NOTES TO FINANCIAL STATEMENTS

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Company management and the evaluation of subsequent events through July 16, 2009, the issuance date of the financial statements. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

reflected in the financial statements may differ from the value the Company ultimately realizes upon sale of the securities.

Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of identified cost. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation Investments in securities traded on a national security exchange are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not available are valued at the last quoted bid price. Short-term investments (excluding purchased options and money market funds) are valued at amortized cost which approximates fair value. Purchased and

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

written options are valued at the last quoted bid and asked price, respectively. Money market funds are valued at net asset value on the day of valuation.

In accordance with Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), fair value is defined as the price that the Company would receive upon selling an investment in an orderly transaction to an independent buyer. FAS 157 established a three-tier hierarchy to establish classification of fair value measurements, summarized as follows:

- Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 fair value is determined using the Company's own assumptions, developed based on the best information available in the circumstances.

The Company's investments at June 30, 2009 were classified as follows:

| | Common stocks | Mutual funds | Written options |
|---------|----------------|----------------|-----------------|
| Level 1 | \$ 828,415,254 | \$ 160,624,874 | \$ (217,750) |
| Level 2 | | | |
| Level 3 | | | |
| Total | \$ 828,415,254 | \$ 160,624,874 | \$ (217,750) |

2. Federal Income Taxes

The Company's policy is to distribute all of its taxable income to its stockholders in compliance with the requirements of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. For federal income tax purposes, the identified cost of securities at June 30, 2009 was \$1,080,649,645 and net unrealized depreciation aggregated \$91,609,517, of which the related gross unrealized appreciation and depreciation were \$129,053,440 and \$220,662,957, respectively.

Distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Accordingly, annual reclassifications are made within the Company's capital accounts to reflect income and gains available for distribution under income tax regulations. Any income tax-related interest or penalties would be classified as income tax expense.

3. Investment Transactions

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff. Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2009 were \$93,723,627 and \$58,223,705, respectively.

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

The Company is subject to changes in the value of equity securities held (equity price risk) in the normal course of pursuing its investment objectives. The Company may purchase and write option contracts to increase or decrease its equity price risk exposure or may write option contracts to generate additional income. Option contracts generally entail risks associated with counterparty credit, illiquidity, and unfavorable equity price movements. The Company has mitigated counterparty credit and illiquidity risks by trading its options through an exchange. The risk of unfavorable equity price movements is limited for purchased options to the premium paid and for written options by writing only covered call or collateralized put option contracts, which require the Company to segregate certain securities or cash at its custodian when the option is written. A schedule of outstanding option contracts as of June 30, 2009 can be found on page 12.

When the Company writes (purchases) an option, an amount equal to the premium received (paid) by the Company is recorded as a liability (asset) and is subsequently marked to market daily in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Premiums received (paid) from unexercised options are treated as realized gains (losses) on the expiration date. Upon the exercise of written put (purchased call) option contracts, premiums received (paid) are deducted from (added to) the cost basis of the underlying securities purchased. Upon the exercise of written call (purchased put) option contracts, premiums received (paid) are added to (deducted from) the proceeds from the sale of underlying securities in determining whether there is a realized gain or loss.

Transactions in written covered call and collateralized put options during the six months ended June 30, 2009 were as follows:

| | Covered Calls | | Collateralized Puts | |
|---|---------------|------------|---------------------|------------|
| | Contracts | Premiums | Contracts | Premiums |
| Options outstanding, December 31, 2008 | 200 | \$ 22,650 | 732 | \$ 94,717 |

| Options terminated in closing purchase transactions | (100) | (13,225) | (350) | (49,125) |
| Options expired | (900) | (105,621) | (6,682) | (704,919) |
| Options exercised | (250) | (62,599) | (850) | (98,450) |
| Options outstanding, June 30, 2009 | 1,500 | \$ 203,798 | 2,050 | \$ 214,889 |

During 2008, 898 shares were issued at a weighted average price of \$10.31 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

5. Retirement Plans

The Company's non-contributory qualified defined benefit pension plan (qualified plan) covers all employees with at least one year of service. In addition, the Company has a non-contributory nonqualified defined benefit plan which provides eligible employees with retirement benefits to supplement the qualified plan. Benefits are based on length of service and compensation during the last five years of employment, and effective July 9, 2009, will be frozen as of September 30, 2009.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur.

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. During the six months ended June 30, 2009, the Company contributed \$475,000 to the plans. The Company does not anticipate any additional significant contributions in 2009.

The following tables aggregate the components of the plans' net periodic pension cost and changes in accumulated other comprehensive income:

6. Equity-Based Compensation

Although the Stock Option Plan of 1985 (1985 Plan) has been discontinued and no further grants will be made under this plan, unexercised grants of stock options and stock appreciation rights granted in 2004 and prior years remain outstanding. The exercise price of the unexercised options and related stock appreciation rights is the fair market value on date of grant, reduced by the per share amount of capital gains paid by the Company during subsequent years. All options and related stock appreciation rights terminate ten years from date of grant, if not exercised.

A summary of option activity under the 1985 Plan as of June 30, 2009, and changes during the six month period then ended, is presented below:

| | Options | Weighted-Average Exercise Price | Weighted-Average Remaining Life (Years) |
|----------------------------------|----------|---------------------------------------|---|

The total compensation cost/(credit) recognized for the six months ended June 30, 2009 was \$0.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting, permits the grant of stock options, restricted stock awards and other stock incentives to key employees and all non-employee directors. The 2005 Plan provides for the issuance of up to 3,413,131 shares of the Company's Common Stock, including both performance and nonperformance-based restricted stock. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achievement of certain performance targets. If performance targets are not achieved, all or a portion of the performance-based awards are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. Payment of awards may be deferred if elected. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards are granted at fair market value on grant date. The number of shares of Common Stock which remains available for future grants under the 2005 Plan at June 30, 2009 is 3,201,589 shares.

A summary of the status of the Company's awards granted under the 2005 Plan as of June 30, 2009, and changes during the six month period then ended, is presented below:

| | Shares/ Units | Weighted Average Grant-Date Fair Value |
|---|------------------|---|
| Awards | | |
| Balance at December 31, 2008 | 129,694 | \$ 13.15 |
| Granted: | | |
| Restricted stock | 48,595 | 8.21 |
| Restricted stock units | 6,750 | 7.26 |
| Deferred stock units | 1,147 | 7.76 |
| Vested & issued | (50,637) | 12.50 |
| Forfeited | (6,556) | 12.32 |
| Balance at June 30, 2009 (includes 101,050 performance-based awards and 27,943 nonperformance-based awards) | 128,993 | \$ 11.13 |

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for the period ended June 30, 2009 for restricted stock granted to employees were \$215,711. The total compensation costs for the period ended June 30, 2009 for restricted stock units granted to non-employee directors were \$30,285. As of June 30, 2009, there were total unrecognized compensation costs of \$572,687, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.84 years. The total fair value of shares and units vested during the six month period ended June 30, 2009 was \$403,955.

7. Officer and Director Compensation

The aggregate remuneration paid during the six months ended June 30, 2009 to officers and directors amounted to \$1,768,271, of which \$185,765 was paid as fees and compensation to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

The Company makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Company on the next business day. Cash deposits are placed in a registered money market fund. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At June 30, 2009, the Company had securities on loan of \$113,340,351 and held cash collateral of \$117,062,061. The Company is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

This report, including the financial statements herein, is transmitted to the stockholders of The Adams Express Company for their information. It is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Company or of any securities mentioned in the report. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if sold, may be worth more or less than their original cost.
