ILLINOIS TOOL WORKS INC.

5,000,000 Shares of Common Stock

This prospectus relates to 5,000,000 shares of common stock that Illinois Tool Works Inc. (“ITW”, the “Company”, “we” or “us”) may offer and issue from time to time in connection with future acquisitions of other businesses, assets or securities by us or our subsidiaries.

We will determine the amount and type of consideration to be offered and the other specific terms of each acquisition following negotiation by us or our subsidiaries with the owners or controlling persons of the businesses, assets or securities to be acquired. The consideration for any such acquisition may consist of shares of our common stock or a combination of common stock, cash, debt or other securities (which may be convertible into shares of common stock covered by this prospectus) or assumption of liabilities. The amount and type of consideration we may offer and the specific terms of each acquisition will be determined by negotiations with the owners or controlling persons of the businesses to be acquired. We may structure business acquisitions in a variety of ways, including acquiring stock, other equity interests or assets of the acquired business or merging the acquired business with us or one of our subsidiaries. We expect that the shares of common stock issued in connection with these transactions will be valued at a price reasonably related to the market value of our common stock either at the time an agreement is reached regarding the terms of the acquisition, at the time we issue the shares, or during some other negotiated period.

We will pay all expenses of this offering. We will not pay underwriting discounts or commissions in connection with issuing these shares, although we may pay finder’s or investment banking fees in specific acquisitions. Any person receiving a finder’s or investment banking fee may be deemed an underwriter within the meaning of the Securities Act of 1933 (the “Securities Act”).

Our common stock is listed on the New York Stock Exchange (“NYSE”) under the symbol “ITW”. On December 4, 2009, the reported last sale price for the common stock on the NYSE was \$48.49 per share.

These statements may be identified by the use of words such as “believe,” “expect,” “plans,” “strategy,” “prospects,” “estimate,” “project,” “target,” “anticipate,” “guidance,” and other similar words, in addition to, without limitation, availability of raw materials and energy, the expiration of any one of our patents, the cost of compliance with environmental regulations, the adequacy of internally generated funds and credit facilities, the meeting of dividend payout objectives, the ability to fund debt service obligations, payments under guarantees, our portion of future benefit payments related to pension and postretirement benefits, the availability of additional financing, the outcome of outstanding legal proceedings, the impact of adopting new accounting pronouncements and the estimated amount of unrecognized tax benefits. These statements are subject to certain risks, uncertainties, and other factors, which could cause actual results to differ materially from those anticipated. Important risks that may influence future results include (1) a further downturn in the construction, general industrial, automotive or food institutional/restaurant and service markets, (2) changes or deterioration in international and domestic business and economic conditions, particularly in North America, Europe, Asia or Australia, (3) the unfavorable impact of foreign currency fluctuations and costs of raw materials, (4) decreases in credit availability, (5) an interruption in, or reduction in, introducing new products into our product lines, (6) an unfavorable environment for making acquisitions, domestic and international, including adverse accounting or regulatory requirements and market values of candidates, and (7) unfavorable tax law changes and tax authority rulings. The risks covered here are not all inclusive and given these and other possible risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Forward-looking statements are inherently subject to risks and uncertainties, some of which we cannot predict or quantify. For a discussion of significant risks applicable to us, see “Risk Factors” below. Should one or more of these risks or uncertainties materialize, or should our underlying assumptions prove incorrect, actual outcomes may vary materially from those indicated.

80/20 Business Process

A key element of our business strategy is our continuous 80/20 business process for both existing businesses and new acquisitions. The basic concept of this 80/20 business process is to focus on what is most important (the 20% of the items which account for 80% of the value) and to spend less time and resources on the less important (the 80% of the items which account for 20% of the value). Our operations use this 80/20 business process to simplify and focus on the key parts of their business, and as a result, reduce complexity that often disguises what is truly important. Our 895 operations utilize the 80/20 process in various aspects of their business. Common applications of the 80/20 business process include:

- Simplifying product lines by reducing the number of products offered by combining the features of similar products, outsourcing products or, as a last resort, eliminating low-value products.
- Segmenting the customer base by focusing on the 80/20 customers separately and finding alternative ways to serve the 20/80 customers.
- Simplifying the supplier base by partnering with 80/20 suppliers and reducing the number of 20/80 suppliers.
- Designing business processes, systems and measurements around the 80/20 activities.

