under IAS 29 "Financial Reporting in Hyperinflationary Economies", the financial statements of an entity whose functional currency belongs to a hyperinflationary economy, regardless of whether they apply historic cost or current cost methods, should be stated at the current unit of measure as of the date of these Unaudited Condensed Interim Consolidated Financial Statements. For such purpose, in general, inflation is to be computed in non-monetary items from the acquisition or revaluation date, as applicable. In order to determine whether an economy is to be considered hyperinflationary, the standard lists a set of factors to be taken into account, including an accumulated inflation rate near or above 100% over a three year period.

As of September 30, 2016, it is not possible to compute the accumulated inflation rate for the three year period ending on that date based on the official statistics of the INDEC (Argentina Statistics Office), because in October 2015, the INDEC ceased to compute the Wholesale Domestic Price Index (IPIM, as per its Spanish acronym), and started to compute it again as from January 2016.

2.
Summary of significant accounting policies (Continued)

As of the date of these Unaudited Condensed Interim Consolidated Financial Statements, the Argentine peso does not meet the conditions to be treated as the currency of a hyperinflationary economy, pursuant to the guidelines set forth by IAS 29. Therefore, these unaudited financial statements have not been restated in constant currency.

However, over the last years, certain macroeconomic variables affecting business in the operations center Argentina, such as payroll costs, input prices and service rates, have experienced significant annual changes. This factor should be taken into consideration in assessing and interpreting the financial condition and results of operations of the Company in these financial statements.

2.2
Significant accounting policies

The accounting policies applied in the presentation of these Financial Statements are consistent with those applied in the preparation of the Annual Financial Statements under IFRS as described in Note 2 to the Annual Financial Statements as of June 30, 2016, except for what is mentioned in Note 2.2.1.

2.2.1
Adjustment due to change to accounting standards

During the reported period, the Group has adopted the changes to IAS 16 "Property Plant and Equipment" and to IAS 41 "Agriculture" in relation to production plants. These amendments imply changes in accounting policies and have the following impact on the financial situation and results of operations of the Group, already recognized in the financial statements.

On June, 2014 the International Accounting Standards Board issued the amendments to IAS 16 "Property, plant and equipment" and to IAS 41 "Agriculture" whereby it distinguished between bearer plants and other biological assets. Production plants are solely used for product development and its operation is similar to that of manufacturing machinery. As a result, amendments require bearer plants to be accounted for as property, plant and equipment and covered by IAS 16, rather than IAS 41. However, the produce growing on bearer plants will continued to be governed by IAS 41 and will continue to be valued at fair value minus selling costs.

Group's sugarcane fields are recognized as bearer plants under the new definition included in IAS 41. Under IAS 8, modifications are to be applied retrospectively; therefore, the sugarcane field will be reclassified under "Property, plant and equipment" and valued at depreciated cost as from July 1, 2016, with comparative balances being revised retrospectively. Sugarcane fields are depreciated over its useful life under the balance declining method based on the expected yield.

Summary of significant accounting policies (Continued)

2.3
Use of estimates

The preparation of financial statements at a certain date requires the Management of the Group to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

In the preparation of these unaudited financial statements, the significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual financial statements for the year ended as of June 30, 2016, as described in Note 5 to those financial statements.

2.4
Comparability of information

Amounts as of June 30, 2016 and September 30, 2015 which are disclosed for comparative purposes have been taken from financial statements then ended, except for changes described in Note 2.1.1.

As required by IFRS 3, the information of IDBD is included in the financial statements of the Group as from takeover was secured, that is from October 11, 2015 and the prior periods are not modified by this situation. Therefore, the financial information consolidated as of September 30, 2015 is not comparative.

3.
Seasonal effects on operations

Agricultural business

Some of the Group's businesses are more affected by seasonal effects than others. The operations of the Group's agricultural business are subject to seasonal effects. The harvests and sale of grains in Argentina generally take place each year since March in the case of corn and soybean, since October in the case of wheat, and since December in the case of sunflower. In Brazil, the harvest and sale of soybean take place since February, and in the case of corn weather conditions make it possible to have two seasons, therefore the harvest take place between March and July. In Bolivia, weather conditions also make it possible to have two soybean, corn and sorghum seasons and, therefore, these crops are harvested in July and May, whereas wheat is harvested in August and September, respectively. In the case of sugarcane, harvest and sale take place between April and November of each year. Other segments of the agricultural business, such as beef cattle and milk production tend to be more stable. However, beef cattle and milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results across quarters.

3.
Seasonal effects on operations (Continued)

Urban Properties and Investments business

Operations Center in Argentina

The operations of the shopping centers are subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time in Argentina (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas and year-end holidays celebrated in December when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also impact the business. As a consequence, for shopping center operations, a higher level of business activity is expected in the period ranging between July and December, compared to the period between January and June.

Operations Center in Israel

The operations of the Shufersal supermarket chain are subject to fluctuations of quarterly sales and income due to the increase in activity during religious holidays in different quarters throughout the year. For instance, in Pesaj (Passover) between March and April, and the Jewish New Year, sometime between September and October each year.

The results of operations of Cellcom are also usually affected by seasonality in summer months in Israel and by the Jewish New Year, given a higher consumption due to internal and external tourism.

4.
Acquisitions and disposals

Below are detailed the significant acquisitions and disposals for the three-month period ended September 30, 2016. The significant acquisitions and disposals for the fiscal year ended June 30, 2016, are detailed in Note 3 to the annual financial statements at that date.

A.
Acquisition of equity interest in EHSA

On July 6, 2016, the Group through IRSA CP acquired from FEG Entretenimientos S.A. a 20% of EHSA shares, a company where it already owned 50%. It also acquired a 1.25% interest in ENUSA from Marcelo Fígoli. The acquisition has been priced at Ps. 52.0 million, Ps. 35.4 million of which have been paid on September 30, while the remaining balance of Ps. 16.6 million was paid in October. As a result, the Group now holds 70% of the voting stock of EHSA and Mr. Diego Finkelstein holds the remaining 30%. As of the date of these unaudited financial statements, the Group is analyzing the allocation of the price paid for the acquisition of these interests.

