NOTE 1 – BUSINESS AND GOING CONCERN

Organization

Kallo Inc. ("Kallo" or the "Company") develops customized health care solutions designed to improve or enhance the delivery of care in the countries and regions we serve.

Going Concern

The accompanying unaudited consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The amounts of assets and liabilities in the consolidated financial statements do not purport to represent realizable or settlement values. The Company has incurred operating losses since inception and has an accumulated deficit and a working capital deficit at June 30, 2018. The Company is expected to incur additional losses as it executes its go to market strategy. This raises substantial doubt about the Company's ability to continue as a going concern.

The Company has met its historical working capital requirements from the sale of common shares and short term loans. In order to not burden the Company, the officer/stockholder has agreed to provide funding to the Company to pay its annual audit fees, filing costs and legal fees as long as the board of directors deems it necessary. However, there can be no assurance that such financial support shall be ongoing or available on terms or conditions acceptable to the Company. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 – ACCOUNTING POLICIES AND OPERATIONS

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X related to smaller reporting companies. These unaudited consolidated financial statements should be read in conjunction with the annual audited consolidated financial statements and notes, which are included as part of the Company's Form 10-K filed with the SEC for the year ended December 31, 2017.

Operating results for the periods presented are not necessarily indicative of the results that may be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited consolidated financial statements for fiscal year ended December 31, 2017 as reported in the 10-K have been omitted. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation, have been included in the accompanying unaudited consolidated financial statements.

Recently Adopted Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The effective date will be the first quarter of fiscal year 2018 using one of two retrospective application methods or a cumulative effect approach. The Company applied the amendment retrospectively with the cumulative effect of initially applying this update recognized at the date of initial application but it did not have a material impact on the consolidated financial statements as there were insignificant revenues in the past.

(Amounts expressed in US dollars)

(Unaudited)

NOTE 3 – COMMON STOCK

During the six months ended June 30, 2018, there were no movements in share capital issued and outstanding.

On April 18, 2017, the Board of Directors approved a reverse stock split of the authorized and outstanding shares of common stock on a 1 for 600 basis, after which, the authorized number of common stock decreased from 15,000,000,000 to 25,000,000. After the completion of the reverse stock split, the Board of Directors approved the increase of the authorized number of common stock from 25,000,000 to 1,150,000,000. FINRA approved the reverse stock split in December 2017. The common share and per common share data in these financial statements and related notes hereto have been retroactively adjusted to account for the effect of the reverse stock split for all periods presented.

On April 8, 2017, the Company entered into an agreement with FE Pharmacy Inc., a company controlled by a shareholder of Kallo, and a related party, whereby in consideration for the issuance of 475,000,000 post reverse stock split common stock of Kallo, FE Pharmacy Inc. assumed and will pay all of the Company's outstanding indebtedness as at April 7, 2017. The 475,000,000 shares issuable to FE Pharmacy Inc. has been valued at the book value of the total liabilities assigned to FE Pharmacy Inc. of \$4,135,037. The assignment of the liabilities to FE Pharmacy Inc. has been recorded as a receivable in the equity section of the consolidated balance sheet and will be reduced as the liabilities are settled by FE Pharmacy Inc. During the six months ended June 30, 2018, the assignment of liabilities amount has been reduced by \$137,907 cash settlement of accounts payable.

On May 25, 2017, the Company approved the issuance of 595,000,000 post reverse stock split common stock valued at \$5,179,678 to various directors and employees as compensation for services rendered and 16,000,000 post reverse stock split common stock valued at \$139,285 to a consultant as compensation for services rendered and for nominal cash. Because FINRA had not yet approved the reverse stock split at that time, the 611,000,000 shares issued during the quarter ended June 30, 2017 were reduced to 1,018,333 when the reverse stock split became effective and 609,981,667 additional post reverse stock split shares were issued to make them whole again.

During the six months ended June 30, 2017, the holders of promissory notes converted the principal and the related interest outstanding of \$39,644 into 720,806,182 shares. The fair value of the derivative liability associated with the notes that were converted, \$21,310 was reclassified to equity upon conversion. Therefore the Company recorded \$60,954 in conjunction with the conversions.

NOTE 4 – RELATED PARTY TRANSACTIONS

Included in accounts payable and accrued liabilities is an amount of \$786,182 (December 31, 2017 - \$667,239) due to directors of the Company as of June 30, 2018.

Table of Contents

KALLO INC.

Notes to Consolidated Financial Statements

NOTE 5 – CONVERTIBLE LOANS PAYABLE

	June 30, 2018	December 31, 2017
Convertible promissory notes bearing interest at 15% per annum – third party	\$227,842	\$215,520
Convertible promissory notes bearing interest at 15% per annum – related parties	777,112	734,246
	\$1,004,954	\$949,766

The Convertible loans payable bear 15% interest per annum and are convertible at a fixed price at any time during their 1 year term. The company has the option to pay the note at any time. The company analyzed the conversion option for derivative accounting consideration under ASC Topic 815-40, Derivatives and Hedging – Contract in Entity's Own Stock and concluded that the embedded conversion was a derivative but the fair value of the feature was zero. The total outstanding notes from this debt offering is \$1,004,954, including accrued interest, of which \$777,112 is to from related parties. Interest of \$55,188 on the convertible loans payable are included in net finance charge for the six months ended June 30, 2018 included in the consolidated statement of operations. All of the above convertible loans payable were in default as of June 30, 2018.

