SPECIAL MEETING OF SHAREHOLDERS

You are cordially invited to attend a special meeting of shareholders of FABP Bancshares to be held at the main office of First American Bank of Pensacola, N.A. located at 33 West Garden Street, Pensacola, Florida 32522, on Thursday, November 29, 2001, at 5:00 p.m. local time.

At the special meeting you will be asked to vote upon a proposal to approve the acquisition of FABP Bancshares by Synovus Financial Corp. by means of the merger of FABP Bancshares with and into Synovus.

In the merger, each share of FABP Bancshares common stock will be converted into between 1.9428 and 2.2582 shares of Synovus common stock, with the exact exchange ratio to be determined based on the price of Synovus common stock over a 20-day measurement period ending five business days prior to the special meeting. Because the price of Synovus common stock fluctuates, the value of the securities you will receive will fluctuate on a day-to-day basis. Shareholders of FABP Bancshares generally will not recognize a gain or a loss for tax purposes in connection with the conversion of their shares of FABP Bancshares common stock into Synovus common stock.

Synovus common stock is traded on the New York Stock Exchange and Synovus has registered 3,579,157 shares of its common stock for issuance in connection with the merger.

FABP Bancshares has received from its financial advisor, The Robinson-Humphrey Company, LLC, an opinion that the terms of the transaction are fair from a financial point of view to the shareholders of FABP Bancshares.

The merger cannot be completed unless holders of a majority of the outstanding shares of FABP Bancshares common stock approve it. The board of directors urges you to consider the enclosed material carefully and recommends that you vote "FOR" approval of the merger.

Whether or not you plan to attend the special meeting, please take the time to vote by completing and mailing the enclosed proxy card to us. If you fail to return your card or vote in person, the effect will be a vote against the merger.

On behalf of the Board of Directors of FABP Bancshares, we urge you to vote "FOR" the merger.

QUESTIONS AND ANSWERS ABOUT THE MERGER

Q: Why is the merger being proposed?

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

A: FABP Bancshares' board of directors believes the merger is in the best interests of FABP Bancshares and will provide significant benefits to its shareholders. Synovus' board of directors believes that the acquisition of FABP Bancshares will offer Synovus the opportunity to further expand its banking operations in the state of Florida. To review the background and reasons for the merger in greater detail, see pages 11 through 13.

Q: What will I receive in the merger?

A: FABP Bancshares shareholders will receive between 1.9428 and 2.2582 shares of Synovus common stock for each share of FABP Bancshares common stock they hold, with the exact exchange ratio to be determined based on the price of Synovus common stock over a 20-day measurement period ending five business days prior to the special meeting. Because the market price of Synovus common stock fluctuates, the value of securities you will receive will fluctuate on a day-to-day basis.

Synovus will not issue fractional shares in the merger. Instead, FABP Bancshares shareholders will receive a cash payment, without interest, for the value of any fraction of a share of Synovus common stock that they would otherwise be entitled to receive, based upon the closing price of Synovus common stock on the fifth business day prior to the effective date of the merger.

Q: What happens as the market price of Synovus common stock fluctuates?

A: The exchange ratio floats. Since the market price of Synovus common stock fluctuates, at the time you vote you will not know what the shares will be worth when issued in the merger.

Q: When is the merger expected to be completed?

A: We expect to complete the merger in the fourth quarter of 2001.

Q: What am I being asked to vote upon and what is the required shareholder vote?

A: You are being asked to approve the merger of FABP Bancshares into Synovus. Approval of the proposal requires the affirmative vote of holders of a majority of the shares of outstanding common stock of FABP Bancshares. FABP Bancshares' board of directors encourages you to vote at the special meeting. The FABP Bancshares board of directors has unanimously approved and adopted the merger agreement and recommends that FABP Bancshares shareholders vote FOR the approval of the merger.

Q: What should I do now?

A: You should read this document carefully and determine whether you desire to receive the Synovus common stock or to exercise your dissenters' rights under Florida law.

Q: Should I send in my stock certificates now?

A: No. If the merger is completed, we will send you written instructions for exchanging your FABP Bancshares common stock certificates for Synovus common stock certificates.

In addition, Synovus holds an 80.8% interest in Total System Services, Inc. Total System Services, Inc. is an information technology processor of credit, debit, commercial and retail cards whose stock is traded on the New York Stock Exchange.

FABP Bancshares, Inc.
33 West Garden Street
Pensacola, Florida 32522-7129
(850) 435-9300

FABP Bancshares is a Florida corporation and a bank holding company. Through its subsidiary bank, First American Bank of Pensacola, N.A., a national banking association, FABP Bancshares provides commercial banking services through a network of six offices in Pensacola, Florida. On June 30, 2001, FABP Bancshares had total assets of \$311 million and total deposits of \$249 million. All references to FABP Bancshares refer to FABP Bancshares, Inc. and its subsidiary bank, unless the context otherwise requires.

The Merger (page 10)

If the merger is approved by FABP Bancshares' shareholders, FABP Bancshares will be merged with and into Synovus. In addition, First American Bank of Pensacola, N.A. will be merged with and into Bank of Pensacola, a subsidiary of Synovus. The merger requires the approval of the holders of a majority of the FABP Bancshares common stock outstanding on the record date.

We have attached the merger agreement as Appendix "A" to this document. We encourage you to read the merger agreement, as it is the legal document that governs the merger.

FABP Bancshares' Reasons for the Merger (page 13)

In reaching its decision to approve and recommend approval of the merger agreement, the FABP Bancshares board of directors considered a number of factors, including the following:

- * the value of the consideration to be received by FABP Bancshares shareholders relative to the book value and earnings per share of FABP Bancshares common stock;
- 3
- * information concerning the financial condition, results of operations and business prospects of Synovus;
 - * the financial terms of recent business combinations in the financial services industry and a comparison of the multiples of selected combinations with the terms of the proposed transaction with Synovus and the potential future impact of a change in the rules relating to pooling of interests accounting;
 - * the alternatives to the merger, including remaining an independent institution;

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- * the competitive and regulatory environment for financial institutions generally;
- * the fact that the merger will enable FABP Bancshares shareholders to exchange their shares of FABP Bancshares common stock, in a tax-free transaction, for shares of common stock of a regional company, the stock of which is widely held and actively traded; and
- * the opinion of The Robinson-Humphrey Company, LLC that the exchange ratio in the merger is fair, from a financial point of view, to the shareholders of FABP Bancshares.

Opinion of Financial Advisor (page 13)

FABP Bancshares asked its financial advisor, The Robinson-Humphrey Company, LLC, for advice on the fairness, from a financial point of view, of the exchange ratio in the merger to FABP Bancshares' shareholders. Robinson-Humphrey has delivered its written opinion to the FABP Bancshares board that as of June 28, 2001, the date the FABP Bancshares board approved the merger agreement, the exchange ratio was fair, from a financial point of view, to the shareholders of FABP Bancshares. The opinion is attached Appendix "C" to this proxy statement/prospectus. You should read this opinion completely to understand the procedures followed, assumptions made, matters considered and limitations of the review undertaken by Robinson-Humphrey. Robinson-Humphrey's opinion is addressed to the FABP Bancshares board and does not constitute a recommendation to any shareholder as to how to vote with respect to matters relating to the proposed merger.

FABP Bancshares Special Shareholders' Meeting (page 8)

The special meeting will be held at the main office of First American Bank of Pensacola located at 33 West Garden Street, Pensacola, Florida 32522 on November 29, 2001, at 5:00 p.m. local time.

Conditions to the Merger (page 19)

Consummation of the merger is subject to various conditions, including:

- * receipt of FABP Bancshares shareholder approval;
- * receipt of the necessary regulatory approvals;
- * receipt of an opinion from KPMG regarding tax aspects of the merger;
- * receipt of a letter from KPMG stating that the merger qualifies for pooling of interests accounting treatment; and
- * satisfaction of other customary closing conditions.

The regulatory approvals necessary to consummate the merger and the other transactions contemplated by the merger agreement include the approval of the Board of Governors of the Federal Reserve System, the Georgia Department of Banking and Finance, the Florida Department of Banking and Finance and the FDIC. The merger has been approved by the Federal Reserve Board, the FDIC and the Georgia Department of Banking and Finance but has not yet been approved by the Florida Department of Banking and Finance.

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Accounting Treatment (page 24)

We expect the merger to qualify as a "pooling of interests," which means that we will treat our companies as if they had always been one company for accounting and financial reporting purposes. Synovus has the right not to complete the merger if KPMG, Synovus' independent public accountants, fails to provide Synovus with a letter stating that the merger will qualify as a pooling of interests.

Tax Opinion (page 23)

The merger is structured so that FABP Bancshares shareholders generally will not recognize gain or loss for federal income tax purposes for the whole shares of Synovus common stock they receive in the merger. KPMG has issued an opinion to this effect, which is attached to this document as Appendix "D." FABP Bancshares shareholders will be taxed on cash received instead of any fractional share of Synovus common stock. Tax matters are complicated, and tax results may vary among shareholders. We urge you to contact your own tax advisor to understand fully how the merger will affect you.

Effective Date of Merger (page 10)

The merger will become effective when all of the conditions to the merger have been satisfied and Articles of Merger are filed with the Florida Secretary of State and the Georgia Secretary of State. Subject to the conditions specified in the merger agreement, the parties anticipate that the merger will become effective in the fourth quarter of 2001. There can be no assurances, however, as to whether or when the merger will occur.

Dissenters' Rights (page 33)

Holdings of FABP Bancshares common stock are entitled to dissent from the merger under Florida law and, if the merger is consummated, to receive payment in cash for the fair value of their shares, upon compliance with the dissenters' rights provisions of the Florida Business Corporation Act. To preserve these rights, a shareholder must not vote in favor of the merger and must deliver to FABP Bancshares a written notice of intent to demand payment for such shareholder's shares before the vote on the merger at the special meeting of FABP Bancshares shareholders. The delivery of a proxy or vote against the merger is not considered such a notice. Failure to follow required procedures may result in the loss of statutory dissenters' rights.

Interests of Certain Persons in the Merger (page 23)

Certain executive officers of FABP Bancshares have interests in the merger that are different from your interests. Thomas B. Carter, Chairman and President of FABP Bancshares, and H. Cary McCoy, Executive Vice President of FABP Bancshares, will enter into employment agreements with Synovus providing for their employment with Synovus as President and as an Executive Vice President, respectively, of Bank of Pensacola for three years following the merger. The Board of Directors of FABP Bancshares was aware of these interests and took them into account in approving the merger agreement.

Termination of the Merger Agreement (page 22)

Either FABP Bancshares or Synovus may terminate the merger agreement under the following circumstances, among others:

- * the mutual consent of Synovus and FABP Bancshares;

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- * the merger is not completed before December 31, 2001, unless the failure to consummate by this time is due to a breach of the merger agreement by the party seeking to terminate; or
- * failure of any of the conditions set forth in the merger agreement unless the failure is due to a breach of the merger agreement by the party seeking to terminate.

5

Also, FABP Bancshares may terminate the merger agreement if the average closing price of Synovus common stock during the 20 consecutive day trading period ending on the fifth business day before the special meeting is less than \$25.00.

No Solicitation (page 21)

FABP Bancshares has agreed that until the completion of the merger, FABP Bancshares will not directly or indirectly take any specified actions with respect to any acquisition proposal. However, notwithstanding these restrictions, FABP Bancshares may, if necessary to comply with its fiduciary obligations and subject to other qualifications and conditions, furnish information and engage in discussions or negotiations in response to unsolicited acquisition proposals.

Effect of Merger on Rights of FABP Bancshares Shareholders (page 26)

FABP Bancshares is a Florida corporation and, therefore, the rights of shareholders of FABP Bancshares currently are determined by reference to the Florida Business Corporation Act and FABP Bancshares' Articles of Incorporation and bylaws. At the effective time of the merger, shareholders of FABP Bancshares will become shareholders of Synovus, which is a Georgia corporation. As a result, their rights as shareholders of Synovus will then be determined by reference to the Georgia Business Corporation Code and Synovus' Articles of Incorporation and bylaws. The laws of these jurisdictions vary. There are also various differences between Synovus' Articles of Incorporation and bylaws and FABP Bancshares' Articles of Incorporation and bylaws.

Market Price Information (page 34)

Synovus common stock is listed on the NYSE under the symbol "SNV." On September 30, 2001, there were 271 holders of record of FABP Bancshares common stock. No established trading market for FABP Bancshares common stock exists. Transactions in FABP Bancshares common stock are infrequent and are negotiated privately between the persons involved in these transactions. These transactions are not reported on an exchange or other organized trading system. For these reasons, FABP Bancshares lacks reliable data regarding recent trading activity in FABP Bancshares common stock. To the knowledge of management of FABP Bancshares, the last transaction in FABP Bancshares common stock occurred on June 8, 2001 at a price of \$35.00 per share.

The following table presents, for June 28, 2001 and October 17, 2001:

- * the last reported sale price of one share of Synovus common stock, as reported on the NYSE Composite Transaction Tape;
- * the most recent sales price of FABP Bancshares common stock to the knowledge of management of FABP Bancshares; and
- * the equivalent per share price of FABP Bancshares common stock, giving effect to the merger.

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

June 28, 2001 was the last full trading day before the public announcement of the proposed merger, and October 17, 2001, was the last day for which such information could be calculated before the date of this document. The equivalent price per share data for FABP Bancshares common stock has been determined by multiplying the last reported sale price of one share of Synovus common stock on each of these dates by the exchange ratio assuming that the average closing price equals the closing price on the date indicated.

Date	Synovus Common Stock	FABP Bancshares(1) Common Stock	Equivalent Price Per Share of FABP Bancshares Common Stock

THE SPECIAL MEETING

We are furnishing this document to shareholders of FABP Bancshares in connection with the solicitation of proxies by the board of directors of FABP Bancshares for use at the special meeting of its shareholders.

Date, Time and Place

The special meeting will be held at the main office of First American Bank of Pensacola located at 33 West Garden Street, Pensacola, Florida 32522 on Thursday, November 29, 2001, at 5:00 p.m. local time.

Matters to Be Considered at the Special Meeting

At the special meeting, the shareholders of FABP Bancshares will be asked to consider and vote upon the approval of the merger, and such other matters as may properly be brought before the special meeting.

The FABP Bancshares board has unanimously approved the merger agreement and the transactions contemplated by the merger agreement and recommends that you vote "FOR" approval of the merger.

Record Date; Stock Entitled to Vote; Quorum

Only holders of record of FABP Bancshares common stock at the close of business on October 16, 2001, the record date for FABP Bancshares special meeting, are entitled to receive notice of the special meeting and to vote at the special meeting. Holders of record of shares of FABP Bancshares common stock on the record date are each entitled to one vote per share on each matter to be

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

considered at the special meeting.

On the record date, 1,567,510 shares of FABP Bancshares common stock were issued and outstanding and were held by 271 holders of record.

A majority of all the issued and outstanding shares of FABP Bancshares common stock, present in person or by proxy, will constitute a quorum for the special meeting.

Vote Required

The approval of the merger requires the affirmative vote of the holders of a majority of the outstanding shares of FABP Bancshares common stock.

The merger does not require the approval of Synovus' shareholders. Synovus' board of directors approved the merger on June 28, 2001.

Stock Ownership of FABP Bancshares Directors and Executive Officers

At the close of business on the record date, the directors and executive officers of FABP Bancshares beneficially owned and were entitled to vote approximately 969,827 shares of FABP Bancshares common stock. This ownership represents approximately 61.6% of the shares of FABP Bancshares common stock outstanding on that date.

Voting of Proxies

Shares represented by all properly executed proxies received in time for the special meeting will be voted at the special meeting according to the voting instructions of the shareholder who executed the proxy. Properly executed proxies which do not contain voting instructions will be voted in favor of the merger.

FABP Bancshares intends to count shares of FABP Bancshares common stock present in person at the special meeting but not voting, and shares of FABP Bancshares common stock for which proxies are received but with respect to which holders of shares have abstained from voting on or voted against any matter, as present at the special meeting for purposes of determining the presence or absence of a quorum for the special meeting.

8

For voting purposes at the special meeting, only shares voted in favor of approval of the merger will be counted as favorable votes for such approval and adoption. A shareholder's failure to submit a proxy, failure to vote in person, or abstention from voting with respect to the approval of the merger will have the same effect as if the shareholder voted against approval of the merger.

Shares held in street name that have been designated by brokers on proxy cards as not voted with respect to the merger ("broker non-votes") will not be counted as votes cast on the merger. Shares with respect to which proxies have been marked as abstentions also will not be counted as votes cast on the merger. Shares with respect to which proxies have been marked as abstentions and broker non-votes will, however, be treated as shares present for purposes of determining whether a quorum is present.

The proposal to adopt the merger agreement is a non-discretionary item, meaning that brokerage firms may not vote shares in their discretion on behalf of a client if the client has not furnished voting instructions. Because the merger must be approved by the holders of a majority of the outstanding shares of FABP Bancshares common stock, abstentions and broker non-votes will have the same effect as a vote against the merger at the meeting. Accordingly, the FABP

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Bancshares board urges FABP Bancshares shareholders to complete, date and sign the accompanying proxy and return it promptly in the enclosed postage prepaid envelope.

We do not expect that any matters other than the proposal to approve the merger will be brought before the special meeting. However, if other matters are properly presented for a vote, the persons named as proxies will vote in accordance with their judgment with respect to those matters.

The persons named as proxies by a FABP Bancshares shareholder may propose and vote for one or more adjournments of the special meeting to permit further solicitations of proxies in favor of approval of the merger. However, the persons named as proxies will not vote any shares which are voted against the approval of the merger in favor of such an adjournment.

Revoking Proxies

FABP Bancshares shareholders of record may revoke their proxies at any time before the time their proxies are voted at the special meeting. A shareholder may revoke a proxy by taking any of the following actions:

- * sending a written notice indicating his or her intention to revoke the proxy, including by telegram or facsimile, to the Corporate Secretary of FABP Bancshares;
- * submitting a later-dated signed proxy; or
- * attending the special meeting and voting or abstaining from voting in person.

Attendance at the special meeting alone without voting or abstaining from the vote on the merger will not revoke a proxy. Any written notice of a revocation of a proxy must be sent so that it will be delivered to the Corporate Secretary of FABP Bancshares, at FABP Bancshares' main office, before the voting begins at the special meeting.

Proxy Solicitation

FABP Bancshares will pay the costs of printing this document and all other costs of soliciting proxies. In addition to solicitation by mail, the directors, officers and employees of FABP Bancshares may solicit proxies from shareholders of FABP Bancshares by telephone or by other means of communication. Such directors, officers and employees will not be additionally compensated but may be reimbursed for reasonable out-of-pocket expenses in connection with such solicitation.

Recommendation of the FABP Bancshares Board

The FABP Bancshares board has unanimously adopted the merger agreement and believes that the proposed transaction is fair to and in the best interests of FABP Bancshares and its shareholders. The FABP

9

Bancshares board unanimously recommends that FABP Bancshares shareholders vote "FOR" approval of the merger.

THE MERGER

The following is a description of the material information pertaining to the merger. This description is qualified in its entirety by reference to the full text of the merger agreement, a copy of which is attached as Appendix "A"

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

to this document and is incorporated by reference. All shareholders are urged to read carefully the merger agreement, as well as the other appendices, in their entirety.

The boards of directors of Synovus and FABP Bancshares have approved, and the proper officers of Synovus and FABP Bancshares have executed and delivered, the merger agreement.

Terms of the Merger

On the effective date of the merger, which will be specified in the Articles of Merger to be filed with the Florida Secretary of State and the Georgia Secretary of State, each issued and outstanding share of FABP Bancshares common stock will be converted into the right to receive between 1.9428 and 2.2582 shares of Synovus common stock. The exact exchange ratio will be determined based on the average closing price of Synovus common stock during the 20-day period ending five business days before the special meeting.

The following table provides examples of the operation of the exchange ratio. The first column shows various possible average closing prices of Synovus common stock. The second column shows the exchange ratio which would be applicable based on the corresponding price of Synovus stock. The exchange ratio is the number of shares of Synovus common stock which will be issued in exchange for each share of FABP Bancshares common stock. The third column shows the dollar value of the Synovus common stock, valued at the average closing price of Synovus common stock during the measurement period, which FABP Bancshares shareholders will be entitled to receive in exchange for each share of FABP Bancshares common stock owned.

