THE CATO CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS AND SIX MONTHS ENDED JULY 31, 2010 AND AUGUST 1, 2009

NOTE 1 - GENERAL:

The condensed consolidated financial statements have been prepared from the accounting records of The Cato Corporation and its wholly-owned subsidiaries (the "Company"), and all amounts shown as of and for the periods ended July 31, 2010 and August 1, 2009 are unaudited. In the opinion of management, all adjustments considered necessary for a fair statement have been included. All such adjustments are of a normal, recurring nature unless otherwise noted. The results of the interim period may not be indicative of the results expected for the entire year.

The interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto, included in the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2010.

The year-end condensed consolidated balance sheet presented as of the fiscal year ended January 30, 2010 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

On August 26, 2010, the Board of Directors maintained the quarterly dividend at \$.185 per share or an annualized rate of \$.74 per share.

In September 2009, the Company retired all of its treasury stock shares. The excess of the price over par value of common stock of approximately \$155.6 million was charged to retained earnings upon the retirement of the treasury stock.

THE CATO CORPORATION NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) FOR THE THREE MONTHS AND SIX MONTHS ENDED JULY 31, 2010 AND AUGUST 1, 2009

NOTE 2 - EARNINGS PER SHARE:

ASC 260 – *Earnings Per Share* requires dual presentation of basic and diluted Earnings Per Share ("EPS") on the face of all income statements for all entities with complex capital structures. The Company has presented one basic EPS and one diluted EPS amount for all common shares in the accompanying Condensed Consolidated Statements of Income. While the Company's certificate of incorporation provides the right for the Board of Directors to declare dividends on Class A shares without declaration of commensurate dividends on Class B shares, the Company has historically paid the same dividends to both Class A and Class B shareholders and the Board of Directors has resolved to continue this practice. Accordingly, the Company's allocation of income for purposes of the EPS computation is the same for Class A and Class B shares and the EPS amounts reported herein are applicable to both Class A and Class B shares.

Basic EPS is computed as net income less earnings allocated to non-vested equity awards divided by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur from common shares issuable through stock options and the Employee Stock Purchase Plan.

NOTE 6 – STOCK BASED COMPENSATION:

As of July 31, 2010, the Company had three long-term compensation plans pursuant to which stock-based compensation was outstanding or could be granted. The Company's 1987 Non-Qualified Stock Option Plan authorized 5,850,000 shares for the granting of options to officers and key employees. The 1999 Incentive Compensation Plan and 2004 Amended and Restated Incentive Compensation Plan authorized 1,500,000 and 1,350,000 shares, respectively, for the granting of various forms of equity-based awards, including restricted stock and stock options to officers and key employees. The 1999 Plan has expired as to the ability to grant new awards.

The following table presents the number of options and shares of restricted stock initially authorized and available for grant under each of the plans:

	1987 Plan	1999 Plan	2004 Plan	Total
Options and/or restricted stock initially authorized Options and/or restricted stock available for grant:	5,850,000	1,500,000	1,350,000	8,700,000

The total fair value of the shares recognized as compensation expense during the second quarter and six months ended July 31, 2010 was \$770,000 and \$1,226,000, respectively, compared to \$757,000 and \$1,087,000 for the second quarter and six months ended August 1, 2009, respectively. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE THREE MONTHS AND SIX MONTHS ENDED JULY 31, 2010 AND AUGUST 1, 2009

NOTE 6 – STOCK BASED COMPENSATION (CONTINUED):

No options were granted in the first half of fiscal 2010 or fiscal 2009.

The total intrinsic value of options exercised during the second quarter and six months ended July 31, 2010 was approximately \$51,000 and \$215,000, respectively.

During the quarter, the Company completed amortizing its nonvested options. In accordance with ASC 718, the Company adjusted its related forfeiture assumption. As a result, the Company recognized a reduction in shared based compensation expense of \$53,000 and \$52,000 for the second quarter and six month period ended July 31, 2010, respectively, compared to an expense of \$15,000 and \$55,000 for the second quarter and six month period ended August 1, 2009, respectively. These amounts are classified as a component of selling, general and administrative expenses.

Stock option awards outstanding under the Company's current plans were granted at exercise prices which were equal to the market value of the Company's stock on the date of grant, vest over five years and expire no later than ten years after the grant date.