NOTE 6 – SHORT TERM LOANS PAYABLE

	June 30, 2018	December 31, 2017
Non-interest bearing short term funding from third parties	\$17,006	\$17,827
	\$17,006	\$17,827

As of June 30, 2018, the balance of \$17,006 represented short term funding provided by third parties which are non-interest bearing, unsecured and have no fixed repayment date. The amount in Canadian dollars is \$22,016 which is subject to revaluation at the end of each quarter.

NOTE 7 – COMMITMENTS AND CONTINGENCIES

Agreements with suppliers

The Company has entered into agreements with a number of service providers for licensing of software and other professional services to be rendered. The total remaining amount committed is \$2,773,737.

Contingencies

On April 21, 2017, an ex-employee of Kallo obtained a judgement ordering Kallo to pay Canadian \$ 135,959 for unpaid wages and expenses relating to services performed in 2016. The full amount has been accrued for in the financial statements of Kallo.

On October 24, 2016, a consultant obtained a judgement ordering Kallo to pay Canadian \$25,000 for unpaid fees. The full amount has been accrued for in the financial statements of Kallo.

On October 6, 2017, Thornley Fallis Communications Inc. ("Thornley") commenced a third party claim against Kallo concerning monies that Kallo allegedly owed to Thornley for redesign of a website and public relation services. Thornley is seeking damages in the amount of Canadian \$169,345 plus interest on the amounts outstanding and indemnification of the costs of the action. An amount of Canadian \$134,960 has been accrued for in the financial statements of Kallo.

There is also a claim by Commercial Credit Adjusters on behalf of Northwest Company for payment of Canadian \$34,000. An amount of Canadian \$26,515 has been accrued for in the financial statements of Kallo. Negotiations are in process for the settlement of this debt for a lump sum.

Canada Revenue Agency has assessed the Company for Canadian \$255,400 representing unremitted employee source deductions, the full amount of which has been accrued in the financial statements of Kallo.

Responsibility for payments of the above claims has been assumed by FE Pharmacy Inc. under the terms of the agreement mentioned in Note 3.

NOTE 8 – SUBSEQUENT EVENTS

After June 30, 2018, accounts payable for a total of \$39,059 were settled in cash by FE Pharmacy Inc. under the agreement mentioned in Note 3.

Table of Contents

As used herein, the term "we," "us," "our," and the "Company" refers to Kallo, Inc. a Nevada corporation.

FORWARD-LOOKING STATEMENTS

THIS FORM 10-Q CONTAINS "FORWARD-LOOKING STATEMENTS". FORWARD-LOOKING STATEMENTS ARE STATEMENTS CONCERNING ESTIMATES, PLANS, OBJECTIVES, GOALS, STRATEGIES, EXPECTATIONS, INTENTIONS, PROJECTIONS, DEVELOPMENTS, FUTURE EVENTS, PERFORMANCE OR PRODUCTS, UNDERLYING (EXPRESSED OR IMPLIED) ASSUMPTIONS AND OTHER STATEMENTS THAT ARE OTHER THAN HISTORICAL FACTS. IN SOME CASES FORWARD-LOOKING STATEMENTS CAN BE IDENTIFIED BY THE USE OF FORWARD-LOOKING WORDS SUCH AS "ESTIMATED," "BELIEVES," "EXPECTS," "MAY," "WILL," "SHOULD," OR "ANTICIPATES," OR THE NEGATIVE OF THESE WORDS OR OTHER VARIATIONS OF THESE WORDS OR COMPARABLE WORDS, OR BY DISCUSSIONS OF PLANS OR STRATEGY THAT INVOLVE RISKS AND UNCERTAINTIES. MANAGEMENT WISHES TO CAUTION THE READER THAT THESE FORWARD-LOOKING STATEMENTS, INCLUDING, BUT NOT LIMITED TO, STATEMENTS REGARDING THE COMPANY AND ITS PLANS OR INTENTIONS, ESTIMATES, GOALS, COMPETITIVE TRENDS AND OTHER MATTERS THAT ARE NOT HISTORICAL FACTS ARE ONLY PREDICTIONS. NO ASSURANCES CAN BE GIVEN THAT SUCH PREDICTIONS WILL PROVE CORRECT OR THAT THE ANTICIPATED FUTURE RESULTS WILL BE ACHIEVED. ACTUAL EVENTS OR RESULTS MAY DIFFER MATERIALLY EITHER BECAUSE ONE OR MORE PREDICTIONS PROVE TO BE ERRONEOUS OR AS A RESULT OF OTHER RISKS FACING THE COMPANY. FORWARD-LOOKING STATEMENTS SHOULD BE READ IN LIGHT OF THE CAUTIONARY STATEMENTS AND IMPORTANT FACTORS DESCRIBED IN THIS FORM 10-Q, INCLUDING, BUT NOT LIMITED TO "THE FACTORS THAT MAY AFFECT FUTURE RESULTS" SHOWN AS ITEM 1A AND IN MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS. THE RISKS INCLUDE, BUT ARE NOT LIMITED TO, THE RISKS ASSOCIATED WITH AN EARLY-STAGE COMPANY HAS LIMITED ASSETS AND OPERATIONS, THE COMPARATIVELY LIMITED FINANCIAL RESOURCES OF THE COMPANY, THE INTENSE COMPETITION THE COMPANY FACES FROM OTHER ESTABLISHED COMPETITORS, AND THE LEGAL UNCERTAINTIES THAT DIRECTLY AND INDIRECTLY IMPACT DEVELOPMENT-STAGE COMPANIES. ANY ONE OR MORE OF THESE OR OTHER RISKS COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THE FUTURE RESULTS INDICATED, EXPRESSED, OR IMPLIED IN SUCH FORWARD-LOOKING STATEMENTS. WE UNDERTAKE NO OBLIGATION TO UPDATE OR REVISE ANY FORWARD-LOOKING STATEMENT TO REFLECT EVENTS, CIRCUMSTANCES, OR NEW INFORMATION AFTER THE DATE OF THIS FORM 10-Q OR TO REFLECT THE OCCURRENCE OF UNANTICIPATED OR OTHER SUBSEQUENT EVENTS.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This section of the report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions. All funds are reflected in United States dollars unless otherwise indicated.