Average Closing Price of Synovus Common Stock During Measurement Period	Exchange Ratio	Equivalent Price Per FABP Share
\$33.00 or above	1.9428	64.11 or above
32.50	1.9574	63.62
32.00	1.9724	63.12
31.50	1.9879	62.62
31.00	2.0200	62.62
30.50	2.0531	62.62
30.00	2.0873	62.62
29.50	2.1227	62.62
29.00	2.1593	62.62
28.50	2.1972	62.62
28.00	2.2168	62.07
27.50	2.2372	61.52
27.00 or below	2.2582	60.97 or below

If the average closing price of Synovus common stock during the 20 consecutive day trading period ending five business days before the special meeting is less than \$25.00 per share, the board of directors of FABP Bancshares may terminate the merger agreement.

You should obtain current stock price quotations for Synovus common stock. The market price of Synovus common stock will fluctuate before and after completion of the merger. You will not know when you vote on the merger precisely what the shares of Synovus common stock will be worth when issued in the merger.

After the effective date of the merger, outstanding certificates representing shares of FABP Bancshares common stock will represent shares of Synovus common stock. Certificates representing shares of FABP Bancshares common stock may be surrendered to Synovus by the FABP Bancshares shareholders on or after the effective date of the merger for new certificates representing shares of Synovus common stock. Until so surrendered to Synovus, the certificates which previously represented shares of FABP Bancshares common stock will be deemed for all corporate purposes to evidence the ownership of the respective number of shares of Synovus common stock which the holders are entitled to receive upon their surrender to Synovus except for the payment of dividends, which is subject to the exchange of stock certificates.

Until the stock certificates nominally representing shares of FABP Bancshares common stock are surrendered to Synovus in exchange for certificates representing shares of Synovus common stock, no dividends payable as of any date after the effective date of the merger on the shares of Synovus common stock represented by the FABP Bancshares common stock certificates will be paid. However, Forms 1099 reporting the payment of such dividends will be filed with the Internal Revenue Service and mailed to each shareholder. Upon the surrender to Synovus of the FABP Bancshares common stock certificates, Synovus will pay to the record holders the amount of dividends which previously had become payable, without interest, upon the shares of Synovus common stock represented by the outstanding FABP Bancshares common stock certificates.

Synovus will not issue fractional shares of Synovus common stock in the merger. Instead, Synovus will pay cash, without interest, in lieu of fractional shares, in an amount equal to such fractional part of a share of Synovus common stock multiplied by the closing price per share of Synovus common stock on the fifth business day immediately preceding the effective date of the merger.

The delivery of Synovus stock certificates and other amounts may be subject to forfeiture under applicable escheat laws if FABP Bancshares stock certificates are not surrendered for exchange within the legally specified periods of time, which vary with the state of residence of the certificate holder. Therefore, we urge all FABP Bancshares shareholders to surrender their FABP Bancshares stock certificates at the earliest possible date after consummation of the merger in accordance with instructions provided to you by Synovus in the letter of transmittal described in the following paragraph.

As soon as practicable following consummation of the merger, Synovus will send each shareholder of FABP Bancshares common stock a letter of transmittal explaining the procedure to be followed in exchanging certificates representing shares of FABP Bancshares common stock for certificates representing shares of Synovus common stock. Until the letter of transmittal is received, shareholders of FABP Bancshares should continue to hold their certificates representing shares of FABP Bancshares common stock. Do not send any FABP Bancshares stock certificates with your proxy card.

After the effective date of the merger, each outstanding FABP Bancshares stock option will be converted into an option to acquire shares of Synovus common stock. The exercise price of the converted options and the number of shares subject to the converted options will be adjusted in accordance with the exchange ratio.

Background of the Merger

From time to time since First American Bank of Pensacola, N.A. became an independent bank in January 1992, several larger financial institutions have shown varying levels of interest in acquiring it. Informal inquiries from these potential acquirors were made, but because the business plan of FABP Bancshares

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

was to build an independent bank that could compete with the regional holding companies and provide shareholders above-average rates of return these inquiries were rejected by the FABP Bancshares board. However, in October 1999, the FABP Bancshares board voted to determine whether any genuine interest existed in acquiring the company. The primary reason for the board's decision was the highly publicized proposed elimination of the pooling of interests accounting method often used in connection with bank mergers. The board believed that it was in the company's and its shareholders' best interests to explore a sale, as the future value of the company might be impaired as a result of this proposed accounting change. Accordingly, the board engaged an investment banking firm to assist in examining the company's strategic alternatives. In early 2000, FABP Bancshares was contacted by Synovus regarding the possible acquisition of the company by Synovus. Although FABP Bancshares and Synovus engaged in preliminary negotiations, the parties did not reach an agreement on price at that time and those discussions were terminated.

11

In early 2000, after receiving no other suitable offers, the board ceased efforts to explore the sale of FABP Bancshares. The board redirected its attention to the long-term success of the company as an independent institution, and approved substantial enhancements to the company's operating systems and approved significant investments in fixed assets and personnel.

On June 4, 2001, Mr. Thomas B. Carter, President of First American, received an unsolicited telephone call from Luther Taylor, President of Bank of Pensacola, a Synovus affiliate bank. Mr. Taylor asked if the FABP Bancshares board would consider an offer to acquire the company. Mr. Carter indicated that while the board had abandoned the strategy of pursuing a sale of the company, he believed the board would consider an offer. Mr. Taylor stated that he would relay that information to Synovus' management.

Mr. Taylor called Mr. Carter on June 6, 2001 to arrange a meeting with Mr. Richard E. Anthony, Vice Chairman of the board of directors of Synovus. This meeting took place on June 7, 2001 at Pensacola Aviation Center at Pensacola Regional Airport. Mr. Carter indicated to Mr. Anthony that while the FABP Bancshares board was no longer seeking a sale of the company, he would communicate any genuine offer made by Synovus to the FABP Bancshares board. Mr. Carter suggested to Mr. Anthony that if an offer were to be made, it should be Synovus' final and best offer, because neither he nor the FABP Bancshares board would likely be interested in protracted negotiations as they had learned from past experiences that those negotiations tend to negatively affect morale and productivity at First American. It was also noted by the parties to this meeting that the pooling-of-interests accounting method which Synovus desired to use in this transaction would be unavailable after June 30, 2001, and that expediency was therefore required to meet that deadline. The meeting ended with Mr. Anthony informing Mr. Carter that FABP Bancshares would be contacted shortly concerning an offer, as he believed the two institutions shared similar values and culture.

On June 14, 2001, Mr. Taylor contacted Mr. Carter and reported that Synovus was prepared to present a letter of intent containing the basic financial terms of Synovus' offer. Mr. Carter went to Bank of Pensacola, Synovus' Pensacola banking subsidiary, and met with Mr. Taylor and with Mr. Robert C. Fair and Mr. Joseph R. Youd, both executive officers of Bank of Pensacola. H. Cary McCoy, an executive officer of FABP Bancshares, was also present at the meeting. At that meeting, the letter of intent was presented and reviewed. Mr. Carter stated he would call a special meeting of the FABP Bancshares board of directors to consider the offer. He also invited Synovus representatives to attend the meeting to answer any questions that might arise.

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

A special board meeting of FABP Bancshares was held on June 18, 2001 at 5:00 p.m. Representatives of Synovus attended a portion of the meeting. After a lengthy discussion, the board approved the general business terms contained in the letter of intent and directed Mr. Carter to engage Smith, Gambrell & Russell, LLP, as legal counsel to assist in negotiating a definitive merger agreement. The board also authorized Mr. Carter to engage an appropriate nationally recognized investment banking firm to render a fairness opinion on the financial terms of this transaction should an acceptable definitive agreement be negotiated.

From June 18, 2001 until June 27, 2001, the parties negotiated the terms of a definitive merger agreement. While these negotiations were occurring, Synovus completed its on-site due diligence review of FABP Bancshares.

On June 28, 2001, the FABP Bancshares board met to consider and vote upon the entering into of the definitive merger agreement with Synovus. Representatives from Smith, Gambrell and The Robinson-Humphrey Company, LLC (now SunTrust Robinson Humphrey Equity Capital Markets) were present at the board meeting. Robinson-Humphrey had been engaged as FABP Bancshares' financial advisor to provide its opinion of the fairness of the proposed transaction to FABP's shareholders from a financial point of view. Representatives of Smith, Gambrell reviewed the terms of the Merger Agreement in detail. Representatives of Robinson-Humphrey delivered their written opinion that the exchange ratio was fair, from a financial point of view, to the shareholders of FABP Bancshares and reviewed in detail the methodology used in arriving at that opinion. Following discussion among the directors of the terms of the merger, the board unanimously voted to approve the Merger Agreement. The board authorized Mr. Carter to sign the Merger Agreement on behalf of the company and to take such actions as were deemed necessary to consummate the merger, subject to the approval of FABP Bancshares shareholders and bank regulatory agencies.

12

Recommendation of FABP Bancshares Board and Reasons for the Merger

On June 28, 2001, the board of directors of FABP Bancshares unanimously approved and adopted the merger agreement. The board of directors of FABP Bancshares believes that the merger and the terms and provisions of the merger agreement are fair to and in the best interests of FABP Bancshares shareholders. The board of directors of FABP Bancshares unanimously recommends that you vote to approve the merger.

In reaching its decision to adopt and recommend approval of the merger agreement, the board of directors of FABP Bancshares considered a number of factors, including the following:

- * the value of the consideration to be received by FABP Bancshares shareholders relative to the book value and earnings per share of FABP Bancshares common stock;
- * information concerning the financial condition, results of operations and business prospects of Synovus;
- * the financial terms of recent business combinations in the financial services industry and a comparison of the multiples of selected combinations with the terms of the proposed transaction with Synovus and the potential future impact of a change in the rules relating to pooling of interests accounting;
- * the alternatives to the merger, including remaining an independent institution;

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- * the competitive and regulatory environment for financial institutions generally;
- * the fact that the merger will enable FABP Bancshares shareholders to exchange their shares of FABP Bancshares common stock, in a tax-free transaction, for shares of common stock of a regional company, the stock of which is widely held and actively traded; and
- * the opinion of The Robinson-Humphrey Company that the exchange ratio is fair, from a financial point of view, to the shareholders of FABP Bancshares.

The foregoing discussion of the information and factors considered by the FABP Bancshares board is not intended to be exhaustive, but includes the material factors considered. In view of the variety of factors considered in connection with its evaluation of the merger and the offer price, the FABP Bancshares board did not find it practicable to, and did not, quantify or otherwise assign relative weight to the specific factors considered in reaching its determinations and recommendations, and individual directors may have given differing weight to different factors.

Each member of the Board of Directors of FABP Bancshares has indicated that he or she intends to vote his or her shares of FABP Bancshares common stock in favor of the merger.

FABP BANCSHARES' BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT FABP BANCSHARES SHAREHOLDERS VOTE FOR THE PROPOSAL TO APPROVE THE MERGER AGREEMENT.

Management of Synovus believes that the merger will provide Synovus with expanded market share opportunities for profitable long-term growth and result in the integration of a well-suited and positioned banking organization into Synovus' existing organization.

Opinion of FABP Bancshares' Financial Advisor

FABP Bancshares engaged The Robinson-Humphrey Company, LLC to act as its financial advisor in connection with the proposed merger. At the June 28, 2001 meeting of the FABP Bancshares board of directors, representatives of Robinson-Humphrey reviewed its financial analysis of the proposed merger with the board and delivered its written opinion to the effect that, as of that date and based upon and subject to the matters described in the opinion, the exchange ratio in the proposed merger was fair, from a financial point of view, to the shareholders of FABP Bancshares. No limitations were imposed by the FABP Bancshares board upon Robinson-Humphrey with respect to the investigation made or the procedures followed by Robinson-Humphrey in rendering its opinion.

13

The full text of Robinson-Humphrey's written opinion dated June 28, 2001, which describes the assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached as Appendix "C" and is incorporated herein by reference. You are urged to read this opinion in its entirety.

Robinson-Humphrey's opinion is addressed to the board of directors of FABP Bancshares and relates only to the fairness, from a financial point of view, of the exchange ratio to the shareholders of FABP Bancshares, and does not constitute a recommendation to any shareholder as to how to vote with respect to matters relating to the proposed merger. The summary of Robinson-Humphrey's opinion appearing below is qualified in its entirety by reference to the full text of its opinion, which is attached as Appendix "C."

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Material and Information Considered with Respect to the Proposed Merger

In arriving at its opinion, Robinson-Humphrey:

- * reviewed the merger agreement and exhibits thereto;
- * reviewed and analyzed certain publicly available information concerning FABP Bancshares and Synovus which Robinson-Humphrey believed to be relevant to its inquiry;
- * reviewed and analyzed financial and operating information with respect to the business, operations and prospects of FABP Bancshares furnished to Robinson-Humphrey by FABP Bancshares;
- * reviewed and analyzed a comparison of the historical financial results and present financial condition of FABP Bancshares with those of publicly traded companies which Robinson-Humphrey deemed relevant;
- * reviewed and analyzed a comparison of the financial terms of the proposed merger with the publicly available financial terms of other recent transactions which Robinson-Humphrey deemed relevant;
- * conducted discussions with the management of FABP Bancshares concerning its business, operations, assets, liabilities, present condition and future prospects and the potential strategic benefits expected by the management of FABP Bancshares to result from a combination of the businesses of Synovus and FABP Bancshares; and
- * reviewed such other studies, analyses and investigations and took into account such other matters as Robinson-Humphrey deemed appropriate.

In rendering its opinion, Robinson-Humphrey assumed and relied upon, without independent verification, the accuracy and completeness of the financial and other information discussed with or reviewed by Robinson-Humphrey in arriving at its opinion. With respect to the financial forecasts provided to or discussed with Robinson-Humphrey, Robinson-Humphrey assumed, without independent verification or investigation, that such forecasts had been reasonably prepared on bases reflecting the best currently available information, estimates and judgments of the management of FABP Bancshares as to its future financial performance. In arriving at its opinion, Robinson-Humphrey did not conduct a physical inspection of the properties and facilities of FABP Bancshares and did not make nor obtain any evaluations or appraisals of the assets or liabilities (including, without limitation, any potential environmental liabilities), contingent or otherwise, of FABP Bancshares. FABP Bancshares did not authorize Robinson-Humphrey to solicit, and Robinson-Humphrey did not solicit, any indications of interest from any third party with respect to the purchase of all or a part of FABP Bancshares' business. Robinson-Humphrey also assumed the following:

- * that the proposed merger would be consummated in accordance with the terms of the merger agreement;
- * that the proposed merger will be accounted for as a pooling of interests under generally accepted accounting principles and will be treated as a tax-free reorganization for federal income tax purposes; and

- * that all material governmental, regulatory or other consents and

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

approvals necessary for the consummation of the proposed merger will be obtained without any adverse effect on FABP Bancshares or Synovus, or on the expected benefits of the proposed merger.

Robinson-Humphrey's opinion is necessarily based upon market, economic and other conditions as they may have existed and could be evaluated as of June 28, 2001. Robinson-Humphrey expressed no opinion as to the underlying valuation, future performance or long-term viability of FABP Bancshares or Synovus. Robinson-Humphrey does not have any obligation to update or revise its opinion.

In connection with the preparation of its fairness opinion, Robinson-Humphrey performed financial and comparative analyses, the material portions of which are summarized below. The summary set forth below includes the financial analyses used by Robinson-Humphrey and deemed to be material, but does not purport to be a complete description of the analyses performed by Robinson-Humphrey in arriving at its opinion. The preparation of a fairness opinion involves various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances, and, therefore, such an opinion is not readily susceptible to partial analysis or summary description. In addition, Robinson-Humphrey believes that its analyses must be considered as an integrated whole, and that selecting portions of such analyses and the factors considered by it, without considering all of such analyses and factors, could create a misleading or incomplete view of the process underlying its analyses set forth in the opinion.

In performing its analyses, Robinson-Humphrey made numerous assumptions with respect to industry and economic conditions, many of which are beyond the control of FABP Bancshares or Synovus. Any estimates contained in such analyses are not necessarily indicative of actual past or future results or values, which may be significantly more or less favorable than as set forth therein. Estimates of values of companies do not purport to be appraisals or necessarily to reflect the price at which such companies may actually be sold, and such estimates are inherently subject to substantial uncertainty. No company, business or transaction used in such analyses as a comparison is identical to FABP Bancshares, Synovus, their respective businesses or the proposed merger, and an evaluation of the results of those analyses is not entirely mathematical. Rather, the analyses involve complex considerations and judgments concerning financial and operating characteristics and other factors that could affect the acquisition, public trading or other values of the companies, businesses or transactions analyzed.

Robinson-Humphrey's opinion and financial analyses were only one of many factors considered by FABP Bancshares' board in its evaluation of the proposed merger and should not be viewed as determinative of the views of FABP Bancshares' board or management with respect to the proposed merger or the exchange ratio in the proposed merger. The type of consideration and the exchange ratio in the proposed merger was determined through direct negotiation between FABP Bancshares and Synovus. The decision to enter into the proposed merger was solely that of the FABP Bancshares board.

The following is a summary of the material financial analyses presented by Robinson-Humphrey to the FABP Bancshares board in connection with its opinion.

Analysis of Selected Publicly Traded Reference Companies

Reference company analysis analyzes a company's operating performance relative to a reference group of publicly traded companies. Based on relative performance and outlook for a company, this analysis enables an implied unaffected market trading value to be determined. Robinson-Humphrey analyzed the financial and stock market information for the following selected publicly traded bank holding companies with less than \$1 billion in assets operating in

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Alabama, Georgia and Florida:

- * ABC Bancorp
- * Auburn National Bancorporation, Inc.
- * CCF Holding Company
- * CNB Florida Bancshares, Inc.
- * Colony Bankcorp, Inc.
- * Commercial Bankshares, Inc.

15

- * Community First Banking Company
- * Eufaula BancCorp, Inc.
- * Fidelity National Corporation
- * First Southern Bancshares, Inc.
- * FLAG Financial Corporation
- * Florida Banks, Inc.
- * GB&T Bancshares, Inc.
- * Golden Isles Financial Holdings, Inc.
- * Gulf West Banks, Inc.
- * Habersham Bancorp
- * The Peoples BancTrust, Inc.
- * Pinnacle Bancshares, Inc.
- * Pointe Financial Corporation
- * Savannah Bancorp, Inc.
- * South Alabama Bancorporation, Inc.
- * Summit Bank Corporation
- * TIP Financial Corp.

For the each of the reference companies, Robinson-Humphrey reviewed and analyzed, among other things, market price as a multiple of:

- * latest twelve months earnings per share ("EPS")
- * book value per share

All multiples were based on closing stock prices as of June 27, 2001. The following table sets forth the multiples indicated by this analysis for the reference companies as of June 27, 2001:

	Average	Median
	-----	-----
Selected Companies' Market Price to:		
Latest Twelve Months EPS	15.01x	13.22x
Book Value Per Share	1.31x	1.12x

Robinson-Humphrey then applied the average multiples resulting from the analysis above to the values for FABP Bancshares for the latest twelve months EPS, and book value per share as of March 31, 2001. This analysis yielded implied equity values per share for FABP Bancshares of approximately \$43.99 and \$22.05, respectively. These implied equity values per share were compared to the implied equity value per share for FABP Bancshares as of June 27, 2001 of \$64.43. The implied equity value per share for FABP Bancshares was calculated using the closing price of Synovus common stock on June 27, 2001 of \$31.30 per share and an exchange ratio of approximately 2.0585, based on (i) the average closing price of the shares of Synovus common stock on the NYSE for the 20 trading days ending on June 27, 2001 of approximately \$30.43 and (ii) the conversion table set forth in the merger agreement. Estimated financial data for FABP Bancshares was based on internal estimates of the management of FABP Bancshares.

