FORWARD-LOOKING STATEMENTS

References herein to HollyFrontier Corporation (“HollyFrontier”) include HollyFrontier and its consolidated subsidiaries. In accordance with the Securities and Exchange Commission’s (“SEC”) “Plain English” guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words “we,” “our,” “ours” and “us” refer only to HollyFrontier and its consolidated subsidiaries or to HollyFrontier or an individual subsidiary and not to any other person with certain exceptions. Generally, the words “we,” “our,” “ours” and “us” include Holly Energy Partners, L.P. (“HEP”) and its subsidiaries as consolidated subsidiaries of HollyFrontier, unless when used in disclosures of transactions or obligations between HEP and HollyFrontier or its other subsidiaries. This document contains certain disclosures of agreements that are specific to HEP and its consolidated subsidiaries and do not necessarily represent obligations of HollyFrontier. When used in descriptions of agreements and transactions, “HEP” refers to HEP and its consolidated subsidiaries.

This Quarterly Report on Form 10-Q contains certain “forward-looking statements” within the meaning of the federal securities laws. All statements, other than statements of historical fact included in this Form 10-Q, including, but not limited to, those under “Results of Operations,” “Liquidity and Capital Resources” and “Risk Management” in Part I, Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and those in Part II, Item 1 “Legal Proceedings” are forward-looking statements. These statements are based on management’s beliefs and assumptions using currently available information and expectations as of the date hereof, are not guarantees of future performance and involve certain risks and uncertainties. Although we believe that the expectations reflected in these forward-looking statements are reasonable, we cannot assure you that our expectations will prove to be correct. Therefore, actual outcomes and results could materially differ from what is expressed, implied or forecast in these statements. Any differences could be caused by a number of factors including, but not limited to:

- risks and uncertainties with respect to the actions of actual or potential competitive suppliers of refined petroleum products in our markets;
- the demand for and supply of crude oil and refined products;
- the spread between market prices for refined products and market prices for crude oil;
- the possibility of constraints on the transportation of refined products;
- the possibility of inefficiencies, curtailments or shutdowns in refinery operations or pipelines;
- effects of governmental and environmental regulations and policies;
- the availability and cost of our financing;
- the effectiveness of our capital investments and marketing strategies;
- our efficiency in carrying out construction projects;
- our ability to acquire refined product operations or pipeline and terminal operations on acceptable terms and to integrate any existing or future acquired operations;
- the possibility of terrorist attacks and the consequences of any such attacks;
- general economic conditions; and
- other financial, operational and legal risks and uncertainties detailed from time to time in our SEC filings.

Cautionary statements identifying important factors that could cause actual results to differ materially from our expectations are set forth in this Form 10-Q, including without limitation, the forward-looking statements that are referred to above. This summary discussion should be read in conjunction with the discussion of the known material risk factors and other cautionary statements under the heading “Risk Factors” included in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2013 and in conjunction with the discussion in this Form 10-Q in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” under the heading “Liquidity and Capital Resources.” All forward-looking statements included in this Form 10-Q and all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety

by these cautionary statements. The forward-looking statements speak only as of the date made and, other than as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Content

PART I. FINANCIAL INFORMATION

DEFINITIONS

Within this report, the following terms have these specific meanings:

“BPD” means the number of barrels per calendar day of crude oil or petroleum products.

“BPSD” means the number of barrels per stream day (barrels of capacity in a 24 hour period) of crude oil or petroleum products.

“Biodiesel” means a clean alternative fuel produced from renewable biological resources.

“Black wax crude oil” is a low sulfur, low gravity crude oil produced in the Uintah Basin in Eastern Utah that has certain characteristics that require specific facilities to transport, store and refine into transportation fuels.

“Cracking” means the process of breaking down larger, heavier and more complex hydrocarbon molecules into simpler and lighter molecules.

“Crude oil distillation” means the process of distilling vapor from liquid crudes, usually by heating, and condensing the vapor slightly above atmospheric pressure turning it back to liquid in order to purify, fractionate or form the desired products.

“Ethanol” means a high octane gasoline blend stock that is used to make various grades of gasoline.

“FCC,” or fluid catalytic cracking, means a refinery process that breaks down large complex hydrocarbon molecules into smaller more useful ones using a circulating bed of catalyst at relatively high temperatures.

“Hydrodesulfurization” means to remove sulfur and nitrogen compounds from oil or gas in the presence of hydrogen and a catalyst at relatively high temperatures.

“Hydrogen plant” means a refinery unit that converts natural gas and steam to high purity hydrogen, which is then used in the hydrodesulfurization, hydrocracking and isomerization processes.

“Isomerization” means a refinery process for rearranging the structure of C5/C6 molecules without changing their size or chemical composition and is used to improve the octane of C5/C6 gasoline blendstocks.

“LPG” means liquid petroleum gases.

“Lubricant” or “lube” means a solvent neutral paraffinic product used in commercial heavy duty engine oils, passenger car oils and specialty products for industrial applications such as heat transfer, metalworking, rubber and other general process oil.

“MSAT2” means Control of Hazardous Air Pollutants from Mobile Sources, a rule issued by the U.S. Environmental Protection Agency to reduce hazardous emissions from motor vehicles and motor vehicle fuels.

“MMBTU” means one million British thermal units.

Edgar Filing: HollyFrontier Corp - Form 10-Q

“Refinery gross margin” means the difference between average net sales price and average product costs per produced barrel of refined products sold. This does not include the associated depreciation and amortization costs.

“Sour crude oil” means crude oil containing quantities of sulfur greater than 0.4 percent by weight, while “sweet crude oil” means crude oil containing quantities of sulfur equal to or less than 0.4 percent by weight.

“Vacuum distillation” means the process of distilling vapor from liquid crudes, usually by heating, and condensing the vapor below atmospheric pressure turning it back to a liquid in order to purify, fractionate or form the desired products.

“WCS” means Western Canada Select crude oil and is made up of Canadian heavy conventional and bitumen crude oils blended with sweet synthetic and condensate diluents.

“WTI” means West Texas Intermediate and is a grade of crude oil used as a common benchmark in oil pricing. WTI is a sweet crude oil and has a relatively low density.

HOLLYFRONTIER CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1: Description of Business and Presentation of Financial Statements

References herein to HollyFrontier Corporation (“HollyFrontier”) include HollyFrontier and its consolidated subsidiaries. In accordance with the Securities and Exchange Commission’s (“SEC”) “Plain English” guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In these financial statements, the words “we,” “our,” “ours” and “us” refer only to HollyFrontier and its consolidated subsidiaries or to HollyFrontier or an individual subsidiary and not to any other person, with certain exceptions. Generally, the words “we,” “our,” “ours” and “us” include Holly Energy Partners, L.P. (“HEP”) and its subsidiaries as consolidated subsidiaries of HollyFrontier, unless when used in disclosures of transactions or obligations between HEP and HollyFrontier or its other subsidiaries. These financial statements contain certain disclosures of agreements that are specific to HEP and its consolidated subsidiaries and do not necessarily represent obligations of HollyFrontier. When used in descriptions of agreements and transactions, “HEP” refers to HEP and its consolidated subsidiaries.

We are principally an independent petroleum refiner that produces high-value light products such as gasoline, diesel fuel, jet fuel, specialty lubricant products, and specialty and modified asphalt. We own and operate petroleum refineries that serve markets throughout the Mid-Continent, Southwest and Rocky Mountain regions of the United States. As of June 30, 2014, we:

owned and operated a petroleum refinery in El Dorado, Kansas (the “El Dorado Refinery”), two refinery facilities located in Tulsa, Oklahoma (collectively, the “Tulsa Refineries”), a refinery in Artesia, New Mexico that is operated in conjunction with crude oil distillation and vacuum distillation and other facilities situated 65 miles away in Lovington, New Mexico (collectively, the “Navajo Refinery”), a refinery located in Cheyenne, Wyoming (the “Cheyenne Refinery”) and a refinery in Woods Cross, Utah (the “Woods Cross Refinery”);

owned and operated NK Asphalt Partners (“NK Asphalt”) which operates various asphalt terminals in Arizona, New Mexico and Oklahoma;

owned a 50% interest in Sabine Biofuels II, LLC (“Sabine Biofuels”), a biodiesel production facility located in Port Arthur, Texas; and

owned a 39% interest in HEP, a consolidated variable interest entity (“VIE”), which includes our 2% general partner interest. HEP owns and operates logistic assets consisting of petroleum product and crude oil pipelines and terminal, tankage and loading rack facilities that principally support our refining and marketing operations in the Mid-Continent, Southwest and Rocky Mountain regions of the United States and Alon USA, Inc.’s (“Alon”) refinery in Big Spring, Texas. Additionally, HEP owns a 75% interest in UNEV Pipeline, LLC (“UNEV”), which owns a 12-inch refined products pipeline from Salt Lake City, Utah to Las Vegas, Nevada, together with terminal facilities in the Cedar City, Utah and North Las Vegas areas (the “UNEV Pipeline”) and a 25% interest in SLC Pipeline LLC (the “SLC Pipeline”), which owns a 95-mile intrastate pipeline system that serves refineries in the Salt Lake City area.

We have prepared these consolidated financial statements without audit. In management’s opinion, these consolidated financial statements include all normal recurring adjustments necessary for a fair presentation of our consolidated financial position as of June 30, 2014, the consolidated results of operations and comprehensive income for the three and six months ended June 30, 2014 and 2013 and consolidated cash flows for the six months ended June 30, 2014 and 2013 in accordance with the rules and regulations of the SEC. Although certain notes and other information required by generally accepted accounting principles in the United States (“GAAP”) have been condensed or omitted, we believe that the disclosures in these consolidated financial statements are adequate to make the information presented not misleading. These consolidated financial statements should be read in conjunction with our Annual

Report on Form 10-K for the year ended December 31, 2013 that has been filed with the SEC.

Our results of operations for the six months ended June 30, 2014 are not necessarily indicative of the results of operations to be realized for the year ending December 31, 2014.

Accounts Receivable: Our accounts receivable consist of amounts due from customers that are primarily companies in the petroleum industry. Credit is extended based on our evaluation of the customer's financial condition, and in certain circumstances collateral, such as letters of credit or guarantees, is required. We reserve for doubtful accounts based on our historical loss experience as well as specific accounts identified as high risk, which historically have been minimal. Credit losses are charged to the allowance for doubtful accounts when an account is deemed uncollectible. Our allowance for doubtful accounts was \$2.4 million at June 30, 2014 and December 31, 2013.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

Inventories: We use the last-in, first-out (“LIFO”) method of valuing inventory. Under the LIFO method, an actual valuation of inventory can only be made at the end of each year based on the inventory levels at that time. Accordingly, interim LIFO calculations are based on management’s estimates of expected year-end inventory levels and are subject to the final year-end LIFO inventory valuation.

Goodwill: Goodwill represents the excess of the cost of an acquired entity over the fair value of the assets acquired and liabilities assumed. Goodwill is not subject to amortization and is tested annually, or more frequently if events or circumstances indicate the possibility of impairment. As of June 30, 2014, there have been no impairments to goodwill.

New Accounting Pronouncements

Revenue Recognition

In May 2014, an accounting standard update (ASU 2014-09, “Revenue from Contracts with Customers”) was issued requiring revenue to be recognized when promised goods or services are transferred to customers in an amount that reflects the expected consideration for these goods or services. This standard is effective January 1, 2017, and we are evaluating the impact of this standard.