4.
Acquisitions and disposals (Continued)

In addition, EHSA holds, both directly and indirectly, 100% of the shares of OASA and 95% of the shares of ENUSA. Furthermore, OASA holds 50% of the voting stock of LRSA, a company that holds the rights to commercially operate the emblematic "Predio Ferial de Palermo" in the Autonomous City of Buenos Aires, where the SRA holds the remaining 50%.

B.
Share-holding increase in Shufersal

On September 12, 2016, the Group through DIC, acquired 9,097,127 of Shufersal's shares, so that the company's equity interest in Shufersal's share capital increased from approximately 53.89% to around 58.17%. In addition, it was granted an option ("the option") to acquire up to 9,097,127 additional shares of Shufersal at an exercise price of NIS 14.62 (equal to Ps. 223.4) per share of Shufersal (subject to adjustments). The option may be exercisable until December 12, 2016.

C.
Acquisition of DIC shares from IDBD

On September 23, 2016 Tyrus acquired from IDBD 8,888,888 of DIC's shares for a total amount of NIS 100 million (equivalent to Ps. 401), which represent 8.8% of the Company's outstanding shares. As a result of this transaction, the equity interest of the Group in DIC has increased by 3.28% without actual cash movements in the financial statements.

D.
Partial sale of equity interest in PBC

DIC sold 12% of its equity interest in PBC for a total amount of NIS 217 million (equivalent to Ps. 810); as a result, the DIC's interest in PBC has declined to around 64.4%.

5.
Financial risk management and fair value estimates

5.1.
Financial risk

The Group's activities expose it to a variety of financial risk: market risk (including foreign currency risk, interest rate risk, indexing risk due to specific clauses and other price risk), credit risk, liquidity risk and capital risk. Within the Group, risk management functions are conducted in relation to financial risks associated to financial instruments to which the Group is exposed during a certain period or as of a specific date.

5.
Financial risk management and fair value estimates (Continued)

Given the diversity of characteristics in the activities conducted under its operations center, the Group has decentralized the risk management policies geographically based on its two operations center in order to identify and properly analyze the various types of risks to which each of the subsidiaries is exposed.

These financial statements do not include all the information and disclosures of the risk management, so they should be read together with Note 4 to the annual financial statements as of June 30, 2016. There have been no changes in the risk management or risk management policies applied by the Group since the fiscal year-end.

5.2.
Fair value estimates

Since June 30, 2016, to the balance sheet date, there have been no significant changes in business or economic circumstances affecting the fair value of the Group's assets and liabilities (either measured at fair value or amortized cost). Neither have been transfers between the several tiers used in estimating the fair value of the Group's financial instruments.

6.
Segment information

There have been no changes to the Group's structure either in the business segments or in the financial reporting criteria of such segments in the annual consolidated financial statements. As explained in note 6 to the annual financial statements, comparative segment information has not been modified due to the consolidation of IDDB because as of that date the Group did not exercise control over it and it was reported at fair value. As of September 30, 2015, IDDB's equity interest and changes in its fair value are presented under the International segment of the Operations Center in Argentina.

Restrictions, commitments and other relevant issues

Cellcom

As mentioned in Note 7 to the annual financial statements as of June 30, 2016, Cellcom is in dispute with Golán Telecom. As of the date of these unaudited condensed interim financial statements there still has not been any resolution to this matter.

Analysis of the impact of the Concentration Act

As mentioned in Note 7 to the annual financial statements as of June 30, 2016, IDBD is analyzing the implications of the Concentration Law. As of the date of these unaudited condensed interim financial statements, IDBD continues on this analysis process.

Dolphin arbitration process

As mentioned in Note 3 to the annual financial statements there is an arbitration process going on between Dolphin and ETH in relation to certain issues connected to the acquisition and control obtainment of IDBD. On September 24, 2015, the competent arbitrator resolved that: (i) Dolphin and IFISA were entitled to act as buyers in the BMBY and ETH had to sell all of the IDBD shares held by it at a price of NIS 1.64 per share; (ii) The buyer had to fulfill all of the commitments included in the seller's Arrangement, including the commitment to carry out Tender Offers; (iii) The buyer had to agree to pledge IDBD's shares. However, Dolphin and ETH still have several claims that are subject to an arbitration proceeding, which as of the date of these condensed financial statements have yet to be decided upon. There is no certainty as to the final outcome of this proceeding. Should the arbitrator render a decision favorable to ETH, the value of our investment in IDBD may be impaired and would, therefore, have an adverse effect on our business, financial situation and results of operations. As of the date of these financial statements, the proceeding is pending.

Sale of Adama

On July 17, 2016 DIC informed the market that it has accepted the tender offer by ChemChina who intends to acquire 40% of Adama's shares currently held by Koor, indirectly controlled by IDBD through DIC. In August 2016, Koor and a subsidiary of ChemChina executed the corresponding agreement. The price of the transaction includes a payment in cash of US\$ 230 million (equivalent to Ps. 3,498 at the exchange rate as of September 30, 2016) plus the total repayment of the non-recourse loan and its interests, which had been granted to Koor by a Chinese bank. This sale transaction is expected to be finalized during November of this year, subject to compliance with certain conditions, including obtaining approvals by the Chinese regulatory and antitrust authorities. Investment in ADAMA as well as the non-recourse loan have been reclassified as held for sale and the associated income has been reclassified under discontinued operations (see Notes 34 and 35).

Clal

As mentioned in Note 18 to the annual financial statements, IDBD is subject to a judicial process on the sale of its equity interest in Clal. As of the date of this Unaudited Condensed Interim Consolidated Financial Statement, there was no further information on the subject. It should be noted that on September 30, 2016 the Group was obliged to sell the 10% interest in Clal. Clal appealed to the Israel Concentration Committee asking that the significant company status be reviewed and Dolphin also presented an appeal with the Supreme Court of Israel. The Group cannot estimate the outcome of such appeals.

The following table presents the changes in Level 3 financial instruments for the three-month period ended September 30, 2016 and the year ended June 30, 2016:

Trade and other receivables (Continued)

The fair value of current trade and other receivables approximate their respective carrying amounts due to their short-term nature, as the impact of discounting is not considered significant. Fair values are based on discounted cash flows (Level 2 of fair value hierarchy).

The evolution of the Group's provision for impairment of trade receivables were as follows:

	September 30, 2016	June 30, 2016
Beginning of the year	191	120

(i)
Additions and recoveries are included in "Other operating results, net".