Analysis of Selected Merger and Acquisition Transactions

Reference merger and acquisition transaction analysis provides a valuation range based upon consideration paid for selected bank holding companies in recent transactions. Robinson-Humphrey reviewed the financial terms, to the extent publicly available, of 58 proposed, pending or completed merger and acquisition transactions from January 1, 2000 to June 27, 2001, involving selected bank holding companies with assets between \$200 million and \$500 million (the "National Reference Transactions Group"). Robinson-Humphrey also reviewed the financial terms, to the extent publicly available, of 40 proposed, pending or completed merger and acquisition transactions

16

from January 1, 1999 to June 27, 2001, involving selected bank holding companies with assets between \$50 million and \$1 billion operating in Alabama, Georgia and Florida (the "Southeastern Reference Transactions Group"). Finally, Robinson-Humphrey reviewed the financial terms, to the extent publicly available, of 20 proposed, pending or completed merger and acquisition transactions from January 1, 1999 to June 27, 2001, involving selected bank holding companies with assets between \$50 million and \$1 billion operating in Florida (the "Florida Reference Transactions Group"). For each of the National Reference Transactions Group, the Southeastern Reference Transactions Group and the Florida Reference Transactions Group, Robinson-Humphrey calculated various financial multiples based on publicly available information for each of the selected acquisition transactions and compared them to corresponding financial multiples for the proposed merger, based on the exchange ratio (calculated as of June 27, 2001).

Robinson-Humphrey reviewed and analyzed, among other things, market price as a multiple of:

- * latest twelve months EPS
- * book value per share

All multiples for the selected transactions were based on publicly available information at the time of announcement of the relevant transaction.

For the National Reference Transactions Group, the average and median multiples indicated by these analyses are as follows:

	Average	Median
	-----	-----
Market Price to:		
Latest Twelve Months EPS	19.43x	18.02x
Book Value Per Share	2.01x	1.91x

Robinson-Humphrey then applied the average multiple resulting from the analysis above to the latest twelve months EPS and book value per share for FABP Bancshares. This analysis yielded implied equity values per share for FABP Bancshares of approximately \$56.94, and \$33.96, respectively. These implied equity values per share were compared to the implied equity value per share for FABP Bancshares as of June 27, 2001 of \$64.43. The implied equity value per share for FABP Bancshares was calculated using the closing price of Synovus common stock on June 27, 2001 of \$31.30 per share and an exchange ratio of approximately 2.0585, based on (i) the average closing price of the shares of Synovus common stock on the NYSE for the 20 trading days ending on June 27, 2001

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

of approximately \$30.43 and (ii) the conversion table set forth in the merger agreement. Estimated financial data for FABP Bancshares was based on internal estimates of the management of FABP Bancshares.

For the Southeastern Reference Transactions Group, the average and median multiples indicated by these analyses are as follows:

	Average -----	Median -----
Market Price to:		
Latest Twelve Months EPS	25.40x	23.63x
Book Value Per Share	2.59x	2.54x

Robinson-Humphrey then applied the average multiple resulting from the analysis above to the latest twelve months EPS and book value per share for FABP Bancshares. This analysis yielded implied equity values per share for FABP Bancshares of approximately \$74.42 and \$43.62, respectively. These implied equity values per share were compared to the implied equity value per share for FABP Bancshares as of June 27, 2001 of \$64.43. The

17

implied equity value per share for FABP Bancshares was calculated using the closing price of Synovus common stock on June 27, 2001 of \$31.30 per share and an exchange ratio of approximately 2.0585, based on (i) the average closing price of the shares of Synovus common stock on the NYSE for the 20 trading days ending on June 27, 2001 of approximately \$30.43 and (ii) the conversion table set forth in the merger agreement. Estimated financial data for FABP Bancshares was based on internal estimates of the management of FABP Bancshares.

For the Florida Reference Transactions Group, the average and median multiples indicated by these analyses are as follows:

	Average -----	Median -----
Market Price to:		
Latest Twelve Months EPS	30.04x	25.66x
Book Value Per Share	2.70x	2.54x

Robinson-Humphrey then applied the average multiple resulting from the analysis above to the latest twelve months EPS and book value per share for FABP Bancshares. This analysis yielded implied equity values per share for FABP Bancshares of approximately \$88.01 and \$45.52, respectively. These implied equity values per share were compared to the implied equity value per share for FABP Bancshares as of June 27, 2001 of \$64.43. The implied equity value per share for FABP Bancshares was calculated using the closing price of Synovus common stock on June 27, 2001 of \$31.30 per share and an exchange ratio of approximately 2.0585, based on (i) the average closing price of the shares of Synovus common stock on the NYSE for the 20 trading days ending on June 27, 2001 of approximately \$30.43 and (ii) the conversion table set forth in the merger agreement. Estimated financial data for FABP Bancshares was based on internal estimates of the management of FABP Bancshares.

Contribution Analysis

Robinson-Humphrey reviewed the relative contribution that FABP Bancshares and Synovus would be making to the combined business in terms of net interest income, net income, total assets, net loans, total deposits and shareholders'

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

equity. Robinson-Humphrey analyzed relative contribution based on the latest twelve months results for each company through March 31, 2001. The relative contribution of FABP Bancshares to the combined entity's pro forma combined financial results ranged from a high of 2.2% (based on each company's net loans as of March 31, 2001) to a low of 1.7% (based on each company's latest twelve months net income and each company's shareholders' equity as of March 31, 2001). FABP Bancshares shareholders are expected to receive 1.1% ownership of the combined entity, using an exchange ratio in the proposed merger as of June 27, 2001, based on (i) the average closing price of the shares of Synovus common stock on the NYSE for the 20 trading days ending on June 27, 2001 of approximately \$30.43 and (ii) the conversion table set forth in the merger agreement.

Dividend Discount Analysis

Robinson-Humphrey performed a dividend discount analysis to estimate a range of present values per share of FABP Bancshares common stock, assuming FABP Bancshares continued to operate as a stand-alone entity. Robinson-Humphrey discounted five years of estimated cash flows for FABP Bancshares, assuming a dividend rate sufficient to maintain an equity capital ratio (defined as common equity divided by total assets) of 6.00% and using a range of discount rates from 10% to 14%. Robinson-Humphrey derived an estimate of a range of terminal values by applying multiples ranging from 13 times to 17 times estimated year-end 2005 net income. This analysis yielded a range of stand-alone, fully diluted values for FABP Bancshares of approximately \$46.44 to \$57.88 per share, with an average value of \$51.93 per share. These implied equity values per share were compared to the implied equity value per share for FABP Bancshares as of June 27, 2001 of \$64.43. The implied equity value per share for FABP Bancshares was calculated using the closing price of Synovus common stock on June 27, 2001 of \$31.30 per share and an exchange ratio of approximately 2.0585, based on (i) the average closing price of the shares of Synovus common stock on the NYSE for the 20 trading days ending on June 27, 2001 of approximately \$30.43 and (ii) the conversion table set forth in the merger agreement. Estimated financial data for FABP Bancshares was based on internal estimates of the management of FABP Bancshares.

Information Concerning FABP Bancshares' Financial Advisor

At the time Robinson-Humphrey rendered its opinion to FABP Bancshares, Robinson-Humphrey was a nationally recognized investment banking firm and, as a customary part of its investment banking activities, was regularly engaged in the valuation of businesses and securities in connection with mergers and acquisitions, negotiated underwritings, private placements, and valuations for corporate and other purposes. Since the date Robinson-Humphrey rendered its opinion to FABP Bancshares, Robinson-Humphrey has sold its investment banking operations to SunTrust Banks, Inc. FABP Bancshares retained Robinson-Humphrey because of its experience, expertise, reputation in the financial services industry and familiarity with FABP Bancshares and transactions similar to the proposed merger. In the ordinary course of business, Robinson-Humphrey and its affiliates may actively trade or hold the securities and other instruments and obligations of Synovus for their own account and for the accounts of customers and, accordingly, may at any time hold long or short positions in such securities, instruments or obligations.

Pursuant to an engagement letter dated June 28, 2001, FABP Bancshares agreed to pay Robinson-Humphrey a fee of \$100,000 upon delivery of its opinion. FABP Bancshares has also agreed to reimburse Robinson-Humphrey for its out-of-pocket expenses incurred in connection with its engagement, and to

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

indemnify Robinson-Humphrey against specified liabilities, including liabilities under federal securities laws incurred in connection with its engagement.

No Solicitation

In the merger agreement, FABP Bancshares has agreed that it will not solicit or encourage any inquiry or proposal relating to the merger or consolidation of FABP Bancshares with any entity or the acquisition of all or a significant portion of its assets or properties or equity securities by any person or entity, and that, subject to the fiduciary duties of the board of directors of FABP Bancshares, it will not negotiate with respect to any such transaction, nor reach any agreement or understanding with respect thereto. FABP Bancshares has also agreed that it will promptly notify Synovus in the event it receives any inquiry or proposal relating to any such transaction. These provisions are intended to increase the likelihood that the merger will be consummated in accordance with the terms of the merger agreement and may have the effect of discouraging persons who might now or prior to the effective date of the merger be interested in acquiring all of or a significant interest in FABP Bancshares from considering or proposing such an acquisition.

Conduct of Business of FABP Bancshares Pending the Merger

The merger agreement provides that prior to the effective date of the merger, FABP Bancshares and its subsidiary bank will conduct business only in the ordinary course and will not, without the prior written consent of Synovus:

- * issue any options to purchase capital stock or issue any shares of capital stock, other than shares of FABP Bancshares common stock issued in connection with the exercise of currently outstanding options to purchase shares of FABP Bancshares common stock;
- * declare, set aside, or pay any dividend or distribution with respect to the capital stock of FABP Bancshares, other than normal and customary quarterly cash dividends in accordance with past practices;

21

- * incur or assume any liabilities, other than in the ordinary course of business;

- * take any other action not in the ordinary course of business.

Regulatory Approvals

Consummation of the merger and the other transactions contemplated by the merger agreement is subject to, and conditioned upon, receipt of the approvals from the Federal Reserve Board, the Georgia Department of Banking and Finance, the Florida Department of Banking and Finance and the FDIC. Applications in connection with the merger were filed with the regulatory agencies on or about July 27, 2001. The merger has been approved by the Federal Reserve Board, the FDIC and the Georgia Department of Banking and Finance but has not yet been approved by the Florida Department of Banking and Finance. The merger cannot be consummated for 30 days after its approval by the Federal Reserve Board, although this period may be shortened to 15 days by the U.S. Attorney General. During this period, the United States Justice Department may challenge the merger on antitrust grounds.

There can be no assurance that the regulatory agencies will approve or take other required action with respect to the merger. Synovus and FABP Bancshares are not aware of any governmental approvals or actions that are required in order to consummate the merger except as described above. Should other approvals or actions be required, it is contemplated that Synovus and FABP Bancshares would seek the approval or action. There can be no assurance as to whether or when any other approval or action, if required, could be obtained.

Waiver and Amendment

Before the effective date of the merger, any provision of the merger agreement may be waived in writing by the party entitled to the benefits of such provision or by both parties, to the extent allowed by law. In addition, the merger agreement may be amended at any time, to the extent allowed by law, by an

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

agreement in writing between the parties after approval of their respective boards of directors.

Termination and Termination Fee

The merger agreement may be terminated prior to the effective date either before or after its approval by the shareholders of FABP Bancshares. The merger agreement may be terminated by Synovus or FABP Bancshares:

- * by mutual consent of Synovus and FABP Bancshares;
- * if consummation of the merger does not occur by reason of the failure of any of the conditions precedent set forth in the merger agreement unless the failure to meet the conditions precedent is due to a breach of the merger agreement by the terminating party; or
- * if the merger is not consummated by December 31, 2001, unless the failure to consummate by such time is due to the breach of the merger agreement by the terminating party;

In addition, the merger agreement may be terminated by FABP Bancshares if the average closing price of Synovus common stock on the NYSE during the 20 consecutive day trading period ending on the fifth business day preceding the date of the special meeting is less than \$25.00 per share.

If either party terminates the merger agreement due to the failure of the other party to satisfy its representations, warranties or covenants in the agreement, the terminating party will be entitled to a cash payment from the other party in the amount of the terminating party's expenses related to the merger, up to a maximum of \$150,000.

22

Interests of FABP Bancshares' Directors and Officers in the Merger

Some members of the FABP Bancshares board of directors and management have interests in the merger in addition to their interests generally as shareholders of FABP Bancshares. The FABP Bancshares board of directors was aware of these interests and considered them, in addition to other matters, in approving the merger agreement.

Employment Agreements. It is a condition to the merger that Thomas B. Carter, Chairman and President of FABP Bancshares, and H. Cary McCoy, Executive Vice President of FABP Bancshares, each enter into an employment agreement with Synovus before the effective date of the merger. The employment agreements are for a three-year term and provide for the election of Mr. Carter as President of Bank of Pensacola and Mr. McCoy as an Executive Vice President of Bank of Pensacola. Messrs. Carter and McCoy will be granted options to purchase 10,000 and 5,000 shares, respectively, of common stock of Synovus at fair market value in connection with the employment agreements.

As part of the employment agreements, Synovus has also agreed to enter into its standard change of control agreement with Messrs. Carter and McCoy. The agreement provides severance pay and continuation of certain benefits in the event of a change of control of Synovus. In order to receive benefits under the agreement, the executive's employment must be terminated involuntarily and without cause, whether actually or constructively, within one year following a change of control or the executive may voluntarily or involuntarily terminate employment during the thirteenth month following a change of control.

FABP Stock Options. FABP Bancshares has granted stock options from time to

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

time to its executive officers. As of the date of this document, there are outstanding options to purchase up to an aggregate of 17,450 shares of FABP Bancshares common stock that have been granted to the executive officers of FABP Bancshares. All of the outstanding FABP Bancshares stock options which are not otherwise fully exercisable prior to the merger will become immediately exercisable upon completion of the merger. The following table sets forth, as of the date of this document, with respect to each executive officer of FABP Bancshares (i) the number of shares of FABP Bancshares common stock subject to options held by such person, and (ii) the number of shares as to which such options will become exercisable upon completion of the merger.

Name	Title or Position	Shares Subject to FABP Options	Shares as to which Options will Vest at Time of Merger
Thomas B. Carter	Chairman and President	5,400	3,300
H. Cary McCoy	Executive Vice President	4,750	2,900
William E. Bassett	Senior Vice President	4,100	2,500
Harry A. Stump	Senior Vice President	3,200	2,040

Employee Benefits

Synovus has agreed in the merger agreement that, following the effective date of the merger, Synovus will provide to employees of FABP Bancshares employee benefits, including without limitation pension benefits, health and welfare benefits, life insurance and vacation and severance arrangements, on terms and conditions that are either substantially similar to those currently provided by FABP Bancshares or the same as are provided to employees of Bank of Pensacola.

Tax Opinion

The following is a summary description of the material anticipated federal income tax consequences of the transaction generally applicable to the shareholders of FABP Bancshares and to Synovus and FABP Bancshares. This summary is not intended to be a complete description of all of the federal income tax consequences of the transaction. No information is provided with respect to the tax consequences of the transaction under any other tax laws, including applicable state, local and foreign tax laws. In addition, the following discussion may not be applicable with respect to specific categories of shareholders, including but not limited to persons who are corporations, trusts, dealers in securities, financial institutions, insurance companies or tax exempt organizations;

persons who are not United States citizens or resident aliens or domestic entities (partnerships or trusts); persons who are subject to alternative minimum tax (to the extent that tax affects the tax consequences of the merger) or are subject to the "golden parachute" provisions of the Internal Revenue Code of 1986 (to the extent that tax affects the tax consequences of the merger); persons who acquired FABP Bancshares common stock with employee stock options or otherwise as compensation if such shares are subject to any restriction related to employment; persons who do not hold their shares as capital assets; or persons who hold their shares as part of a "straddle" or "conversion transaction." No ruling has been or will be requested from the IRS with respect to the tax effects of the merger. The federal income tax laws are complex, and a shareholder's individual circumstances may affect the tax consequences to the

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

shareholder.

Synovus and FABP Bancshares have received an opinion from KPMG LLP, to the effect that:

- * the merger of FABP Bancshares with and into Synovus will qualify as a tax-free reorganization under Section 368(a) of the Internal Revenue Code and that no gain or loss will be recognized by the shareholders of FABP Bancshares upon their receipt of shares of Synovus common stock;
- * the basis of Synovus common stock received by each FABP Bancshares shareholder will be the same as the basis of FABP Bancshares common stock being surrendered;
- * the holding period of Synovus common stock received by each FABP Bancshares shareholder will include the holding period of the FABP Bancshares common stock being exchanged, provided that the FABP Bancshares common stock is held as a capital asset at the effective date of the merger;
- * any cash payments received by FABP Bancshares shareholders in lieu of their receipt of fractional shares of Synovus common stock will be treated as if such fractional shares were redeemed by Synovus and taxed under Section 302 of the Code as an exchange or dividend;
- * the share purchase rights, which are described on pages 28 through 31 of this document, should be treated as an attribute of the Synovus common stock and no gain or loss should be recognized by shareholders of FABP Bancshares upon receipt of such share purchase rights; and
- * any cash payments received by FABP Bancshares shareholders as a result of their exercise of their statutory dissenters' rights will be treated as a distribution in redemption of the shareholders' FABP Bancshares shares subject to Section 302 of the Code.

The tax opinion was issued on September 12, 2001. The tax opinion is based upon assumptions and representations by the management of Synovus and/or FABP Bancshares, including, in general, the absence of any plan or intention of FABP Bancshares shareholders to sell or otherwise dispose of any amount of Synovus common stock received in the merger that would violate continuity of interest requirements. KPMG LLP serves Synovus as its independent public accountants.

All FABP Bancshares shareholders are urged to consult their own tax advisors as to the specific consequences to them of the merger under federal, state, local and any other applicable income tax laws.

Accounting Treatment

It is anticipated that the merger will be accounted for as a pooling of interests for financial reporting purposes. Under this accounting method, holders of FABP Bancshares common stock will be deemed to have combined their existing voting common stock interest with that of holders of Synovus common stock by exchanging their shares for shares of Synovus common stock. The book value of the assets, liabilities and shareholders' equity of FABP Bancshares, as reported on its balance sheet, will be carried over to the consolidated balance sheet of Synovus, and no goodwill will be created. Synovus will include in its consolidated income the consolidated income of FABP Bancshares for the entire fiscal year in which the merger occurs and for other periods presented; however, certain expenses incurred to effect the merger must be treated by Synovus as current charges against income rather than adjustments to its balance sheet. The merger agreement provides that consummation of the merger is subject to Synovus

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

receiving a written opinion from its certified public accountants that the merger will qualify for pooling of interests accounting treatment.

24

Expenses

The merger agreement provides that Synovus and FABP Bancshares will each pay its own expenses in connection with the merger and related transactions, including, but not limited to, the fees and expenses of its own investment bankers, legal counsel and accountants.

New York Stock Exchange Listing

Synovus common stock is listed on the NYSE. The shares of Synovus common stock to be issued to the shareholders of FABP Bancshares in the merger will be listed on the NYSE.

Resales of Synovus Common Stock

The shares of Synovus common stock issued pursuant to the merger agreement will be freely transferable under the Securities Act of 1933, except for shares issued to any shareholder who may be deemed to be an "affiliate" of FABP Bancshares for purposes of Rule 145 under the Securities Act as of the date of the FABP Bancshares special meeting. Affiliates may not sell their shares of Synovus common stock acquired in connection with the merger except pursuant to an effective registration statement under the Securities Act covering the resale of such shares or in compliance with Rule 145 promulgated under the Securities Act or another applicable exemption from the registration requirements of the Securities Act. Persons who may be deemed to be affiliates of FABP Bancshares generally include individuals or entities that control, are controlled by or are under common control with FABP Bancshares and may include certain officers and directors of FABP Bancshares as well as principal shareholders of FABP Bancshares.

FABP Bancshares has agreed in the merger agreement to use its best efforts to cause each director, executive officer and other person who is an affiliate of FABP Bancshares to enter into an agreement with Synovus providing that such person will not sell, pledge, transfer or otherwise dispose of shares of FABP Bancshares common stock owned by such person or Synovus common stock to be received by such person in the merger: (i) in the case of shares of Synovus common stock only, except in compliance with the applicable provisions of the Securities Act and the rules and regulations thereunder; and (ii) during the periods when any such sale, pledge, transfer or other disposition would, under generally accepted accounting principles or the rules, regulations or interpretations of the SEC, disqualify the merger for pooling of interests accounting treatment. Such periods in general encompass the period commencing 30 days prior to the merger and ending at the time of publication of financial results covering at least 30 days of combined operations of Synovus and FABP Bancshares. This prospectus does not cover resales of Synovus common stock following consummation of the merger, and no person may make use of this prospectus in connection with any such resale.