We are a small company and we are insolvent. There is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills. This is because we have generated insignificant revenues from our operations during the last eight years. We have been able to remain in business as a result of investments, in debt or equity securities, by our officers and directors and by other unrelated parties. We expect to incur operating losses in the foreseeable future and our ability to continue as a going concern is dependent upon our ability to raise additional money through investments by others and achieve profitable operations. There is no assurance that we will be able to raise additional money or that additional money or that additional financing will be available to us on satisfactory terms or that we will be able to achieve profitable operations. The consolidated statements were prepared under the assumption that we will continue as a going concern, however, there can be no assurance that such financial support shall be ongoing or available on terms or conditions acceptable to the Company. This raises substantial doubt about our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

For the last eight fiscal years, starting January 2010, our management and board of directors have raised funds through a personal and professional network of investors. This has allowed us to pursue, on a limited basis, product and business development, continued operations, and generation of customer interest. In order to continue operations, management has contemplated several options to raise capital and sustain operations in the next 12 months. These options include, but are not limited to, debt and equity offers to existing shareholders, debt and equity offers to independent investment professionals and through various other financing alternatives. We currently believe that if we can secure sufficient additional capital on reasonable terms and on a timely basis and if we are successful in securing at least one project that likely will enable us to continue operations for the next 12 months. There can be no guarantee that we will receive sufficient additional capital on a timely basis and on reasonable terms that will allow us to continue to remain in business. Currently we have not received any commitment from any third party to provide the additional capital that we believe we will require to sustain our company as a corporate entity or otherwise allow us to meet our financial obligations. In the event that we are unable to obtain sufficient additional funds on a timely basis, we may be facing adverse actions from our creditors that we would not likely be able to resolve on any reasonable terms.

On April 8, 2017, the Company entered into an agreement with FE Pharmacy Inc. whereby in consideration for the issuance of 475,000,000 post reverse stock split common stock of Kallo, FE Pharmacy Inc. assumed and will pay all of the Company's outstanding indebtedness as of April 7, 2017. Management believes that with this agreement in place, it can concentrate on bringing the potential projects as detailed below to fruition and any additional funding can be met through one of the three options mentioned above.

On January 23, 2014, we announced the signing of a US\$200,000,925 (Two Hundred million nine hundred and twenty-five US dollars) Supply Contract with the Ministry of Health and Public Hygiene of the Republic Of Guinea. On April 14, 2015, the Minister of Health and Public Hygiene, in a letter confirmed the selection of Kallo Inc., as supplier pursuant to the MobileCare™ Supply Contract, to design and build specialized hospitals in the regions of Conakry, Kindia, Labe, Kankan and Nzerekore, and asked Kallo to mobilize its technical teams for site visits to engage in preliminary studies for the construction of these hospitals. No equipment has been sold under the terms of this supply contract, nor is there any assurance any equipment will be sold thereunder.

- 11 -

In addition to the primary supply contract, on April 6, 2015, the Government of Guinea signed an addendum to the agreement expanding the project by \$54,916,600.

Under the Supply Contract, we anticipate that we will implement an integrated healthcare delivery solution for the Republic of Guinea if our financial circumstances and market conditions allow. The components of the solution include, MobileCare, RuralCare, Hospital Information Systems, Telehealth Systems, Pharmacy Information, disaster management, air and surface patient transportation systems and clinical training.