(ii)
Corresponds to the interest in New Lipstick and Condor with negative equity. Additions and recoveries are included in "Share of profit / (loss) of joint ventures and associates".

(iii)
The Group's companies are required to recognize certain costs related to dismantling assets and remediating sites here such assets are located. The calculation of expenses are based on the dismantling value for the current year, taking into consideration the best estimate of future changes in prices, inflation, etc. and such costs are capitalized at a risk-free

interest rate. Volume projections for retired or built assets are restated based on expected changes from technological rulings and requirements.

(iv)
Provisions for other contractual liabilities include a series of liabilities resulting from a contractual liability or laws, regarding which there is a high degree of certainty as to the terms and the necessary amounts to discharge such liability.

As mentioned in Note 22 to the annual financial statements, on February 23, 2016, a class action was filed against the Company, IRSA, some first-line managers and directors with the District Court of the United States for the Central District of California. The complaint, on behalf of people holding American Depositary Receipts of the Company between November 03, 2014 and December 30, 2015, claims presumed violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the Company's investment in IDBD.

Provisions (Continued)

Such complaint was voluntarily waived on May 4, 2016 by the plaintiff and filed again on May 9, 2016 with the US District Court by the East District of Pennsylvania.

Furthermore, the Company, some of its first-line managers and directors are defendants in a class action filed on April 29, 2016 with the US District Court of the East District of Pennsylvania. The complaint, on behalf of people holding American Depositary Receipts of the Company between May 13, 2015 and December 30, 2015, claims violations to the US federal securities laws. In addition, it argues that defendants have made material misrepresentations and made some omissions related to the IRSA's investment in IDBD.

Subsequently, the Company and IRSA requested that the complaint be moved to the district of New York, which request was granted.

The Company holds that such allegations are meritless and intends to make a strong defense in this action.

Borrowings (Continued)

Urban properties and investment business of the operations center in Argentina

On September 1, 2016, Non-Convertible Notes Class VII and VIII were tendered under the Program approved by the Shareholders' Meeting for up to US\$ 300 million. The settlement took place on September 8, 2016. The results are shown below:

Non-convertible notes Class VII for an amount of Ps. 384.2 to be matured 36 months after the issuing date, which accrue interest at an annual floating interest rate, Badlar plus 299 basic points, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 9, 2019.

Non-convertible notes Class VIII for an amount of US\$ 184.5 million (equivalent to Ps. 2,771) to be matured 36 months after the issuing date, paid in and payable in US Dollars, which will accrue interest at an annual fixed interest rate of 7.0%, interest payable on a quarterly basis. Principal will be amortized in only one installment due on September 9, 2019.

Urban properties and investment business of the operations center in Israel

In July 2016, Shufersal repurchased NCN Series B for a nominal value of NIS 511 million (equivalents to Ps. 2,771) with an increase of the issue of NCN Series F by a ratio of 1.175 for each NIS 1 of the Series B. The NCN Series B acquired by Shufersal were cancelled and delisted. The swap transaction does not amount to an exchange of debt instruments because the terms are not substantially different. All expenses related to the bond swap have been deducted from outstanding balance of the debt and shall be amortized over the remaining term of the debt.

On August 2, 2016, IDBD has issued a new series of NCN in the Israeli market in an amount of NIS 325 million (equivalent to Ps. 1,213) due in 2019, at an annual IPC (indexed interest rate) plus 4.25%. These NCN are secured by shares of Clal subject to the approval of the Israel Commission of Capital Markets, Savings and Insurance. On September 15, 2016, the Supreme Court rendered an opinion on the use of Clal's shares as collateral and has requested the Capital Markets, Savings and Insurance Commission to explain the reasons why it does not allow IDBD to secure debentures with up to 5% of Clal shares. The hearing was fixed for January 2017.

Borrowings (Continued)

In accordance with the decision rendered by the Supreme Court on the petition filed by IDBD to pledge Clal's shares in September, 2016, on October 13, 2016, the Board of Directors of IDBD resolved a partial early redemption of debentures, which was effected on November 1, 2016 as follows:

- i.
IDBD will carry out a partial early redemption of debentures for an approximately amount of NIS 239 million (equivalent to Ps. 3,659 at the prevailing exchange rate on September 30, 2016) at nominal value ("the redeemed portion") and a total of approximately NIS 244 million (equivalent to Ps. 3,736 at the exchange rate prevailing on September 30, 2016) with respect to principal, interest and compensation for early redemption.
- ii.
The deadline for early redemption calls of debentures principal was October 25, 2016.
- iii.
The early redemption represents 73.7% of the outstanding principal balance of NCN.
- iv.
The interest rate payable on the partial early redemption for the redeemed portion stood was approximately 1.8%.
- v.
The interest rate payable as part of the early redemption, computed on the outstanding principal balance as of the early redemption date (NIS 325 million adjustable pursuant to CPI, equivalent to Ps. 4,976 at the prevailing exchange rate on September 30, 2016) is approximately 1.3%.
- vi.
In accordance with the CPI corresponding to September (released on October 14, 2016), compared to the base index released in June 2016, there are no increases applicable to the redeemed portion in the early redemption.
- vii.
The principal outstanding balance of debentures after the early redemption shall total NIS 86 million (equivalent to Ps. 1,317 at the prevailing exchange rate on September 30, 2016) at nominal value, which amount makes up 26.3% of the original principal amount of the debentures at issuance. IDBD will try to pledge Clal's shares to secure the remaining principal balance of such debentures after carrying out the early redemption.
- viii.
In accordance with the provisions of the trust indenture, the redeemed portion will be paid pro rata the nominal value of the outstanding notes.

On August 4, 2016, DIC issued further debentures due 2025 in an amount of NIS 360 million (equivalent to Ps. 1,344). The bonds were placed at an internal rate of return of 5.70%.

23.
Borrowings (Continued)

IDBD has certain restrictions and financial covenants in connection with its financial debt, included in its debentures, loans from banks and financial institutions. It was agreed between IDBD and financial entities corporations that the parties would work to formulate an arrangement, to replace or amend the current financial covenants by March 2017. These covenants are currently suspended until December 2016. If such arrangement is not reached, then with respect to the results for IDBD's first quarter of 2017 and thereafter, the previous financial covenants will re-apply. In the event that these covenants will re-apply, IDBD estimates that it will not be able to meet the thresholds which were determined in the past with respect to the "Liquidity Covenant" and the "Economic Equity Covenant".