25

DESCRIPTION OF STOCK AND EFFECT OF MERGER ON RIGHTS OF FABP BANCSHARES SHAREHOLDERS

If the merger is completed, all holders of FABP Bancshares common stock and options will become holders of shares of Synovus common stock or holders of options for shares of Synovus common stock. The rights of a holder of Synovus

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

common stock are similar in some respects and different in other respects from the rights of a holder of FABP Bancshares common stock. The rights of FABP Bancshares shareholders are currently governed by the Florida Business Corporation Act and the Articles of Incorporation and bylaws of FABP Bancshares. The following discussion summarizes the material differences between the current rights of FABP Bancshares shareholders and the rights they will have as Synovus shareholders following the merger.

The following comparison of shareholders' rights is necessarily a summary, is not intended to be complete or to identify all differences that may, under given situations, be material to shareholders and is subject, in all respects, and is qualified by reference to the Florida Business Corporation Act, FABP Bancshares' Articles of Incorporation and bylaws, the Georgia Business Corporation Code and Synovus' Articles of Incorporation and bylaws.

Synovus is incorporated under the Georgia Business Corporation Code. Synovus is authorized to issue 600,000,000 shares of Synovus common stock, of which 291,201,076 shares were outstanding on September 30, 2001. Synovus has no preferred stock authorized. Synovus' board of directors may at any time, without additional approval of the holders of Synovus common stock, issue authorized but unissued shares of Synovus common stock.

As described below, Synovus' Articles of Incorporation and bylaws presently contain several provisions which may make Synovus a less attractive target for an acquisition of control by an outsider who lacks the support of Synovus' board of directors.

Voting Rights; Anti-Takeover Effects; The Voting Amendment

Under an amendment to Synovus' Articles of Incorporation and bylaws which became effective on April 24, 1986, referred to in this document as the "voting amendment," shareholders of Synovus common stock are entitled to ten votes on each matter submitted to a vote at a meeting of shareholders for each share of Synovus common stock which:

- * has had the same beneficial owner since April 24, 1986;
- * was acquired by reason of participation in a dividend reinvestment plan offered by Synovus and is held by the same beneficial owner for whom it was acquired under such plan;
- * is held by the same beneficial owner to whom it was issued as a result of an acquisition of a company or business by Synovus where the resolutions adopted by Synovus' board of directors approving such issuance specifically reference and grant such rights, including shares of Synovus common stock to be issued to the former shareholders of FABP Bancshares upon consummation of the merger;
- * was acquired under any employee, officer and/or director benefit plan maintained for one or more employees, officers and/or directors of Synovus and/or its subsidiaries, and is held by the same beneficial owner for whom it was acquired under such plan;
- * is held by the same beneficial owner to whom it was issued by Synovus, or to whom it was transferred by Synovus from treasury shares, and the resolutions adopted by Synovus' board of directors approving such issuance and/or transfer specifically reference and grant such rights;
- * has been beneficially owned continuously by the same shareholder for a period of 48 consecutive months before the record date of any meeting of shareholders at which the share is eligible to be voted;
- * was acquired as a direct result of a stock split, stock dividend or other type of share distribution if the share as to which it was distributed has had the same beneficial owner for a period of 48 consecutive months before the record date of any meeting of shareholders at which the share is eligible to be voted; or
- * is owned by a holder who, in addition to shares which are beneficially owned under any of the other requirements set forth above, is the beneficial owner of less than 1,139,063 shares of Synovus common stock, which amount has been appropriately adjusted to reflect the stock splits which have occurred subsequent to April 24, 1986 and with such amount to be appropriately adjusted to properly reflect any other change in Synovus common stock by means of a stock split, a stock dividend, a recapitalization or other similar action occurring after

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

April 24, 1986.

Holders of shares of Synovus common stock not described above are entitled to one vote per share for each such share. A shareholder may own both ten-vote shares and one-vote shares, in which case he or she will be entitled to ten votes for each ten-vote share and one vote for each one-vote share.

In connection with various meetings of Synovus' shareholders, shareholders are required to submit to Synovus' board of directors satisfactory proof necessary for it to determine whether such shareholders' shares of Synovus common stock are ten-vote shares. If such information is not provided to Synovus' board of directors,

27

shareholders who would, if they had provided such information, be entitled to ten votes per share, are entitled to only one vote per share.

As Synovus common stock is registered with the SEC and is listed on the NYSE, Synovus common stock is subject to the provisions of an NYSE rule, which, in general, prohibits a company's common stock and equity securities from being authorized or remaining authorized for listing on the NYSE if the company issues securities or takes other corporate action that would have the effect of nullifying, restricting or disparately reducing the voting rights of existing shareholders of the company. However, such rule contains a "grandfather" provision, under which Synovus' voting amendment qualifies, which, in general, permits grandfathered disparate voting rights plans to continue to operate as adopted. Synovus' management believes that all current shareholders of Synovus common stock are entitled to ten votes per share, and as such, the further issuance of any ten-vote shares would not disenfranchise any existing shareholders. In the event it is determined in the future that Synovus cannot continue to issue ten-vote shares in mergers and acquisitions, Synovus will consider repealing the voting amendment and restoring the principle of one share/one vote.

If the merger is approved, present shareholders of FABP Bancshares common stock, as future shareholders of Synovus common stock, will, under the voting amendment described above, be entitled to ten votes per share for each share of Synovus common stock received by them on the effective date of the merger. Each shareholder of FABP Bancshares may also acquire by purchase, stock dividend or otherwise, up to 1,139,063 additional shares of Synovus common stock which will also be entitled to ten votes per share. However, if a FABP Bancshares shareholder acquires by purchase, stock dividend or otherwise, more than 1,139,063 additional shares of Synovus common stock, he or she will be entitled to only receive one vote per share for each of the shares in excess of 1,139,063 shares until they have been held for four years.

Except with respect to voting, ten-vote shares and one-vote shares are identical in all respects and constitute a single class of stock, i.e., Synovus common stock. Neither the ten-vote shares nor the one-vote shares have a preference over the other with regard to dividends or upon liquidation. Synovus common stock does not carry any pre-emptive rights enabling a holder to subscribe for or receive shares of Synovus common stock.

The Rights Plan

Synovus has adopted a shareholder rights plan under which holders of shares of Synovus common stock also hold rights to purchase securities that may be exercised upon the occurrence of "triggering events." Shareholder rights plans such as Synovus' plan are intended to encourage potential hostile acquirors to negotiate with the board of directors of the target corporation to avoid occurrence of the "triggering events" specified in such plans. Shareholder

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

rights plans are intended to give the directors of a target corporation the opportunity to assess the fairness and appropriateness of a proposed transaction to determine whether or not it is in the best interests of the corporation and its shareholders. Notwithstanding these purposes and intentions of shareholder rights plans, such plans, including that of Synovus, could have the effect of discouraging a business combination that shareholders believe to be in their best interests. The provisions of Synovus' shareholder rights plan are discussed below.

On April 27, 1999, the board of directors of Synovus adopted a rights plan and authorized and declared a dividend of one common stock purchase right with respect to each outstanding share of Synovus common stock outstanding on May 4, 1999, and to each holder of common stock issued thereafter until the date the rights become exercisable or the expiration or earlier redemption of the rights. Each right entitles the registered holder to purchase from Synovus one share of common stock at a price of \$225.00 per share, subject to adjustment, once rights become exercisable. The description and terms of the rights are set forth in the rights agreement between Synovus and State Street Bank and Trust Company, as the rights agent.

Initially, the rights will attach to all certificates of outstanding shares of common stock, and no separate right certificates will be distributed. The rights will become exercisable and separate from the shares of common stock upon the earlier to occur of:

- * ten days after the date of a public announcement that a person or group of affiliated or associated persons has acquired beneficial ownership of 15% or more of the outstanding common stock, such date

28

being referred to in this document as the "stock acquisition date" and such person or group as an "acquiring person"; or

- * ten business days, or such later date as the board may determine, following the commencement of, or announcement of an intention to make, a tender offer or exchange offer, the consummation of which would result in a person or group becoming the beneficial owner of 15% or more of the outstanding common stock, the earlier of such date and the stock acquisition date being the "distribution date".

Shares of common stock beneficially owned by Synovus or any subsidiary of Synovus will not be considered outstanding for purposes of calculating the percentage ownership of any person.

Each of the following persons will not be deemed to be an acquiring person even if they have acquired, or obtained the right to acquire beneficial ownership of 15% or more of the outstanding common stock:

- * Synovus, any subsidiary of Synovus, or any employee benefit plan of Synovus or of any subsidiary of Synovus;
- * any shareholder who is a descendant of D. Abbott Turner, any shareholder who is affiliated or associated with the Turner family and any person who would otherwise become an acquiring person as a result of the receipt of common stock or a beneficial interest in common stock from one or more members of the Turner family by way of gift, devise, descent or distribution, but not by way of sale, unless any such person, together with his affiliates and associates, becomes the beneficial owner of more than 30% of the outstanding shares of common stock;

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- * any person who would otherwise become an acquiring person solely by virtue of a reduction in the number of outstanding shares of common stock unless and until such person becomes the beneficial owner of any additional shares of common stock; and
- * any person who as of May 4, 1999 was the beneficial owner of 15% or more of the outstanding common stock unless and until such person shall become the beneficial owner of any additional shares of common stock.

Until the distribution date or earlier redemption or expiration of the rights:

- * the rights will be evidenced by the certificates for the common stock;
- * the rights will be transferred with, and only with, the shares of common stock;
- * new common stock certificates issued after the record date upon transfer or new issuance of shares of common stock will contain a notation incorporating the rights agreement by reference; and
- * the surrender for transfer of any certificates for shares of common stock outstanding as of the record date, even without such notation, will also constitute the transfer of the rights associated with the shares of common stock represented by such certificate.

As soon as practicable following the distribution date, separate certificates evidencing the rights will be mailed to holders of record of the shares of common stock as of the close of business on the distribution date, and such separate right certificates alone will evidence the rights. The rights are not exercisable until the distribution date. The rights will expire at the close of business on May 5, 2009, unless earlier redeemed by Synovus.

If any person becomes an acquiring person, each holder of a right will thereafter have the "flip-in right" to receive, upon payment of the purchase price of the right, shares of common stock, or in some circumstances, cash, property or other securities of Synovus, having a value equal to two times the purchase price of the right. Notwithstanding the foregoing, all rights that are, or were, beneficially owned by an acquiring person or any affiliate or associate of an acquiring person will be null and void and not exercisable.

If, at any time following the stock acquisition date: (1) Synovus is acquired in a merger or other business combination transaction in which the holders of all of the outstanding shares of common stock immediately before

29

the consummation of the transaction are not the holders of all of the surviving corporation's voting power, or (2) more than 30% of Synovus' assets, cash flow or earning power is sold or transferred other than in the ordinary course of Synovus' business, then each holder of a valid right shall thereafter have the "flip-over right" to receive, in lieu of shares of common stock and upon exercise and payment of the purchase price, common shares of the acquiring company having a value equal to two times the purchase price of the right. If a transaction would otherwise result in a holder's having a flip-in as well as a flip-over right, then only the flip-over right will be exercisable. If a transaction results in a holder's having a flip-over right after a transaction resulting in a holder's having a flip-in right, a holder will have flip-over rights only to the extent such holder's flip-in rights have not been exercised.

The purchase price payable, and the number of shares of common stock or

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

other securities or property issuable, upon exercise of the rights are subject to adjustment from time to time to prevent dilution (1) in the event of a stock dividend on, or a subdivision, combination or reclassification of, the common stock, (2) upon the grant to holders of the common stock of rights or warrants to subscribe for common stock or convertible securities at less than the current market price of the common stock, or (3) upon the distribution to holders of the common stock of evidences of indebtedness or assets, excluding dividends payable in common stock, or of subscription rights or warrants, other than those referred to above. However, no adjustment in the purchase price will be required until cumulative adjustments require an adjustment of at least 1%.

The number of outstanding rights and the number of shares of common stock issuable upon exercise of each right are also subject to adjustment in the event of a stock split of the common stock or a stock dividend on the common stock payable in common stock or subdivisions, consolidations or combinations of the common stock occurring, in any such case, before the distribution date.

At any time after a person becomes an acquiring person and before the acquisition by a person of 50% or more of the outstanding common stock of Synovus, the board of directors may, at its option, issue common stock or common stock equivalents of Synovus in mandatory redemption of, or in exchange for, all or part of the then outstanding exercisable rights, other than rights owned by such acquiring person which would become null and void, at an exchange ratio of one share of common stock, or common stock equivalents equal to one share of common stock, per right, subject to adjustment.

To the extent that, after the triggering of flip-in rights, insufficient shares of common stock are available for the exercise in full of the rights, holders of rights will receive upon exercise shares of common stock to the extent available and then cash, property or other securities of Synovus, in proportions determined by Synovus, so that the aggregate value received is equal to twice the purchase price.

Synovus is not required to issue fractional shares of common stock. Instead, a payment in cash will be made to the holder of such rights equal to the same fraction of the current value of a share of common stock. Following the triggering of the flip-in rights, Synovus will not be required to issue fractional shares of common stock upon exercise of the rights. Instead, a payment in cash will be made to the holder of such rights equal to the same fraction of the current market value of a share of common stock.

At any time before the distribution date, the board of directors of Synovus may redeem all, but not less than all, of the then outstanding rights at a price of \$.001 per right. The redemption of the rights may be made effective at such time, on such basis and with such conditions as the board of directors in its sole discretion may establish. Immediately upon the action of the board of directors ordering redemption of the rights, the right to exercise the rights will terminate and the only right of the holders of rights will be to receive the redemption price.

Until a right is exercised, the holder of the right, as such, will have no rights as a shareholder of Synovus, including, without limitation, the right to vote or to receive dividends.

The issuance of the rights is not taxable to Synovus or to shareholders under presently existing federal income tax law, and will not change the way in which shareholders can presently trade Synovus' shares of common stock. If the rights should become exercisable, shareholders, depending on then existing circumstances, may recognize taxable income.

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Before the stock acquisition date, the rights agreement generally may be amended by Synovus without the consent of the holders of the rights or the common stock. On or after the stock acquisition date, Synovus may amend the rights agreement only to (1) cure any ambiguity, (2) correct or supplement any provision which may be defective or inconsistent with the other provisions of the rights agreement, or (3) change or supplement the rights agreement in any other manner which Synovus may deem necessary or desirable, provided that no amendment shall adversely affect the interests of the holders of rights, other than an acquiring person and its affiliates and associates.

A copy of the rights agreement has been filed with the SEC as an exhibit to Synovus' Registration Statement on Form 8-A with respect to the rights filed with the SEC. The Form 8-A and the rights agreement are incorporated by reference in this document, and reference is made to them for the complete terms of the rights agreement and the rights. This summary description of the rights does not purport to be complete and is qualified in its entirety by reference to the rights agreement. If the merger is approved, rights will attach to Synovus common stock issued to the present shareholders of FABP Bancshares.

Staggered Board of Directors; Supermajority Approvals

Under Synovus' Articles of Incorporation and bylaws, Synovus' board of directors is divided into three classes of directors serving staggered three year terms, with the terms of each class of directors to expire each succeeding year. Also under Synovus' Articles of Incorporation and bylaws, the vote or action of shareholders possessing 66-2/3% of the votes entitled to be cast by the holders of all the issued and outstanding shares of Synovus common stock is required to:

- * call a special meeting of Synovus shareholders;
- * fix, from time to time, the number of members of Synovus' board of directors;
- * remove a member of Synovus' board of directors;
- * approve any merger or consolidation of Synovus with or into any other corporation, or the sale, lease, exchange or other disposition of all, or substantially all, of Synovus' assets to or with any other corporation, person or entity, with respect to which the approval of Synovus' shareholders is required by the provisions of the corporate laws of the State of Georgia; and
- * alter, delete or rescind any provision of Synovus' Articles of Incorporation.

This allows directors to be removed only for cause by 66-2/3% of the votes entitled to be cast at a shareholders' meeting called for that purpose. Vacancies or new directorships can only be filled by a majority vote of the directors then in office. Synovus' staggered board of directors, especially when combined with the voting amendment, makes it more difficult for its shareholders to force an immediate change in the composition of the majority of the board. A potential acquiror with shares recently acquired, and not entitled to 10 votes per share under the voting amendment, may be discouraged or prevented from soliciting proxies for the purpose of electing directors other than those nominated by current management for the purpose of changing the policies or control of Synovus.

Evaluation of Business Combinations

Synovus' Articles of Incorporation also provide that in evaluating any business combination or other action, Synovus' board of directors may consider,

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

in addition to the amount of consideration involved and the effects on Synovus and its shareholders, the interests of the employees, customers, suppliers and creditors of Synovus and its subsidiaries, the communities in which offices of the corporation or its subsidiaries are located, and any other factors the board of directors deems pertinent.

FABP Bancshares Capital Stock

The Articles of Incorporation of FABP Bancshares authorize the issuance of 10,000,000 shares of FABP Bancshares common stock, \$0.001 par value per share, and 1,000,000 shares of preferred stock, \$0.001 par value per share. At September 30, 2001, there were 1,567,510 shares of FABP Bancshares common stock issued and

31

outstanding and no shares of FABP Bancshares preferred stock issued and outstanding. The remaining authorized shares of FABP Bancshares common stock and preferred stock may be issued from time to time in such amounts as the board of directors determines. The FABP board may issue shares of preferred stock in one or more series, and determine the relative rights and preferences of the shares of each series. Each holder of FABP Bancshares common stock has one vote per share upon all matters voted upon by shareholders. Voting rights are noncumulative so that shareholders holding a majority of the outstanding shares of FABP Bancshares common stock are able to elect all members of the board of directors.

All shares of FABP Bancshares common stock, when issued and fully paid, are non-assessable and are not subject to redemption or conversion and have no preemptive rights. Upon the liquidation, dissolution or winding up of FABP Bancshares, whether voluntary or involuntary, holders of FABP Bancshares common stock are entitled to share ratably, after satisfaction in full of all liabilities, in all remaining assets of FABP Bancshares available for distribution.

All shares of FABP Bancshares common stock are entitled to share equally in such dividends as the board of directors may declare on the FABP Bancshares common stock from sources legally available therefor. FABP is a holding company and conducts almost all of its operations through its bank subsidiary. Accordingly, FABP depends on the cash flow of its subsidiary bank to meet its obligations. FABP's subsidiary bank is limited in the amount of dividends it can pay to FABP without prior regulatory approval. Also, bank regulators have the authority to prohibit FABP's subsidiary bank from paying dividends if they think the payment would be an unsafe and unsound banking practice.

FABP Bancshares' Articles of Incorporation and Florida law contain certain provisions designed to enhance the ability of the board of directors to deal with attempts to acquire control of FABP Bancshares. These provisions may be deemed to have an anti-takeover effect and may discourage takeover attempts that have not been approved by the board of directors (including takeovers that certain shareholders may deem to be in their best interests) and may adversely affect the price that a potential purchaser would be willing to pay for FABP Bancshares' stock. These provisions also could discourage or make more difficult a merger, tender offer or proxy contest, even though the transaction may be favorable to the interests of shareholders, and could potentially adversely affect the value of FABP Bancshares common stock.

Required Shareholder Votes

FABP Bancshares' Articles of Incorporation provide that certain proposed business combinations involving a 5% shareholder (including mergers, consolidations, stock exchanges and sales of all or substantially all of the

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

assets of FABP Bancshares) require the approval of holders of two-thirds of the outstanding shares of stock entitled to vote unless the transaction is approved by at least 75% of the members of the FABP board, in which case approval by the holders of only a majority of the outstanding shares of stock entitled to vote would be sufficient. In addition, such a transaction with a 5% shareholder requires the approval of holders of a majority of the outstanding shares of stock entitled to vote that are not held by the 5% shareholder, unless certain conditions relating to the price and type of consideration to be paid to the other shareholders of FABP Bancshares in connection with the transaction are satisfied.

These provisions of FABP Bancshares' Articles of Incorporation cannot be amended without the approval of the holders of 75% of the outstanding shares of FABP Bancshares stock entitled to vote in the election of directors.