The result of the application of this 80/20 business process is that we have over time improved our long-term operating and financial performance. These 80/20 efforts can result in restructuring projects that reduce costs and improve margins. Corporate management works closely with those businesses that have operating results below expectations to help those businesses better apply this 80/20 business process and improve their results.

We were founded in 1912 and incorporated in 1915. Our principal offices are located at 3600 West Lake Avenue, Glenview, Illinois 60026. Our telephone number is (847) 724-7500. We maintain a website at www.itw.com. We are not including the information contained on our website as a part of, or incorporating it by reference into, this prospectus.

RISK FACTORS

Before you accept our common stock as all or part of the purchase price for our acquisition of your business, securities, or assets, you should carefully consider the risks described below and other information in this prospectus. Based on the information currently known to us, we believe that the following information identifies all known material risk factors relating to our business and the acquisition of our common stock. Risks and uncertainties are not limited to those set forth in the risk factors described below, however. Additional risks and uncertainties not presently known to us or that we currently believe to be less significant than the following risk factors may also impair our business operations. Our business, financial condition or results of operations could be materially adversely affected by any of these risks.

This prospectus also contains or incorporates by reference forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in those forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere in this prospectus. See “Forward-Looking Statements.”

Risks Relating to Our Business

For a discussion of risks related to our business and operations, please see “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for our fiscal year ended December 31, 2008, as updated by our Current Report on Form 8-K filed August 7, 2009, and “Management’s Discussion and Analysis” in our Quarterly Reports on Forms 10-Q for our fiscal quarters ended March 31, 2009 (as updated by our Current Report on Form 8-K filed August 7, 2009), June 30, 2009 and September 30, 2009, which are incorporated by reference in this prospectus, as well as similar disclosures contained in our filings with the SEC subsequent to the date of this prospectus.

Risks Relating to the Offering

Our acquisitions and other transactions could disrupt our ongoing business and harm our results of operations.

In pursuing our business strategy, we routinely conduct discussions, evaluate opportunities, and enter into agreements regarding possible investments, acquisitions, and other transactions. Acquisitions and other transactions involve significant challenges and risks, including risks that:

- we may not be able to identify suitable opportunities at terms acceptable to us;
- the transaction may not advance our 80/20 business process;
- we may not realize a satisfactory return on the investment we make;
- we may not be able to retain key personnel of the acquired business; or
- we may experience difficulty in integrating new employees, business systems, and technology.

If we do enter into agreements with respect to acquisitions or other transactions, we may fail to complete them due to:

- failure to obtain required regulatory or other approvals;
- intellectual property or other litigation;
- difficulties that we or other parties may encounter in obtaining financing for the transaction; or
- other factors.

Further, acquisitions and other transactions require substantial management resources and have the potential to divert our attention from our existing business. These factors could harm our business and results of operations.

DESCRIPTION OF CAPITAL STOCK

General

As of December 1, 2009, the authorized capital stock of ITW consists of 700,000,000 shares of common stock, par value \$0.01 per share, and 300,000 shares of preferred stock, no par value. As of December 1, 2009, there were 502,202,097 shares of common stock issued and outstanding. No preferred stock is issued and outstanding.

Common Stock

Holders of common stock are entitled to one vote for each share held of record, in person or by proxy, at all meetings of the stockholders and on all propositions presented to such meetings (other than the election of any directors who may be elected by vote of the preferred stock voting as a class). The common stock does not entitle holders to cumulative voting rights in the election of directors. Holders of common stock do not have preemptive rights.

All outstanding shares of common stock are fully paid and nonassessable. Dividends may be paid on the common stock when and if declared by the Board of Directors out of funds legally available therefor. Upon liquidation, dissolution, or winding up of the affairs of ITW, its assets remaining, after provision for payment of creditors and holders of any preferred stock, are distributable pro rata among holders of its common stock.

The common stock is listed and traded on the NYSE. The transfer agent and registrar of the common stock is Computershare Investor Services LLC, Canton, Massachusetts.

Preferred Stock

ITW's preferred stock is issuable in series. The preferred stock is senior to the common stock, both as to payment of dividends and distribution of assets. The designation, preferences and rights of each series may be established by the Board of Directors, including voting rights, dividends, redemption features, payments on liquidation and sinking fund provisions, if any. The preferred stock may be utilized for a variety of corporate purposes, including future public offerings to raise additional capital or to finance acquisitions. The preferred stock also could be issued to persons friendly to current management with terms that could render more difficult or discourage attempts to gain control of ITW by means of a merger, tender offer, proxy contest or otherwise and thereby protect the continuity of current management. The preferred stock also could be used to dilute the stock ownership of persons seeking to obtain control of ITW.