Groups of assets and liabilities held for sale

IDB Tourism is currently negotiating the sale of its equity interests in Open Sky Ltd. but the terms and conditions of such sale have not yet been fully finalized. The assets and liabilities related to the Open Sky Ltd. transaction have been reclassified in the statement of financial position as of September 30, 2016 under the available for sale line.

In addition, the equity interest of the Group in Adama and the related non-recourse loan have been reported in the statement of financial position as of September 30, 2016 under the available for sale line, due to the sale intent of such associate company, as indicated in Note 9 to these unaudited financial statements.

Pursuant to IFRS 5, assets and liabilities available for sale have been valued at the lower of their book value or fair value less selling cost. Since fair value is higher than book value of the pool of assets available for sale, no impairment has been recorded.

The following table shows the main assets and liabilities held for sale:

Group of assets held for sale:

	September 30, 2016
Property, plant and equipment	12
Intangible assets	4
Investments in associates	11,450

CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Group has entrusted the storage of certain non-sensitive and old information to the following providers:

Documentation storage provider	Location
Bank S.A.	<p>Gral. Rivas 401, Avellaneda, Province of Buenos Aires</p> <p>Ruta Panamericana Km 37,5, Garín, Province of Buenos Aires</p> <p>Av. Fleming 2190, Munro, Province of Buenos Aires</p> <p>Carlos Pellegrini 1401, Avellaneda, Province of Buenos Aires</p>

CNV General Ruling N° 629/14 – Storage of documentation (Continued)

It is further noted that a detailed list of all documentation held in custody by providers, as well as documentation required in section 5 a.3) of section I, Chapter V, Title II of the RULES (N.T. 2013 as amended) are available at the registered office.

On February 5, 2014 there was a widely known fire in Iron Mountain's warehouse, which company is a supplier of the Group and where Group's documentation was being kept. Based on the internal review carried out by the Group, duly reported to the CNV on February 12, 2014, the information kept at the Iron Mountain premises that were on fire do not appear to be sensitive or capable of affecting normal operations.

Subsequent events

Agreement for the sale of real property or shares of Cresca S.A.

On October 5, 2016, Brasilagro and Carlos Casado entered into an agreement whereby they agree to offer for sale all of the real property owned by Cresca at a price of at least US\$ 120 million or else 100% of the outstanding shares of Cresca. The maximum term agreed to receive tender offers for real property and shares is 120 days as from the execution of the agreement. If a tender offer is received to purchase the shares, the corresponding market value of the remaining assets minus liabilities should be added to the price mentioned above. In addition, if the term lapses without any tender offer being received, the parties irrevocably agree to carry out all acts and take all necessary steps to legally instrument a division of all Company's assets into two equal parts.

Shareholders' Meeting

On October 31, 2016, a Regular and Special Shareholders' Meeting of the Company was held and resolved that the loss for the fiscal year 2016 in the amount of Ps. 1,402 should be partially absorbed by reversing the Reserve for Future Dividends in an amount of Ps. 31, and by charging the remaining amount to Retained Earnings. The Meeting also approved the remuneration to be paid to the Board of Directors in an amount of Ps. 19 and to the Statutory Audit Committee in an amount of Ps. 0.6. The following matters were also resolved by the Shareholders' Meeting: the appointment of an independent auditor for the coming fiscal year and the remuneration payable to the auditor, an update run of the report on the shared service agreement, and the personal asset tax payable for shareholders. It also approved the distribution of Treasury shares for a total of 3,833,352 shares and renewed the powers delegated to the Board of Directors to define the timing and currency as well as other terms and conditions for the issuance of NCN under the simple corporate notes global program, for an amount of up to US\$ 300 million. It approved a merger by acquisition with AGRO MANAGERS and other related documentation and the indemnities granted to members of the Board, Statutory Auditors and Managers.

Subsequent events (Continued)

IRSA Shareholders' Meeting

On October 31, 2016, the annual Shareholder's Meeting of IRSA for the fiscal year ended June 30, 2016 approved the appropriation of loss for the fiscal year ended June 30, 2016 in the amount of Ps. 1,254, which is to be partially absorbed by the special reserve that was set up in an amount of Ps. 3 to record initial adjustments related to the adoption of IFRS. The remaining balance, that is a loss of Ps. 1,251, was charged to Retained Earnings. The Meeting also approved the performance of the Board of Directors, the appointment of new permanent and alternate members to the Statutory Audit Committee, and resolved to pay fees in the amount of Ps. 0.6. It further approved: the appointment of an independent auditor for the coming fiscal year and its remuneration, an update run of the report on shared services agreement, the amount of personal asset tax payable, the extension of the Global Program of simple, non-convertible notes, both secured and unsecured, or guaranteed by third parties by a maximum outstanding amount of up to US\$ 300 million

Issuance by PBC

In October 2016, PBC issued two series of non-convertible notes in an aggregate amount of NIS 501 million (equivalent to Ps. 2,044).

Dividends IRSA CP

The Shareholders' Meeting of IRSA CP, held on October 31, 2016, approved the distribution of a cash dividend in the amount of Ps. 460 and the authority to effect payment of such dividends was delegated to the Board of Directors. On November 3, 2016, the Board made the dividend available to the shareholders as from November 17, 2016.

Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim consolidated financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim consolidated statement of financial position as of September 30, 2016, and the unaudited condensed interim consolidated statements of income and comprehensive income for the three-month period ended September 30, 2016, the unaudited condensed interim consolidated statement of changes in shareholders’ equity and the unaudited condensed interim consolidated statement of cash flows for the three-month period ended September 30, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2016 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim consolidated financial statements in accordance with the International Financial Reporting Standards (IFRS), adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and , for this reason, is responsible for the preparation and presentation of the unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim consolidated financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income and consolidated statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim consolidated financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 1 of these unaudited condensed interim consolidated financial statements.

1.
General information

Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (“Cresud” or the “Company”) was founded in 1936 as a subsidiary of Credit Foncier, a Belgian company primarily engaged in providing rural and urban loans in Argentina and administering real estate holdings foreclosed by Credit Foncier. Credit Foncier was liquidated in 1959, and as part of such liquidation, the shares of Cresud were distributed to Credit Foncier’s shareholders. From the 1960s through the end of the 1970s, the business of Cresud shifted exclusively to agricultural activities.