Business Combination and Control Share Acquisitions Statutes

Section 607.0902 of Florida Business Corporation Act restricts the voting rights of certain shares of a corporation's stock when those shares are acquired by a party who, by such acquisition, would control at least 20% of all voting rights of the corporation's issued and outstanding stock. The statute provides that the acquired shares (the "control shares") will, upon such acquisition, cease to have any voting rights. The acquiring party may, however, petition the corporation to have voting rights re-assigned to the control shares by way of an "acquiring person's statement" submitted to the corporation in compliance with the requirements of the statute. Upon receipt of such request, the corporation must submit, for shareholder approval, the acquiring person's request to have voting

32

rights re-assigned to the control shares. Voting rights may be reassigned to the control shares by a resolution of a majority of the corporation's shareholders for each class and series of stock. If such a resolution is approved, and the voting rights re-assigned to the control shares represent a majority of all voting rights of the corporation's outstanding voting stock, then, unless the corporation's Articles of Incorporation or Bylaws provide otherwise, all shareholders of the corporation shall be able to exercise dissenter's rights in accordance with Florida law.

A corporation may, by amendment to its Articles of Incorporation or bylaws, provide that, if the party acquiring the control shares does not submit an acquiring person's statement in accordance with the statute, the corporation may redeem the control shares at any time during the period ending 60 days after the acquisition of control shares. If the acquiring party files an acquiring person's statement, the control shares are not subject to redemption by the corporation unless the shareholders, acting on the acquiring party's request for re-assignment, deny full voting rights to the control shares.

The statute does not alter the voting rights of any stock of the corporation acquired in any of the following manners:

- * pursuant to the laws of intestate succession or pursuant to a gift or testamentary transfer;
- * pursuant to the satisfaction of a pledge or other security interest created in good faith and not for the purpose of circumventing the statute;
- * pursuant to either a merger or share exchange if the corporation is a party to the agreement or plan of merger or share exchange;

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- * pursuant to any savings, employee stock ownership or other benefit plan of the corporation; or
- * pursuant to an acquisition of shares specifically approved by the board of directors of the corporation.

The preceding descriptive information concerning Synovus common stock and FABP Bancshares common stock outlines certain provisions of Synovus' Articles of Incorporation and bylaws, FABP Bancshares' Articles of Incorporation and bylaws and certain statutes regulating the rights of holders of Synovus and FABP Bancshares common stock. The information is not a complete description of those documents and statutes and is subject in all respects to provisions of the Articles of Incorporation and bylaws of Synovus and FABP Bancshares and the laws of the State of Georgia and the State of Florida.

DISSENTERS' RIGHTS

Pursuant to Section 607.1320 of the Florida General Corporation Act, any shareholder of record of FABP Bancshares common stock who objects to the merger, and who fully complies with all the provisions of Section 607.1320, will be entitled to demand and receive payment in cash of an amount equal to the fair value of his or her shares of FABP Bancshares common stock if the merger is consummated.

Any shareholder desiring to receive payment of the fair value of his or her FABP Bancshares common stock in accordance with the requirements of Section 607.1320:

- * must deliver to FABP Bancshares prior to the special meeting at which the vote will be taken on the merger, or at the special meeting, but before the vote is taken, written notice of intent to demand payment for his or her shares if the merger is consummated; and
- * must not vote in favor of the merger.

Within 10 days after the special meeting at which the vote is taken approving the merger, FABP Bancshares must give written notice of the adoption of the merger agreement to each shareholder who filed a notice of intent to demand payment for his or her shares. Within 20 days after the giving of notice to him or her any shareholder who elects to dissent shall file with FABP Bancshares a notice of his or her election stating:

- * the shareholder's name and address;
- * the number, classes, and series of shares as to which he or she dissents; and
- * a demand for the payment of the fair value of his or her shares.

33

Any shareholder failing to file an election to dissent within the 20-day period will be bound by the terms of the merger agreement. Any shareholder filing an election to dissent must deposit his or her certificates with FABP Bancshares simultaneously with the filing of the election to dissent. The notices referred to above should be sent to: FABP Bancshares, Inc., Attention: Corporate Secretary, 33 West Garden Street, Pensacola, Florida 32522-7129.

Upon filing of a notice of election to dissent, a shareholder will thereafter be entitled only to payment of the fair value of his or her shares of FABP Bancshares common stock and will not be entitled to vote or exercise any of

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

the rights of a shareholder. A notice of election may be withdrawn in writing by the shareholder at any time before an offer is made by FABP Bancshares to pay for his or her shares.

Within 10 days after the expiration of the period in which shareholders may file their notice of election to dissent, or within 10 days after the merger takes place, which ever is later (but in no case later than 90 days from the date of the special meeting), FABP Bancshares will make a written offer to each dissenting shareholder who has made proper demand to pay an amount FABP Bancshares estimates to be the fair value of the shares. If the merger has not been consummated before the expiration of the 90-day period after the special meeting, the offer may be made conditional upon the consummation of the merger. The notice and offer will be accompanied by: (1) a consolidated balance sheet of FABP Bancshares as of the latest available date and not more than 12 months prior to the making of the offer; and (2) a consolidated profit and loss statement of FABP Bancshares for the 12-month period ended on the date of the balance sheet.

If within 30 days after the making of the offer the fair value of the shares of FABP Bancshares common stock is agreed upon between any dissenting shareholder and FABP Bancshares, payment therefor shall be made within 90 days after the making of the offer, or the consummation of the merger, whichever is later. Upon payment of the agreed value, dissenting shareholders shall cease to have any interest in their shares of FABP Bancshares common stock.

If FABP Bancshares fails to make an offer within the period specified above, or if it makes the offer and any dissenting shareholder fails to accept the same within the period of 30 days thereafter, then FABP Bancshares, within 30 days after receipt of written demand from any dissenting shareholder given within 60 days after the merger is consummated, shall, or at its election at any time within such 60 days may, file an action in any court of competent jurisdiction in Escambia County, Florida, requesting that the fair value of the shares be determined. The court shall also determine whether each dissenting shareholder, as to whom FABP Bancshares requested the court to make a determination, is entitled to receive payment for his or her shares. If FABP Bancshares fails to institute the proceeding, any dissenting shareholder may do so in the name of FABP Bancshares. FABP Bancshares will pay each dissenting shareholder the amount found to be due him or her within 10 days after final determination of the proceedings.

The foregoing does not purport to be a complete statement of the provisions of Florida law relating to statutory dissenters' rights and is qualified in its entirety by reference to these provisions, the relevant portions of which are reproduced in full in Appendix "B" to this document.

DESCRIPTION OF FABP BANCSHARES

Business

FABP Bancshares, Inc. is a bank holding company registered under the federal Bank Holding Company Act of 1956, as amended, whose sole subsidiary and principal asset is First American Bank of Pensacola, N.A., a national banking association. FABP Bancshares owns all of the outstanding capital stock of the First American Bank of Pensacola. Through its ownership of First American Bank of Pensacola, FABP Bancshares is engaged in a general commercial banking business and its primary source of earnings is derived from income generated by First American Bank of Pensacola. As of June 30, 2001, FABP Bancshares, on a consolidated basis, had total assets of approximately \$311 million, net portfolio loans of approximately \$259 million, total deposits of approximately \$249 million, and shareholders' equity of approximately \$27 million. Unless the context otherwise requires, references herein to FABP Bancshares include FABP Bancshares and its subsidiary bank on a consolidated basis.

First American Bank of Pensacola was organized in 1982. FABP Bancshares was formed in December 1995 to act as a holding company for First American Bank of Pensacola, which it acquired in March 1996. First American Bank of Pensacola engages in general commercial banking and related businesses from its six full-service banking locations in Pensacola, Florida.

The business of First American Bank of Pensacola consists of attracting deposits from the general public in the areas served by its banking offices and applying those deposits, together with funds derived from other sources, to the origination of a variety of consumer, commercial, and residential real estate loans in Pensacola and surrounding areas. The revenues of First American Bank of Pensacola are derived primarily from interest on, and fees received in connection with, its lending activities and from interest and dividends from investment securities and short-term investments. The principal sources of funds for First American Bank of Pensacola's lending and investment activities are deposits, amortization and prepayment of loans, and the maturity and repayments of investment securities. The principal expenses of First American Bank of Pensacola are the interest paid on deposits and operating and general and administrative expenses.

As a general commercial bank, First American Bank of Pensacola offers a broad range of commercial, consumer, and residential real estate loans, and provides a variety of corporate and personal banking services to individuals, businesses, and other institutions located in its market area. In order to attract funds for loans, First American Bank of Pensacola's deposit services include certificates of deposit, individual retirement accounts and other time deposits, checking and other demand deposit accounts, interest paying checking accounts, savings accounts and money market accounts. The transaction accounts and time certificates are tailored to the principal market areas at rates competitive to those in the area. All deposit accounts are insured by the FDIC up to the maximum limits permitted by law. First American Bank of Pensacola also

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

offers ATM cards (with access to local, state, national, and international networks), safe deposit boxes, wire transfers, direct deposit, and automatic drafts for various accounts.

First American Bank of Pensacola is subject to examination and comprehensive regulation by the Office of the Comptroller of the Currency. As is the case with banking institutions generally, First American Bank of Pensacola's operations are materially and significantly influenced by general economic conditions and by related

36

monetary and fiscal policies of financial institution regulatory agencies, including the FDIC and the Federal Reserve Board. Deposit flows and cost of funds are influenced by interest rates on competing investments and general market rates of interest. Lending activities are affected by the demand for financing of real estate and other types of loans, which in turn are affected by the interest rates at which such financing may be offered and other factors affecting local demand and availability of funds.

Market Area

First American Bank of Pensacola's operations are based in Pensacola, Florida and its market area consists of Pensacola and the surrounding area of Escambia and Santa Rosa Counties, Florida. Management of First American Bank of Pensacola believes that its principal markets have been the expanding residential market within its primary market area, and the established commercial, small business, and professional markets in its market area. Businesses and individuals are solicited through the personal efforts of the Bank's directors and officers.

Lending Activities

The primary source of income generated by First American Bank of Pensacola is the interest earned from both its loan and investment portfolios. To develop business, First American Bank of Pensacola relies to a great extent on the personalized approach of its directors and officers who have extensive business and personal contacts in the community. FABP Bancshares has attempted to maintain diversification when considering investments and the approval of loan requests. Emphasis has been placed on the borrower's ability to generate cash flow sufficient to support its debt obligations and other cash related expenses.

Lending activities include commercial and consumer loans, and loans for residential purposes. Commercial loans include collateralized and uncollateralized loans for working capital (including inventory and receivables), business expansion (including real estate acquisitions and improvements), and purchases of equipment and machinery. Consumer loans include collateralized and uncollateralized loans for the purchase of automobiles, boats, home improvement, and personal investments. First American Bank of Pensacola provides personal and corporate credit cards, VISA or MasterCard credit cards, as issued by a correspondent bank which assumes all liabilities relating to underwriting of the credit applicant. First American Bank of Pensacola also originates a variety of residential real estate loans, including the origination of conventional mortgages collateralized by first mortgage liens to enable borrowers to purchase, refinance, or to improve homes or real property. In addition, such loans include those made to individual borrowers collateralized by first mortgage interests on unimproved parcels of real estate zoned for residential homes on which such borrower intends to erect their personal residence. To a lesser extent, First American Bank of Pensacola also has made land acquisition and development loans and construction loans to developers of residential properties for construction of residential

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

subdivisions and multi-family residential projects.

At June 30, 2001, FABP Bancshares net loan portfolio was \$259 million, representing 83% of total assets. As of such date, First American Bank of Pensacola's net loan portfolio consisted of 15% commercial loans, 75% real estate mortgage loans, 6% real estate construction loans and 4% installment or consumer loans.

Competition

First American Bank of Pensacola encounters strong competition both in attracting deposits and in the origination of loans. The deregulation of the banking industry and the widespread enactment of state laws which permit multi-bank holding companies as well as the availability of nationwide interstate banking has created a highly competitive environment for financial service providers in First American Bank of Pensacola's primary market area. In one or more aspects of its business, First American Bank of Pensacola has competed with other commercial banks, savings and loan associations, credit unions, finance companies, mutual funds, insurance companies, brokerage and investment banking companies, and other financial intermediaries operating in its market area and elsewhere. Most of these competitors, some of which are affiliated with large bank holding companies, have substantially greater resources and lending limits, and may offer certain services that First American Bank of Pensacola does not provide. In addition, many of FABP Bancshares' non-bank competitors are not subject to the same extensive federal regulations that govern bank holding companies and federally chartered and insured banks.

37

First American Bank of Pensacola's primary market area is served by 18 commercial banks with 97 offices. As of March 31, 2001, the total reported deposits in the primary market area were approximately \$3.3 billion.

Competition among financial institutions is based upon interest rates offered on deposit accounts, interest rates charged on loans and other credit and service charges, the quality of the services rendered, the convenience of banking facilities, and, in the case of loans to commercial borrowers, relative lending limits.

Employees

At July 31, 2001, First American Bank of Pensacola employed 66 full-time and eight part-time employees. None of these employees are covered by a collective bargaining agreement and management believes that its employee relations are good.

Legal Proceedings

FABP Bancshares is periodically party to or otherwise involved in legal proceedings arising in the normal course of business, such as claims to enforce liens, foreclose on loan defaults, claims involving the making and servicing of real property loans, and other issues incident to its business. Management is not aware of any proceeding threatened or pending against FABP Bancshares which, if determined adversely, would have a material effect on its business or financial position.

Certain Relationships and Related Transactions

First American Bank of Pensacola has had various loan and other banking transactions in the ordinary course of business with the directors, executive officers, and principal shareholders of FABP Bancshares (or an associate of such person). All such transactions: (i) have been made in the ordinary course of business; (ii) have been made on substantially the same terms, including interest rates and collateral on loans, as those prevailing at the time for comparable transactions with unrelated persons; and (iii) in the opinion of management do not involve more than the normal risk of collectibility or present other unfavorable features. At June 30, 2001, the total dollar amount of extensions of credit to directors, executive officers and FABP Bancshares principal shareholders identified below, and any of their associates (excluding

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

extensions of credit which were less than \$60,000 to any one such person and their associates) were \$10,750,000, which represented approximately 37.6% of total shareholders' equity.

REGULATORY MATTERS

General

As a bank holding company, Synovus is subject to regulation under the Bank Holding Company Act of 1956, and to inspection, examination and supervision by the Board of Governors of the Federal Reserve System. Synovus' affiliate national banking associations are subject to regulation and examination primarily by the Office of the Comptroller of the Currency and, secondarily, by the FDIC and the Federal Reserve Board. Synovus' state-chartered banks are subject to primary federal regulation and examination by the FDIC and, in addition, are regulated and examined by their respective state banking departments. Numerous other federal and state laws, as well as regulations promulgated by the Federal Reserve, the state banking regulators, the OCC and the FDIC govern almost all aspects of the operations of the banks. Various federal and state bodies regulate and supervise Synovus' non-banking subsidiaries including its brokerage, investment advisory, insurance agency and processing operations. These include, but are not limited to, the SEC, the National Association of Securities Dealers, Inc., federal and state banking regulators and various state regulators of insurance and brokerage activities.

Dividends

Under the laws of the State of Georgia, Synovus, as a business corporation, may declare and pay dividends in cash or property unless the payment or declaration would be contrary to restrictions contained in its Articles of Incorporation, and unless, after payment of the dividend, it would not be able to pay its debts when they become due in the usual course of its business or its total assets would be less than the sum of its total liabilities. Synovus is also subject to regulatory capital restrictions that limit the amount of cash dividends that it may pay. Additionally, Synovus is subject to contractual restrictions that limit the amount of cash dividends it may pay. Under the laws of the State of Florida, FABP Bancshares may declare and pay dividends in cash or property unless it is insolvent or the payment would render it insolvent, or when the declaration and payment would be contrary to any restrictions contained in its Articles of Incorporation.

The primary sources of funds for Synovus' payment of dividends to its shareholders are dividends and fees to Synovus from its banking and nonbanking affiliates. Similarly, the primary source of funds for FABP Bancshares' payment of dividends to its shareholders are dividends to FABP Bancshares from its banking affiliate, First American Bank of Pensacola. Various federal and state statutory provisions and regulations limit the amount of dividends that the subsidiary banks of Synovus and FABP Bancshares may pay. Under the regulations of the Georgia Banking Department, a Georgia bank must have approval of the Georgia Banking Department to pay cash dividends if, at the time of such payment:

- * the ratio of Tier 1 capital to adjusted total assets is less than 6%;
- * the aggregate amount of dividends to be declared or anticipated to be declared during the current calendar year exceeds 50% of its net profits, after taxes but before dividends, for the previous calendar year; or

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- * its total classified assets in its most recent regulatory examination exceeded 80% of its Tier 1 capital plus its allowance for loan losses, as reflected in the examination.

In general, the approval of the Alabama Banking Department and the Florida Banking Department is required if the total of all dividends declared by an Alabama or Florida bank, as the case may be, in any year would exceed the total of its net profits for that year combined with its retained net profits for the preceding two years less any required transfers to surplus. In addition, the approval of the OCC is required for a national bank to pay dividends in excess of the bank's retained net income for the current year plus retained net income for the preceding two years.

Some of Synovus' banking affiliates have in the past been required to secure prior regulatory approval for the payment of dividends to Synovus in excess of regulatory limits and may be required to seek approval for the payment of dividends to Synovus in excess of those limits in the future. If prior regulatory approvals are sought, there is no assurance that any such regulatory approvals will be granted.

Federal and state banking regulations applicable to Synovus and its banking subsidiaries require minimum levels of capital which limit the amounts available for payment of dividends. Synovus' objective is to payout at least one-third of prior year's earnings in cash dividends to its shareholders. Synovus and its predecessors have paid cash dividends on their common stock in every year since 1891. Under restrictions imposed under federal and state laws, Synovus' subsidiary banks could declare aggregate dividends to Synovus of approximately \$132.2 million during 2001 without obtaining regulatory approval.

Capital Requirements

Synovus and FABP Bancshares are required to comply with the capital adequacy standards established by the Federal Reserve Board and their banking subsidiaries must comply with similar capital adequacy standards established by the OCC and FDIC, as applicable. There are two basic measures of capital adequacy for bank holding companies and their banking subsidiaries that have been promulgated by the Federal Reserve Board, the FDIC and the OCC: a risk-based measure and a leverage measure. All applicable capital standards must be satisfied for a bank holding company or a bank to be considered in compliance.

The risk-based capital standards are designed to make regulatory capital requirements more sensitive to differences in risk profile among banks and bank holding companies, to account for off-balance-sheet exposure, and to minimize disincentives for holding liquid assets. Assets and off-balance-sheet items are assigned to broad risk categories, each with appropriate weights. The resulting capital ratios represent capital as a percentage of total risk-weighted assets and off-balance-sheet items.

The minimum guideline for the ratio of total capital to risk-weighted assets (including certain off-balance-sheet items, such as standby letters of credit) is 8.0%. At least half of total capital must comprise common stock, minority interests in the equity accounts of consolidated subsidiaries, noncumulative perpetual preferred stock and a limited amount of cumulative perpetual preferred stock, less goodwill and certain other intangible assets, referred to as Tier 1 Capital. The remainder may consist of subordinated debt, other preferred stock and a limited amount of loan loss reserves, referred to as Tier 2 Capital. The Federal Reserve Board also requires certain bank holding companies that engage in trading activities to adjust their risk-based capital to take into consideration market risk that may result from movements in market

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

prices of covered trading positions in trading accounts, or from foreign exchange or commodity positions, whether or not in trading accounts, including changes in interest rates, equity prices, foreign exchange rates or commodity prices. Any capital required to be maintained under these provisions may consist of new Tier 3 Capital consisting of certain short term subordinated debt. In addition, the Federal Reserve Board has issued a policy statement, under which a bank holding company that is determined to have weaknesses in its risk management processes or a high level of interest rate risk exposure may be required to hold additional capital.

The Federal Reserve Board has also established minimum leverage ratio guidelines for bank holding companies. These guidelines provide for a minimum leverage ratio of Tier 1 Capital to average assets, less goodwill and certain other intangible assets, of 3.0% for bank holding companies that meet certain specified criteria, including having the highest regulatory rating. All other bank holding companies generally are required to maintain a leverage

41

ratio of at least 4.0%. Bank holding companies are expected to maintain higher-than- minimum capital ratios if they have supervisory, financial, operational or managerial weaknesses, or if they are anticipating or experiencing significant growth. Synovus has not been advised by the Federal Reserve Board of any specific minimum leverage ratio applicable to it.

At June 30, 2001, Synovus' total capital ratio was 12.71%, its Tier 1 Capital ratio was 11.53% and its Tier 1 leverage ratio was 10.43%. Assuming the merger had been consummated on June 30, 2001, the total capital ratio of Synovus would have been 12.70%, its Tier 1 Capital ratio would have been 11.52% and its Tier 1 leverage ratio would have been 10.00%. Each of these ratios exceeds the current requirements under the Federal Reserve Board's capital guidelines.