Special Charter and Bylaw Provisions

ITW's Restated Certificate of Incorporation, as amended, and its By-Laws, as amended and restated, contain provisions that could render more difficult a merger, tender offer, proxy contest or attempt to gain control of the Board of Directors, or that could dilute the voting control of a holder of a large block of stock. The Restated Certificate of Incorporation, as amended, provides that an affirmative vote of the holders of not less than two-thirds of the outstanding shares of capital stock entitled to vote for directors is required to approve mergers or consolidations between ITW (or its subsidiaries) and a Substantial Stockholder, transfers of a substantial amount of assets or stock from ITW to a Substantial Stockholder or vice versa, adoption of a Substantial Stockholder's proposal to dissolve ITW, or any transaction relating to ITW's stock that results in a Substantial Stockholder's proportionate share being increased.

The Restated Certificate of Incorporation, as amended, also requires the approval of the foregoing transactions by the holders of at least a majority of the outstanding shares of capital stock entitled to vote for directors, excluding those shares owned by a Substantial Stockholder. The special voting requirements do not apply to (i) transactions approved by not less than two-thirds of ITW's Board of Directors who are not affiliates or associates of a Substantial Stockholder, (ii) transactions approved by the Board of Directors prior to such time as the Substantial Stockholder became a Substantial Stockholder, (iii) transactions between ITW and its majority-owned subsidiaries, or (iv) transactions in which a minimum price is received by ITW stockholders. A Substantial Stockholder is defined in the Restated Certificate of Incorporation, as amended, as a beneficial owner of more than 10% of the capital stock of ITW entitled to vote for directors, excluding shares owned on March 2, 1984.

The Restated Certificate of Incorporation, as amended, also prohibits stockholder action by written consent, permits only the Board of Directors to fill vacancies on the Board, whether created by an increase in the number of directors or otherwise, and permits special meetings of stockholders to be called only by the chairman, the president or a majority of the board of directors. The affirmative vote of at least two-thirds of the voting power of ITW, and if there is a Substantial Stockholder, the holders of a majority of the voting power (other than that of the Substantial Stockholder), is required to approve any amendment to, or repeal of, any of the foregoing provisions.

PLAN OF DISTRIBUTION

This prospectus relates to shares of common stock that we may offer and issue from time to time in connection with future acquisitions of other businesses, assets or securities by us or our subsidiaries. We will determine the amount and type of consideration to be offered and the other specific terms of each acquisition by us or our subsidiaries

following negotiation with the owners or controlling persons of the businesses, assets or securities to be acquired. The consideration for any such acquisition may consist of shares of our common stock or a combination of common stock, cash, debt or other securities (which may be convertible into shares of common stock covered by this prospectus) or assumption of liabilities. We may structure business acquisitions in a variety of ways, including acquiring stock, other equity interests or assets of the acquired business or merging the acquired business with us or one of our subsidiaries.

We expect that the shares of common stock issued in connection with these transactions will be valued at a price reasonably related to the market value of our common stock either at the time an agreement is reached regarding the terms of the acquisition, at the time we issue the shares, or during some other negotiated period.

This prospectus may be supplemented to furnish the information necessary for a particular negotiated transaction and the registration statement of which this prospectus is a part will be amended or supplemented, as required, to supply information concerning an acquisition.

We will pay all expenses of this offering. We will not pay underwriting discounts or commissions in connection with issuing these shares, although we may pay finder's or investment banker fees in specific acquisitions. Any person receiving a finder's fee may be deemed an underwriter within the meaning of the Securities Act.

In an effort to maintain an orderly market in our securities or for other reasons, we may negotiate agreements with persons receiving common stock covered by this prospectus that will limit the number of shares that they may sell at specified intervals. These agreements may be more or less restrictive than restrictions on sales made under the exemption from registration requirements of the Securities Act, including the requirements under Rule 144 or Rule 145(d), and the persons party to these agreements may not otherwise be subject to the Securities Act requirements. We anticipate that negotiated agreements generally will be of limited duration and will permit the recipients of securities issued in connection with acquisitions to sell up to a specified number of shares per week or business day or days. We may also determine to waive any such agreements without public notice.