Cresud is a company organized and domiciled in the Republic of Argentina. The address of its registered office is Moreno 877, 23rd Floor, Buenos Aires, Argentina.

These Unaudited Condensed Interim Separate Financial Statements have been approved for issue by the Board of Directors on November 11, 2016.

2.
Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements

2.1.
Basis of preparation

These Unaudited Condensed Interim Separate Financial Statements of the Company have been prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board (IASB).

On April 1, 2016, the Argentine Federation of Professional Councils of Economic Science (“FAPCE”, as per its Spanish acronym) approved Technical Resolution N° 43, which amends Technical Resolution N° 26, for fiscal years starting on January 1, 2016. Such Technical Resolution N° 43 provides that entities that file financial statements in accordance with the IFRSs, are expected to do it integrally and without modifications and that investments in subsidiaries, joint ventures and associates are to be accounted under the equity method in the separate financial statements, as established by IFRS, pursuant to the amendment established by the IASB to IAS 27 in August 2014. Thus, valuation at cost or fair value (which are additional measurements) is not permitted for these types of investments. Before such amendment, Technical Resolution N° 26 did not require an integral adoption of IFRS in separate financial statements, since the equity method was not a valuation option for such investments.

The Company has adopted Technical Resolution N° 43 for this fiscal year ending on June 30, 2017. As a result, these individual condensed interim financial statements are the first to be prepared in accordance with the IFRS; its transition date is July 1, 2015 and, therefore, the provisions of IRFS 1 “First-Time Adoption of International Financial Reporting Standards” should be applied as of that date.

2.
Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

IFRS 1 mandatorily establishes that an entity must apply the requirements of IFRS 10 “Consolidated financial statements” for accounting of changes in a parent’s ownership interest in a subsidiary that do not result in a loss of control prospectively. Under IFRS, the Company accounts for acquisitions and disposals of non-controlling interests that do not result in change of control as business combinations. The Group did not restate these acquisitions and disposals prior to transition date.

Furthermore, IFRS 1 also provides that, where a first time IFRS adopter entity decides to account for investments in subsidiaries under the equity method in accordance with IAS 28, the entity should apply the exemption for business combinations conducted before the transition date. This exemption involves applying IFRS 3 “Business Combinations” on a prospective basis to business combinations conducted after the transition date. Business combinations occurring prior to the transition date have not been restated.

The other compulsory and optional exceptions of IFRS 1 have not been applied, as these are not relevant to the Group.

Below there is a comparison between shareholders’ equity computed under the previous standards and in accordance with IFRS 1 as of July 1, 2015.

(a)
Include adjustment due to change to accounting standards (see Note 2.2.1 to the unaudited condensed interim consolidated financial statements).

Amounts as of June 30, 2016 and September 30, 2015, which are disclosed for comparative purposes have been modified in order to present the mentioned adjustments. The notes below include a reconciliation of shareholders’ equity figures of condensed interim separate financial statements prepared in accordance with the Technical Resolution N° 26 on the closing date of the comparative period and the statement of income and other comprehensive income figures for the three-month period ended September 30, 2015 and those presented in accordance with IFRS in these unaudited condensed interim separate financial statements, as well as the effects of the adjustments to cash flow.

The Unaudited Condensed Interim Separate Financial Statements of the Company for the three-month periods ended September 30, 2016 have been prepared in accordance with IAS 34 "Interim Financial Reporting".

2.2.
Reconciliations of Technical Resolution N° 26 to IFRS

The notes below include a reconciliation of shareholders' equity prepared in accordance with Technical Resolution N° 26 and those presented in accordance with IFRS as of June 30, 2016 and September 30, 2015, and the reconciliations of net income and cash flows for the year ended June 30, 2016 and for the three-month period ended September 30, 2015. The reconciliations included below were prepared based on the IFRS standards that are estimated to be applicable for the Company for the financial statements as of and for the year ended June 30, 2017. The items and amounts in the reconciliations included below are subject to change and should only be deemed final when the consolidated financial statements prepared under IFRS for the first time as of and for the year ended June 30, 2013 are issued.

The items and amounts included in the reconciliations could be modified to the extent that, when preparing financial statements as of and for the year ended June 30, 2017, applicable standards are different.

The first reconciliation provides an overview of the impact on equity, at September 30, 2015 and June 30, 2016 (Note 2.2.1). The second reconciliation provides an overview of the impact on income for the period ended as of September 30, 2015 and for the fiscal year ended as of June 30, 2016 (Note 2.2.2). The mentioned reconciliations do not have impact on other comprehensive income nor the statements of cash flows.

Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

2.2.3
Explanation of the transition to IFRS

Technical Resolution N° 26 – The Company accounts for investments in subsidiaries under the equity method including any adjustment in the consolidated financial statements, so that the equity and income corresponding to the majority interest resulting from consolidated financial statements filed together with separate financial statements are the same in both sets of financial statements.

IFRS - Investments in entities in which the Company exercises control, are accounted for under the equity method. Under this method, the investment is recorded at original cost and periodically increased (decreased) by the investor's proportionate share of earnings (losses) and other comprehensive income of the subsidiary and decreased by all dividends received from the subsidiary.

In accordance with IFRS 28, paragraph 27, the interest in the investee is computed based on the consolidated financial statements of such investee after any adjustment related to unification of accounting criteria, without regard to any interest that the investee may have in other entities. As a result, the company has recognized its direct interest related to investments in subsidiaries, associates and companies under joint control, based on the consolidated financial statements of such companies.

Below is an outline of the adjustments recorded as explained above in relation to transactions affecting the non-controlling interest reserve of its subsidiaries, associates and entities under joint control where the company holds a direct interest:

Acquisition of additional interests in controlled companies: the acquisition price in excess of the book value of the subsidiary is recorded as an increase in assets.

Sale of interest in controlling companies where control is not lost: the difference between the sale price charged for the shares and the book value is recorded in the statement of income.

Dilution of interest, other shareholders: the result caused by the interest dilution has been recorded in the statement of income.

The non-controlling interest reserve set up before July 1, 2015 has been reclassified under retained earnings.

Basis of preparation of the Unaudited Condensed Interim Separate Financial Statements (Continued)

2.3.
Significant accounting policies

The accounting policies applied in the preparation of these Unaudited Condensed Interim Financial Statements are consistent with those applied in the annual financial statements as of June 30, 2016, except for the changes generated by implementation of Technical Resolution N° 43, as described in Note 2.1.