At June 30, 2001, FABP's total capital ratio was 12.39%, its Tier 1 Capital ratio was 11.20% and its Tier 1 leverage ratio was 8.82%. Each of these ratios exceeds the current requirements under the Federal Reserve Board's capital guidelines.

Each of Synovus' and FABP Bancshares' banking subsidiaries is subject to similar risk-based and leverage capital requirements adopted by its applicable federal banking agency, and each was in compliance with the applicable minimum capital requirements as of June 30, 2001.

Failure to meet capital guidelines could subject a bank to a variety of enforcement remedies, including issuance of a capital directive, the termination of deposit insurance by the FDIC, a prohibition on the taking of brokered deposits and other restrictions on its business. As described below, substantial additional restrictions can be imposed upon FDIC-insured depository institutions that fail to meet applicable capital requirements. See "Prompt Corrective Action" below.

Commitments to Subsidiary Banks

Under the Federal Reserve Board's policy, Synovus is expected to act as a source of financial strength to its subsidiary banks and to commit resources to support its subsidiary banks in circumstances when it might not do so absent that policy. In addition, any capital loans by Synovus to any of its subsidiary banks would also be subordinate in right of payment to depositors and to certain other indebtedness of that bank.

In the event of Synovus' bankruptcy, any commitment by Synovus to a federal bank regulatory agency to maintain the capital of a banking subsidiary will be assumed by the bankruptcy trustee and entitled to a priority of payment. In

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

addition, the Federal Deposit Insurance Act provides that any financial institution whose deposits are insured by the FDIC generally will be liable for any loss incurred by the FDIC in connection with the default of, or any assistance provided by the FDIC to, a commonly controlled financial institution.

Prompt Corrective Action

The Federal Deposit Insurance Corporation Improvement Act of 1991 establishes a system of prompt corrective action to resolve the problems of undercapitalized institutions. Under this system the federal banking regulators are required to rate supervised institutions on the basis of five capital categories as described below. The federal banking regulators are also required to take mandatory supervisory actions, and are authorized to take other discretionary actions, with respect to institutions in the three undercapitalized categories, the severity of which will depend upon the capital category in which the institution is placed. Generally, subject to a narrow exception, the Federal Deposit Insurance Corporation Improvement Act requires the banking regulator to appoint a receiver or conservator for an institution that is critically undercapitalized. The federal banking agencies have specified by regulation the relevant capital level for each category.

Under the Federal Deposit Insurance Corporation Improvement Act, the Federal Reserve, the FDIC, the OCC and the Office of Thrift Supervision have adopted regulations setting forth a five-tier scheme for measuring the capital adequacy of the financial institutions they supervise. Under the regulations, an institution would be placed in one of the following capital categories:

42

- * Well Capitalized - an institution that has a total capital ratio of at least 10%, a Tier 1 Capital ratio of at least 6% and a Tier 1 leverage ratio of at least 5%;
- * Adequately Capitalized - an institution that has a total capital ratio of at least 8%, a Tier 1 Capital ratio of at least 4% and a Tier 1 leverage ratio of at least 4%;
- * Undercapitalized - an institution that has a total capital ratio of under 8%, a Tier 1 Capital ratio of under 4% or a Tier 1 leverage ratio of under 4%;
- * Significantly Undercapitalized - an institution that has a total capital ratio of under 6%, a Tier 1 Capital ratio of under 3% or a Tier 1 leverage ratio of under 3%; and
- * Critically Undercapitalized - an institution whose tangible equity is not greater than 2% of total tangible assets.

The regulations permit the appropriate federal banking regulator to downgrade an institution to the next lower category if the regulator determines (1) after notice and opportunity for hearing or response, that the institution is in an unsafe or unsound condition or (2) that the institution has received and not corrected a less-than-satisfactory rating for any of the categories of asset quality, management, earnings or liquidity in its most recent examination. Supervisory actions by the appropriate federal banking regulator depend upon an institution's classification within the five categories. Synovus' management believes that Synovus and its bank subsidiaries have the requisite capital levels to qualify as well capitalized institutions under the Federal Deposit Insurance Corporation Improvement Act regulations.

The Federal Deposit Insurance Corporation Improvement Act generally prohibits a depository institution from making any capital distribution,

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

including payment of a dividend, or paying any management fee to its holding company if the depository institution would thereafter be undercapitalized. Undercapitalized depository institutions are subject to restrictions on borrowing from the Federal Reserve System. In addition, undercapitalized depository institutions are subject to growth limitations and are required to submit capital restoration plans. A depository institution's holding company must guarantee the capital plan, up to an amount equal to the lesser of 5% of the depository institution's assets at the time it becomes undercapitalized or the amount of the capital deficiency when the institution fails to comply with the plan. Federal banking agencies may not accept a capital plan without determining, among other things, that the plan is based on realistic assumptions and is likely to succeed in restoring the depository institution's capital. If a depository institution fails to submit an acceptable plan, it is treated as if it is significantly undercapitalized.

Significantly undercapitalized depository institutions may be subject to a number of requirements and restrictions, including orders to sell sufficient voting stock to become adequately capitalized, requirements to reduce total assets and cessation of receipt of deposits from correspondent banks. Critically undercapitalized depository institutions are subject to appointment of a receiver or conservator.

Safety and Soundness Standards

The Federal Deposit Insurance Act, as amended by the Federal Deposit Insurance Corporation Improvement Act and the Riegle Community Development and Regulatory Improvement Act of 1994, requires the federal bank regulatory agencies to prescribe standards, by regulations or guidelines, relating to internal controls, information systems and internal audit systems, loan documentation, credit underwriting, interest rate risk exposure, asset growth, asset quality, earnings, stock valuation and compensation, fees and benefits and such other operational and managerial standards as the agencies deem appropriate. The federal bank regulatory agencies have adopted a set of guidelines prescribing safety and soundness standards under the Federal Deposit Insurance Corporation Improvement Act. The guidelines establish general standards relating to internal controls and information systems, internal audit systems, loan documentation, credit underwriting, interest rate exposure, asset growth and compensation, fees and benefits. In general, the guidelines require, among other things, appropriate systems and practices to identify and manage the risks and exposures specified in the guidelines. The guidelines prohibit excessive compensation as an unsafe and unsound practice and describe compensation as excessive when the amounts paid are unreasonable or disproportionate to the services performed by an executive officer, employee, director or principal shareholder. The federal banking agencies determined that stock valuation standards were not

43

appropriate. In addition, the agencies have adopted regulations that authorize, but do not require, an agency to order an institution that has been given notice by an agency that it is not satisfying any of such safety and soundness standards to submit a compliance plan. If, after being so notified, an institution fails to submit an acceptable compliance plan, the agency must issue an order directing action to correct the deficiency and may issue an order directing other actions of the types to which an undercapitalized institution is subject under the prompt corrective action provisions of the Federal Deposit Insurance Corporation Improvement Act. See "Prompt Corrective Action" above. If an institution fails to comply with such an order, the agency may seek to enforce such order in judicial proceedings and to impose civil money penalties.

Federal law provides that deposits and certain claims for administrative expenses and employee compensation against an insured depository institution would be afforded a priority over other general unsecured claims against such an institution, including federal funds and letters of credit, in the liquidation or other resolution of such an institution by any receiver.

Gramm-Leach-Bliley Act

On November 12, 1999, legislation was enacted which allows bank holding companies to engage in a wider range of non-banking activities, including greater authority to engage in securities and insurance activities. Under the Gramm-Leach-Bliley Act, a bank holding company that elects to become a financial holding company may engage in any activity that the Federal Reserve Board, in consultation with the Secretary of the Treasury, determines by regulation or order is: (1) financial in nature; (2) incidental to any such financial activity; or (3) complementary to any such financial activity and does not pose a substantial risk to the safety or soundness of depository institutions or the financial system generally. The legislation makes significant changes in United States banking law, principally by repealing restrictive provisions of the 1933 Glass-Steagall Act. The legislation specifies certain activities that are deemed to be financial in nature, including lending, exchanging, transferring, investing for others, or safeguarding money or securities; underwriting and selling insurance; providing financial, investment or economic advisory services; underwriting, dealing in or making a market in, securities; and any activity currently permitted for bank holding companies by the Federal Reserve Board under Section 4(c)(8) of the Bank Holding Company Act. The legislation does not authorize banks or their affiliates to engage in commercial activities that are not financial in nature. A bank holding company may elect to be treated as a financial holding company only if all depository institution subsidiaries of the holding company are well-capitalized, well-managed and have at least a satisfactory rating under the Community Reinvestment Act. Synovus became a financial holding company in April 2000.

In addition to the Gramm-Leach-Bliley Act, there have been a number of legislative and regulatory proposals that would have an impact on bank/financial holding companies and their bank and nonbank subsidiaries. It is impossible to predict whether or in what form these proposals may be adopted in the future and if adopted, what their effect will be on Synovus.

FORWARD-LOOKING STATEMENTS

Synovus and FABP Bancshares make forward-looking statements in this document, and Synovus makes such statements in its public documents, that are subject to risks and uncertainties. These forward-looking statements include information about possible or assumed future results of our operations. Also, when we use any of the words "believes," "expects," "anticipates" or similar expressions, we are making forward-looking statements. Many possible events or factors could affect the financial results and performance of each of our

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

companies. This could cause results or performances to differ materially from those expressed in our forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for such forward-looking statements. In order to comply with the terms of the safe harbor, we note that a variety of factors could cause our actual results and experience to differ materially from the anticipated results or other expectations expressed in such forward-looking statements. The risks and uncertainties that may affect the operations, performance, development and results of our businesses include, but are not limited to, those described below. You should consider these risks when you vote on the merger. These possible events or factors include the following:

- * our cost savings from the merger are less than we expect, or we are unable to obtain those cost savings as soon as we expect;

46

- * costs or difficulties relating to the integration of FABP Bancshares may be greater than expected;
- * we lose more deposits, customers, or business than we expect;
- * competition in the banking industry increases significantly;
- * our integration costs are higher than we expect or our operating costs after the merger are greater than we expect;
- * the merger does not generate the synergies we expect;
- * technological changes and systems integration are harder to make or more expensive than we expect;
- * changes in the interest rate environment reduce our margins;
- * general economic or business conditions are worse than we expect;
- * legislative or regulatory changes occur which adversely affect our business;
- * changes occur in business conditions and inflation; and
- * changes occur in the securities markets.

Management of each of Synovus and FABP Bancshares believes the forward-looking statements about its company are reasonable; however, you should not place undue reliance on them. Forward-looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions. The future results and shareholder values of Synovus following completion of the merger may differ materially from those expressed or implied in these forward-looking statements. Many of the factors that will determine these results and values are beyond Synovus' and FABP Bancshares' ability to control or predict.

D. Board Approvals. The respective Boards of Directors of Synovus and FABP have unanimously approved and adopted the Plan and have duly authorized its execution. In the case of FABP, the Board of Directors has unanimously voted to recommend to its shareholders that the Plan be approved.

E. Materiality. Unless the context otherwise requires, any reference in this Agreement to materiality with respect to any party shall be deemed to be with respect to such party and its Subsidiaries, or in the case of FABP, its Subsidiary, in each case taken as a whole.

In consideration of their mutual promises and obligations hereunder, and intending to be legally bound hereby, Synovus and FABP adopt the Plan and prescribe the terms and conditions hereof and the manner and basis of carrying it into effect, which shall be as follows:

I. THE MERGER

(A) Structure of the Merger. On the Effective Date (as defined in Article VII), FABP will merge (the "Merger") with and into Synovus, with Synovus being the surviving corporation (the "Surviving Corporation") under the name Synovus Financial Corp. pursuant to the applicable provisions of the Georgia Business Corporation Code ("Georgia Act") and the Florida Business Corporation Act ("Florida Act"). On the Effective Date, the articles of incorporation and bylaws of the Surviving Corporation shall be the articles of incorporation and bylaws of Synovus in effect immediately prior to the Effective Date.

Also on the Effective Date, the parties shall cause the Bank, a wholly-owned subsidiary of FABP, to be merged with and into Bank of Pensacola, a wholly-owned subsidiary of Synovus, with Bank of Pensacola as the resulting bank of the merger. After the merger certain of the former offices of the Bank will operate as branch offices of Bank of Pensacola.

(B) Effect on Outstanding Shares. By virtue of the Merger, automatically and without any action on the part of the holder thereof, each share of FABP Common Stock issued and outstanding on the Effective Date (other than shares as to which dissenters' appraisal rights have been validly exercised and perfected and for which cash is payable pursuant to the Florida Act ("Dissenters' Shares")) shall be converted into and exchanged for shares of Synovus Common Stock, with the exact number of shares of Synovus Common Stock into which each such share of FABP Common Stock is to be converted to be determined in accordance with the conversion ratio table set forth in Appendix "A" attached hereto and made a part hereof ("Per Share Exchange Ratio"). As of the Effective Date, each share of FABP Common Stock held as treasury stock of FABP shall be canceled, retired and cease to exist, and no payment shall be made in respect thereof.

No fractional shares of Synovus Common Stock shall be issued in connection with the Merger. Each holder of FABP Common Stock who would otherwise have been entitled to receive a fraction of a share of Synovus Common Stock shall receive, in lieu thereof, cash (without interest) in an amount equal to such fractional part of a share of Synovus Common

Stock multiplied by the closing price per share of Synovus Common Stock on the New York Stock Exchange ("NYSE") on the fifth business day immediately preceding the Effective Date of the Merger.

Each holder of FABP Common Stock will be entitled to ten votes for each share of Synovus Common Stock to be received by him/her on the Effective Date pursuant to a set of resolutions adopted by the Board of Directors of Synovus on June 28, 2001 in accordance with and subject to those certain Articles of Amendment to Synovus' Articles of Incorporation, dated April 24, 1986. Synovus shall provide FABP with certified copies of such resolutions prior to the Effective Date.

The shares of Synovus Common Stock issued and outstanding immediately prior to the Effective Date shall remain outstanding and unchanged after the Merger.

In the event that, subsequent to the date of this Plan but prior to the Effective Date, the outstanding shares of Synovus Common Stock shall have been increased, decreased, changed into or exchanged for a different number or kind of shares or securities through reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split, or other like changes in Synovus' capitalization, then an appropriate and proportionate adjustment shall be made to the Per Share Exchange Ratio so as to prevent the dilutive effect of such transaction on a percentage of ownership basis.

(C) Procedures. Certificates which represent shares of FABP Common Stock that are outstanding on the Effective Date (each, a "Certificate") and are converted into shares of Synovus Common Stock pursuant to the Plan shall, after the Effective Date, be deemed to represent shares of the Synovus Common Stock into which such shares have become converted and shall be exchangeable by the holders thereof in the manner provided in the transmittal materials described below for new certificates representing the shares of Synovus Common Stock into which such shares have been converted.

As promptly as practicable after the Effective Date, Synovus shall send to each holder of record of shares of FABP Common Stock outstanding on the Effective Date transmittal materials for use in exchanging the Certificates for certificates for shares of the Synovus Common Stock into which such shares of the FABP Common Stock have been converted pursuant to the Plan. Upon surrender of a Certificate, duly endorsed as Synovus may require, the holder of such Certificate shall be entitled to receive in exchange therefor the consideration set forth in Paragraph I(B) hereof and such Certificate shall forthwith be canceled. No dividend or other distribution payable after the Effective Date with respect to the Synovus Common Stock shall be paid to the holder of any unsurrendered Certificate until the holder thereof surrenders such Certificate, at which time such holder shall receive all dividends and distributions, without interest thereon, previously withheld from such holder pursuant hereto. After the Effective Date, there shall be no transfers on the stock transfer books of FABP of shares of FABP Common Stock which were issued and outstanding on the Effective Date and converted pursuant to the provisions of the Plan. If after the Effective Date, Certificates are presented for transfer to FABP

A-3

or Synovus, they shall be canceled and exchanged for the shares of Synovus Common Stock deliverable in respect thereof as determined in accordance with the provisions of Paragraph (B) of Article I and in accordance with the procedures set forth in this Paragraph. In the case of any lost, mislaid, stolen or destroyed Certificate, the holder thereof may be required, as a condition precedent to the delivery to such holder of the consideration described in Paragraph B, to deliver to Synovus a bond in such sum as Synovus may direct as

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

indemnity against any claim that may be made against the exchange agent, Synovus or FABP with respect to the Certificate alleged to have been lost, mislaid, stolen or destroyed.

After the Effective Date, holders of FABP Common Stock shall cease to be, and shall have no rights as, stockholders of FABP, other than to receive shares of Synovus Common Stock into which such shares have been converted, fractional share payments pursuant to the Plan and any dividends or distributions with respect to such shares of Synovus Common Stock. Until 90 days after the Effective Date, former shareholders of record of FABP shall be entitled to vote at any meeting of Synovus shareholders the number of shares of Synovus Common Stock into which their respective FABP Common Stock are converted regardless of whether such holders have exchanged their Certificates pursuant to the Plan.

Notwithstanding the foregoing, neither Synovus nor FABP nor any other person shall be liable to any former holder of shares of FABP Common Stock for any amounts paid or property delivered in good faith to a public official pursuant to applicable abandoned property, escheat or similar laws.

(D) Options. On the Effective Date, each option granted by FABP to purchase shares of FABP Common Stock, which is outstanding and unexercised immediately prior thereto, shall be converted automatically into an option to purchase shares of Synovus Common Stock in an amount and at an exercise price determined as provided below (and otherwise having the same duration and other terms as the original option):

(1) The number of shares of Synovus Common Stock to be subject to the new option shall be equal to the product of the number of shares of FABP Common Stock subject to the original option multiplied by the Per Share Exchange Ratio, provided that any fractional share of Synovus Common Stock resulting from such multiplication shall be rounded to the nearest whole share; and

(2) The exercise price per share of Synovus Common Stock under the new option shall be equal to the exercise price per share of FABP Common Stock under the original option divided by the Per Share Exchange Ratio, provided that such exercise price shall be rounded up to the nearest cent.

The adjustment provided herein with respect to any options which are "incentive stock options" (as defined in Section 422 of the Internal Revenue Code of 1986 (the "Code")) shall be and is intended to be effected in a manner which is consistent with Section 424(a) of the Code.

A-4

Within thirty (30) days after the Effective Date, Synovus shall notify each holder of an option to purchase FABP Common Stock of the assumption of such options by Synovus and the revisions to the options shall be effected thereby. No payment shall be made for fractional interests. From and after the date hereof, no additional options to purchase FABP Common Stock shall be granted.

