Information Relating to the FDIC Guarantee

Investors should be aware that the FDIC Guarantee (as defined in the prospectus supplement) is made pursuant to the FDIC's regulations, 12 C.F.R. Part 370, as specified at the FDIC's website, [www.fdic.gov/tlgp](http://www.fdic.gov/tlgp). On March 17, 2009, the FDIC adopted an interim rule that extends the debt guarantee component of the Temporary Liquidity Guarantee Program to December 31, 2012 for debt issued on or after April 1, 2009. In addition, the interim rule extends to October 31, 2009 the date through which FDIC Guaranteed Notes (as defined in the prospectus supplement) may be issued. For purposes of debt issued under this pricing supplement, all references in the prospectus supplement to the expiration date of the FDIC Guarantee hereby are amended to refer to December 31, 2012 and all references to the date through which FDIC Guaranteed Notes may be issued hereby are amended to refer to October 31, 2009.

The regulations governing the FDIC Guarantee may be subject to interpretive decisions and rulemaking by the FDIC that could adversely affect how the FDIC Guarantee would apply to the Notes. The FDIC Guarantee is subject to additional risks as described in the prospectus supplement under "Risk Factors, Risks Relating to the FDIC

Guarantee". See "FDIC Guarantee under the Temporary Liquidity Guarantee Program".

Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

<u>Year Ended December 31,</u>					<u>Three Months Ended</u>
<u>2004</u>	<u>2005</u>	<u>2006</u>	<u>2007</u>	<u>2008</u>	<u>March 31, 2009</u>
1.82	1.66	1.63	1.56	1.24	0.97

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, noncontrolling interests, discontinued operations and undistributed earnings of equity investees.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which is considered to be representative of the interest factor of such rentals.

As set forth above, GE Capitals ratio of earnings to fixed charges declined to 0.97:1 in the first quarter of 2009 due to lower pre-tax earnings which were primarily driven by higher provisions for losses on financing receivables in connection with the challenging economic environment. As of March 31, 2009, the amount of earnings needed to achieve a one-to-one ratio of earnings to fixed charges was \$154 million. General Electric Company made a \$9.5 billion capital contribution to General Electric Capital Services, Inc. in the first quarter of 2009 (of which \$8.8 billion was further contributed to GE Capital through capital contribution and share issuance) to improve tangible capital and reduce leverage and General Electric Company does not anticipate additional contributions in 2009.