NOTE 7 – INCOME TAXES:

For the quarter ended July 31, 2010, the Company's effective tax rate was 36.2% compared to 29.7% for the prior year quarter ended August 1, 2009. The prior year quarter was impacted by the reduction of the provision for unrecognized tax benefits resulting from the closing of certain state income tax audits. The effective income tax rate for the first six months of fiscal 2010 was 36.6% compared to 33.9% for the first six months of fiscal 2009. During the next 12

months, various taxing authorities' statues of limitations will expire which could result in a potential reduction of the provision for unrecognized tax benefits. In addition, certain state examinations may close, the ultimate resolution of which could materially affect the effective tax rate. As a consequence, the balance in unrecognized tax benefits can be expected to fluctuate from period to period. It is reasonably possible such changes could be significant when compared to our total unrecognized tax benefits, but the amount of change is not estimable.

NOTE 8 – FAIR VALUE MEASUREMENTS (CONTINUED):

The Company's investment portfolio was primarily invested in tax exempt variable rate demand notes ("VRDN"), corporate bonds, and governmental debt securities held in managed funds with underlying ratings of A or better at both July 31, 2010 and January 30, 2010. The underlying securities have contractual maturities which generally range from 61 days to 30 years. These securities are classified as available-for-sale and are recorded as short term investments on the accompanying Condensed Consolidated Balance Sheets at estimated fair value, with unrealized gains and losses reported net of taxes in accumulated other comprehensive income.

Additionally, at July 31, 2010, the Company had \$2.0 million of privately managed funds, \$0.4 million of corporate equities and a single auction rate security ("ARS") of \$3.5 million which continues to fail its auction. All of these assets are recorded within Other assets in the Condensed Consolidated Balance Sheets. At January 30, 2010, the Company had \$1.9 million of privately managed funds, \$0.4 million of corporate equities, and a single ARS of \$3.5 million, all of which are recorded within Other assets in the Condensed Consolidated Balance Sheets.

The Company's failed ARS was measured at fair value using Level 3 inputs. Because there is no active market for this particular ARS, its fair value was determined through the use of a discounted cash flow analysis. The terms used in the analysis were based on management's estimate of the timing of future liquidity, which assumes that the security will be called or refinanced by the issuer or settled with a broker dealer prior to maturity. The discount rates used in the discounted cash flow analysis were based on market rates for similar liquid tax exempt securities with comparable ratings and maturities. Due to the uncertainty surrounding the timing of future liquidity, the Company also considered a liquidity/risk value reduction. In estimating the fair value of this ARS, the Company also considered the financial condition and near-term prospects of the issuer, the probability that the Company will be unable to collect all amounts due according to the contractual terms of the security and whether the security has been downgraded by a rating agency. The Company's valuation is sensitive to market conditions and management's judgment and can change significantly based on the assumptions used.

The Company's privately managed funds consist of two types of funds. The privately managed funds cannot be redeemed at net asset value at a specific date without advance notice. As a result, the Company has classified the investments as Level 3.

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU No. 2010-06 amends ASC 820 and clarifies and provides additional disclosure requirements related to recurring and non-recurring fair value measurements. This ASU was effective for the Company on January 31, 2010, and did not have a material impact on the Company's financial position or results of operations.

CRITICAL ACCOUNTING POLICIES:

The Company's accounting policies are more fully described in Note 1 to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the fiscal year ended January 30, 2010. As disclosed in Note 1 of Notes to Consolidated Financial Statements, the preparation of the Company's financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements. The most significant accounting estimates inherent in the preparation of the Company's financial statements include the allowance for doubtful accounts, workers' compensation, general and auto insurance liabilities, group health insurance, inventory markdowns, litigation, calculation of asset impairment, store closings, inventory shrinkage and uncertain tax positions.

The Company's critical accounting policies and estimates are discussed with the Audit Committee on a quarterly basis.

THE CATO CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

RESULTS OF OPERATIONS – (CONTINUED):

Comparison of Second Quarter and First Six Months of 2010 with 2009.

Total retail sales for the second quarter were \$231.9 million compared to last year's second quarter sales of \$225.4 million, a 2.9% increase. Same-store sales increased 2.0% in the second quarter of fiscal 2010 due to sell throughs of regular price merchandise. For the six months ended July 31, 2010, total retail sales were \$491.6 million compared to last years first six months sales of \$463.4 million, and same-store sales increased 5.0% for the comparable six month period. Total revenues, comprised of retail sales and other income (principally, finance charges and late fees on customer accounts receivable and layaway fees), were \$234.7 million and \$497.4 million for the second quarter and six months ended July 31, 2010, respectively, compared to \$228.3 million and \$469.3 million for the second quarter and six months ended August 1, 2009, respectively. The Company operated 1,275 stores at July 31, 2010 compared to 1,285 stores at the end of last year's second quarter, respectively. For the first six months of 2010 the Company opened 13 new stores, relocated three stores and closed nine stores. The Company currently expects to open approximately 41 stores, relocate six stores and close approximately 35 stores in fiscal 2010.