II. ACTIONS PENDING MERGER

(A) FABP and the Bank shall conduct their businesses only in the ordinary course and shall not, without the prior written consent of Synovus, which consent will not be unreasonably withheld: (1) issue any options to purchase capital stock or issue any shares of capital stock, other than shares of FABP Common Stock issued in connection with the exercise of currently outstanding options to purchase shares of FABP Common Stock; (2) declare, set aside, or pay any dividend or distribution with respect to the capital stock of FABP other than normal and customary quarterly cash dividends in accordance with

III. REPRESENTATIONS AND WARRANTIES

Synovus hereby represents and warrants to FABP, and FABP represents and warrants to Synovus, that, except as previously disclosed in a letter of Synovus or FABP, respectively, of even date herewith delivered to the other party:

(A) the representations set forth in Recitals A through D of the Plan with respect to it are true and correct and constitute representations and warranties for the purpose of Article V, hereof;

(B) the outstanding shares of capital stock of it and its Subsidiaries are duly authorized, validly issued and outstanding, fully paid and (subject to 12 U.S.C. ss.55 in the case of a national bank Subsidiary) non-assessable, and subject to no preemptive rights of current or past shareholders;

(C) each of it and its Subsidiaries has the power and authority, and is

duly qualified in all jurisdictions (except for such qualifications the absence of which will not as a whole have an adverse effect on the business, results of operations or financial condition of it or its Subsidiaries which is material to it and its Subsidiaries, taken as a whole ("Material Adverse Effect") provided that "Material Adverse Effect" shall not be deemed to include: (1) the impact of changes in banking or similar laws of general applicability or interpretations thereof by courts or governmental authorities; or (2) changes in generally accepted accounting principles applicable to banks and their holding companies) where such qualification is required to carry on its business as it is now being conducted, to own or lease all its material properties and assets, and has all federal, state, local, and foreign governmental authorizations necessary for it to own or lease its properties and assets and to carry on its business as it is now being conducted, except for such authorizations the absence of which, either individually or in the aggregate, would not have a Material Adverse Effect;

applicability relating to or affecting creditors' rights and to general equity principles involving specific performance or injunctive relief;

(F) the execution, delivery and performance of the Plan by it does not, and the consummation of the transactions contemplated hereby by it will not, constitute: (1) a breach or violation of, or a default under, any law, rule or regulation or any judgment, decree, order, governmental permit or license, or agreement, indenture or instrument of it or its Subsidiaries or to which it or its Subsidiaries (or any of their respective properties) is subject which breach, violation or default would have a Material Adverse Effect, or enable any person to enjoin any of the transactions contemplated hereby; or (2) a breach or violation of, or a default under, the certificate or articles of incorporation or bylaws of it or any of its Subsidiaries; and the consummation of the transactions contemplated hereby will not require any consent or approval under any such law, rule, regulation, judgment, decree, order, governmental permit or license or the consent or approval of any other party to any such agreement, indenture or instrument, other than the required approvals of applicable regulatory authorities and the approval of the shareholders of FABP, both of which are referred to in Paragraph (A) of Article V and any consents and approvals the absence of which will not have a Material Adverse Effect;

(G) in the case of Synovus, since December 31, 1999, it has filed all forms, reports and documents with the SEC required to be filed by it pursuant to the federal securities laws and SEC rules and regulations thereunder (the "SEC Reports,") each of which complied as to form, at the time such form, report or document was filed, in all material respects with the applicable requirement of the Securities Act of 1933, as amended ("Securities Act"), the Exchange Act and the applicable rules and regulations thereunder. As of their respective dates, none of the SEC Reports contained any untrue statement of a material fact or omitted to state a material fact required to be stated therein or necessary to make the statements made therein, in light of the circumstances under which they were made, not misleading. Each of the balance sheets in or incorporated by

Synovus has no material obligations or liabilities (contingent or otherwise) except as disclosed in the SEC Reports. For purposes of this paragraph, material shall have the meaning as defined under the Securities Act, the Exchange Act and the rules promulgated thereunder;

607.1301 Dissenters' rights; definitions. -- The following definitions apply to ss. 607.1302 and 607.1320

- (1) "Corporation" means the issuer of the shares held by a dissenting shareholder before the corporate action or the surviving or acquiring corporation by merger or share exchange of that issuer.
- (2) "Fair value," with respect to a dissenter's shares, means the value of the shares as of the close of business on the day prior to the shareholders' authorization date, excluding any appreciation or depreciation in anticipation of the corporate action unless exclusion would be inequitable.
- (3) "Shareholders' authorization date" means the date on which the shareholders' vote authorizing the proposed action was taken, the date on which the corporation received written consents without a meeting from the requisite number of shareholders in order to authorize the action, or, in the case of a merger pursuant to s.607.1104, the day prior to the date on which a copy of the plan of merger was mailed to each shareholder of record of the subsidiary corporation.

607.1302 Right of shareholders to dissent. --

- (1) Any shareholder of a corporation has the right to dissent from, and obtain payment of the fair value of his or her shares in the event of, any of the following corporate actions:
 - (a) Consummation of a plan of merger to which the corporation is a party:
 1. If the shareholder is entitled to vote on the merger, or
 2. If the corporation is a subsidiary that is merged with its parent under s.607.1104, and the shareholders would have been entitled to vote on action taken, except for the applicability of s.607.1104;
 - (b) Consummation of a sale or exchange of all, or substantially all, of the property of the corporation, other than in the usual and regular course of business, if the shareholder is entitled to vote on the sale or exchange pursuant to s.607.1202, including a sale in dissolution but not including a sale pursuant to court order or a sale for cash pursuant to a plan by which all or substantially all of the net proceeds

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

of the sale will be distributed to the shareholders within 1 year after the date of sale;

B-1

- (d) Consummation of a plan of share exchange to which the corporation is a party as the corporation the shares of which will be acquired, if the shareholder is entitled to vote on the plan;
- (e) Any amendment of the articles of incorporation if the shareholder is entitled to vote on the amendment and if such amendment would adversely affect such shareholder by:
 - 1. Altering or abolishing any preemptive rights attached to any of his or her shares;
 - 2. Altering or abolishing the voting rights pertaining to any of his or her shares, except as such rights may be affected by the voting rights of new shares then being authorized of any existing or new class or series of shares;
 - 3. Effecting an exchange, cancellation, or reclassification of any of his or her shares, when such exchange, cancellation, or reclassification would alter or abolish the shareholder's voting rights or alter his or her percentage of equity in the corporation, or effecting a reduction or cancellation of accrued dividends or other arrearages in respect to such shares;
 - 4. Reducing the stated redemption price of any of the shareholder's redeemable shares, altering or abolishing any provision relating to any sinking fund for the redemption or purchase of any of his or her shares, or making any of his or her shares subject to redemption when they are not otherwise redeemable;

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

B-2

- (4) Unless the articles of incorporation otherwise provide, this section does not apply with respect to a plan of merger or share exchange or a proposed sale or exchange of property, to the holders of shares of any class or series which, on the record date fixed to determine the shareholders entitled to vote at the meeting of shareholders at which such action is to be acted upon or to consent to any such action without a meeting, were either registered on a national securities exchange or designated as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc., or held of record by not fewer than 2,000 shareholders.

- (5) A shareholder entitled to dissent and obtain payment for his or her shares under this section may not challenge the corporate action creating his or her entitlement unless the action is unlawful or fraudulent with respect to the shareholder or the corporation.

607.1320 Procedure for exercise of dissenters' rights. --

- (1) (a) If a proposed corporate action creating dissenters' rights under s. 607.1302 is submitted to a vote at a shareholders' meeting, the meeting notice shall state that shareholders are or may be entitled to assert dissenters' rights and be accompanied by a copy of ss.607.1301, 607.1302, and 607.1320. A shareholder who wishes to assert dissenters' rights shall:

1. Deliver to the corporation before the vote is taken written notice of the shareholder's intent to demand payment for his or her shares if the proposed action is effectuated, and
2. Not vote his or her shares in favor of the proposed action. A proxy or vote against the proposed action does not constitute such a notice of intent to demand payment.

- (b) If proposed corporate action creating dissenters' rights under s. 607.1302 is effectuated by written consent without a meeting, the corporation shall deliver a copy of ss.607.1301, 607.1302, and 607.1320 to each shareholder simultaneously with any request for the shareholder's written consent or, if such a request is not made, within 10 days after the date the corporation received written consents without a meeting from the requisite number of shareholders necessary to authorize the action.

- (2) Within 10 days after the shareholders' authorization date, the corporation shall give written notice of such authorization or consent or adoption of the plan of merger, as the case may be, to each shareholder who filed a notice of intent to demand payment for his or her shares pursuant to paragraph (1) (a) or, in the case of action authorized by written consent, to each shareholder, excepting any who voted for, or consented in writing to, the proposed action.
- (3) Within 20 days after the giving of notice to him or her, any shareholder who elects to dissent shall file with the corporation a

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

notice of such election, stating the shareholder's name and address, the number, classes, and series of shares as to which he or she dissents, and a demand for payment of the fair value of his or her shares. Any shareholder failing to file such election to dissent within the period set forth shall be bound by the terms of the proposed corporate action. Any shareholder filing an election to dissent shall

B-3

deposit his or her certificates for certificated shares with the corporation simultaneously with the filing of the election to dissent. The corporation may restrict the transfer of uncertificated shares from the date the shareholder's election to dissent is filed with the corporation.

- (4) Upon filing a notice of election to dissent, the shareholder shall thereafter be entitled only to payment as provided in this section and shall not be entitled to vote or to exercise any other rights of a shareholder. A notice of election may be withdrawn in writing by the shareholder at any time before an offer is made by the corporation, as provided in subsection (5), to pay for his or her shares. After such offer, no such notice of election may be withdrawn unless the corporation consents thereto. However, the right of such shareholder to be paid the fair value of his or her shares shall cease, and the shareholder shall be reinstated to have all his or her rights as a shareholder as of the filing of his or her notice of election, including any intervening preemptive rights and the right to payment of any intervening dividend or other distribution or, if any such rights have expired or any such dividend or distribution other than in cash has been completed, in lieu thereof, at the election of the corporation, the fair value thereof in cash as determined by the board as of the time of such expiration or completion, but without prejudice otherwise to any corporate proceedings that may have been taken in the interim, if:
- (a) Such demand is withdrawn as provided in this section;
 - (b) The proposed corporate action is abandoned or rescinded or the shareholders revoke the authority to effect such action;
 - (c) No demand or petition for the determination of fair value by a court has been made or filed within the time provided in this section; or
 - (d) A court of competent jurisdiction determines that such shareholder is not entitled to the relief provided by this section.
- (5) Within 10 days after the expiration of the period in which shareholders may file their notices of election to dissent, or within 10 days after such corporate action is effected, whichever is later (but in no case later than 90 days from the shareholders' authorization date), the corporation shall make a written offer to each dissenting shareholder who has made demand as provided in this section to pay an amount the corporation estimates to be the fair value for such shares. If the corporate action has not been consummated before the expiration of the 90-day period after the shareholders' authorization date, the offer may be made conditional upon the consummation of such action. Such notice and offer shall be accompanied by:
- (a) A balance sheet of the corporation, the shares of which the dissenting shareholder holds, as of the latest available date

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

and not more than 12 months prior to the making of such offer;
and

- (b) A profit and loss statement of such corporation for the 12-month period ended on the date of such balance sheet or, if the corporation was not in existence

B-4

throughout such 12-month period, for the portion thereof during which it was in existence.

- (6) If within 30 days after the making of such offer any shareholder accepts the same, payment for his or her shares shall be made within 90 days after the making of such offer or the consummation of the proposed action, whichever is later. Upon payment of the agreed value, the dissenting shareholder shall cease to have any interest in such shares.
- (7) If the corporation fails to make such offer within the period specified therefor in subsection (5) or if it makes the offer and any dissenting shareholder or shareholders fail to accept the same within the period of 30 days thereafter, then the corporation, within 30 days after receipt of written demand from any dissenting shareholder given within 60 days after the date on which such corporate action was effected, shall, or at its election at any time within such period of 60 days may, file an action in any court of competent jurisdiction in the county in this state where the registered office of the corporation is located requesting that the fair value of such shares be determined. The court shall also determine whether each dissenting shareholder, as to whom the corporation requests the court to make such determination, is entitled to receive payment for his or her shares. If the corporation fails to institute the proceeding as herein provided, any dissenting shareholder may do so in the name of the corporation. All dissenting shareholders (whether or not residents of this state), other than shareholders who have agreed with the corporation as to the value of their shares, shall be made parties to the proceeding as an action against their shares. The corporation shall serve a copy of the initial pleading in such proceeding upon each dissenting shareholder who is a resident of this state in the manner provided by law for the service of a summons and complaint and upon each nonresident dissenting shareholder either by registered or certified mail and publication or in such other manner as is permitted by law. The jurisdiction of the court is plenary and exclusive. All shareholders who are proper parties to the proceeding are entitled to judgment against the corporation for the amount of the fair value of their shares. The court may, if it so elects, appoint one or more persons as appraisers to receive evidence and recommend a decision on the question of fair value. The appraisers shall have such power and authority as is specified in the order of their appointment or an amendment thereof. The corporation shall pay each dissenting shareholder the amount found to be due him or her within 10 days after final determination of the proceedings. Upon payment of the judgment, the dissenting shareholder shall cease to have any interest in such shares.
- (8) The judgment may, at the discretion of the court, include a fair rate of interest, to be determined by the court.
- (9) The costs and expenses of any such proceeding shall be determined by the court and shall be assessed against the corporation, but all or any part of such costs and expenses may be apportioned and assessed as the court deems equitable against any or all of the dissenting shareholders

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

who are parties to the proceeding, to whom the corporation has made an offer to pay for the shares, if the court finds that the action of such shareholders in failing to accept such offer was arbitrary, vexatious, or not in good faith. Such expenses shall include reasonable compensation for, and reasonable expenses of, the appraisers, but shall exclude the fees and expenses of counsel for, and experts employed by, any party. If

B-5

the fair value of the shares, as determined, materially exceeds the amount which the corporation offered to pay therefor or if no offer was made, the court in its discretion may award to any shareholder who is a party to the proceeding such sum as the court determines to be reasonable compensation to any attorney or expert employed by the shareholder in the proceeding.

- (10) Shares acquired by a corporation pursuant to payment of the agreed value thereof or pursuant to payment of the judgment entered therefor, as provided in this section, may be held and disposed of by such corporation as authorized but unissued shares of the corporation, except that, in the case of a merger, they may be held and disposed of as the plan of merger otherwise provides. The shares of the surviving corporation into which the shares of such dissenting shareholders would have been converted had they assented to the merger shall have the status of authorized but unissued shares of the surviving corporation.

June 28, 2001

Board of Directors
FABP Bancshares, Inc.
33 West Garden Street
P.O. Box 17129
Pensacola, Florida 32522

Ladies and Gentlemen:

We understand that FABP Bancshares, Inc. (the "Company") is considering a proposed sale of the Company to Synovus Financial Corp. ("Synovus") via a merger of the Company with and into Synovus (the "Proposed Transaction"). We understand that under the terms of the Proposed Transaction, Synovus will issue between 1.9428 and 2.2582 shares of Synovus common stock for each outstanding share of Company common stock (the "Exchange Ratio"), as described in more detail below. The terms and conditions of the Proposed Transaction are set forth in more detail in the Agreement and Plan of Merger between the Company and Synovus, dated June 28, 2001 (the "Merger Agreement").

The Exchange Ratio is based on a conversion table, which is set forth in Annex A to this letter. The conversion table establishes a range of Synovus

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

shares to be received for each Company common share if the 20-day average closing price of the shares of Synovus common stock on the New York Stock Exchange is between \$27.00 and \$33.00 per share. Should the 20-day average closing price of Synovus common shares be below \$27.00 or in excess of \$33.00, the Exchange Ratio will become fixed. In addition, if the 20-day average closing price of Synovus common shares is below \$25.00 per share, then the Company may terminate the transaction or accept the Exchange Ratio calculated according to the conversion table. Using the average closing price of the shares of Synovus common stock on the New York Stock Exchange for the 20 trading days ending on June 27, 2001 of approximately \$30.43, the Exchange Ratio would equal 2.0585, which results in a per share purchase price equal to \$64.43 per share of Company common stock (based on the closing price of Synovus common stock on June 27, 2001 of \$31.30 per share).

You have asked us whether, in our opinion, the Exchange Ratio in the Proposed Transaction is fair, from a financial point of view, to the shareholders of the Company.

In arriving at our opinion, we reviewed and analyzed: (1) the Merger Agreement and exhibits thereto; (2) certain publicly available information concerning the Company and Synovus which we believe to be relevant to our inquiry; (3) financial and operating information with respect to the business, operations and prospects of the Company furnished to us by the Company; (4) a comparison of the historical financial results and present financial condition of the Company with those of publicly traded companies which we deemed relevant; and (5) a comparison of the financial terms of the Proposed Transaction with the publicly available financial terms of certain other recent transactions which we deemed relevant. In addition, we have had discussions with the senior management personnel of the Company concerning its business, operations, assets, liabilities, present condition and future prospects and the potential strategic benefits expected by the senior management of the Company to result from a combination of the businesses of the Company and Synovus and undertook such other studies, analyses and investigations as we deemed appropriate.

C-1

We have assumed and relied upon, without independent verification, the accuracy and completeness of the financial and other information discussed with or reviewed by us in arriving at our opinion. With respect to the financial forecasts provided to or discussed with us, we have assumed, at the direction of the management of the Company and without independent verification or investigation, that such forecasts have been reasonably prepared on bases reflecting the best currently available information, estimates and judgments of the management of the Company as to its future financial performance. In arriving at our opinion, we have not conducted a physical inspection of the properties and facilities of the Company and have not made nor obtained any evaluations or appraisals of the assets or liabilities (including, without limitation, any potential environmental liabilities), contingent or otherwise, of the Company. We have also assumed that the Proposed Transaction will be consummated in accordance with the terms of the Merger Agreement and that the Proposed Transaction will be accounted for as a pooling-of-interests under generally accepted accounting principles and will be treated as a tax-free reorganization for federal income tax purposes. We have also assumed that all material governmental, regulatory or other consents and approvals necessary for the consummation of the Proposed Transaction will be obtained without any adverse effect on the Company or Synovus or on the expected benefits of the Proposed Transaction. In addition, you have not authorized us to solicit, and we have not solicited, any indications of interest from any third party with respect to the purchase of all or a part of the Company's business. Our opinion is necessarily based upon market, economic and other conditions as they exist on, and can be evaluated as of, the date of this letter. We express no opinion as to the underlying valuation, future performance or long-term viability of the

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Company or Synovus. We do not have any obligation to update or revise the opinion.

We have been retained by the Board of Directors of the Company to act as financial advisor to the Company in connection with the Proposed Transaction and will receive a fee for our services. In addition, the Company has agreed to indemnify us for certain liabilities arising out of our engagement. In the ordinary course of our business, we and our affiliates may actively trade in the securities of Synovus for our own account and for the accounts of our customers and, accordingly, may at any time hold a long or short position in such securities.

Based upon and subject to the forgoing, we are of the opinion as of the date hereof that the Exchange Ratio in the Proposed Transaction is fair, from a financial point of view, to the shareholders of the Company. This opinion is for the benefit of the Board in its evaluation of the Proposed Transaction, and does not constitute a recommendation as to how any stockholder should act or vote with respect to any matters relating to the Proposed Transaction. Board Members:

You have requested the opinion of KPMG LLP ("KPMG") regarding certain Federal income tax consequences relating to the merger of FABP Bancshares, Inc. ("FABP") with and into Synovus Financial Corp. ("Synovus"). Specifically, you have requested KPMG to opine that the form and substance of the merger of FABP with and into Synovus (the "Merger") constitutes a reorganization under Section 368(a)(1)(A) of the Internal Revenue Code of 1986, as amended (the "Code") (hereinafter all section references are to the Code unless otherwise indicated) and that under the Code no gain or loss will be recognized by the shareholders of FABP upon receipt of the Synovus common stock in exchange for their FABP common stock upon consummation of the merger. All affected FABP common shareholders should consult their own tax advisors on these matters.

FACTS

Synovus is a bank holding company organized and existing under the laws of Georgia and having its principal office in Muscogee County, Georgia. It has authorized 600,000,000 shares of \$1.00 par value common stock of which 290,563,055 shares were outstanding at May 31, 2001. Synovus common stock is widely held, publicly traded, and is listed on the New York Stock Exchange.

Synovus common stock carries ten votes per share, unless the shares do not meet certain ownership tests, in which case each share is entitled to only one vote. In accordance with the amendment to Synovus' Articles of Incorporation which was adopted by the shareholders of Synovus and became effective on April 24, 1986, a holder of Synovus common stock will be entitled to ten votes on each matter submitted to a vote of shareholders for each share of Synovus common stock beneficially owned on the record date for any meeting of shareholders which: (1) has had the same beneficial owner since April 24, 1986; (2) was acquired by reason of participation in a dividend reinvestment plan offered by Synovus and is held by the same beneficial owner for whom it was acquired under such plan; (3) is held by the same beneficial owner to whom it was issued as a result of an acquisition of a company or business by Synovus where the resolutions

adopted by Synovus' Board of Directors approving such issuance specifically reference and grant such rights; (4) was acquired under any employee, officer

and/or director benefit plan maintained for one or more employees, officers and/or directors of Synovus and/or its subsidiaries, and is held by the same beneficial owner for whom it was acquired under any such plan; (5) is held by the same beneficial owner to whom it was issued by Synovus, or to whom it was transferred by Synovus from treasury shares, and the resolutions adopted by Synovus' Board of Directors approving such issuance and/or transfer specifically reference and grant such rights; (6) was acquired as a direct result of a stock split, stock dividend or other type of share distribution, if the share as to which it was distributed has been held by the same beneficial owner for a period of 48 consecutive months prior to the record date of any meeting of shareholders at which the share is eligible to be voted; (7) has been beneficially owned continuously by the same shareholder for a period of 48 consecutive months prior to the record date of any meeting of shareholders at which the share is eligible to be voted; or (8) is owned by a holder who, in addition to shares that are beneficially owned under the provisions of (1)-(7) above, is the beneficial owner of less than 1,139,063 shares of Synovus common stock (which amount has been appropriately adjusted to reflect the stock splits which have occurred subsequent to April 24, 1986, and with such amount to be appropriately adjusted to properly reflect any other change in Synovus common stock by means of a stock split, a stock dividend, a recapitalization or otherwise occurring after April 24, 1986). Synovus has no other class of stock authorized.