NOTE 2: Variable Interest Entities

Holly Energy Partners

HEP, a consolidated VIE, is a publicly held master limited partnership that was formed to acquire, own and operate the petroleum product and crude oil pipeline and terminal, tankage and loading rack facilities that support our refining and marketing operations in the Mid-Continent, Southwest and Rocky Mountain regions of the United States. HEP also owns and operates refined product pipelines and terminals, located primarily in Texas, that serve Alon's refinery in Big Spring, Texas.

As of June 30, 2014, we owned a 39% interest in HEP, including the 2% general partner interest. As the general partner of HEP, we have the sole ability to direct the activities that most significantly impact HEP's financial performance. We are the primary beneficiary of HEP's earnings and cash flows and therefore we consolidate HEP. See Note 16 for supplemental guarantor/non-guarantor financial information, including HEP balances included in these consolidated financial statements.

HEP has two primary customers (including us) and generates revenues by charging tariffs for transporting petroleum products and crude oil through its pipelines, by charging fees for terminalling refined products and other hydrocarbons, and storing and providing other services at its storage tanks and terminals. Under our long-term transportation agreements with HEP (discussed further below), we accounted for 84% of HEP's total revenues for the six months ended June 30, 2014. We do not provide financial or equity support through any liquidity arrangements and / or debt guarantees to HEP.

HEP has outstanding debt under a senior secured revolving credit agreement and its senior notes. With the exception of the assets of HEP Logistics Holdings, L.P., one of our wholly-owned subsidiaries and HEP's general partner, HEP's creditors have no recourse to our other assets. Any recourse to HEP's general partner would be limited to the extent of

HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP are not significant. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries. See Note 9 for a description of HEP's debt obligations.

HEP has risk associated with its operations. If a major customer of HEP were to terminate its contracts or fail to meet desired shipping or throughput levels for an extended period of time, revenue would be reduced and HEP could suffer substantial losses to the extent that a new customer is not found. In the event that HEP incurs a loss, our operating results will reflect HEP's loss, net of intercompany eliminations, to the extent of our ownership interest in HEP at that point in time.

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

Transportation Agreements

HEP serves our refineries under long-term pipeline and terminal, tankage and throughput agreements expiring from 2019 through 2026. Under these agreements, we pay HEP fees to transport, store and throughput volumes of refined product and crude oil on HEP's pipeline and terminal, tankage and loading rack facilities that result in minimum annual payments to HEP including UNEV (a consolidated subsidiary of HEP). Under these agreements, the agreed upon tariff rates are subject to annual tariff rate adjustments on July 1 at a rate based upon the percentage change in Producer Price Index ("PPI") or Federal Energy Regulatory Commission ("FERC") index. As of July 1, 2014, these agreements result in minimum annualized payments to HEP of \$228.7 million.

Our transactions with HEP including fees paid under our transportation agreements with HEP and UNEV are eliminated and have no impact on our consolidated financial statements.

HEP Common Unit Offering

In March 2013, HEP closed on a public offering of 1,875,000 of its common units. Additionally, our wholly-owned subsidiary, HollyFrontier Holdings LLC, as a selling unitholder, closed on a public sale of 1,875,000 HEP common units held by it. HEP used net proceeds of \$73.4 million to repay indebtedness incurred under its credit facility and for general partnership purposes.

Sabine Biofuels

We have a 50% ownership interest in Sabine Biofuels, an unconsolidated VIE. This investment, accounted for using the equity method of accounting, had a carrying amount of \$10.6 million at June 30, 2014 and is classified as a noncurrent asset under "Intangibles and other" in our consolidated balance sheets.

NOTE 3: Financial Instruments

Our financial instruments consist of cash and cash equivalents, investments in marketable securities, accounts receivable, accounts payable, debt and derivative instruments. The carrying amounts of cash and cash equivalents, accounts receivable and accounts payable approximate fair value. HEP's outstanding credit agreement borrowings also approximate fair value as interest rates are reset frequently at current interest rates.

Fair value measurements are derived using inputs (assumptions that market participants would use in pricing an asset or liability, including assumptions about risk). GAAP categorizes inputs used in fair value measurements into three broad levels as follows:

• Level 1) Quoted prices in active markets for identical assets or liabilities.

(Level 2) Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, similar assets and liabilities in markets that are not active or can be corroborated by observable market data.

• Level 3) Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes valuation techniques that involve significant unobservable inputs.

Total liabilities	\$688,416	\$721,732	\$3,569	\$675,873	\$42,290

Level 1 Financial Instruments

Our NYMEX futures contracts are exchange traded and are measured and recorded at fair value using quoted market prices, a Level 1 input.

Level 2 Financial Instruments

Investments in marketable securities and derivative instruments consisting of commodity price swaps and HEP's interest rate swaps are measured and recorded at fair value using Level 2 inputs. The fair values of the commodity price and interest rate swap contracts are based on the net present value of expected future cash flows related to both variable and fixed rate legs of the respective swap agreements. The measurements are computed using market-based observable inputs, quoted forward commodity prices with respect to our commodity price swaps and the forward London Interbank Offered Rate ("LIBOR") yield curve with respect to HEP's interest rate swaps. The fair value of the marketable securities and senior notes is based on values provided by a third-party, which were derived using market quotes for similar type instruments, a Level 2 input.

Table of Contents

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

Level 3 Financial Instruments

We have commodity price swap contracts that relate to forecasted sales of diesel and unleaded gasoline and forecasted purchases of WCS for which quoted forward market prices are not readily available. The forward rate used to value these price swaps is derived using a projected forward rate using quoted market rates for similar products, adjusted for regional pricing and grade differentials, a Level 3 input.

The following table presents the changes in fair value of our Level 3 assets and liabilities (all related to derivative instruments) for the three and six months ended June 30, 2014 and 2013:

Level 3 Financial Instruments	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands)			
Liability balance at beginning of period	\$(22,473) \$(6,249) \$(35,318) \$(33,658
Change in fair value:				
Recognized in other comprehensive income	(90,559) 50,615	(112,695) 1,413
Recognized in cost of products sold	(7,084) 3,662	1,885	47,222
Settlement date fair value of contractual maturities:				
Recognized in sales and other revenues	48,942	(3,868) 74,273	15,316
Recognized in cost of products sold	(4,463) (7,034) (3,782) 6,833
Asset (liability) balance at end of period	\$(75,637) \$37,126	\$(75,637) \$37,126

A hypothetical change of 10% to the estimated future cash flows attributable to our Level 3 commodity price swaps would result in an estimated fair value change of \$7.5 million.

NOTE 4: Earnings Per Share

Basic earnings per share is calculated as net income attributable to HollyFrontier stockholders divided by the average number of shares of common stock outstanding. Diluted earnings per share assumes, when dilutive, the issuance of the net incremental shares from restricted shares and performance share units. The following is a reconciliation of the components of the basic and diluted per share computations for net income attributable to HollyFrontier stockholders:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands, except per share data)			
Net income attributable to HollyFrontier stockholders	\$176,429	\$256,981	\$328,490	\$590,650
Participating securities' share in earnings	475	917	945	2,201
Net income attributable to common shares	\$175,954	\$256,064	\$327,545	\$588,449
Average number of shares of common stock outstanding	198,139	201,543	198,217	202,131
Effect of dilutive variable restricted shares and performance share units ⁽¹⁾	241	362	191	354
Average number of shares of common stock outstanding assuming dilution	198,380	201,905	198,408	202,485
Basic earnings per share	\$0.89	\$1.27	\$1.65	\$2.91

Edgar Filing: HollyFrontier Corp - Form 10-Q

Diluted earnings per share	\$0.89	\$1.27	\$1.65	\$2.91
(1) Excludes anti-dilutive restricted and performance share units of:	26	232	2	248

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

NOTE 5: Stock-Based Compensation

As of June 30, 2014, we have two principal share-based compensation plans (collectively, the “Long-Term Incentive Compensation Plan”).

The compensation cost charged against income for these plans was \$6.8 million and \$7.9 million for the three months ended June 30, 2014 and 2013, respectively, and \$12.2 million and \$15.3 million for the six months ended June 30, 2014 and 2013, respectively. Our accounting policy for the recognition of compensation expense for awards with pro-rata vesting is to expense the costs ratably over the vesting periods.

Additionally, HEP maintains a share-based compensation plan for Holly Logistic Services, L.L.C.'s non-employee directors and certain executives and employees. Compensation cost attributable to HEP's share-based compensation plan was \$0.8 million and \$0.8 million for the three months ended June 30, 2014 and 2013, respectively, and \$1.7 million and \$1.9 million for the six months ended June 30, 2014 and 2013, respectively.

Restricted Stock and Restricted Stock Units

Under our Long-Term Incentive Compensation Plan, we grant certain officers and other key employees restricted stock and restricted stock unit awards with awards generally vesting over a period of one to three years. Restricted stock award recipients are generally entitled to all the rights of absolute ownership of the restricted shares from the date of grant including the right to vote the shares and to receive dividends. Upon vesting, restrictions on the restricted shares lapse at which time they convert to common shares. In addition, we grant non-employee directors restricted stock unit awards, which typically vest over a period of one year and are payable in stock. The fair value of each restricted stock and restricted stock unit award is measured based on the grant date market price of our common shares and is amortized over the respective vesting period.

A summary of restricted stock and restricted stock unit activity and changes during the six months ended June 30, 2014 is presented below:

Restricted Stock and Restricted Stock Units	Grants	Weighted Average Grant Date Fair Value	Aggregate Intrinsic Value (\$000)
Outstanding at January 1, 2014 (non-vested)	737,562	\$39.54	
Granted	70,243	48.22	
Vesting (transfer/conversion to common stock)	(103,586)) 33.71	
Forfeited	(72,697)) 42.24	
Outstanding at June 30, 2014 (non-vested)	631,522	\$41.15	\$27,591

For the six months ended June 30, 2014, 103,586 restricted stock and restricted stock units vested having a grant date fair value of \$3.5 million. As of June 30, 2014, there was \$13.1 million of total unrecognized compensation cost related to non-vested restricted stock and restricted stock unit grants. That cost is expected to be recognized over a weighted-average period of 1.2 years.

Performance Share Units

Under our Long-Term Incentive Compensation Plan, we grant certain officers and other key employees performance share units, which are payable in stock upon meeting certain criteria over the service period, and generally vest over a

period of three years. Under the terms of our performance share unit grants, awards are subject to both a “financial performance” and “market performance” criteria. Financial performance is based on our financial performance compared to an equally-weighted peer group of independent refining companies, while market performance is based on total shareholder return achieved by HollyFrontier stockholders compared with the average shareholder return achieved by shareholders of peer group companies. The number of shares ultimately issued under these awards can range from zero to 200%. As of June 30, 2014, estimated share payouts for outstanding non-vested performance share unit awards averaged approximately 100% of the initial target award.

Table of Contents

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

A summary of performance share unit activity and changes during the six months ended June 30, 2014 is presented below:

Performance Share Units	Grants	
Outstanding at January 1, 2014 (non-vested)	983,610	
Granted	26,493	
Vesting and transfer of ownership to recipients	(181,290))
Forfeited	(108,182))
Outstanding at June 30, 2014 (non-vested)	720,631	

For the six months ended June 30, 2014, we issued 172,231 shares of our common stock, representing a 95% payout on vested performance shares units having a grant date fair value of \$5.9 million. Based on the weighted-average grant date fair value of \$40.55 per share, there was \$19.5 million of total unrecognized compensation cost related to non-vested performance share units as of June 30, 2014. That cost is expected to be recognized over a weighted-average period of 1.5 years.

NOTE 6: Cash and Cash Equivalents and Investments in Marketable Securities

Our investment portfolio at June 30, 2014 consisted of cash, cash equivalents and investments in marketable securities.