RESALES OF COMMON STOCK

Persons to whom we issue our common stock may want to resell those shares in distributions that would require the delivery of a prospectus. With our consent, this prospectus may be used by selling stockholders, and any transferees or successors-in-interest to those persons, who from time to time offer and sell some or all of the shares covered by this prospectus. We may limit our consent to a specified period and subject our consent to certain limitations and conditions, which may vary by agreement.

Resales by selling stockholders may be made directly to investors or through a securities firm acting as an underwriter, broker or dealer. When resales are made through a securities firm, the selling stockholder may engage that securities firm to act as the selling stockholder's agent in the resale, or the securities firm may purchase shares from the selling stockholders as principal and thereafter resell those shares from time to time. The fees earned by or paid to such securities firm may be the normal stock exchange commission or negotiated commissions or underwriting discounts, to the extent permissible. In addition, such securities firm may effect resales through other securities dealers, and customary commissions or concessions to those dealers may be allowed. Resales may be at negotiated, fixed or market prices or at prices related to prevailing market prices. Any resales may be made on the NYSE, in the over-the-counter market, by block trade, in special or other offerings, directly to investors or through a securities firm acting as agent or principal, or through a combination of these methods. Any participating securities firm may be indemnified against certain liabilities, including liabilities under the Securities Act. Any participating securities firm may be deemed to be an underwriter within the meaning of the Securities Act, and any commissions earned by that securities firm may be deemed to be underwriting discounts or commissions under the Securities Act.

In connection with resales of the shares sold under this prospectus and if required by the Securities Act and the SEC rules, a prospectus supplement or a post-effective amendment to the registration statement of which this prospectus is a part will be filed under the Securities Act identifying any selling stockholder, any participating securities firm, the number of shares involved, any material relationship a selling stockholder may have with us or our affiliates within the past three years, and other details of such resale to the extent appropriate. Information concerning the selling stockholders will be obtained from the selling stockholders.

Selling stockholders may also offer shares of stock issued in past and future acquisitions by means of prospectuses under other available registration statements or pursuant to exemptions from the registration requirements of the Securities Act, including sales that meet the requirements of Rule 144 or Rule 145(d) under the Securities Act. Selling stockholders should seek the advice of their own counsel about the legal requirements for such sales.

LEGAL MATTERS

Certain legal matters with respect to the validity of the common stock offered hereby has been passed upon for us by Janet O. Love, Esq. (or other senior general counsel as may be designated by us). Ms. Love, in her capacity as Associate General Counsel and Assistant Secretary, is a participant or is eligible to participate in various of our employee benefit and incentive plans, including our stock incentive plan, offered to employees. INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers.

Section 102(b) (7) of the Delaware General Corporation Law (the “DGCL”) permits a corporation, in its certificate of incorporation, to limit or eliminate the liability of directors to the corporation or its stockholders for monetary damages for breaches of fiduciary duty, except for liability (a) for any breach of the director’s duty of loyalty to the corporation or its stockholders, (b) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (c) under Section 174 of the DGCL, or (d) for any transaction from which the director derived an improper personal benefit. The provisions of Article Thirteenth of the Registrant’s Restated Certificate of Incorporation eliminate the personal liability of directors of the Registrant to the extent set forth in the DGCL.

Under Section 145 of the DGCL, a corporation has the power to indemnify directors and officers against expenses (including attorneys’ fees actually and reasonably incurred), judgments, fines and settlements, in connection with any action, suit or proceeding (other than derivative actions), whether civil, criminal, administrative or investigative, if it is determined that such person acted in good faith and in a manner he or she reasonably believed to be in (or not opposed to) the best interests of the corporation and, in the case of a criminal action, had no reasonable cause to believe that his or her conduct was unlawful. In a derivative action brought by or in the right of the corporation, the DGCL permits indemnification of any such person if he or she acted in good faith and in a manner he or she reasonably believed to be in (or not opposed to) the best interests of the corporation, but no indemnification may be given where such person has been found to be liable to the corporation unless (and only to the extent that) a court determines that despite such finding of liability, such person is fairly and reasonably entitled to indemnification against such expenses which the court deems proper. Article V of the Registrant’s By-Laws provides for indemnification of the Registrant’s directors and officers to the fullest extent permitted by the DGCL. Article V further permits the Registrant to maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Registrant, or is or was serving at the request of the Registrant as a director, officer, employee or agent of another entity, against any liability asserted against such person and incurred by such person in any such capacity or arising out of his status as such, whether or not the Registrant would have the power to indemnify such person against such liability under the DGCL.