On September 21, 2018, we and Grissag AG, Ltd. ("Grissag") entered into a Partnership Framework Agreement (the "Agreement") with the Ministry of Economy and Finance of the Republic of Guinea ("Ministry"), under which certain projects have been identified and we received assurances from the Ministry of its approval of the projects to be undertaken by us either directly or through third party collaborating companies. The projects identified are:

- Health: Hospitals, Rural Clinics and Mobile Clinics; according to the proposal submitted by Kallo Inc. and approved by the Ministry of Health.
- Agriculture: development of 20,000 hectares of land along the rivers Milo and Sankarani.
- Infrastructures: construction of Kankan-Kérouané road, Kankan-Mandiana.
- Water: Serving the city of Conakry and cities in the interior of the country.

As currently planned, the contemplated projects are to be funded by third-party independent banks as identified and arranged through the efforts of Grissag (the "Funding Sources"). In the event Grissag is successful in securing funding from the Funding Sources in sufficient amounts and on the terms that have been accepted by the Government in this agreement, we anticipate that currently identified projects and possibly other projects will be undertaken subject to approval by the Government and to then existing and later determined terms of the agreements between us, the Government and Grissag. Under this binding framework agreement, Grissag will fund up to US\$8,000,000,000 progressively with health projects of US\$1,700,000,000 for immediate implementation.

Under the express terms of the Agreement and unless we are able to demonstrate that "funding is mobilized" within six months of the date of the Agreement then the Agreement is null and void. The Agreement also requires that we and Grissag are obligated to take steps to "realize the field work" contemplated by the Agreement and do so within six months of September 21, 2018 (the "Field Work Term"). If the Field Work Term is not satisfied within six months of September 21, 2018, then we and Grissag lose our exclusive rights as set forth in the Agreement. However, the Agreement is renewable for a period of twelve months subject to further agreement of the Parties. The Agreement may not be assigned or transferred without the written consent of the Ministry. We believe that we have requisite skills and capabilities to fulfill our obligations as set forth in the Agreement, however we cannot assure you that we will be successful in meeting our express and implied obligations under the Agreement and that we are otherwise able to achieve our objectives.

In 2017 the Government of Ghana initiated several discussions with us, to revisit how the Ministry of Defense – Military Hospital requirements, the Ministry of Health healthcare infrastructure requirements and the Ministry of Education Teaching Hospital infrastructure requirements can be met using the Kallo Integrated Delivery Model. The success of these discussions confirmed Ghana's continued belief in the Kallo Integrated Delivery System, as the best solution for the nation's healthcare infrastructure development, which is very encouraging for our continued business in Ghana.

On June 20, 2017, our branch office was legally registered in Ghana. A valid tax identification number was issued and this number is to be used by us in all of our anticipated business that we hope to conduct within Ghana. We have incorporated four SPVs (Special Purpose Vehicles / Companies) to oversee the various projects we seek to undertake in Ghana. The SPVs are all incorporated under the laws of Ghana as private companies. While we believe that our

business plans involving Ghana are sound and may offer us significant business opportunities, we cannot assure you that we will be able to obtain sufficient financing on reasonable terms and on a timely basis that will allow us to pursue these opportunities.

- 12 -

Table of Contents

We have entered into four major concession agreements with four key governmental institutions in Ghana. We have also, through our SPVs has entered into the following concession arrangements for the construction and operation of various hospital facilities in Ghana:

Project Description	Kallo SPV
1 Tamale Military Hospital project	K-TMH Ghana Limited
2 Cape Coast Teaching Hospital project	K-UCC Cape Coast Limited
3 Sunyani Teaching Hospital project	K-UENR Sunyani Limited
4 Ho Teaching Hospital project	K-UHAS Ho Limited

These agreements are effective upon execution and the concession period will start from the date on which financial close is achieved with the Lenders and all conditions precedent are satisfied or waived. The financing has not closed yet and there is no guarantee that financial close will be achieved.

We are also having very active discussions with other neighboring countries in Africa such as Niger, South Africa, and Nigeria for further expansion of our businesses in the region. However, we cannot assure you that our discussions will result in agreements that will allow us to achieve and maintain profitability and positive cash flow.

In 2017, we have also initiated project negotiations in Canada with two First Nations Groups to provide innovative solutions to increase accessibility and monitoring and management of medication from prescription to consumption with direct reporting to the provincial ministries.

Project Financing for the projects is being arranged by AGGELOS CAPITAL Investment Banking Ltd and GRISSAG AG (PTY) LTD and the risk guarantees are being provided by the African Guarantee Fund and the Multilateral Investment Guarantee Agency (MIGA), the Political Risk Insurance arm of the World Bank Group. This financing has not closed yet and there is no guarantee that financial close will be achieved.