Effective April 27, 1999, the Board of Directors of Synovus adopted a plan that provides the common shareholders of Synovus with Common Stock Purchase Rights ("poison pill rights"), i.e. rights to acquire the stock of Synovus or its successor.

Under the terms of the plan, holders of Synovus common stock received a poison pill right for each share of Synovus common stock held by them. A shareholder's ability to exercise his rights is contingent upon the occurrence of either a tender offer for 15% or more, or the actual acquisition of 10% or more, of Synovus common stock by a corporation or individual (the "acquiring person") without the approval of the Synovus' Board of Directors.

In general, the rights become exercisable on the earlier of (1) ten days following a public announcement that, without prior approval of Synovus, a person or group of affiliated persons has acquired, or obtained the right to acquire, beneficial ownership of 10% or more of the outstanding common stock of Synovus, or (2) ten days following the commencement or announcement of an intention to make a tender offer or exchange offer, without the prior written consent of Synovus, for 15% or more of the outstanding shares of Synovus common stock. Until the rights become exercisable, they cannot be transferred separately from the underlying common stock on which they were distributed, nor are the rights represented by any certificate other than the underlying stock certificate itself. Additionally, Synovus may redeem the poison pill rights for 1 cent per right until the date that specified events occur. The poison pill rights expire on May 5, 2009.

Once they become exercisable, the poison pill rights entitle the holder to purchase from Synovus one share of common stock. No fractional shares of common stock will be issued upon exercise of a poison pill right. In lieu thereof, a payment in cash will be made to the holder of such poison pill right equal to the same fraction of the current market value of a share of common stock.

If, after the rights become exercisable, a "flip-in" or "flip-over" event

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

occurs, all holders of such rights, except the acquiring person, are entitled to purchase, at a 50 percent discount, the stock of either Synovus or the acquiring corporation (whichever is applicable). A "flip-in" event is either (1) the acquisition by the acquiring person of 15% or more of the outstanding stock of Synovus, or (2) the conduct of certain self-dealing transactions between an acquiring person or any of its affiliates or associates and Synovus. A "flip-over" event is either (1) a merger or other business combination in which Synovus is not the surviving corporation, or (2) a sale or transfer of more than 30% of the assets or earning power of Synovus and its subsidiaries (taken as a whole) in one or a series of transactions.

FABP is a bank holding company organized and existing under the laws of Florida and having its principal office in Pensacola, Florida. FABP has authorized 5,000,000 shares of \$.001 par value common stock of which 1,567,510 shares were outstanding as of May 31, 2001. There are no outstanding warrants, options, rights, calls, or other commitments of any nature to which any person could acquire stock in FABP that, if exercised or converted, would affect Synovus' acquisition or retention of control of FABP. There are no outstanding securities or debt obligations of FABP convertible into shares of FABP common stock.

First American Bank of Pensacola, N.A. (the "Bank"), is a wholly-owned subsidiary of FABP with its principal office in Pensacola, Florida.

PROPOSED TRANSACTION

For what has been represented to be valid business purposes, Synovus and FABP want to combine their businesses. In order to reach that result, the following transaction is proposed:

1. Pursuant to the Agreement and Plan of Merger dated June 28, 2001, (referred to as the "Merger Agreement"), by and among Synovus and FABP, FABP will merge with and into Synovus in accordance with Georgia and Florida state law. Synovus will survive the merger and the separate corporate existence of FABP will cease.
2. Immediately after the Merger and pursuant to the Merger Agreement dated July 26, 2001, the separate corporate existence of the Bank will be merged into Bank of Pensacola, a wholly owned subsidiary of Synovus.

3. As a result of the Merger and on its effective date, FABP shareholders will be entitled to receive from Synovus not less than 1.9428 shares nor more than 2.2582 shares of Synovus common stock for each of their shares of FABP common stock (the "Per Share Exchange Ratio").
4. No fractional shares of Synovus common stock will be issued in the Merger. Instead, FABP shareholders who would otherwise be entitled to a fractional share of Synovus common stock will be paid in cash for the fractional shares to be determined based upon the closing price per share of Synovus common stock on the NYSE on the fifth business day immediately preceding the effective date of the Merger.
5. Effective on the effective date of the Merger, Synovus will enter into employment agreements with certain key employees. The agreements will provide for key employees to continue to receive substantially the same

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

base salary and benefits which they presently receive, and certain severance benefits and participation in various Synovus incentive, welfare and benefit plans.

The following assumptions of fact have been made in regard to the proposed merger (and they form an integral part of the opinions contained herein) each of which you have examined and agree with:

- a) The fair market value of the Synovus common stock and cash to be received by each of the FABP shareholders pursuant to the Merger will be approximately equal, in each instance, to the fair market value of the FABP common stock exchanged therefore.
- b) None of (i) Synovus, (ii) any member of Synovus' affiliated group as defined in Section 1504 of the Code without regard to Section 1504(b) of the Code (iii) any corporation in which at least fifty percent (50%) of the total combined voting power of all classes of stock entitled to vote or at least fifty percent (50%) of the value of all classes of stock outstanding is owned directly or indirectly by Synovus, or (iv) any entity that is treated as a partnership for federal income tax purposes and has as an owner a corporation described in (i), (ii) or (iii) of this paragraph has acquired or will acquire, in a transaction that may be considered in connection with the Merger, acquire or redeem (directly or indirectly) any shares of Synovus common stock issued pursuant to the Merger for consideration other than Synovus common stock, except for repurchases, if any, by Synovus of a small percentage of its stock in the open market as part of any ongoing stock repurchase program not created or modified in any way in connection with the Merger. For purposes hereof, any entity described in (ii), (iii), or (iv) shall be referred to as a Synovus Related Party. An entity will be treated as a Synovus Related Party if the requisite relationship exists immediately before or immediately after the acquisition or redemption. In addition, an entity (other than FABP or any FABP Related Party) will be treated as a Synovus Related Party if the requisite relationship is created in connection with the Merger. A FABP Related Party means any corporation in which at least fifty percent (50%) of the

total combined voting power of all classes of stock entitled to vote or at least fifty percent (50%) of the value of all classes of stock outstanding is owned directly or indirectly by FABP. Neither FABP nor any FABP Related Party has acquired or will acquire, in a transaction that may be considered in connection with the Merger, any shares of FABP capital stock. An entity will be treated as a FABP Related Party if the requisite relationship exists immediately before or immediately after the acquisition. In addition, any entity that is treated as a partnership for federal income tax purposes and as an owner that is a FABP Related Party will be treated as a FABP Related Party. Furthermore, no five percent or greater shareholder of FABP, and to the best of the knowledge of the management of FABP, none of the remaining shareholders of FABP has a plan or intention to sell, or otherwise dispose of, to Synovus or any person related (as defined in Treasury Reg. Section 1.368-1(e)(3)) to Synovus, any of the Synovus stock to be issued in the Merger, either directly or through any transaction, agreement, or arrangement with any

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

other person.

- c) Neither FABP nor any FABP Related Party has redeemed or acquired any FABP common stock prior to and in connection with the merger.
- d) Synovus has no plan or intention to liquidate, to merge with and into another corporation, or to cause to sell or otherwise dispose of any assets of FABP acquired in the Merger, except for dispositions made in the ordinary course of business or transfers described in Section 368(a)(2)(C).
- e) The liabilities of FABP assumed by Synovus and the liabilities to which the transferred assets of FABP are subject were incurred by FABP in the ordinary course of its business.
- f) Following the Merger, Synovus will continue the historical business of FABP or use a significant portion of FABP's historical assets in a business.
- g) Synovus and FABP, and the shareholders of FABP will each pay their own fees, expenses, and disbursements in connection with the Merger.
- h) There is no intercorporate debt existing between Synovus, FABP, and the Bank that was issued, acquired, settled or will be settled at a discount.
- i) No two parties to the Merger (i.e. Synovus and FABP) are investment companies within the meaning of such term as used in Section 368(a)(2)(F)(iii) and (iv).
- j) Neither FABP, nor the Bank is under the jurisdiction of a court in a Title 11 or similar case within the meaning of 368(a)(3)(A).

- k) On the effective date of the Merger, the fair market value of the assets of FABP transferred to Synovus will exceed the sum of the liabilities assumed by Synovus plus the amount of liabilities to which the transferred assets are subject.
- l) None of the Synovus common stock being issued to the FABP shareholders will represent compensation for past or future services. The compensation to be paid to FABP directors, officers, and employees who are stockholders of FABP and who will be employed following the Merger will not be part of the consideration paid for their FABP common stock, but will be commensurate, in each instance, with past or future services.
- m) All distributions made by FABP and the Bank prior to the Merger will be "regular, normal" distributions.
- n) The maximum amount of cash to be paid in lieu of fractional shares of Synovus voting common stock will, in the aggregate, be less than one percent of the total consideration paid to the FABP shareholders in the Merger. The payment of cash in lieu of fractional shares of Synovus common stock is solely for the purpose of avoiding the expense and inconvenience of issuing fractional shares and does not represent separately bargained-for consideration.

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

- o) No event has occurred which made the poison pill rights exercisable.
- p) At the time of Merger, each option to purchase or other right with respect to shares of FABP common stock pursuant to stock options granted by FABP, which are outstanding at the time of Merger, whether or not exercisable, shall be converted into and become rights with respect to Synovus common stock, and Synovus shall assume each FABP option, in accordance with the terms of the FABP stock plan by which it is evidenced in substantially the same terms and conditions.

DISCUSSION

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Merger

Classification as a reorganization

Section 368(a)(1)(A) provides that the term "reorganization" includes a statutory merger. The term statutory merger refers to a merger effected pursuant to the corporate laws of the United States, a state or territory, or the District of Columbia. Treasury Regulation Section 1.368-2(b).

Requisite to all reorganizations under Section 368(a)(1) are a (1) valid business purpose; (2) continuity of the business enterprise under the modified corporate form; and (3) continuity of interest in the corporation surviving the merger. Regulation Section 1.368-1(b). The term "reorganization" does not embrace the mere purchase by one corporation of the properties of another. Regulation Section 1.368-2(a). These regulations reflect well-developed judicial interpretation of the statutory definition of a reorganization, the purpose of which is to exclude from the scope of the reorganization provisions those transactions that are in fact sales.

Continuity of business enterprise requires that the transferee corporation either continue the transferor corporation's historical business or use a significant portion of the transferor corporation's historical business assets. Regulation Section 1.368-1(d)(2). This will be satisfied in this transaction as per representation "f" above.

The regulations under Section 368(a) do not establish the amount of qualifying consideration necessary to satisfy the continuity of shareholder interest requirement. However, the Service has promulgated a definite test as to the requirement for purposes of obtaining a private letter ruling. Under Revenue Procedure 77-37, 1977-2 C.B. 568, the continuity of interest requirement of Regulation Section 1.368-1(b) is satisfied if:

[T]here is continuing interest through stock ownership in the acquiring or transferee corporation... on the part of the former shareholders of the acquired or transferor corporation which is equal in value, as of the effective date of the reorganization, to at least 50 percent of the value of all the formerly outstanding stock of the acquired or transferor corporation as of the same date. It is not necessary that each shareholder of the acquired or transferor corporation receive in the exchange, stock of the acquiring or transferor corporation... which is equal in value to at least 50 percent of the value of his former stock interest in the acquired or transferor corporation, so long as one or more of the shareholders of the acquired or transferor corporation have a continuing interest through stock ownership in the acquiring or transferee corporation... which is, in the

8

aggregate, equal in value to at least 50 percent of the value of all of the formerly outstanding stock of the acquired or transferor corporation.

The 50 percent definitive test of this revenue procedure does not as a matter of law establish the amount of qualifying consideration necessary to meet the continuity of interest requirement of Regulation Section 1.368-1(b). In other words, the continuation of a capital stock ownership in the acquiring corporation equal to less than 50 percent of the value of the stock of the

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

acquired corporation does not itself mark a discontinuity of interest. The Supreme Court in *John A. Nelson Co. v. Helvering*, 296 U.S. 374 (1935), 36-1 U.S.T.C. para 9019, held that there was a reorganization even though the shareholders of the acquired corporation received less than half of their total consideration in the form of stock of the acquiring corporation and received nonvoting preferred stock. It is only necessary that the shareholders continue to have a definite and substantial equity interest in the assets of the acquiring corporation, Revenue Ruling 61-156, 1961-2 C.B. 62. This requirement should be met in this transaction as per representation "b", above.

In addition to the foregoing, it has been represented as a fact that this transaction is being undertaken for a bona fide corporate business reason, thus satisfying the first requirement stated above.

The merger of FABP with and into Synovus will constitute a reorganization within the meaning of Section 368(a)(1)(A) provided that (1) the merger of FABP with and into Synovus qualified as a statutory merger under the applicable federal and state laws and is undertaken for a valid business purpose as stated in the above facts; (2) after the transaction Synovus continues the historical business of FABP; and (3) FABP shareholders exchange for Synovus common stock an amount of the FABP stock meeting the continuity of shareholder interest test. Synovus and FABP will each be "a party to a reorganization" within the meaning of Section 368(b). As discussed above, each of the foregoing will be complied with in this transaction.

Federal income tax consequences to exchanging shareholders

Section 354(a)(1) provides that no gain or loss will be recognized if stock of a corporation which is a party to a reorganization is, pursuant to the plan or reorganization, exchanged solely for stock of such corporation or of another corporation which is a party to the reorganization. Section 356(a)(1) in relevant part provides that if money or other property is received in an exchange to which section 354 would otherwise apply, then gain, if any, to the recipient will be recognized to the extent of the sum of the money and fair market value of the property received. If the exchange has the effect of the distribution of a dividend, then the amount of gain recognized that is not in excess of each distributee shareholder's ratable share of the undistributed earnings and profits of the acquired corporation will be treated as a dividend, Section 356(a)(2). No loss will be recognized on the exchange, Section 356(c). Section 358 provides that, generally,

D-8

Board of Directors
Synovus Financial Corp.
FABP Banckshares, Inc.

9/13/2001

9

shareholders are entitled to a carryover basis for stock received in a reorganization transaction qualifying under Section 354 or 356.

The FABP common shareholders will not recognize any gain or loss pursuant to Section 354(a)(1) on the receipt solely of Synovus common stock in exchange for their FABP common stock. The tax basis which these FABP common shareholders will have in their newly received Synovus common stock will be the same as their tax basis in the FABP common stock immediately prior to the merger under Section 358(a), less any cash received in lieu of fractional shares, plus any gain recognized on the receipt of cash in lieu of fractional shares.

If the property received in an exchange (i.e., Synovus common stock) has the same (i.e., carryover) basis as the property given up, then Section 1223(1) applies to determine the holding period for the property received. Section 1223(1) provides that the period during which the taxpayer held the property

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

surrendered in the exchange is added to the period he or she holds the property received in the exchange in order to determine the holding period of the property received.

This tacking of the previous holding period applies only if the property exchanged (i.e., FABP common stock) was a capital asset in the taxpayer's hands at the time of the exchange, Section 1223(1). The status of the property as a capital asset is determined under Section 1221, which defines "capital asset" as any property of a taxpayer other than property within specified classifications. As a general rule, stock of a corporation would be treated as a capital asset under this section. Provided that his or her FABP common stock is a capital asset, then each FABP shareholder will be able to include his or her respective ownership period of the FABP common stock in determining the holding period of the Synovus common stock received in the proposed transaction.

Poison Pill Rights

The shares of Synovus common stock to be issued to the FABP shareholders entitle such shareholders to receive the poison pill rights which will become exercisable upon the happening of future events as described above. An issue with respect to the poison pill rights is whether the rights should be considered separable from the Synovus common stock and therefore "other property" within the meaning of Section 356(a) or rather as an attribute of the Synovus common stock, that is, a right to a future dividend inseparable from the other rights inherent in the stock and not personal to the shareholders.

Presently, the Service has not published any direct authoritative position regarding the treatment of poison pill rights in the context of a corporate reorganization that can be cited as precedent. Nor are there any judicial opinions specifically addressing poison pill rights in the context of a corporate reorganization.

The only available guidance consists of Private Letter Rulings ("PLRs") that address the shareholder tax consequences upon the receipt of capital stock incorporating a poison pill

D-9

Board of Directors
Synovus Financial Corp.
FABP Banchshares, Inc.

9/13/2001
10

rights plan in the context of a corporate reorganization. Under Section 6110(j)(3), PLRs may not be used or cited as precedent. If the Service issues further authority, such authority could be prospective only in accordance with the provisions of Section 7805.

In PLR 8808081, the Service ruled that poison pill rights incorporated in the terms of capital stock issued in a corporate reorganization constituted "other property" within the meaning of Section 356(a). Accordingly, the filing held that the acquired corporation's shareholders recognized gain, to the extent of the fair market value of the poison pill rights, in the exchange for capital stock of the acquiring corporation.

Subsequently, however, the Service reversed its position and ruled in PLR 8925087, PLR 8925088, PLR 9040069, PLR 9040042, PLR 9120006, and PLR 199904013 (among others) that poison pill rights did not constitute other property within the meaning of Section 356(a).

Indirect support for the proposition that poison pill rights do not constitute "other property" can also be found in Revenue Ruling 90-11, 1990-1 C.B. 10.

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

Although not in the context of a corporate reorganization, the Service concluded that the initial issuance of poison pill rights is not a distribution of property which would give rise to current tax to the shareholders. The terms of the poison pill plan described in the ruling are comparable to the terms of the Synovus plan. This ruling is a published ruling, and therefore may be cited as precedent. This published ruling indicates that the more recent private letter rulings cited immediately above reflect the current thinking of the Service, i.e., that poison pill rights do not constitute other property when associated with stock received in a corporate reorganization. Should the Service successfully maintain that the poison pill rights are other property, then gain, if any, realized by a common shareholder receiving such rights would be recognized to the extent of the fair market value of such rights.

CONCLUSION

Based on the foregoing, it is the opinion of KPMG that:

1. The merger of FABP with and into Synovus, in accordance with Georgia and Florida state law, will be treated as a reorganization under Section 368(a)(1)(A), and that Synovus and FABP will each be a party to the reorganization as defined in Section 368(b).
2. No gain or loss will be recognized by the shareholders of FABP upon the receipt of the shares of Synovus voting common stock for their FABP common stock upon consummation of the Merger. The basis of the Synovus shares received by such FABP shareholders (including any fractional share to which they may be entitled) will be the same as the basis of the FABP common stock surrendered in the exchange. Provided that the FABP common stock was a capital asset in the shareholder's hands, the holding period of the Synovus common stock (including any fractional share to

D-10

Board of Directors
Synovus Financial Corp.
FABP Banchshares, Inc.

9/13/2001
11

which they may be entitled) will include the holding period of the FABP stock.

3. The payment by Synovus of cash in lieu of fractional share interests in its common stock will, for federal income tax purposes, be treated as if Synovus actually issued the fractional share interests to the FABP common shareholders and then Synovus redeemed such fractional shares for cash. See Revenue Ruling 66-365, 1966-2 C.B. 116. Each affected FABP common shareholder should consult their own tax advisor for the tax effect to them of such redemption (i.e. exchange treatment or dividend).
4. Based on the discussion above under Poison Pill Rights, it appears reasonable to conclude that the Synovus poison pill rights plan adopted on April 27, 1999, should be treated as an attribute of the Synovus common stock, a right that is inseparable from other rights inherent in the stock and does not constitute other property received by the FABP common shareholders in exchange for their FABP common stock. However, in view of the lack of precedent, there can be no assurance that the Service will agree with this conclusion. In the event the Service ultimately establishes that such poison pill rights constitute other property, then the FABP shareholders, who realize gain on the exchange of their shares for Synovus common stock, will recognize such gain to the extent of the value of the poison pill

Edgar Filing: SYNOVUS FINANCIAL CORP - Form 424B3

rights received.

5. Where a FABP shareholder elects to receive cash by exercising statutory dissenter's rights, such cash will be treated as having been received by the shareholder as a distribution in redemption of his or her FABP stock subject to the provisions and limitations of Section 302 of the Code.
