Report shall not be incorporated by reference into any registration statement pursuant to the Securities Act of 1933, as amended. The furnishing of the information in Item 7.01 of this Current Report is not intended to, and does not, constitute a determination or admission that the information in Item 7.01 of this Current Report is material, or that investors should consider this information before making an investment decision with respect to any security of the Company.

As previously reported, a definitive agreement was signed on April 19, 2007 pursuant to which Deerfield & Company, LLC, ("Deerfield") a subsidiary of Triarc Companies, Inc. (the "Company") in which we own a controlling interest, is to be acquired by Deerfield Triarc Capital Corp. ("DFR"), a diversified financial company that is managed by a subsidiary of Deerfield. In connection therewith, on August 7, 2007, we disclosed the following information to DFR:

- o Deerfield's asset management and related fees increased \$1.0 million to \$16.8 million in the second quarter of 2007 from \$15.8 million in the second quarter of 2006, which is net of a \$0.8 million decrease in incentive fees from DFR in the second quarter of 2007 as compared to the second quarter of 2006.
- o Our cost of services, which relate exclusively to Deerfield, excluding depreciation and amortization, increased \$0.4 million to \$6.3 million in the second quarter of 2007 from \$5.9 million in the second quarter of 2006.
- o As of August 1, 2007, Deerfield had approximately \$14.8 billion of assets under management ("AUM"), consisting of approximately \$12.9 billion in 30 collateralized debt obligation vehicles ("CDOs") and a structured loan fund (including \$895.6 million in CDOs in which DFR owns 100% of the equity interests), approximately \$837.6 million in four hedge funds, approximately \$762.0 million of DFR assets and approximately \$345.0 million in several managed accounts.
- o Although market conditions for asset securitizations are currently difficult, Deerfield and DFR launched DFR Middle Market CLO Ltd., a \$300 million middle market collateralized loan obligation ("CLO") transaction on July 17, 2007. Additionally, Deerfield launched Bryn Mawr CLO II, Ltd., a \$465 million (fully ramped) bank loan CLO on July 31, 2007 and on August 2, 2007 Deerfield also launched its second Euro CLO, Gillespie CLO PLC, a 300 EUR (approximately \$410 million) CLO. The assets in Gillespie CLO PLC are not included in the August 1, 2007 AUM reported above.
- o In accordance with our revenue recognition accounting policy, incentive fees relating to investment funds that are based upon performance are recognized when the amounts become fixed and determinable upon the close of a performance period, which is generally at the end of the fourth quarter. During the fourth quarter of 2006, we recognized approximately \$17.0 million of incentive fees from such investment funds other than DFR. Based on the performance of these funds in 2007, we expect to recognize a significantly lower amount of incentive fees during the fourth quarter of 2007. In that regard, as of the end of the second quarter of 2006, we had contingently earned but not recognized approximately \$5.2 million in incentive fees, whereas we had not contingently earned any such incentive fees as of the end of the second quarter of 2007.
- o The credit markets have recently experienced increased volatility and widening of credit spreads triggered by the higher default rates in the subprime mortgage market, which could, for at least the near term, negatively impact future management and related fees from CDOs and incentive fees from DFR, the extent of which we are unable to predict.
- o The reduced liquidity currently experienced by the credit markets could

materially limit Deerfield's ability to increase its assets under management if such conditions were to continue for a prolonged period of time.