The Registrant’s directors and officers are covered by insurance policies directly insuring them against certain liabilities, including certain liabilities arising under the Securities Act, which might be incurred by them in such capacities and against which they cannot be indemnified by the Registrant.

(a) Exhibits

See “Exhibit Index” following the signature pages and incorporated by reference.

Item 22. Undertakings.

The undersigned Registrant hereby
(a) undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

- (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and
- (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) That, for purposes of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (§230.430A of this chapter), shall be deemed to be a part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
- (5) That, for the purpose of determining liability of the Registrant under the Securities Act of 1933 to any purchaser in the initial distribution of securities:

The undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 424 (§230.424 of this chapter);
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the undersigned Registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.

(b) The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the Registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) The undersigned Registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to security holders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.

(d) The undersigned Registrant hereby undertakes as follows:

(1) that prior to any public reoffering of the securities registered hereunder through use of a prospectus which is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form; and

(2) that every prospectus: (i) that is filed pursuant to paragraph (1) immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(e) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(f) The undersigned Registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Item 4, 10(b), 11 or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

(g) The undersigned Registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of

and included in the registration statement when it became effective.

Re: Illinois Tool Works Inc. Registration Statement on Form S-4

Ladies and Gentlemen:

I am Associate General Counsel and Assistant Secretary of Illinois Tool Works Inc., a Delaware corporation (the "Company"), and I am delivering this opinion in connection with the Registration Statement on Form S-4 (the "Registration Statement") filed by the Company with the Securities and Exchange Commission under the Securities Act of 1933, as amended (the "Act"). The Registration Statement relates to the registration of 5,000,000 shares (the "Shares") of common stock, \$0.01 par value per share (the "Common Stock"), that may be offered or sold from time to time in the future in connection with the Company's acquisition of other businesses, assets, properties, or securities in business combination transactions.

I am delivering this opinion in my capacity as Associate General Counsel and Assistant Secretary of, and as counsel to, the Company and without personal liability. In that capacity, I have examined the proceedings taken by the Company for the authorization and issuance of the Common Stock. I also have examined originals or copies, certified or otherwise identified to my satisfaction, of such corporate records and other agreements, documents and instruments, and of such certificates or comparable documents of officers and representatives of the Company, and have made such inquiries of such officers and representatives and have considered such matters of law as I have deemed appropriate as the basis for the opinions hereinafter set forth.

In all cases, I have assumed the genuineness of signatures, the authenticity of documents submitted to me as originals, the conformity to authentic original documents of documents submitted to me as copies and the accuracy and completeness of all corporate records and other documents made available to me by the Company.

Based on the foregoing, and subject to the qualifications, limitations and assumptions stated herein, in my opinion, when the necessary corporate action on the part of the Company has been taken to authorize the issuance and sale of any Shares proposed to be sold by the Company, and when such Shares are issued and delivered in accordance with the applicable agreement against payment therefor (in excess of par value thereof) for the consideration approved by the Board of Directors (which consideration is not less than the par value of the Common Stock), such Shares will be validly issued, fully paid and non-assessable.

In connection with the opinions expressed above, I have assumed that, at or prior to the time of the delivery of any Shares, there shall not have occurred any change in law affecting the validity or enforceability of the Shares. I have also assumed that the issuance and delivery of the Shares will not violate any applicable law or public policy or result in a violation of any provision of any instrument or agreement then binding upon the Company, or any restriction imposed by any court or governmental body having jurisdiction over the Company.

I am a member of the bar of the State of Illinois. The opinions expressed above are limited to the laws of the State of Illinois, the General Corporation Law of the State of Delaware (including the statutory provisions, all applicable provisions of the Delaware Constitution and reported judicial decisions interpreting the foregoing) and the federal laws of the United States of America, and I express no opinion concerning the laws of any other jurisdiction.

I hereby consent to the filing of this opinion as an exhibit to the Registration Statement referred to above and further consent to the reference to my name under the caption "Legal Matters" in the prospectus, which is a part of the Registration Statement. In giving this consent, I do not admit that I am in the category of persons whose consent is required under Section 7 of the Securities Act.

Very truly yours,

/s/ Janet O. Love