If market conditions and our financial resources allow, we may be able to expand our business. To that end, we have entered into collaboration agreements with TAHPI, an international company with expertise in Health Service Planning, Health Facility Planning, Architecture and Interior Design on 30th June 2017 and FORTA MEDICAL, an advanced off-site building methods company on 28th July 2017. FORTA offers healthcare facilities based on a fast-track modular design and construction solutions with minimal disruption to the surrounding facilities operation. Their advanced factory prefabrication helps shorten project construction timetables in a way that is not achievable with on-site building technologies. Overall, if these collaborations are successful, they may allow us to increase our project delivery capacity and our ability to deliver projects at a higher level of complexity and thereby demonstrate the quality of our products and services. We cannot assure you that we will be successful in securing these projects and also, at the same time, secure the financial commitments that will be needed or, if we are successful in either or both of these pursuits, that the terms and conditions will allow us to achieve profitability and positive cash flow.

Table of Contents

We have also secured renewed commitment from our technology partners and technology infrastructure providers.

Plan of Operation

The following plan of operation contains forward-looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth elsewhere in this document. Because of the speculative nature of our operations and the nature of the African countries we are attempting to do business with, there is no assurance that any of the planned operations will occur.

To the extent that we are financially able and if circumstances allow, we plan to continue to develop components of Kallo Integrated Delivery System:

Kallo Integrated Delivery System (KIDS)

MobileCare™ – a mobile trailer that opens into a state of the art clinical setup in a vehicle equipped with the latest technology in healthcare. More than just a facility, MobileCare™ can instantly connect the onboard physician with specialists for on-demand consultation via satellite through its Telehealth system. This is truly a holistic approach to delivering healthcare to the remotely located. For many rural communities, the nearest hospital, doctor or nurse may be hundreds of kilometers away. In many cases, this gap can be bridged using Telehealth technology that allows patients, nurses and doctors to talk as if they were in the same room.

RuralCare™ – prefabricated modular healthcare units focused in rural areas where no roads infrastructure is available. They are equipped to provide primary healthcare including X-Ray, ultrasound, surgery, pharmacy and lab services. Ranging from 1,200 to 3,800 square feet, these clinics can be up and running in disaster zones or rural areas in as little as one week. Similar to the MobileCare™ product, RuralCare™ also utilizes satellite communications to access the Telehealth system.

Our overall healthcare mission is to "reach the unreached". The end-to-end solution includes the following:

Global response center – located in the Kallo headquarters in Canada, this is the escalation point for the coordination of delivery of Telehealth and eHealth support. It consists of both the Clinical Command Center and the Administrative Command Center.

Regional response centers, Clinical and Administrative Command centers – located in the urban area hospitals and connected with satellite communications, these centers coordinate all aspects of the healthcare delivery solution with the Mobile clinics and Rural clinics including clinical services, Telehealth services, pharmacy and medical consumable coordination as well as escalations to the Global response center.

Kallo University – provides education, training and development of local resources for all aspects of the healthcare delivery which includes clinical, engineering and administration.

Emergency Medical Services – provides ground and air ambulance vehicles for emergency patient transport.

Our end to end delivery solution is equipped with necessary medical equipment as per regional healthcare requirements. We also install our copyrighted software and third party software as required along with a 5 year

support agreement renewable after the 5 year initial term that includes the medical equipment, software licenses, installation implementation and training. This generates an ongoing revenue stream for service, maintenance, spare-parts, and consumables.

- 14 -

Table of Contents

Sales Go-To-Market Strategy

Our Sales Go-To-Market Strategy is segmented and we believe that it is based on the varying needs of our customers in the following three categories:

Full solution with Kallo Integrated Delivery System (KIDS) – typically longer sales cycle and includes the end to end solution of Mobile Clinics, Rural Poly Clinics, Global and Regional response centers, Clinical and Administrative command centers, telehealth support, Kallo University training, pharmacy and medical consumable support and Emergency services with ground and air ambulance vehicles. This solution is focused on the end to end healthcare needs of developing countries.

Component Solutions – typically mid-term sales cycle and includes any of the components of the KIDS implementation without the full support structure. This strategy is focused on augmenting healthcare support where needed, such as, disaster management, North American First Nations, medical equipment supply, installation and testing.

Technology Solutions – typically short-term sales cycle and includes elements of the KIDS program that can enhance existing healthcare solutions. These would include our Hospital Management System, Consulting services, Bio Medical support, Mobile or Fixed Clinic manufacturing, etc. This strategy is focused on enhancing existing healthcare environments globally

Over the next twelve months, we have established the following objectives:

1. To follow-up completion of the financing process with financiers and the respective governments.
2. To pursue working capital raise with financial institutions and private placements.
3. To complete our organization restructuring and continue to build our infrastructure and resources for operations and management.

There can be no assurance that we will be successful in raising the additional capital needed to implement any one or more of the above business objectives. And in the event that we are successful in raising additional capital, there can be no assurance that any capital that is raised will be on reasonable terms. We have had some preliminary discussions with potential sources who may provide us with additional capital but we are not able to give any assurances that we will obtain the necessary capital in sufficient amounts and on reasonable terms that will allow us to achieve these objectives. Any person who acquires our Common Stock should be prepared to lose their entire investment.