We currently invest in marketable debt securities with the maximum maturity or put date of any individual issue generally not greater than one year from the date of purchase, which are usually held until maturity. All of these instruments are classified as available-for-sale. As a result, they are reported at fair value using quoted market prices. Interest income is recorded as earned. Unrealized gains and losses, net of related income taxes, are reported as a component of accumulated other comprehensive income. Upon sale or maturity, realized gains on our marketable debt securities are recognized as interest income. These gains are computed based on the specific identification of the underlying cost of the securities, net of unrealized gains and losses previously reported in other comprehensive income. Unrealized gains and losses on our available-for-sale securities are due to changes in market prices and are considered temporary.

The following is a summary of our marketable securities:

	Amortized Cost (In thousands)	Gross Unrealized Gain	Gross Unrealized Loss	Fair Value (Net Carrying Amount)
June 30, 2014				
Certificates of deposit	\$79,704	\$15	\$(3)) \$79,716
Commercial paper	76,670	16	—) 76,686
Corporate debt securities	146,455	34	(18)) 146,471
State and political subdivisions debt securities	376,789	29	(23)) 376,795
Total marketable securities	\$679,618	\$94	\$(44)) \$679,668

December 31, 2013

Edgar Filing: HollyFrontier Corp - Form 10-Q

Certificates of deposit	\$74,802	\$21	\$(1) \$74,822
Commercial paper	78,216	28	—	78,244
Corporate debt securities	96,889	6	(44) 96,851
State and political subdivisions debt securities	475,235	49	(41) 475,243
Total marketable securities	\$725,142	\$104	\$(86) \$725,160

Interest income recognized on our marketable securities was \$0.6 million and \$0.6 million for the three months ended June 30, 2014 and 2013, respectively, and \$1.2 million and \$1.1 million for the six months ended June 30, 2014 and 2013, respectively.

Table of Contents

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

NOTE 7: Inventories

Inventory consists of the following components:

	June 30, 2014 (In thousands)	December 31, 2013
Crude oil	\$628,215	\$567,281
Other raw materials and unfinished products ⁽¹⁾	186,892	154,534
Finished products ⁽²⁾	609,453	519,633
Process chemicals ⁽³⁾	4,470	3,504
Repair and maintenance supplies and other	75,802	109,295
Total inventory	\$1,504,832	\$1,354,247

(1) Other raw materials and unfinished products include feedstocks and blendstocks, other than crude.

(2) Finished products include gasolines, jet fuels, diesels, lubricants, asphalts, LPG's and residual fuels.

(3) Process chemicals include additives and other chemicals.

NOTE 8: Environmental

We expensed \$1.0 million and \$0.6 million for the three months ended June 30, 2014 and 2013, respectively, and \$1.3 million and \$0.8 million, for the six months ended June 30, 2014 and 2013, respectively, for environmental remediation obligations. The accrued environmental liability reflected in our consolidated balance sheets was \$84.5 million and \$87.8 million at June 30, 2014 and December 31, 2013, respectively, of which \$69.5 million and \$73.6 million, respectively, were classified as other long-term liabilities. These accruals include remediation and monitoring costs expected to be incurred over an extended period of time (up to 30 years for certain projects).

NOTE 9: Debt

HollyFrontier Credit Agreement

At June 30, 2014, we were in compliance with all covenants, had no outstanding borrowings and had outstanding letters of credit totaling \$4.5 million under our \$1 billion senior secured revolving credit agreement maturing in July 2016. On July 1, 2014, we terminated this credit agreement and contemporaneously entered into a new \$1 billion senior unsecured revolving credit facility maturing July 1, 2019 (the "HollyFrontier Credit Agreement"), which may be used for revolving credit loans (including up to \$100 million of swingline loans) and letters of credit from time to time. The HollyFrontier Credit Agreement is available to fund general corporate purposes. Indebtedness under the HollyFrontier Credit Agreement is recourse to HollyFrontier and guaranteed by certain of our wholly-owned subsidiaries.

HEP Credit Agreement

HEP has a \$650 million senior secured revolving credit facility that matures in November 2018 (the "HEP Credit Agreement") and is available to fund capital expenditures, investments, acquisitions, distribution payments and working capital and for general partnership purposes. It is also available to fund letters of credit up to a \$50 million sub-limit. At June 30, 2014, HEP was in compliance with all of its covenants, had outstanding borrowings of \$543.0

million and no outstanding letters of credit under the HEP Credit Agreement.

HEP's obligations under the HEP Credit Agreement are collateralized by substantially all of HEP's assets (presented parenthetically in our consolidated balance sheets). Indebtedness under the HEP Credit Agreement involves recourse to HEP Logistics Holdings, L.P., its general partner, and is guaranteed by HEP's wholly-owned subsidiaries. Any recourse to the general partner would be limited to the extent of HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP are not significant. HEP's creditors have no recourse to our other assets. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries.

Table of Contents

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

HollyFrontier Senior Notes

Our 6.875% senior notes (\$150 million aggregate principal amount maturing November 2018) (the “HollyFrontier Senior Notes”) are unsecured and impose certain restrictive covenants, including limitations on our ability to incur additional debt, incur liens, enter into sale-and-leaseback transactions, pay dividends, enter into mergers, sell assets and enter into certain transactions with affiliates. Additionally, we have certain redemption rights under the HollyFrontier Senior Notes.

At any time, following notice to the trustee, that the HollyFrontier Senior Notes are rated investment grade by both Moody's and Standard & Poor's and no default or event of default exists, we are not subject to many of the foregoing covenants (a "Covenant Suspension"). As of June 30, 2014, the HollyFrontier Senior Notes were rated investment grade by both Standard & Poor's (BBB-) and Moody's (Baa3). As a result, we are under the Covenant Suspension pursuant to the terms of the indenture governing the HollyFrontier Senior Notes.

In June 2013, we redeemed our \$286.8 million aggregate principal amount of 9.875% senior notes maturing June 2017 at a redemption cost of \$301.0 million, at which time we recognized a \$22.1 million early extinguishment loss consisting of a \$14.2 million debt redemption premium and an unamortized discount of \$7.9 million.

HollyFrontier Financing Obligation

We have a financing obligation that relates to a sale and lease-back of certain crude oil tankage that we sold to an affiliate of Plains All American Pipeline, L.P. (“Plains”) in October 2009 for \$40.0 million. Monthly lease payments are recorded as a reduction in principal over the 15-year lease term ending in 2024.

HEP Senior Notes

HEP's 6.5% senior notes (\$300 million aggregate principal amount maturing March 2020) (the “HEP Senior Notes”) are unsecured and impose certain restrictive covenants, including limitations on HEP's ability to incur additional indebtedness, make investments, sell assets, incur certain liens, pay distributions, enter into transactions with affiliates, and enter into mergers. At any time when the HEP Senior Notes are rated investment grade by both Moody's and Standard & Poor's and no default or event of default exists, HEP will not be subject to many of the foregoing covenants. Additionally, HEP has certain redemption rights under the HEP Senior Notes.

In March 2014, HEP redeemed its \$150.0 million aggregate principal amount of 8.25% senior notes maturing March 2018 at a redemption cost of \$156.2 million, at which time HEP recognized a \$7.7 million early extinguishment loss consisting of a \$6.2 million debt redemption premium and unamortized discount and financing costs of \$1.5 million. HEP funded the redemption with borrowings under the HEP Credit Agreement.

Indebtedness under the HEP Senior Notes involves recourse to HEP Logistics Holdings, L.P., its general partner, and is guaranteed by HEP's wholly-owned subsidiaries. However, any recourse to the general partner would be limited to the extent of HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP, are not significant. HEP's creditors have no recourse to our other assets. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries.

We capitalized interest attributable to construction projects of \$3.1 million and \$3.0 million for the three months ended June 30, 2014 and 2013, respectively, and \$6.0 million and \$6.4 million for the six months ended June 30, 2014 and 2013, respectively.

NOTE 10: Derivative Instruments and Hedging Activities

Commodity Price Risk Management

Our primary market risk is commodity price risk. We are exposed to market risks related to the volatility in crude oil and refined products, as well as volatility in the price of natural gas used in our refining operations. We periodically enter into derivative contracts in the form of commodity price swaps and futures contracts to mitigate price exposure with respect to:

- our inventory positions;
- natural gas purchases;
- costs of crude oil and related grade differentials;
- prices of refined products; and
- our refining margins.

Accounting Hedges

We have swap contracts serving as cash flow hedges against price risk on forecasted purchases of natural gas and WTI crude oil and forecasted sales of ultra-low sulfur diesel and conventional unleaded gasoline. We also have forward sales contracts that lock in the prices of future sales of refined product. These contracts have been designated as accounting hedges and are measured at fair value with offsetting adjustments (gains/losses) recorded directly to other comprehensive income. These fair value adjustments are later reclassified to earnings as the hedging instruments mature. On a quarterly basis, hedge ineffectiveness is measured by comparing the change in fair value of the swap contracts against the expected future cash inflows/outflows on the respective transaction being hedged. Any hedge ineffectiveness is also recognized in earnings.

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

In 2013, we dedesignated certain commodity price swaps (long positions) that previously received hedge accounting treatment. These contracts now serve as economic hedges against price risk on forecasted natural gas purchases totaling 33,600,000 MMBTU's to be purchased ratably through 2017. As of June 30, 2014, we have an unrealized loss of \$3.8 million classified in accumulated other comprehensive income that relates to the application of hedge accounting prior to dedesignation that is amortized as a charge to operating expenses as the contracts mature.

Economic Hedges

We also have swap contracts that serve as economic hedges (derivatives used for risk management, but not designated as accounting hedges) to fix our purchase price on forecasted natural gas purchases, and to lock in the spread between WCS and WTI crude oil on forecasted purchases of WCS. Also, we have NYMEX futures contracts to lock in prices on forecasted purchases of inventory. These contracts are measured at fair value with offsetting adjustments (gains/losses) recorded directly to income.

The following table presents the pre-tax effect on income due to maturities and fair value adjustments of our economic hedges:

Location of Gain (Loss) Recognized in Income	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013

Total	\$(24,572)) \$1,531	\$(24,594)) \$30,130

As of June 30, 2014, we have the following notional contract volumes related to our outstanding derivative contracts serving as economic hedges:

Derivative Instrument	Total Outstanding Notional	Notional Contract Volumes by Year of Maturity				Unit of Measure
		2014	2015	2016	2017	
Commodity price swap (WCS spread) - long	3,220,000	3,220,000	—	—	—	Barrels
Commodity price swap (natural gas) - long	33,600,000	4,800,000	9,600,000	9,600,000	9,600,000	MMBTU
Commodity price swap (natural gas) - short	33,600,000	4,800,000	9,600,000	9,600,000	9,600,000	MMBTU
NYMEX futures (WTI) - short	2,935,000	2,935,000	—	—	—	Barrels

Interest Rate Risk Management

HEP uses interest rate swaps to manage its exposure to interest rate risk.