Credit revenue of \$2.1 million represented 0.9% of total revenues in the second quarter of fiscal 2010, compared to the second quarter of fiscal 2009 credit revenue of \$2.3 million or 1.0% of total revenues. Credit revenue decreased for the comparable period due to lower finance charge income due to decreased sales under the Company's proprietary credit card. Credit revenue is comprised of interest earned on the Company's private label credit card portfolio and related fee income. Related expenses include principally bad debt expense, payroll, postage and other administrative expenses and totaled \$1.3 million in the second quarter of 2010, compared to last year's second quarter expenses of \$1.5 million. The decrease was primarily due to lower bad debt expense as well as reduced administrative expenses compared to the second quarter of 2009.

Other income in total, as included in total revenues, was \$2.9 million and \$5.8 million for the second quarter and first six months of fiscal 2010, compared to \$2.9 million and \$5.9 million for the prior year's comparable second quarter and first six months. The slight overall year-to-date decrease resulted primarily from lower finance charges and late

fees partially offset by an increase in layaway charges.

Cost of goods sold was \$143.0 million, or 61.7% of retail sales and \$289.9 million or 59.0% of retail sales for the second quarter and first six months of fiscal 2010, compared to \$143.5 million, or 63.7% of retail sales and \$285.4 million or 61.6% of retail sales for the prior year's comparable three and six month periods, respectively. The overall decrease in cost of goods sold as a percent of retail sales for the second quarter and first six months of 2010 resulted primarily from leveraging higher sales and lower markdowns. The decrease in markdowns was primarily attributable to inventory management and higher sell-throughs of regular priced merchandise. Cost of goods sold includes merchandise costs, net of discounts and allowances, buying costs, distribution costs, occupancy costs, freight and inventory shrinkage. Net merchandise costs and in-bound freight are capitalized as inventory costs. Buying and distribution costs include payroll, payroll-related costs and operating expenses for the buying departments and distribution center. Occupancy expenses include rent, real estate taxes, insurance, common area maintenance, utilities and maintenance for stores and distribution facilities. Total gross margin dollars (retail sales less cost of goods sold) increased by 8.4% to \$88.8 million for the second quarter of fiscal 2010 and increased by 13.3% to \$201.7 million for the first six months of fiscal 2010 compared to \$81.9 million and \$178.1 million for the prior year's comparable three and six month periods, respectively. Gross margin as presented may not be comparable to those of other entities.

THE CATO CORPORATION
MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

RESULTS OF OPERATIONS – (CONTINUED):

Selling, general and administrative expenses ("SG&A") primarily include corporate and store payroll, related payroll taxes and benefits, insurance, supplies, advertising, bank and credit card processing fees and bad debts. SG&A expenses were \$62.3 million, or 26.9% of retail sales and \$130.8 million, or 26.6% of retail sales for the second quarter and first six months of fiscal 2010, respectively, compared to \$56.5 million, or 25.1% of retail sales and \$121.1 million, or 26.1% of retail sales for the prior year's comparable three and six month periods, respectively. SG&A expenses as a percentage of retail sales increased 180 basis points for the second quarter of fiscal 2010 as compared to the prior year primarily as a result of higher accrued incentive compensation and workers' compensation costs. For the first six months of fiscal 2010, SG&A expenses increased 50 basis points as compared to the prior year. The overall dollar increase for the first six months of fiscal 2010 was primarily attributable to increased incentive based compensation, payroll and workers' compensation expenses partially offset by a reduction in legal expense.

Depreciation expense was \$5.3 million, or 2.3% of retail sales and \$10.5 million, or 2.1% of retail sales for the second quarter and first six months of fiscal 2010, respectively, compared to \$5.5 million, or 2.4% of retail sales and \$11.0 million, or 2.4% of retail sales for the prior year's comparable three and six month periods, respectively. The decrease in depreciation expense was due to lower store development in the past two years and decreased information technology investments.