Need for additional capital

We have incurred significant operating losses since inception and we have an accumulated deficit and a working capital deficit as of June 30, 2018. We expect that we will incur significant additional losses as we attempt to execute our market strategy. This raises substantial doubt about our ability to continue as a going concern.

We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of an early-stage business enterprise, including limited capital resources and possible cost overruns due to price increases in services and products.

To become profitable and competitive, we have to sell our products and services in sufficient volumes and with margins that may allow us to achieve profitability. We cannot assure you or anyone that we will be successful in these efforts.

- 15 -

There is no guaranty that we will obtain sufficient additional financing on a timely basis and on reasonable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop, or expand our operations and otherwise remain in existence. Any equity financing will likely result in immediate and substantial dilution of existing stockholders. As a result any investor should be prepared to lose their entire investment.

Results of operations

Revenues

We did not generate any revenues during the six months ended June 30, 2018 or 2017 and there can be no guarantee that we will generate any revenues in the near future or, if we do generate any revenues, that we can do so at a level that will allow us to achieve profitability and positive cash flow or both of them.

Expenses

During the three months ended June 30, 2018 we incurred total expenses of \$84,531, including \$99,824 in salaries and compensation, \$16,394 in professional fees, \$27,746 in interest and financing costs and \$5,695 as other expenses offset by \$65,128 foreign exchange gain whereas during the three months ended June 30, 2017 we incurred total expenses of \$5,348,024, including \$5,419,984 in salaries and compensation, \$53,623 in interest and financing costs, \$89,507 in loss on foreign exchange, \$6,347 loss in fair value of derivative liabilities and \$5,759 as other expenses offset by \$227,196 gain on extinguishment of convertible promissory notes.

The decrease in our total expenses for the three months ended June 30, 2018 from the comparative period is mainly due to stock based compensation of \$5,318,964 in the previous period, a decrease in interest and financing costs of \$25,877, a decrease in loss in fair value of derivative liabilities of \$6,347, a decrease in gain on extinguishment of convertible promissory notes of \$227,196, a positive change in foreign exchange of \$154,635. The decrease in interest and financing costs, loss in fair value of derivative liabilities and gain on extinguishment of convertible promissory notes are due to repayment of convertible promissory notes. There is also a positive change in foreign exchange of \$268,020 due to appreciation of the US dollar vis a vis the Canadian dollar.

During the six months ended June 30, 2018 we incurred total expenses of \$150,859, including \$201,769 in salaries and compensation, \$33,549 in professional fees, \$55,188 in interest and financing costs and \$9,415 as other expenses offset by \$149,062 foreign exchange gain whereas during the six months ended June 30, 2017 we incurred total expenses of \$5,659,809, including \$5,597,849 in salaries and compensation, \$2,940 in selling and marketing expenses, \$112,016 in interest and financing costs, \$3,012 in loss in fair value of derivative liabilities, \$118,958 loss on foreign exchange and \$52,230 in other expenses offset by \$227,196 gain on extinguishment of convertible promissory notes.

The decrease in salaries of \$5,396,080 is mainly due to the stock based compensation of \$5,318,964 in the previous period. There is a decrease in interest and financing costs of \$56,828 due to repayment of convertible promissory notes. There is also a positive change in foreign exchange of \$268,020 due to appreciation of the US dollar vis a vis the Canadian dollar.

The Company is operating with a minimal number of full time employees and office space until it can secure new contracts. There can be no assurance that we will be successful in securing any one or more contracts and that the terms of the contracts will allow us to achieve profitability, positive cash flow, or both.

Net Loss

During the three months ended June 30, 2018 we did not generate any revenues and incurred a net loss of \$84,531 compared to a net loss of \$5,348,024 during the same period in 2017. The main reasons were the decrease in salaries and compensation and the repayment of the convertible promissory notes as discussed above.

- 16 -

Table of Contents

During the six months ended June 30, 2018 we did not generate any revenues and we incurred a net loss of \$150,859 compared to a net loss of \$5,659,809 during the same period in 2017. The main reasons were the decrease in salaries and compensation, decrease in interest and financing costs and positive movement in exchange rate offset by a decrease in gain on extinguishment of convertible promissory notes as discussed above.

Liquidity and capital resources

As at June 30, 2018, the Company had current assets of \$3,000 and current liabilities of \$4,342,347, indicating working capital deficiency of \$4,339,347. As of June 30, 2018, our total assets were \$3,000 in prepaid expenses and our total liabilities were \$4,342,347 comprised of \$3,320,387 in accounts payable and accrued liabilities, convertible loans payable of \$1,004,954 and short term loans of \$17,006.

Cash used in operating activities amounted to \$Nil during the six months ended June 30, 2018, primarily as a result of the net loss adjusted for non-cash items and various changes in operating assets and liabilities.

There was no cash movement in investing and financing activities during the current six months period ended June 30, 2018.