As of June 30, 2014, HEP had three interest rate swap contracts that hedge its exposure to the cash flow risk caused by the effects of LIBOR changes on \$305.0 million in credit agreement advances. The first interest rate swap effectively converts \$155.0 million of LIBOR based debt to fixed-rate debt having an interest rate of 0.99% plus an applicable margin of 2.00% as of June 30, 2014, which equaled an effective interest rate of 2.99%. This swap matures in

February 2016. HEP has two additional interest rate swaps with identical terms which effectively convert \$150.0 million of LIBOR based debt to fixed rate debt having an interest rate of 0.74% plus an applicable margin of 2.00% as of June 30, 2014, which equaled an effective interest rate of 2.74%. Both of these swap contracts mature in July 2017. All of these swap contracts have been designated as cash flow hedges. To date, there has been no ineffectiveness on these cash flow hedges.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

At June 30, 2014, we had a pre-tax net unrealized gain of \$77.5 million classified in accumulated other comprehensive income that relates to all accounting hedges having contractual maturities through 2017. Assuming commodity prices and interest rates remain unchanged, an unrealized gain of \$81.9 million will be effectively transferred from accumulated other comprehensive income into the statement of income as the hedging instruments contractually mature over the next twelve-month period.

NOTE 11: Equity

Changes to equity during the six months ended June 30, 2014 are presented below:

	HollyFrontier Stockholders' Equity (In thousands)	Noncontrolling Interest	Total Equity
Balance at December 31, 2013	\$5,999,620	\$609,778	\$6,609,398

Other	—	375	375
Balance at June 30, 2014	\$6,073,532	\$593,087	\$6,666,619

(1) Includes 92,048 shares withheld under the terms of stock-based compensation agreements to provide funds for the payment of payroll and income taxes due at the vesting of share-based awards.

We have a Board-approved repurchase program that authorizes us to repurchase common stock in the open market or through privately negotiated transactions. The timing and amount of stock repurchases will depend on market conditions, corporate, regulatory and other relevant considerations. This program may be discontinued at any time by the Board of Directors. As of June 30, 2014, we had remaining authorization to repurchase up to \$311.6 million under this stock repurchase program. In addition, we are authorized by our Board of Directors to repurchase shares in an amount sufficient to offset shares issued under our compensation programs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

Accumulated other comprehensive income (loss) in the equity section of our consolidated balance sheets includes:

	June 30, 2014	December 31, 2013
	(In thousands)	
Unrealized gain on post-retirement benefit obligations	\$27,637	\$27,691
Unrealized gain on marketable securities	32	10
Unrealized gain (loss) on hedging instruments, net of noncontrolling interest	47,771	(26,879)
Accumulated other comprehensive income	\$75,440	\$822

NOTE 13: Post-retirement Plans

We have a post-retirement healthcare and other benefits plan that is available to certain of our employees who satisfy certain age and service requirements. The net periodic benefit expense of this plan consisted of the following components:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands)			
Service cost – benefit earned during the period	\$224	\$278	\$448	\$556
Interest cost on projected benefit obligations	160	159	319	318
Amortization of prior service credit	(1,074)	(1,474)	(2,148)	(2,948)
Amortization of net loss	—	31	—	62
Loss on settlement	—	—	—	1,726
Net periodic post-retirement credit	\$(690)	\$(1,006)	\$(1,381)	\$(286)

In 2012, our Compensation Committee, pursuant to authority delegated to it by the Board of Directors, approved the termination of the HollyFrontier Corporation Pension Plan (the “Plan”), a non-contributory defined benefit retirement plan that covered certain employees and was fully frozen effective May 1, 2012. In the second quarter of 2013, the Plan was liquidated and we recognized a pre-tax pension settlement charge of \$30.9 million, of which \$29.0 million was reclassified out of accumulated other comprehensive income, representing the irrevocable portion of our obligation.

Additionally, we have a program that provides certain transition benefit payments to certain employees that participated in the defined benefit plan that was terminated. The program extends through 2014 and provides payments after year-end provided the employee is employed by us on the last day of each year. The payments are based on each employee's years of service and eligible salary. Transition benefit costs under this program were \$2.9 million and \$2.9 million for the three months ended June 30, 2014 and 2013, respectively, and \$5.5 million and \$5.8 million for the six months ended June 30, 2014 and 2013, respectively.

NOTE 14: Contingencies

We are a party to various litigation and legal proceedings which we believe, based on advice of counsel, will not either individually or in the aggregate have a material adverse effect on our financial condition, results of operations or cash flows.

HOLLYFRONTIER CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited) Continued

NOTE 15: Segment Information

Our operations are organized into two reportable segments, Refining and HEP. Our operations that are not included in the Refining and HEP segments are included in Corporate and Other. Intersegment transactions are eliminated in our consolidated financial statements and are included in Consolidations and Eliminations.

The Refining segment represents the operations of the El Dorado, Tulsa, Navajo, Cheyenne and Woods Cross Refineries and NK Asphalt (aggregated as a reportable segment). Refining activities involve the purchase and refining of crude oil and wholesale and branded marketing of refined products, such as gasoline, diesel fuel and jet fuel. These petroleum products are primarily marketed in the Mid-Continent, Southwest and Rocky Mountain regions of the United States. Additionally, the Refining segment includes specialty lubricant products produced at our Tulsa Refineries that are marketed throughout North America and are distributed in Central and South America. NK Asphalt operates various asphalt terminals in Arizona, New Mexico and Oklahoma.

The HEP segment includes all of the operations of HEP, a consolidated VIE, which owns and operates logistics assets consisting of petroleum product and crude oil pipelines and terminal, tankage and loading rack facilities in the Mid-Continent, Southwest and Rocky Mountain regions of the United States. The HEP segment also includes a 75% interest in UNEV (a consolidated subsidiary of HEP) and a 25% interest in the SLC Pipeline. Revenues from the HEP segment are earned through transactions with unaffiliated parties for pipeline transportation, rental and terminalling operations as well as revenues relating to pipeline transportation services provided for our refining operations. Due to certain basis differences, our reported amounts for the HEP segment may not agree to amounts reported in HEP's periodic public filings.

The accounting policies for our segments are the same as those described in the summary of significant accounting policies in our Annual Report on Form 10-K for the year ended December 31, 2013.

HEP segment revenues from external customers were \$10.5 million and \$12.1 million for the three months ended June 30, 2014 and 2013, respectively, and \$25.7 million and \$24.9 million for the six months ended June 30, 2014 and 2013, respectively.

NOTE 16: Supplemental Guarantor/Non-Guarantor Financial Information

Our obligations under the HollyFrontier Senior Notes have been jointly and severally guaranteed by the substantial majority of our existing and future restricted subsidiaries (“Guarantor Restricted Subsidiaries”). These guarantees are full and unconditional. HEP, in which we have a 39% ownership interest at June 30, 2014, and its subsidiaries (collectively, “Non-Guarantor Non-Restricted Subsidiaries”), and certain of our other subsidiaries (“Non-Guarantor Restricted Subsidiaries”) have not guaranteed these obligations.

The following condensed consolidating financial information is provided for HollyFrontier Corporation (the “Parent”), the Guarantor Restricted Subsidiaries, the Non-Guarantor Restricted Subsidiaries and the Non-Guarantor Non-Restricted Subsidiaries. The information has been presented as if the Parent accounted for its ownership in the Guarantor Restricted Subsidiaries, and the Guarantor Restricted Subsidiaries accounted for the ownership of the Non-Guarantor Restricted Subsidiaries and Non-Guarantor Non-Restricted Subsidiaries, using the equity method of accounting. The Guarantor Restricted Subsidiaries and the Non-Guarantor Restricted Subsidiaries are collectively the “Restricted Subsidiaries.”

We have made certain revisions to our prior year condensed statements of cash flows to reclassify intercompany lending and distribution activity between operating, investing and financing activities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Item 2 contains “forward-looking” statements. See “Forward-Looking Statements” at the beginning of Part I of this Quarterly Report on Form 10-Q. References herein to HollyFrontier Corporation (“HollyFrontier”) include HollyFrontier and its consolidated subsidiaries. In accordance with the Securities and Exchange Commission’s (“SEC”) “Plain English” guidelines, this Quarterly Report on Form 10-Q has been written in the first person. In this document, the words “we,” “our,” “ours” and “us” refer only to HollyFrontier and its consolidated subsidiaries or to HollyFrontier or an individual subsidiary and not to any other person, with certain exceptions. Generally, the words “we,” “our,” “ours” and “us” include Holly Energy Partners, L.P. (“HEP”) and its subsidiaries as consolidated subsidiaries of HollyFrontier, unless when used in disclosures of transactions or obligations between HEP and HollyFrontier or its other subsidiaries. This document contains certain disclosures of agreements that are specific to HEP and its consolidated subsidiaries and do not necessarily represent obligations of HollyFrontier. When used in descriptions of agreements and transactions, “HEP” refers to HEP and its consolidated subsidiaries.

OVERVIEW

We are principally an independent petroleum refiner that produces high-value refined products such as gasoline, diesel fuel, jet fuel, specialty lubricant products, and specialty and modified asphalt. We own and operate refineries having a combined crude oil processing capacity of 443,000 barrels per day that serve markets throughout the Mid-Continent, Southwest and Rocky Mountain regions of the United States. Our refineries are located in El Dorado, Kansas (the “El Dorado Refinery”), Tulsa, Oklahoma (the, “Tulsa Refineries”), which comprise two production facilities, the Tulsa West and East facilities, a petroleum refinery in Artesia, New Mexico, which operates in conjunction with crude, vacuum distillation and other facilities situated 65 miles away in Lovington, New Mexico (collectively, the “Navajo Refinery”), Cheyenne, Wyoming (the, “Cheyenne Refinery”) and Woods Cross, Utah (the “Woods Cross Refinery”).

For the three months ended June 30, 2014, net income attributable to HollyFrontier stockholders was \$176.4 million compared to \$257.0 million for the three months ended June 30, 2013. For the six months ended June 30, 2014, net income attributable to HollyFrontier stockholders was \$328.5 million compared to \$590.7 million for the six months ended June 30, 2013.

Overall gross refining margins per produced product sold decreased 28% and 33% over the respective three and six months ended June 30, 2013, which was due principally to significant contraction in WTI to Brent crude differentials.

During the second quarter of 2014, we wrote down several assets, primarily at our Navajo, Cheyenne and Tulsa refineries, to the estimated net realizable value resulting in pretax charges of \$31.0 million. These charges resulted from our decision to sell, cease operating or no longer use certain assets. Approximately \$24.0 million and \$7.0 million are included in depreciation and amortization and operating expenses, respectively, in our consolidated statements of income for the three and six months ended June 30, 2014.

OUTLOOK

Our profitability is affected by the spread, or differential, between the market prices for crude oil on the world market (which is based on the price for Brent, North Sea Crude) and the price for inland U.S. crude oil (which is based on the price for WTI). This differential constantly changes and at times can be volatile. While we have experienced wide differentials (with Brent prices in excess of WTI prices) in recent years that have significantly enhanced our profitability, the differential between Brent and WTI has narrowed - currently averaging approximately \$7.00 per barrel. While differentials are likely to be volatile in the near term, we believe the Brent to WTI differential will widen

again upon completion of additional northern tier pipeline capacity into Cushing, Oklahoma and as a result of increasing sweet crude oil inventories on the U.S. Gulf Coast. Ultimately, we believe pipeline tariffs from Cushing to the Gulf Coast plus marine transportation costs to move crude oil from the Gulf Coast to alternative markets will set the inland - coastal differential.

Table of Content

Pursuant to the 2007 Energy Independence and Security Act, the Environmental Protection Agency (“EPA”) promulgated the Renewable Fuel Standard 2 (“RFS2”) regulations, which increased the volume of renewable fuels mandated to be blended into the nation's fuel supply. The regulations, in part, require refiners to add annually increasing amounts of “renewable fuels” to their petroleum products or purchase credits, known as renewable identification numbers (“RINs”), in lieu of such blending. The price of RINs may be extremely volatile as observed in 2013, when prices escalated sharply due to real or perceived future shortages in RINs. Although our RINs costs remain material, the price of RINs has decreased significantly from 2013 highs, due in part to regulatory easing of the 2014 annual Renewable Volume Obligation, or RVO. As of June 2014, we are purchasing RINs in order to meet approximately half of our renewable fuel requirements. We cannot predict with certainty our exposure to increased RINs costs in the future, nor can we predict the extent by which costs associated with RFS2 will impact our future results of operations.