2.4.
Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Future results might differ from the estimates and evaluations made at the date of preparation of these Unaudited Interim Condensed Separate Financial Statements.

In the preparation of these Unaudited Condensed Interim Separate Financial Statements, the significant judgments made by Management in applying the Company's accounting policies and the main sources of uncertainty were the same applied by the Company in the preparation of the annual separate financial statements for the fiscal year ended June 30, 2016, except for changes in provisions for income tax, for legal claims and for doubtful accounts.

3.
Seasonal effects on operations

The operations of the Company are also subject to seasonal effects. The harvests and sale of grains (corn, soybean and sunflower) generally take place between January and September every year. Wheat is generally harvested between November and February every year. However, milk production is generally larger during the second quarter, when conditions are more favorable. As a result, there may be material fluctuations in the agricultural business results each quarter.

4.
Acquisitions and disposals

See summary of acquisitions and additional disposals of the Company for the three-month period ended September 30, 2016 in Note 4 to Unaudited Condensed Interim Consolidated Financial Statements.

5.
Financial risk management and fair value estimates

5.1.
Financial risk

The Company's activities are exposed to several financial risks, market risk (including exchange rate risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The Unaudited Condensed Interim Separate Financial Statements do not include all the information and disclosures of the risk management, so they should be read together with the annual separate financial statements as of June 30, 2016. There have been no significant changes in the risk management or risk management policies applied by the Company since the fiscal year-end.

5.2.
Fair value estimates

Since June 30, 2016, to the balance sheet date, there have been no significant changes in business or economic circumstances affecting the fair value of the Company's financial assets, liabilities or biological assets (either measured at fair value or amortized cost). Nor there have been transfers between the several hierarchies used in estimating the fair value of the Company's financial instruments, or reclassifications among their respective categories.

6.
Information about principal subsidiaries, associates and joint ventures

The Company conducts its business through several subsidiaries, associates and joint ventures.

As mentioned in Note 1 to the Consolidated Financial Statements as of June 30, 2016, on October 11, 2015 IRSA acquired control over IDBD. This Israeli company is one of the largest and most significant conglomerates of Israel, which takes part in many markets and sectors of the industry. Factors namely (i) IDBD's current financial position and need for financing to honor its financial liabilities and other commitments, (ii) the renegotiation underway with financial creditors, and (iii) the term set by Israel's governmental authorities to sell the equity interest in Clal and the potential effects of such sale, in particular, on its market value, raise significant uncertainties as to IDBD's capacity to continue as a going-concern.

13.
Trade and other receivables (Continued)

The fair value of current trade and other receivables approximate their respective carrying amounts because, due to their short-term nature, as the impact of discounting is not considered significant. Fair values are based on discounted cash flows (Level 2 of fair value hierarchy).

The carrying amounts of the Company's trade and other receivables denominated in foreign currencies are detailed in Note 31.

Trade receivables are generally presented in the statement of financial position net of allowances for doubtful receivables. Impairment policies and procedures by type of receivables are discussed in detail in Note 2.16 to the Consolidated Financial Statements as of June 30, 2016.

Movements on the Company's allowance for doubtful accounts are as follows:

	September 30, 2016	June 30, 2016
Beginning of the period / year	8	8
Charges	-	-
End of the period / year	8	8

The addition and release of allowance for doubtful accounts have been included in "Selling expenses" in the statement of income (Note 23). Amounts charged to the provision account are generally written off when there is no expectation of recovering additional cash.

CNV General Ruling N° 629/14 – Storage of documentation

On August 14, 2014, the CNV issued General Ruling N° 629 whereby it introduced amendments to rules related to storage and conservation of corporate books, accounting books and commercial documentation. In this sense, it should be noted that the Company has entrusted the storage of certain non-sensitive and old information to the following providers:

Documentation storage
provider

Location

Bank S.A.

Ruta Panamericana Km 37,5, Garín, Province of Buenos Aires
Av. Fleming 2190, Munro, Province of Buenos Aires

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS

To the Shareholders, President and Directors of
Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria
Legal address: Moreno 877 – 23° floor
Autonomous City Buenos Aires
Tax Code No. 30-50930070-0

Introduction

We have reviewed the unaudited condensed interim separate financial statements of Cresud Sociedad Anónima, Comercial, Inmobiliaria, Financiera y Agropecuaria (hereinafter “the Company”) which included the unaudited condensed interim separate statement of financial position as of September 30, 2016, and the unaudited condensed interim separate statements of income and comprehensive income for the three-month period ended September 30, 2016, the unaudited condensed interim separate statements of changes in shareholders’ equity and the unaudited condensed interim separate statements of cash flows for the three-month period ended September 30, 2016 and selected explanatory notes.

The balances and other information corresponding to the fiscal year ended June 30, 2016 and the interim periods within that fiscal period are an integral part of these financial statements and, therefore, they should be considered in relation to those financial statements.

Management responsibility

The Board of Directors of the Company is responsible for the preparation and presentation of these unaudited condensed interim separate financial statements in accordance with the International Financial Reporting Standards (IFRS) adopted by the Argentine Federation of Professional Councils in Economic Sciences (FACPCE) as professional accounting standards and added by the National Securities Commission (CNV) to its regulations, as approved by the International Accounting Standard Board (IASB) and, for this reason, is responsible for the preparation and presentation of the unaudited condensed interim separate financial statements above mentioned in the introductory paragraph according to the International Accounting Standard No 34 "Interim Financial Reporting" (IAS 34).

REVIEW REPORT ON THE UNAUDITED CONDENSED
INTERIM SEPARATE FINANCIAL STATEMENTS (Continued)

Scope of our review

Our review was limited to the application of the procedures established in the International Standard on Review Engagements ISRE 2410 "Review of interim financial information performed by the independent auditor of the entity", which was adopted as a review standard in Argentina in Technical Resolution No. 33 of the FACPCE, without modification as approved by the International Auditing and Assurance Standards Board (IAASB). A review of interim financial information consists of making inquiries of persons responsible for the preparation of the information included in the unaudited condensed interim separate financial statements, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the separate statement of financial position, the separate statement of income, the separate statement of comprehensive income and the separate statement of cash flows of the Company.