As of June 30, 2018, our Total Liabilities exceeded our Total Assets because we were insolvent and we can not assure you that we will become solvent at any time in the near future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

We maintain "disclosure controls and procedures," as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. We conducted an evaluation (the "Evaluation"), under the supervision and with the participation of our Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), of the effectiveness of the design and operation of our disclosure controls and procedures ("Disclosure Controls") as of the end of the period covered by this report pursuant to Rule 13a-15 of the Exchange Act. Based on this Evaluation, our CEO and CFO concluded that our Disclosure Controls were not effective as of the end of the period covered by this report due to lack of segregation of duties in financial reporting and presence of adjusting journal entries during the audit as well as insufficient controls over the financial close process and preparation of the financial statements.

Table of Contents

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

On April 21, 2017, an ex-employee of Kallo obtained a judgement ordering Kallo to pay Canadian \$ 135,959 for unpaid wages and expenses relating to services performed in 2016. The full amount has been accrued for in the financial statements of Kallo.

On October 24, 2016, a consultant obtained a judgement ordering Kallo to pay Canadian \$25,000 for unpaid fees. The full amount has been accrued for in the financial statements of Kallo.

On October 6, 2017, Thornley Fallis Communications Inc. ("Thornley") commenced a third party claim against Kallo concerning monies that Kallo allegedly owed to Thornley for redesign of a website and public relation services. Thornley is seeking damages in the amount of Canadian \$169,345 plus interest on the amounts outstanding and indemnification of the costs of the action. An amount of Canadian \$134,960 has been accrued for in the financial statements of Kallo.

There is also a claim by Commercial Credit Adjusters on behalf of Northwest Company for payment of Canadian \$34,000. An amount of Canadian \$26,515 has been accrued for in the financial statements of Kallo. Negotiations are in process for the settlement of this debt for a lump sum.

Canada Revenue Agency has assessed the Company for Canadian \$255,400 representing unremitted employee source deductions, the full amount of which has been accrued in the financial statements of Kallo.

While we believe that we may be successful in resolving these claims, we cannot assure that the outcome will not have a material adverse effect upon us.

ITEM 1A. RISK FACTORS.

Our Common Stock is subject to a number of substantial risks, including those described below. No attempt has been made to rank these risks in the order of their likelihood or potential harm. In addition to those general risks enumerated elsewhere in the document, any purchaser of the Company's common stock should also consider the following risk factors:

Risks Related to the Ownership of the Company's Stock

1. No Revenues from Operations & Continuing Losses; Risk of Loss & Insolvency. During the past two fiscal years we have not generated and revenues and there can be no assurances that we will be successful in generating revenues in the future. In that respect we face all of the risks inherent in an early-stage business. We have incurred losses and there can be no assurance that we will ever achieve profitability and positive cash flow. While we believe that our

business strategies are sound, there can be no assurance that our business will generate profits and positive cash flow or if we generate profits and positive cash flow, that it can be sustained. Investors should be aware that they may lose all or substantially all of their investment. We are also insolvent since our Total Liabilities exceed our Total Assets.

- 18 -

Table of Contents

2. Limited Corporate Officers & Employees. We have only three corporate officers, one of which is part-time and an aggregate of four employees, including our three officers.
3. Auditor's Opinion: Going Concern & Insolvency. Our independent auditors have expressed substantial doubt about the Company's ability to continue as a going concern since: (a) our Total Current Liabilities exceed our Total Current Assets; (b) our Total Liabilities exceed our Total Assets; and (c) we are an early-stage company and there exists only a limited history of operations. Since our Total Liabilities exceed our Total Assets, we are insolvent and anyone who acquires our Common Stock should be prepared to lose their entire investment.
4. Limited Financial Resources; Need for Additional Financing. Our financial resources are minimal and we are insolvent. We need to obtain additional financing from the sale of our Common Stock, Debt, or some combination thereof in order to undertake further business plans. Our ability to operate as a going concern is contingent upon our receipt of additional financing through private placements or by loans. We anticipate that we will require significant additional funds in the future if we are successful in marketing our products and services. There can be no assurance that if additional funds are required they will be available, or, if available, that they can be obtained on terms satisfactory to our Board of Directors. In the event the Company elects to issue stock to raise additional capital, any rights or privileges attached to such stock may either (i) dilute the percentage of ownership of the already issued common shares or (ii) dilute the value of such shares; or (iii) both. No rights or privileges have been assigned to the stock and any such rights and privileges will be at the total discretion of the Board of Directors of the Company. There can be no guarantee that we will be able to obtain additional financing, or if we are successful, that we will be able to do so on terms that are reasonable in light of current market conditions. Further, we have not received any commitment from any person to provide any additional financing and we cannot assure that any such commitment is forthcoming or if it such a commitment is later received, that it will be sufficient to allow us to remain in existence.
5. Limited and Sporadic Trading Market for Common Stock. Our Common Stock trades on the OTC Market on a limited and sporadic basis and there can be no assurance that a liquid trading market for our Common Stock will develop and, if it does develop, that it can be sustained.
6. Lack of Revenues And Development Stage Company. We have no history of generating Sales Revenues and we cannot assure that we will generate any Sales Revenues in the future or, if we do, that we can achieve Sales Revenues at a level that will allow us to also achieve and maintain profitability and positive cash flow. We face all of the risks inherent in a new business. There is no information at this time upon which to base an assumption that our plans will either materialize or prove successful. Our present business plans and strategies have been developed by our corporate officers and they have not been evaluated by any independent third party. Some aspects of our plans have not been further evaluated. . There can be no assurance that any of our business plans and strategies will generate sales revenues that will result in any profits or positive cash flow. Investors should be aware that they may lose all or substantially all of their investment.
7. Lack of Dividends & No Likelihood of Dividends. We have not paid dividends and do not contemplate paying dividends in the foreseeable future.
8. Competition. We are an insignificant participant among firms which offer health care products and services. There are many well-established health care product and service companies which have significantly greater financial and managerial resources, technical expertise and experience than the Company. In view of our limited financial and managerial resources, we will likely be at a significant competitive disadvantage vis-a-vis our competitors.