Interest and other income was \$1.0 million, or 0.4% of retail sales and \$1.8 million, or 0.4% of retail sales for the second quarter and first six months of fiscal 2010, respectively, compared to \$0.9 million, or 0.4% of retail sales and \$1.9 million, or 0.4% of retail sales for the prior year's comparable three and six month periods, respectively. The slight decrease for the first six months of fiscal 2010 was primarily due to lower interest income due to reduced yields.

Income tax expense was \$9.1 million or 3.9% of retail sales and \$24.9 million, or 5.1% for the second quarter and first six months of fiscal 2010, respectively, compared to \$7.0 million, or 3.1% of retail sales and \$18.2 million, or 3.9% of retail sales for the prior year's comparable three and six month periods, respectively. The second quarter increase

resulted from higher pre-tax income and a higher effective tax rate. The effective income tax rate for the second quarter of fiscal 2010 was 36.2% compared to 29.7% for the second quarter of 2009. The prior year quarter was impacted by the reduction of the provision for unrecognized tax benefits resulting from the closing of certain state income tax audits. The effective income tax rate for the first six months of fiscal 2010 was 36.6% compared to 33.9% for the six months of fiscal 2009.

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK:

The Company has consistently maintained a strong liquidity position. Cash provided by operating activities during the first six months of fiscal 2010 was \$59.9 million as compared to \$54.0 million in the first six months of fiscal 2009. These amounts enable the Company to fund its regular operating needs, capital expenditure program, cash dividend payments and share repurchases. In addition, the Company maintains a \$35.0 million unsecured revolving credit facility for short-term financing of seasonal cash needs. There were no outstanding borrowings on this facility at July 31, 2010, and borrowing capacity under the facility was \$33.3 million, net of standby letter of credit obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

LIQUIDITY, CAPITAL RESOURCES AND MARKET RISK (CONTINUED):

Cash provided by operating activities for the first six months of fiscal 2010 was primarily generated by earnings adjusted for depreciation and changes in working capital. The increase of \$5.9 million for the first six months of fiscal 2010 as compared to the first six months of fiscal 2009 was primarily due to an increase in net income, a change in inventories, and accrued income taxes partially offset by a decrease in imports payable and payment of incentive based compensation.

The Company believes that its cash, cash equivalents and short-term investments, together with cash flows from operations, will be adequate to fund the Company's operating requirements, dividends, share repurchases and expected capital expenditures for the balance of fiscal 2010 and for the foreseeable future.

At July 31, 2010, the Company had working capital of \$232.3 million compared to \$192.1 million at August 1, 2009. Additionally, the Company had \$2.4 million invested in privately managed investment funds and other miscellaneous equities at July 31, 2010, which are included in Other assets on the Condensed Consolidated Balance Sheets.

At July 31, 2010, the Company had an unsecured revolving credit agreement, which provides for borrowings of up to \$33.3 million, net of standby letter of credit obligations. In August 2010, the Company extended the revolving credit agreement until August 2013. The credit agreement contains various financial covenants and limitations, including the maintenance of specific financial ratios with which the Company was in compliance as of July 31, 2010. There were no borrowings outstanding under the credit facility during the second quarter ended July 31, 2010 or the fiscal year ended January 30, 2010.

At July 31, 2010 and August 1, 2009, the Company had approximately \$10.3 million and \$8.3 million, respectively, of outstanding irrevocable letters of credit relating to purchase commitments. In addition, the Company has a standby letter of credit in the amount of approximately \$1.7 million at July 31, 2010 for payments to the current general

liability and workers' compensation insurance processor.

Expenditures for property and equipment totaled \$8.9 million in the first six months of fiscal 2010, compared to \$6.2 million in last year's first six months. The expenditures for the first six months of 2010 were primarily for the development of 13 new stores and additional investments in new technology. For the full fiscal 2010 year, the Company expects to invest approximately \$20.8 million for capital expenditures. This includes expenditures to open 41 new stores and relocate six stores.

Net cash used in investing activities totaled \$26.5 million in the first six months of fiscal 2010 compared to \$58.1 million used in the comparable period of 2009. The decrease was due primarily to the increase in sales of short-term investments over purchases of such investments.

On August 26, 2010, the Board of Directors maintained the quarterly dividend at \$.185 per share or an annualized rate of \$.74 per share.

In September 2009, the Company retired all of its shares of treasury stock. The excess of the price over par value of common stock of approximately \$155.6 million was charged to retained earnings upon the retirement of the treasury stock.