Conclusion

Nothing came to our attention as a result of our review that caused us to believe that these unaudited condensed interim separate financial statements above mentioned in the introductory paragraph of this report have not been prepared in all material respects in accordance with International Accounting Standard 34.

Emphasis paragraph

Without modifying our conclusion, we want to refer to the information included in Note 6 of these unaudited condensed interim separate financial statements.

The Company's consolidated results reflect in all lines the material accounting impact of the consolidation of the investment made by our subsidiary IRSA Inversiones y Representaciones S.A. in the Israeli holding company IDB Development Corporation since IIQ16. Revenues and profits from operations for the first 3 months of 2017 reached ARS 19,750 million and ARS 1,133 million, respectively. In turn, the Company recorded a net loss of ARS 873 million for the 3-month period of 2017 compared to a net loss of ARS 356 million for the 3-month period of 2016, mainly explained by higher financial expenses and exchange rate differences.

Agricultural Business

Period Summary

The 2017 season has been developing under the “El Niño” pattern in Argentina, with above-average rainfall rates. To date, we have planted approximately 16% of the area planned for this season, and we increased the area leased to third parties by 42% as compared to the previous season. Moreover, we expect sustained commodity prices for this season.

As concerns land development and sale of farms, during this season we increased the area under development as compared to the previous seasons, in light of the more favorable macroeconomic conditions, while we also managed to consummate the sale of two farms comprising 2,615 hectares intended for agriculture in the Province of La Pampa

(Argentina) for USD 6 million.

Our Portfolio

Our portfolio is composed of 283,983 hectares in operation and 474,956 hectares of land reserves distributed among 4 countries in the region: Argentina, with a mixed model combining land development and agricultural production; Bolivia, with a productive model in Santa Cruz de la Sierra; and through our subsidiary BrasilAgro, Brazil and Paraguay, where the strategy is exclusively focused on the development of lands.

(**) Includes 85,000 hectares intended for sheep breeding.

Agricultural Segment Income

I)

Land Development, Transformation and Sales

We periodically sell properties that have reached a considerable appraisal to reinvest in new farms with higher appreciation potential. We analyze the possibility of selling based on a number of factors, including the expected future yield of the farmland for continued agricultural and livestock exploitation, the availability of other investment opportunities and cyclical factors that have a bearing on the global values of farmlands.

During the first quarter of fiscal year 2017 we sold “El Invierno” and “La Esperanza” farms comprising 2,615 hectares intended for agriculture, located in the district of “Rancul”, Province of La Pampa. The total transaction amount was USD 6 million (USD 2,294/hectare). These farms were valued at approximately ARS 13.5 million. For such reason, profit from operations of this segment was ARS 68.0 million, and consequently, income from this segment increased ARS 70.0 million as compared to the same period of the previous fiscal year.

During this season we expect to transform 12,924 hectares in the region: 9,601 hectares in Brazil; 1,553 hectares in Paraguay; and 1,770 hectares in Argentina. We increased the area under development compared with the figures announced at the start of the season due to the improvement in operating margins in the agricultural business and the lower development costs in dollars.

Income from the Crops segment decreased by ARS 114 million, down from a loss of ARS 26 million during IQ16 to a loss of ARS 140 million IQ17, mainly due to:

- o A loss of ARS 145 million, originated mainly in Argentina as a result of the pullback in corn and soybean prices throughout IQ17 after the peak recorded at the end of June 2016, reflected in sale and holding results, offset by
- o ARS 27 million in income from forward transactions originated mainly in soybean derivatives.

The Sugarcane segment's income was similar to the one recorded in the first quarter of fiscal year 2016, explained by the output posted by Brazil and Bolivia, in a context of higher prices and lower yields.

III: Other Segments

Under “Others” we report the results from Agricultural Rental and Services, Agro-industrial Activities and our investment in FyO.

The “Others” segment recorded an income of ARS 46 million in IQ17, mostly explained by the results of our subsidiary Futuros y Opciones, which is mainly engaged in the trading of crops and sale of inputs. Futuros y Opciones recorded an income of ARS 62.5 million reflecting the upsurge in the grain consignment business, the recovery of the input business as growers opted not to invest in technology, and a higher turnover from the brokerage business hand in hand with a more competitive exchange rate than in the past year. In contrast, our agroindustrial business developed in our meat packing plant in La Pampa recorded a higher loss.

Urban Properties and Investments Business (through our subsidiary IRSA Inversiones y Representaciones Sociedad Anónima)

We develop our Urban Properties and Investments segment through our subsidiary IRSA. As of September 30, 2016, our equity interest in IRSA was 63.38% over stock capital (63.77% considering repurchased treasury stock).

Argentine Operating Center

IRSA is one of Argentina's leading real estate companies in terms of total assets. IRSA is engaged, directly or indirectly through subsidiaries and joint ventures, in a range of diversified real estate related activities in Argentina and abroad, including:

The acquisition, development and operation of shopping centers and offices, through its interest of 94.61% in IRSA Propiedades Comerciales S.A. (continuing company of Alto Palermo S.A.), one of Argentina's leading operators of commercial real estate with a controlling interest in 16 shopping centers and 6 office buildings totaling 414,000 sqm of Gross Leaseable Area (335,000 in shopping centers and 79,000 in offices).

The acquisition and development of residential properties and the acquisition of undeveloped land reserves for future development or sale.

The acquisition and operation of luxury hotels.

Selective investments outside Argentina.

Financial investments, including IRSA's current 29.91% equity interest in Banco Hipotecario, which is one of the leading financial institutions in Argentina.

International investments, including a 49% interest in the Lipstick Building in New York and 49% of the voting rights in the Condor Hospitality Trust hotel REIT (NASDAQ: CDOR).

As concerns the shopping centers' segment, during the first three months of fiscal year 2017, our tenants' sales reached ARS 7,971.2 million, 21.0% higher than in the same period of 2016. Our portfolio's leasable area totaled 335,032 square meters during the quarter under review, whereas the occupancy rate stood at optimum levels of 98.4%, reflecting the quality of our portfolio. Revenues from this segment grew 28.0% during this three-month period, whereas EBITDA reached ARS 512 million (+ 21.9% compared to the same period of 2016). The EBITDA margin, excluding income from expenses and collective promotion fund, was 75.0%, 3.8 pp below the figure recorded in the previous fiscal year.