9. No Ability to Control. Any person who acquires our Common Stock will have no real ability to influence or control the Company or otherwise have any ability to elect any person to our Board of Directors. Our officers, directors, and certain other persons currently control the Company and there is no likelihood that any person who acquires our Common Stock will have any real ability to influence or control the Company in any meaningful way.

10. Possible Rule 144 Stock Sales. Many of our shares of our outstanding Common Stock are "restricted securities" and may be sold only in compliance with Rule 144 adopted under the Securities Act of 1933, as amended or other applicable exemptions from registration. Any person who acquires our common stock in any private placement should carefully review Rule 144 since any potential public resale may be limited and current broker-dealer and clearing firm requirements may make any re-sale of our common stock difficult at best.

Table of Contents

11. Risks of Low Priced Stocks. Currently, our common stock is not trading in any market and there is no certain prospect that the Company's common stock will regain any trading in any organized market. In the past, the Company's common stock had only limited and sporadic trading in the so-called "pink sheets," and before that, on the "Electronic Bulletin Board." As a result and due to the absence of a market, a shareholder may find it extremely difficult to dispose of, or to obtain accurate quotations as to the price of, the Company's securities. In the absence of a security being quoted on NASDAQ, or the Company having \$2,000,000 in net tangible assets, trading in the Common Stock is covered by Rule 3a51-1 promulgated under the Securities Exchange Act of 1934 for non-NASDAQ and non-exchange listed securities. Under such rule, broker/dealers who recommend such securities to persons other than established customers and accredited investors (generally institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000 or an annual income exceeding \$200,000 or \$300,000 jointly with their spouse) must make a special written suitability determination for the purchaser and receive the purchaser's written agreement to a transaction prior to sale.

In general, securities are also exempt from this rule if the market price is at least \$5.00 per share, or for warrants, if the warrants have an exercise price of at least \$5.00 per share. The Securities Enforcement and Penny Stock Reform Act of 1990 requires additional disclosure related to the market for penny stocks and for trades in any stock defined as a penny stock. The Commission has recently adopted regulations under such Act which define a penny stock to be any NASDAQ or non-NASDAQ equity security that has a market price or exercise price of less than \$5.00 per share and allow for the enforcement against violators of the proposed rules.

In addition, unless exempt, the rules require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule prepared by the Commission explaining important concepts involving the penny stock market, the nature of such market, terms used in such market, the broker/dealer's duties to the customer, a toll-free telephone number for inquiries about the broker/dealer's disciplinary history, and the customer's rights and remedies in case of fraud or abuse in the sale.

Disclosure also must be made about commissions payable to both the broker/dealer and the registered representative, current quotations for the securities, and if the broker/dealer is the sole market-maker, the broker/dealer must disclose this fact and its control over the market.

Finally, monthly statements must be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks. While many NASDAQ stocks are covered by the proposed definition of penny stock, transactions in NASDAQ stock are exempt from all but the sole market-maker provision for (i) issuers who have \$2,000,000 in tangible assets (\$5,000,000 if the issuer has not been in continuous operation for three years), (ii) transactions in which the customer is an institutional accredited investor and (iii) transactions that are not recommended by the broker/dealer. In addition, transactions in a NASDAQ security directly with the NASDAQ market-maker for such securities, are subject only to the sole market-maker disclosure, and the disclosure with regard to commissions to be paid to the broker/dealer and the registered representatives.

Finally, all NASDAQ securities are exempt if NASDAQ raised its requirements for continued listing so that any issuer with less than \$2,000,000 in net tangible assets or stockholder's equity would be subject to delisting. These criteria are more stringent than the proposed increased in NASDAQ's maintenance requirements.

Our securities are subject to the above rules on penny stocks and the market liquidity for our securities could be severely affected by limiting the ability of broker/dealers to sell our securities.