A more detailed discussion of our financial and operating results for the three and six months ended June 30, 2014 and 2013 is presented in the following sections.

Table of Content

Earnings before interest, taxes, depreciation and amortization, which we refer to as “EBITDA”, is calculated as net income plus (i) interest expense, net of interest income, (ii) income tax provision, and (iii) depreciation and amortization. EBITDA is not a calculation provided for under GAAP; however, the amounts included in the EBITDA calculation are derived from amounts included in our consolidated financial statements. EBITDA should not be considered as an alternative to net income or operating income as an indication of our operating performance or as an alternative to operating cash flow as a measure of liquidity. EBITDA is not necessarily comparable to similarly titled measures of other companies. EBITDA is presented here because it is a widely used financial indicator used by investors and analysts to measure performance. EBITDA is also used by our management for internal analysis and as a basis for financial covenants. EBITDA presented above is reconciled to net income under “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q.

Our operations are organized into two reportable segments, Refining and HEP. See Note 15 “Segment Information” in the Notes to Consolidated Financial Statements for additional information on our reportable segments.

Refining Operating Data (Unaudited)

Our refinery operations include the El Dorado, Tulsa, Navajo, Cheyenne and Woods Cross Refineries. The following tables set forth information, including non-GAAP performance measures, about our consolidated refinery operations. The cost of products and refinery gross and net operating margins do not include the effect of depreciation and amortization. Reconciliations to amounts reported under GAAP are provided under “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q.

Edgar Filing: HollyFrontier Corp - Form 10-Q

Total	100	% 100	% 100	% 100	%
-------	-----	-------	-------	-------	---

- (1) Crude charge represents the barrels per day of crude oil processed at our refineries.
- (2) Refinery throughput represents the barrels per day of crude and other refinery feedstocks input to the crude units and other conversion units at our refineries.
- (3) Refinery production represents the barrels per day of refined products yielded from processing crude and other refinery feedstocks through the crude units and other conversion units at our refineries.

41

Table of Content

- (4) Includes refined products purchased for resale.
- (5) Represents crude charge divided by total crude capacity (BPSD). Our consolidated crude capacity is 443,000 BPSD.
Represents average per barrel amount for produced refined products sold, which is a non-GAAP measure.
- (6) Reconciliations to amounts reported under GAAP are provided under “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q.
- (7) Transportation, terminal and refinery storage costs billed from HEP are included in cost of products.
- (8) Represents operating expenses of our refineries, exclusive of depreciation and amortization and pension settlement costs.
- (9) Represents refinery operating expenses, exclusive of depreciation and amortization and pension settlement costs, divided by refinery throughput.

Results of Operations – Three Months Ended June 30, 2014 Compared to Three Months Ended June 30, 2013

Summary

Net income attributable to HollyFrontier stockholders for the three months ended June 30, 2014 was \$176.4 million (\$0.89 per basic and diluted share), an \$80.6 million decrease compared to \$257.0 million (\$1.27 per basic and diluted share) for the three months ended June 30, 2013. Net income decreased due principally to a year-over-year decrease in second quarter refining margins. Refinery gross margins for the three months ended June 30, 2014 decreased to \$14.54 per produced barrel from \$20.28 for the three months ended June 30, 2013.

Sales and Other Revenues

Sales and other revenues increased 1% from \$5,298.8 million for the three months ended June 30, 2013 to \$5,372.6 million for the three months ended June 30, 2014 due to higher refined product sales volumes and a year-over-year increase in second quarter sales prices. The average sales price we received per produced barrel sold was \$117.51 for the three months ended June 30, 2013 compared to \$118.53 for the three months ended June 30, 2014. Sales and other revenues for the three months ended June 30, 2014 and 2013 include \$10.5 million and \$12.1 million, respectively, in HEP revenues attributable to pipeline and transportation services provided to unaffiliated parties.

Cost of Products Sold

Cost of products sold increased 5% from \$4,456.8 million for the three months ended June 30, 2013 to \$4,674.8 million for the three months ended June 30, 2014, due principally to higher crude oil costs and higher sales volumes of refined products. The average price we paid per barrel for crude oil and feedstocks and the transportation costs of moving finished products to market increased 7% from \$97.23 for the three months ended June 30, 2013 to \$103.99 for the three months ended June 30, 2014.

Gross Refinery Margins

Gross refinery margin per produced barrel decreased 28% from \$20.28 for the three months ended June 30, 2013 to \$14.54 for the three months ended June 30, 2014. This was due to the effects of an increase in crude oil and feedstock prices, partially offset by an increase in average per barrel sales prices for refined products sold for the quarter. Gross refinery margin does not include the effects of depreciation and amortization. See “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q for a reconciliation to the income statement of prices of refined products sold and cost of products purchased.

Operating Expenses

Operating expenses, exclusive of depreciation and amortization, decreased 2% from \$277.5 million for the three months ended June 30, 2013 to \$271.7 million for the three months ended June 30, 2014. This decrease is principally due to the recognition of pension settlement costs during the three months ended June 30, 2013, net of higher natural

gas fuel costs during the current year quarter.

General and Administrative Expenses

General and administrative expenses decreased 17% from \$34.0 million for the three months ended June 30, 2013 to \$28.4 million for the three months ended June 30, 2014 due principally to lower incentive compensation expense during the quarter.

Depreciation and Amortization Expenses

Depreciation and amortization increased 44% from \$70.5 million for the three months ended June 30, 2013 to \$101.4 million for the three months ended June 30, 2014. The increase was due principally to depreciation and amortization attributable to capitalized improvement projects, capitalized refinery turnaround costs and \$24.0 million in current quarter write-downs of assets no longer in operation to net realizable value.

Table of Content

Interest Income

Interest income for the three months ended June 30, 2014 was \$1.2 million compared to \$0.8 million for the three months ended June 30, 2013. This increase was due to higher investment levels in marketable debt securities during the quarter.

Interest Expense

Interest expense was \$10.1 million for the three months ended June 30, 2014 compared to \$19.8 million for the three months ended June 30, 2013. This decrease was due to lower year-over-year debt levels principally as a result of the redemption of our \$286.8 million 9.875% senior notes in June 2013 and HEP's redemption of its \$150.0 million 8.25% senior notes in March 2014. For the three months ended June 30, 2014 and 2013, interest expense included \$8.3 million and \$11.6 million, respectively, in interest costs attributable to limited recourse debt that finances HEP operations.

Loss on Early Extinguishment of Debt

In June 2013, we redeemed our \$286.8 million aggregate principal amount of 9.875% senior notes maturing June 2017 at a redemption cost of \$301.0 million, at which time we recognized a \$22.1 million early extinguishment loss consisting of a \$14.2 million debt redemption premium and an unamortized discount of \$7.9 million.

Income Taxes

For the three months ended June 30, 2014, we recorded income tax expense of \$101.3 million compared to \$152.0 million for the three months ended June 30, 2013. This decrease is due principally to lower pre-tax earnings during the three months ended June 30, 2014 compared to the same period of 2013. Our effective tax rates, before consideration of earnings attributable to the noncontrolling interest, were 35.4% and 36.4% for the three months ended June 30, 2014 and 2013, respectively.

Results of Operations – Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

Summary

Net income attributable to HollyFrontier stockholders for the six months ended June 30, 2014 was \$328.5 million (\$1.65 per basic and diluted share), a \$262.2 million decrease compared to \$590.7 million (\$2.91 per basic and diluted share) for the six months ended June 30, 2013. Net income decreased due principally to a year-over-year decrease in refining margins. Refinery gross margins for the six months ended June 30, 2014 decreased to \$14.63 per produced barrel from \$21.77 for the six months ended June 30, 2013.

Sales and Other Revenues

Sales and other revenues increased 2% from \$10,006.6 million for the six months ended June 30, 2013 to \$10,163.7 million for the six months ended June 30, 2014 due to higher refined product sales volumes, partially offset by a slight decrease in year-over-year sales prices. The average sales price we received per produced barrel sold was \$116.77 for the six months ended June 30, 2013 compared to \$116.13 for the six months ended June 30, 2014. Sales and other revenues for the six months ended June 30, 2014 and 2013 include \$25.7 million and \$24.9 million, respectively, in HEP revenues attributable to pipeline and transportation services provided to unaffiliated parties.

Cost of Products Sold

Cost of products sold increased 7% from \$8,249.3 million for the six months ended June 30, 2013 to \$8,813.5 million for the six months ended June 30, 2014 due principally to higher refined product sales volumes and higher crude costs per barrel for the current year. The average price we paid per barrel for crude oil and feedstocks and the transportation costs of moving the finished products to the market place increased 7% from \$95.00 for the six months ended June 30,

2013 to \$101.50 for the six months ended June 30, 2014.

Gross Refinery Margins

Gross refinery margin per produced barrel decreased 33% from \$21.77 for the six months ended June 30, 2013 to \$14.63 for the six months ended June 30, 2014. This was due to a decrease in average per barrel sales prices for refined products sold combined with increased crude oil and feedstock prices for the year-to-date period. Gross refinery margin does not include the effects of depreciation and amortization. See “Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles” following Item 3 of Part I of this Form 10-Q for a reconciliation to the income statement of prices of refined products sold and cost of products purchased.

Table of Content

Operating Expenses

Operating expenses, exclusive of depreciation and amortization, increased 1% from \$542.6 million for the six months ended June 30, 2013 to \$545.6 million for the six months ended June 30, 2014 due principally to higher natural gas fuel costs during the current year-to-date period, partially offset by pension settlement costs and higher repair and maintenance costs during the same period of 2013.

General and Administrative Expenses

General and administrative expenses decreased 13% from \$63.2 million for the six months ended June 30, 2013 to \$55.3 million for the six months ended June 30, 2014 due principally to lower incentive compensation expense during the current year-to-date period, and pension settlement costs recorded in the prior year-to-date period.

Depreciation and Amortization Expenses

Depreciation and amortization increased 28% from \$142.3 million for the six months ended June 30, 2013 to \$181.9 million for the six months ended June 30, 2014. The increase was due principally to depreciation and amortization attributable to capitalized improvement projects, capitalized refinery turnaround costs and write-downs of assets no longer in operation to net realizable value.

Interest Income

Interest income for the six months ended June 30, 2014 was \$2.6 million compared to \$2.3 million for the six months ended June 30, 2013. This increase was due to higher investment levels in marketable debt securities during the year-to-date period.

Interest Expense

Interest expense was \$22.5 million for the six months ended June 30, 2014 compared to \$41.1 million for the six months ended June 30, 2013. This decrease was due to lower year-over-year debt levels. For the six months ended June 30, 2014 and 2013, interest expense included \$18.8 million and \$24.1 million, respectively, in interest costs attributable to limited recourse debt that finances HEP operations.

Loss on Early Extinguishment of Debt

In March 2014, HEP redeemed its \$150.0 million aggregate principal amount of 8.25% senior notes maturing March 2018 at a redemption cost of \$156.2 million, at which time it recognized a \$7.7 million early extinguishment loss consisting of a \$6.2 million debt redemption premium and unamortized discount and financing costs of \$1.5 million. In June 2013, we redeemed our \$286.8 million aggregate principal amount of 9.875% senior notes maturing June 2017 at a redemption cost of \$301.0 million, at which time we recognized a \$22.1 million early extinguishment loss consisting of a \$14.2 million debt redemption premium and an unamortized discount of \$7.9 million.