As concerns the offices' segment, revenues increased by 34.7% in the three-month period of fiscal year 2017 due to higher rental prices in ARS/sqm, as lease agreements are denominated in U.S. dollars. In addition, the portfolio's occupancy reached 100%. The portfolio's rental prices in USD/sqm were slightly lower, at USD 25.5 per sqm due to the occupancy of 2 floors at the Suipacha building, whose rental prices are lower than the portfolio's average. The segment's EBITDA grew by 29.6% during the period under review, reaching ARS 70 million.

As concerns the sales and developments segment, for the three-month period of fiscal year 2017, EBITDA was negative for ARS 51 million, reflecting the fact that no sales of investment properties were made in the first quarter of FY 2017, while 1,761 sqm had been sold in the first quarter of FY 2016, corresponding to 4 floors of the Maipú 1300 building, 7 floors and 56 parking spaces of the Intercontinental Plaza building (through IRSA Propiedades Comerciales) and the Isla Sirgadero plot, located in the Province of Santa Fe.

Israeli Operating Center

As of September 30, 2016, the investment made in IDBD amounted to USD 515 million and IRSA's indirect equity interest reached 68.3% of IDBD's stock capital.

The revenues and operating income from the Real Estate Properties segment through the subsidiary Property & Building (“PBC”) reached ARS 1,049 million and ARS 355 million, respectively (USD 73 million and USD 25 million, respectively) during the consolidated quarter (March 31, 2016 to June 30, 2016). During this quarter, there was an increase in rental income and occupancy rates from PBC’s investment properties, mainly the HSBC building in the City of New York.

The Supermarkets segment, through Shufersal, recorded revenues of ARS 11,535 million (USD 795 million) for the quarter, mainly due to an increase in revenues from the retail segment, offset by a 6.8% decrease in revenues from the real estate segment. Same-store sales rose 14.2% during the quarter under review, compared to the same quarter of fiscal year 2015. Operating income from this segment reached ARS 449 million (USD 26 million).

The Telecommunications segment, operated by Cellcom, recorded revenues of ARS 3,901 million (USD 266 million). There was a decrease in revenues as compared to the same quarter of 2015 in both revenues from services and revenues from handsets. The reduction in revenues from services during the quarter under review mainly reflected lower revenues from cell telephone services due to the continued erosion of the price of these services as a result of stronger competition in the cell telephone market and lower revenues from international call services. The reduction in the revenues from handsets during the fourth quarter of 2015 was mainly due to the reduction in the number of cell phones sold during the quarter under review as compared to the same quarter of 2015, partially offset by an increase in revenues from handsets for Netvision’s final users. Operating income for the quarter under review was ARS 80 million (USD 4 million).

The Others segment recorded revenues for ARS 914 million (USD 72 million), and an operating loss of ARS 185 million (USD 7 million).

As concerns “Clal”, the Group values its interest in this insurance company as a financial asset at fair value. The valuation of Clal’s shares was ARS 4,792 million (USD 316 million) as of June 30, 2016.

Material and Subsequent Events

General Ordinary and Extraordinary Shareholders' Meeting

On October 31, 2016, the Company's General Ordinary and Extraordinary Shareholders' Meeting was held, which dealt with the following matters, among others:

Update on shared services agreement report.

Approval of sums paid as personal asset tax levied on the shareholders.

Renewal of delegation of powers conferred to the Board of Directors in order to determine the time and currency of issuance and further terms and conditions governing the issue of notes under the global note program.

Grant of indemnities to the Directors, Statutory Auditors and Managers who perform or have performed duties for the Company accessorially to the D&O policies.

Approval of special merger balance sheet of AGRO MANAGERS S.A.

Distribution of treasury shares

Agreement for the sale of real estate or shares of Cresca S.A.

On October 5, 2016, our subsidiary Brasilagro and Carlos Casado executed an agreement whereby they proposed to offer for sale all the real estate owned by Cresca for a price of not less than USD 120 million or 100% of Cresca's outstanding shares. The real estate and shares will be offered for a term of 120 calendar days after the execution date. If a proposal for the shares is received, the fair value of the rest of the assets (less the liabilities) will be added to the above mentioned price. Moreover, if no sale is made upon expiration of the term, the parties irrevocably promise to take all such actions and carry out all such proceedings as necessary for implementing the division of the Company's assets into two equivalent portions.

Prospects for the next fiscal year

The 2017 crop season has been developing under the “El Niño” pattern in Argentina, with above-average rainfall rates. To date, we have planted approximately 20% of the area planned for this season, and we increased the area leased to third parties by 42% as compared to the previous season. Moreover, we expect sustained commodity prices for this season.

In Argentina, we expect sustained prices for cattle and satisfactory production figures; yet, with rising costs. We will continue to work efficiently towards reaching the highest operating margins possible. In the case of our “El Tigre” dairy facility, where we have consolidated all our milk production, we are following our strategy consisting in the selective sale of milking cows and keeping the more productive herd. The milk business is suffering a highly depressed price scenario, which we expect to be reverted in the next months.

In connection with our meat packing plant, which we hold through our interest in Carnes Pampeanas, we will continue working towards optimizing margins in light of the favorable changes in market conditions, aimed at regaining profitability.

As concerns land transformation and value-adding activities, we will make progress in the development of our farms in Argentina, Paraguay and Brazil. Although in the past years our land transformation activities developed at a slower pace than historically due to the high development costs and production profitability conditions, the current macroeconomic conditions are more favorable, and we expect to be able to resume our historic levels at lower transformation costs.

We remain watchful of sale opportunities that may arise and we will continue to dispose of those farms that have reached their highest degree of appreciation, whilst continuing to analyze opportunities in other countries of the region with the objective to put together a regional portfolio with major development and appreciation potential.

Our urban subsidiary IRSA Inversiones y Representaciones S.A. keeps recording sound results in its various business lines. Prospects are positive, as the company has a large reserve of lands intended for future shopping center, office, and mixed-use developments in an industry scenario with high growth potential. Moreover, as concerns the investment in the Israeli company IDBD, its indebtedness level has been significantly reduced and a strategy intended to improve operating margins in each of its business units has been launched.

We believe that companies such as Cresud, with a track record going back so many years and vast industry knowledge will have outstanding possibilities of taking advantage of the best opportunities arising in the market, much more so considering that our main task is to produce food for a growing and demanding world population.
