ITEM 5. OTHER EVENTS

On June 2, 2004, General Motors Corporation (GM) issued a news release announcing May 2004 sales. The release is as follows:

GM Reports May Sales of 446,787, Up 6.5 Percent

Another Industry Sales Record for GM Trucks

Bested Prior SUV Sales Record by 18 Percent

DETROIT - General Motors dealers sold 446,787 new cars and trucks in May, up 6.5 percent compared to May 2003. This was GM's best sales performance for the calendar year-to-date. GM's truck sales (276,746) were up 11 percent and car sales (170,041) were flat compared to year-ago levels (-0.4 percent).

"We had our strongest sales results so far this year, with trucks leading the charge," said John Smith, group vice president, GM North America Vehicle Sales, Service and Marketing. "Consumers are weathering the passing storm related to the temporary increase in fuel prices and voting their preferences by purchasing record numbers of pickups and SUVs. A strengthening economy combined with record vehicle affordability allowed consumers to purchase vehicles of their choice. Although we have seen little evidence that rising fuel prices are impacting sales mix, GM is well positioned in this area, offering more fuel-efficient cars and trucks across more vehicle segments than any other manufacturer."

GM Truck Sales

GM's industry-leading truck sales established another industry record in May with a double-digit increase compared to year-ago levels. Sales were up in virtually every segment of the truck market, including full-size pickups; full-size, mid-size and small utilities; and full-size vans. GM led the industry once again with 90,531 full-size pickup sales, resulting in a 5 percent increase on the strength of combined Chevrolet Silverado and GMC Sierra sales.

Sales of GM's sport utility vehicles (131,411) jumped 19 percent, establishing another industry benchmark and achieving its best ever May sales performance. This was the third month this year that SUV deliveries surpassed 100,000 units. Full-size utility deliveries were up 8.5 percent (53,544), paced by strong sales of the Chevrolet Suburban (12,479) and the GMC Yukon (8,347).

GM Car Sales

GM's car sales were flat compared to year-ago levels. Among GM's launch vehicles, Chevrolet Aveo sales (4,993) were 28 percent above April, achieving its best sales month to date. Chevrolet Malibu sales (12,110) improved 28 percent over April sales.

Divisional Highlights

Chevrolet - Other Chevrolet launch vehicles also had healthy sales in May. Equinox sales continued to build with 8,945 deliveries, a 38 percent increase compared to April. Colorado, Chevrolet's new mid-size pickup, had strong sales in May (12,349), up 18 percent from last month and its best sales performance since launch. Sales of the Silverado and Avalanche contributed significantly to GM's overall truck sales with 71,193 deliveries. Corvette also had strong sales with 3,420 deliveries, up 45.5 percent.

Edgar Filing: GENERAL MOTORS CORP - Form 8-K

SRX had 3,253 deliveries, up 47 percent over April and its best sales month since launch. Yukon XL deliveries (6,708) were up 23 percent, also setting a new record. Canyon, GMC's new mid-size pickup, had 2,572 deliveries in May, up 14 percent from last month.

HUMMER - HUMMER sales were 1,982. H2 SUV sales were 1,919. HUMMER June sales will include the 2005 H2 SUT, which began shipping to dealers in late May.

Pontiac - Pontiac's total sales increased 35 percent (50,263), paced by car sales that were up 41 percent (43,266). Grand Prix deliveries were up 45 percent (12,510), and Grand Am sales improved 61 percent (17,546). Vibe sales increased 43 percent with 7,400 deliveries, setting a new monthly record.

Saturn - With 22,570 deliveries in May, Saturn achieved its fourth consecutive month of sales increases this year. Vue had record May sales with 10,770 deliveries, a 78 percent increase over last year, due in part to the Saturn Vue Redline.

GM Certified Used Vehicles, the industry's top-selling manufacturer-certified used brand, set a strong pace with 36,556 sales, up 7 percent from the previous month and 3 percent from May 2003. GM Certified Used Vehicles continued to lead all certified pre-owned brands industry-wide with sales of 180,175 units through May, an increase of 8 percent from the same period last year.

Saab Certified Pre-Owned Vehicles sold 737 units in May, comparable to last month, and Cadillac Certified Pre-Owned Vehicles posted sales of 2,712 units, down 5 percent from last month. Used Cars from Saturn sold 4,177 units, up 25 percent from the previous month.

"May's certified used sales were very solid, with GM Certified Used Vehicles recording its second-best monthly sales performance ever, and Used Cars from Saturn posting an impressive increase of more than 35 percent from last May," Smith said. "We continue on track to post the industry's best certified sales performance ever in 2004."