Income Taxes

For the six months ended June 30, 2014, we recorded income tax expense of \$188.9 million compared to \$338.1 million for the six months ended June 30, 2013. This decrease was due principally to lower pre-tax earnings during the six months ended June 30, 2014 compared to the same period of 2013. Our effective tax rates, before consideration of earnings attributable to the noncontrolling interest, were 35.1% and 35.7% for the six months ended June 30, 2014 and 2013, respectively.

LIQUIDITY AND CAPITAL RESOURCES

HollyFrontier Credit Agreement

At June 30, 2014, we were in compliance with all covenants, had no outstanding borrowings and had outstanding letters of credit totaling \$4.5 million under our \$1 billion senior secured revolving credit agreement maturing in July

2016. On July 1, 2014, we terminated this credit agreement and contemporaneously entered into a new \$1 billion senior unsecured revolving credit facility maturing July 1, 2019 (the “HollyFrontier Credit Agreement”), which may be used for revolving credit loans (including up to \$100 million of swingline loans) and letters of credit from time to time. The HollyFrontier Credit Agreement is available to fund general corporate purposes. Indebtedness under the HollyFrontier Credit Agreement is recourse to HollyFrontier and guaranteed by certain of our wholly-owned subsidiaries.

HEP Credit Agreement

HEP has a \$650 million senior secured revolving credit facility that matures in November 2018 (the “HEP Credit Agreement”) and is available to fund capital expenditures, investments, acquisitions, distribution payments and working capital and for general partnership purposes. It is also available to fund letters of credit up to a \$50 million sub-limit. At June 30, 2014, HEP was in compliance with all of its covenants, had outstanding borrowings of \$543.0 million and no outstanding letters of credit under the HEP Credit Agreement.

Table of Content

HEP's obligations under the HEP Credit Agreement are collateralized by substantially all of HEP's assets (presented parenthetically in our consolidated balance sheets). Indebtedness under the HEP Credit Agreement involves recourse to HEP Logistics Holdings, L.P., its general partner, and is guaranteed by HEP's wholly-owned subsidiaries. Any recourse to the general partner would be limited to the extent of HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP, are not significant. HEP's creditors have no recourse to our other assets. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries.

HollyFrontier Senior Notes

Our 6.875% senior notes (\$150 million aggregate principal amount maturing November 2018) (the "HollyFrontier Senior Notes") are unsecured and impose certain restrictive covenants, including limitations on our ability to incur additional debt, incur liens, enter into sale-and-leaseback transactions, pay dividends, enter into mergers, sell assets and enter into certain transactions with affiliates. Additionally, we have certain redemption rights under the HollyFrontier Senior Notes.

At any time, following notice to the trustee, that the HollyFrontier Senior Notes are rated investment grade by both Moody's and Standard & Poor's and no default or event of default exists, we are not subject to many of the foregoing covenants (a "Covenant Suspension"). As of June 30, 2014, the HollyFrontier Senior Notes were rated investment grade by both Standard & Poor's (BBB-) and by Moody's (Baa3). As a result, we are under the Covenant Suspension pursuant to the terms of the indenture governing the HollyFrontier Senior Notes.

HollyFrontier Financing Obligation

We have a financing obligation that relates to a sale and lease-back of certain crude oil tankage that we sold to an affiliate of Plains All American Pipeline, L.P. ("Plains") in October 2009 for \$40.0 million. Monthly lease payments are recorded as a reduction in principal over the 15-year lease term ending in 2024.

HEP Senior Notes

HEP's 6.5% senior notes (\$300 million aggregate principal amount maturing March 2020) (the "HEP Senior Notes") are unsecured and impose certain restrictive covenants, including limitations on HEP's ability to incur additional indebtedness, make investments, sell assets, incur certain liens, pay distributions, enter into transactions with affiliates, and enter into mergers. At any time when the HEP Senior Notes are rated investment grade by both Moody's and Standard & Poor's and no default or event of default exists, HEP will not be subject to many of the foregoing covenants. Additionally, HEP has certain redemption rights under the HEP Senior Notes.

In March 2014, HEP redeemed its \$150.0 million aggregate principal amount of 8.25% senior notes maturing March 2018 at a redemption cost of \$156.2 million, at which time HEP recognized a \$7.7 million early extinguishment loss consisting of a \$6.2 million debt redemption premium and unamortized discount and financing costs of \$1.5 million. HEP funded the redemption with borrowings under the HEP Credit Agreement.

Indebtedness under the HEP Senior Notes involves recourse to HEP Logistics Holdings, L.P., its general partner, and is guaranteed by HEP's wholly-owned subsidiaries. However, any recourse to the general partner would be limited to the extent of HEP Logistics Holdings, L.P.'s assets, which other than its investment in HEP, are not significant. HEP's creditors have no recourse to our other assets. Furthermore, our creditors have no recourse to the assets of HEP and its consolidated subsidiaries.

Liquidity

We believe our current cash and cash equivalents, along with future internally generated cash flow and funds available under our credit facilities will provide sufficient resources to fund currently planned capital projects and our liquidity needs for the foreseeable future. In addition, components of our growth strategy include construction of new refinery

processing units and the expansion of existing units at our facilities and selective acquisition of complementary assets for our refining operations intended to increase earnings and cash flow.

As of June 30, 2014, our cash, cash equivalents and investments in marketable securities totaled \$1.8 billion. We consider all highly-liquid instruments with a maturity of three months or less at the time of purchase to be cash equivalents. Cash equivalents are stated at cost, which approximates market value. These primarily consist of investments in conservative, highly-rated instruments issued by financial institutions, government and corporate entities with strong credit standings and money market funds.

Table of Content

We have a Board-approved stock repurchase program that authorizes us to repurchase common stock in the open market or through privately negotiated transactions. The timing and amount of stock repurchases will depend on market conditions, corporate, regulatory and other relevant considerations. This program may be discontinued at any time by the Board of Directors. As of June 30, 2014, we had remaining authorization to repurchase up to \$311.6 million under this stock repurchase program. In addition, we are authorized by our Board of Directors to repurchase shares in an amount sufficient to offset shares issued under our compensation programs.

Cash and cash equivalents increased \$178.2 million for the six months ended June 30, 2014. Net cash provided by operating activities of \$721.5 million exceeded cash used for investing and financing activities of \$194.2 million and \$349.1 million, respectively. Working capital increased by \$46.5 million during the six months ended June 30, 2014.

Cash Flows – Operating Activities

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

Net cash flows provided by operating activities were \$721.5 million for the six months ended June 30, 2014 compared to \$451.5 million for the six months ended June 30, 2013, an increase of \$270.0 million. Net income for the six months ended June 30, 2014 was \$349.1 million, a decrease of \$260.0 million compared to \$609.1 million for the six months ended June 30, 2013. Non-cash adjustments to net income consisting of depreciation and amortization, earnings of equity method investments, inclusive of distributions, write-offs of unamortized discounts on early extinguishments of debt, deferred income taxes, equity-based compensation expense and fair value changes to derivative instruments totaled \$187.3 million for the six months ended June 30, 2014 compared to \$100.9 million for the same period in 2013. Changes in working capital items increased cash flows by \$190.0 million for the six months ended June 30, 2014 compared to a decrease of \$122.2 million for the six months ended June 30, 2013. Additionally, for the six months ended June 30, 2014, turnaround expenditures decreased to \$9.7 million from \$159.8 million for the same period of 2013.

Cash Flows – Investing Activities and Planned Capital Expenditures

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

Net cash flows used for investing activities were \$194.2 million for the six months ended June 30, 2014 compared to \$181.1 million for the six months ended June 30, 2013, an increase of \$13.1 million. Cash expenditures for properties, plants and equipment for the first six months of 2014 increased to \$244.8 million from \$170.8 million for the same period in 2013. These include HEP capital expenditures of \$38.8 million and \$16.9 million for the six months ended June 30, 2014 and 2013, respectively. For the six months ended June 30, 2014 and 2013, we invested \$5.0 million and \$2.0 million, respectively, in Sabine Biofuels. In addition, we received total net repayments of \$10.0 million during the six months ended June 30, 2014 for amounts previously advanced under Sabine Biofuels' working capital facility. For the six months ended June 30, 2013, we advanced Sabine Biofuels \$13.7 million. Additionally, we received proceeds of \$5.8 million from the sale of property and equipment for the six months ended June 30, 2013. Also for the six months ended June 30, 2014 and 2013, we invested \$498.1 million and \$399.2 million, respectively, in marketable securities and received proceeds of \$543.6 million and \$398.8 million, respectively, from the sale or maturity of marketable securities.

Planned Capital Expenditures

HollyFrontier Corporation

Each year our Board of Directors approves our annual capital budget which includes specific projects that management is authorized to undertake. Additionally, when conditions warrant or as new opportunities arise, additional projects may be approved. The funds appropriated for a particular capital project may be expended over a period of several years, depending on the time required to complete the project. Therefore, our planned capital

expenditures for a given year consist of expenditures appropriated in that year's capital budget plus expenditures for projects appropriated in prior years which have not yet been completed. Our appropriated capital budget for 2014 is \$185.0 million including both sustaining capital and major capital projects. We expect to spend approximately \$400.0 million to \$450.0 million in cash for capital projects appropriated in 2014 and prior years. This spending is comprised of \$142.0 million to \$160.0 million at the Woods Cross Refinery, \$54.0 million to \$61.0 million at the Tulsa Refineries, \$85.0 million to \$96.0 million at the El Dorado Refinery, \$80.0 million to \$90.0 million at the Cheyenne Refinery, \$24.0 million to \$27.0 million at the Navajo Refinery and \$15.0 million to \$16.0 million for miscellaneous other projects. In addition, we expect to spend approximately \$77.0 million on refinery turnarounds. Refinery turnaround spending is amortized over the useful life of the turnaround.

Table of Content

A significant portion of our current capital spending is associated with compliance-oriented capital improvements. This spending is required due to existing consent decrees (for projects including FCC unit flue gas scrubbers and tail gas treatment units), federal fuels regulations (particularly, MSAT2 which mandates a reduction in the benzene content of blended gasoline), refinery waste water treatment improvements and other similar initiatives. Our refinery operations and related emissions are highly regulated at both federal and state levels, and we invest in our facilities as needed to remain in compliance with these standards. Additionally, when faced with new emissions or fuels standards, we seek to execute projects that facilitate compliance and also improve the operating costs and / or yields of associated refining processes.

El Dorado Refinery

Capital projects at the El Dorado Refinery include naphtha fractionation, an additional hydrogen plant and a Low-Nox addition to the FCC unit flue gas scrubber. They also include the installation of an FCC gasoline hydrotreater in order to meet Tier 3 gasoline requirements. Continuing project work is planned to include upgrades to the FCC unit to improve liquid yield, upgrades to the crude unit desalter and a new tail gas treatment unit to reduce air emissions in compliance with the El Dorado Refinery's existing EPA consent decree.

Tulsa Refineries

Capital spending for the Tulsa Refineries in 2014 includes previously approved capital appropriations for a gasoline-blending system and numerous infrastructure upgrades, including a project to improve FCC yields. Spending on maintenance capital items and general improvements continues at an elevated level at the Tulsa Refineries due to lower maintenance capital expenditures made prior to HollyFrontier's purchase of the facilities.

Navajo Refinery

The Navajo Refinery capital spending in 2014 will be principally directed toward previously approved capital appropriations as well as maintenance capital spending. Included among previously approved capital projects is a \$25.0 million upgrade to the Navajo Refinery's waste water treatment system.

Cheyenne Refinery

We are continuing with our previously approved plan to install a new hydrogen plant at the Cheyenne Refinery. The hydrogen plant, along with a now-completed naphtha fractionation project, is anticipated to allow us to reduce benzene content in Cheyenne gasoline production, while at the same time improving the refinery's overall liquid yields and light oils production. Previously appropriated projects still underway at Cheyenne include wastewater treatment plant improvements, a flue gas scrubber for the FCC unit to reduce air emissions and a redundant tail gas unit associated with the sulfur recovery process.

Woods Cross Refinery

Engineering and construction continue on our previously announced expansion project to increase planned processing capacity to 45,000 BPSD, at a cost currently expected to range between \$350.0 million and \$400.0 million. On November 18, 2013, the Utah Division of Air Quality issued a revised air quality permit (the "Approval Order") authorizing the expansion. On December 18, 2013, two local environmental groups filed an administrative appeal challenging the issuance of the Approval Order and seeking a stay of the Approval Order. On March 25, 2014, the administrative law judge ("ALJ") issued a recommendation to the Executive Director of the Utah Department of Environmental Quality (the "DEQ") recommending that the motion to stay the Approval Order be denied. On May 8, 2014, the Executive Director of the DEQ issued an order approving the ALJ's recommendation and denying the motion to stay the Approval Order. The environmental groups did not file an appeal of this denial. A final decision on the merits of the appeal will be made after briefing is completed. The expansion is expected to be completed in the fourth quarter of 2015. This project work includes a new rail loading rack for intermediates and finished products associated with refining waxy crude oil. Long lead equipment has been ordered and detailed engineering is substantially complete. The expansion, and expected completion timeline and cost, are subject to the Woods Cross

refinery successfully obtaining the Approval Order.

Regulatory compliance items or other presently existing or future environmental regulations / consent decrees could cause us to make additional capital investments beyond those described above and incur additional operating costs to meet applicable requirements, including those related to Federal Tier 3 gasoline standards.

Table of Content

HEP

Each year the Holly Logistic Services, L.L.C. board of directors approves HEP's annual capital budget, which specifies capital projects that HEP management is authorized to undertake. Additionally, at times when conditions warrant or as new opportunities arise, special projects may be approved. The funds allocated for a particular capital project may be expended over a period of several years, depending on the time required to complete the project. Therefore, HEP's planned capital expenditures for a given year consist of expenditures approved for capital projects included in its current year capital budget as well as, in certain cases, expenditures approved for capital projects in capital budgets for prior years. The 2014 HEP capital budget is comprised of \$7.3 million for maintenance capital expenditures and \$26.2 million for expansion capital expenditures. HEP expects to spend approximately \$52.0 million in cash for capital projects approved in 2014 plus those approved in prior years but not yet completed, such as the projects discussed below.

HEP is proceeding with the expansion of its crude oil transportation system in southeastern New Mexico in response to increased crude oil production in the area. The expansion should provide shippers with additional pipeline takeaway capacity to either common carrier pipeline stations for transportation to major crude oil markets or to our New Mexico refining facilities. To complete the project, HEP is converting an existing refined products pipeline to crude oil service, constructing several new pipeline segments, expanding an existing pipeline and building new truck unloading stations and crude storage capacity. Excluding the value of the existing pipeline to be converted, total capital expenditures are expected to cost between \$45.0 million and \$50.0 million. The project is expected to provide increased capacity of up to 100,000 BPD across HEP's system and is expected to be in full service by August 2014.

UNEV is proceeding with a project to enhance its product terminal in Las Vegas, Nevada. HEP expects that the project will cost approximately \$13.0 million with construction expected to be completed no later than the third quarter of 2014.

Cash Flows – Financing Activities

Six Months Ended June 30, 2014 Compared to Six Months Ended June 30, 2013

Net cash flows used for financing activities were \$349.1 million for the six months ended June 30, 2014 compared to \$678.7 million for the six months ended June 30, 2013, a decrease of \$329.6 million. During the six months ended June 30, 2014, we purchased \$20.1 million in common stock, paid \$323.1 million in dividends and recognized \$3.8 million excess tax benefits on our equity-based compensation. Additionally, we sold inventories to third parties with the obligation to repurchase later at contractually fixed prices. Proceeds of \$6.0 million received under these transactions are presented as a financing source of cash and are presented in our consolidated balance sheets as an accrued liability at June 30, 2014. Also during this period, HEP received \$477.1 million and repaid \$297.1 million under the HEP Credit Agreement, paid \$156.2 million upon the redemption of HEP's 8.25% senior notes, paid distributions of \$38.5 million to noncontrolling interests and purchased \$0.4 million in HEP common units for recipients of its incentive grants. During the six months ended June 30, 2013, we received \$73.4 million from the sale of HEP common units, purchased \$159.4 million in common stock, paid \$264.9 million in dividends, paid \$301.0 million upon the redemption of our 9.875% senior notes and recognized \$1.0 million excess tax benefits on our equity-based compensation. Also during this period, HEP received \$154.5 million and repaid \$220.5 million under the HEP Credit Agreement, paid distributions of \$34.6 million to noncontrolling interests, purchased \$2.9 million in HEP common units in the open market for recipients of its incentive grants and received proceeds of \$73.4 million upon its March 2013 common unit offering.

Contractual Obligations and Commitments

HollyFrontier Corporation

There were no significant changes to our contractual obligations during the six months ended June 30, 2014.

HEP

During the six months ended June 30, 2014, HEP received net borrowings of \$180.0 million resulting in \$543.0 million of outstanding borrowings under the HEP Credit Agreement at June 30, 2014.

In March 2014, HEP redeemed its \$150.0 million aggregate principal amount of 8.25% senior notes maturing March 2018.

There were no other significant changes to HEP's long-term contractual obligations during this period.

Table of Content

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Our significant accounting policies are described in “Part II, Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies” in our Annual Report on Form 10-K for the year ended December 31, 2013. Certain critical accounting policies that materially affect the amounts recorded in our consolidated financial statements include the assessment and consolidation of variable interest entities, the use of the LIFO method of valuing certain inventories, the amortization of deferred costs for regular major maintenance and repairs at our refineries, assessing the possible impairment of certain long-lived assets and goodwill, accounting for derivative instruments and assessing contingent liabilities for probable losses.

We use the LIFO method of valuing inventory. Under the LIFO method, an actual valuation of inventory can only be made at the end of each year based on the inventory levels at that time. Accordingly, interim LIFO calculations are based on management’s estimates of expected year-end inventory levels and are subject to the final year-end LIFO inventory valuation.

Goodwill represents the excess of the cost of an acquired entity over the fair value of the assets acquired and liabilities assumed. Goodwill is not subject to amortization and is tested annually or more frequently if events or circumstances indicate the possibility of impairment. As of June 30, 2014, there have been no impairments to goodwill.

New Accounting Pronouncements

Revenue Recognition

In May 2014, an accounting standard update (ASU 2014-09, “Revenue from Contracts with Customers”) was issued requiring revenue to be recognized when promised goods or services are transferred to customers in an amount that reflects the expected consideration for these goods or services. This standard is effective January 1, 2017, and we are evaluating the impact of this standard.

RISK MANAGEMENT

We use certain strategies to reduce some commodity price and operational risks. We do not attempt to eliminate all market risk exposures when we believe that the exposure relating to such risk would not be significant to our future earnings, financial position, capital resources or liquidity or that the cost of eliminating the exposure would outweigh the benefit.

Commodity Price Risk Management

Our primary market risk is commodity price risk. We are exposed to market risks related to the volatility in crude oil and refined products, as well as volatility in the price of natural gas used in our refining operations. We periodically enter into derivative contracts in the form of commodity price swaps and futures contracts to mitigate price exposure with respect to:

- our inventory positions;

natural gas purchases;
costs of crude oil and related grade differentials;
prices of refined products; and
our refining margins.

Table of Content

As of June 30, 2014, we have the following notional contract volumes related to all outstanding derivative contracts used to mitigate commodity price risk:

Contract Description	Total Outstanding Notional	Notional Contract Volumes by Year of Maturity				Unit of Measure
		2014	2015	2016	2017	
Natural gas price swap - long	67,200,000	9,600,000	19,200,000	19,200,000	19,200,000	MMBTU
Natural gas price swap - short	33,600,000	4,800,000	9,600,000	9,600,000	9,600,000	MMBTU
WTI price swap - long	18,456,000	14,076,000	4,380,000	—	—	Barrels
Ultra-low sulfur diesel price swap - short	11,832,000	7,452,000	4,380,000	—	—	Barrels
Sub octane gasoline price swap - short	6,624,000	6,624,000	—	—	—	Barrels
WCS price swap - long	3,220,000	3,220,000	—	—	—	Barrels
NYMEX futures (WTI) - short	2,935,000	2,935,000	—	—	—	Barrels
Forward sales - diesel and gasoline	100,000	100,000	—	—	—	Barrels

The following sensitivity analysis provides the hypothetical effects of market price fluctuations to the commodity positions hedged under our derivative contracts:

Commodity-based Derivative Contracts	Estimated Change in Fair Value at June 30,	
	2014	2013
	(In thousands)	
Hypothetical 10% change in underlying commodity prices	\$57,168	\$22,839

Interest Rate Risk Management

HEP uses interest rate swaps to manage its exposure to interest rate risk.

As of June 30, 2014, HEP had three interest rate swap contracts that hedge its exposure to the cash flow risk caused by the effects of LIBOR changes on \$305.0 million in credit agreement advances. The first interest rate swap effectively converts \$155.0 million of LIBOR based debt to fixed-rate debt having an interest rate of 0.99% plus an applicable margin of 2.00% as of June 30, 2014, which equaled an effective interest rate of 2.99%. This swap matures in February 2016. HEP has two additional interest rate swaps with identical terms which effectively convert \$150.0 million of LIBOR based debt to fixed rate debt having an interest rate of 0.74% plus an applicable margin of 2.00% as of June 30, 2014, which equaled an effective interest rate of 2.74%. Both of these swap contracts mature in July 2017. These swap contracts have been designated as cash flow hedges.

The market risk inherent in our fixed-rate debt is the potential change arising from increases or decreases in interest rates as discussed below.

For the fixed rate HollyFrontier Senior Notes and HEP Senior Notes, changes in interest rates will generally affect fair value of the debt, but not earnings or cash flows. The outstanding principal, estimated fair value and estimated change in fair value (assuming a hypothetical 10% change in the yield-to-maturity rates) for these debt instruments as of June 30, 2014 is presented below:

	Outstanding Principal	Estimated Fair Value	Estimated Change in Fair Value
	(In thousands)		
HollyFrontier Senior Notes	\$150,000	\$159,187	\$3,202

HEP Senior Notes	\$300,000	\$320,250	\$7,959
------------------	-----------	-----------	---------

For the variable rate HEP Credit Agreement, changes in interest rates would affect cash flows, but not the fair value. At June 30, 2014, outstanding borrowings under the HEP Credit Agreement were \$543.0 million. By means of its cash flow hedges, HEP has effectively converted the variable rate on \$305.0 million of outstanding principal to a weighted average fixed rate of 2.87%. For the remaining unhedged Credit Agreement borrowings of \$238.0 million, a hypothetical 10% change in interest rates applicable to the HEP Credit Agreement would not materially affect cash flows.

Table of Content

At June 30, 2014, our marketable securities included investments in investment grade, highly-liquid investments with maturities generally not greater than one year from the date of purchase and hence the interest rate market risk implicit in these investments is low. Due to the short-term nature of our cash and cash equivalents, a hypothetical 10% increase in interest rates would not have a material effect on the fair market value of our portfolio. Since we have the ability to liquidate this portfolio, we do not expect our operating results or cash flows to be materially affected by the effect of a sudden change in market interest rates on our investment portfolio.

Our operations are subject to hazards of petroleum processing operations, including fire, explosion and weather-related perils. We maintain various insurance coverages, including business interruption insurance, subject to certain deductibles. We are not fully insured against certain risks because such risks are not fully insurable, coverage is unavailable, or premium costs, in our judgment, do not justify such expenditures.

Financial information is reviewed on the counterparties in order to review and monitor their financial stability and assess their ongoing ability to honor their commitments under the derivative contracts. We have not experienced, nor do we expect to experience, any difficulty in the counterparties honoring their commitments.

We have a risk management oversight committee consisting of members from our senior management. This committee oversees our risk enterprise program, monitors our risk environment and provides direction for activities to mitigate identified risks that may adversely affect the achievement of our goals.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See “Risk Management” under “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Reconciliations to Amounts Reported Under Generally Accepted Accounting Principles

Reconciliations of earnings before interest, taxes, depreciation and amortization (“EBITDA”) to amounts reported under generally accepted accounting principles in financial statements.

Earnings before interest, taxes, depreciation and amortization, which we refer to as EBITDA, is calculated as net income attributable to HollyFrontier stockholders plus (i) interest expense, net of interest income, (ii) income tax provision, and (iii) depreciation and amortization. EBITDA is not a calculation provided for under GAAP; however, the amounts included in the EBITDA calculation are derived from amounts included in our consolidated financial statements. EBITDA should not be considered as an alternative to net income or operating income as an indication of our operating performance or as an alternative to operating cash flow as a measure of liquidity. EBITDA is not necessarily comparable to similarly titled measures of other companies. EBITDA is presented here because it is a widely used financial indicator used by investors and analysts to measure performance. EBITDA is also used by our management for internal analysis and as a basis for financial covenants.

Set forth below is our calculation of EBITDA.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(In thousands)			
Net income attributable to HollyFrontier stockholders	\$176,429	\$256,981	\$328,490	\$590,650
Add income tax provision	101,332	152,043	188,946	338,137
Add interest expense ⁽¹⁾	10,136	41,903	30,160	63,223

Edgar Filing: HollyFrontier Corp - Form 10-Q

Subtract interest income	(1,184) (778) (2,589) (2,309)
Add depreciation and amortization	101,390	70,492	181,938	142,254	
EBITDA	\$388,103	\$520,641	\$726,945	\$1,131,955	

(1) Includes loss on early extinguishment of debt of \$7.7 million for the six months ended June 30, 2014, and \$22.1 million for the three and six months ended June 30, 2013.

Table of Content

Reconciliations of refinery operating information (non-GAAP performance measures) to amounts reported under generally accepted accounting principles in financial statements.

Refinery gross margin and net operating margin are non-GAAP performance measures that are used by our management and others to compare our refining performance to that of other companies in our industry. We believe these margin measures are helpful to investors in evaluating our refining performance on a relative and absolute basis.

Refinery gross margin per barrel is the difference between average net sales price and average cost of products per barrel of produced refined products. Net operating margin per barrel is the difference between refinery gross margin and refinery operating expenses per barrel of produced refined products. These two margins do not include the effect of depreciation and amortization. Each of these component performance measures can be reconciled directly to our consolidated statements of income.

Other companies in our industry may not calculate these performance measures in the same manner.

Refinery Gross and Net Operating Margins

Below are reconciliations to our consolidated statements of income for (i) net sales, cost of products and operating expenses, in each case averaged per produced barrel sold, and (ii) net operating margin and refinery gross margin. Due to rounding of reported numbers, some amounts may not calculate exactly.

Reconciliation of produced product sales to total sales and other revenues

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
	(Dollars in thousands, except per barrel amounts)			
Consolidated

 Total produced refined products sales	 \$4,947,320	 \$4,255,549	 \$9,268,982	 \$8,286,545
Add refined product sales from purchased products and rounding ⁽¹⁾	203,724	656,271	473,338	1,065,978
Total refined product sales	5,151,044	4,911,820	9,742,320	9,352,523
Add direct sales of excess crude oil ⁽²⁾	170,634	322,524	336,041	558,774
Add other refining segment revenue ⁽³⁾	40,236	52,537	58,633	68,010
Total refining segment revenue	5,361,914	5,286,881	10,136,994	9,979,307
Add HEP segment sales and other revenues	75,024	75,121	162,036	151,605
Add corporate and other revenues	506	234	1,621	797
Subtract consolidations and eliminations	(64,844)	(63,388)	(136,998)	(125,072)
Sales and other revenues	\$5,372,600	\$5,298,848	\$10,163,653	\$10,006,637

(1) We purchase finished products when opportunities arise that provide a profit on the sale of such products, or to meet delivery commitments.

We purchase crude oil that at times exceeds the supply needs of our refineries. Quantities in excess of our needs are sold at market prices to purchasers of crude oil that are recorded on a gross basis with the sales price recorded

(2) as revenues and the corresponding acquisition cost as inventory and then upon sale as cost of products sold.

Additionally, at times we enter into buy/sell exchanges of crude oil with certain parties to facilitate the delivery of quantities to certain locations that are netted at carryover cost.

(3) Other refining segment revenue includes the incremental revenues associated with NK Asphalt and miscellaneous revenue.

(4) Other refining segment cost of products sold includes the incremental cost of products for NK Asphalt and miscellaneous costs.

(5) Other refining segment operating expenses include the marketing costs associated with our refining segment and the operating expenses of NK Asphalt.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures. Our principal executive officer and principal financial officer have evaluated, as required by Rule 13a-15(b) under the Securities Exchange Act of 1934 (the “Exchange Act”), our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) under the Exchange Act as of the end of the period covered by this Quarterly Report on Form 10-Q. Our disclosure controls and procedures are

designed to provide reasonable assurance that the information we are required to disclose in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon the evaluation, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2014.

Changes in internal control over financial reporting. There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during our last fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Commitment and Contingency Reserves

We periodically establish reserves for certain legal proceedings. The establishment of a reserve involves an estimation process that includes the advice of legal counsel and subjective judgment of management. While management believes these reserves to be adequate, future changes in the facts and circumstances could result in the actual liability exceeding the estimated ranges of loss and amounts accrued.

While the outcome and impact on us cannot be predicted with certainty, management believes that the resolution of these proceedings through settlement or adverse judgment will not have a material adverse effect on our consolidated financial position or cash flow. Operating results, however, could be significantly impacted in the reporting periods in which such matters are resolved.

Environmental Matters

We are reporting the following proceedings to comply with SEC regulations which require us to disclose proceedings arising under federal, state or local provisions regulating the discharge of materials into the environment or protecting the environment if we reasonably believe that such proceedings may result in monetary sanctions of \$100,000 or more. Our respective subsidiaries have or will develop corrective action plans regarding these disclosures that will be implemented in consultation with the respective federal and state agencies. It is not possible to predict the ultimate outcome of these proceedings, although none are currently expected to have a material effect on our consolidated financial position.

Frontier Refining LLC ("FR"), our wholly-owned subsidiary, has undertaken environmental audits at the Cheyenne Refinery regarding compliance with federal and state environmental requirements. By letters dated October 5, 2012, November 7, 2012, and January 10, 2013, and pursuant to EPA's audit policy to the extent applicable, FR submitted reports to the EPA voluntarily disclosing non-compliance with certain emission limitations, reporting requirements, and provisions of a 2009 federal consent decree. By letters dated October 31, 2012, February 6, 2013, June 21, 2013, July 9, 2013 and July 25, 2013, and pursuant to applicable Wyoming audit statutes, FR submitted environmental audit reports to the Wyoming Department of Environmental Quality ("WDEQ") voluntarily disclosing non-compliance with certain notification, reporting, and other provisions of the refinery's state air permit and other environmental regulatory requirements. Additional self-disclosures and follow-up correspondence are anticipated as the audit activities are completed. No further action has been taken by either agency at this time. The Cheyenne Refinery also has one outstanding Notice of Violations issued in 2013 that is subject to ongoing settlement negotiations with the WDEQ. The Notices of Violations issued in 2010 and 2011 have been settled. Additional air and other environmental audits for the Cheyenne Refinery are scheduled for 2014.

Between November 2010 and February 2012, certain of our subsidiaries submitted multiple reports to the EPA to voluntarily disclose non-compliance with fuels regulations at the Cheyenne, El Dorado, Navajo, Tulsa and Woods Cross refineries and at the Cedar City, Utah and Henderson, Colorado terminals. The EPA has requested additional information regarding certain of these reports, and our subsidiaries have complied with all requests received to date.

On July 2, 2014, Holly Refining & Marketing Company - Woods Cross LLC ("Woods Cross"), our wholly-owned subsidiary, received a letter issued by the U.S. EPA Region 8 dated June 26, 2014 describing certain instances where Woods Cross appeared to be in non-compliance with the refinery's 2008 Consent Decree and calculating proposed stipulated penalties in accordance with that decree. The letter requested information and documentation setting forth

Woods Cross's position on the EPA's assessment and further requested that Woods Cross provide reasons why the EPA's assessment may be incorrect. Woods Cross evaluated the EPA letter and submitted a response on July 29, 2014, explaining that many of the instances of apparent noncompliance are unwarranted and for those no penalty should be assessed. There has been no response from the EPA.

In correspondence dated December 26, 2013, the Oklahoma Department of Environmental Quality ("ODEQ") notified Holly Refining & Marketing - Tulsa LLC ("HRMT"), our wholly-owned subsidiary, of allegations of noncompliance with certain regulations, permit conditions and consent decree provisions at the Tulsa refinery. HRMT provided further information requested by ODEQ, and on July 29, 2014, the parties participated in a follow-up meeting where the ODEQ informed HRMT that it intended to seek penalties for allegations of failure to meet various permit or consent decree requirements, including failure to timely install monitoring equipment on a flare. HRMT plans to contest the allegations and proposed penalty.

Table of Content

Other

We are a party to various other litigation and proceedings that we believe, based on advice of counsel, will not either individually or in the aggregate have a materially adverse impact on our financial condition, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes in our risk factors as previously disclosed in Part 1, “Item 1A. Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013. You should carefully consider the risk factors discussed in our 2013 Form 10-K, which could materially affect our business, financial condition or future results. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) Common Stock Repurchases Made in the Quarter

Under our common stock repurchase programs, repurchases are being made from time to time in the open market or privately negotiated transactions based on market conditions, securities law limitations and other factors. The following table includes repurchases made under these programs during the second quarter of 2014.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
April 2014	105,000	\$49.56	—	\$311,571,488
May 2014	30,000	\$51.76	—	\$311,571,488
June 2014	100,000	\$45.08	—	\$311,571,488
Total for April to June 2014	235,000		—	

(1) Shares repurchased in the second quarter of 2014 were not purchased under our approved general stock repurchase program, but rather pursuant to separate authority from our Board of Directors to repurchase shares to offset shares issued under our compensation programs. These repurchases were made in the open market.

Item 6. Exhibits

The Exhibit Index on page 58 of this Quarterly Report on Form 10-Q lists the exhibits that are filed or furnished, as applicable, as part of the Quarterly Report on Form 10-Q.
